# Frasers' Cut Of 22,000,000

PLASTER ROCK, June 4—Stream driving conditions on the Tobique waters although unusually late are favorable, as far as the Fraser Companies Ltd., cut is concerned. The entire cut of about 22,000,000 feet is considered in safe waters and will probably be in the booms within the next ten days.

Rumors are current in the village as to the significance which can be attached to the purchase by Donald Fraser, of the Fraser Companies Ltd., from George Ridgewell, of a 200-acre property which fronts on the very centre of the village. The residents are hoping that this may mean a new industry for the place.

Near Abertillery

LONDON, June 4-A desperate nderground battle between fifty unmployed miners and a number of policemen took place in the pitch darkness of a lonely colliery in the mountains near Abertillery at 2.30 a. m.

The police found a large gang of men armed with mining tools working coal from the face of the Red Ash colliery. Two of the men appeared from the mouth of the pit and one was arrested. The other escaped and gave the alarm to his companions.

Policemen rushed inside and there was a terrific struggle, but many of the men who knew the pit workings thoroughly leaped through the airways and other exits. The police after a long and exhausting struggle in mud and water made eight arrests, and recovered sixty-two bags of coal which were ready to be taken away.
