No Appetite

Nervous exhaustion leads to distaste for food. The nerves of the stomach are weak, digestion fails and you become generally upset and out of sorts.

The secret of complete restoration is in getting the nervous system fully built up.

Mrs. R. Cheney, 208 Richmond St., Chatham, Ont., writes:

"I was troubled with indigestion, which caused me many sleepless nights. I would be in terrible distress at times, and would get no relief for two or three and would get no relief for two or three hours. For sixteen months I ate nothing but Shredded Wheat biscuits, as I dare not eat anything else. I did not know what to do, as I had tried so many different remedies, as well as doctors medicines, without gaining permanent relief. Finally I got some of Dr. Chase's Nerve Food, and while on the second box noticed that I was improving. continued the treatment until I am pw fully restored, and have returned to g regular diet. My husband has also then Dr. Chase's Nerve Food with plendid results, so we are glad to

MIDLAND, Ont., Nov. 27 .- In a stir. ing address here last night Hon. W. E. In part the attorney-general said: to what is the real issue in the present campaign for the election of a new parliament of Canada. Premier Meighen says it is the tariff and nothing else. Well, Mr. Meighen is wrong. The tariff is only an item in the larger Issue. That larger issue is the issue of privilege against equality, and of

It was first reported that two Gallagher brothers of Kingston, Joseph and Frank, had been lost, but it is now believed that they were not on the steamer when it left Oswego.

Canada Not Invited. "This conference was called by the president of the United States-and

Canada was not invited.

"Why was Canada not invited?

"For the reason, it is said, that though the government of Great Britain and of Canada had announced. Britain and of Canada had announced during and after the close of the late war that Canada was now on autonomous nation under the same king as Great Briatin, President Harding had chosen to take the view in his antagonism to the treaty of peace with Germany negotiated by President Wilson many negotiated by President Wilson, that Great Britain with her dominions, Canada and the rest, constituted one dian nine per cent beer were confiscated by police and prohibition enforcement officials here early this morning, an hour after the cargo had been hauled into the Ironville slip in Maumee Bay.

"The United States, it will be re-called, was the only allied nation that did not recognize Canada's status as a member of the League of Nations. That status was recognized by President Wilson, but the United States Senate, of which President Harding was then a member, declined to approve the treaty of the league.

"It is quite clear that, natural-born Canadian and good Canadian though Mr. Meighen is, he has not himself got the vision of Canada he talks so much about when he is deriding the farmers. Canadians demand that the Canadian premier's first interest shall be Canada and things Canadian, and that from the people of Canada requesting Canada shall have from foreign nations at least as much attention and government of Canada with reference espect as is given to China and Portu-

"And we are not left to conjecture as to Mr. Meighen's attitude on the subject of imperial relations. Though there was no official report of the proceedings of the late conference, because the sessions of premiers in London were behind closed doors, Mr.

Meighen has a publicity bureau, and that bureau reported that Mr. Meighen insisted upon these three points:

'First—That on all questions of foreign policy which more directly concern the British government, such as matters arising in connection with Palestine, Mesopotamia and the Middle East, the governneedings of the late conference, be-

and the Middle East, the govern-ment of the Dominions should be kept thoroughly and constantly in-

all such treaties, even when enter-ed into, be subject to the approval of the Dominion parliaments.'

Meighen was in London attending a conference of premiers of Great Britain and the Dominions.

of the Dominion parliaments."

"These points are as clear and explicit a pronouncement against Canadian national autonomy, and in favor of a scheme of imperial federation as language could make them, and are a categorical reversal of the attitude on this question of every premier of Canada since 1867, and even before that time. ECONOMY and RETRENCHMENT

Therefore, it would be most unwise for him to tell Lon= don audiences that he favors that policy. But while he is talking protection in London, Liberal candidates in the West are promising their hearers that if they are elected they will take down the tariff wall and throw the country open to free trade.

We Can't Have Free Trade and Protection As Well

Therefore, take it for granted that if the Liberal party wins the members from the West will insist that the free trade plank shall be carried out. Mr. Somerville will be powerless to prevent it, no matter what he may tell you now. We can't have free trade and protection at the same time, and a Liberal victory means that the Canadian factories will have to compete with the great factory capacity of the United States and the underpaid workers of Europe and Asia.

Mr. Frank White Realizes This

And he has the advantage of preaching the policy of Mr. Meighen, who tells the same story all over Canada. The National Liberal and Conservative party has a stable policy of protection for the Canadian workmen -of steady employment and the full dinner pail. They do not talk one thing in the east and another thing in the west. If they win their policy of moderate protection will be continued, and the Canadian industries will be preserved.
