"Tom Bowling was permitted to extend the run to two miles. He ran the first mile in 1:413, mile and a half in 2:343, one and three-quarter miles in 3:001, and two miles in 3:273; the last two unofficial.

† Katio Perso came in first, but was disquali-fied and race given to Lizzio Lucas.

The fastest mile run during the year 1876 was by Redman, 4 yrs, 103 lbs, at Lexington, Ky, May 18, in 1:42‡. Chesspoake, 4 yrs, 100‡ lbs, won second heat in 1:43, but was ruled out and the race awarded to Carrie Anderson, Redman being distanced in second heat.

BUFFALO PARK — ITS FINANCIAL SUCCESS.

It will be interesting to many of our read ers to obtain an insight into the financial success of one of our leading trotting associations, that at Buffalo, and as we are able to give a rough outline of the results attending its meetings through a series of years, we know no reason why currosity should not be gratified. An association of this character is a public inst tution, like a railroad, a bank, or an insurance company, and there will be no impropriety in our unfolding what we know, as a hint to other places of what they may r asonably expect if they conduct their trotting affairs with similar wisdom and enterprise.

While meetings were given on a grand scale for tue times, at Buffalo, in 1866 and 1867, it was not until 1868 that the Association was chartered, and from that date we present the r-sults. It was organized on a basis of larty five shares of \$1,000 each, upon each of which \$50J was calle i. Of this sum \$400 has been paid, up to date, in dividends, to each share of stock. The profits of the nine meetings, from 1868 to 1875 inclusive. r a is the chormons sum of \$114,279.41. Of turs amount \$64,466.06 has been disbursed for construction and r pairs of buildings and track, and the remaind r for real estate, taxes, te. The most suce soul meetings, financially, w ro those of 1871 and 1872, at each of which the profits amounted to nearly \$25,000. The largest sum was given in

Rents, salcone, club house, etc......\$4,632 41 Rents, private boxes..... 1,420 00 Sales, yearly tickets..... Sales, season (four day) tickets... 2019 00 Sales, tickets, third day 7,687 00 Sales, tickets, fourth day 1,583 00 Profits from all other sources 5,305 67

We presume this last item includes pools

and peanule, pop and petty privileges. The Association now owne, in fee simple soventy acres of land, admirably located within the city limits, with a magnificent track, nice club-house, spacious stands, and abundant stabling. It is a truly magnificent property, constantly appreciating invalue, yet it now represents a cost to its own-ers of only \$4,500. There are now but forty-three shares outstanding, as the Association in 1878 purchased two shares from a turbulent member for \$8,800. As it stands the figures show it to be one of the best speculations, considered purely from a pecu-niary point of view, over made in Buffalo. The stock is held by leading citizens, all business men, and all lovers of the trutting horse. The largest shareholders are Messrs. C. J. Hamlin, J. H. Metcalle, and M. P. Bush, and the former gentlemen is credited with holding thirteen of the forty-three outstanding chares-Spirit of the Times .

Billiards.

THE INVENTION OF THE GAME.

A pawnbroker, named William Rew, inented the game of billiards about the middle of the sixteenth century. During web weather, he was in the habit of taking down the three balls and with the yard measure pushing them, billiard fashion, from the counter into the stalls; in time an idea of a board with side pockets suggested its lf. A black letter MS. says: "Master William Kew did make one board whereby a game is played with three balls, and all the young men were greatly recreated thereat, chiefly the young clergymen from St. Pawles, hence one of ye strokes was named a connon, having been by one of ye said clergymen invonted. This game is now known by ye name of bill-yard, because William oz Bill Kow did first play with his yard measure. The stick is now called a kew or kue," It is rany to comprehend how "Bill-yard" has been modernized into Billiard, and the transfernation of "kew" or "kue" into oue is equally apparent.

AN OUTSIDE OPINION.

The Barris Examiner of Feb. 1st, speaks thus of the game of billiards and its introduction into the Mechanics' Institute, here :--

We regard the action taken by the Me-chanics Institute, of Toronto, the present chance institute, of foronto, the present season, in providing billiard tables in onn-nection with it, as a great stride in the right direction. This course of placing within the reach of the young men of the city the opportunity of enjoying, take it altogether, the best game of modern times, was not adopted without a strong fight against old prejudices, and the result has shown the good judgment of the promoters. Here, now, sesemble nightly, a large number who, were it not for the provision, would, as regards the majority, be scattered over the city at the various places where the game could be indulged in, but where, too, unfortunitely, they would be within the influence of its baneful concomitants.

Successful-The Directors of the Me chanics' Institute, here, have found their billiard room so successful, that they have det-rmined to add two more tables, making six in all.

HAMILTON-Mr. Hickey, of Boston, Mass. and Mr. James Bennett, of Toronto, were announced to give a biliard exhibition, in Hamilton, on Wedcowley evening.
