AYER'S

Cherry Pectoral.

Another complaint so common in their

sex is that of the throat and lungs.

The ordinary cough or cold, resulting

scarcely from a trifling or unimportant

cause, is often but the beginning of a

fatal disease. AYER'S CHERRY PECTORAL

has proven its efficacy in a forty years' trial

with throat and lung diseases, and should

be taken in all cases without delay.

A Terrible Cough Cured.

"In 1861 I took a severe cold, which affected

my lungs. I had a terrible cough, and found

it almost impossible to breathe. My

throat was sore, and I was unable to

eat or sleep. I had tried many remedies,

but all in vain. I then procured a bottle

of AYER'S CHERRY PECTORAL, and

after using it a few days, I found

myself able to breathe freely, and

my cough gradually subsided. I

continued to use it until I was

entirely cured. I can now breathe

freely, and my throat is as healthy

as ever. I am sure that AYER'S

CHERRY PECTORAL is the best

remedy for coughs and colds.

W. W. WALKER, New York, N. Y.

"I have used AYER'S CHERRY PECTORAL

in my family for several years, and do not

hesitate to recommend it as the most

valuable remedy for coughs and colds

we have ever used."

Lake Crystal, Minn., March 11, 1882.

"I suffered for eight years from Bronchitis,

and after trying many remedies with no

success, I was cured by the use of

AYER'S CHERRY PECTORAL. I

was cured by the use of AYER'S

CHERRY PECTORAL. I was cured by

the use of AYER'S CHERRY PECTORAL.

"I cannot say enough in praise of AYER'S

CHERRY PECTORAL, believing as I do that

it is the best remedy for coughs and

lung troubles."

E. BRADDOCK, Palestine, Texas, April 1, 1882.

No case of an affection of the throat or

lungs exists which cannot be greatly relieved

by the use of AYER'S CHERRY PECTORAL,

and it will always cure when the disease is

not already beyond the control of medicine.

Roman Intelligence.

Rome, Jan. 14, 1884.

The Monitor de Rome has the following

very important notes: "The Standard

(London) recently announced the resump-

tion of diplomatic relations between the

Holy See and England. It may be

saferly imagined with what aim this ex-

aggerated and premature news is put

before the public. Besides, the fact that

Mr. Errington has not been received by

the Holy Father, on the occasion of the

Christmas truce, at the same time the

Diplomatic Corps, is a formal denial to

the assertions of the Standard."

The first division of the tripartite de-

monstration of Italian patriotism on the

twenty-fifth anniversary of the "resur-

rection" of this new kingdom, marched

in procession from the station at Santa

Maria Maggiore to the Pantheon, on

Wednesday last, 9th January, the sixth

anniversary of Victor Emmanuel's death.

The weather, which on the previous day

had been exceptionally fine, was favor-

able for a splendid display of the 24,000

patriots who, according to the Monar-

chical journals, were eager to demon-

strate their presence in this procession

in honor of the House of Savoy. Last

the crowd should be too numerous for

the resources of Rome, this demon-

stration has been divided into three

parts. The railway fares have been re-

duced seventy-five per cent, and special

privileges have been granted to the

"pilgrims"—distinguished as they have

been by a bronze medal attached by a

green ribbon, in the centre of which is

the white five-pointed star of Italy. Yet

with all this the total number of arrivals,

excluding those from the Roman Pro-

vince, has been only 6,527. These were

joined by those from Rome and other

cities, such as Trivoli, Rocca di Papa,

Civita Vecchia, &c., adding about three

or four thousand more to the procession.

Flags and standards of all the

provinces, and many of them with

Mr. Biggar and the Police Magistrate.

AN AMUSING SCENE.

The correspondent of the Dublin Eco-

nomist writes:

An extraordinary scene was witnessed

at Blacklion on the occasion of the visit

of Mr. Biggar, M. P., who travelled by a

special route from Enniskillen to

Blacklion, the journey being twenty-six

Irish miles over a mountain road, the

direct route being only twelve miles.

