A bit of this and a taste of that, all day long, dulls the appetite and weakens the digestion.
Restore your stomach to healthy vigor by taking a Na-Dru-Co Dyspepsia Tablet after each meal—and out the "pining".
Na-Dru-Co Dyspepsia Tablets are the best friends for sufferers from indigestion and dyspepsia. 50c a Box at your Druggist's. Made by the National Drug and Chemical Co. of Canada, Limited.

SCHOOL FOR THE DEAF AT HALIFAX

The school for the Deaf at Halifax has reopened after the summer holidays and the Principal, Mr. J. Pearson, would be grateful for the addresses of parents who may have deaf children. There are throughout the Maritime Provinces many children who are not totally deaf, but so hard of hearing that they cannot take due advantage of the instruction in the hearing schools. Such children should attend the school in Halifax where their speech will be improved and everything possible done to help their hearing by prominent ear specialists.

TWO DEAD AND THREE ARE DYING

Result of Prolonged Carousal at St. Malo, Que.

St. Malo, Que., Oct. 8.—Two men are dead and three dying as the result of a prolonged carousal in the house of a doctor and of a mysterious drink which the physician is alleged to have mixed for the party.

Jos Desrocher, A. Desrocher, Plénieux, Jos Ouellette and Gandrau had been drinking heavily and exhausted their supply before they were ready to break up. It was then according to the reports which are current, that the doctor made up a drink of which the five partook.

The ill effects became manifest on Sunday, when all five were found to be in a critical condition. Jos Desrocher and Plénieux died yesterday afternoon and to-day small hopes are entertained for the recovery of their companions.

St. Malo is near Cookshire on the line of the Maine Central Railway, and it is said that the doctor has fled to the United States.

DRINK CURE A MIRACLE

No, Just Sound Science

Many drunkards are sent to jail when they need is medicine. Drink has undermined their constitutions, inflamed their stomach and nerves, until the craving must be satisfied, if it is not removed by a scientific prescription like Samaria.

Samaria Prescription stops the craving, restores the shaking nerves, builds up the health and appetite, and renders drink distasteful, even nauseous. It is odorless and tasteless, and dissolves instantly in tea, coffee or food. It can be given with or without the patient's knowledge.

Read what it did for Mrs. G., of Vancouver:

"It was so simple to get my husband cured that I went up to Harrison Drug Store, and got my remedy there. I had no trouble giving it without his knowledge. I greatly thank you for all the peace and happiness that it brought already into my home. The cost was nothing according to what he would spend in drinking. The cure of drink was putting me into my grave, but now I feel so happy, and everything seems so different and bright. May the Lord be with you and help you in curing the evil. I don't want my name published."

Now, if you know of any unfortunate needing Samaria Treatment, tell him or his family or friends about it. If you have any friend or relative who is forming the drink habit, help him to release himself from its clutches. Write to-day.

A FREE TRIAL PACKAGE of Samaria Prescription, with booklet, giving full particulars, testimonials, price, etc., will be sent absolutely free and postpaid in plain sealed package to anyone asking for it and mentioning this paper. Correspondence strictly confidential. Write to-day. The Samaria Remedy Co., Dept. 77 49 Colborne Street, Toronto, Canada. Also for sale by Thos. Wran, Druggist. The Rexall Store, Campbellton, N. B.

PARALYSIS COMPLETELY CURED

"Fruit-a-tives" Performs Another Miracle

Bristol, N. B., July 25th, 1911. I had a stroke of Paralysis in March 1910, and this left me unable to walk or help myself, and the Constipation of the Bowels was terrible.

Nothing did me any good and I was wretched in every way. I then took "Fruit-a-tives" for the Constipation and it not only cured me of this terrible trouble, but gradually this fruit medicine toned up the nerves and actually cured the Paralysis.

By the use of "Fruit-a-tives", I grew stronger and stronger until all the Paralysis and weakness left me. I am now well again and attend my store every day. I say "Thank God for Fruit-a-tives."

ALVA PHILLIPS. "Fruit-a-tives" not only cured the terrible Constipation, but so toned up the nervous system and the general health as to completely overcome the Paralysis.

Try "Fruit-a-tives" is a wonderful medicine.

Box a box, 6 for \$2.50 trial size, 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

"BULL MOOSE" BOOM AFFECTS I. C. R.

Great Demand for Literature Bearing Government Railway Emblem.

The great demand for the "Bull Moose" emblem in the United States is creating a craving for the advertising literature of the Intercolonial Railway, many requests being received from American cities, and from the various outside agencies. The reason for this is that the "Bull Moose" is really the trade of the Canadian Government Railways, and the stamp of the moosehead is to be found on all pamphlets, guide books, posters, etc. The Progressive Party in the States is conducting a vigorous campaign, and the Bull moose is being used extensively for illustration purposes, and widely circulated as a souvenir. Photos of moose are being urgently requested by publishers and printers everywhere. In some States the service of guides have been engaged to give the "moose call" at the conventions and party rallies.

It is a curious coincidence that a political party in the United States should adopt as a party emblem the trade mark used for many years by a railway owned and operated by the Canadian Government, but the "Progressives" evidently know a good thing when they see it. Incidentally the American people will learn that it is in Eastern Canada the bull moose flourishes in his native haunts, untroubled by the contaminating influences of political strife.

I. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a cold, and before the bottle was all used the boy's cold was gone, so that he did not have to pay a five dollar doctor's bill! For sale by all dealers.

Dominion Day
Calls Lily—"What a pity you are engaged so young. You will never have the fun of refusing a man."
Hollyhock—"No, but I've had the fun of accepting one."

