NEW LAND OFFICE OPENS MARCH FIRST

The new Moose Jaw land office will open on March 1st. The Dominion Lands Agent, J. Rutherford was in the city yesterday conferring with R. E. A. Leach Superintendent of Land Offices, respecting the details of the position which he has fallen heir to. Mr. Rutherford was formerly an operator in our neighboring city.

The boundaries of the districts as first published have not been changed, notwithstanding the resentment of the Liberals of Regina. This is a political job, but it is an exceedingly wise one. However, if the Liberals of this district will "swallow" the rest of us can stand our share of this injustice. One thing is certain, however, that the people living south of us will never know when they leave home whether they have to transact business with the Regina office or go to the Moose Jaw. The north and south boundary should have followed the third meridian but as it is the dividing line looks as if it were following the sleigh track of a team lost on the prairie. Jones will have to go to Regina in case of business with the land office while his neighbor east of him will go to Moose Jaw.

That is politics as played by the men who are now making the moves. That is Hon. Frank Oliver's idea of proper administration. Our neighbors to the west are to be congratulated that they could never make such a corrupt political bargain with Mr. Oliver's predecessor who was always said to be politically crooked, as they have made with the present incumbent who till he assumed office was wrongly credited as being straight.

DEEP SYMPATHY FOR CONDUCTOR McLEOD

Deep sympathy is expressed among the C. N. R. men for Conductor McLeod whose daughter, a bright young woman, died almost suddenly at Battleford on Sunday 3rd inst., and owing to the blockade on the north branch he was unable to get home till Friday the body being kept till his return.

Miss McLeod was Supt. Abbott's stenographer and was visiting at her home, intending to leave for Saskatoon on Monday the fourth, to resume her duties. On the Saturday previous however she was taken suddenly ill with pneumonia and died the day following. Supt. McLeod was in Regina at the time and Supt. Abbott wired him the sad and appalling news. Owing to the tie-up on the line he could not get home and this added to sorrow of the family. Mr. McLeod left by way on relief train on Tuesday and got into Saskatoon on Thursday evening where a engine and caboose was waiting to take him to Warman the Company having held the main line train seven hours to take him home. The employees of the road sent a beautiful wreath. The holding of the train to accommodate Conductor McLeod was freely commented on by the men as an act of practical kindness which cannot be forgotten.

RAILWAY MEN HAVE CAUGHT THEIR FEET

The mild weather of the last week has enabled the railway campaign to catch their feet and all trains are now running on time. It was only a couple of days after the weather moderated that the C. P. R. got their trains moving and the C. N. R. have been able to reorganize their passenger service on the north line. The train for the north was cancelled yesterday and started this morning on time.

It will take some days to get the freight trains service in shape but the company is doing everything possible. There are many loads here that are not required to be forwarded at once but the general store supplies and implements will soon be needed for the spring trade and these will no doubt be taken out first.

Supt. Abbott was in the city Saturday evening. He described portions of the north line as resembling mountain cuts, so deep is the snow. While in the city he met Mayor Smith and personally thank him for the assistance rendered in opening up the line. His Worship and Mr. Abbott discussed the branch line transportation question at some length.

LUMBER DEALERS WELCOME INVESTIGATION

In discussing the alleged combine with a prominent lumber dealer to-day the West was informed that the men engaged in that industry will welcome the investigation which has been promised by parliament at the instigation of Mr. Herron M. P. for Alberta. For some time the lumber industry has been under suspicion owing partly to the series of advances in price that have been found necessary and which have been forced by the conditions over which the dealers say they have but little control.

A COMPARISON

Our informant went into a comparison of cost with regard to the lumber business and he stated that five years ago logs could be had a float for from \$2.50 to \$4.00; to-day the mills have to pay as high as \$15.00. Five years ago men could be hired at the coast for from \$30 to \$40 per month but to-day lumbermen are glad to get river men for \$6.00 per day. The cost of manufacture at that time was only \$1.75 per 1000 but to-day the price has increased to \$3.00.

These figures were quoted the West to show that the raise in price of lumber has only been consistent with the increased cost of production and labor has profited by this. It was stated that this firm made more money five years ago than they made last year notwithstanding the increased price to consumers.

The lumbermen are not afraid of the investigation said he and they will prove that they have only advanced prices when they have been compelled to do so. One firm out of the combine say that they can buy lumber in any market and known nothing about restriction to certain dealers.

We will be pleased to receive a share of the patronage which has been given both firms in the past.

INDUSTRIAL GROWTH OF REGINA FOR 1906

City has Made Rapid and Long Strides and the Onward March Will Continue—Boyle in Office for Another Year—P. Cooper President

The municipal development and industrial growth of Regina for 1906 was portrayed in the comprehensive reports presented at the annual meeting of the board of trade on Thursday evening last in the city hall. That this city has entered upon an era of wide expansion is evident by the very satisfactory array of facts and statistics furnished by Commissioner Boyle whose work has been endorsed by the board of trade, and who has been engaged for another year. Thursday evening's meeting was very largely attended and for harmony and progressive spirit could not be exceeded. The retiring president who has been an indefatigable worker on behalf of the city is succeeded by J. P. Cooper, vice president, E. Cooper, who will carry on the good work for 1907 assisted by A. E. Whitmore, vice president and an able council.

REPORT OF COUNCIL

The following is the annual report of the council of the board of trade for 1906:

To the members of the Regina Board of Trade:

Gentlemen,—The commercial progress of Regina during 1906 was, in our opinion, thoroughly satisfactory and it is with pleasure that we pass in review the main features of the year's work. Every line of business appears to have flourished, and development and growth have been apparent on all sides. In transportation matters, in real estate transactions, in building operations, in the location of warehouses and development of industries, in the increase of population, in the expansion of post office business and custom revenues—in these and in many other avenues of commercial activity have the advancement and material progress of the city been evident.

One of the notable features of the year was the advent of the Canadian Northern Railway, which has grown in connection with Regina via Qu'Appelle, Long Lake and Saskatchewan railway. The presence of this company, making connections for eastern traffic with this branch, will result in the expansion of business.

The transportation committee has had during the year several interviews with high officials of the railways, relative to back shipments, and while no concessions have yet been granted, sufficient encouragement has at least been given to warrant us in maintaining the matter of back rates is not lost sight of and is still under consideration.

The city's growth for 1906 has been phenomenal, as the following figures will prove. The total building permits was \$1,982,000, and we consider that the amount for the year is well above the actual cost. The fear that the figures filed will be used for assessment purposes retard to some extent, and as a general rule there are extras which increase the original amount. For this reason we believe that \$2,250,000 would be closer to the true total. In this respect Regina stood fifth among the cities of the Dominion, being surpassed only by Winnipeg, Toronto, Montreal and Vancouver.

The number of buildings, particularly of residences, showed a vast increase. The extent of operations seemed to be limited only by the supply of men and materials. The fact that enterprising contractors are continuing to work on some buildings during the winter proves that great haste is necessary in satisfying the demand for business space. In the department of public works, the city stands first among the cities of the Dominion and fifth in that portion west of Lake Superior. The revenues for the fiscal year were more than the total of any four other cities in the province. The custom receipts also showed a great increase, the figures for the fiscal year being \$144,000, as compared with \$107,000 for the preceding twelve months. It would appear that the excellent showing as to the postal returns have justified the Dominion government in appointing a post office inspector with headquarters in this city.

Regina has grown marvellously during the past few years, and her growth continues unabated at the present time. The growth is reflected in the railway traffic receipts. For 1906 these amounted, according to a careful estimate, to more than \$2,500,000 as compared with \$1,100,000 for 1905. At the present rate of increase the total for 1907 should be more than three million. These figures are sufficient to establish Regina's place among the great railway centres of the Dominion. There are many communities in other parts of Canada and the United States, with five to seven times the population, which cannot make so good a showing in the matter of railway traffic returns.

We believe that the campaign for securing industries and wholesale establishments should be waged with increased vigor and concentration. The advertising branch of it should be continued and extended, in order that the reason for the city's great progress may be better understood in industrial quarters.

The financial statement for the year of the board shows total receipts from all sources of \$6,105,84 of which \$5000 was contributed by the city. The statement of assets shows a surplus of \$2,562,83 so that the actual expenses for the year amounted to \$3,162,44. Against this, we consider for the first time in the history of the city, illustrated booklets and pamphlets creditable to the city have been issued. The consistent press reports in the papers of eastern Canada and the United States have influenced and changed completely the opinions that at one time prevailed with regard to Regina.

The scheme outlined at the last annual meeting of this board for the development and encouragement of the stock industry, with the view of making Regina a recognized stock centre resulted in an expenditure by the city council of 1906 of about \$14,000 in other improvements at the cost of \$100,000 in the construction of buildings on the city grounds. The civic authorities for 1907 have under construction

an auditorium costing in the neighborhood of \$15,000 for show and sale purposes. The Canadian Pacific Railway have promised to construct a spur into the exhibition grounds. It is hoped that with the cooperation of the local stock dealers the status of Regina as a recognized stock centre for the province may be assured.

Regina has received marked recognition from the leading financial institutions of the Dominion, and her prestige as a money centre has been greatly enhanced. The Canada Permanent Mortgage Corporation has located here and has shown its appreciation of Regina's commercial supremacy by erecting a commodious and handsome building. The Northern Bank has also given tangible proof of its faith in Regina, and its new building is a credit to the city. The Traders Bank, The Dominion Bank, the Trust and Loan Co., the Union Trust Co. and many insurance companies have also opened branches here. In the case of the loan companies, the trust companies the provincial headquarters are located here. Practically all the important financial institutions which are now doing business in Saskatchewan have their offices for the province in Regina.

The erection of a new hospital as a municipal undertaking is one of the important matters before the council, and the scheme is expected to be heartily supported by the general body of citizens. It is hoped to be completed by the end of the year. The hospital accommodation is offered the city during the coming spring and summer, is to be greatly increased. Three new structures are now under way, and are being rushed to completion, while ground is being cleared for the building of another. We are confident that the needs of the public in the matter of accommodation will soon be fully met.

