OTHER ADVANTAGES.

The money paid into the PROVINCIAL BUILDING SOCIETY, as into a Savings Bank, will be paid over without deduction, and with full interest to date, to the proper representatives of any shareholder deceased.

In the case of sickness, or *temporary strait for money*, the amount paid into the Society, or such portion thereof as may be required, will be re-loaned to the shareholder, until better times come round. In the event of a depositor leaving the Province, or any other unexpected circumstance occurring, his money will be returned to him without deduction, and without unnesessary delay.

Sale or transfer of shares may be made at any time, without loss of interest or profits.

This Society offers facilities for investment of Trust or Corporate funds. Arrangements can also be made for investment, loans, and guarantees, within the limit of the Act; also in connection with Life Insurance.

The Provincial Building Society

Will make advances to members on the security of Real Estate. It will also advance money for the erection of buildings in approved localities. The scale of repayment for loans is at the rate of £1 per month—including both principal and interest—for every £100 borrowed. Members may redeem their mortgages at any time on equitable terms.

*** The design of the PROVINCIAL BUILDING SOCIETY is rather to make advances of moderate sums to industrious persons, than to take large amounts on more speculative risks.

Every information relative to the principles and working of the Society will be given, on application, between the hours of 10 A. M., and 4 P. M., at the Society's office, Union Marine Insurance Building, Bedford Row, Halifax. Applications from the country must be addressed to the Secretary, postpaid, and enclosing postage stamp for a reply.
