EVASION CLAIM NOT JUSTIFIED

Chief Justice Mulock Objects To Suggestion Involving Home Bank Director.

Canadian Press Despatch. Toronto, May 11.-Whatever J. F. M. Stewart owed the Home Bank, either personally or through his companies, had been paid and his personal honor was not involved in transactions revealed in his trial for alleged negligence in concurring in a deceptive report, it was asserted by Chief Justice Mulock this morning while presiding over the hearing of Stewart's appeal from

D. L. McCarthy, K.C., crown coun-D. L. McCarthy, K.C., crown counsel, suggested that there was in a sense "an evasion of the act," in the fact that financial loans made by the bank to Stewart's company were not revealed in the statement to the minister of finance, but the chief justice told him the facts did not warrant that suggestion. The act requires that bank loans to directors be reported. Mr. McCarthy com-

warrant that bank loans to directors be reported. Mr. McCarthy completed his argument at noon and will be followed by McGregor Young. K.C., his associate.

Minutes of directors' meetings were quoted by Mr. McCarthy in an effort to show that at meetings at which Mr. Stewart had attended there had been reports on some of the large loans which he blamed for wrecking the bank and therefore Stewart had knowledge of these transactions and at least sholud have been put on his enquiry. been put on his enquiry.

IRISH OFFICIALS ARE LOYAL TO THE CROWN

Provost of Trinity College, Dublin, in Canada To Attend Diocese Centennial.

Canadian Press Despatch. Montreal, May 11.-Ireland, among governmental circles, is loyal to the British crown, and the government has declared its adherence to the treaty and constitution, declared the Most Rev. and Right Hon. J. H. Bernard, D.D., provost of Trinity college, Dublin, in Montreal, after havlege, Dublin, in Montreat, after naving disembarked from the Canadian Pacific liner Empress of Scotland.

Dr. Bernard was asked by the Archbishop of Canterbury to come to Canada to represent the Church of England at the centennial of the disease of Niagara. Dr. Bernard has diocese of Niagara. Dr. Bernard has been asked to deliver a number of sermons at addresses at Hamilton, Dr. Bernard has where it is his intention to remain

Dr. Bernard preached last night in about six days. Christ church cathedral. He is to speak again today, and is to be given a reception in St. George's rectory, at which Sir Arthur Currie will deliver a cadress of welcome.

at which Sir Arthur Currie will deliver an address of welcome.

Tomorrow he will go on to Ottawa to deliver another series of addresses, and from there he will pass on to Toronto for several days, reaching Hamilton about the 25th of this month. Following his sojourn in Hamilton, Dr. Bernard will take a short trip through the United States and proposes returning to England and proposes returning to England

SEEK PACK OF DOGS THAT WORRIES CATTLE

Tunks Farm, Westmount, Visited By Animals—Cows Badly Frightened.

The same dogs that worried heifer to death last week, owned by Allan Tunks of Brick street, are believed to be responsible for the worrying of six fine head of cattle owned by his son, Stanley Tunks of Westmount, opposite the Springbank

reservoir. Saturday morning, Mr. Tunks heard a pack of dogs barking in his woods half a mile distant. Hurrying to the house for his gun, he rushed k to the woods to find that the dogs had departed. The cows were in an exhausted and frightened condition, and it was some time before he could round them up and drive them to a pasture closer to the

CITY ON SEVENTH MILE OF IMPROVED LIGHTS

unhurt. The occupants of the rig London's seventh mile of improved also escaped serious injury. Associated Press Despatch. Southampton, Eng., May 11.—The coroner's jury today returned a verdict that the Honorable Francis John

London's seventh mile of improved street lighting system is now in process of installation by the public utilities commission staff.

The commission has thus far equipped six miles of streets with the holophane reflector system, including the state of a require learths of King. stretches of varying lengths on King street, Waterloo street and Dundas The new, improved system is now being put up on Wharncliffe

Thus the commission is gradually replacing the old, unsatisfactory lighting system with an up-to-date that, so far, has been greet ed by nothing else than favorable comment on all sides on the score of its efficiency.

