

McGILL UNIVERSITY
MONTREAL

FACULTY OF ARTS
OFFICE OF THE DEAN

November 18th, 1925.

Sir Arthur Currie,
Principal - McGill University,
Montreal, P.Q.

My dear Principal:-

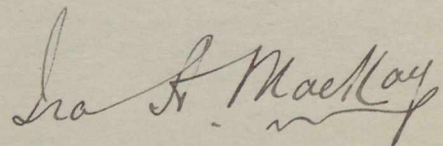

Pre-Medical Students.

I am enclosing a copy of Dr. Willey's
reply to my letter on this subject.

You will note too, that he says Pre-
Medical Zoology in the old first year of Medicine
is continuing, although the intention of the
Medical School was to abolish this year, and sub-
stitute for these courses the regular standard
course of the Faculty of Arts.

From a point of view of expense, I do
not see why the Arts Faculty should continue to
duplicate these beginners' courses unless the
authorities of the Faculty of Medicine so require.

Yours very sincerely,

IAM:GW

DEAN.
