The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filimage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

GLOBE PRINTING CO., PRINTERS AND ENGRAVERS,
TORONTO, ONTARIO

Northrop & Lyman's

The above is a copy or representation of the Enlarged Wrapper of the genuine **DR. THOMAS' ELECTRIC OIL.** Fix its appearance and the name in your mind.

In the year 1871, Dr. S. N. Thomas, of Phelps, N. Y., made arrangements with the undersigned to introduce his **ELECTRIC OIL** into Canada. From the first it met with success, and in a very short time orders for it came pouring in from all parts of the country, and at the present time it has the largest sale of any medicine sold in the Dominion.

One proof of the remarkable success it has met with, is the attempt of several

TAND SHARKS

to sell imitation oils on the strength of its popularity. If it was not a medicine of merit, it would not be imitated. Men do not commit forgeries on defunct banks, nor do they counterfeit base coin; if it is the genuine they imitate. And so it is here; if Dr. Thomas' **ELECTRIC OIL** was not an article as good as represented, it would not have been so successful. It was not until it was introduced into Canada that it was known that it was a genuine article. It was not until it was introduced into Canada that it was known that it was a genuine article. It was not until it was introduced into Canada that it was known that it was a genuine article.

Dr. Thomas' **ELECTRIC OIL** is a medicine of merit, and its success is a proof of its value. It is a medicine of merit, and its success is a proof of its value. It is a medicine of merit, and its success is a proof of its value. It is a medicine of merit, and its success is a proof of its value.

Dr. Thomas' **ELECTRIC OIL** is a medicine of merit, and its success is a proof of its value. It is a medicine of merit, and its success is a proof of its value. It is a medicine of merit, and its success is a proof of its value. It is a medicine of merit, and its success is a proof of its value.

GREAT BLOOD PURIFIER.
NORTROP & LYMAN'S
VEGETABLE DISCOVERY AND DYSPEPTIC CURE

CURE CURE FOR DYSPEPSIA AND ALL DISEASES ARISING FROM IMPURE BLOOD.

It is especially recommended in all Chronic Diseases.

Two or three bottles will cure Pimples on the face; one bottle will cure the worst case of Biliousness; one to four bottles will cure the worst case of Dyspepsia; six to eight bottles will cure Scrofula; one to two bottles will cure all Humor of the Eyes; one to two bottles will cure Costiveness; three to four bottles will cure Rheumatism; three bottles will cure all Derangements of the Kidneys; six to eight bottles will cure Corrupt and Running Ulcers.

THIS medicine is the result of careful and long research of an experienced chemist. It is not a combination of aloes and cheap liquors or several cheap drugs amalgamated, but is a combination of several roots, herbs, barks and other vegetable medicines, any one of which occupies a prominent place in the pharmacopoeia of cleansing and curative agents.

Their combination has been carefully studied, and the relation one bears to the other thoroughly investigated, while the effects they would have on the different diseases entered into, so that such a thing as failure is impossible in reaching the end desired, viz., the restoration of impaired health, to replace bad blood by pure blood, to make the afflicted feel that there is something in this world worth living for, to give elasticity to the step and health and glow to the cheek, to drive despondency from their door and bring happiness to their home.

How often we lament the irritable temper of those we love, and speak of the whining fault-finding amongst our acquaintances of the fair sex. Alas! the veil hides from our view the misery they are called upon to pass through by being afflicted with many disorders or complaints that we know not of or little suspect.

But a few years ago our medical men used the lance and strong purgative medicines; the first has become rusty from disuse, while the latter is fast becoming a thing of the past. A new era in the history of medicine has dawned, and has given to us this medicine that has accomplished wonderful cures during the short time that it has been before the public, and is destined to make for itself such a name that it shall be known from the Atlantic to the Pacific as "the great cleanser of the human system"

THE BLOOD

In an average sized man is about 25 lbs., and by the action of the heart is passed through the entire length and breadth of the body once in every two or three minutes. Out of this vital fluid every tissue in the body assimilates material for supplying the waste that is constantly going on. It is also the principal source of animal heat. To any intelligent person, with these facts before him, it can be readily understood that it is impossible to have health while the great River of Life is turbid, impure or impoverished. Let this fluid become turbid, and immediately the circulation is checked in the minute passages and capillary network of the skin, and the part is diseased, and you have what is generally called

SKIN DISEASE,

Such as Ulcers, Barber's Itch, Rashes, Boils, Pimples, Eruptions, Erysipelas, Tetter, Ringworm, Itch, Salt Rheum, Scalp Eruptions, &c., &c.

If troubled with any of these painful and itching diseases, do not think that you can be cured solely by outward applications. No eruption can form upon the surface without the coexistence of a certain morbid condition of the system; good ointments will assist but cannot cure until the cause of their appearance is removed. It is here where NORTHROP & LYMAN'S VEGETABLE DISCOVERY comes to the rescue, and by its searching and cleansing properties removes all obstructions and causes the unsightly eruptions to disappear. Give this medicine according to directions, and continue the use of it for some time after the disease has disappeared. In cases of old sores or obstinate eruptions, the application of Dr. Thomas' Electric Oil will hasten their removal. When the

BLOOD IS IMPOVERISHED

Several diseases follow, such as Nervous Prostration, Debility, Emaciation, Weakness, hands and feet cold, a susceptibility to colds, and a depressed, woe-begone feeling. The slightest exertion is followed by a sense of lassitude and weakness. What are these diseases but silent evidences that the blood has become thin and watery; get new blood into the body and immediately the color returns to the cheek and strength to the whole body.

For the restoration of this impaired state of things, nothing equals Northrop & Lyman's Vegetable Discovery; being composed of the most efficacious alteratives known, it speedily restores, nourishes and enriches the blood, while its tonic properties tone the whole system in a manner superior to the most sanguine. It has no equal in bringing out the latent vigor of the constitution to develop its stamina and call its vitality into full play.

REMARKABLE CURES.

Mr. H. A. McLaughlin, Norland, writes: "I am sold out of Northrop & Lyman's

Vegetable Discovery and Dyspeptic Cure. It sells well, and I find in every instance it has proven satisfactory. I have reason to believe it the best preparation of the kind in the market."

Mr. C. E. Riggins, Beamsville, writes: "A customer who tried a bottle of Northrop & Lyman's Vegetable Discovery says it is the best thing he ever used; to quote his own words, 'it just seemed to touch the spot affected.' About a year ago he had an attack of bilious fever, and was afraid he was in for another, when I recommended this valuable medicine with such happy results."

Mr. John Anderson, Grassmere, Ont., writes: "The Vegetable Discovery you sent me is all gone, and I am glad to say that it has greatly benefited those who have used it. One man in particular says it has made him a new man, and he cannot say too much for its cleansing and curative qualities."

Mr. H. B. McKinnon, painter, Mount Albert, says: "Last summer my system got impregnated with the lead and turpentine used in painting; my body was covered with scarlet spots as large as a 25 cent piece, and I was in such a state that I could scarcely walk. I got a bottle of Northrop & Lyman's Vegetable Discovery, and at once commenced taking it in large doses, and before one-half the bottle was used there was not a spot to be seen, and I never felt better in my life. I think this medicine the best Blood Purifier ever discovered."

Mr. R. A. Harrison, Chemist and Druggist, Dunnville, Ont., writes: "I can with confidence recommend Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure for Dyspepsia, Impure Blood, Pimples on the Face, Biliousness and Constipation—such cases having come under my personal observation."

Mr. T. C. Wells, Chemist and Druggist, Port Colborne, Ont., writes: "Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure sells well, and gives the best of satisfaction for all diseases of the blood."

Mr. George Tolen, Druggist, Gravenhurst, Ont., writes: "My customers who have used Northrop & Lyman's Vegetable Dis-

1879
(81)

covery and Dyspeptic Cure say that it has done them more good than anything they have ever used."

SCROFULA.

The first symptoms of this disease are a number of small hard knots on one or more of the glands, and on various parts of the body, but particularly on the neck and under the chin, they gradually increase in size and number till they form a large hard tumor. This frequently continues for a long time without breaking, but if not checked, eventually the skin over the abscess becomes of a purple color, and being much inflamed it suppurates and breaks into holes from which a watery matter at first is discharged, followed after a short period of time by a serous discharge. This disease is without doubt in many instances hereditary, and is transmitted from parent to child. If not attended to it extends to the armpits, groins, hands, eyes, and frequently affects the lungs, liver and spleen.

Besides being a loathsome disease, it is, when fully developed, very painful and annoying, and the only way to get rid of it is to cleanse the source from whence the trouble arises. The blood must be purified from all scrofulous taint.

To attempt to heal the sores while the blood is impure, may drive the disease to some vital part, and with serious results. From our thorough knowledge of Northrop & Lyman's Vegetable Discovery we can with confidence recommend it as a radical cure for Scrofula, and all unhealthy humors of the blood. It gathers up these corruptions and carries them off with each discharge from the bowels.

CONSTIPATION OR COSTIVENESS

arises from various circumstances; sometimes the food is too insipid or destitute of stimulants; sometimes there is a deficiency of bile, or what is more frequently the cause, the bile that is secreted is insufficient for the purpose of imparting a due stimulus to the intestines. Take the **VEGETABLE DISCOVERY** according to directions for a few weeks, and the trouble will all disappear.

