SEMI-WEEKLY SUN, ST. JOHN, N. B., JULY 28, 1900.

# GREAT SURGEON. Rev. Dr. Talmage on one of the Missions of Christ

### 

WASHINGTON, July 22 .- In this dis- pathetic surgeon the world ever saw or ever will see, and he deserves the course Dr. Talmage, (who is now travconfidence and love and worship and lling in Europe), puts in an unusual hosanna of all the earth and hallelulight the mission of Christ and shows iahs of all neaven. "The blind receive how divine power will yet make the illtheir sight and the lame walk; the nesses of the world fall back; text, Matlepers are cleansed, and the deaf hear." thew xi., 5, "The blind receive their I notice this surgeon had a fondness sight, and the lame walk, the lepers are for chronic cases. Many a surgeon, cleansed and the deaf hear." when he has had a patient brought to

"Doctor," I said to a distinguished him has said: "Why was not this atsurgeon, "do you not get worn out with tended to five years ago? You bring constantly seeing so many wounded him to me after all power of recuperaand broken bones and distortions of tion is gone. You have waited until the human body?" "Oh, no," he anthere is a complete contraction of the swered; "all that is overcome by my muscles, and false ligatures are formjoy in curing them." A sublimer and ed, and ossification has taken place. more merciful art never came down from heaven than that of surgery. It ought to have been attended to long Catastrophe and disease entered the ago." But Christ the Surgeon seemed earth so early that one of the first to prefer inveterate cases. One was a hemorrhage of 12 years, and he stopwants of the world was a doctor. Our ped it. Another was a curvature of crippled and agonized human race 18 years, and he straightened it. Ancalled for surgeon and family physician other was a cripple of 38 years, and he for many years before they came. The walked out well. The 18-year patient first surgeons who answered this call was a woman bent almost double. If were ministers of religion-namely, the you could call a convention of all the Egyptian priests. And what a grand surgeons of the centuries, their com-bined skill could not cure that body so thing if all the clergymen were also doctors, all D. D.'s were M. D.'s, for drawn out of shape. Perhaps they there are so many cases where body might stop it from getting any worse, and soul need treatment at the same perhaps they might contrive braces time, consolation and medicine, theby which she might be made more ology and therapeutics. As the first comfortable, but it is, humbly speaksurgeons of the world were also mining, incurable. isters of religion, may these two professions always be in full sympathy! But hands on her, and from that doubled under what disadvantages the early up posture she began to rise, and the surgeons worked, from the fact that empurpled face began to take on a the dissection of the human body was healthier hue, and the muscles began to forbidden, first by the pagans and then relax from their rigidity, and the by the early Christians! Apes, being spinal column began to adjust itself, the brutes most like the human race, and the cords of the neck began to be were dissected, but no human body more supple, and the eyes, that could might be unfolded for physiological and see only the ground before, now looked anatomical exploration, and the surinto the face of Christ with gratitude geons had to guess what was inside and up toward heaven in transport. the temple by looking at the outside of Straight! After 18 weary and exhaustit. If they failed in any surgical opering years, straight! The poise, the ation, they were persecuted and driven gracefulness, the beauty of healthy out of the city, as was Archagathus womanhood reinstated. The 38 years' because of his bold but unsuccessful case was a man who lay on a mattress attempt to save a patient. near the mineral baths at Jerusalem.

THE SURGEON IN HISTORY.

