President John G. Kent of the board of trade has received the following communication from the food controller regarding the embargo recently placed on the exportation of corn from the United States into Canada:

The embargo recently placed upon the exportation of corn from the United States into Canada is intended to prevent speculation in this commodity. Canadian importers may, however, obtain a supply sufficient for their present requirements by making application to this office for an import license, but are asked to apply for not more than is urgently needed to cover a period of from 30 to 60 days until such time as the new corn is on the market.

Enclosed herewith is a supply of application forms which the importer is required to fill in and forward, "in duplicate" to this office to cover each specific shipment. cate" to this office to cover each specific shipment.

The co-operation of your board is kindly requested by communicating this information and distributing the necessary application forms to prospective importers of corn in your district.

We have received the assurance of the United States food administration that every effort will be put forth to expedite any shipments of corn to Canada which have been recommended by this office. The vendor of the corn is obliged to make application to the United States exports administrative board for a similar export license.

Yours faithfully,
