Grain Markets WINNIPEG

WINNIPEG

Canadian Press Despatch.

Winnipeg, March 5. — The wheat market today was showing further signs of strength, with an excellent demand coming out early from exporters and consuming interests. The trade volume was fairly large, and hedging sales by country elevators were easily absorbed. Later on, when the buying power diminished, the market became quiet, but showed a firm undertone, and prices held very steady at yesterday's close. Seaboard advices reported a much better undertone to the cables, and that some export business had been worked, largely Manitobas. The feeling is also growing that the bulk of Canadias wheat at lower lake ports has been placed, and that the United Kingdom needs further importations.

The Cash coarse grains and hax continue dull, with offerings light and spreads unchanged.

CHICAGO

Associated Press Despatch. Associated Press Despatch.

Chicago, March 6.—Corn took an upward swing in price today during the early dealings, and imparted more or less firmness to other grains. Pit offerings of corn were scarce. After opening at 1/2c off to a shade advance, the corn market scored moderate general gains.

Wheat was influenced by the oorn strength, and by expectations that a tariff rise would soon be announced. The opening, which ranged from 1/2c to 1/2c off to 1/2c higher, was followed by a slight sag and then by a new rally.

Oats lacked aggressive support. Starting unchanged to 1/2c higher, the market receded somewhat.