There were five apartments where lame people were brought, so that they could But the world from the very beginget the advantage of these mineral ning kept calling for surgeons, and baths. The stone basin of the bath is their first skill is spoken of in Genesis, still visible, although the waters have where they employed their art for the disappeared, probably through some incisions of a sacred rite, God making convulsion of nature. The bath, 120 surgery the predecessor of baptism, feet long, 40 feet wide and eight feet and we see it again in II. Kings where deep. Ah, poor man, if you have been Ahaziah, the monarch, stepped on some lame and helpless 38 years, that mincracked lattice work in the palace, and eral bath cannot restore you. Why, 38 it broke, and he fell from the upper to years, is more than the average of huthe lower flour, and he was so hurt that man life. Nothing but the grave will he sent to the village of Ekron for aid, cure you. But Christ the Surgeon and Aesculapius, who wrought such walks along these baths and I have wonders of surgery that he was delfied no doubt passes by some patients who and temples were built for his worship have been only six months disordered at Pergamos; and Epidaurus and Poor a year or five years and comes to delirius introduced for the relief of the the mattress of the man who had been world phlebotomy, and Damocedes nearly four decades helpless, and to Surgeon succeeds as an aurist. enred the dislocated ankle of King this 38 years' invalid said, "Wilt thou Darius and the cancer of his queen. be made whole?" and Hippocrates put successful hand on fractures and introduced amputa-CHRIST THE CHIEF SURGEON. saw Christ insulted by a man by the name of Malchus, and Peter let his tion, and Praxagoras removed obstruc-The question asked not because the tions, and Herophilus began dissection, surgeon did not understand the proand Erasistratus removed tumors, and sword fly, aiming at the man's head, tractedness, the desperateness, of the Celsus the Roman surgeon, removed but the sword slipped and hewed off case, but to evoke the man's pathetic cataract from the eve and used the the outside ear, and our surgeon touchnarrative, "Wilt thou be made whole?" Spanish fly: and Heliodorus arrested "Would you like to get well?" "Oh, disease of the throat, and Alexander of yes," says the man. "That is what I Tralles treated the eye, and Rhazus have come to these mineral baths for. cauterized for the prevention of hy-I have tried everything. All the surdrophobia, and Percival Pott came to geons have failed, and all the prescripcombat disease of the spine, and in his tions have proved valueless, and I got own century we have had, among othworse and worse, and I can neither ers, a Roux and a Larray in France, move hand nor foot nor head. Oh, if I could only be free from this pain of and dumb. The patient dwelt in peran Astley Cooper and an Abernethy in 38 years!" Christ the Surgeon could petual silence and was speechless. He Great Britain and a 'Velentine Mott not stand that. Bending over the man could not hear a note of music or a and Willard Parker and Samuel D. Gross in America and a galaxy of livon the mattress, and in a voice tender ing surgeons as brilliant as their prewith all sympathy, but strong with all father or mother or wife or children decessors. What mighty progress in omnipotence, he says. "Rise!" And the the baffling of disease since the cripinvalid instantly scrambles to his knee dull tympanum or each that chain of pled and sick of ancient cities were and then puts out his right foot, then small bones or, revive that auditory laid along the streets, that people who his left foot, and then stood upright had ever been hurt or disordered in the as though he had never been prostrated. While he stands looking at the geon put his fingers in the deaf ears same way might suggest what had better be done for the patients, and the doctor, with a joy too much to hold, and agitated them and kept on agitatpriests of olden time, who were conthe doctor says: "Shoulder this mat- ing them until the vibration gave vital stantly suffering from colds received tress, for you are not only well enough energy to all the dead parts, and they in walking barefoot over the temple to walk, but well enough to work, and pavements had to prescribe for themstart out from these mineral baths. selves and fractures were considered so Take up thy bed and walk!" Oh, what tunnels of sound were clear for all far beyond all human cure that instead a surgeon for chronic cases then and of calling in the surgeon the people for chronic cases now! only invoked the gods! This is not applicable so much to But notwithstanding all the surgical those who are only a little hurt of sin Through the desert of painful silence and medical skill of the world, with and only for a short time, but to those what tenacity the old diseases hang on prostrated of sin 12 years, 18 years, 38 ' resonance and acclamation. But yet to the human race, and most of them years. Here is a surgeon able to give are thousands of years old, and in our immortal health. "Oh," you say, "I ed over his lip. Speech was chained **Pibles** we read of them-the carbuncles am completely overthrown and tramp- | under his tongue. Vocalization and ac+ of Job and Hezekian, the palpitation led down of sin that I cannot rise." of the heart spoken of in Deuteronomy, Are you flatter down than this patient bility. He could express neither love the sunstroke of a child carried from at the mineral baths? No. Then rise. nor indignation nor worship. the fields of Shunem, crying: "My In the name of Jesus of Nazareth, the head, my head!" King Asa's disease surgeon who offers you his right hand of the feet, which was nothing but of help, I bid thee rise. Not cases of gout; defection of teeth, that called acute sin, but of chronic sin-those who for dental surgery, the skill of which, have not prayed for 38 years, those almost equal to anything modern, is who have not been to church for '38 still seen in the filled molars of the unyears, those who have been gamblers, rolled Egyptian mummies; the ophthalor libertines, or thieves, or outlaws, or mia caused by the juice of the newly blasphemers, or infidels, or atheists, or ripe fig, ldaving the people blind by all these together, for 38 years. A the roadside; epilepsy, as in the case Christ for exigencies! A Christ for a of the young man often falling into dead lift! A surgeon who never loses the air and oft into the water; hypoa case! chondria, as of Nebuchadnezzar, who In speaking of Christ as a surgeon I imagined himself an ox and going out must consider him an oculist or eye to the fields to pasture: the withered doctor, and an aurist or ear doctor. hand which in Bible times, as now, Was there ever such another ocucame from the destruction of the main list? That he was particularly sorry artery, or from paralysis of the chief for the blind folks I take from the fact nerve; the wounds of the man whom that the most of his works were with the thieves left for dead on the road the diseased optic nerves. I have not to Jericho and whom the good Samartime to count up the number of blind itan nursed, pouring in oil and winepeople mentioned who got his cure. vine to cleanse the wound and oil to Two blind men in one house; also one soothe it. Thank God for what surwho was born blind; so that it was not gery has done for the alleviation and removal of a visual obstruction, but cure of human suffering! the creation of the cornea and ciliary