The new system is proving eco-nomical as well, both as to installa-tion and cost of upkeep. To install the system it costs approximately \$350 per mile, since each light with specially-designed, four-way re-ector costs about \$35, and an agerage of ten lights is used per mile.

NEW PARK POLICEMAN MAY BE GIVEN BICYCLE

John Langley, newly appointed policeman at Springbank Park, may be provided with a bicycle by the public utilities commission in order be provided with a bicycle by the public utilities commission in order that he may more readily patrol the the University of Western Ontario, will represent Western at the Canapark.

A. O. Hunt, acting manager of the commission, said this morning that Mr. Langley would not assume his new duties until Friday of this week despite the fact that the Victor Amusement Company has advertised the grand opening of its arms ment park for next Wednesday night.

will represent Western at the Canadian university conference which will be held in Halifax, June 2 to 5, inclusive.

Problems relating to the Canadian universities will be taken up. Among these will be medical education, registrar duties, and intercollegiate athletics.

BERT SPITTAL CHOSEN HEAD OF ROTARIANS

Continued From Page One. their powers and all their success depends, and if the medical profession can raise the health of the people to a higher level it is going a sion can raise the health of the people to a higher level it is going a long distance toward the solution of our other problems. Medical science is over 2,000 years old, and it was hewn out of the rocks of bitter experience, and its trail is marked by perience, and its trail is marked by the sacred memories of men who have not hesitated to lay down their lives in the pursuit of experimental work in order that a new discovery might be made available to the world

at large.
Average Cost Is \$20,000. "What does it cost to make a doc-It takes ten years of time, and

work, Dr. Routley deciared that bub-lic health service, as carried on in London, is second to none in the continent, and in passing paid his compliments to those who display hostility toward the proper treat ment for smallbox and other maladies on the ground that the treat ment is an infringement on their personal liberties.

He also spoke plainly to the busi-

nessmen present, urging them that while they were interested in costs of production and safety measures for their employees, they should take heed to check up the dynamo of the institution, the man who ran the place, and see that he was physically fit. "You say you are as fit as a fiddle. But be sure that you are. is a duty you owe to yourself and to

your family."
"You have heard it argued that the doctor is a non-producer, and that he simply thrives on the ills of the people. There are 9,000 doctors in Canada to nine million people, one each thousand. In that group of each thousand. In that group of the state of the advance of 1,000 there will be 200 producers, or breadwinners, and their average worth to the community is \$3,000 per year, or a total of \$600,000. If the year, or a total of \$600,000. If the state of th medical man only kept these people per cent more fit it would be worth \$60,000 a year.

Medical Science's Wonders. "Medical science has done things that are real. In the South African war, where one million men were engaged, 50,000 died of typhoid fever; in the great war, where there were 12,000,000 in action, the deaths from typhoid amounted to less than 12,000. In 1893, in England, out of every million people 229 died of typhoid; in 1903 the number was 112, and in 1922 and in getting much-needed food and water to the surrounded garrison.

it had been reduced to 12. Smallpox records show a death ate of 4,000 to per million of popuation brought down to 14. Advance has been made against tuberculosis In 1847 and for twenty years follow ing the death rate per million of population was 3,189, and in 1921 it had been brought down to 854. In Canada infant mortality stood at 150.

Life Has Been Prolonged.

In spite of the era of accidents in which we are living, life has been prolonged to an average of eleyen years per person.

Dr. Routley explained the manner in which the medical associations were working to keep the men who had graduated in close touch with the latest developments, in this way keep-

ing them abreast of the times and informed on all the new methods visitors for the day included W. F. Cockshutt and A. K. Bunnell of Brantford; Ben Badington of Toron-to, and W. Macdonald of St. Catha-