When some miles from Blacklion the

road divided into two, and Mr. Biggar

took the new road, but he was still four

miles from Blacklion when he was met

by Captain McTernan, R. M., and about

a dozen policemen on cars. Mr. McTer-

nan immediately wheeled around and

drove towards Blacklion at a somewhat

rapid pace. Mr. Biggar went more

slowly, and as he came near the town

the people who had gathered in large

numbers, and had been dispersed

several times by the police, began to

assemble on the road. A considerable

contingent of men on horseback were

halted from the old road, and they im-

mediately wheeled over by the horse and

joined Mr. Biggar's party unseen by the

police, who by this time had gone into

town and were doing their utmost to

scatter the people, with what result will

be seen hereafter. Meanwhile several

hundred men were seen winding

their way to the place where Mr. Biggar

and Mr. Jordan, of Enniskillen, who

accompanied him, had been halted. The

stream of people flocking in this direc-

tion, however, had not escaped the obser-

vation of Capt. McTernan, and Mr. Biggar

LOCAL AND OTHER MATTERS.

THE DOG TAX.

To-morrow will be Valentine's Day for us. We earnestly call the attention of our spinster friends to this important fact.

Mr. James Sullivan, formerly of Burlington, Lot 18, has purchased the valuable property on Pownal Street lately owned by Mr. James White, Mount Stewart.

At the City Council meeting on Monday night a letter was read from the School Trustees stating that if \$1,200 was not paid them at once they would have to close the schools.

At Grand Mass held Sunday Father Carroll preached a strong sermon against dancing, and said that there was very little difference between walking and what are known as square dances.

The usual entertainment will be given under the auspices of the Benevolent Irish Society on St. Patrick's night, and the proceeds devoted to a piousworthy enterprise, to be carried out by Father Carroll.

Mr. P. C. KELLY, now that the Scott Act is understood to be in force, is about to open a restaurant on 127 Upper Queen St. We have no doubt that, under Mr. Kelly's management, the new scheme will be a success.

A former subscriber sends us a sonnet in praise of our esteemed correspondent, Myles O'Hagan, which we refrain from inserting to save him from blushing with pride. It is not good to have the blood driven to one's head in weather like this.

The Scott Act Election in Prince County took place on Thursday last, and resulted in a victory for the Act, which will now continue in force until 1887. The vote stood for the Scott Act, 2,909; against petition, 1,965. Majority for Act, 1,944 votes.

It looks as if, in view of the contest expected in August, the temperance men are making an effort to show it is not a dead letter. Several cases have come before the Magistrate of late, several more are on the card, and the amount in fines is swelling the civic treasury.

The Supreme Court for the past week has been engaged in hearing arguments in the following cases: (1) *Carlton vs. John D. Lavin* and others, rule nisi for a new trial. Court took time to consider. Mary Ann Fraser vs. The P. E. Island Steam Navigation Co., demurrer to Plaintiff's declaration. Court took time to consider.

Mr. Cosway lectured at Tignish on Wednesday to a large audience, and this, though the night was stormy, and numbers had to come from a distance to hear him. His subject was "Thomas Carlyle and his connection with this subject, our readers will be glad to hear that it is in serious contemplation to erect a statue in Montreal to the famous poet and orator.

The Charlottetown Tobogganing Club were out in force on Friday night, and were fortunate in the fact that the sport was excellent, and the weather all that could be desired. There were about twenty oxen on the slide, with a like number of ladies, all of whom enjoyed themselves to their heart's content, and were afterwards entertained with an oyster supper by the Hon. Mr. Sullivan.

We understand that the slide is to be lengthened, and the platform raised, each fifty per cent.

This attention of our readers is respectfully called to the advertisement in another column, of D. M. Ferry & Co., Windsor, Ontario, the celebrated Seedsmen. They do the largest business in their line in the Dominion; raise the finest quality of seed on their own farms; by the most approved methods, and have obtained a world-wide reputation for the quality and variety of the seed they put upon the market, and their integrity in filling all orders entrusted to them. Their beautiful Seed Annual for 1884 is sent free to all who apply for it. It will be found of practical value to all who desire to purchase seeds true to name.