WORK OF THE OCULIST.

particles of sand fleating in the air, and the night dews falling on the eyelids of those who slept on the top of who were feeling slowly their way. by staff, or led by the hand of man or rope of dog, and introducing them to tho faces of their own household, to the sunrise and the sunset and the evening star. He just ran his hand over the expressionless face, and the shutters of both windows were swung open, and the restored went home crying, "I see! I see! Thank God, I see!" That is the oculist we all need. Till he touches our eyes we are blind. Yes, we were born blind. By nature we see thirgs wrong, if we see them at all. Our best eternal interests are put before us, and we cannot see them. The glories of a loving and pardoning Christ are projected, and we do not behold them. Or we have a defective sight which makes the things of this world larger than the things of the future, time bigger than eternity. Or we are color blind and cannot see the difference between the darkness forever and But Christ the Surgeon comes in, day. and though we shrink back afraid to have him touch us, yet he puts his fingers on the closed eyelids of the soul and midnight becomes midnoon, and we understand something of the joy of the young man of the Bible who, though he had never before been able to see his hand before his face, now by the touch of Christ had two headlights Yet this divine surgeon put both his kindled under his brow, cried out in language that confounded the jeering crowd who, were deriding the Christ that had effected the cure and wanted to make him out a bad man, "Whether he be a sinner or not. I know not. One thing I know, that whereas I was blind, now I see."

WONDERFUL AS AN AURIST. But this surgeon was just as wonderful as an aurist. Very few people have two good ears. Nine out of ten people are particular to get on this or that side of you when they sit or walk or ride with you, because they have one disabled ear. Many have both ears damaged, and what with the constant racket of our great cities and the catarrhal troubles that sweep through the land, it is remarkable that there are any good ears at all. Most wonderfud instrument is the human ear. It is harp and drum and telegraph and telephone and whispering gallery all in one. So delicate and wondrous is its construction that the most difficult of all things to reconstruct is the auditory apparatus. The mightiest scientists have put their skill to its returning, and sometimes they stop the progress of its decadence or remove temporary obstructions, but not more than one really deaf ear out of 100,000 is ever It took a God to make the ear, cured. and it takes a God to mend it. That makes me ourious to see how Christ the

We are told of only two cases he

in our time great surgeons have re-ceived \$1,000, \$5,000 and in one case I know of \$50,000, but the surgeon of their houses, and in some of these lands whom I speak received not a shekel it is estimated that 20 out of 100 people not a penny, not a farthing. In his are totally blind. Amid all that crowd whole earthly life we know of his havof visionless people, what work for an ing had but 621-2 cents. When his oculist! And I do not believe that taxes were due, by his omniscience he more than one out of a hundred of that knew of a fish in the sea which had Surgeon's cures were reported. He swallowed a piece of silver money, as went up and down among the people fish are apt to swallow anything bright, and he sent Peter with a hook which brought up that fish, and from its mouth was extracted a Roman stater or 62 1-2 cents, the only money he even had, and that he paid out for taxes This greatest surgeon of all the centuries gave all his services then and offers all his services now free of all charge. "Without money and without price," you may spiritually have blind eyes opened, and your deaf ears un-barred, and your dumb tongues loosened, and your wounds healed, and your soul saved. If Christian people get hurt of body, mind or soul, let them remember that surgery is apt to hurt but it cures, and you can afford present pain for future glory. Besides that, there are powerful anaesthetics in the divine promises that soothe and alleviate. No ether or chloroform or cocaine ever made one so superior to distress as a few drops of that magnificent anadoyne. "All things work together roseate morning of an everlasting for good to those who love God." Weeping may endure for a night, but

