(By Margaret E. Sangster. Once we have loved we never lose. That is not love which can forget. Through loss and loneliness and grief, This gem is as its coronet, That true love never can forget.

That is not faith which drops its hold. Once we have trusted in our clasp Forever lies life's changeless gold, For withers in our loosened graap; True faith through all time keeps its clasp.

The Stars. Phe stars are heaven's ministers, Right royally they teach,
Sod's glory and Omnipotence
In wondrous, lowly speech,
All elequent with music, as
The tremblings of a lyre,
Lo him that hath an ear to hear
They speak in words of fire. Not to the learned sages only
Their whisperiugs come down;
The monarch is not glorified
Because he wears a crown.
The humblest soldier in the camp
May win the soldies of Mars,
And 'tis the lowliest spirits hold
Communion with the stars.

Thoughts too refined for utterance, Thoughts too rensed for unterance, Ethereal as the sir, Crowd through the brain's dim labyrinths, And leave the impress there; As far along the gleaming void, Man's searching glances roll, Wonder usurps the throne of speech, But vivifies the soul.

heaven-eradied mysteries What sacred paths ye've trod !
Bright jewelled scintillations
From the chariot-wheels of God,
When in the Spirit He rode forth With vast creative aim, These were His footsteps left behind To magnify his name.

ge; which is probably authentic, states that the legations at Pekin were safe on July 21st, though many of the guard had been killed and wounded in the fighting. Sir Claude MacDonald's despatch is most encouraging, and it is thought that by the end of the week a relief force will have fought its way to the gates of the Chinese capital. Exaggerated as it undoubtedly has been, the altuation is desperate, and nothing but quick action in force on the part of the powers can be hoped to subdue the insurrection. If China but knew her power, the many thousands of foreign soldiers within her borders would be but a trifling proposition for her many millions of fighting fanatics. But the lack of organization and internal dissentions and strife place the millions at a disadvantage that constitutes the great hope of that the legations at Pekin were safe on July | for the purpose. the interfering powers. China will be civilized in spite of her objections, but her masters are liable to quarrel over their task, and in that case the present trouble will be nothing to the shock the world will receive when the great nations themselves combat for supremacy in the vast Asian continent. Such a strife may not come, but a guarantee of an international peace has not yet been cemented by the proper endorsement, and jealousy and hatred exist among the troops that are fighting against a common peril. Lawrencetown will have at least two more findeate the crops as under the average. It is gratifying to note that a large number of reports give us a fair average grop, but taking the whole province in hay, potatoes and roots as well as oats and other grains, we will fall a little short of an average crop, but as an offset for this slight decline, it is pleasing to note a general increase in dairy and beef cattle as well as sheep in many parts of the province, and a fair prospect of an abundant crop of fruit wherever this important industry has been cultivated.

The remainder of the crop is detail—the crop position is succinctly deploted in the above.

Lord Minto, like his predecessor in office, is about to undertake a pilgrimage over the western and northern portions of the Dotantion. He will visit not only the prairie but will go up to the Yakon country as well, taking a look at Dawson City and the Klondike mines. With the better facilities of these he can go to Dawson and return more sasily and comfortably than Lord Lorne visited Edmonton. Lord Minto will return through the Northwest during the harvest feason. Next year he is expected to visit the maritime provinces.

Fairy stories are always enjoyed by the children, and the literature of fairyland is not far to seek. Imagination is very active in little children, and occasionally one meets child's world, having forgotten her own early days and their illusions, or who is afraid that fancy and its imageries will lead her her child into deceit. While the most exact and rigid truthfulness should be practiced in our dealings with children, and they them selves should be taught to shun equivocation and every form of lying, still we need not "Well, mamma," Ned explained, "I fear to let imagination give them pleasure. wanted to teach him the Golden Rule, and They early learn to discriminate between he said he wouldn't learn it." the false and the true-or perhaps it would be better to say, that they learn to find the truth wrapped up in the husk of the story.
