

A Cyclopaedia of Education

EDITED BY PAUL MONROE, PH.D.

Professor of the History of Education, Teachers College, Columbia University: Author of "A Text Book in the History of Education," "Brief Course in the History of Education," etc.

The need of such work is evidenced: by the great mass of varied educational literature showing an equal range in educational practice and theory; by the growing importance of the school as a social institution, and the fuller recognition of education as a social process; and by the great increase in the number of teachers and the instability of tenure which at the same time marks the profession.

The men who need it are: all teachers, professional men, editors, ministers, legislators, all public men who deal with large questions of public welfare intimately connected with education — every one who appreciates the value of a reference work which will give him the outlines of any educational problem, the suggested solutions, the statistical information, and in general the essential facts necessary to its comprehension.

Among the departmental Editors associated with Dr. Monroe are Dr. Elmer E. Brown, President New York University; Prof. E. F. Buchner, of Johns Hopkins; Dr. Wm. H. Burnham, Clark University; M. Gabriel Compayré, Inspector-General of Public Instruction, Paris, France; Prof. Wilhelm Munch, of Berlin University, Germany; Prof. John Dewey, of Columbia University; Dr. Ellwood P. Cubberly, Stanford University, Cal.; Prof. Foster Watson, of the University College of Wales; Dr. David Snedden, Commissioner of Education for the State of Massachusetts; and others.