PLEASE BE CAREFULL

The proprietors of the Graphic would request the postmasters and clerks in the different post offices and mail clerks on the different routes to handle the Graphic mail, carefully. Our circulation is now very large, and some papers are bound to go astray, but we hope to cut these down to a very small percentage. We have gone to considerable expense in preparing our mailing lists so that the clerks would have as little work as possible, but if any of these have any improvements to suggest we would be glad to have them. We also request our subscribers who do not receive their paper regularly to notify us at once so that the matter can be investigated. We want every subscriber to receive the Graphic every week without fail.

Oct 3-11. If you have young children you have perhaps noticed that disorders of the stomach are their most common ailment. To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take, and mild and gentle in effect. For sale by all dealers.

SHAM BURIAL ON INDIAN RESERVE

Disappointed Squaw Made a Pitiful Effort to Hide Disappointment

A tragedy of disappointed motherhood was revealed at the Fairbairn Indian Reserve, in Manitoba, as the result of an investigation by the Indian Department into a supposed case of ritual play.

The department was notified that Mrs. Gilbert Cook, a squaw of the reservation, had given birth to a child in the doctor's absence at Craie Lake; that in his absence also the child had been buried, and the Indian woman and her husband informed the doctor on his return that the infant had been born dead, and had been buried immediately after death. The chief of the tribe demanded that the body be exhumed, and when the grave was opened in it was found only a pitiful dummy of a child, a body made of moose liver bound round with bandages, a head of tea lead, on which was a baby's bonnet, while for lower limbs there were the legs of a partridge. The attorney-general's department of Manitoba was asked to investigate and find what had been done with the real child. Then came to light the story that there was no real baby and the mock burial was a sorry subterfuge to hide the shame of a disappointed motherhood.

The squaw had told the reserve that a little heir was expected at the Cook household. But the stork stayed away, and shame sat so heavily on the heart of the Indian woman and her husband that the subterfuge was planned.

Brandon, Man.

WHAT TOADS ARE WORTH

They Are The Greatest of All Extremators of Insects

Science offers a new solution for the bug problem. It is to employ in its professional capacity, so to speak, the toad—the ordinary hop-toad of the field and garden—as an insect destroyer.

In this business the humble toad is unequalled by any other living animal. He is the greatest bug exterminator in the world. It is entirely practicable to utilize his services on an extensive scale, employing him systematically as an ally to keep in check the insects which levy an annual tax of more than \$8,000,000 upon our agricultural resources.

There is no reason why the farmers of the country should not hatch and rear their own supply of toads for local service. With a pond or even a small pool insured against drying up during late Spring, the creatures will breed of their own accord in any desired numbers up to the limit of the food supply available in the shape of insects. But one thing absolutely essential is that they shall be provided with a means of escape from the water, and by no means the least destructive of their enemies are small boys, who through more thoughtlessness kill toads whenever they get a chance.

It is estimated that an average toad is worth to the farmer \$5 a year for the outworn alone which it destroys. But this is only one item. The amount a toad will eat is astonishing. A large specimen has been known to devour a hundred rose beetles at a single meal. One toad needed seventy-seven myriapods—the household centipede—to satisfy his appetite, another fifty-five army worms and yet another sixty-five gypsy moth caterpillars. Still another toad was seen to eat thirty-five large, full grown celery worms in three hours, while another accepted eighty-six flies fed to him in less than ten minutes.

It is a common thing when the occupants of an ants' nest are swarming and the insects are emerging in large numbers to see an enterprising toad sit at the entrance of the burrow and snap up every ant that comes out. The slaughter he accomplishes under such circumstances is frightful. But of course most ants are not recognized as insects injurious to man; and the toad unquestionably destroys some species which are beneficial to the farmer. Upon the whole he is immensely useful, devouring countless numbers of the very worst bug foes of the crops.

Soil Fertilizing in Denmark
According to a Consular report, the annual imports of artificial fertilizers to Denmark amounted to 500,000,000 pounds, with an estimated value of \$2,700,000. The Danish Government makes about 1,600 experiments every year in different localities with fertilizers, thus teaching the farmers the scientific treatment of their land.

Overcoat Time Is Here SO ARE THE LIGHTWEIGHT Fit-Reform Overcoats

THESE two are worthy of special mention today.

On the left, is the "Swagger" Style—new loose back, but Single breasted.

On the right, is the "Convertible" also made in single breasted style.

Plenty of other new styles in a splendid variety of patterns.

Fit-Reform W. L. McRAE

CAUSE OF ECZEMA EXPLAINED

After years of debate medical authorities are now agreed that Eczema and other skin diseases are not seated in the blood, but are caused by myriads of microscopic animals gnawing the flesh just below the epidermis. The patient is perfectly healthy, it is only the skin that is diseased.

Hence, scientists are now agreed that you must cure the skin through the skin. The medicine must be in liquid form in order to penetrate properly. And we can say with confidence that we have the true remedy for Eczema in our store—the D.D.D. Prescription.

The instant you wash with this soothing liquid you will find the itch relieved. We positively assure you of this. Will you try a bottle on our recommendation? Besides the regular Dollar Bottle we can now offer you, through an arrangement with the D.D.D. Laboratories, a special large trial bottle at only 25c. We are not sure how long this offer will be open—but it is open to-day, and by taking it up you can get instant relief from that awful itch and an early cure. A. McRae, McDonald, Campbellton, N. B.

Fall Coats: For Women For Men

Our large importation of coats for fall and winter wear are now in.