Do not take strong purgative medicines that cause profuse discharges; the true purge is a medicine which, while moving the bowels, very gently purges the whole system. This is precisely what Northrop & Lyman's Vegetable Discovery does

DYSPEPSIA.

This is one of the most common known. There is scarcely a person to be found that has not at some time experienced the disagreeable sensations that follow this complaint.

When you notice that invariably after eating a meal unpleasant sensations are felt, it may be an absolute repugnance and disgust at the thought of food, or it may be any of the symptoms named hereafter, no matter what the sensation is,

YOU HAVE DYSPEPSIA

and should not trifle with it or think you can get relief by taking a dose of purgative medicine. Dyspepsia is inability on the part of the stomach to change the food introduced into it so as to yield nutriment to the body. In other words, it is too weak to perform its natural functions.

This diseased condition of the stomach is caused by inattention to diet, bolting the food instead of eating it, want of exercise, and many other causes that we have not space to enumerate. Sometimes the blood becomes so impure that it reacts upon the stomach and aggravates or causes this disease. Among the many disorders that follow in the wake of this complaint, are to be found Palpitation of the Heart, Pain in the Head, Langour, Confused Thoughts, Less of Mental Energy, etc.

THE SYMPTOMS OF DYSPEPSIA

are, Sick Headache, Bad Breath, Deranged Appetite, Heartburn, Water Brash, Flatulency, Sinking or Fluttering at the Pit of the Stomach, Nausea and vomiting, a sense of fullness or oppression after eating, Belching, Acidity of the Stomach, Bad Taste in the Mouth, Sudden Flashes of Heat, Depressed Spirits, Melancholy, Costiveness, etc., etc.

TO CURE YOURSELF

of this disease requires your co-operation as well as the very best medicine you can get. And here let us say we cannot cure you of an old confirmed case of Dyspepsia unless you give strict attention to your diet, avoid pork, rich cakes and puddings, pickles, and anything you know will not agree with your weak stomach.

Take Northrop & Lyman's Vegetable Discovery in small doses, three times a day, either before or after each meal, with un-failing regularity; not for a day or two and then omit it, but continue it until every appearance or symptom of the disease has disappeared. This medicine has worked wonders for dyspeptics in this country, and we believe there is not a case of dyspepsia to be found that it will not cure if the directions are followed.

COMPLETELY CURED.

Mr. R. H. Dawson, St. Mary's, writes: "Four bottles of Northrop & Lyman's Vegetable Discovery entirely cured me of Dyspepsia; mine was one of the worst cases. I now feel like a new man."

Mr. C. E. Williams, druggist, Wingham, says: "Your Vegetable Discovery is selling well, and I know of one bad case of Dyspepsia that it has completely cured."

Mr. A. Fisher, of the Toronto Globe, says: "I take great pleasure in recommending Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure to the public. I have suffered with Dyspepsia for some time, and have tried several remedies without receiving any benefit. Being recommended to do so, I used one bottle, and must say that I find the result perfectly satisfactory, not being troubled with this distressing disease since, and would recommend others similarly afflicted to purchase a bottle at once and try it, as I am satisfied they will receive benefit from its use."

Mr. Alex. Robinson, of Exeter, in writing about one of the most popular articles, and one that has done more good to the afflicted than any other medicine has during the short time it has been in existence, says: "I have used four bottles of Northrop & Lyman's Vegetable Discovery and Dyspep-

tic Cure, and have been cured of Dyspepsia that troubled me for over ten years. Part of that time I had it very bad, and was at considerable expense trying to get relief; but this excellent remedy was the first and only relief I received."

Mr. Thos. Bell, of Messrs. Scott, Bell & Co., proprietors of the Wingham Furniture Factory, writes: "For over one year I was not free one day from Headache. I tried every medicine I thought would give me relief, but did not derive any benefit from their use. I then procured a bottle of Northrop & Lyman's Vegetable Discovery, and began taking it according to directions when I soon found the headache leaving me. I am now completely cured, and I cannot recommend this medicine too highly. I would not be without a bottle of it even if it should cost me three times its present price."

Mr. A. Hudgin, Toronto, writes: "I have been a sufferer from Dyspepsia for the past six years. All the remedies I tried proved useless until Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure was brought under my notice. I have used two bottles with the best results, and can with confidence recommend it to those afflicted in like manner."

Mr. Henry Marshall, Reeve of Dunn, writes: "Some time ago I got a bottle of Northrop & Lyman's Vegetable Discovery from Mr. Harrison, and I consider it the very best medicine extant for Dyspepsia."

Mrs. A. Nelson, Brantford, writes: "I was a sufferer from Chronic Dyspepsia for eleven years. Always after eating an intense burning sensation in the stomach, at times very distressing, caused a drooping and languid feeling, which would last for several hours after eating. I was recommended by Mr. Popplewell, chemist, of our city, to try Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, and I am thankful to say that I have not been better for years; that burning sensation and languid feeling has all gone, and food does not lay heavy on my stomach. Others of my family have used it with the best results."

Miss Mary Campbell, Elm, writes: "After taking four bottles of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, I am completely cured of my Dyspepsia."

(Continued on page 6.)

DOMESTIC RECIPES.

YEAST CAKE.—Take 5 pints water, and to it put 2 handfuls of hops; let it boil away to a pint, then strain it through a sieve, and thicken with some nice corn meal to the consistency of mush; when this is done, set it to rise; when quite light, add 1 pint good yeast, and let it rise a second time; when risen again, rub in dry corn meal until it will not stick to your hands; spread this on a clean table in the sun, and as it dries sift it, and put it into a clean bag for use. Keep in a dry place.

CORN MEAL BREAD.—Two quarts of corn meal with about 3 pint of thin bread sponge, and water enough to wet it; mix in 1/2 pint wheat flour and a tablespoonful of salt; let it rise, and knead well the second time; bake an hour and a half.

BUCKWHEAT CAKES.—One quart of warm water, 1 teacup of yeast; thicken with buckwheat meal; let it rise 3 or 4 hours. Bake on a griddle.

POTATO ROLLS.—Boil 2 pounds of potatoes; pass through a colander, or mash them well; add 2 oz. of butter and a pint of milk, a little salt, one gill of yeast, and as much flour as will make a soft dough; set them to rise; let them rise 1/2 an hour; when light, cut them in cakes and bake. Sweet potatoes make beautiful biscuits, mixed as above.

INDIAN FLANNEL CAKES.—Partially scald a teacupful of Indian meal; add some milk, 1 egg, or more if wanted rich, and as much flour as will make a rather thick batter, 1/2 a teacupful of yeast, and a little salt.

CORN CAKE.—2 lbs. of sifted meal; pour on this 1 pint of sour milk or cream; cut up 1 spoonful of good butter; beat 3 eggs, and stir in a little salt, with 1 teacupful of soda dissolved in a little milk. This must be very lightly beaten; then pour into two tins and bake quickly.

HOE CAKE.—Scald one quart of corn meal, with just hot water enough to make a thick batter; stir in 2 large spoonfuls of good butter; beat this a little; add 1/2 a teacupful of salt. Bake in buttered pans 1/2 of an hour. Serve hot.

HOMINY WAFFLES.—To 2 teacupfuls of hot honey add a spoonful of good butter; when cold, add 1 teacupful of wheat flour, a little salt, as much milk as will make it a stiff batter, and three eggs well beaten; mix these well together, and bake in waffle-irons.

TEA CRUMPERS.—Put 2 well beaten eggs in a quart of milk, and as much flour as will make them rather thicker than batter pudding. Then make your bake stone very hot, and grease it well; pour a large spoonful of batter, so that it may run the size of a saucer. When ready to use, toast them crisp and butter them.

MUSH CAKES.—Take 1 quart of cold mush, mix in it 1/2 pint of wheat flour and a little butter or lard; make it in little cakes with your hands. Flour them, and bake on a griddle as slab cake or in the oven.

WAFFLES.—Take 5 eggs, 1/2 a cupful of yeast, 1/2 lb. butter, a little salt and lard, and sufficient flour to thicken as thick as buckwheat batter. Bake in irons.

If you want fast colors and brilliant, use the popular package Star Dyes.

MUFFINS.—2 lbs. flour, 2 eggs, 2 oz. butter melted in a pint of milk, 4 or 5 spoonfuls of yeast; beat them well, and let them rise 2 or 3 hours. Bake in rings.

OMELET.—Take 8 eggs, 6 tablespoonfuls of milk or cream; beat well together; a little salt, some fat ham cut in small pieces. Fry it also in pieces of fat ham or butter.

CORN FRITTERS.—6 ears of corn, cut off the cobs, salt, 3 eggs beaten well separately, 2 tablespoonfuls of patent flour. Fry brown.

HEAD CHEESE.—Boil in salt water the ears, skin, and feet of pigs, till the meat drops off. Chop like sausages; season with pepper, salt, cloves and herbs; mix all together; put under pressure to cool. Cut in slices for the table, cold.

PORTABLE SOUP.—Boil down the meat to a thick jelly; season highly with spices; dry in the sun. Put it away out of the air; when about to cook, to one inch square put 1 quart of boiling water, and season as added.

GRAVY FOR CHOPS.—Take out your chops when they are a large spoonful of fat in which they are cooked, in the pan; dredge with flour; this will make it a paste; rub it with a brush over the fire, until a brown crust is formed; then pour in as much boiling water as will reduce it to the thickness of cream, and add a tablespoonful of mushroom catsup and a little salt; let this simmer five minutes, and pour it through a sieve over the steak.

