NOTES.

- (a) This move is not the best, P-Q 4 as played by Mr. Pollock, or Kt-K B 3, are considered the proper moves. (b) One of W. Steinitz's cramping moves which we do not approve; K Kt-K 2 would have developed the game better. (c) This move cramps still more black's game as it shuts out the B. (d) A poor move, made with the idea of keeping the attack on the apparently weak Q. P. (e) The beginning of a pretty combination, which ultimately won the game. (f) The best move as White threaten Kt x P attacking the R and winning the exchange. (g) Nothing is left for blacks after this move, as the pawn must fall.

RUNAWAYS IMPOSSIBLE!

SAFETY GUARANTEED

IS THIS POSSIBLE? YES, with the AUTOMATIC SAFETY BIT, any horse who ever starts to run away, be he vicious or running from fright, can be stopped without injury to horse, or driver. HARD-MOUTHED or PULLING horses driven with ease. Your horse CANNOT run away with the Automatic Safety Bit.

You have a handsome horse, bright and spirited, that you would like to drive but hesitate to do so as under certain conditions you feel you cannot stop him. With the Automatic Safety Bit you can drive him and stop him easily without the slightest injury or irritation to the horse. You have a handsome horse you would like to have your wife or daughter drive, but are afraid to do so, for fear they will not be able to control him. With the Automatic Safety Bit adjusted a fifteen year old girl can stop the most vicious horse without hurting the horse or in any way worrying or fretting him. The mechanism for stopping the horse does not act upon the bit proper, but through the outside of the bit on the nostrils, closing them and shutting off the horse's wind, and of necessity stopping him. Absolute safety from running away is guaranteed to anybody using these Bits. Simple in construction, easy on the horse and absolutely reliable. Circulars and testimonials will be sent you upon application to
