

Dear Billy  
We had a May party last week. Mary Jane was the May Queen and I was the King. Pa was the Jack and Tige was the ace. Ma was the big Casino. We had a May pole. May parties are lots of fun. Some people think that fun is happiness - it isn't. Happiness bears the same relation to fun as music does to noise. There's lots of noise being passed off for music. Really fine music is only a noise to the untutored and philistine etc. What's that got to do with a May party. Billy come over some day and we can stir something perhaps Yours truly
