## To the Stove Trade

Are you aware of the great variety of lines we manufacture? Our lines are so varied that, with the control of our stoves for a district, the dealer *IS INDEPENDENT*.

We have, this year, in our Famous Active Ranges and Stoves, the finest line of one design ever made in Canada.

We sell only to the regular stove trade, and will protect all dealers in the territory they control. We will not supply goods to be sent into another agent's territory.
