#### CARLING'S CREEK MATTER

Mr. J. N. Currie, reeve of Glencoe. Trouble Over the Nuisance is Being Amicably Arranged-Injunction Will Not Be Pressed.

> At the meeting of the board of health Friday afternoon a filing system, in which information for the citizens could be kept, and furnished on application, was advocated by Mr. W. H. Abbott. A committee composed of Dr. Williams, Mr. Abbott and W. N. Manning will go into the matter and report at the next meeting.

Mr. Abbott declared that at the present time there was little information to be obtained. There was no nling system, and as a result the citizens generally could not find out what was wanted.

Regular reports of milk vendors restaurants and laundries, city water and schools, etc., should be furnished and filed for reference. The health of the school children was an important feature, and any information that would give light on the question should be furnished the board.

"The idea is a good one," declared

Dr. Williams. The health of the city is unusually good. There is not a case of diphtheria, and but seven cases of scarlet fever, none of them serious. No other epidemic exists in the city.

The Carling Creek matter is being amicably arranged, C. S.
