If it please Your Honor:

I see by the Toronto Papers your Government is about to make an extensive exploration of the mineral resources of the Northwest Territory.

I beg leave to say I financed a prospecting trip into the northern part of this territory in the year of 1924 and made several very promising discoveries, but on account of sickness and financial circumstances had to abandon our activities for the time being.

I feel sure the information I have would be of great help to you in your present undertaking. I have some crude maps made of the location of these prospects, also the party who was in charge of this prospecting would like to join your exploration party as guide, salary being no obstacle if his expenses would be paid and if your Government could see fit to allow him to file on the two claims upon which this discovery was made.

If interested, wire me collect.

Very truly yours,

*ROMcMillan*
