A SOCIAL EVENING

Pleasant Time Spent Friday Night

on Adelaide Street.

The B. Y. P. U., of Adelaide Street Baptis' Church, held a social evening in the Sunday school room of the church Monday evening, which was very largely attended, and very much enjoyed by all, A splendid programme had been arranged for the occasion, and some very good local talent had been secured. Mr. Cyril Hayes, who has just returned after a study course at the Manchester School of Elocution. Manchester England, rendered ton. Manchester England, rendered

two splendid selections that were a
decided feature of the evening. Mr.
Ed. Webster rendered a solo in his
usual capable manner, and Miss Pearl
Maynard and Miss Rapsey gave pleasing plano selections. A feature of the
programme was Miss Ethel Patterson,
a tiny tot, who recited remarkably
well for one so young. She made a
tremendous hit. Mr. H. S. Field was
a very able chairman.
At the conclusion of the programme
refreshments were served and a
pleasant social hour spent.

Lumber Journal," or it would not have been telegraphing in a panic to find out whether there even was such a paper published in Wilmington. Its facsimile of the title-page of that journal, published today is taken from the "literature" furnished by the bureau at Ottawa to the Free Press and other papers who want that sort of thing.

The Southern Lumber Journal is only one of a number of publications in the United States which represent Big Interests opposed to the pact. Their game is to talk annexation, and ship their stuff over to the anti-reciprocity bureau at Ottawa, with which they are in collusion. Behind the annexation false-face are hidden, but not altogether hidden, the features of the Big Interests in both countries. Here is the real "Continentalism" that imperils the common people in Canada and the United States alike, the alliance of American agricultural and lumbering interests with the food combines in Canada to beat the great relief measure and keep up the cost of living.

A BLIND STENOGRAPHER.

A remarkable feat was performed by Mr. Maurice J. Myers, a blind stenographer, who reported all the discussions at the recent Conference on the Treatment of the blind, at Exeter, England. Mr. Myers' notes, on a narrow strip of paper, extended to a length of two and a quarter miles, and contained approximately 800,000 dots.
