EDITORIAL

USING OUR FRANCHISE

Again the question arises — How shall we vote and for whom shall the Negro race vote?

First of all we should give careful thought and consideration of the platforms involved and if possible to do so, we should choose those principles which are for the best interest of the city, for all the people. We should then cast our votes for the men who stand for these principles. But by all means we should and must vote.

Instead of making any particular party the basis on which we choose our candidates we must choose them from the principles they advocate.

Another consideration which should guide us as a race is of course, group consideration and all other things being equal we would not advocate group consideration in casting our vote.

The folly, as Kelly Miller in the St. Louis Argus says, is in carrying all ones eggs in one basket. If that basket falls all of your eggs are smashed. Devotion to any one party leads that party to assume an arrogant attitude and to regard the unyielding attachment as due to weakness and to treat the attaché with contempt and disdain.

Politicians, I am wont to say, value the voter whom they are likely to lose and pay less attention to the ones they are sure of.

It is said of some of us that in days of old our vote could be purchased for a few paltry dollars. As to that we cannot say. However, we feel certain that if such a custom ever existed among us, it is only a matter of ancient history. At present 90 per cent of our people would consider it a gross insult to be offered money for their votes. We are seeking now to advance the interest of our race rather than to reap individual gain. Let us not forget to use our franchise on Monday and support the candidates who advocate the best platform for the interest of the whole City of London.

WASTE

Waste of Muscle, waste of Brain,
Waste of Patience, waste of Pain,
Waste of Manhood, waste of Health,
Waste of Beauty, waste of Wealth,
Waste of Blood, and waste of Tears,
Waste of Youth's most precious years,
Waste of Ways the saints have trod,
Waste of Glory, waste of God,—
War!

Victoria Hospital Trust

A. E. SILVERWOOD has served the city of London for twenty years in various capacities, and has been identified with practically every interest for the benefit of the city. He gave four years service during the most difficult time in the history of Victoria Hospital and during that period the costs were reduced \$50,000.00 a year. The figures are on record and can be seen at the City Hall.

Surely he can be trusted to give service that will be in the interests of the sick of the community as well as the citizens in general.

An effort is being made to give you the facts. You will have to be both judge and jury and your votes will decide the most important question before the electors at this time.

VOTE FOR A. E. Silverwood

Sane Administration of Victoria Hospital in the interest of no "Clique" but the City at large