Use the Star Dyes if you want brilliant and fast colors.

IRISH STEW.—Take a loin of mutton, cut it up into chops; season it with a very little pepper and salt, put it into a saucepan, just cover it with water, and let it cook half an hour. Boil 2 dozen potatoes, peel and mash them, stir in a cup of cream while they are hot, then line a deep dish with the potatoes, and lay in the cooked mutton-chops and cover them over with the rest of the potatoes, then set it in the oven to bake. Make some gravy of the broth in which the chops were cooked. This is a very nice dish.

LEMON PUDDING.—Grate the peel, and squeeze the juice of 3 lemons into 1/2 lb. butter; mix with care and add stale bread, sweeten to your taste, and bake them on a light paste.

Lyman's Vegetable Discovery and Dyspeptic Cure, I feel as if I were a new person. I have been troubled with Dyspepsia for a number of years, and tried many remedies, but of no avail, until I used this Dyspeptic Cure."

Mr. T. C. Berchard, public school teacher, Portland, writes: "During the year 1881, I was much troubled with Biliousness and Dyspepsia, and part of the time was unable to attend to the duties of my profession. Northrop & Lyman's Discovery and Dyspeptic Cure was recommended to me, and I have much pleasure in stating that I was entirely cured by using one bottle. I have not had an attack of my old complaint since, and have gained fifteen pounds in weight."

What a Well-Known Retired Tobacco Manufacturer Says.

Mr. Joab Scales, of Toronto, writes: "A short time ago I was suffering from Kidney complaint and Dyspepsia, sour stomach and lame back; in fact, I was completely prostrated and suffering intense pain. While in this state a friend recommended me to try a bottle of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. I must confess I did not have faith in any patent medicine, but, like a drowning man catching at straws, I thought I would give it a trial. I used one bottle, and the permanent manner in which it has cured and made a new man of me is such, that I cannot withhold from the proprietors this expression of my gratitude, and I would advise all that are so afflicted to give it a trial."

Mr. H. McCaw, Custom House, Toronto, writes: "My wife was troubled with Dyspepsia and Rheumatism for a long time; she tried many different medicines, but did not get any relief until she tried Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. She has taken two bottles of it, and now finds herself in better health than she has been for years."

Mrs. Thomas Smith, Ont.; writes: "I am using this medicine for dyspepsia. I have tried many remedies, but this is the only one that has done me any good."

Mr. R. C. Winlow, Toronto, writes: "Northrop & Lyman's Vegetable Discovery is a

valuable medicine to all who are troubled with Indigestion. I tried a bottle of it after suffering for some ten years, and the results are certainly beyond my expectations. It assists digestion wonderfully. I digest my food with no apparent effort, and am now entirely free from that sensation, which every dyspeptic well knows, of unpleasant fulness after each meal."

Mr. John Magwood, Victoria Road, writes: "Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure is a splendid medicine. My customers say they never used anything so effectual. Good results immediately follow its use. I know its value from personal experience, having been troubled for nine or ten years with Dyspepsia, and since using it digestion goes on without that depressed feeling so well known to dyspeptics. I have no hesitation in recommending it in any case of Indigestion, Constipation, Heartburn, or troubles arising from a disordered stomach."

SICK HEADACHE

is generally caused by a disordered stomach, imperfect digestion, or inactivity of the liver. If you are troubled with this distressing complaint, take the Vegetable Discovery to purify the stomach and give healthy action to the liver, and we will guarantee that the headache will be speedily and permanently removed.

LIVER COMPLAINT.

The liver is the secreting organ or gland by which the bile is formed, and on account of the relation it bears to the blood is more or less affected by the purity or impurity of that fluid. It can therefore be readily understood how easily one is affected by the condition of the other.

If your skin is sallow or of a yellow color, pain in the right side or shoulder; torpidity, easily exhausted; weight or pain about the liver, or jaundice (a disease which arises directly from obstructions caused by disorders from the liver); you have the

Symptoms of Liver Complaint,

a disease from which very few are entirely free. Northrop & Lyman's Vegetable Dis-

covery claims to permeate, strengthen, clear up and invigorate all the ducts, passages and blood-vessels of the liver, and restore the organ to a perfectly healthy condition. It should be resorted to by those troubled with liver complaint.

Mrs. H. Hall, Navarino, N. Y., writes: "For years I have been troubled with Liver Complaint. The doctors said my liver was hardened and enlarged. I was troubled with dizziness, pain in my right shoulder, constipation, and gradually losing flesh all the time. All food soured on my stomach, even with the closest attention to diet. I was under the care of three physicians, but did not get any relief. A friend sent me a bottle of Northrop & Lyman's Vegetable Discovery, and it affords me much pleasure to inform you that the benefit I have received from it is far beyond my expectation. I feel better now than I have done for years."

What Toronto's well-known Good Samaritan says :

"I have been troubled with Dyspepsia and Liver Complaint for over twenty years, and have tried many remedies, but never found an article that has done me as much good as Northrop & Lyman's Vegetable Discovery and Dys-optic Cure.

CLARA E. PORTER."

KIDNEY AND BLADDER DISEASES.

The state of the blood has a decided effect on these organs. If impure, a portion of the poison in passing through the kidneys lurks there, and very soon deranges, and establishes diseases that are frequently of a very serious nature, and from a similar cause the bladder is very apt to become a prey to disease.

The symptoms are a tenderness or pain in the back, loins and about the kidneys, scanty and high colored urine, frequent desire to urinate, the skin dry, pale or dusky, stomach disordered, and general weakness.

For the restoration of these important organs there is nothing better than Northrop & Lyman's Vegetable Discovery. It is particularly adapted for these diseases.

By its use the poison is promptly eradicated from the system, destroying the last trace of the disease, and leaving the patient in a splendid condition.

FEMALE COMPLAINTS.

It is a fact indisputable that a very large proportion of the women of America suffer from Prolapsus Uteri, Uterine Weakness, Leucorrhœa, or some other complaint peculiar to their sex. These diseases are frequently caused by hereditary scrofula, prostration by disease, dissipation, cold, over-exertion, nervous excitement, etc., and are aggravated by anything that depresses the tone and energy of the system. Woman, from the peculiar physiological functions of her organs, and from her delicate nervous system, is subject to all the above diseases; the weak and delicate are more liable to them than the strong and robust.

Among the early settlers female diseases were almost unknown. The women that helped to make Canada what it is were principally employed in the open air, helping the stern sex to make a home for their families. But as civilization advances, the heavy out-door work gives place to house-work, the old fire-place is replaced by stoves and furnaces. As a consequence, heated rooms and but little out-door exercise is having its effect. You cannot grow sturdy, healthy plants in curtained, heated rooms; and how can we expect to have healthy daughters and wives raised in the same atmosphere.

Living continually in hot, close rooms, causes a relaxation of the fibres, and the system becomes like a hot-house plant. If suffering any of the miseries that make life almost unbearable—that not only has its effect on herself but also on the future generation—we commend to them Northrop & Lyman's Vegetable Discovery, and we feel confident that it will restore them to their wonted health and strength.

It cleanses out all obstructions, gives tone and energy to the whole system, thereby restoring the displaced organs to their natural position, corrects irregularities, cures that dreadful bearing-down feeling; in fact,

It is the best FEMALE MEDICINE in use, and is especially adapted to the change of life, and for the young verging on womanhood.

SEVEN YEARS OF SUFFERING.

A lady in Syracuse writes: "For about seven years before taking Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, I suffered from a complaint very prevalent with our sex. I was unable to walk any distance, or stand on my feet for more than a few minutes at a time, without feeling exhausted; but now, I am thankful to say, I can walk two miles without feeling the least inconvenience. For female complaints it has no equal."

USE IT IN THE SPRING.

By taking this medicine in the spring you will derive more benefit from it than at any other time of the year. The blood is then more impure, and the system run down by the severity of our climate, and requires some good tonic and laxative medicine to give it tone and remove the impurities, which, if not attended to, find their way out in Pimples, Blotches, Boils, Scrofula, and other eruptions of the skin. One bottle of this excellent medicine will generally be found sufficient to remove the impurities, and save you much sickness and expense. It will invigorate the whole system, improve the appetite, stimulate and tone the digestive organs, and eradicate all malaria from the system.

The Lungs, Liver, Kidney, Bowels, Skin, etc., act as so many waste gates for the escape of effete and poisonous matter and gases from the body. When one of these organs refuses to fully accomplish its task, there is consequently so much effete matter left in the system that should be thrown off; and as this matter cannot lay dormant, it enters the blood and destroys its purity by loading it with poisonous floating particles. These particles, with the blood, have to circulate through every organ in the body; and what is the consequence? It is that the pores and ducts of every organ in the whole system are to some extent obstructed. When one of the organs of the body is diseased all the rest

sympathise with it, and to radically and permanently cure the disease of that organ we must have a remedy compounded of a variety of medicines possessing a variety of properties that will purify the blood as well as permeate, clear up and strengthen every organ in the body. Such a panacea is to be found in **Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure.**

In the preparation of this family medicine the following principles have been kept in view: 1st. That the blood is the life. 2nd. That all diseases arise from impurities of the blood. 3rd. That impure blood is generated through imperfect digestion; and 4th. That proper vegetable purgation is the only mode for effectually eradicating obstinate diseases.

