Peter Harding was once known as a North End citizen, and even yet he may, perhaps, be recognized by this description. He has a wooden leg, and formerly conducted a saloon on Main street. Laterly, though he has forsaken the conventualities of city life, in order that he might enjoy to the full, the innocent pleasures of the wilds. He has established a leafy bower in the woods back of Fort Howe—has made this bed beneath the branches, for months now, and his relatives are beginning to fear that if he persists in his devotion to his forest bed room, his health may become impaired.

The steamer Breadablik has been chartered by Furness, Withy & Co. to load apples at Deep Water terminus at Halifax for Glasgow. She will take 17,000 barrels. The work of shipping them will be commenced today at No. 4 pier. Apples will be scarce in Halifax this fall and winter, owing to the large shipments that will be made to the United Kingdom. Advices have been received that the apple crop in England is a total failure owing to the severe storms. Apples are selling at the rate of \$7 per barrel on the other side, with a tendency towards an increase. The steamer Breadablik will be followed by other vessels, one of which will take 24,000 barrels.—Halifax Herald, Saturday.

The convention of the Young People's Societies of the different churches, which is to open in the ity Tuesday, promises to be an unusually interting and well at tended event. Alter bout fifty name

ings, strange to say, do not at all compare favorably with ours in the country districts and the grounds are not nearly so attractive as the rich nature of the soil would warrant.

The teachers' convention was a good one but ratepayers do not appear to take as much interest in educational matters as in New Brunswick. Owing to low salaries paid, teachers have become scarce and it is not much to be wondered at, considering that many districts give their teachers to teachers on the island are larger than those given in most of the provinces in the country districts give the reachers and the government grants to teachers on the island are larger than those given in most of the provinces in the country districts give their teachers.

The September meeting of the Canadian Club of New York, held at their club room in Caledonian Hall, 846 7th avenue, New York City, showed an increase in attendance of more than 100 per cent from previous meetings. The meeting was enthusiastic and the plans of the officers and committee submitted met with the promise of hearty support and co-operation from the membership. Sixtéen members were admitted and from reports made by workers in the organization, it was considered wise to take the larger meeting room in the hall for next meeting. This scats 600. Among those who joined from the provinces were John Montgomery, barrister, iate of Campbellton (N.
