Around the City

Tidal Gauge.
H. W. Jones of the marine department is in the city, installing a new tidal gauge.

Apple Crop.
A. G. Turney, provincial horticulturist, was in the city yesterday. Mr. Turney said that so far as quality went the apple crop of the province this year was excellent, though in some sections the quantity raised was not as large as the bloom in the spring promised.

A Greek Service.
Satisfactory arrangements having been made Rev. Mr. Spyropoulos will hold public service for the Greek people of the city in the church of St. John the Baptist in Paradise row at nine a.m. today.

No Danger.
The burning of brush in the vicinity of East St. John caused quite a lot of excitement in the city last evening. It was reported that several houses had been burned but this proved untrue. The fires were carefully watched and no property was endangered.

Generous Help.
E. W. Cross of Denver Harbor has more than \$100 which he has collected for the Patriotic Fund. Some days ago Mr. Cross put a notice in the window of his place of business at Beaver Harbor that subscriptions would be received by him and very generous responses followed. Mr. Cross is holding the money until such time as a provincial committee is organized and prepared to receive contributions.

Greek Wedding Today.
A very interesting event will take place at the home of N. G. Allotis, 84 Germain street, this evening at nine o'clock when Rev. Theophilus Spyropoulos, D. D. of Lynn, Mass., will unite in holy wedlock Jeanne M. Miris and George P. Pittson, both of this city. The young couple have many friends in the city who wish them much happiness. They will make their home in Fredericton, N. B.

Will Go to Bermuda.
Mrs. Nell McLaughlan, wife of Rev. Nell McLaughlan, formerly pastor of the Methodist church in this city, and her two sons, Kenneth and Donald, are here visiting Mr. and Mrs. S. B. Vass. Mrs. McLaughlan and family, who have been spending the summer near Westfield, will leave for Bermuda in about two weeks to join Rev. Mr. McLaughlan, who is now at his pastorate there.—Fredericton Gleaner.

A GIFT TO WOUNDED START SHEDS NEXT WEEK

The New Brunswick Fruit Growers' Association will send a specially selected shipment of prize New Brunswick apples to England with the province's gift of 100,000 bushels of New Brunswick potatoes to the British Empire.

The apples will be given freely by the 160-odd members of the Association and there will probably be upwards of 100 barrels of the pick of New Brunswick fruit so far as the steamer from St. John about the middle of October.

These apples will be consigned to the Imperial Government with the desire expressed that they be sent to the hospitals and given to the wounded British soldiers and sailors. There is an unusually large apple crop in New Brunswick this year and the fruit sent to England will be only of the very best varieties and practically perfect samples in every respect. Because of the war the Association has decided not to hold its annual fruit show this fall at St. John.

WEDDINGS

Day-MacDonald.
A pretty wedding took place yesterday afternoon at four o'clock at 102 Victoria street, when William Purvis Day was united in marriage to Miss Beattie MacDonald. The ceremony was performed by Rev. B. H. Nobles, pastor of Victoria street Baptist church. Mr. and Mrs. Day left on the Boston train last evening for New York where they will reside. Mr. Day is employed on a steamer running out of New York.

PROCLAMATION FOR GERMANS AND AUSTRIANS

Will Retain Liberty in Canada if They Do Nothing Injurious to Empire.

In the Royal Gazette yesterday there appeared a proclamation relative to Germans and Austro-Hungarians in Canada and their status in the country.

The proclamation states that there is no need for apprehension on the part of those who are quietly carrying on their regular avocations that they will be deprived of their freedom to hold property or to carry on business.

The proclamation recites the Federal Government's policy relative to these Germans and Austro-Hungarians to the effect that "restrictive measures will be taken only in cases where officers, soldiers or reservists of the German Empire or of the Austro-Hungarian monarchy attempt to leave Canada or where subjects of such nationalities engage or attempt to engage in espionage or acts of a hostile nature, or to give information to or otherwise assist the King's enemies. Even where persons are arrested or detained on the grounds indicated they may be released on signing an undertaking to refrain from acts injurious to the Dominion or the Empire."

GYMNASIUM FOR SOLDIERS

Arrangements Being Made By City to Equip Physical Department at Partridge Island.

The members of the artillery corps stationed at Partridge Island will likely soon be provided with proper apparatus for taking exercise for the purpose of building up their bodily vigor. The matter of proper equipment was discussed by the city commissioners at their meeting on Monday. As a result of this Mayor Frink and Commissioner Russell visited Partridge Island and made an inspection of the facilities there. It was found that at present there was hardly means for the men to obtain the exercise necessary to place them in the best physical condition, but there was ample room for such apparatus as would be necessary.

It was pointed out at the meeting Monday that the city was not under obligation to supply the equipment, but it was thought that the city might voluntarily provide something along these lines.

