

Another Tariff Edition of THE CANADIAN MANUFACTURER

Another tariff edition of THE CANADIAN MANUFACTURER is being prepared and will be published immediately after the Dominion Parliament, now in session, takes final action regarding the Canadian tariff.

The issue of THE CANADIAN MANUFACTURER of September 7, 1894, contained complete reproductions of the then recently enacted tariffs of Canada and the United States, which, we believe, was the first time in the history of journalism, in either country, that two such important documents were ever published under one cover of a trade journal.

Important changes having been made in the tariffs of both these countries in the meantime, and to meet a general demand for information, the issue of THE CANADIAN MANUFACTURER of August 6, 1897, contained complete reproductions not only of the Canadian and United States tariffs, but also those of Great Britain and Newfoundland; and in the same issue was also published the full text of the British Merchandise Marks Act, than which no more important papers bearing upon the commercial industries of the countries named were ever produced under one cover.

After the publication of these tariffs in 1897, very important political changes occurred in both Canada and the United States, one of the most noticeable of which was the adoption by Canada of a tariff preference in favor of Great Britain; and in the issue of THE CANADIAN MANU-

FACTURER of July 6, 1900, was published complete reproductions of the Canadian tariff, including the Act providing for tariff preference in favor of British goods; the United States tariff; the British tariff, and the Newfoundland tariff, and there are thousands of offices of manufacturing and commercial concerns in Canada, United States, Great Britain and other countries in which are yet to be seen copies of that edition.

The rapid growth and development of Canada, and the changing conditions under which we live call for some changes in the Canadian tariff, and such as may be made will no doubt be officially announced, probably by mid-summer, and it is the intention of the publishers of THE CANADIAN MANUFACTURER, in accordance with the precedents already established to publish another tariff edition which will contain complete reproductions of the tariffs of Canada, United States, Great Britain and the Commonwealth of Australia.
