to illness he would be unable to be present. The conference was, of course secret, but it has leaked out that Premier Laurier and Mr. Tarte have, on bended knees, implored the delegate to approve of the principle of the settlement, and they will see that all possible improvement is made as to details. This, therefore, is what Mgr. Merry del Val has to submit to the prelates here today.

Three Rivers, Que., Arpil 8.—Dr. Marcotte's majority is now 191, with ne poll to hear from, and when the total falling off of the vote, caused by the bad roads, comes to be calculated, it is not probable that much parative decrease in the majority can be worked out. It is now known that the government election fund was \$30,000, and that sum was supple mented before polling day. In the fittle parish of Stite, Rev. Cure Grenor received \$75 in bills of \$1, \$2 and \$5 denomination, which had been given by liberal heelers to bribe electors, yet the latter promptly took the money, gave it to the parish priest, and vote dfor Dr. Marcotte.

Martreal, April 9.—It was roughly figured out here today that Montreal erators had dropped three-quarters of a million dollars in Chicago speculations, the main cause being the rumous decline in wheat. One operator admitted he lost as much as fif-teen ceats per bushel on the wheat he was carrying, and it is safe to say other losses giute as large. These purchases were made some time ago.

He said no one could rightly complain at lack of opportunity to discuss the conduct of the government. There had been many discussion on the subject and on the speeches of the Marquis of Salisbury, although it was true there had not been a vote of censure, the government having failed to persuade the liberal leader, Sir William Vernon Harcourt, to repeat in the house the

the island of Crete, Mr. Curzon asserted this would open the door leading to an almost immediate and pacific settlement of the question.

Since the blockade, Mr. Curzon pointed out many thousands of helpless and defenceless people have been protected by the forces of the powers, and their admirals have done inestimable work in the relief of the beleagured and the saving of life, but in the face of explicit warnings the insurrements. of explicit warnings, the insurgents had persisted in their endeavors to starve out the Turkish garrisons at outlying posts and obtained command of the outposts commanding the towns occupied by the forces of the powers. They had also tried to cut off the water supply, and had even engaged in fighting with the European troops. But, Mr. Curzon was glad to say, during the last few days the situation had become calmer.

In the meantime active discussions are proceeding between the power relative to the question of appointing a governor for the island of Crete and instituting a militia on the basis of automatic constitution promised. automatic constitution promised.

Mr. Curzon then turned to the question of the possibility of war between Greece and Turkey. He insisted the government had strained every nerve to prevent an outbreak of hostilities, which, he claimed, the government could only regard as calimitous to which, he claimed, the government could only regard as calimatous to Greece and as constituting a grave menace to the peace of Europe. The government of her majesty, he continued, had shown the utmost forbearance and regard for the susceptibilities of all concerned, and had taken part in the joint declaration at Constantinople and Athens to the effect that aggression would not be alfect that aggression would not be alsaved Europe from a general war, had prevented greater, bloodshed in Crete and had localized the disturbances on the Greco-Turkish frontier. C. P. R. TRAIN DERAILED

The Montreal and Boston express ten minutes to five o'clock was railed about one mile east of Hoyt station, or about thirty-six miles from this city, by a broken rail. The engine, tender and all the Montreal portion of the train left the track, the Boston sleeper and baggage cars alone holding the rails. The train was in charge of Conductor Lefebvre with Robert Bartlett as driver and Duncan Campbell as fireman. The train had a large passenger list, but not a single person sustained injury. Wrecking trains were sent out from this city and McAdam, and Sunday the track, which had been torn up for some distance, was repaired and traffic resumed.

The trucks on some of the cars were broken, but otherwise the cars were not damaged.

The passengers for Montreal and Boston were transferred to the Vance-boro-Fredericton express and sent forward to the their destination after ts dealings now made, although a of the opinion the matter was a delay of about five hours. The passengers on the Vanceboro-Fredemicton express were transferred to the Fredericton express, which was on this side of the disaster, and reached here shortly after three o'clock yesterday morning. As to the Greek raid into Mace donia, Mr. Curzon assured the house that from information which the government had received, the raid was entirely unauthorized by the Greek government and was not participated in by the Greek regular troops. Further, it had been disavowed by the Greek government and the governent of Turkey had announced that if the raid was not repeated, Turkey would not treat it as a "causes belli,"

After making these statements Mr. Curson again paid attention to the liberal leader.