DIRECTIONS.—When using this medicine abstain from alcoholic stimulants, late hours, rich, greasy food, pickles, &c., and follow the directions to be found on each bottle.

Sold by all medicine dealers at \$1 per bottle.

NORTHROP & LYMAN,
Toronto, Proprietors.

IN going to parties just mind what you're at,
Beware of your head and take care of your hat,
Lest you find that a favorite son of your mother
Has an ache in the one and a brick in the other.

STOVES are supposed to be a somewhat modern invention, but the Egyptians were warmed by Alexander the Grate, B. C. 300.

IN most places "A stone's throw," "five minutes' walk," &c., are used for measures for short distances. In Dubuque, however, they speak of a place as being "within the bawl of a mule."

MILTON was one day asked by a friend of the female persuasion if he did not intend to instruct his daughter in the different languages. "No," replied Milton, "one tongue is enough for a woman."

WHEN a new pedestrienne makes her debut on the sawdust track in Boston, the papers call it "bounding from sedentary obscurity into the arena of peripathetic celebrity." They have to put a mustard poultice on the back of the dictionary every night.

Dr. J. D. Kellogg's Eye Water.

For the cure of all Diseases of the Eye, such as Inflammation, Films, Opacities, Specks, Abnormal Growths on the Mucous Surfaces, and Gangrers

IN the category of diseases incidental to mankind, perhaps there is none more neglected and unskillfully treated than sore eyes; there is none that require more prompt attention than this distressing, and in many cases painful affliction.

We feel confident that many persons who have been deprived of their sight have had the glorious light of day and the beauties of nature shut out from them for ever by their own neglect, the botching of their physician, or the use of deleterious or pernicious stuff prepared by persons without any knowledge of medicine, and sold as Eye Medicine.

If your eyes are weak, sore or inflamed from any cause, the best treatment you can get for them is none too good, and in drawing your attention to *Dr. J. D. Kellogg's Eye Water*, we do so with the assurance that there is nothing better to be found for the diseases to which the eye is subject, such as ACUTE OR CHRONIC INFLAMMATION, WEAKNESS, OR DEFECTIVE VISION, FILMS, SPECKS, OPACITIES, ETC.

The most aggravated cases of Inflammation readily yield to its soothing influence and healing powers. The sight is strengthened, and a uniform healthy action is induced

Mr. James Hendry, Stewart's Bay, Ont., writes: "I received Dr. Kellogg's Eye Water, and am glad to say that it has done me a great deal of good. It very soon removed the inflammation, and is gradually removing the film. It is much easier on the eye than any other remedy I tried." I will

recommend it to any one I meet with suffering from sore eyes," etc.

Notice the name, "Dr. J. D. Kellogg's Eye Water," prepared only by Northrop & Lyman, Toronto. Sold by all medicine dealers. Price 25 cents per bottle.

Precept and Example.

Holiness is an unselfing of ourselves. Bear little trials patiently, that you may learn how to bear great ones.

There are more people who can forget themselves than govern themselves.

In Palestine they say that he who first becomes silent in a quarrel springs from a good family.

Character is higher than intellect. A great soul will be strong to live as well as strong to think.

Blessed is he who has found his work. Let him ask no other blessedness: he has a life purpose. Labor is life.

Trust him little who praises all, him less who censures all, and him least who is indifferent about all.

Reflect upon your present blessings, of which every man has many; not on your past misfortunes, of which all men have some.

A bad man is like an earthen vessel, easy to break and hard to mend. A good man is like a golden vessel, hard to break and easy to mend.

If, in instructing a child, you are vexed with it for want of adroitness, try, if you have never tried before, to write with your left hand, and then remember that a child is all left hand.

One should not say, "Let a younger man take my place." Let no one say, "I have taught enough, I must take a vacation." The only person who has right to take a vacation is the sexton.

GIVE Holloway's Corn Cure a trial. It removed ten corns from one pair of feet without any pain.

If anything will impress the human mind with awe, it is the impression of the man's face who has just been aroused from snoring in church.

AN old Scotch woman recommended a preacher who arrived at the kirk wet through to get at once into the pulpit—"Ye'll be dry enough there."

PLEASANT as sypur; nothing equals it as a worm medicine; the name is Mother Graves' Worm Exterminator.

HAWTHORNE wrote to a friend in 1861 in a letter which has just been made public: "The regrettable thing is that I am too old to shoulder a musket myself, and the joyful thing is that Julian is too young."

CAUTION.—This Cut represents our New Wrapper; take no other, and avoid all similar named articles, as they are worthless.

As it is sometimes objected that "this medicine cures too much," we will here say that the objection is not well taken. This being a preparation of Essential Oils, if there is any virtue in the plants from which they are distilled, you get it here. Inflammation exists in all cases of pain or soreness. This Oil reduces inflammation in less time than any other known remedy. This, together with its remarkable healing properties, is the secret of its great success. So confident was the originator of this article that it was something that the people would like and continue to buy, that he invested every dollar he had in it, and found it the best and safest investment he ever made. It is a combination of six of the best known medicinal oils, the remedial efficacy of which is not weakened by evaporation, since it contains no alcohol to render it volatile. On this account, as on many others, it is superior to all other liniments, lotions and

Lumbago, Lamé Back, Neuralgia, Diptheria, Croup, Coughs and Colds, Sore Throat, Piles, Frost-bites, Burns, Asthma, Catarrh, Glands, Corns, Tooth, Ear and Head Ache, Bruises, Wounds and Spains of every description on man or beast. Actually the best External and Internal Remedy known.

CURES RHEUMATISM.

all other remedies used externally, and has this further advantage that it is used internally as well. It is an incomparable specific for lameness, stiffness, burns, bruises, frost-bites, and other bodily troubles treated outwardly. Not only is it speedy and thorough in its operation, but perfectly safe, since it contains only the purest and most salutary ingredients.

Those of the gentler sex who have experienced the pain and annoyance caused by excoriated nipples and inflamed breasts, can well appreciate the value of a remedy which removes the trouble. This is precisely what *Dr. Thomas' Electric Oil* does.

RHEUMATISM.

Every one knows either by experience or hearsay that there is no more painful or lingering disease than Rheumatism. The sufferer cannot get rest either by day or night, as long as the pains continue. It is not confined to any particular rank in life, but visits alike the mansion of the rich and powerful and the cottage of the poor and lowly. For ages it has baffled the skill of our best physicians; but a remedy safe, cheap and effectual has at last been found, and those suffering the terrific twinges of Rheumatism welcome with delight the favorite household remedy, *Dr. Thomas' Electric Oil*. If you doubt our words read the following

CONVINCING PROOF:

Mr Henry Harding, of Toronto, writes: "My little daughter, seven years of age, has been a terrible sufferer this winter from rheumatism, being for weeks confined to her bed, with limbs drawn up, which could not be straightened, and suffering great pain in every joint of limbs, arms and shoulders. The best of physicians could not help her, and we were advised to try *Dr. Thomas' Electric Oil* which we did, and the benefit was at once apparent; after using two bottles, the pain left, her limbs assumed their natural shape, and in two weeks she was as well as ever. It has not returned."

Mrs. D. Morrison, Farnham Centre, P. Q., writing about *Dr. Thomas' Electric Oil*, says: "George Bell used it on his son, and it cured him of Rheumatism with only a few applications. The balance of the bottle was used by an old gentleman for Asthma, with the best results. It acts like a charm."

HOLLOWAY'S WORM { LOZENGES. CANDY.

One great cause of disease in the human family is to be attributed to Worms. They attack all ages, from the youngest up to the adult, but more frequently between the ages of three and ten years. They often produce alarming effects without being suspected. They are not only a cause of disease, but by their irritation aggravate all other diseases. Their presence deranges the whole system, causing the following

SYMPTOMS OF WORMS:

Indigestion, irregular appetite, moaning and restlessness during sleep, grinding of the teeth, swelling and hardness of the abdomen, with frequent slimy stools, countenance pale, picking at the nose, offensive breath, low spirits, irritable and feverish, frightful dreams, headache, pain in the stomach, urine turbid, convulsive fits, and a gradual wasting away of the flesh, etc. When any of these symptoms are noticed, do not delay in getting relief for the sufferer.

An excellent domestic remedy for Worms, and which is perfectly safe, is to be found in **Holloway's Worm Lozenges and Candy.**

They are vegetable compositions, and as easily taken by children as common candy, which makes them very desirable medicines to administer, especially to small children. They act specifically on the Worms, and are sure to kill and expel them from the stomach and intestines.

A single trial is sufficient to convince parents that these are excellent worm medicines, which will do the work thoroughly. They not only destroy worms but dissolve the superabundant slime or mucus so prevalent in the stomach and bowels of children. This mucus forms the bed in which worms produce their young; it is therefore very necessary that it be removed if you desire your children to be free from worms and in a healthy condition.

Holloway's Worm Lozenges are put up in large boxes and sold at 25 cents, and the Candy in sticks at 12½ cents. Full directions with each.

NORTHROP & LYMAN, TORONTO,
Proprietors for Canada.

DOMESTIC RECIPES.

APPLE TAPIOCA.—Core some tart apples; fill up the opening with butter and sugar; strew some sugar around them; put one dessertspoonful of dry tapioca to each apple. Put water around nearly up to the top of the apples; bake, and serve as above. It is better to soak the tapioca in the water over night, or at least for several hours.

