Furniture Suggestions for Holiday Shoppers.

In most cases, the most suitable present is one that expresses regard and ministers to comfort. That naturally suggests the wide range of useful things for the home, and among them, few things could be more appropriate than a piece of elegant furniture. Think of all the new and attractive things that are now being displayed here in Furniture. It is worth your while to pass them in review and find out yourself the possibilities of a few dollars spent in that section. Over an acre of Furniture is spread before you on the Third Floor. From this collection you can choose for the humblest cottage to the finest mansion with equal satisfaction. It represents the newest and most up-to-date styles and fancies in Furniture—and includes many novelties which we are showing expressly for holiday buyers. From this wealth of Furniture goodness and elegance we select the following lines as worthy representatives of our values:

- No. 201—Ladies' Secretary, hardwood antique finish, 28 inches wide, 40 inches high, fitted inside with pigeon holes, well made and finished, at 4.35
- No. 18—Ladies' Secretary, quarter-cut golden oak and birch mahogany finish, hand carved and polished, 27 inches wide, 48 inches high, inside fitted with pigeon holes and drawer, at 5.95

MONEY IN BEET SUGAR FACTORIES.

The production of beet sugar in the United States is increasing with great rapidity. This year's output in Illinois and Michigan is large enough to make it a factor in the market. That beet sugar is a commercial quantity to be reckoned with as seriously as any other staple article in the grocery line is conceded by all who have given the sugar beet industry close attention. Last year there was but a single beet sugar factory in Michigan. This year nine factories are working up the crop of beets grown in that state. The actual output of the Illinois and Michigan factories this year is 34,000 tons, 290,000 barrels. That there will be accessions to the list of beet sugar factories next year is assured from the fact that a very conservative estimate of the profits from a factory of 500 tons daily capacity of beets is \$125,000 a year, exclusive of any bounty that the individual states may pay. As such a factory can be put up for \$250,000, it can be seen that it will pay for itself in two years.

It has been proved beyond doubt that the climate and soil of the United States is adapted to the culture of the sugar beet. In fact, the average yield of 12 per cent. of saccharine matter in Germany, where the beet is produced in the greatest quantities, is much below the American average. Most of the beets raised in Michigan and Illinois during the last summer ran from 14 to 16 per cent. of sweetness. It has also been demonstrated that the United States can produce more beets to the acre than the European land and that the agricultural states that can be produced on the best beet-producing lands of Germany. As to the quality, there is no better test than that the first experimental lot offered in Chicago last year from the plant at Bay City brought within 1/4 cent of the regular market for the best granulated, and that all of it started in this season at only 1-16 cent a pound discount, and is now being sold at the same price.

All the arguments in favor of the expansion of the beet sugar industry in the United States are arguments in favor of starting beet factories in this country. The soil of Ontario is just as well adapted to the cultivation of beets as is that of the adjoining state of Michigan. If factories will pay \$125,000 a year in Michigan, there is no reason why they should not pay equally well in this province. And the beet sugar industry is not the only one that could be set going in Canada, if the government only had half the faith in this country that the United States or Germany have in theirs.

LOCAL TOPICS.

Your travelers are all looking for the best of it. I found it at "New Day," Amersol, J. H. Munster.

Sunday school lodges, smoking concerts, The Markham Track and Weighing Co. has assigned all the power to Douglas.

An enjoyable concert was held last night in Harmony Mission in aid of Boys' class. An excellent program was rendered. Those who contributed deservedly were: Mrs. C. H. Stickle, Miss Ida Mulholland, Mr. Stanley McMichael and others.

The large and efficient choir of Chalmers Presbyterian Church, under the direction of Mr. Peter C. Kennedy, will give a service of praise on Monday evening, Dec. 18, at 8 o'clock. The choir will be assisted by Mrs. H. W. Parker, Mr. Malcolm Sparrow and Mr. Arthur Elight.

Application was granted yesterday at Osgoode Hall for an order of habeas corpus on behalf of James Clark, a three children, now taken care of by his wife. Argument will be heard next week.

We call attention to the ad of Messrs. Bastedo & Co. They are carrying a very large stock this season and give special attention to men's and ladies' fur coats and jackets, gaudies, collars and robes. They report a very large trade. Intending buyers will do well to call or write to them for price list.

An interesting holding evenings' entertainments, should notice the amusement column. C. M. Robson, 27 Dundas-street, east, is preparing to make dates giving full evenings' entertainments with the Edison's wonderful projection pictures. The pictures are some of the latest for patriotic concerts and other entertainments.

How Old Are You?
A woman is mighty sensitive about her looks. Some have been known to fly into a passion on the witness stand when an inquisitive lawyer asks, "How old are you?" The actual number of years don't count for much in a healthy, vigorous woman. If she be forty, she will look younger than a weak woman at 25. Dr. Pierce's Favorite Prescription keeps women looking young by keeping disease away from those marvellously delicate organs which distinguish the female sex. It cures all the debilitating wastes and drains, all the aches and pains. It quiets the nerves, and stops those bearing-down sensations. It fits the wife for the task of child-bearing, making the period of gestation one of comfort, shortening labor and making it almost painless. It fortifies the whole system, so that recovery after confinement is quick, and there are no dangerous after-effects. The babe of the woman who takes "Favorite Prescription" is sure to be healthier than the babe of the mother who does not take it. There is no alcohol or opiate in this medicine. It is a pure, healthful tonic and purgative. Mrs. Axel Kier, of Gordonville, Cape Girardeau Co., Mo., writes: "I feel every day to write you. This is my fifth child and the only one who came to maturity; the others having died from lack of nourishment—the doctor said. I was not sick in any way, and this I just thought. I took nine bottles and to my surprise it carried me through and gave me a fine little boy ever was. Weighed ten and one-half pounds. He is now five months old, has never been sick a day, and is so strong."

In cases of sudden sickness, the Common Sense Medical Adviser (two pages) may save a life. Sent free in paper-cover for 31 one-cent stamps to pay customs and postage. Cloth-cover 50 stamps. Address Dr. R. W. Pierce, Buffalo, N. Y.
