PRaises Cadet Corps

Lieut. Colonel A. B. Snow, organizer
of the cadet corps in this
province, returned recently from an
annual inspection tour at Moncton, New-
Brunswick and Dorchester. He was ac-
companied by Sergeant A. W. Oliver, in-
structor in physical training in this city
cadet corps, who acted with the
colonel as judge. Colonel Snow says
at the work this year is far ahead of
the work last year, a vast im-
provement in military training and
physical drill being shown. Of the
any inspections he has held this year
Moncton cadet corps have shown up
best, the reason is the colonel says, that
Moncton school board has appointed
instructor, J. C. Parthing, who drills
the corps and instructs the school chil-
dren in physical training. There are two
companies in Moncton and their drill was
excellent. The children from all the
schools were marched out to the Abern-
ethy school grounds and formed up in
columns in front of the school and Mr.
Parthing put the 1600 children through
a physical drill and their work was
praised by much favorable comment.
The junior cadet corps won over the
senior corps, which last year were the
best in the province. Teams from the
different schools competed for a silver
cup and Miss H. Alward's class of Vic-
toria school won the cup with a per-
centage mark, the next team in line being
only one point behind.

PLANTING 5000 SPRUCES.

(Fredericton Gleaner.)
W. M. Robertson of Ottawa, forester
for the Dominion Conservation Com-
mission, has arrived from Gloucester county,
where he has been in charge of the plant-
ing of 5000 spruce seedlings on experi-
mental reforestation plot in that sec-
tion.

The work is being undertaken through
the co-operative efforts of the conserva-
tion commission, the department of lands
and mines of this province and the Bath-
urst Lumber Company, with an eye to
the future development of New Brun-
swick forests.

Mr. Robertson stated today that with-
in the last few days about 5000 Nor-
way spruce seedlings had been planted
on all grades of burned lands to judge
the results in growth in order that the
forests of the province might not be de-
pleted by further forest fires. The ex-
perimental plot upon which the planting
is taking place consists of about 800
acres of cut over lands on the limits of
the Bathurst Lumber Company's hold-
ings, about twenty-five miles from
Bathurst. Upwards of five acres of the
seedlings have already been planted and
the work of planting will be further con-
tinued during the month of August.

and soldiers land settlement estimates
were adopted. Sir Henry Drayton an-
nounced that next session of parliament
would be held in January.

replied that he would make enquir-
ies into the circumstances. He under-
stood that a limit was fixed by statute.
Colonel J. A. Currie of Simcoe North
protested against the system of bonus-

stored there for use in the winter.