BLANCHANGE.—Boil 2 oz. of French isinglass in 3 pints water for 20 minutes; strain this into 1 pint good cream, and let it simmer 5 minutes; add one glass of good peach water; sweeten, and strain through a sieve into a mould.

Do not delay in getting relief for the little folks. Mother Graves' Worm Exterminator is a pleasant and sure cure.

QUEEN CAKE.—Cream, 1 lb. sugar and ½ lb. butter; then stir in 5 eggs, well beaten, 1 wine-glassful of brandy and wine mixed, a little pounded cinnamon and grated nutmeg, 5 spoonfuls cream, and sift in ½ lbs. flour; stir all together, pour into tins and bake; ice.

RICE CAKE (GOOD).—½ lb. rice flour, 6 eggs, ½ lb. white sugar; beat all together for half an hour.

COMMON CHERRIES.—Stone the light colored common cherries, and to every lb. of fruit allow a lb. of sugar, which boil up with the juice; after you have skimmed, throw in the cherries, and let them boil till the syrup is rich.

THERE are a number of varieties of corns. Holloway's Corn Cure will remove any of them.

STRAWBERRIES WHOLE.—Pick off the stems carefully; to every quart of stemmed fruit add 1 lb. of finely powdered loaf sugar; sprinkle the sugar through them; let them stand 15 minutes, then put them into the same vessel over a very slow fire until the syrup begins to form; then put them over a very hot fire, and let them boil quickly for 15 minutes, being careful to remove all scum as it rises; then have ready stone jars, and put them boiling hot into the jars; fill them well up; have ready well-fitting corks, and place on the side next to the preserves a piece of linen; then seal up tightly; put the jars in a box and fill it with sand and keep it in the cellar. These, if prepared as directed, are finely flavored.

Darley's Condition Powders and Arabian Heave Remedy FOR HORSES AND CATTLE.

This is the only reliable internal remedy for all complaints incident to horses and cattle: Bots, Yellow Water, Purging, Surfeit, Mange, Colic, Colds, Coughs, Hildebound, Loss of Appetite, and all derangements of the Kidneys

and Digestive Organs. Also for Heaves and Broken Wind. It has restored to perfect soundness thousands of horses supposed to be broken down and almost worthless, all traces of disease having been completely removed, and afterwards having been sold from \$50 to \$100 more than they would have previously brought. It cleanses the breathing apparatus, equalizes the circulation of the blood, improves the appetite, corrects all derangements of the digestive organs, softens and loosens the skin, and gives to the coat a sleek and shining appearance.

Important to Owners of Horses.

The lungs in horses, as in the human race, are composed of numerous cells which run through every part of that organ. The internal surface of these cells is lined with a very fine, delicate and sensible membrane, on which the minute capillary branches of the pulmonary arteries and veins are copiously ramified, and it is while circulating in the small vessels of this membrane, and there exposed to the air, that the blood undergoes the change from the venous to the arterial state, which operation is continually going on, but is increased by exercise, and sometimes to such an extent as to cause some of these vessels to burst, emptying its contents into the air cells, which, unless removed, coagulates, fills many of the air cells, causing a difficulty of breathing, and the horse is broken-winded. It sometimes happens, though such instances are very rare in broken wind, that there is a rupture of the air cells in the lungs; in this case there is no cure.

HEAVES, the most prevalent complaint among horses, is an effusion of coagulable lymph in the air cells, which destroys their substance and impairs their elasticity.

From this cause the horse cannot admit so much air into the lungs as is sufficient to enable him to perform his functions; hence he breathes more frequently, accompanied with a violent heaving of the flanks, from whence arises the name of the disease. This complaint is common in this country,

and appears in various forms, being often mistaken for broken wind.

CHRONIC COUGHS generally proceed from colds badly treated, and not unfrequently lays the foundation for heaves. Sometimes it arises from worms, but it is often brought on by gross feeding, which, weakening the stomach, impoverishes the blood, and thus injures the lungs, which are fed by that blood.

ROARING, WHEEZING, &c., are all varieties of the above diseases, and have their seat in the upper part of the windpipe. They frequently exist without materially injuring the horse's wind, but ought to be cured, as such affections extend themselves to the lungs if allowed to take their course.

DARLEY'S CONDITION POWDERS

is confidently recommended, not only to prevent but also for the complete cure of the foregoing complaints. It cleanses the breathing apparatus by removing from the air cells the coagulable lymph, or that secretion which in heaves clogs them, causing a difficulty of breathing, and by its action on the diseased part causing the mucous membrane to assume its natural dimensions, thus equalizing the circulation of the blood and restoring the distended vessels to their natural size. By its use the horse's appetite is improved; all derangements of the digestive organs corrected, softening the skin and giving to the coat a sleek and shining appearance, and may be used with perfect safety at all times, as it contains no ingredients which can injure a horse whether sick or well. It may likewise be given to horned cattle as well as horses.

Price 25 cents. Sold by all medicine dealers.

NORTHROP & LYMAN, Toronto,
Proprietors for Canada.

DYEING.**General Remarks.**

1ST. SCOURING.—In order that the colors should be uniform, it is necessary to thoroughly cleanse the wool, yarn, or cloth from grease or dirt, by scouring with soft soap and hot water, afterward rinsing in clear, soft, warm water. When dried it is ready for any ordinary color, but if for any bright color, the goods should be passed through a "sour bath," consisting of enough vinegar or oil of vitriol to make the rinsing water taste sour. The purpose of this is, to destroy all traces of alkali from the soap, which would tend to deaden the shades.

2ND. KETTLES.—They should be large in proportion to the goods, as all the color is equally taken up from a large or small quantity of water, and with plenty of water there is better opportunity of handling and opening the goods, thereby preventing spotting. The Kettle should be of copper or brass, and perfectly clean. Iron is very unsuitable, unless enamelled; if the enamel is broken or worn off in spots it is useless.

3RD. WATER.—The water should be soft and free from soap.

4TH. COLORS.—Black will cover any other color, and any color may be put on a white ground, but generally the color to be made should be darker than that already existing. Scarlet will cover salmon, yellow and orange. Purple will cover light blue, orange and light green. Green will cover blue, yellow, pink, &c. Brown will cover drab, orange, purple and light green.

SCARLET (very superior).—Three ounces of cochineal, three ounces of cream of tartar, and four ounces of solution of tin; powder the cochineal and rub through a bag into blood-warm water sufficient to cover the yarn; when it is a little warm put in the cream of tartar, and simmer, then add your solution of tin; your yarn must be wet with clean water; steep it in the dye till the yarn is properly dyed. Dry your yarn before you wash it. This will color three pounds.

WINE COLOR.—One pound of wool, half a pound of red powder, one ounce of madder compound. Soak the powdered wood in warm water all night, mix the madder compound with about half a pint of water (in a glass), and add it to the rest; rinse the wool in warm water and put it in the dye; boil about half an hour; take out the wool and rinse it in cold water. A color almost as fine may be had by using a quarter of a pound of alum, and boiling in the same way.

GREEN.—For five pounds goods use five pounds fustic and eighteen ounces alum. Soak in water until the strength is extracted, put in the goods until of a good yellow color, remove the chips and add extract of indigo in small quantities at a time until the color is satisfactory.

PINK.—For every three pounds of yarn or cloth take three and a half quarts of water, or enough to cover the article you wish to color, two ounces of cochineal, and half an ounce of cream of tartar; steep the cochineal in warm water two hours, or until the strength is entirely extracted, and add the cream of tartar; then wet the cloth in clear water, wring it out and put it in the dye—bring it to a scalding heat, let it remain in a few moments, and it will be finished.

BLACK ON WOOL, SILK OR COTTON.—For every pound of cloth, it will require one ounce of extract of logwood and half an ounce of blue vitriol. Prepare an iron kettle with a sufficient quantity of water to admit the yarn or cloth to be worked in the dye, without being crowded; bring the water to a scalding heat, then put in the yarn or cloth a few minutes; when it is thoroughly wet, take it out and drain it; in the next place add the blue vitriol, and when dissolved and the water skimmed carefully, put in the material to be colored, and let it remain half an hour at a scalding heat, airing it occasionally; then take it out and rinse it in soft water; the vitriol water may be emptied into a separate vessel, and the extract of logwood dissolved in a sufficient quantity of water, brought to a scalding heat, and skimmed; put in the cloth, keeping the dye in the same temperature, and let it remain half an hour, airing it frequently; then take it out and drain it; add the vitriol water to the dye, and put it in again; let it remain fifteen minutes, airing as before. Cleanse it well. For cotton, add a little common glue.

MADDER RED.—Take one pound of madder for every two pounds of yarn or cloth; soak the madder in a brass or copper kettle one night in warm water, enough to cover the yarn you wish to color; next morning put in two ounces of madder compound for every pound of madder which you have soaked, then wet your yarn or cloth in clean water, and wring it out in clean water; afterwards put in the dye; now place the kettle over the fire and bring it slowly to a scalding heat, which will take about half an hour; keep it at this heat half an hour if a light red is wanted, and longer if a dark one, the color depending upon the time it remains in the dye. When the color is made, rinse the cloth immediately in cold water; it will then be finished.

YELLOW.—One pound of wool or cloth, three-quarters of a pound of fustic, quarter pound of alum; put all into an earthen vessel and pour on sufficient hot water to cover the wool and keep it warm all night; give it half an hour's boil in a brass kettle, and then rinse in cold water. A much deeper and richer yellow may be had by using turmeric powder instead of fustic, and proceeding in the same manner.