Regina's increasing importance as a wholesale trade centre is indicated by the fact that no less than 175 commercial travellers make their headquarters here. The number is steadily increasing and in comparison with this time a year ago is most favorable.

A good deal of progress was made with reference to the proposed union station. Copies of the plans which were prepared by Mr. Woodman, the engineer, have been sent to the Canadian Northern Railway, the Grand Trunk Pacific and the Great Northern railways. The respective representatives of these companies have given indication of their approval of the proposition, and we have every reason to believe that the attitude of the Canadian Pacific Railway is hostile, at least as far as passenger terminals are concerned.

The post office business is a branch of commercial activity in which great progress was made. The receipts for the fiscal year which ended June 30, last, were more than \$37,000, as compared with \$28,000 for the preceding twelve months. This rate of progress was more than maintained during the second half of the calendar year, and the business continues to increase. As a postal centre, Regina stands first among the cities of the Dominion and fifth in that portion west of Lake Superior. The revenues for the fiscal year were more than the total of any four other cities in the province. The custom receipts also showed a great increase, the figures for the fiscal year being \$144,000, as compared with \$107,000 for the preceding twelve months. It would appear that the excellent showing as to the postal returns have justified the Dominion government in appointing a post office inspector with headquarters in this city.

Regina has grown marvellously during the past few years, and her growth continues unabated at the present time. The growth is reflected in the railway traffic receipts. For 1906 these amounted, according to a careful estimate, to more than \$2,500,000 as compared with \$1,100,000 for 1905. At the present rate of increase the total for 1907 should be more than three million. These figures are sufficient to establish Regina's place among the great railway centres of the Dominion. There are many communities in other parts of Canada and the United States, with five to seven times the population, which cannot make so good a showing in the matter of railway traffic returns.

We believe that the campaign for securing industries and wholesale establishments should be waged with increased vigor and concentration. The advertising branch of it should be continued and extended, in order that the reason for the city's great progress may be better understood in industrial quarters.

The financial statement for the year of the board shows total receipts from all sources of \$6,105,84 of which \$5000 was contributed by the city. The statement of assets shows a surplus of \$2,562,83 so that the actual expenses for the year amounted to \$3,162,44. Against this, we consider for the first time in the history of the city, illustrated booklets and pamphlets creditable to the city have been issued. The consistent press reports in the papers of eastern Canada and the United States have influenced and changed completely the opinions that at one time prevailed with regard to Regina.

gina. These two facts almost justify the amount of the expense account and it is sincerely hoped that the present city council will make such a grant as will enable the good work to be continued.

COMMISSIONER'S REPORT.

In his annual report Commissioner Boyle gave an exhaustive review of the publicity campaign for the past year. As much of this statement is of a domestic concern we are merely publishing portions of general interest.

After dealing with the finances the report continues:

The number of new members elected during the year was 57. One member, Mr. S. J. Graham, was removed by death, leaving the total membership on Dec. 31st at 161, as compared with 105 at the same date of the preceding year.

The correspondence for the year was very heavy, the number of letters sent out being about 850. Between five and six hundred letters of a character needed careful attention were sent to a lot of other communications, such as certificates, advertisements, folders, etc. The general meetings held during the year necessitated the preparation of about 2,700 notices, and for twelve meetings of the council about one hundred notices were issued.

The distribution of literature was another important branch of the work. The first publication issued by the board was a folder containing a bird's eye view of Regina, with a number of facts about the city's progress and position. About 7,000 of these were sent out in lots of from one to fifty, principally in connection with correspondence from Regina. A similar publication entitled "A Handful of Facts" was distributed in much the same manner. The large illustrated booklet of the city which was the chief advertising medium of the year, was carefully and economically handled, the effort being to place copies only where a fair assurance of effective advertising was to be had.

The crop bulletins issued by the department of agriculture for Saskatchewan, were also used to further publicity. This information gave in concrete form a statistical report of the fertility of the various sections of the province and as the Regina district takes the lead in the production of the finest grade of grain, it was a very useful publication.

A. E. BOYLE
Re-appointed Publicity Commissioner for Regina

Commenting on the annual convention of the boards of trade at Edmonton in June, the report says:

Among the resolutions introduced by the Regina delegates on that occasion was one which called upon the Dominion government to remove taxation on denatured alcohol. The object of this resolution, as is well understood was to secure legislation facilitating the use of alcohol in the arts and manufactures, and incidentally leading to the production of spirits in the great areas of the west, for commercial use in the Dominion. The resolution was passed with little or no opposition, and was duly forwarded to the authorities at Ottawa. It is satisfactory to note that by the new tariff introduced at Ottawa, by Hon. W. S. Fielding, minister of finance, at the present session of parliament methyl or grain alcohol to be denatured for use in the arts and industries, and for fuel, light and power, was placed on the free list thereby meeting the object of the Regina resolution. Methyl alcohol to be used for denaturing purposes, is subject to a duty of 20c per proof gallon, but this duty may be abolished or reduced by order-in-council. Another resolution, introduced by the Regina delegates, was for the establishment of points of redemption for bank-notes in the new provinces, a subject upon which the board had taken ineffective action in the past. This resolution met with strong opposition from other interested cities, and was not adopted. A third subject, the improvement of western postal facilities, received a hearty endorsement. Its adoption appears to have had a slightly beneficial effect upon the administration of postal affairs in the west since that time.

Discussing the expenditure for union station plan the report says:

Copies of the plans which were prepared by Mr. Woodman, the engineer, have been sent to the Canadian Northern Railway, the Grand Trunk Pacific and the Great Northern railways. The respective representatives of these companies have given indication of heavy approval of the union station proposal, and it is probable that the carrying out of the citizen's desire in this respect. The attitude of the Canadian Pacific Railway is scarcely known as yet, although its chief officials have hinted that they cannot entertain the idea. There is no certainty that this company will block the project, at least as far as passenger terminals are concerned, of

Their policy is to wait until they are approached by the other railway companies concerned, and they decline to take any action until negotiations of that sort are begun.

With respect to my own work, in the course of the year, general in its character, has proceeded along many lines of activity. The necessity of making Regina known to the outside world has been my principal incentive, and I have used all the printer's ink available for that purpose. In addition to the literature which I have already mentioned I have supplied the association with sources of securing publicity for the city and her development. The ordinary channels of news have given me an excellent opportunity, and I have been greatly assisted by the press of Regina. A tribute is due from me to the papers of this city for their readiness to advance the work of publicity. Their enterprise and zeal have done much to spread abroad the story of Regina's growth and they have been quick to make extensive use of particular developments which added to the city's reputation as a commercial centre. Various other papers, especially in Eastern Canada have also readily published items from this office, relating to the city and they have expressed willingness to use more of these from time to time. Regina has secured a large amount of publicity through the program of western Canada Immigration Association, and is securing wide publicity in the United States through that medium. The new secretary of the association, Mr. Van derhorst appears to have done full justice to his position as an editor. One of them entitled "Regina and The North-West Mounted Police" appeared in 106 different magazines in the United States, and consisted largely of an enthusiastic write-up of the city's advantages. The list of names supplied by the association have also been used, furnishing a good method for distributing the board's literature among interested persons.

Articles written by myself have appeared in a number of important publications during the year, and the material has been printed in many prominent eastern and American papers. Among the latter may be mentioned the Toronto Globe and Toronto Mail and Empire on June 19 and Aug. 11 last. The Toronto Globe has also published a good deal of attention throughout the country, and the Globe's description of the city's resources led to an unusual demand for copies of the paper. This part of the work is being continued and developed. Bulletin of important happenings in Regina commercial circles are being sent out from time to time to leading newspapers in all parts of the country, and are being readily accepted. An important step, which has led to a much better recognition of Regina throughout Canada and the United States, was the appointment in this city of a correspondent to look after the Associated Press service. The correspondence goes by wire twice a day, I understand, and is intended to cover various news items of the city, including items of business interest. These reports are available for use by the principal papers of Canada and many in the United States, and they have been extensively used, in many cases to the great advantage of the city.

PEITINGELL MOVES ADOPTION.

The retiring president, W. G. Peitlingell, in moving the adoption of the foregoing reports said:

Permit me in the very briefest way possible to make a few comments on the work of the past year, also a word or two with regard to the possibilities of the coming season. It is my purpose to take up the different subjects in the following way:

I have to thank the members for their attendance and interest taken in subjects brought up for discussion also to make mention that our board is the largest commercial organization between Winnipeg and Vancouver, and it is very important that we do not become lax in promoting the interests of our city and the adjacent districts.

It is a subject for congratulation to the board in the continued progress of our city and with every prospect that it will continue for years to come. The same remarks apply to our rural districts and other cities and towns of Saskatchewan. In addition to this we must not forget the fact of the practicality of the Regina resolution. Methyl alcohol to be used for denaturing purposes, is subject to a duty of 20c per proof gallon, but this duty may be abolished or reduced by order-in-council. Another resolution, introduced by the Regina delegates, was for the establishment of points of redemption for bank-notes in the new provinces, a subject upon which the board had taken ineffective action in the past. This resolution met with strong opposition from other interested cities, and was not adopted. A third subject, the improvement of western postal facilities, received a hearty endorsement. Its adoption appears to have had a slightly beneficial effect upon the administration of postal affairs in the west since that time.

Discussing the expenditure for union station plan the report says:

Copies of the plans which were prepared by Mr. Woodman, the engineer, have been sent to the Canadian Northern Railway, the Grand Trunk Pacific and the Great Northern railways. The respective representatives of these companies have given indication of heavy approval of the union station proposal, and it is probable that the carrying out of the citizen's desire in this respect. The attitude of the Canadian Pacific Railway is scarcely known as yet, although its chief officials have hinted that they cannot entertain the idea. There is no certainty that this company will block the project, at least as far as passenger terminals are concerned, of

holding joint meetings of the Association, Boards of Trade of Alberta, From Saskatchewan's standpoint, when the convention is held in Alberta a great many sister boards of trade of our province are prevented for many reasons in not being represented, whereas if the convention were held for Saskatchewan we would have a larger attendance than at present.

