This difficulty taken in connexion with a recent occurrence at Havana, would show that the Dons are not very friendly to the Royal Mail Steamers. Royal Enoisegre.—Lieut. Colonel Jones, K.H., who has had the command of the Royal Engineer Department in this district, for the last eight years, has been relieved by Lt. Col. Calder. The General Commending, on the retirement of Colonel Jones, alludes to his zealous and useful services, during the long period he had charge of the Department, and so essentially forwarded the public works in progress at this station. Col. J. has justly merited such a report. He also has been Commendant of the garrison for a length of time and that office now devolves upon Colonel Robertson, of the 30th Regt.

The proclamation of President Houston is a very spirited call to arms, which seems to have been answered by a rapid levy, almost cam mass, of the hardy and martial, but certainly hitherto too supine Texans.
