#### AUSTRALIA'S GREAT UNDER-TAKING.

The Government and people of Australia, as did those of Canada at the union of the provinces, have concluded that confederation cannot be complete until a railroad from ocean to ocean has been built.

the railway, which is the most ambitious project the Commonwealth has yet undertaken, at \$20,000,000, but probably it will considerably exceed that amount. The obstacles to be surmounted are vastly different from those encountered by the men who built Canada's first transcontinental line. Instead of boring through mountain rock for a passage, the Australian railway builders have before them the great Victorian desert over which not even a wagon has yet passed. Three million dollars must be expended in providing water supply, necessitating the building of reservoirs in many places. The cost of bridges and viaducts, however, will not be very heavy.

for a through passenger train daily. and three freight trains a week. The construction of the railway means the shortening of the time occupied in the transit of mails from England to Melbourne and East Australia by several days, while in the event of war eral days, while in the event of war sparsely populated West Australia will