(Continued on page 21.)

PERSIAN BEAUTIFIER.

For Beautifying and Preserving the Complexion, Removing Tan, Sunburn, Freckles, and all Roughness of the Skin.

If a lady wishes to surround herself with admirers, she must not neglect her personal appearance. Beautiful women have been worshipped in all ages, and from present appearances are likely to be while the world lasts; and although some men may talk against the arts employed for retaining the freshness of youth, it is a fact that these same men are the first to withdraw their admiration of a lady if she is foolish enough to neglect her toilet by omitting the means placed within her reach for enhancing her beauty. As it is therefore so very necessary for the ladies to have a preparation of intrinsic value on their toilet, one that will give them perfect satisfaction and that is entirely free from anything poisonous or injurious to the skin, we would recommend them to use the PERSIAN BEAUTIFIER, and they will find a boon which has long been looked for.

It removes tan, freckles, pimples and roughness from the skin, leaving the complexion fresh, transparent and smooth, and imparting that bloom to the cheek which is the desire of every lady and the admiration of the sterner sex.

The PERSIAN BEAUTIFIER changes the sunburnt face and hands to a pearly, satin texture of rare beauty, imparting the marble purity of youth and the distinguished appearance so inviting in the city belle of London. Price, 50 cents per bottle.

NORTHROP & LYMAN,
Sole Agents, Toronto.

DOMESTIC RECIPES.

TO MELT LARD IN A SUPERIOR MANNER.—Take the inner set of a newly killed pig, and strip off the skin completely and carefully, slice it and put it into a jar, and set the jar in a pan of boiling water; let it melt, and when perfectly fluid pour it into dry, clean jars, and cover them closely; it may be kept some time in a dry place, and when used may be mixed with butter for pastry, for frying fish, and many other purposes in cooking.

COLD MEAT TURNOVERS.—Make a little dough of patent flour; roll very thin in a circle, and put in like a turnover; cold meat chopped fine, and seasoned with salt, pepper, catsup, and sweet herbs; either fry in lard or bake in an oven.

BOLOGNA SAUSAGES.—Chop very fine 10 lbs. of lean, juicy beef, 2½ lbs. of fat, fresh pork, cut into very small pieces with a knife not chopped, ¼ oz. pounded mace, the same of pounded cloves, and 2 oz. of ground black pepper; mix these well, stuff this mixture lightly into the straight gut of the beef; make each one about 12 inches in length, and tie both ends closely, put them into a ham brine for four or five days, and then press it for a day or two to make it firm, and smoke for a week. They must be kept in a dry place, and will improve by age, and when a year old they are excellent.

FRICASSEED POTATOES.—Pare, and slice half an inch in thickness, the required quantity of potatoes; put them into a clean sauce-pan, pour over them cold water enough to half cover them, close the pot tightly, and let them cook 15 minutes; drain off every drop of water, have ready ½ a pint of cream or new milk, a large spoonful of good butter, a teaspoonful of chopped parsley, and some salt; pour this over the potatoes, shake them around, and just heat up. Serve hot.

SALSIFY, OR OYSTER PLANT.—Wash and scrape the salsify, boil it tender, then drain it dry, and mash it; have ready bread crumbs, make the oyster plant into cakes, roll it in the crumbs, and fry them a nice brown.

COLD SLAW.—Select a white, hard head of cabbage cut it in two, and lay it in water for an hour; when ready shave it with a cutter or sharp knife, very finely; put ½ a pint of vinegar on to boil, beat up the yolk of an egg with a little salt and cayenne, pour the boiling vinegar on the yolk, stir it well and pour it over the cabbage.

TOMATO OMELET.—Pour boiling water on the tomatoes, skin and cut them fine; to one quart of this put 2 chopped onions and a lump of butter the size of an egg; let them boil ½ an hour, then mash them, put in grated bread, pepper, salt, and the yolk of two eggs.

NORTHROP & LYMAN'S

POROUS

STRENGTHENING PLASTERS.

 THESE plasters are made with a combination of gums and balsams, the healing properties of which are well known and acknowledged by all our leading physicians. They have a peculiar effect on the nerves, and are of immense value in curing Pain or Weakness in the Breast, Side, Back or Limbs, also for Rheumatism, Liver Complaint, Coughs, Colds, Asthma, Difficulty in Breathing, Oppression of the Stomach, &c., in all which cases they give soothing and almost immediate relief. They also strengthen, support and aid the growth of muscles, allaying pain and uneasiness, while possessing all the warming and sustaining qualities of all other plasters combined.

For Paralysis they are used with good effect; they seem to accumulate electricity and aid the circulation of the blood through the part where applied, by which healthy action is induced. The great benefits derived from NORTHROP & LYMAN'S POROUS STRENGTHENING PLASTERS may be said to depend upon the fact that they invigorate the circulation of the blood around the part upon which they are applied, facilitating the change of material, and nature is thus assisted in repairing any accident, or want in the part, whether it be in the ligaments, muscles, nerves, skin or bones.

Persons troubled with Weak Backs, Spinal Affections, Pain in the Side, Lumbago, Sciatica, Kidney Complaints, &c., should never be without these plasters; they are of incalculable value, soothing and keeping the parts affected from the cold; strengthening and sustaining, they never fail to have the desired effect. They are very adhesive, and no inconvenience is felt while wearing them.

They do not blister or irritate the skin like many other plasters; on the contrary, they allay pain, heal the part affected, and stimulate, soothe and bring comfort and rest to the afflicted.

The great value of Porous Plasters as a means of relief from pain and disease, has been fully demonstrated in their use by physicians and families. They allow a free evaporation of moisture from the skin, and are worn with perfect ease and comfort.

To enumerate all the diseases that can be cured or relieved by a proper application of these plasters, would be simply a task of naming all the various local ills that human flesh is heir to.

The Porous Plaster opens the pores, stimulates respiration, and thereby accelerates the flow of blood through the parts affected, simply because the waste matter is removed which formerly clogged up or compressed the small veins that conveyed the blood back to the heart.

Some people ask how long they should wear a plaster. We advise wearing it long enough to effect a cure, and no longer. If they are worn longer they render the skin delicate and sensitive, and the person is more liable to catch cold.

NORTHROP & LYMAN,
Toronto, Proprietors.

ROOTED SORROW—An aching tooth.

A CHILD OF THE SEA—A harbor buoy.

THE MINISTER OF THE INTERIOR—The mouth.

THE MOST USEFUL THING IN THE LONG RUN—Breath.

PLAIN SAUCE—An interview with a Saratoga hotel clerk.

WILD oats are said to be the only crop that grows by gaslight.

WHEN does a man impose upon himself? When he taxes his memory.

THE best fire escape is when your wife gets up in the morning and makes it.

It's never too late to mend, except when a stocking is worn away in the instep.

If a pair of spectacles could speak, what historian would they name? Eusebius.

WHY are Cashmere shawls like deaf people? Because they cannot make them hear.

"It seems to me," said a customer to his barber, "that in these hard times you ought to lower your price for shaving." "Can't do it," replied the barber. "Nowadays, everybody wears such a long face, that we have a great deal more surface to shave over."

HOLLOWAY'S CORN CURE!

FOR THE REMOVAL OF ALL KINDS OF
CORNS, WARTS, ETC

SAFE, SURE, AND ECONOMIC.

A corn is simply a thickened cuticle or scarf skin, and is produced by a continuous uneven pressure, such as wearing tight or ill-fitting boots or shoes. If not attended to promptly, they gradually sink into the mucous network, and then into the true skin, which is the organ of touch. They cause intolerable pain, and sometimes inflammation to such an extent as to form an abscess.

For the Cure of Corns there is Nothing Better than "Holloway's Corn Cure."

Since the introduction of this medicine, it has given remarkable satisfaction. It removes these troublesome excrescences without pain or inconvenience, and is not injurious to the skin. It is safe, sure and effectual, consequently destroys them root and branch. There is no corn existing that it will not cure, if the directions are followed. Give it a trial and you will not regret doing so.

What it has Done.

Mrs. GEORGE SIMPSON, Toronto, says:—"I have suffered severely with corns, and was unable to get relief from treatment of any kind until I was recommended to try *Holloway's Corn Cure*. After applying it for a few days I was enabled to remove the corn, root and branch—no pain whatever, and no inconvenience in using it. I can heartily recommend it to all suffering from corns."

A FIELD OF CORNS.—Thomas Sabin, of Eglington says: "I have used *Holloway's Corn Cure* with the best results, having removed ten corns from my feet. It is not a half way cure or reliever, but a complete extinguisher, leaving the skin smooth and clear from the least appearance of the Corns." Price, 25 cents per bottle.

NORTHROP & LYMAN,
General Agents, Toronto.

DOMESTIC RECIPES.

TO CURE MUTTON HAMS.—Take 4 mutton hams or legs of mutton, good, tender and rather fat meat, and mix for them a quart of salt, $\frac{1}{2}$ lb. of coarse brown sugar and 1 oz. of saltpetre; mix these well together, and rub the hams with the mixture for a considerable time; then put them in a tub or tray; rub them with the brine they yield every other day for 12 days; then wipe them carefully and hang them in the smoke house, the thick end upward.

SIMPLE PASTE.— $\frac{1}{2}$ cups shortening to 4 cups flour; chop fine in the chopping dish; add cold water enough to mix, chop well, then roll out.

