Rates for Telephone Service

Our rates for exchange service, fixed many years ago, developed many inequalities as between cities at one time equal in population.

In the new schedule filed with the Board of Railway Commissioners we have so grouped cities and towns of approximately equal telephone development as to wipe out these inequalities.

The rates for exchange service proposed for GLENCOE under the new schedule are shown in the following table.

Business Service	Proposed Monthly Rate
Individual line	\$2.75
2-Party line	2.25
Residence Service	
Individual line	\$2.00
2-Party line	1.75
Rural party service	1.75

These new rates, we submit, should be considered in the light of the present purchasing power of the dollar. They compare favorably with the increased rates which telephone companies have had to secure from public service bodies all over the continent.

The commodities we have to buy—labor and material—have advanced in no lesser degree than have those staples of every day use, the cost of which has made present living expenses so high.

VILLAGE OF NEWBURY

BY-LAW NO. 236

To authorize raising the sum of \$9,000.00 for remodeling the existing municipal electric lighting system of the village of Newbury and constructing an electrical distribution plant for operation under the Power Commission Act.

WHEREAS the corporation has applied to the Hydro-Electric Power Commission of Ontario under the provision of "The Power Commission Act" for a supply of electrical power or energy for the use of the corporation and the inhabitants thereof for lighting, heating and power purposes, and for an estimate of the cost thereof.

AND WHEREAS the cost of remodeling the said existing electric lighting system and construction of an electric distribution plant for the village of

Newbury has been estimated to be the sum of \$9,000.00, such estimate having been furnished by the Commission.

AND WHEREAS it will be necessary to issue debentures for the amount of the debt intended to be created by this by-law, and it is desirable that such debentures shall be issued at one time and that the principal of the same shall be made payable in annual instalments during the period of twenty years, such instalments to be of such amounts that the aggregate amount payable in each year for principal and interest shall be as nearly as possible equal to amount payable in each of the other nineteen years of said period.

AND WHEREAS the total amount required to be raised annually by special rate for paying the said debt and interest as hereinafter provided is \$798.10.

AND WHEREAS the amount of the whole rateable property of the corporation according to the last revised assessment roll is \$84,479.00 and the amount of the existing debenture debt of the corporation exclusive of local improvement debts secured by special rates or assessments is \$1,386.24, and no part of either the principal or interest thereof is in arrears.

3. There shall be raised and levied in each year for twenty years by special rate on all the rateable property in said municipality the sum of \$798.10, being a sum sufficient to discharge the several instalments of principal and interest accruing due on the same debt as the same become respectively payable according to the following schedule:
