

CAPTAIN MAHAN'S NAVAL HISTORIES

THE INFLUENCE OF SEA POWER UPON HISTORY, 1660-1783. By CAPT. A. T. MAHAN. With 25 charts illustrative of great naval battles.

8vo. Cloth, gilt top. \$4.00.

A book that must be read. *First*, it must be read by all schoolmasters, from the head-master of Eton to the head of the humblest board-school in the country. No man is fit to train English boys to fulfil their duties as Englishmen who has not marked, learned, and inwardly digested it. *Secondly*, it must be read by every Englishman and Englishwoman who wishes to be worthy of that name. It is no hard or irksome task to which I call them. The writing is 'throughout clear, vigorous, and incisive. . . . The book deserves and must attain a world-wide reputation. — *Colonel Maurice of the British Army, in the "United Service Magazine."*

No book of recent publication has been received with such enthusiasm of grateful admiration as that written by an officer of the American navy, Captain Mahan, upon Sea Power and Naval Achievements. It simply supplants all other books on the subject, and takes its place in our libraries as the standard work. — *Dean Hole, in "More Memories."*

THE INFLUENCE OF SEA POWER UPON THE FRENCH REVOLUTION AND EMPIRE. By CAPT. A. T. MAHAN. With 13 maps and battle plans.

2 vols. 8vo. Cloth, gilt top. \$6.00.

Captain Mahan has done more than to write a new book upon naval history. He has even done more than to write the best book that has ever been written upon naval history, though he has done this likewise; for he has written a book which may be regarded as founding a new school of naval historical writing. Captain Mahan's volumes are already accepted as the standard authorities of their kind, not only here, but in England and in Europe generally. It should be a matter of pride to all Americans that an officer of our own navy should have written such books. — *Theodore Roosevelt, in "Political Science Quarterly."*

The volumes do not contain a page that cannot be read with pleasure as well as with profit by any man for whom foreign politics, the history of the rise and fall of nations, and the sources of national greatness possess the slightest attractions. *The Fortnightly Review.*

Masterly and comprehensive. . . . The drama of the great war unfolds itself in these pages in a manner at once novel and engrossing. — *The Spectator.*

Of great permanent value and exceptional interest, and in a high degree creditable to our naval service and to the country. — *The Nation.*

He has easily surpassed all previous writers. — *William O'Connor Morris, in "The Academy."*

A permanent addition to the literature of the world. — *Baltimore American.*

A work of remarkable interest and abiding value. — *New York Sun.*