There are several large rooms in the buildings on the island and these could be equipped with weights, bars and other physical apparatus.

After viewing the conditions Commissioner Russell made arrangements for the physical instructor of the Y. M. C. A. to make suggestions for the proper equipment to be placed for the use of the soldiers, and it is likely that he will soon make a trip to the island in order to ascertain the nature of the equipment that could be installed.

It is likely that the men now stationed on the island will be sent to the front for active service and it is necessary that they should be in the best physical condition possible. With this end in view the city fathers will consider the matter and it is probable that at the next meeting of the council something of a substantial nature will be done.

Maritime Dredging and Construction Company continues work on schedule—Making progress.

The Maritime Dredging and Construction Company are making satisfactory progress with their wharf building work on the West Side, and next week work will be started on the temporary sheds, which are to be erected on the Connelly Wharf, in order to assure extra accommodation next winter. To hasten the reclamation work, the company has installed another derrick with a clamshell bucket.

D. C. Clarke who is doing the crib work is well up to his programme, and the contractors for the concrete work are making a good showing. Already about 1,500 lineal feet of concrete superstructure have been built.

LATE SHIPPING

New York, Sept. 16—Ard: Strs. Meamouth, London; Padia, Marcellis, Queenstown, Sept. 16—Ard: Strs. Arctic, Boston; Merion, Philadelphia. London, Sept. 16—Ard: Str. Ascania, Montreal. Quebec, Sept. 16—Ard: Str. Moewana, Newfoundland.

ADVOCATES THE NOTE FOR ALL WOMEN

Mrs. Livingstone Urges W. C. T. U. to Work Toward This End—Last Session of Convention.

The eighth annual convention of the Women's Christian Temperance Union closed last evening after a most successful series of meetings. Delegates from different parts of New Brunswick and Prince Edward Island were present, and all derived great inspiration for the work of abolishing the liquor traffic from this country. It was pointed out at the different meetings that the women were forwarding the movement for prohibition in all parts of the country and generally they were meeting with success.

Mrs. Debora Knox Livingstone, who was present at the greater number of the meetings, helped to keep up the interest and through her efforts the members saw more clearly than ever the great good that was being accomplished through their efforts in all parts of the world.

Mrs. Livingstone was the chief speaker at the public meeting in Centenary church last evening and showed by examples taken from different parts of the country that with the coming of the franchise for women the bar was doomed. Her idea was that all women should be given the vote and that the Women's Christian Temperance Unions throughout the country should strive with this end in view. Mrs. Livingstone held the attention of her audience for nearly two hours and brought home in a new light many of the facts concerning the liquor traffic and the enfranchisement of women.

The Officers.

During the sessions yesterday the election of officers for the ensuing year was held with the result that Mrs. James McWha of St. Stephen was re-elected president. The other officers are as follows:

Mrs. J. S. Perry, Summerside, P. E. I., vice-president; Mrs. Luther R. Hetherington, Newcastle, N. B., corresponding secretary; Mrs. C. Laidlaw, St. Stephen, recording secretary (re-elected); Mrs. A. C. M. Lawson, Fredericton, treasurer (re-elected). During the sessions yesterday many interesting papers were read by the different delegates. The themes dealt with present day conditions and the remedies that were available.

Among the speakers yesterday were Rev. W. H. Barracough of Centenary church, and J. Willard Smith, Mrs. R. Norton Smith, Mrs. T. H. Bullock and Mrs. Howard Sprague were also among the speakers.

Anti-sarcotics was the subject of an interesting report given by Mrs. T. A. Clark. Mrs. Clark referred to the evil effects of ailments on the human system and described in pointed terms some of the methods being employed to eradicate intemperate habits.

At the conclusion of the report the delegates entered into a discussion of the subject and many expressed their opinions on the subject.

The work among the lumbermen and ranchmen was dealt with in an interesting manner in a report by Mrs. A. C. M. Lawson of Fredericton. The meetings have aroused more than ordinary interest and were all well attended by many people other than delegates. All were greatly impressed by the efforts of the women to accomplish reforms in these provinces.

The subject of Mrs. Livingstone's address last evening was Womanhood and Citizenship. During the course of her remarks she made a strong appeal for the vote for women and cited incidents where the women had, by their votes, been the means of bringing about many reforms. This was particularly the case in connection with the liquor trade and the white slave traffic. She hoped soon to see women given the vote from one end of this country to the other.

During the evening Mrs. Livingstone was presented with a handsome bouquet. She will leave this morning for Houlton, Me., where she will address a meeting.

WILL IMPROVE WATER SYSTEM OF THE CITY

Commissioner Wigmore Has Busy Programme Ahead—Provide Work For Men This Winter.