The idea of keeping up winter communication between West Cape and Richibucto is, at last, being discussed and considered, and is now more favorably received than when it was broached at first. A Richibucto correspondent of the St. John's News says: "Mr. Wilmet Brown, C. E., completed the survey of the St. Louis Railway on Saturday. The line is seven miles long. At a meeting held on Saturday at the office of the Secretary, Mr. George V. Melrose, Mr. Wm. Whelan, Mr. P. F. Kelly, Mr. J. Richard and J. C. Brown were appointed to visit the route of the line, and negotiate with the Government for the right to be used in its construction. They will, it is expected, proceed on their mission this week. A delegation also leaves to-day (Monday) for Ottawa in the interests of winter communication between West Cape and Richibucto. Up to this date there is not a speck of ice to be seen between Richibucto and West Cape, and their mission is a rather important one."

A rather important meeting of the City Council was held on Monday night, in the presence of all the members who were present, and His Worship Mayor Hooper occupied the chair. His Honor the Recorder was in attendance, and the Council room was as full as it could hold of prominent citizens and those interested in the proceedings, which it was understood, were to take place. After routine business had been disposed of a numerous signed petition was read, requesting the appointment of a prosecutor, and asking that an amount necessary to enforce the Canada Temperance Act be deducted from the fine received by the City for contravention of the Act. A counter petition, also numerously signed, was presented against such proposals, stating it was unconstitutional and illegal to devote the City funds for such purpose, and that the Act provided for a prosecutor in the person of the Inspector of Island Revenue. A debate ensued of a more or less lively nature. Mr. Tanton said that it was nothing but fair and reasonable that the wishes of the majority be carried out in the Act was to uphold in spirit as well as in letter, and that therefore the request that he was making to maintain the law be complied with. Councillors Morris and others insisted that the petition was not a genuine one, that it was hawked about by a lot of women, who obtained signatures from every one who could write, and that numbers of them who discovered that they had been putting their names to the petition, had cancelled. After the debate a division was taken, with the following result: Yea—Councillors Tanton, Ludner, McCarra, Hone and Davy—5. Nays—Councillors Morris, Murphy, Koughan, Crabbe and Douce—8. The division having resulted in a tie, the Mayor threw in his casting vote with the nays, and the petition was therefore defeated, amid the ill-suppressed applause of some of the spectators.

LATEST TELEGRAMS.

THE DOG TAX.

DEAR SIR,—Some time ago an article appeared in the *Examiner* from a "Dog Tax" lawyer, complaining bitterly of the Dog Tax Collector owing and keeping on his premises two dogs and not paying their taxes, and also setting forth in very strong language the very cruel manner in which he prosecuted those poor people who were unable to justify the tax, and who received their notices through the press, while at the same time the Collector, Mr. Chandler, kept a span of dogs and refused to pay their tax. I have looked carefully over the report of the dog tax department and I fail to see the Collector's name appear on that report as having paid this tax. I agree with "Dog Tax" lawyer in saying that any man who does not conform to the law must break that law, and an official who is working for that law and does not conform to it is not doing his duty. I would like to know what right has this man to get exempt from paying this tax? He receives the sum of \$400 a year, besides other perquisites, and the services he renders are merely nominal. He does his work principally through the press. Perhaps he imagines that he is one of those "dog tax" bailiffs, to whom the law holds no terror; but he is mistaken. The days of serfdom are over on P. E. I. What we want now and must have is equality in law, and no partiality.

CHARLOTTETOWN, Feb. 11, 1884.

Review of Magazines, &c.

NORTH AMERICAN REVIEW.

The retirement of Mr. Carl Schurz, a few weeks ago, from the editorship of one of the leading journals of New York, on the ground that irreconcilable differences of opinion existed between him and his associates with regard to the conflict of the Telegraph and Railroad men with their employers, has awakened curiosity in no ordinary degree, and hence when he defines his position upon the question at issue, viz., "Corporations, their Employees and the Public," as the subject of the *North American Review* for February, he is sure to command an attentive hearing.

To the same number of the *Review*, J. S. Shairp, Principal of the University of St. Andrews, contributes an admirable sketch of the life and works of "Apostle of the Poor," a poet of the 17th century whose genius exhibited a rare and almost unique combination of gifts, and whose noble purpose being to improve the several departments of the human mind, and to contribute to the advancement of the human race, is a noble and noble purpose.

