FUNERALS.

The funeral of Mrs. Eliza Bruce
took place yesterday afternoon at
2:30 o'clock from her late residence,
276 Duke street, to Trinity church,
where burial services were conducted
by Rev. R. A. Armstrong. Interment
took place in the Church of England
Burying Ground.

IT'S A WISE CHILD

Fond Mamma—"Now, Charlie, don't
you admire my new dress?"
Charlie—"Yes, mamma, it's beauti-
ful."
Mamma—"And, Charlie, all the
silk is provided for us by a poor
woman."
Charlie—"Do you mean Dad?"

Beware of Blood-Poison

Zam-Buk is a Sure Cure.

Mr. Jas. Davey, of 786 Ellice Avenue,
Winnipeg, says:—"A few months since
I was cured of a poisoned finger
through the timely use of Zam-Buk."
"I cut a deep rash across the knuckle
on the first finger of my right
hand in opening a lobster can. I suf-
fered at the time with the soreness
and pain, but had no idea it would be-
come a serious wound. However, in
about two days I was greatly alarmed,
as my whole hand and arm to the el-
bow became suddenly inflamed, show-
ing signs of blood-poisoning. The pain
was dreadful and I was forced to leave
off my work and go home."
"The wound on the knuckle had
been poisoned by the dust and dirt get-
ting into it. I then decided to start
the Zam-Buk treatment, and having
first bathed the cut, I applied the heal-
ing balm. It soothed the pain almost
instantly, and by next day there was
a great improvement."
"In a week's time, through perse-
verance with this wonderful prepara-
tion, a complete cure was brought
about."

Santa is Ready

He has established his headquar-
ters at Arnold's. It's a little early to
be talking about Christmas maybe,
but this is going to be such a great
Christmas and gifts are so plentiful
that the good old Santa decided the
earlier he started the better it would
be. Hadn't you better take the hint
and start early too? Our stock is big-
ger and better than any ever shown
in this town. We have gifts for every-
body, children of any age up to a hun-
dred can get their wants supplied
here. Our prices are lower than ever
before. See our books, games, cards,
toys and seals.

For Schoolboy Luncheons

Most mothers know that the
plainer food is best. You can't go
wrong in having
hand an abundance of
BUTTERNUT
BREAD

Which is rich in the nutri-
tive elements of the Best
Canadian Wheat, and is
made in a clean, sanitary
bakery.

DELICIOUS "SYRUP OF FIGS" CLEANS YOUR

TORPID LIVER AND CONSTIPATED BOWELS

Fermentation in stomach, sluggish liver and waste-clogged

bowels cause the sick headache, sourness, gastritis,

biliousness and indigestion.

If headachy, bilious, dizzy, tongue

coated, stomach sour and full of gas,

you betch undigested food and feel

sick and miserable, it means that

your liver is choked with sour bile

and your thirty feet of bowels are

clogged with effete waste matter not

properly carried off. Constipation is

worse than most folks believe. It

means that this waste matter in the

thirty feet of bowels decays into poi-
sons, gases and acids and that these

poisons are then sucked into the

blood through the very ducts which

should suck only nourishment to sus-
tain the body.

Most people dread physic. They

think of castor oil, salts and cathar-
tic pills. They shrink from the after-

effects—so they postpone the dose

until they get sick; then they do this

liver and bowel cleansing in a heroic

way—they have a bowel washday—
That is all wrong. If you will take a

teaspoonful of delicious Syrup of Figs

tonight, you will not realize you have

have taken anything until morning

when all the poisonous matter, sour

bile and clogged-up waste will be

moved on and out of your system,

thoroughly and gently—no griping—
no nausea—no weakness. Taking

Syrup of Figs is real pleasure. Don't

think you are drugging yourself; it

is composed entirely of inusu-
ally figs, senna and aromatics, and

constant use can cause injury. Ask

your druggist for "Syrup of Figs

and Elixir of Senna," California Fig

Syrup Company, on the label. This

is the genuine—old reliable. Any other

Fig Syrup offered as good should be

refused with contempt. Don't be

imposed upon.

THE TUBERCULOSIS DEATH

RATE FOR ST. JOHN, N. B.,

IS PHYSICIAN'S REPORT

Annual Meeting of St. John Association for the Prevention of

Tuberculosis, Held Yesterday.

Judge McKeown Elected President of the Association—

Reports, Interesting in Nature, Dealing with

Work of Year.

Chicago the cost of preventing tu-
berculosis should be placed on the

A Great Problem.

Tuberculosis was not only the name

of a disease; it was a social and econ-
omic problem, an index to a country's

progress and enlightenment. In the

old days the doctor simply concerned

himself with patient; now the doctor

played the part of a general health of-
ficer, interested in the prevention of

diseases, and removal of causes of

infection or contagion.

The public authorities should take

measures to prevent tuberculosis, just

as they took measures to prevent fire.

He feared that the statistics of im-
migration had dulled our sensibilities

to the enormous loss of life lying on

in Canada through the lack of preven-
tive work. About 25,000 infants died

in Canada each year.

Most Important Work.

The association was doing work of

a kind that was developing greater

importance all over the world. Canada

should not merely set itself to out-
strip in trade and commerce—it should

see that its people are biologically fit.

Even Bohemia gave much more atten-
tion to the problem of infant mortal-

ity than Canada did.

In conclusion he said that there were

other forms of tuberculosis besides

that of the lungs, and suggested the

need of providing for the sending of

children to the sea shore.

The Officers.

The officers were then announced

as follows—President, Judge Mc-

Keown; 1st vice-president, Dr. Mur-

ray McLellan; 2nd vice-president,

Mrs. David McLellan; secretary, Miss

H. S. Smith; lecture committee, Mrs.

J. H. Prink, Mrs. Robert Thomson

Mrs. McKeown, Mrs. E. A. Smith, Mrs.

Louis Green, Mrs. T. H. Bullock, Mrs.

Daniel Mullin, Mrs. Carrington, Mrs.

Bushy, Mrs. Stratton, Mrs. Henney

Miss Illett, Mrs. Eason, Dr. A. F.

McAveney, E. L. Rising, J. A. Pike

Dr. Emery, Rev. A. W. Meahan, Rev.

J. H. MacVicar, L. P. D. Tilley.

Paper by Dr. Melvin.

Dr. Melvin read an interesting pa-

per on the general subject of tubercu-

losis. Once, he said, it was a techni-
cal subject, now it was a popular one.

Years ago it was regarded as incur-

able, and men bowed to its ravages

as to the stroke of death. Medical

authorities now claimed that half the

people over 40 years of age had had

tuberculosis and recovered—often

without knowing they had been trou-

bled with the disease. This fact was start-

ling, but encouraging, it showed that

nature would cure the disease with

very little assistance.

Broadly speaking diseases like con-

sumption, smallpox, etc., were less

prevalent today when in times past

the speaker spoke of the death of

dispensary work, but said advice was

frequently futile, since many people

of the sort who had been cured of

ways of living. The child of poverty

freezes not only the genial currents

of the soul but the body also. In the

Pulmonary consumption in its early

stages was easily cured, and not very

infectious; in its later stages it was
