Your Eyes

Poor eyesight is one of the defects of the present generation, and the time to wear glasses is not determined by your age, but by the condition of your eyes. Students particularly should guard zealously their eyesight.

Astigmatism will cause your eyes to smart and burn, cause headaches in front and in back of head; will cause you to see floating spots in the air, and bring dizziness and dimness of vision.

If you wear glasses be sure they fit you correctly

Toric Lenses bring greater comfort than the ordinary flat kind—ask about them.
