lunual Meeting of the Pioneer an Historical Association. Yesterday was held at the Canadian Intitute the annual meeting of the Pioneer and Historical Association of Ontario. Rev. Read, R. H. Hodgins, Rev. Canon Bull, Ell Crawford and William Rennie were present Dr. Scadding was in the chair. In the eleclion Dr. Scadding was re-elected president; Rev. Canon Bull and Mr. W. H. Read and John A. Orchard.

The annual report was presented by Mr. William Rennie. The association was organized Sept. 4, 1888, with the object of affiliating all the various Pioneer and Historical Associations in the province. Last year they had 4 affiliated societies, while now they have 7, and expect a large addition.

On Sept. 15 a deputation waited on the On Sept. 15 a deputation wanted on an Government to urge the establishment of a Historical Museum. Sir Oliver Mowat received them very cordially, and stated that while the Government would not care to provide for such a museum they would assist to maintain a Provincial Museum. TENTS WILL BE PROVIDED For the Diphtheria Patients-The Mayor

Sore About the Injunction. At the meeting of the Board of Health yesterday Chairman Graham announced that there was to be no more delay or shelving of the Isolation Hospital matter. The Mayor proposed that a temporary wooden building be constructed immediately on the Don improvement north of Gerrardstreet at a cost of about \$500.

Ald. Graham was opposed to this, favoring the expropriation of a strip of land on Henry O'Brien's estate so as to another the nry O'Brien's estate so as to enable the so build the hospital on the site proposed without having any private property within the 150 yard limit. Mr. Maughan valued the land at \$1000 per acre, and it will take 1.84 Gas and Electric

and at \$1000 per acre, and it will take 1.02 leves.

Dr. Bryce stated that the Provincial Board of Health would be called to-day to formally expropriate the land if necessary.

The Mayor characterized the action of Messrs. Greer and Smith in getting out the highestion as "simply inhuman." They knew the council were acting in good faith and doing their very best to secure a site agreeable to all parties.

Ald. Leslie thought the Mayor's language was too strong. Air. Greer knew that the only reason the board had sought to have the 150-yard limit lessened by the Legislature was that they might continue to use the present building. present building.
Dr. Bryce suggested that tents be secured for hospital purposes and put up near the D'Brien estate. It was perfectly within the act to take possession before the expropriation had been effected. On motion of Ald. Bmall this proposal was adopted.
Ald. Leslie moved that the Provincial Board of Health be requested to take the eccessory legal steps to make the expropriation. This was carried.

THE ESPLANADE AGREEMENT. All Difficulties Likely to Vanish in a Week

Messrs. Shaughnessy and Thomas Tait of he Canadian Pacific Railway and Hon.R.M. Wells interviewed the Mayor and Ald. Hallam, Lamb and Saunders yesterday afteracon regarding the Esplanade agreement.
The city's representatives were assured that the delay in the culmination of the agreenent was in no way caused by the obstruc-tion of the C.P.R. They expressed the opin-jon that the objections taken to the present agreement were mostly technical and teliev-at that the whole matter would be settled in the course of two or three weeks.

& Co.: The market for wheat to-day was sustained by continued wet weather. Trading was light and the weather conditions offset in a measure by limited business and weak cables. July opened at 834, sold at 834, and 834 and 834 and 834 and closed at 834. The receipts from the Northwest were over 800 cars. Seaboard clearances were fair, but the demand for cash: wheat is limited. Reports from winter wheat districts report like-lihood of damage from excessive growth of straw. The signal service predicts showers in the winter wheat district to-morrow. Carn was higher on continued rains in the corn belt. July opened at 484, advices from the country represent the condition of corn in many sections as very critical. Oats were firm; July opening at 314, sold at 31%, and closed at 315. The market will be influenced by the same conditions that govern corn; with bright weather to-morrow the market for everything will likely sell off. The provision market has been less active, opening strong but closing rather heavy.

spots. Louisville has yielded more and the
grangers have been something else than strong.
Chicago has sold stocks freely and so has Boston.
Some traders who have been conspicuous on the
bull side have whipped over. One result of the
activity is a big increase in the short interest.
The average bear is selling stocks as though
shorts could be covered at any time at a profit.
Natural conditions are ignored, facts don't count.
The selling fever is on. Little fellows are running the market and on any fractional decline
phantom stocks are put out on an increasing
scale. There used to be a theory in Wall-street
that this sort of thing always led to a judgment
day, but that doctrine is worn out; anyhow, nobody is paying attention to it now. All the
stocks, good and had, are under attack. Reading, which has dividends in sight for the first
time in a dozen years, is as much under the ban
as U.P. which is bound for a receivership. But
unless Wall-street of the past, this sort of
thing is not likely to go on for ever and ever. But
a rule which has sometimes been profitable in the
Stock Exchange is, it pays to buy stocks when

we have more ice at Jackson's Point than any other company. We have more Lake Simcoe ice at Toronso than any other company. We have tens of thousands of tons more domestic ice than any other company. Part of this ice was cut at Green River, on the C.P.R., and, according to the analysis made of the ice by the Health Department, is the purest ice in the market. This also is truth, for years who have had the domestic trade, the Lake Simcoe Ice Co. Let the public this year also be the judge. ST. LOUIS WHEAT MARKST.