Gentlemen, I want to make another suggestion. We have in our midst a large number of young people attending school, offices and various other walks of life. Our churches with their organizations are doing everything they can to look after the welfare of our young friends and I sincerely hope that anything in the way of assisting school boards, Y.M.C.A.'s, libraries, gymnasiums, etc. will receive the hearty support of our citizens.

In closing I have to thank the press for their courtesy and assistance to the president, council, and members of the board of trade, and suggest as a parting word that it would not be a bad idea to have a representative of each of our city papers as an ex-officio member of the advertising committee, and I have no doubt but that the result would be beneficial.

ELECTION OF OFFICERS.

In the election of officers the result was as follows:

President—P. Cooper.
Vice-Pres.—A. E. Whitmore.
Sec.—Treas.—A. E. Boyle.
Council—P. McAra, J. A. T. Hunter, J. M. Young, H. F. Mytton, J. F. Boyle, A. S. Jarvis, D. J. Taylor, R. Sinton, E. A. McCullum.

To stop a cold with "Preventics" is safer than to let it run and cure it afterwards. Taken at the "sneeze stage" Preventics will head off all colds and the grippe, and perhaps save you from Pneumonia or Bronchitis. Preventics are a little toothsome candy cold cure selling in 5c and 25c boxes. If you are chilly, if you begin to sneeze, try Preventics. They will surely check the cold and please you. Sold by the Regina Pharmacy stores.

CARON

Caron, Feb. 6.—The fuel situation here, for the first time this winter, is commencing to look real serious. Some families are entirely out of coal and the town school has been closed the coal in stock there being divided among the residents. Mayor Beaudreau and Secretary Long of the board of trade are making strenuous efforts to obtain relief from the C.P.R. authorities.

Quite a number of members of the two Loyal Orange Lodges at Caron met yesterday to attend the annual meeting of the Moose Jaw county L.O.L. at that city. A county celebration will be held at Caron on July 12th.

The four firms who suffered from the recent big fire here are again doing business, having secured temporary quarters, pending the erection of their new premises.

A movement is on foot among the newly elected members of the school board to build an addition to the school and engage another teacher in the near future.

McCUAIG REVIEWS CASE AGAINST GRAIN TRADE

Manitoba President who was Endorsed by the Grain Growers Tells the Farmers all About it.

Brandon, Feb. 9.—That the members of the grain exchange, who outwardly ridiculed the prosecution launched against that body by the Grain Growers' association, in reality harbored a secret and well defined fear for the ultimate result, was the statement made by President D. W. McCuaig at Friday afternoon's session of the Grain Growers' convention.

The president, during the course of a speech which was listened to with profound interest, stated that R. A. Bonnar, counsel for the prosecution, being pitted against an unimpeachable array from an unimpeachable point of view, was advised to procure assistance. Mr. Bonnar picked up twenty of the most able men in the legal profession in Winnipeg, intending to choose one from that number.

Mr. McCuaig's account of the proceedings in the police court was told in such a quite unassuming manner, devoid of any bombast or attempt at bravado and by adroitly reverting matters reflecting to his own credit on to the shoulders of others, he aroused his audience to a high pitch of enthusiasm.

That such an intention was no longer contemplated, was made conclusively evident by the offers of moral and financial support which, at the conclusion of Mr. McCuaig's address swarmed in from all sides, not only from parties directly interested, but from outside influences which had no other interest in common than a deep rooted desire to see fair play and justice dealt out to the tillers of the soil.

GOOD SUPPORT. "Draw on us for any amount you desire," was the reassuring telegram which the secretary had lately received from a western body. "We have already considerable funds subscribed," continued the wire, "and will soon have sufficient to cover full cost of the action taken against the grain growers' association."

It was highly interesting to note the broad smile that spread over the faces of the sturdy farmers present when their president explained that it was the only saving clause which allowed the magistrate to "send them up for trial" instead of "committing" them.

HELP FROM AFAR. As an example of how the farmers have the support of the people at their rear is shown by the following letter which is worthy of careful perusal and which is only one of many similar epistles:

"To the secretary of the Grain Growers' association: "Dear Friend:—"Though thousands of miles away from the seat of the conflict, I take a keen interest in the battle for freedom between the Grain Growers' association and the obnoxious grain exchange. That the trade of 90 per cent of the population of the west should be hampered by a small, selfish clique in Winnipeg is a deplorable circumstance and should be fought out in the bitter end. I think it is the duty of every farmer to strengthen the hands of the executive by contributing liberally to secure a new order of things in the line of freedom of trade in grain as well as in every other line of business."

"I admire the ability and courage of the Winnipeg Tribune in standing by the farmers in the emergency and look forward to a successful issue. I enclose \$5 to assist the good cause. (Signed) GEO. RODDICK."

THE SPEECH. "Early in November," said Mr. McCuaig, "the Saskatchewan and Manitoba Grain Growers' associations requested the royal grain commission to sit in Winnipeg and finally the commission agreed. It was the intention to probe deeper as a result of your resolution passed a year ago instructing your executive to find out the exact truth about the grain combine."

"R. A. Bonnar, of the firm of Bonnar, Hartley and Manahan, was engaged as solicitor. A week previous I was in the city and had gone into the matter thoroughly with Messrs. Manahan, Dunlop and others. "Mr. Dunlop was the first tangible information we had of such a thing. He also said that Mr. Gage was the manager and book keeper of the pool. That night we came to the conclusion to proceed against the exchange and Dunlop agreed to be the first witness. Dunlop had valuable information in his possession and was most enthusiastic in the cause and promised to open the farmers' eyes on many points. WITNESS ABSENT. "It was on a Monday that the

and the same stereotyped statements would be read in the same stereotyped manner. "Regarding the costs of the police court trial it was claimed that the government should defray expenses. Mr. Haultain came from Saskatchewan and therefore he would doubtless be recompensed by the Grain Growers' association of Saskatchewan, but if they do not, we will see that he is properly reimbursed for his services." (Applause.)

Croup can positively be stopped in 20 minutes. No vomiting—nothing to sicken or distress your child. A sweet pleasant and safe syrup, called Dr. Shoop's Croup Cure, does the work and does it quickly. Dr. Shoop's Croup Cure is for croup alone, remember. It does not claim to cure a dozen ailments. It is for croup, that all. Sold by the Regina Pharmacy Stores.

NEWTON NEWS

The fine weather of the past week has been a very agreeable change to all. Say! Have you heard if Davidson has been relieved yet. If they are as slow as the relief gangs we have here it will not be relieved till the spring thaw.

Born—To Mr. and Mrs. Robert Leppard a daughter. At last report Bob and the baby were both doing as well as could be expected.

Mac Bloum had the misfortune to fracture his finger in the last hockey match. But Mac says it's all right while they wait out.

Rev. W. D. Kemp of Cupar was to occupy Rev. S. Pohlman's pulpit on Sabbath last, but unfortunately he was mistaken in the place of meeting and Mr. Pohlman had to officiate as usual. On account of the cold weather the meetings are being held in the houses.

We regret to hear of the loss sustained by C. H. Corey in the death of his valuable stallion (Banker Jr.). The loss is in the neighborhood of two thousand dollars.

H. H. McLean has sold his talking machine to Richard Hill. On account of the car shortage Archie was out of the neighborhood.

A Human Match Factory. The body of the average man contains phosphorus sufficient to make 483,840 matches, enough to fill about 5,000 boxes, allowing eight matches to the box. Phosphorus is one of fourteen elements entering into the composition of the body. It is divided among the bones, flesh, nervous system, and other organs. Without phosphorus the brain would be weak, the body feeble, and the bones would disintegrate leaving man a squidly invertebrate squirming in the dust. The perfect health of the human body requires a balance of the constituent elements of which it is composed. The carbon, iron, lime, sulphur, sodium, etc., must all be replaced as they are used up in human energy. Taking away any one of these and the circulation stops. That's death. Change the proper proportion of these substances to each other, destroy their natural balance in the body, and you destroy the balance of health.

THE FOOD WE EAT. Where do these essential elements of vital force come from? From the food we eat. How are they extracted and distributed to the various organs of the body? By the stomach and the organs of digestion and nutrition. What happens when the stomach is "weak"? The food is only partly digested, the blood is impure, the circulation stops. That's death. Change the proper proportion of these substances to each other, destroy their natural balance in the body, and you destroy the balance of health.

ESCAPE ROGUES' GALLERY. "The magistrate did not commit the parties to trial," continued Mr. McCuaig, "but simply sent them up, like a thunder bolt from a clear sky to the grain exchange, and there the clouds began to roll away and the sun could be clearly seen ahead of us."

"After the decision, one of the lawyers for the defence asked his worship when he intended to arrange bonds for the parties to appear at a higher court. "Right now," was the reply. ESCAPE ROGUES' GALLERY. "The magistrate did not commit the parties to trial," continued Mr. McCuaig, "but simply sent them up, like a thunder bolt from a clear sky to the grain exchange, and there the clouds began to roll away and the sun could be clearly seen ahead of us."

"The magistrate also has the privilege of giving the defendants a 'gentlemanly' committal by 'sending them up for trial' and thus, allowing them to escape the aforementioned indignities." "Then they've got to appear?"

Mr. McCuaig—"Yes. Each provided bonds of one thousand dollars and two sureties of \$600 each." "It is now a crown case?"

"Yes." "Why did the case go on so long before the government decided that it was a crown case?" Mr. McCuaig, in answer to the last question, recalled the hasty cabinet meeting and the appointment of solicitors to prepare the indictment. It was not till after the magistrates' finding that these solicitors discovered that the matter was worthy of the attention of the crown. (Laughter.)