ICING FOR PASTRY.—Beat up the whites of 2 eggs to a very stiff froth; lay some of the froth with a feather on the pie when cooked; over this thickly sift pulverized loaf sugar; smooth it down with a broad bladed knife; then sprinkle a little cold water over it to dissolve the sugar; set the pie again in the oven to dry; when the sugar is crusted, which will be in a few minutes, remove it and serve cold.

CHICKEN POT PIE.—Cut up one large chicken; grease a dinner pot with lard, roll out crust enough of "plain crust" to line it, cutting out the bottom; as you put in the pieces of chicken, strew in flour, salt and pepper, a few pieces of the crust rolled thin, and a few potatoes; cover this with water, and put on it a covering of paste, with a slit in the middle; let this cook slowly two hours; have hot water at hand to add in case it be too dry. Veal, lamb, etc., may be made thus; also peach or apple pot pie.

BAKED APPLE DUMPLING.—Prepare a paste as for boiled dumplings, only instead of one larger one make several small ones; avoid lapping the paste as much as possible after the fruit is introduced; butter the pan in which they are baked to prevent their sticking; lay the folded side down; bake three-quarters of an hour; serve hot; eat with cream.

A LIGHT BATTER PUDDING.—Beat very lightly as directed 10 eggs; when light stir in 12 tablespoonfuls of sifted flour with a knife; to this add one quart of good new milk and a little salt; stir well, and pour into a floured bag; put into boiling water, and boil $1\frac{1}{2}$ hours.

ICE CREAM.—2 quarts cream, 2 tablespoonfuls of arrowroot, 1 lb. sugar; flavor with vanilla extract or other flavor as desired.

CHERRY MARMALADE.—Select ripe, juicy, sour and sweet cherries; stem and stone them with care; to 1 quart of pulp and juice add 1 lb. sugar; mix these well together and put into the kettle; set it in a warm place to slowly heat, and simmer for $1\frac{1}{2}$ hours; then put it into jars; cover with care, and cork tightly.

Elixir of Beef, Iron and Wine.

THIS valuable preparation combines in a pleasant and agreeable form all the stimulating and nutritious tonic properties of the above-named ingredients. As a nutritious tonic it will be found valuable in the treatment of Impaired Nutrition of the Blood, and in all the various forms of *General Debility*.

The restoring and invigorating properties of NORTHROP & LYMAN'S ELIXIR OF BEEF, IRON AND WINE, combined with its power to vitalize and enrich the blood, render it peculiarly adapted for *delicate ladies* and persons prostrated by illness. It is a very pleasant tonic, one that will brace the whole system, strengthen and invigorate the tone of the nervous system, and thus, by the general vigor which it imparts, create an appetite and restore the weak and broken-down to health and strength.

Price \$1.00 per bottle. Prepared by

NORTHROP & LYMAN, Toronto.

HORSES AND CATTLE.

The noblest of the brute creation, when suffering from a cut, abrasion, or sore, derives as much benefit as his master in a like predicament, from the healing, soothing action of Dr. Thomas' Electric Oil. Lameness, swelling and stiffness of the joints, are relieved by it.

It cures Horn Distemper and Garget in Cows; a few applications cure cracked Teats; for the last named it is especially good. For Horn Distemper put half a teaspoonful in each ear, and pour a little back of the horns.

Mr. W. R. Lazier, Bailiff, etc., Belleville, writes: "I find Dr. Thomas' Electric Oil the best medicine I have ever used in my stable. I have used it for bruises, scratches, wind puffs and cuts, and in every case it gave the best satisfaction. We use it as a household remedy for colds, burns, etc., and it is a perfect panacea. It will remove warts, bring them down and applying it occasionally."

P. M. MARKELL, W. Jeddore, N. S., writes: "I wish to inform you of the wonderful qualities of Dr. Thomas' Electric Oil. I had a horse so lame that he could scarcely walk; the trouble was in the knee; and two or three applications completely cured him."

Mrs. O'Hearn, River St., Toronto, uses Dr. Thomas' Electric Oil for her cows for Cracked and Sore Teats; she thinks there is nothing like it. She also used it when her horses had the Epizootic, with the very best results.

Mr. GEORGE HEFFER, Lesleville, says his horses had the Epizootic, and Dr. Thomas' Electric Oil cured them. He cannot speak too highly of its virtues; it is a splendid article for Lameness, Cuts, etc., and he would recommend it to all requiring such an article.

EVERY household has its acrobats—a pitcher and a tumbler.

To "BONE" A TURKEY—Take it when the poulterer is not looking.

Why are jokes likenuts? Why, the drier they are, the better they crack.

THE sentinel who did not sleep on his watch had left it at the pawnbroker's.

CHILDREN are like bolts. Everybody knows how to take care of those that belong to other people.

WHAT is the difference between a belle and a burglar? One carries false locks and the other false keys.

"I'm a broken man," sighed a dilapidated author. "I should think so, for I've seen your pieces," responded a bystander.

DOUBTLESS the reason why the Jews caught their fish mostly by nets, was because Moses expressly stated to them before they crossed the Jordan that they could not have any Moabites there.

It is said that "Marian, the Amazon queen," who is now exhibiting in Glasgow, measures eight feet high in her stockings. Pretty long stockings; but why don't they give us her full height?

A RECENT writer says, in his advice to young women, that their Mother Eve married a gardener. It might be added that the gardener, in consequence of his match, lost his situation.

A FELLOW who occupied a berth directly over a lawyer began to grow restless. The lawyer, noticing that his restlessness increased, asked, "I say, are you a fool?" "No, sir, I am above a fool."

DOMESTIC RECIPES.

FRICASSEE CHICKEN.—Cut up a large fowl, stew in water, covered close, till tender, seasoning it with salt and pepper. Thicken the water with flour and butter; pour in some cream, boil and dish it.

CAPER SAUCE.—Put some capers in your butter-boat, and pour drawn butter over them. Nasturtions make almost as good a sauce as capers, and are prepared in the same way, a few of them pickled and put in a butter-boat, and drawn butter poured over them.

PICKLE FOR BUTTER.—To 3 gallons of water put 1 pound of salt, or enough to float an egg; $\frac{1}{2}$ a pound of sugar, 2 oz. of salt-petre.

PICKLED CUCUMBERS.—To 1 peckful of soft water put 1 quart of salt. Make this pickle scalding hot every other day, and pour it on the cucumbers nine times, which is generally often enough to yellow and green them. We always throw away the first pickle when they are all yellow, and make a new one to green them with. When they are green, pour on them vinegar scalding hot (with a little mustard seed, if you choose). Keep in a dry and cool place, tightly covered.

PICKLED CHOW-CHOW.— $\frac{1}{2}$ of a peck of green tomatoes, $\frac{1}{2}$ of a peck of white onions, $\frac{1}{2}$ of a peck of pickling beans, 1 dozen each green cucumbers and green peppers, one large head cabbage. Season with mustard, celery seed, salt to suit the taste. Cover the mixture with the best cider vinegar. Boil two hours slowly, continually stirring; and add two tablespoonfuls of sweet oil while hot.

DR. NASH, of Forest, writes: "Having used Dr. J. D. Kellogg's Asthma Remedy myself, I am happy to bear testimony to its efficacy. It gave immediate relief whenever used, and always a good night's rest; the cough after a few days became quite loose, and the disease disappeared entirely in the course of about three weeks. I would strongly recommend it to all afflicted with this miserable disease, as I am confident it will bring immediate relief to all, and I believe a permanent cure to a largo majority."

PICKLED BEANS.—Procure young ones from the late crop; boil them in water slightly salted, till tender; throw them in a colander with dish over to drain; when done dripping, lay them out on a dry cloth and wipe. Pour boiling vinegar, spiced, over them, and you have an excellent pickle. These are delicate for tea.

APPLE CUSTARD.—Take about equal parts grated apples, sweet or sour, and milk; sweeten to taste, and bake in deep pans on a crust. A little nutmeg and rose water may be added.

TOMATO CATSUP.—To $\frac{1}{2}$ bushel of tomatoes, after they are strained through a sieve, add $\frac{1}{2}$ of an oz. ground mace, the same of ground ginger and ground cloves, half the quantity of cayenne pepper, and a small teacupful of salt; the juice must boil two-thirds away, and then the above ingredients added, after which it must boil half an hour.

UNIVERSAL PICKLES.—To 3 quarts of vinegar add $\frac{1}{2}$ lb. of salt, $\frac{1}{2}$ lb. of ginger, $\frac{1}{2}$ oz. of mace, one teaspoonful of cayenne pepper, 1 oz. of mustard seed; simmer these with the vinegar, and when cold put into a jar. You may put in whatever green fruit or vegetables you may choose from time to time.

O. E. COMSTOCK, Caledonia, Minn., writes: "I was suffering the most excruciating pains from inflammatory rheumatism. One application of Dr. Thomas' Electric Oil afforded almost instant relief, and two bottles effected a permanent cure."

PICKLED PLUMS.—4 quarts of plums, 1 quart of vinegar, 1 lb. sugar; boil the vinegar, spices, and sugar together, and then put in plums and boil a while longer.

CUP PUDDING.—1 pint of milk, 6 tablespoonfuls of flour, 3 eggs, a little salt. Bake as long as a custard.

LEMON PIE.—Grate the rind of a lemon, and cut the pulp fine, beat the yolks of 2 eggs, 1 cup of sugar, $\frac{3}{4}$ cup of water. Beat the whites of the eggs, and stir in 2 tablespoonfuls of sugar; spread on top of pie, and brown in the oven.

