SUDDEN DEATH OF WELL KNOWN SCARBORD FARMER

Elias Woods Died of Heart Failure Last Night-County Happenings.

AGINCOURT, Nov. 16.—(Special.)— Elias Woods.oneofthe oldest, best known and most respected residents of Scarand most respected residents of Scar-boro Township, living a mile and a haif northwest from this village, ex-pired suddenly to-night from heart failure shortly after 6 o'clock. Deceas-ed had just partaken of supper and rising from the table, walked over to another part of the room, sitting down. another part of the room, sitting down, after which he suddenly fell forward. Dr. Coutts was summoned, but nothing

could be done.
Deceased, who was in his 81st year Deceased, who was in his sist year, had always been an exceptionally robust man and only on Tuesday was engaged in plowing. He was one of the foremost agriculturists in Scarboro Township, and the family homestead, lying alongside the Midland Railway, is a model of neatness and good tillage. While Mr. Woods had practically retired from active life a number of retired from active life a number of years ago, the death of his son John caused him to devote more attention to the supervision of the farm than he otherwise would have done. A week or two ago he attended the plowing match near this village. One of his grandsons

The not a native of Scarboro Township, Mr. Woods had resided here the greater part of his life, and his bluff, hearty generosity and kindly interest in every matter affecting the public welfare, will not soon be forgotten. He was one of the few remaining ties linking the present day generation with the pioneer life of the township. The late Mr. Woods was an ardent supporter of St. Paul's Anglican Church at Christie's and the annual garden party held in connection with the church was always given on his hospitable grounds. In the active life of the church he will be greatly missed.

In political life he was a Liveral-Conservative. He was predeceased some four or five years by Mrs. Woods and one son. BURIED AT MOUNT PLEASANT. who passed away twelve or fifteen years ago. William Woods, another son, resides a short distance from the old homestead. The late George Woods afternoon from the family residence, of York Mills was a brother. The date of the funeral has not been finally decided, but it will, it is expect-

Hundred Homeless as Result of Fire at Montreal.

mal as to be beneath contempt, was a serious menace to the health of the nation, and largely responsible for the periodical outbreaks of typhoid, cholera, tuberculosis and kindred diseases, Crops in the Orchard. "Cover crops in the orchard," was the subject of an address by Prof. Saxby Blair of Macdonald College, Quebec. He found by experimenting that crimson clover, sowed in the proportion of 25 pounds to the acre, made the best cover crop. Next he advised vetch, 75 lbs. to the acre. By sowing cover crops at the proper time, a Dealing with local conditions in the city, and the best measure of prevention to be adopted to minimize the spread of contagious diseases, Dr. Hewitt emphasized in particular the absolute necessity for better atten-tion to the removal of stable manure, vetch, 75 lbs. to the acre. By sowing cover crops at the proper time, a check could be put on the young trees, necessary to the ripening of the wood against the frosts of winter, the same as the irrigator could do by withdrawing the water in September. The ripening of the cover crop had the same and urged the most rigid cleaniness with respect to the ordinary garbage can, which was a prolific source of ening of the cover crop had the same effect. With a bearing orchard the cover crop should not be sown until "During the Spanish-American and South African wars," said Dr. Hewitt, "science was puzzled to account for the abnormal number of deaths from tyearly in July.
Combating Blights. phold fever, which was out of all pr)portion to the condition of the water

An illustrated lecture, showing the effects and modes of combating the "Fire Blight" was given by D. H. Jones of the O. A. C., Guelph. He showed that the spread of the plague could be stopped by cutting off the affected branches or trimming away the diseased bark from the larger limbs and trunks on the diseased areas. The iners' h been more and more directed to this subject, until to-day the nation is be-Dr. Hastings, medical health officer of Toronto, followed in a few brief but effective remarks. "I want to endorse every word that Dr. Hewitt has said

every word that Dr. Hewitt has said to-night," he declared, "and in so far as Toronto is concerned, I am most hopeful as to the outcome. There are few cities on the American continent where you can take a glass of water with greater confidence than right in this city, but reforms must be inaugurated. I hope that Madame City Beautiful will stand aside, and for the present at least, say to Madame Public ment and destination. "If one-tenth of the number of cases

have a cabinet meeting summoned," said Dr. Hastings. "We will have typhoid fever until our milk supply is as pure as our water supply, and until we get rid of the house fly."

Nat C. Goodwin will be the attraction at the Princess Theatre for four nights, commencing Monday. While Mr. Goodwin of late years has been seen in all styles of plays, and in which he has been successful, his public admire him most in those that call for his splendid farcical work, with which he was identified in insearlier comedies. For a long time Mr. Goodwin has been casting about for a real snappy farcical play, and it would seem from what has been heard that in "The Captain," written for him by the two well-known playwrights, Geo. Broadhurst and C. T. Dazey, he has secured, just what he has so long sought for. The three acts are laid in Manila. Mr. Goodwin's role is that of a clubman and globe-trotter. Mr. Goodwin will give a, matinee on Wednesday. The sale of seats will open this morning at the MONTREAL, Nov. 16.—Because the water pressure was 15 pounds instead of sixty, one hundred people are homeless, twenty houses are in ruins, one factory is destroyed, and a flour will clarette ruined causing damage. mill elevator ruined, causing damage of at least \$100,000. The fire broke out in the north end of the city, where the water is supplied, not by the city, but by the Montreal Water and Power Company. Chief Tremblay reports to the city chief Trembiay reports to the city council that a stream from a hydrant would only go 15 feet, and that it was impossible to save the buildings with that pressure, which he estimates at 15 pounds. The company refuse to make a statement, but say that the pressure should be 60 pounds.

At 7.30 this morning fire broke out in the sash and door factory of Philip seats will open this morning at the theatre box office.

An illustrated lecture, showing the effects and modes of combating the effects and effects of the effects of the order of the effects of the

client men for orchard inspection, and enforce the Dominion Fruits Act at the point of shipment. He suggested that a strong committee wait on Hon. James Duff, minister of agriculture for Ontario, and urge him to appoint inspectors for the Province of Ontario. Some interesting papers were read. Among these was one by Prof. R. Harcourt of Guelph Agricultural College advocating the use of commercial fertilizers as well as barnyard manure for the fruit lands. He enlarged upon the importance of potash, sulphuric acid and nitrogen as fruit constituents in the soil, and gave statistics to show that with proper fertilization plum.

The resolution was referred to a committee to a committee.