MR. BONNAR'S THREAT. "The attorney general's department has now taken charge of the case and Mr. Bonnar has been retained. Mr. Bonnar made an emphatic statement to me that he would go right to the bottom of the thing and would not let anyone interfere with him. If anyone attempted to do so he would walk right out."

"This much, however, is already outlined. If Mr. Bonnar, through the attempt of anyone to interfere with the discharge of his duties, walks out, the grain growers' association will promptly retain him to fight the case themselves and will pay all costs of the prosecution if necessary." (Great enthusiasm.) "When the royal grain commission sat in Winnipeg, Mr. Bonnar was requested to watch the proceedings for a time, which he did with clarity. After watching several sittings, however, he said that it was useless to waste further valuable time as the evidence being given by the grain exchange men was nothing but repetition. Each witness would come forward with his speech carefully prepared beforehand, and spew it forth,

unable to procure needles to run his machine, just imagine the loss. The Kronan elevators were supplied with nine cars last week, but the farmers must stand back and look on. We are told that this was done by the rabbit skin government.

The sports boys down the creek are still engaged in hauling straw and wool. Mrs. Cruckshank of McLean is dressing at the home of Mrs. John Rollins. Mr. Spencer Rollins and his sister Florence attended the social at Balgonie on Monday evening last. Mac Bloum accompanied them in the smoker.

Say Jim! It's only a small matter, but return those spuds as you promised to. Piles get quick relief from Dr. Shoop's Magic Ointment. Remember it is made alone for piles—and it works with certainty and satisfaction. Itching painful protruding, or blind piles disappear like magic by its use. Try it and see. The Regina Pharmacy Stores.

Good GOODS AT FAIR PRICES. F. G. ENGLAND The Jeweller. C.P.R. Official Watch Inspector. Issuer of Marriage Licenses.

Verdict OF THE Client. Those who have appreciated the service the architect has rendered are now living in homes which cost no more to build, contain no more lumber, plaster or other materials than others which do not possess that indescribable something, called art.

POOR MOTHERLESS GIRL. THE ELDEST OF A FAMILY OF SIX. A Touching Story as Told in a Letter to The Toronto Globe.

To the Editor of The Globe: Sir,—I ask for space in your columns to quote from a letter received at this office. For obvious reasons I do not give the name. The letter reads:—"I have a sad case to present to you. Twelve years ago a mother died, leaving six small children, the eldest eight years old and the youngest an infant. My mother took the eldest and kept her until my mother's death. Then the young girl went clerking on small wages. Last year she contracted a cold of which she has never been free, and she has been unable to work since last January. She is just nineteen years old. Kindly tell me how to proceed to get her into the Muskoka Free Hospital for Consumptives."

The sad part of it is this letter is only one of many—alike pathetic and appealing—these are being received daily by the writer. Fifty-five patients are in residence in the Muskoka Free Hospital to-day. Seven hundred and thirty-eight have been cared for since the hospital was opened in April, 1902.

In place of fifty we could care for one hundred if the needed money for maintenance was at the disposal of the trustees. Perhaps some of your readers have seen the following earnest statement in Dr. Lawrence F. Flick's valuable book, "Consumption, a Preventable and Curable Disease."—"Could the consumptives of any given community be seen at one time or pass in panoramas before the people public consciousness of the magnitude of the affliction might be aroused. A physical disaster shocks the world and lets loose the sympathy of millions. A few thousand deaths are nothing as compared with the deaths from consumption."

The appeal of the trustees of the National Sanitarium Association is on behalf of the consumptives of the Dominion, 500 of whom die in Toronto annually, \$,000 in Ontario, \$,000 in the Dominion. "This poor, motherless girl is one of the many sufferers of today. Thanking you in anticipation for insertion of this letter, I am, very truly yours, J. S. Robertson, Secretary National Sanitarium Association. 29 Adelaide street west, Toronto. Contributions may be sent to Sir Wm. R. Meredith, Kt., Osmonds Hall, Toronto, or to W. J. Gage, Esq., 54 Front street west, Toronto.

LAST MEETING OF REGINA VICTORIA HOSPITAL

City Will no Doubt Take Over Institution Before Another Year

What was probably the last annual meeting of the Regina Victoria hospital was held in the civic chamber last evening and there was a small attendance. As Mr. Myrtton observed in speaking to a motion it is regrettable that there is such a lack of interest in this worthy institution, and while it is anything but a credit to the public, it is necessary for the city to take over the hospital and conduct it under civic operation. The city council is already committed to the scheme and a bylaw is being prepared to submit to the council.

The following were unanimously elected directors in place of those retiring: Messrs. Spring-Rice, Lawson, Mytton, Robinson and Wood. PRESIDENT'S REPORT. Ladies and Gentlemen: While the directors' report and financial statement refer to the condition of affairs pretty fully, they desire that I should express their appreciation of the loyal support given to the directors by our city council, the ladies' Aid and Alexandra Club. Without the generous grant from the city it would have been impossible to maintain the emergency hospital during the typhoid fever epidemic last fall, and when you take into consideration the fact that two-thirds of the patients treated came

came from outside the borders of the city, we say it speaks well for the generosity of our citizens—their interest in the stranger coming to our fair province that while Regina enjoys the distinction of being the busiest centre she is generous and willing to lend a helping hand to those coming among us.

We are also pleased to be assured by the present city council that they approve of our proposal to submit a bylaw to the ratepayers for a municipal hospital and believe such a step will be endorsed by our citizens.

We recommend the proposal (which has been endorsed by the board of trade) to ask for legislation to levy a tax on municipalities for the support of hospitals.

We also recommend that our city council enforce stringent laws with reference to keeping our streets, lanes and yards clean and thereby lessen the cause for disease, and we congratulate ourselves upon the small percentage of disease in our city, we hope our citizens will untiringly endeavor to assist the authorities in carrying out such an object. By so doing you can help to beautify our city as well as promote the health and happiness of our citizens.

NOT A SINGLE APPLICANT HAS EVER BEEN REFUSED ADMISSION TO THE MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES BECAUSE OF HIS OR HER POVERTY. Canadian Outdoor Life. Articles on the Open Air Treatment of Tuberculosis of the Lungs. Attractively Illustrated. TORONTO, CAN. NOV. 1906 10c. COPY 1.00 YEAR.

WEDNESDAY, February 13, 1907.

LESSON FOR SASKATCHEWAN

The Manitoba Grain Growers' association in annual meeting at Brandon by unanimous standing vote approved the action of President McQuig and executive in taking criminal proceedings against certain members of the Winnipeg Grain Exchange.

The portion of President McQuig's address dealing with the prosecution is as follows:

After sittings in Winnipeg, Fort William, Port Arthur and other eastern cities, they returned to Manitoba where several sittings were held, and on the request of the Saskatchewan and Manitoba Grain Growers' associations another sitting was held in Winnipeg, when the evidence was secured of conspiracy to restrain trade and the arrangement to remove competition in buying and the elevator pool.

A week was allowed to pass, then your president felt that he was in duty bound to take action. Consequently he swore to an information, charging certain members of the Winnipeg Grain Exchange with conspiring to restrain trade and agreeing to prevent competition.

After a number of adjournments, objections and refusals to produce certain letters and books the case was proceeded with, R. A. Bonnar, Winnipeg and F. W. G. Haultain of Regina, representing the Grain Growers' association, and a host of solicitors defending the members of the grain exchange.

The result you are all aware of. On Jan. 10, the police magistrate gave his decision (coming like a thunderbolt from a clear sky) sending them up to a higher court for trial. It now becomes a crown case and the attorney-general's department has to take charge of it.

It is this prosecution that Messrs. Motherwell and Millar have attacked in an open letter to the press. It was this unity of action and persistent effort on behalf of legitimate conduct of the grain trade of this country that these open letter writers speak to condemn, but the Manitoba grain growers have endorsed the private prosecutor and have complimented Saskatchewan in retaining Hon. F. W. G. Haultain to assist Mr. Bonnar in the case—what will the Saskatchewan grain growers do in this city on the 20th inst.?

We care not except for the great principle that is at stake, and for the future interests of the farmers of this province.

Saskatchewan grain growers must remember this—that our government has no control over the Winnipeg Grain Exchange; that monopoly is quite independent of our legislature, and yet this body has annually controlled the marketing of our wheat.

It was the president of the Manitoba Association who was the private prosecutor; it was the president of the Saskatchewan association who co-operated with him, and with the well known results. The executive of this province in session at Moose Jaw endorsed his action and that of the executive, and it now remains for the representative grain growers of the whole province to pronounce judgment in an annual convention in this city on Wednesday next.

Is your baby thin, weak, fretful?

Make him a Scott's Emulsion baby.

Scott's Emulsion is Cod Liver Oil and Hypophosphites prepared so that it is easily digested by little folks.

Consequently the baby that is fed on Scott's Emulsion is a sturdy, rosy-cheeked little fellow full of health and vigor.

ALL DRUGGISTS: 50c. AND \$1.00.

Which way will our farmers decide: for their own interests, or for those of the grain trader; for their friends or for their enemies?

THE WOLF BOUNTY

In the provincial supplementary estimates last year the legislature authorized the expenditure of a certain sum as bounty for the destruction of wolves. Representations were made to the House that the sheep industry of the north country was being abandoned owing to the prevalence of brush wolves (a cross between the coyote and the timber species.) It was estimated that the sheep industry of the northern part of the province, in a few years, if given a little protection against the wolves, would assume proportions greater in value than the dairy interest on which the government has spent so much, and no doubt wisely, to foster.

The sheep-men have, in many cases, disposed of their flocks, but on the verge of despair, the government estimate kindled hope in the minds of the breeders, which, alas, was doomed to die out when the department of agriculture announced the conditions under which the wolf bounty would be paid.

