### CONFERENCE ON BOUNDARIES

Premiers to Meet Again at Ottawa on Monday Next.

Next Monday the conference is to assemble at Ottawa at which the provincial boundary questions are to be discussed. It will be remembered that this matter was left over from the recent conference of provincial premiers, to be taken up later by those directly interested. It is understood that Premier Whitney will be accompanied by Hon. Mr. Foy and Mr. Matheson.

The point of interest in Ontario naturally is the partition of Keweenaw, which it is felt is inevitable, and therefore the more quickly done the better.

There are scarcely two opinions about the rights of little Manitoba in this event. That the province should be ascertained northwards is generally admitted. A proposal to give Saskatchewan a strip leading to Hudson Bay is also held as a reasonable suggestion. As there is no navigable port on the bay until the estuary of the Nelson is reached, Ontario naturally desires to reach as far north as deep water is reached. Manitoba would naturally come in north of this with Saskatchewan ranging next.

It is not improbable that the proposed houses for the C. & N. O. Railway from the Dominion government may be taken up when Premier Whitney is in Ottawa.

### WEAK HEART

SYSTEM WAS RUN DOWN

When the heart is healthy and performing its functions naturally, it should beat regularly seventy-two times a minute without causing the owner the slightest inconvenience or distress.

When it begins to beat irregularly or intermittently, palpitate and throb, skip beats, beat fast for a time, then slow as to seem almost to stop, it causes great anxiety and alarm.

The least exertion or exertion seems to affect it.

Many people are kept in a state of morbid fear of death, become weak, worn and miserable, and are unable to attend to either social or business duties, through unnatural action of their heart.

To all such sufferers MILBURN'S HEART AND NERVE PILLS

can give prompt and permanent relief. Mrs. F. Fletcher, Saint Ste. Marie, Ont., says: "I have been troubled for four or five years with weakness, and run down system. My feet were always cold and felt almost dead. My heart was weak and I was so nervous I could hardly walk across the street. I started taking Milburn's Heart and Nerve Pills, and after using three boxes I felt much better. I continued their use until I had taken twelve boxes and I am now well."

Price 50 cents per box or 3 boxes for \$1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### NEW LINE OF PARRY SOUND OPERA HOUSE TO-MORROW

Last Link Will Be Made as Soon as Engineer's Report is Received.

The opening of the Canadian Northern Ontario Railway, which was to have taken place to-day, has been again postponed pending the receipt of the inspection report from George A. Mountain, engineer of the railway commission. Mr. Mountain returned to the city from the inspection trip on Saturday night and is to make his report to-day. In this case the line will be opened to-morrow, the first train from Parry Sound arriving some time during the afternoon. As soon as Mr. Mountain's report is received, the switch to connect the James Bay line to the old Belt Line of the Grand Trunk will be laid. The laying of this switch will take place on the 10th and 11th, being the last link to connect Toronto to Parry Sound.

The exhibition will be formally opened Tuesday evening by Premier Whitney. The exhibits this year are numerous and of high quality, and the Black Lake Band is a strong attraction.

The exhibition is a big undertaking, but the indications are that it will be liberally patronized. The fact that the ways are giving a single fare into proves a great inducement to the people of the province to come to a show which is interesting and beautiful.
