

THE MARKETS.

MONTREAL MINING EXCHANGE. Montreal, April 30.—(Special)—The particular feature of the trading on the mining exchange today was the slight advance in the price of Montreal-London. In other respects the market was unchanged. Closing prices: Centre Star, 10 1/2; Monte Cristo, 7 1/2; Deer Trail, 10 1/2; Golden Star, 7 1/2; Montreal-London, 40 3/4.

TORONTO MINING EXCHANGE. Toronto, April 30.—(Special)—Mining exchange closing sales today were: Deer Trail, 500 at 7 1/2; Golden Star, 500 at 7 1/2; Montreal-London, 1,000 at 30; Black Tail, 2,500 at 13 1/2; Vananda, 500 at 7 1/2. Total sales on board 10,000. The market was dull and easier. A feature was the weakness of Golden Star. It is stated that reports recently have been received from the mine indicating a poor streak of ore has been encountered. Supt. Fishery's full report on the prospects is awaited by the directors. One of the latter may go west to make a personal investigation.

NEW YORK STOCK MARKET. New York, April 30.—The day on the stock market started off with another attempt to find up prices by speculative manipulation. The purpose of attracting an outside bid was not sufficient demand to do so. The market was not so far from that there was not sufficient demand from that source to keep up prices. Neither was there any indication of weakness from the commission houses. The market therefore fell back and became dull and heavy, but without positive weakness, until some of the later developments, when the bears showed renewed vigor and sold prices to the lowest of the day.

The violent bug in sugar was the principal element in the decline. That stock sold up to 1 1/2 in the early dealings and recovered to that figure after a reaction and then fell away with occasional spasmodic rallies to 1 1/2, closing only slightly above that.

The threatened strike on the New York Central caused a fall of 3/4 points in that stock and had the syndicate effect elsewhere in the list. Missouri Pacific advanced 1/4 to 40 on rumors the dividend would be declared at today's meeting of directors and that John D. Rockefeller had been admitted to the directorate. Both rumors failed to be confirmed by the event and the stock fell back, but saved a small net gain.

The steel industries after some show of weakness became firm and close, getting up to 1 1/2 in the early dealings, but then made a considerable show of strength, otherwise the market generally yielded to the reactionary trend, which closed very near the lowest and easy in tone.

There were no developments of importance in the money or exchange market, though both were scanned with especial interest. It is believed that the dealers were rather light. Total sales, par value, \$1,470,000.

U.S. two advanced 1/4 and new fours declined 1/4. In the bid price.

MONEY IN NEW YORK. New York, April 30.—Money on call easy at 2 to 2 1/2 per cent. Commercial paper, 4 to 4 1/2 per cent. Sterling exchange irregular with actual business in 1/2 to 1/4. Government bonds, 4 1/2 to 4 3/4. U.S. two advanced 1/4 and new fours declined 1/4. In the bid price.

STAPLES IN NEW YORK. New York, April 30.—Flour—Receipts, 16,700 bbls; exports, 9,730 bbls. Wheat—Receipts, 118,400 bu; exports, 29,400 bu. Corn—Receipts, 118,400 bu; exports, 29,400 bu. Cotton—Receipts, 118,400 bu; exports, 29,400 bu.

NEW YORK STAPLES. New York, April 30.—Flour—Receipts, 16,700 bbls; exports, 9,730 bbls. Wheat—Receipts, 118,400 bu; exports, 29,400 bu. Corn—Receipts, 118,400 bu; exports, 29,400 bu.

CHICAGO WHEAT AND PROVISIONS. Chicago, April 30.—Wheat—Receipts, 16,700 bbls; exports, 9,730 bbls. Flour—Receipts, 118,400 bu; exports, 29,400 bu.

RATES OF EXCHANGE. The following were the buying and selling rates yesterday: London, 60 days, 94 1/2; New York, 100 days, 94 1/2; Montreal, 100 days, 94 1/2.

NEW YORK STOCK MARKET. (published by D. C. Chen, Banker and Broker.)

SPORTING EVENTS.

BASE BALL. Alerts Engage a Battery. Yesterday a letter was received from Catcher Harry Joyce accepting terms to play again this season with the Alerts. Joyce has also accepted terms to play with the Alerts. Both players will arrive here May 15. Joyce plays in the highest tier of Yapp's ability as a pitcher and all around player who has had four years experience as a professional player.

American League Games Monday. At Cleveland-Cleveland, 6; Detroit, 5. At Buffalo-Indianapolis, 16; Buffalo, 15. At Milwaukee-Milwaukee, 10; Chicago, 5. At Minneapolis-Minneapolis, 11; Kansas City, 5.

Condensed News of Important Foreign Affairs. Stockholm, April 30.—The constitutional committee of the Riksdag has reported in favor of the impeachment of the ministry for violation of the constitution in appointing Norwegian, Ditlev, to the highest departmental post in the foreign office.