Preposterous, as it may seem the bounty goes not to the man who kills the wolves unless he captures ten at least, but to the man who sells the hides, and the man who sells the hides will not realize a bounty unless he sells to a certain wholesale dealer named by the department of agriculture.

To say the least, the use to which this money is put by the department is not carrying out the intention of the legislature.

Why should the man who kills five wolves not get a bounty for each animal?

Why should the shipper who buys, say one hundred skins from twenty men who get no bounty, get a bounty of from twenty to a hundred dollars from the government?

Why are the five dealers mentioned in the regulations the only men who are to handle the skins of bounty wolves, or why should the shipper have anything to do with the scheme.

Surely the justice of the peace or the commissioner could mark the skins when taking the affidavit, and the man who kills one or more wolves should get a proportionate share of the bounty.

Then there is the further provision that the animals must be killed between Jan. 1st, 1907 and April 1st. This gives but a short time to kill wolves. It will be nearly March 1st, before this information reaches the people, and after the most fair consideration of this bounty scheme, we cannot but think that the department has committed itself to a scheme that will not "incite the people to kill wolves," and the fur dealers are the only men who stand to profit, while the sheep breeders are as badly off for protection as ever.

ONLY ONE SUPPORTER

Among the press of the province only one newspaper has been indiscreet enough to back up the attitude of Messrs. Motherwell and Millar in their senseless attack on the executive of the Saskatchewan Grain Growers' Association and on E. A. Partridge in particular—that paper was the Moosomin Spectator. Commenting on the association that journal says:

"It is an organization for mutual benefit and protection, and its business to be successful must be conducted by the organization according to established rules, not by individual members of the

organizations no matter how worthy their aims or purposes may be in their own eyes or in the eyes of others."

Had the Spectator taken the trouble to acquire the facts regarding the procedure referred to, they would have learned that there was nothing done without the authority of the executive and the action of that body complained of by Messrs. Motherwell and Millar, was endorsed by all the executive except the honorary president, Mr. Motherwell and the suspended secretary Mr. Millar.

Surely the Spectator must know that two such members of any executive have no power to bring in an official minority report. Yet that is what they did and the Moosomin Spectator is the only newspaper in the province that has said they were right.

"Angels fear to tread" where the paper referred to has rushed in, and we fancy that the Moosomin Grain growers will take the attitude of those in many other places that until the Motherwell-Millar letter is retracted these gentlemen cannot be any longer regarded as the friends and allies of the farmer.

CONTINUOUS ADVANCEMENT

Regina's history for the last few years has been a record of long strides, but in no one twelve months has so much been accomplished as in 1906.

The publicity campaign already shows net results and the prospects are the brightest for the present year.

So great is the demand for hotels and office buildings that it was necessary to have a continuous building season, the trowels being kept busy throughout the winter except for a few days when the elements were at their worst.

The transportation and fuel troubles of this winter will not affect the progress of this city, and while it may delay the immigration rush into this province, the tide of population will roll in upon us again with the opening of spring. Even these days occasional settlers struggle along with his car of effects, and the Americans invariably find the conditions much better here than they are to the south of the border.

A little hardship after all only develops manhood and put for the troubles of life there would be no heroes.

The rigors of the Klondike winters did not keep back the invaders who sought the precious metal, neither will the tales about the cold and snow frighten the sturdy settlers from Saskatchewan.

Our prosperity is based on a sure foundation. We have the land and lots of it—therefore, according to Holy Writ "seed time and harvest shall not cease."

EDITORIAL NOTES

Referring to the relief gang sent out by the city council to assist the C.N.R. in opening up the north line the Lumsden paper says:

"The department of agriculture organized a relief gang of between fifty and one hundred men and at six o'clock Tuesday evening started a train up the north road. The train and gang arrived at Lumsden about 7:30 and at 9:30 left for the north."

This comment is an absolute falsehood, presumably to boost the commissioner of agriculture who had nothing whatever to do with the gang sent from here, a special Sunday meeting of the city council having decided to proffer this assistance to the railway company.

PRESS COMMENTS

(Toronto News.) It is easy to admire Mr. Lavergne's courage and to applaud his independence. Few men dare to withstand the ear in the province of Quebec. Few lift up their heads in the presence of the autocrat whose natural arrogance has been aggravated by his successful slaughter of Blairs and Turtes and Sittons. But when Mr. Lavergne sets out his ground of justification for the course he has taken in Parliament admiration becomes difficult and commendation impossible. If sympathy goes with the young rebel of Montmagny judgment goes with the autocrat.

Mr. Lavergne makes a serious argument to prove that he is the one and only genuine Liberal. He boasts that he stood for the autonomy bills as first introduced, and that in this he was true to Liberalism. It will be difficult to maintain the contention. He may be a Nationalist like Mercier, or an Ultramontane like Boisvieux, but he is not a rouge of the old school. The bed-rock of the

WEEKLY REVIEW

Nicaragua and Honduras are on the verge of war in spite of all efforts to settle their quarrel by arbitration.

Miss Marian Livingston, a cousin of the late John Greenleaf Whitaker, is dead, after enduring the privation of poverty for twenty years.

The body of Miss Frances Martin, eighteen years old, was found in a room on Main street, Washington, Pa. Whether or not she was murdered has not been determined.

Farmers at Emporia are joining the Farmers' Union, a socialistic organization, in great numbers. The movement is gaining the momentum of the old Farmers' Alliance of 1890 and 91.

At a recent meeting of the railway committee of parliament, the clause of W. F. Maclean's bill for two cents a mile passage rate was killed. Mr. Emmerson said that the matter was under the consideration of the railway commission.

Little Freddie Hanson, who was injured so terribly in an accident on Main street, Winnipeg, died at the general hospital. The bore the shock of operation better than was expected, but failed to rally sufficiently to put her beyond danger.

At Piccadilly in North Frontenac, the young son of C. Salisbury was sliding down a hill on a sleigh when it became unmanageable and ran into a thorn bush. The lad had one of his eyes torn out by a branch.

A snow man in front of a school house at Kankakee, Ill., caused a runaway accident, from the effects of which Mrs. Joseph Bourrell died. She was thrown head first against a telephone pole and never regained consciousness.

PRESS COMMENTS (Continued from page 4.)

Rouge creed was Federalism. The autonomy bills outraged the federal principle. The old Rouge found the best refuge for its principles in faithfulness to the constitution. The autonomy bills violated the constitution. The old Rouge maintained the right of private judgment in the face of clerical assumptions. The autonomy bills were dictated by the church and represent in the affairs of government. Here at least, Mr. Laverge's denials falls to the ground and identifies the rebel to public sympathy. We should say too, that many of his votes reveal the spirit of nationalism rather than that of Liberalism or Canadianism. He cultivates Quebec; he flouts opinion elsewhere.

On the other hand he could easily prove his contention that the government under the direction of the autocrat had not been true to Liberal traditions or Liberal principles. The autonomy bills as has been said, outraged the traditions and principles of the school to which the autocrat belongs. It is said that this is a hard country to govern and that under the conditions that obtain in Canada compromise is the essence of wisdom. If we have been statesmanlike. By limiting the provincial rights of Alberta and Saskatchewan we have also a strong reason for the action of the Tupper government ten years ago. If compromise in Alberta and Saskatchewan is necessary to the comfort of the autocrat, so compromise in Manitoba was essential to the comfort of Sir Charles Tupper. It was right to enact the autonomy bills. The Remedial bill was not so objectionable. In the one case parliament acted absolutely without right or warrant. In the other the privy council had declared that the minority had suffered a certain injustice and that the federal parliament had authority to enact remedial legislation. Either the autonomy bills were a scandal or Sir Charles Tupper and his colleagues were scandalously treated by the Liberal party in 1896.

It is a curious fact that the longer the Liberal party remain in office the more Tory it becomes in spirit and policy. The government of the autocrat is flexibly opposed to radical legislation. We have in the North-west a school system imposed upon us for which Sir Charles Tupper was condemned and cast out. We have the old protectionist policy of the Conservative party. We have the old arguments in defence of the senate. We have the familiar abuses of patronage and the familiar use of the public appropriations for the private use of the party. Liberals throughout the country most often ask themselves as a result of their long struggle in opposition and their faithful preaching of Liberal principle culminating in a change of government ten years ago, they have done any more than provide salaries for a dozen politicians.

(The Trade Gazette.) M. S. McCarthy, M.P. for Calgary and John Herron, M.P. for Southern Alberta, are taking a very active part in the sessional proceedings at Ottawa.

The resolution asking for a select committee to investigate the alleged lumber combine in this country has been accepted by the government. The results of such an investigation cannot fail to be of benefit to our western country, and the importance of the subject introduced by the instrumentality of Messrs. McCarthy and Herron can hardly be over-estimated.

no fault of its own, but because of unusual climatic conditions—should an exception be made of its case? Should it be excused from paying a forfeit for the delay its sickness will cause others?

Under the present one-sided system, it is excused—while others with whom it deals are not excused. Reciprocal demurrage will merely provide that the rule will be both ways. Under reciprocal demurrage "what's sauce for the goose is sauce for the gander."

That is not an unreasonable doctrine. Its injustice has never been pointed out. That is the doctrine the people of western Canada want to see put into practice—in the belief that it will go a long way towards discouraging railway sickness.

The Nova Scotia "Lumber King," says: "I consider MINARD'S LINIMENT the BEST liniment in use. I bathed it well with Minard's Liniment and it was as well as ever next day. Yours very truly, T. G. McMULLEN."

LAKE AFTER ROBIN'S DEAL How Moose Jaw Bunch of Grainers Worked the Government

Ottawa, Feb. 7.—R. S. Lake (Conservative, Qu'Appelle) resumed the discussion of the Robin's Irrigation Company deal today. Hastily reviewing the record, he showed that Hitecock and McGregor acquired the Robin's irrigation concession and immediately sold out that contract for \$100,000 sterling. This was turned over again at some £50,000 sterling net profit. The last purchasers also bought from Hitecock and McGregor their Grand Forks grazing lease paying more than £300,000 for that concession, obtained only a few months before. This payment included ten thousand acres of free hold land at \$12 an acre which was just bought a few months before by Hitecock and McGregor for one dollar an acre.