The *United Ireland* this morning, under the heading "Spies," congratulates the false prophet on the recent victory, and hopes that neither Sinitar nor Kharbama will be relieved. It trusts that Gen. Gordon will meet with a similar fate, and asserts that it will rejoice to hear of El Mahdi's victorious arrival at Cairo.

PARIS, Feb. 9.

Parnell moved in the House of Commons yesterday afternoon in support of the resolution in reply to the Queen's Speech, severely condemning the policy of the Government in Ireland. He asserted, and failed to disprove, that the people have been protesting at public meetings and interfering with the freedom of speech. The amendment demands the immediate cessation of the policy of stimulating state aid emigration from Ireland. Parnell asserted the recent visit of Sir John Lubbock to the United Kingdom, and the exciting cause of civil disturbance.

PARIS, Feb. 8.

Advices from Tonquin report the rebels in the provinces of Mandahin and Sontay have been dispersed. The rebel leader, Duc, was wounded and killed, and his army of 400 and 500 of the rebels were slain.

THE *Charlottetown Herald* has destroyed the nests of printer at Savelor, and a few at Tainson, killing and wounding many.

LONDON, Feb. 9.

The Daily News states that the report that England and France were negotiating for the joint occupation of Egypt is totally without foundation.

PUEBLO, Col., Feb. 8.

There have been terrific snow storms in San Juan County, Colorado, since the 1st of the month. The snow is so deep in some places, it is seventy feet deep under the snow. Trains are blocked up, and the roads are impassable. Seven feet deep on the level and it is still snowing.

MONTEAL, Feb. 7.

The Montreal Herald says: After the 10 o'clock service in St. Mary's church, yesterday, His Grace the Archbishop of Halifax preached a most impressive sermon, taking as his text the words of the prophet Isaiah: "I am only echoing the voice of my people." After the sermon a collection was taken up to assist in the reduction of the church debt. The singing on this occasion by the choir was particularly fine.

MONTEAL, Feb. 8.

The Governor-General and Lady Lansdowne attended the Victoria Convention, probably the largest in the Dominion, where hundreds of young ladies graduate every year. Their excellencies were received by the Mayor and the Hon. Mr. Tanton, the venerable superior of the institution. During the stay of the viceregal party, a delightful and most interesting time was spent by the young ladies, and one read a dissertation in French addressed to their excellencies, which was replied to by Lord Lansdowne in such pure French as to draw the hearty applause from the refined and brilliant audience present. The entertainment was brought to a close by singing in French the national anthem with grand effect. General and Mrs. Eckert with many other visitors from New York were present. The Victoria rink in the evening and enjoyed the nights and scenes of revelry there witnessed immensely.

BOSTON, Feb. 7.

Post-mortem over the remains of Wendell Phillips showed disease of the heart of long standing as well as of recent date. The heart was extensively enlarged and fatty. The funeral services were held yesterday. The church was crowded and thousands of people were unable to gain admittance. Committees from the legislature, the common council, women suffrage associations, labor organizations, temperance societies, Irish societies, free-thinkers' societies, the American free soil society, young men's congress and many reform organizations with which Phillips was identified were present. The services were conducted by the Rev. Samuel Longfellow. The body was taken to Fenwick Hall, where it lies in state. The people proceed the sidewalks along the entire route of procession and a great concourse met the remains on arrival at Fenwick Hall. There were but three floral exhibitions in the hall and all elaborate and beautiful, presented by General Butler, the Irish associations of America and the Irish associations of Boston.

BOSTON, Feb. 8.

Capt. Barnham, of the Board of Inspectors of Steam Vessels for Boston district, says that the captain of the steamship *Gloucester* had admitted to him that the *Gloucester* passed the wreck of the *City of Columbus* after daylight on the morning of the 15th inst., and that she was in the vicinity of the wreck of the *Gloucester*, but that the latter steamer did not stop because her captain did not wish to be delayed on his trip.

THE MARKETS.

HALIFAX MARKET.

HALIFAX, Feb. 8.—Ons (P. E. I.) 45 to 48 cents per bushel; Canadian do. 40 cents per bushel; barley 75 to 80 cents per bushel; Potatoes 20 to 25 cents per bushel; Hatter 10 to 12 cents per lb.; Lard 12 to 15 cents per lb.; Tallow 10 to 12 cents per lb.;