joy cometh in the morning." HEALING THE WORLD'S WOUNDS What a grand thing for our poor human race when this surgeon shall have completed the treatment of the world's wounds! The day will come when there will be no more hospitals, for there will be no more sick, and no more eye and ear infirmities, for there will be no more blind or deaf, and no more deserts, for the round earth shall be brought under arboriculture, and no more blizzards or sunstrokes, for the atmosphere will be expurgated of scorch and chill, and no more war, for the swords shall come out of the foun-

dry beat into pruning hooks, while in the heavenly country we shall see the victims of accident or malformation or hereditary ills on earth become the athletes in Elysian fields. Who is that man with such brilliant eyes close before the throne? Why, that is the man who, near Jericho, was blind and our surgeon cured his ophthalmia ! Who is that erect and graceful and queenly woman before the throne? That was the one whom our surgeon geon found bent almost double and could in nowise lift up herself, and he made her straight. Who is that listening with such rapture to the music of heaven, solo melting into chorus, cymbal responding to trumpet, and then himself joining in the anthem? Why, that is the man whom our surgeon found deaf and dumb on the beach of Galilee and by two touches opened ear gate and mouth gate. Who is that around whom the crowds are gathering with admiring looks and thanksgiving and cries of "Oh, what he did for my family! Oh! what he did for the world!" That is the surgeon of all the centuries, the oculist, the aurist, the emancipator, the Saviour. No pay he took on earth. Come, now, and let

operated on as an ear surgeon. His all heaven pay him with worship that friend Peter, naturally high tempered, shall never end and a love that shall

SURGERY WITHOUT PAIN.

But the world wanted a surgery the blind man of Bethsaida, cured, by without pain. Drs. Paire and Hickman and Simpson and Warner and Jackson, with their amazing genius, came forward and with their anaesmen who sat by the wayside. thetics benumbed the patient with nar-

cotics and ethers as the ancients did with hasheesh and mandrake and quieted him for a while, but at the return of consciousness distress returned. The world has never seen but one surgeon who could straighten the crooked limb, cure the blind eye or reconstruct the drum of a soundless ear or reduce a dropsy without any pain city and come in to business. But in at the time or any pain after, and that the lands where this divine Surgeon est, grandest, gentlest and most sym-

ed the laceration and another ear bloomed in the place of the one that had been slashed away. But it is not the outside ear that hears. That is only a funnel for gathering sound and pouring it into the hidden and more elaborate ear. On the beach of Lake Galilee our surgeon found a man deaf clap of thunder. He could not call by name. What power can waken that nerve or open the gate between the brain and the outside world? The surresponded, and when our surgeon withdrew his fingers from the ears the two sweet voices of music and friendship. For the first time in his life he heard the dash of the waves of Galilee. had been built a king's highway of he was dumb. No word had ever leapcentuation were to him an impossi-UNLOOSING BARRED TONGUE.

Our surgeon, having unbarred his ear, will not unloose the shackle of his tongue. The surgeon will use the same liniment or salve that he used on two occasions for the cure of blind people -namely, the moisture of his own mouth. The application is made, and lo the rigidity of the dumb tongue is relaxed, and between the tongue and teeth was born a whole vocabulary and words flew into expression. He not only heard, but he talked. One gate of his body swung in to set sound enter, and the other gate swung out to let sound depart. Why is it that, while other surgeons used knives and forseps and probes and stethoscopes, this surgeon used only the ointment of his own lips? To show that all the curative power we ever feel comes stright from Christ. And if he touches us not we shall be deaf as a rock and dumb as a tomb. Oh, thou greatest of all artists, compel us to hear and help us to speak!

muscle and crystalline lens and retina for all these cures of eyes and ears and optic nerve and tear gland; also and tongues and withered hands and crooked backs? The skill and the painthe saliva which the Surgeon took lessness of the operations were worth from the tip of his own tongue and hundreds and thousands of dollars. Do put upon the eyelids! also two blind not think that the cases he took were all moneyless. Did he not treat the