SASKATCHEWAN WINTER FAIR

The fat stock show which is to be held in Regina, March 20, 21 and 22 is the third of its kind in this province. Here it is comparatively a young institution but in other provinces fat stock shows have demonstrated their utility. Some districts are better adapted to the raising of stock than the growing of grain and even in sections that are known as being adapted to grain growing many farmers find it advantageous to devote more attention to live stock in order to keep up the yield and quality of grain. The fat stock show is one of the prime factors in fostering this movement and as such deserves the cordial support of all.

NEW IMPORTATIONS OF China Earthenware Glassware

Direct from the Eastern and European Factories WE have just passed into stock new shipments of Dinner and Tea Sets, Toilet Ware, Jug Sets, Table Sets, and Table and Fancy Glassware, and open stock in colored and plain white ware. Our stock we believe is the largest, and the prices the lowest, of any in the province. We especially invite you to call in and look around at your leisure.

farmers. The meetings held during the show are always helpful and instructive, more particularly on account of the object lessons available as illustrative material.

The Saskatchewan poultry association is holding its annual show on the same dates as the fat stock show this year, and this should serve as an additional attraction to farmers this year. It is being demonstrated every day that poultry, if properly managed, is one of the most profitable branches of the farm.

IRISH GIRL'S REVENGE

A Canadian Associated Press despatch says Sir Wilfrid Laurier has sent the following message to the Salvation Army Emigration Gazette: "We are pleased with the notices you have sent us. Send some more, and send some English and Scotch lassies for the North-West."

I'm sitting on the stile, Wilfrid, Where you thought I might stay When you cabled home for lassies "Gross the sea just yesterday." "Send, Scotch, and English lassies, Who our broad west to roam, And you told us by your silence "Irish girls may stay at home."

With Fitzpatrick at your elbow South Toronto's full of "mean," Sure Charlie knows the value Of a true, blue-eyed colleen, And through the Broad Dominion You have roused the Irishmen, Who for you will not be cheatin' When the elections come again.

Peter Ryan has lost his temper, And Champlain street is wild, And you're filled with thoughts rebellious, Father Minehan, so mild, Griffin town is full of anger, South Toronto's full of strife, And in Winnipeg out yesterday, Tommy Deegan whets his knife.

O, we're comin' proud, Sir Wilfrid! You may take this word as true, And in this ship that brings us There'll be trouble brought for you We sent France here to fashion, 'An' we wait for Bonapart, But now look out for trouble, Proud Sir Wilfrid Stonyheart. —Toronto News.

Minard's Liniment cures colds, etc.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn heavy growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease. In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a powerful, dependable prescription. Without that last ingredient, I successfully treated many cases of Rheumatism; but now, at last, I can cure all curable cases of this heretofore much dreaded disease. Those same like granular vesicles, found in Rheumatic blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes of their pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer with this help. We sell, and in confidence recommend

ADDITIONAL LOCALS

The Leader published yesterday from The Christian Guardian a portion of a biographical sketch of late Mrs. McAra. The article referred to was taken without credit by the church paper from The West of Jan. 23rd.

Mr. and Mrs. C. H. Gordon entertained a number of young folks at a progressive euchre party last Friday evening. The first prizes went to Miss McIntosh and Mr. McGree, while the hobbles went to Miss Blackburn and Mr. Creswell.

An "Extra" of the Saskatchewan Gazette has been issued calling the legislature for the 21st inst. This is the second proclamation issued by Mr. Motherwell. The other was advising the farmers to take to the bush and cut green poplar for fuel, the next will be to burn snow.

The Toronto Telegram has given Regina a bad roast editorially on real estate prices. The Toronto paper referred to is evidently afraid that the Queen city of the west will depose the Queen city of the east, but we have no desire to injure Toronto.

Church and school facilities free, is what J. M. Young's Realty and Storage Co. offer to those who locate in the Eastern Annex. This is the most unique scheme ever presented to homeseekers. The particulars of the project may be found on page four of this issue.

Mr. Kirby of the B.C. contracting company went north with a gang of men for the lumber camps Saturday and returned for another bunch, a hundred in all being required. His company has three large contracts to cut logs and they need men badly. The labor problem has been rather serious this winter. Supt. Soule of the same company was in the city yesterday enroute to the coast for a few weeks. As soon as the spring opens this concern will resume the construction work on the Phasent Hills branch of the C.P.R. They also have large building contracts.

The students of the normal school were pleased to receive Rev. E. A. Henry as an honorary member of their literary society at their regular meeting on Friday last. A paper has been published in connection with this society, and its first edition was then read. It contained among many other interesting items a good account of the students at home on the first, and was much appreciated by all. The remainder of the programme consisted of a male quartette, a song by Miss Robertson, a chorus by the Glee Club and a debate. "Resolved that it is in the best interests of Education to abolish home work in the public schools of Saskatchewan." The speakers did justice to the topic, the negative side finally winning. If we are to judge

by the critic's report some items at least of this program were well worth hearing.

The Guide-Advocate of Watford, Ont., says in a recent issue: "The home of James King, Esq., was the scene of an event of much interest on Tuesday afternoon when his daughter Eliza, was united in marriage to Archibald W. McGregor, contractor of Regina. The ceremony was performed at two o'clock by Rev. B.W. Muxworthy, and was witnessed by only the immediate relatives of the contracting parties. Miss Jean Ross played the wedding march. The bride, who was given away by her father, was becomingly attired in white ecru with chiffon trimmings and carried a bouquet of cream roses. Her sister, Miss Mary acted as bridesmaid and was prettily gowned in navy louisiane with lace trimmings and carried a bouquet of pink roses. Thomas W. Hasford of Regina, supported the groom. After the ceremony was concluded and the usual congratulations received, the wedding party sat down to partake of a sumptuous repast. Mr. and Mrs. McGregor left on the evening train for their future home in Regina followed by the best wishes of their numerous friends.

Work has been resumed on the new post office.

Dave Cockrill of Grand Coulee was in town yesterday. He has imported the last trotting horse Castlewood, 2,091, from Columbus, Ohio.

E. K. Goddard of Francis pleaded guilty in the supreme court here to the charge of attempted suicide and will be sentenced on Friday by Judge Newlands.

The new Saskatchewan coat of arms should have an empty scutcheon upheld by John Mitchell and the president of the Lethbridge mine - Weyburn Herald.

A. Chappabne, M.L.A. of Battleford is in the city today. He has recently returned from a visit to eastern and southern points.

The marriage of Miss Jennie Edith Anderson to H. J. Potts both of this city took place on Wednesday last. The young couple will take up their residence on Lorne street. They are both well known in this city and their many friends will join in happy felicitations.

Wilhelm's magazine "The Coast," of recent issue contains a very interesting illustrated article by Agnes Dean Cameron, first vice-president of the Women's Press Club, entitled "A paper edited on a moving train." The story is a sort of review of the trip of the press women last summer through the Canadian prairies. Dean Cameron, first vice president of the Women's Press Club, is a brilliant writer and a good speaker. She will long be remembered by the Regina people who made her acquaintance during that trip.

Tuesday was the first day of the Chinese new year and the celestials celebrated in a quiet way. Mah Stog at the corner of Eleventh avenue and Rose had a fireworks display in the evening, and served refreshments from the flowery kingdom to callers.

The resignation of the Hon. Chas. Hyman for the constituency of London was presented to the House on Friday by the Speaker, which was duly attested to and in regular

in great breaths of the sweet balmy air with great satisfaction. Immediately on his exit he exhibited every known sign an intense yearning for an eye opener, after his long and peaceful repose, which was of course granted, and it is said that the way he put the contents of several bottles of pop out of sight during the next few minutes wasn't very slow. After this he seemed to get his old time self again and tackled the huge pile of food that was before him with such an ardor that it too was soon put out of sight. The celebrated animal retired for

NOTICE.

NOTICE IS HEREBY GIVEN that application will be made to the Legislative Assembly of Saskatchewan, at the next session thereof, for an Act to incorporate "The Saskatchewan Agricultural and Industrial Exhibition Association," for the purpose of promoting agriculture, industry, art and science generally, and to establish and hold Agricultural, Industrial, Art and other Exhibitions at the City of Regina or elsewhere.

Dated at Regina this 12th day of February, A.D. 1907.

E. MEADOWS,
On behalf of the Applicants.

The body of Miss Frances Martin, eighteen years old, was found in room on Main street, Washington, Pa. Whether or not she was murdered has not been determined.

Conservatives 2; Liberals 13; Socialists 3, is the final result of the British Columbia elections. The net gain for the Conservatives amounts to four, exactly the number of seats won in the change of seats in Victoria. McBride's majority in the house over all parties after the election of speaker will be nine.

