That a man, who had reached 100 years and 3 months died at Seattle on Wednes-day. That that was a truly sensitive and refined scoundred, that led the gaug that robbed the lattle Rock train. He is ré-ported as sparing the purses of the woman upon the train, with theremark, "I don't forget that my mother is a lady, area if the son is a d-d scoundred," Such gan-teel presence of mind, coupled with en-gaging frankness, in the midst of an emergency, is rare. That an Arizons editor, after writing is leader on the merits of a patent medi-cins, thus anlighteen his readers on English politics: "Old Gledstone is tak-ing our advice, and is giving the aristo-carats fits." Bathe made a bad break when he concluded to spare the house of lords. We ware him that such a shilly-shally course won't do. Kick the lords out of the upper house, and fill it qu with horny' handed sons of tol. Gledstone means well, but he deem't know much about

That there are about 70 births and 67 leaths a minute in this world—more than queaths a minute in this world —more than one to a second. That more than 3,000 horses die every week in Loudon. This is what makes alligator leather so cheap over there. That recently the tomb of Edward III. in Westminster Abbey was opened and

in Westminster Abbey was opened and the body of "Longshanks," as he was called, was found in a remarkably good state of preservation. The flesh of the face had turned to a yellow powder, but Mr. Galbraith, M. P. P., received a letter from Kootensy yesterday, stating that one foot of snow had fallen through-out the district and was succeeded by a sharp frost. Fourteen pack-animals, bound into Kooteiasy from Montana, died from exposure. Mr. Vowell had arrived at Sand Point on his way to Victoria. He was eight days on the way, having to break the road through the stow, and at one time was over up for lost. The railthe shape and the form of t mained intact.
