March 14th, 1895.

ORNITHOLOGY.

1. "Town Birds," Mr. W. A. D. Lees. 2. How to Study Bird-life, Prof. Macoun, M.A. 3. "Feathers," Mr. A. G. Kingston.

All these lectures were illustrated with microscopic sections or specimens and interesting discussions followed their delivery. Through the kindness of Dr. McCabe, Principal of the Normal School, Ottawa, the club has held its soirées in the lecture rooms of that institution. The thanks of the Council and Club are unanimously due to Dr. McCabe for his kindness and courtesy.

The Council in resigning its trust for the year, leaves the consideration of the future character of the work again in the hands of the members generally. It is possible that recommendations and suggestions may have occurred to many of the members, the adoption of which would add to the usefulness and still further popularize the work of the club. This meeting is the occasion upon which the future policy of the club should be fully considered.

All of which is respectfully submitted on behalf of the Council.

G. M. DAWSON,
President.

HENRY M. AMI,
Secretary.