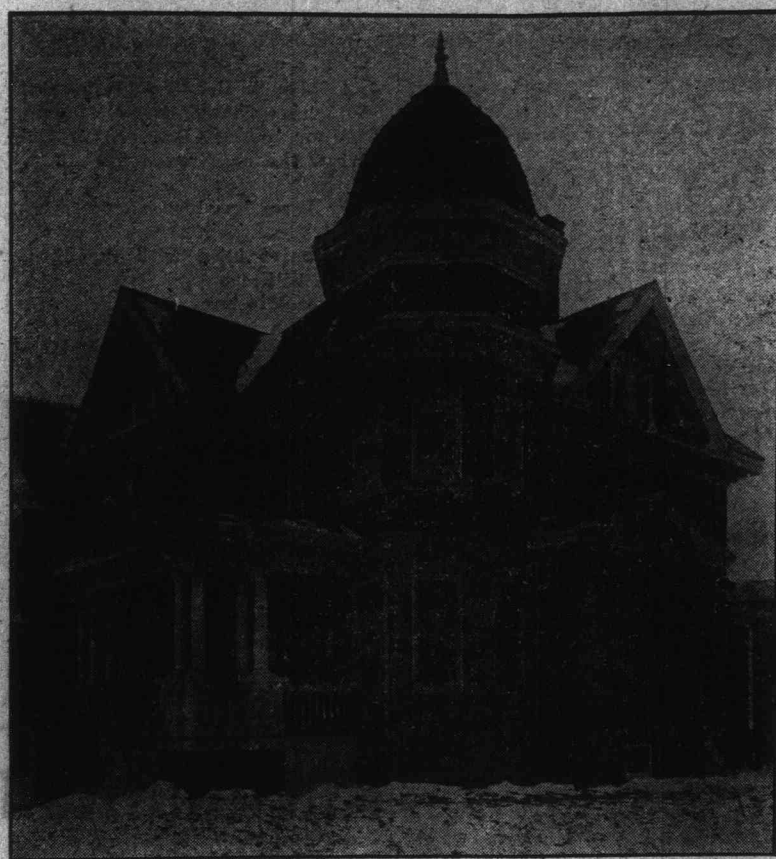

Of Interest To Women.

To such women as are not seriously out of health, but who have exacting duties to perform, either in the way of household cares or in social duties and functions which seriously tax their strength, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nervine. By its timely use, much serious distress and suffering may be avoided. The operating table and the surgeons' knife, would, it is believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless. Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a mixture of known compounds, a full list of all its ingredients being printed in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol, in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card, or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Care the cause and you cure the disease. Easy to take as candy.

A REGINA RESIDENCE

The above is a cut of one of Regina's nice residences. It is the beautiful home of Mr. E. M. Trackell, on the corner of Smith St. and 14th Ave. The architectural Nobles. Mr. Nobles has purchased the interests of Mr. Hutchinson, with whom he was in partnership last year. With him in the firm of Geo. E. Nobles & Co. Mr. Nobles has associated this year a man standing high in his profession and having few superiors as an architectural designer and draughtsman.

form. Mr. Hyman has withdrawn his resignation as minister of public works, notifying the premier that in a couple of weeks he expects to be back at work in his office.

EARLY SPRING SAYS CHAD'S BEAR

With many yawns and a great blinking of his small eyes as he came into the full glare of the morning sunlight, Chad's celebrated bear crawled from his winter hiding place late one morning this week and drew

his long sleep on November 27th last and has accordingly been hibernating for seventy-five days. Never before was a bear known to come out so early in the season, and old timers are quick to take this as the sign of an exceptionally early spring.

Mr. Chadwick says they were greatly surprised and delighted to see the old fellow come out, but says he can't assign any reason for the unprecedented effect except it be the warm interest in the coming election that is making itself felt in all parts of the city, and his desire to look up old chums well known to the public. -Winnipeg Tribune.

Armand Lavergne Montigny, Quebec youngest members of Commons. He bears resemblance to Sir Wilfrid is a son of Judge L number of years law premier. Recently he became politically though when he first ment young Lavergne as the protégé of moved the address sion. Elected as an eval, however, and v in the House, has go with the party and introduced a dele constituency to the frid informed the H matter of patronage consults its support.

A few days later motion to go into Lavergne called attention sensational r the scamp between a premier.

He read from Le S of the interview which used as incorrect. It was true, how Wilfrid Laurier had he (Lavergne) was a supporter.

Mr. Lavergne ins that he was still a been elected as a L ministerialist. E ported the Laurier attitude during the upon this platform, turned for Montigny.

In that contest he with a notice prepar of the crown declar proved every act of erement and was re ministerialist. This he "As a member of Lavergne declared, been a consistent L ways a government.

He had voted ag ment on the auten doing he had been I was Sir Wilfrid's followers who had opinions and aban pie.

He also voted ag ment on the questio Atlantic Trading doing he had adop pressed by the pr the interior when member.

MANITOBA GRAIN GROWERS LEAD THE WAY

Resolutions of Brandon Convention Embrace Vital Questions Affecting the Western Farmer

At the annual meeting of the Grain Growers held at Brandon the following resolutions were adopted:

GOVERNMENT ELEVATORS.
That this convention memorialize the Dominion government at once to have terminal elevators at Fort William and Port Arthur maintained and operated as government owned elevators.

RECIPROCAL DEMURRAGE.
Whereas, farmers are charged demurrage when cars are not loaded promptly, therefore be it resolved that Railway companies should be required to pay demurrage when cars are not supplied within a week after being ordered and also when remaining standing on track more than 48 hours after being loaded, and also a car when started to its destination, should proceed at an average speed of at least forty miles per day and that this provision be only waived when the railway commission declared a coal shortage.

HALF-CENT COMMISSION.
That this convention considers the one cent commission a bushel excessive and that one-half cent per bushel for wheat and three-eighths of a cent for oats and barley is reasonable, and that the executive be asked to put forth every effort to have this change brought into effect.

INSPECTION OF OIL.
Resolved that in view of adulteration of oils of all kinds, coal oil in particular, the government be memorialized to institute a regular system of inspection of oils.

WIRE DUTY.
That the central association be asked to protest against duty of 5 per cent, which has been placed on Nos. 9, 12, and 13 steel wire used in the manufacture of woven wire fences and that the Dominion government be memorialized to place all wire entering into the manufacture of fences on the free list.

SIGNING CAR BOOK.
As we understand the act for applying for cars has been unwisely abused the committee on resolutions recommend that local associations prosecute parties fraudulently signing applications for cars.

STEEL INDUSTRY.
Resolved that this association is of the opinion that the iron and steel industry is sufficiently protected already, and that granting of any further bonus is against the interests of the country.

EXPORT DUTY.
Recommended that the government place heavy export duty on all logs and other products of the Canadian sawmills.

TIMBER REGULATIONS.
Resolved that the recently enacted timber laws applying to the Riding Mountains be repealed and that the old rates and regulations be reinstated, and that portable mills be allowed to set within timber reserve.

LAVERGNE HITS BACK

Young Liberal Member Resents Laurier's Treatment

Armand Lavergne, member for Montmagny, Quebec, is one of the youngest members of the House of Commons. He bears a striking resemblance to Sir Wilfrid Laurier, and is a son of Judge Lavergne, for a number of years law partner of the premier. Recently he and Sir Wilfrid became politically estranged, although when he first entered parliament young Lavergne was regarded as the protégé of the premier, and moved the address at the first session. Elected as an Independent Liberal, however, and voting both ways in the House, he has got him in trouble with the party and recently when he introduced a resolution from his constituency to the premier, Sir Wilfrid informed the visitors that in the matter of patronage the government consults its supporters.

A few days later, however, on a motion to go into committee, Mr. Lavergne called attention to the recent sensational reports respecting the scene between himself and the premier. He read from Le Soleil an account of the interview which he characterized as incorrect.

It was true, however, that Sir Wilfrid Laurier had announced that he (Lavergne) was not a ministerial supporter.

Mr. Lavergne insisted, however, that he was still a Liberal. He had been elected as a Liberal and not as a ministerialist. He had not supported the Laurier government, in its attitude during the Boer war, and upon this platform he had been returned for Montmagny.

In that contest he had been served with a notice prepared by a minister of the crown declaring that he approved every act of the Laurier government and was running as a ministerialist. This he refused to sign.

"As a member of this House," Mr. Lavergne declared, "I have a ways been a consistent Liberal, if not always a government supporter."

He had voted against the government on the autonomy bills. In so doing he had been true to Liberalism. It was Sir Wilfrid Laurier and his followers who had changed their opinions and abandoned their principles.

He also voted against the government on the question of the North Atlantic Trading company. In so doing he had adopted the views expressed by the present minister of the interior when he was a private member.

VALENTINE'S DAY

The Lovers' Patron Saint

By Eugenie Cleugh

(Written for The West)

All day long the boys and girls poured in and out of the post office. Notice the ways of asking. The shy girl hopes yet fears; shrinks while drawing nearer, and at last with a blush, "anything for me?" "Yes?" "Ah she thought Will's eyes told her there would be something. The other girl is self-assured, looks into the clerk's eyes and asks for "anything." Another steps up and in a don't care way inquires for "letters." Another has a charming air of business and in an every-day way "waste the mail." Half of them give no name being well known by the clerk. Numbers of girls will not go to the post office on Valentine's day unless they are sure of a letter or a missive from their patron saint, for, oh, it would be altogether too humiliating to turn away at "nothing."

That horrid clerk thought I was expecting a Val," she inwardly and indignantly exclaims; "see him smile, the mean thing!" Oh, no indeed, they won't risk it on the 14th; but possess their souls in patience till papa or "the boys" come to supper. Some girls have been suspected of sending themselves a Valentine, but that is unjust, and I am sure it is only a very jealous, suspicious person who would accuse one of such a thing.

"Honest souls quit your penance." On the Valentine of today is a thing of beauty, far removed in its sifken painted elegance from the gaudy paper lace ones with their transfixed hearts, cooing doves and saccharine sentiments; verses that in the valentines factory are ground out by the yard. The latter day souvenir is a gem of art, beautifully adapted quotations from the celebrated poets, taking the place of the machine poetry. While the society maiden is now the recipient of a box of flowers, bonbons, with at least five yards of sash ribbon, or an edition-de-luxe of some popular book.

We learn that this day is, or properly was, celebrated in England, Scotland and particularly France by a peculiar and amusing custom. On the eve of the day a number of young folks—maids and bachelors—would assemble together, inscribe upon little billets the names of an equal number of acquaintances, throw the whole lot into a receptacle of some sort, then draw lottery-wise the persons thus drawn became one's valentines. These imaginary engagements are as readily supposed, often led to real ones; because one necessary consequence of them was that for a year or more the bachelors remained bound to the service of his valentine, somewhat after the fashion of a medieval knight of romance to his lady love. At one time it was customary for both sexes to make presents; but latterly polite society has restricted it to young men.

