

	PAGE.		PAGE.
Melanine	38	Force (vis nervosa).....	268, 291
Membranous expansions.....	79	Nervous polarity.....	268
Membranes (simple).....	53	Nervi nervorum.....	261
Membranes of the fetus.....	338	Nerve arc.....	254
Membrana Granulosa.....	329	Centre, function of.....	266
Membrana Tympani.....	319	Conduction.....	266
Mesenteric Glands.....	141, 143	Communication.....	267
Mesmerism.....	297	Nitrogenous substances.....	11
Metamorphosis in animals.....	327	Notes, chest.....	324
Metagenesis.....	327	Falsetto.....	324
Mind-force.....	291	Nucleus.....	41
Mind, and its relation to the body.....	289	Nucleolus.....	42
Morbus Cæruleus.....	207		
Mind, Influence over the body.....	295	O	
Morbus Addisonia.....	248	Odoriferous glands.....	102
Motion, cause of.....	46, 74	Oils and fats.....	24
" ciliary.....	46, 82	Oleine.....	25
Motor oculi.....	299	Olfactory nerves.....	298
Mucous Membranes.....	86	Optic nerves.....	298
Structure of.....	87	Chiasma of.....	318
Appendages of.....	88	Optic thalamus.....	288
Mucus.....	86	Ora serrata.....	312
Chemical constituents of.....	87	Organic substances.....	11
Mucine or Mucosine.....	36, 87	Putrefaction of.....	13
Mulberry Mass.....	331	Osmosis.....	145
Multiplication by subdivision.....	45, 326	Osteine.....	36
" by gemmation.....	326	Ovaries.....	328
Muscle.....	68	Ovicapsule.....	329
Striated.....	69	Oviducts, action of.....	330
Primitive fibres of.....	69	Ovum.....	329
" Fibrillæ of.....	70	Development of.....	331
Non-striated.....	70	Segmentation of.....	331
Mode of Development.....	71	Oxygen.....	19
Attachment of, to tendons.....	72		
Chemical composition of.....	73	P	
Vascular and nervous supply.....	73	Pabulum.....	43
Properties of.....	74	Pacinian Corpuscles.....	260
Sound in contraction of.....	76	Pancreatic juice.....	130
Heat in contraction of.....	76	Appearance and properties of.....	130
Rigor mortis of.....	76	Chemical composition of.....	130
Lever power of.....	77	Function of.....	131
Musculine.....	36	Pancreatine.....	35, 130
Myolemma.....	70	Papillæ.....	88, 97
Myopia.....	316	Parthenogenesis.....	327
		Parturition.....	339
N		Pathetic nerve.....	299
Nails.....	98	Pavement epithelium.....	80
Nervous power in respiration.....	213	Pepsine.....	36, 127
System.....	250	Peptic follicles.....	90, 125
Of lower animals.....	250	Perception.....	292
Craneo-spinal axis of.....	252	Perspiration.....	104
Diagram of action of.....	253	Chemical constituents of.....	104
Structure of.....	255	Function of.....	104
Ganglia of.....	257	Peyer's Glands.....	93
Chemical composition of.....	257	Phosphate of lime.....	16
Distribution of nerve fibres.....	258	Phosphates of magnesia, soda and	
Origin and termination of.....	259	potassa.....	18
Function of nerve fibres.....	261	Phrenology, absurdity of.....	294
Afferent and efferent nerves.....	262	Pigment cells.....	95
Excitability of nerve.....	262	Placenta, formation of.....	337
Laws of action of nerves.....	263	Plastic elements of nutrition.....	107, 222
Development of nerve tissue.....	265	Pneumogastric nerve.....	301
Regeneration of.....	265	Function of.....	301
Vascular supply of.....	266	Division of.....	302
Reflex action of.....	267	Pons varolii.....	278
Automatic action of.....	251, 254	Structure and function of.....	278
Nerve cells or corpuscles.....	257
