PARIS, Aug 24-Salvator Patti, father in the vicinity of Pattney, Hammer-smith, Cheswick, Barnes, Mortlake, etc, were thronged with pedestrians. The railway company found themselves almost unable to provide cars sufficient to carry the vast numbers waiting at the monstration of gratitude and sympathy depots, and it is no exaggeration to state that probably one million of people witnessed the race. The Harvard crew won the toss for position. Both boats started at five hours, 14 min six and half seconds; the tide at the start was sluggish and a slight south-west breeze prevailed with smooth water. The Harvards were first to catch the water and took the lead gaining upon their oppo-nents and making forty-five strokes per minute against the Oxfords forty. At Bishop's Creek, three furloughs from the start. The Harvards led half a length gaining headway, increasing their lead as they passed the Willows ; their pace was subsequently slackened and the Oxford's pulled up, but the Harvards were still three-quarters of a length ahead. At Craven Point, three-fourths of a mile from the start, the Oxfords went on with a steady drag, but the Americans rapidly increased their lead. At Crab Tree [the mile post from the aqueduct] they were a couple of lengths ahead, beyond here the Harvards were taken wide and the Oxfords quickened speed, and reduced the gap at Soap Work, a mile and half from the start, to balf a length. The Harvards now pulled up with a magnificent burst to Hammersmith Bridge, a mile and threequarters, but in shooting the bridge they lost distance; they gained opposite the middle of the mall. The Oxford's spurted and came up gradually to the Harwards, but when opposite Dawes the boats were found to be too close together and the Harvards gave way. At Cheswick, two and a half miles, the boats were level; after proceeding fifty ional Synods, requesting the laity to yards further the Oxfords began to gain, though temporarily the Harvard's again even with them; the Oxfords gained rapidly at Cheswick, where it was clear, that their pace apparently told on the Harvards, who were rather wild at

HOLLOWAY'S OINTMENT —Turn which way, you will, go where you please, persons will be found who have a ready word of praise for this Ointment. For chaps, chafes scalds, bruises and sprains, it is an invaluable remedy; for bad legs caused by accident or ocld it may be confi-dently relied upon for effecting a sound and permanent cure. In cases of swelled ancles, erystpelas, gout and rheumatism. Holloway's Ointment gives the greatest comfort by reducing the inflammation, cooling the blood, soothing the nerves, adjusting the circulation, and ex-pelling the impurities. This Ointment should have a place in every nursery. It will cure the long list of skin affections, which originate in childhood and gain strength with the child's growth. 30