Wrought iron water pipe for the different works to be done about the city has arrived in the city and is being stored in the Water and Sewerage Department yards in Lelster street. Commissioner Wigmore has underway many improvements for the city water service and this work will be carried along in order to give employment to as large a number of men as possible. The city council has authorized the renewal of old water mains in several of the streets and at a recent meeting authorized Commissioner Wigmore to purchase 4,000 feet more of water pipe and several meters.

When asked concerning the influence of the war on the Water and Sewerage Department work, Commissioner Wigmore said he considered that the city should provide as much work as possible. For his part he intended to have water and sewerage work continued. He had had a considerable surplus last year, but he hoped to be able to use this in making much needed improvements in the city water distribution system. He thought that the city would be much further ahead by making work for the citizens than in distributing charity. Unless there was work provided during the coming winter it was likely the city would have to give assistance to many. So far he had had no difficulty in securing men for the carrying on of the work of his department. During the present winter Commissioner Wigmore hopes to have work for a large crew of men. Of course trenching in earth would be practically impossible during the cold weather, but he hopes to have some rock work done and this can be carried on at all times. During last winter and the winter before work of this nature was carried on in his department.

Plans are now being prepared for the work for the coming cold season.

CARPENTERS' UNION IN EXCELLENT SHAPE

General Organizer in interesting address to local members—Sees very bright future.

At the meeting of the Carpenters Union last evening, J. E. Potts, general organizer of the International Brotherhood of Carpenters and Joiners, was present, and delivered an interesting address. He said that in spite of the industrial depression which had recently prevailed in the United States and Canada, the Carpenters' Brotherhood had made substantial progress, increasing its membership and in some cases increasing wages. He spoke optimistically about the future.

Marabout Ruffs

are the correct thing for fall wear before you bring out your furs. They are comfortable, they are dressy and the price at F. A. Dykeman & Co.'s store are within the reach of all. They come in all sizes and priced from \$2.00 to \$5.00. They are also showing a large assortment of Austria coats from \$2.50 to \$5.00.

FIRE IN BEDROOM

Last evening, shortly before seven o'clock, an alarm of fire was sent in from box 3 on Union street for a blaze in the Stanley House, 190 Union street occupied by Mrs. Doyle.

The fire was found in a room that had been occupied by one of the boarders. The upper hall and rooms were filled with smoke but the fire was put out before a great deal of damage was done. The only damage was to the room in which the fire started. A few other rooms on the upper floor were damaged by smoke. The fire was extinguished by Chemical No. 1.

A bureau was destroyed and the paper on the walls of the room was damaged. The fire was confined to the one room and the damage will be small.

LOST—On Wednesday evening between Westfield and West St. John a gentleman's passbook was lost. Finder will be rewarded on returning the same to Standard Office.

ST. JOHN SHOULD NOT BE BEHIND OTHER CITIES IN RENDERING ASSISTANCE—MUCH COMMENT.

A good deal of comment is being made about the city in regard to the amounts contributed by St. John citizens towards the Patriotic Fund. It is claimed that so far St. John's contribution has been small, in view of the fact that some communities have already raised amounts equal to one dollar or over per capita. As against this criticism it is pointed out that the number of volunteers for foreign service from St. John has been considerably larger in proportion to its population than the number of volunteers sent from many other communities in Canada. Although it is generally recognized that at this juncture, when the Empire is engaged in the greatest war in history, the most important contribution that could be made is that of men to fight the Empire's battles, to some citizens this is a very fact that St. John has contributed an exceptionally large number of volunteers is only another argument why the old Loyalist city should further justify its title by making its monetary contribution to the Patriotic Fund commensurate with its contribution of soldiers.

A gentleman who has himself made a very substantial contribution to the fund suggests that it might be a good thing to call a public meeting to discuss St. John's duties in the emergency, and arouse the people of the city. In the present circumstances, to a greater sense of responsibility. It is pointed out that the contribution made by the city is insignificant, compared with that of the city council of Halifax which has voted \$25,000.

Baking Day— Oh, What a Difference

Compare the old-fashioned method of making bread—the half hour's hard work of kneading the dough by hand, the unsanitary features, the uncertainty of results—with the modern, easy UNIVERSAL way.

THE UNIVERSAL BREAD MAKER does the mixing, and kneading in three minutes, so thoroughly that every particle of starch is burst and the bread becomes firm and white, better bread than can possibly be made by hand.

Two Sizes—Small \$2.25, Large \$2.75

W. H. THORNE & CO. LTD.
MARKET SQUARE & KING ST.

A WOMAN CAN'T HELP WANTING A PLAIN CABINET GLENWOOD

It is so smooth and easy to clean. No filigree or fussy ornamentation to catch the dust or dirt, just the natural black iron finish, "the mission idea" applied to a range, every essential refined and improved upon.