The connection of the custom with St. Valentine is purely accidental. In the legion of saints no trace of the practice is found. It has been suggested that the custom may have descended to us from the ancient Romans, who, during the Lupercalia celebration in February, drew names of other things, to put the names of young women in a box from which they were drawn as chance indicated; and that the Christian clergy finding it difficult to extirpate this pagan practice gave it at least a religious aspect by substituting the names of saints for those of women. It is certainly a usage more or less extended in the Roman Catholic church to select a patron saint for the year who is termed a Valentine.

However it was, this patron saint of lovers is a beautiful, an heirloom that will be cherished by each succeeding generation as long as the little god of love is left to roam and make targets of the hearts of youths and maidens, at least if there is any falling off of the custom it is not so noticeable here, for the clerk said: "Mary? Yes indeed." Here a voice at my elbow interrupted, and he turned to look for the name she had given. I looked at the little anxious face, not overly tidy but the eyes were bright, with expectancy; a child of poor parents who perhaps had often wanted for the price of a cheap favor. No one had thought of the little one, and as she turned away I fancied her chin quivered. "I think she has been here twice before today," she clerk said, "some come a half dozen times." By this time my letter was sealed and stamped; and slipping it into the box I watched the little girl who by this time was at the door. Yes, sure enough she was wiping her eyes, a forlorn look as if "hope deferred" on the little face. Wanting to speak to her I asked her name. She told me then I said "and you were disappointed? Well, that's too bad; but there is lots of time it is early yet; you come back in an hour's time, and maybe then we will be one for you, a Valentine, too, I expect."

Then—well if she didn't get the one that was sent that clerk needs to be discharged for carelessness. A few years ago it was thought that the custom was falling, but now, from all accounts it seems to be on the increase. But valentines, like every sweet, has its bitter. It's mighty hard on a fellow to send his best girl a ten-dollar beauty and have to stand helplessly by and hear her call some other fellow a "perfect dear" for sending her "such a lovely valentine," but if it can't be helped, and you can't only take your chance (one in a thousand) that some day

"Eyes clearer grown the truth may see
And every cloud shall roll away,"
when you stand revealed in all the heroism of martyrdom, a silent and majestic plea, to her who will be ungrateful to atone for the wrong she has done you. As, for mine—
Dear patron saint of lovers true,
In all good faith I come to you
To ask if thou canst tell to me
Who my Valentine shall be.

Is he dark? Or is he fair?
Hast thou locks, or sunny hair?
Eyes of brown, or eyes of blue?
Either can be fond and true.

Let me whisper—now don't frown—
I believe I like the eyes of brown;
No—yes—to say what's true
I can't decide 'twixt brown and blue.

For he must be a knight I find—
Handsome, noble, brave and bold;
For my sake glad to "do or die"
And I will be true to him ever and aye.

So send him to me waiting here,
On the day true love holds ever dear
And I'll thank you, sir, and not decline—
If the one I love is my Valentine.

SAFER THAN ST. LAWRENCE
Ottawa, Feb. 8.—A. P. Low, director of the geological survey, gave evidence before the senate committee on the resources of Northern Canada and the Hudson Bay route. Mr. Low stated that there would be found a good deal of land fit for settlement in parts of Keewatin, where there is nothing now but tundra.

He stated that during the portion of the year when Hudson Straits are free from ice ships can approach and enter Hudson Bay with greater ease and safety than they can the St. Lawrence. For two months each year there was absolutely no ice to interfere with navigation and for two months more navigation could be carried on by vessels adapted to the route.

LEADERS IN GENTS' FURNISHINGS

Local and General

Supt. Brownlee was here yesterday on business with the city council.

B. B. Teed of Alameda was in the city yesterday, on law business.

H. Kerr of the bank of Commerce in this city has been transferred to Watson as manager.

A. E. Whitmore went to the Estevan mines this week and spent a day or two at the ranch.

Mr. and Mrs. R. B. Ferguson are to take an extended trip to Cuba and Jamaica.

Levi Thompson of Wolsley was in the city yesterday en route to Lumsden to purchase farm horses.

Mr. and Mrs. H. W. Laird gave a ball at their residence on Thursday evening last.

Rev. G. C. Hill, rector of St. Paul's has returned to the city after several weeks visit in the east.

The Regina Grain Growers will meet on Saturday to pass resolutions for the annual meeting here on the 20th.

The "Owl's Restaurant" on Scarth street owing to business, McCready's name is good for a visit, and no doubt "Mac" will make good.

Billy Jackson and wife arrived in the city last week from Edmonton, and have gone to Prince Albert for a few weeks.

Ald. Gillespie accompanied by Mrs. Gillespie and their little son left on Thursday for the east. They will be absent some weeks.

T. E. Scriver has assumed the management of the Wolsley News and has enlarged the paper.

A car of horses from Toronto en route to Davidson got in here Monday after a trip covering twelve days.

The Regina lacrosse team and officers of the club make a very fine group which is on exhibition in Creswell's window on South railway St. The photo work is Johnsons Bros.

The household effects of C. W. Blackstock and L. S. Bell were shipped yesterday for Victoria. The owners will follow and take up their residence at the coast this summer.

Jones, Gordon & Bryant, are advertising for information regarding one William H. Bailey, a young Englishman, who came to Regina to work last spring.

R. G. Williamson and family are leaving shortly for Cobalt. He will become closely associated with the operation of the Casey Mountain mining property.

The ladies hospital aid recently made a presentation to W. F. Kerr of the Leader. The illuminated address was executed by Sister Mary Gabriel, prioress of the convent.

Owing to the tie-up of the railways the Alberta Star of Cardston was printed last week on wrapping paper procured from the merchants of that town, and it was poor stuff at that.

Hume Robertson of Carlyle, license inspector, was in the city Saturday. His town had been almost but not quite out of fuel during the hard weather.

An exhibition of new and interesting moving pictures will be given in the city hall on Thursday, Feb. 14, by Ensign Sheard of the Salvation army. The great immigration work of the army will be fully illustrated. A full house is expected.

Paperhangers and decorators are at work renovating Attorney General Lamont's office in the Michaelis block, and for the present the attorney general is occupying the premier's office.

W. J. Hastings and H. Willoughby who were with the Smith & Ferguson Co. Ltd. in the tinmithing department, have gone into business for themselves and will open a shop on Rose street. They already have a number of good contracts secured.

Many Regina People Give Testimonials

Johnson's Dyspepsia Cure

On Sale only at this Store
Here is a Guaranteed Remedy. Our Johnson's Dyspepsia Cure

An old reliable preparation which we have been selling for years. Among the number we have cured by its use are many prominent citizens of Regina. You would know them instantly if we published their names. But we don't intend to publish testimonials, for that is not the purpose of these columns.

Johnson's Dyspepsia Cure contains Peppin Cinchona, Pancreatin, besides some valuable vegetable ingredients.

This Remedy corrects faulty action of the stomach. Aids digestion. Relieves prevalent headaches. Enables the system to procure all nourishment from the food.

Johnson's Dyspepsia Cure

Sold Regularly at 75 cents. Now on Sale 50 cents

FIVE ROSES FLOUR

On Sale in our Grocery.

There are good reasons why you should use FIVE ROSES FLOUR

Because it is not subject to electrical treatment or artificial bleaching.

Because it is equally good for bread or pastry.

Because it is untouched by human hands during manufacture.

More because at a later date

PERFUMES

We can truthfully proclaim that the delicately delicious odors and cents now to be had at this store vie with the fresh, sweet fragrance of May blossoms. The very best and most lasting extracts can always be had here. All the latest up-to-date odors of the leading French, American and Canadian manufacturers.

CHANGE OF WEATHER BRINGS SICKNESS

If the doctor is visiting your home these mild days or if you are visiting the doctor's office, bring or send his prescription to our Drug Section. We have every drug and medicine prescribed by the physician, and our prescription clerks are competent to fill any prescription. We invite your prescription business.

About a New Vest

There is many a man longing for something to brighten up his winter suit. Then why shouldn't we emphasize the nice novelty patterns of fancy vests. Light and dark shades in greys, drabs and fancy plaids and spots. Daintily designed in single and double breasted styles.

\$1.25, \$1.75, \$2.00, \$2.25

New Tweed Hats for Men

Now when we say Tweed Hats, no doubt your mind goes back at once to those once popular Tweed Fedora shaped Hats which held their shape a short time. No. This is the American curled brim Tweed Hat, the very newest thing out and we believe it is different from most novelty shapes, it is here to stay. Just now they are practically good, worn with a fur collar. You can't wear a Christy and if you don't want the expense of a fur cap, buy this new hat. On sale \$1.50 and \$1.75.

Is Your Tea Suited to the Hard Water of This Country?

We are making a specialty of handling only the finest and purest qualities of field grown teas, in carefully selected varieties for western use. It is a fact that some teas will not make good drinking tea from Regina hard water. The water on reaching a boiling point seems to have a peculiar effect on most teas. Trading Company Teas are the result of special attention paid to this very important fact. About TETLEY'S several fine grades of Tea this can also be claimed and it is therefore worth your while to consider this in buying Tea.

Tetley's Golden Tip extra choice broken Orange Pekoe packed in half pound tins, per pound, 75c.

Tetley's Nelson brand, very choice hill grown Indian and Ceylon, packed in half pound tins, 50c.

Tetley's Sunflower choice Indian and Ceylon, packed three pound tins, \$1.40.

Tetley's Teas in 25 lb. chests at attractive prices.

No. 1 HARD—Our Special brand. Please many tea critics.

Shoes Repaired

Day in and day out we are advising you to bring your shoe repairing here. There are reasons. First we employ only expert workmen. Second we use only the best materials.
