## HAYES OFF TO THE CORONATION

Roland Hayes, celebrated tenor, sailed from New York for London last week Wednesday on the steamship Normandie. Mrs. Hayes and their little daughter Afrika accompanied him.

Mr. Hayes chatted with a Boston Chronicle representative before his departure and spoke of his plans. He will attend the coronation before filling his engagement in Parish. Asked whether he would sing at the coronation, he was non-committal, but did not deny that there was a possibility of his appearing at one of the functions surrounding the great event at which their majesties would be present.

Accompanying the Chronicle representative was Mr. Cupidon, Jamaican comedian, who was presented to Mr. Hayes and who invited the noted tenor in the name of Jamaica to visit that island. He assured his visitor that a West Indian trip would be very much to his liking. The Cupidon humor kept Mr. Hayes convulsed with laughter, but it was little Afrika, 3, who stole the show. Asked by Cupidon where she was going, she replied, "Oh I am going to get on the boat and mash the ocean."
