LIVERPOOL DAIRY REPORT, WEEK ENDING APRIL 19.

[Hodgson Bros.' Report.] Cheese has met but moderate demand, and has been pressed for sale at a further reduction in values of quite 1s per cwt on the week. The large arrivals of New Zealand, chiefly to London, have influenced the position adversely, and the closing of the old season is disappointing to importers of Canadian. We quote today: Finest Canadian, fall makes, white and colored, 63s to 64s 6d per cwt; finest States, do, 62s to 63s; secondary qualities, States, small shapes, where full cream, 57s to 59s. Butter is also easier, the arrivals of Finnish and Danish being large and buyers discriminating and purchasing only at reduced figures. New Zealands are also pressed for sale at declining values, while Aronds, \$3 75; bakers, \$3 90. gentines are neglected. Australian is plentiful, and only the choicest grades are at Toronto. saleable at lower prices. The new season's Irish creamery which has come to the market is disappointing in quality, and a slow sale. The Copenhagen quotation for next week is cabled 4 kroner lower. We report today's values as follows: Choicest Canadian creamery, in 56-lb boxes, nominal; choicest continental butter, Danish and Finnish, in Kiel casks, 96s to 103s per cwt; choicest Russian and Siberian, new season's goods, 88s to 92s; secondary grades, do, stored goods, 74s to 80s; choicest Australian and New Zealand, as to quality, 88s to 100s; choicest Argentine, 95s to 96s; choicest Irish creamery, 96s to 98s; choicest States creamery, nominal; States process creamery according to quality, 70s to 80s: States ladles, imitation creameries and