Rio Janeiro, April 30.—The Portuguese embassy here has arrived here with General Cunha, the special envoy of the King of Portugal, to attend the 40th anniversary of the discovery of Brazil.

Washington, April 30.—News has reached here that the London mission school has been removed from Malan on the German island of Uloah to the American island of Tutuila, taking up its location on the shores of Pago Pago Bay.

Philadelphia, April 30.—While today's game between the Athletics and Philadelphia was anything but good base ball, there was plenty of excitement and 10 innings were required to decide it. Hits and errors abounded.

Chicago, April 30.—Louis went to pieces in the second and third innings and on the most miserable misplays, together with Harper's poor catching, the Athletics won by a score of 10 to 2.

Personal Intelligence. Dr. James Hannay and Col. Domville, M. P., returned to Ottawa yesterday.

A CONFIDENTIAL CASE.

It Brought Out an Honest Confession About a Stolen Hog. "It has long been a matter of argument," said the old lawyer, who was in a reminiscent mood, "whether a lawyer should defend a man that he knows to be guilty. There is an argument on both sides, and I do not suppose it will ever be settled to the satisfaction of all.

NOT VERY EXPENSIVE.

How to Construct a System of Siphoning Water From Wells. If the ground is sufficiently undulating, so that the bottom of the well is three feet higher than the point where the water is wanted, the supply can be easily and cheaply secured by means of a siphon. Use an inch galvanized iron pipe and bury it out of reach of frost. All the fixtures necessary are a pipe bent to go down into the well and a faucet at the discharge end. The general arrangement is shown in the engraving. There are little devices which can be secured at hardware stores which will make it easy to fill the pipe should it become empty.

Washington, April 30.—News has reached here that the London mission school has been removed from Malan on the German island of Uloah to the American island of Tutuila, taking up its location on the shores of Pago Pago Bay.

How to Construct a System of Siphoning Water From Wells.

SEPHONING WATER FROM A WELL. and waste check must be used. A faucet is then needed at the discharge pipe. The water is turned on and shut off by means of a rod extending from the cock under ground to a convenient height above ground. The waste is a one-fourth inch hole, which is opened by the a screwing of the faucet. It also set a joint of six-inch drain pipe and fill up the well, adding joints of pipe as the filling proceeds. A storage tank free from any possible contamination is then obtained. If rock is struck, blast out a reservoir, and lay the timbers across on top of the rock and fill up as before without danger.

ELASTIC APPOINTMENTS. Original Way in Which an M. C. Pleases His Constituents. A noted M. C. familiarly known as Joe, is one of the thriftiest men in congress, and the patronage at his disposal is made to do effective work in his home district. Not long ago he requested a certain chief in the interior department an appointment as laborer for one of his constituents. The request was promptly complied with, but much to the surprise of the chief, he promptly declined. The member was sent for.

There are numerous parasites that prey on fowls, and which are not discernible to the naked eye. An instance may be given in case of scaly leg, which everyone who has bred poultry is familiar with. To an observer it is simply a roughness of the legs, but it gradually accumulates until the legs are swollen and red. The parasites are minute, but they are numerous. This accumulation of scale is the work of millions of parasites, which store up matter on the legs as industriously as a bee. The parasites are minute, but they are numerous. This accumulation of scale is the work of millions of parasites, which store up matter on the legs as industriously as a bee.

At the meeting yesterday of the Zoological Club, Mrs. W. H. Pinney read an interesting paper on earthworms. "I saw stated in a natural history volume that a worm should be divided the anterior part would grow a tail and the posterior part would grow a head. I took worms and divided them, placing divided parts of each worm in a jar of glass. In less than a month had 23 worms, showing only two parts. The head parts had grown heads and the tail parts had grown heads. Two weeks ago I divided two worms into halves and put the halves into a glass, into which I placed earth, but no food, and the head parts ate the tail parts. Springfield, Vt.

Cleaning His Horse's Legs. One of the easiest and most effective ways to clean the mud from the legs of a horse is to take a piece of sack or burlap and passing it around the leg take an end in each hand and draw it rapidly back and forth in the same manner the shoe polisher does when giving you a shine. The rapid action of the dry burlap creates heat and dries the skin, as well as effectually removing the mud.—Farmer's Review.

Tree Filled With Carbonic Acid. In Paris it has been customary for cyclists to go to the nearest restaurant and to inflate their tires with the help of the carbonic acid apparatus, which is used to give a head to the beer, but it is found that a pneumatic tire inflated with carbonic gas soon loses its elasticity and the gas escapes with remarkable rapidity.

The Elm street school repairs will go on at once, and on Wednesday the following departments will be opened: Miss Kerr's grades four and five; Miss Fowler's grade four; Miss Evans', grade three; Miss Strang's, grade two, and Miss Hanson's, grade one. The loss to the school furniture by the fire has been appraised at \$70.