RAW CATSUP.—1 peck of ripe tomatoes, peel and slice; strew in a cup of salt in alternate layers of tomatoes, let it stand overnight, then drain off all the juice, chop fine, then add a tablespoonful of pepper, cloves, allspice and a little cayenne pepper, 1 lb. brown sugar, 1 quart of good vinegar. Bottle for use.

OATMEAL GRUEL.—1 teacupful of cold milk, 1 coffee-cupful of oatmeal, $1\frac{1}{2}$ cup of boiling water poured on. Stir well and stand a minute or two; strain, and let come to a good hard boil. Sugar and salt to taste; add a little butter.

BELLA'S CREAM PIE.—1 cup sugar, 1 cup flour, $\frac{1}{2}$ cup water, 2 eggs, 1 teaspoonful baking powder. Bake in two jelly tins. Cream: 1 cup of milk, 1 egg, 1 tablespoonful of corn starch, and 1 of sugar. Cook in farina boiler.

THE Star Dyes are unexcelled for cheapness, and brilliant fast colors.

PLUM CATSUP.—5 lbs. fruit; boil and strain; 3 lbs. sugar, 1 pint vinegar, 1 tablespoonful cinnamon, cloves, allspice, pepper, $\frac{1}{2}$ tablespoonful salt.

CRULLERS.—1 cup sugar, 2 tablespoonfuls each of cream and butter-milk; 2 eggs; soda to make it swell. Nutmeg.

**Mrs. Hilton's Chemical
HAIR INVIGORATOR.**

Within the last ten years the pretended discoveries of compounds and preparations to preserve the hair, and also for restoring it to the head in bald places, have been as numerous as they have proved useless. Many of these discoverers knew as little of the nature of the hair and the cause of its falling off, and what would benefit it at such times, as they did of the origin of man and his diseases; their object being simply to make money as long as their preparations would sell for the time being, and not for an enduring reputation or the value of their remedies.

**Mrs. Hilton's Chemical Hair
Invigorator**

is presented to the world with a firm belief that as a beautifier and healthy restorative of the hair, it will be found on trial unequalled.

Hints on Diseases of the Hair.

Baldness arises from several causes, but chiefly from cutaneous scurf that has its origin in a diseased state of the blood, which, if not eradicated, occasions the loss of the hair.

In such cases frequent application of the CHEMICAL HAIR INVIGORATOR, as a wash and emollient, preserves the roots by its healthy and curative action upon the minute blood vessels which surround and nourish the hair, and destroys the disease which, if left unchecked, must occasion final baldness.

There are other causes of the falling out of the hair which it is needless to enumerate, they all having one origin.

The only preservative against losing the hair from old age is constant attention, and the application of such stimulants as the CHEMICAL HAIR INVIGORATOR, which nourishes the roots, and by its use may be preserved vigorous to extreme old age.

**Merits of the Chemical Hair
Invigorator.**

It prevents baldness, removes dandruff and cutaneous scurf, and keeps the hair in its natural color.

It contains no substance that will clog the pores, inflame the skin and stop the growth of the hair, but contains real nourishment for the vessels from which its roots spring. It should be used freely according to the directions on each bottle, and the result will be speedily beneficial. The hair needs a stimulant, and excitement of the skin causes that stimulant.

The CHEMICAL HAIR INVIGORATOR must be rubbed on hard and well, otherwise it loses half its power and efficacy.

To Females.

The Invigorator is to ladies pre-eminently useful; loss of hair is often occasioned to them by complaints peculiar to the sex. In all such cases use the Invigorator promptly and thoroughly, and the hair will return in all its original strength.

For CHILDREN AND INFANTS whose hair may seem weak or thin, mothers can apply nothing better. It removes the scurf which is so apt to cause weakness of the hair in young people, and which if neglected continues to render the roots of the hair less productive the further they advance in age.

NORTHROP & LYMAN, Toronto, sole agents for the Dominion. Sold by all druggists and perfumers.

PRICE, 25 CENTS PER BOTTLE.

The man who is in the wrong uses hard words and soft arguments, while the man who is in the right uses soft words and hard arguments.

For the man she loves, a woman will sacrifice everything—home, friends, fortune—even her heart's blood; but if he asked her to wear her winter bonnet in April she would scratch his eyes out.

HERE is one of the recent sayings of Dr. Talmage: "When we find a man contemptuous of labor, and acting as though he never worked at all, and as though his ancestors had never worked, we make up our mind that if we go a little farther back in that man's ancestral line we will run against a scavenger's cart or upset a soap-boiler's kettle."

Northrop & Lyman's Quinine Wine

The best Appetizer and Tonic known.

And in such diseases as

Fever and Ague, Intermittent and Billious Fevers, Dyspepsia, Nervous Affections, Convalescence from Exhausting Diseases, and Functional Derangement of the Stomach,

It will be found unrivalled. The remedies frequently prescribed for Fever and Ague have reference only to preventing the paroxysm or breaking the chill, without regard to the condition in which the system may be left after the chills have been removed; whereas the mere suppression of the paroxysms in reality is but a small part of what is required to perfect a radical cure.

The various organs of the body, more especially of the stomach and liver, must be brought into a healthy condition, otherwise a relapse will be the result. The true reason, therefore, why relapses of Fever and Ague are so frequent is that the causes of the disease have never been thoroughly eradicated from the system.

This preparation combines all the medicinal virtues of those articles which long experience has proved to possess the essential qualities of a tonic in building up the weak and nervous system.

It excites the Digestive Organs to a new and healthy action, and exhibits its most important therapeutical powers as an antiperiodic, and is to be preferred to most other medicines as a tonic, being less obnoxious to the stomach and intestines.

After its administration the general system becomes more or less influenced, the pulse being fuller and more rapid, and a gentle stimulus imparted to the various organs of the body.

NERVOUS PERSONS

After using it for a short time will find their appetite improved, their spirits become more cheerful, sleepless nights, twitching of the muscles and trembling of the limbs will all disappear, and they will feel and know that every fibre and tissue of their body is being braced and renovated.

PERSONS OF A WEAK CONSTITUTION

May take it without the least difficulty, as it contains NOTHING INJURIOUS to the most delicate constitutions.

The following letters have been received from patients who have used it, and are ready to testify to its merits at any time:

Mrs. W. R. TULLY, McKellar, Ont., writes: "For the past two or three years I have been troubled with weakness and loss of appetite, and being recommended by a friend to try Northrop & Lyman's Quinine Wine, I procured two bottles, and it gives me the utmost pleasure to say that it has done me more good than what is claimed for it. I do, without hesitation, recommend it to all who are sufferers from like complaints."

Mr. M. M. WHITCRAFT, Manager for G. G. Green, 37 Front Street East, Toronto, writes: "My wife suffered many years from prostration of the nervous system, without receiving much relief until I tried your Quinine Wine, and I am happy to say that it has been of great benefit to her in restoring the vital powers, and also as an appetizer, and I would freely recommend it to all suffering from nervous debility."

Mr. E. T. MULLIGAN, Toronto, writes: "In gratitude to you for what your most valuable medicine, 'Quinine Wine,' has done for my wife, I wish to express my best wishes, and hope that all sufferers from disease to which your medicine is adapted will not hesitate in resorting to its use. My wife having been troubled with general debility, and having no appetite or relish for her food, I procured a bottle of your Quinine Wine, and after submitting it to our family doctor, he told me he could prescribe nothing better. Thanking you for what it has accomplished, I am, etc."

Mrs. WILLIAM SHELTON, 32 Stafford Street, Toronto, writes: "I beg leave to acknowledge the good I have received from the use of your most valuable medicine, Quinine Wine. For the past two or three years I have been subject to weakness and loss of appetite, and being recommended by a lady friend to try your Quinine Wine, I procured a bottle from my druggist, and it gives me the utmost pleasure in informing you that it has done me more good than what is claimed for it. I do, without hesitation, recommend it to all sufferers from like diseases."

COLORING RECEIPTS.

(Continued from page 13.)

CRIMSON.—Use one pound of lac dye, together with two ounces of madder compound, to every two pounds of cloth or yarn. Soak the lac dye over night in a brass or copper kettle, then add the compound and stir; then the cloth, and bring your dye slowly to a scalding heat; then vary the time as you wish the color. If dark, let it remain some hours; if not, one hour: then rinse in soft water without soap.

BROWN.—For each pound of wool, take a quarter pound of alum and two ounces of cream of tartar, and boil for half an hour. Take half a pound of red powder, quarter pound of fustic, and two ounces of logwood chips; soak these a night in sufficient warm water to cover the wool; take the wool out of the alum water, and boil with the woods for about half an hour. If a dark brown is wanted, add about a table-spoonful of coppers.

CHEAP BROWN FOR WOOL OR COTTON.—For ten pounds goods, take half pound japonica, one ounce blue vitriol, two ounces bichromate of potash; put the japonica into four gallons of soft water, boil until dissolved, add the blue vitriol and stir well; put in the goods and keep at boiling point for two hours; wring out and put into the solution made with the potash, let it remain for half an hour, then wash in soap suds.

WINE COLOR.—For five pounds goods take one pound of camwood, boil twenty minutes, dip the goods one hour, boil again and dip forty minutes, then darken with one and a half ounces blue vitriol, and should you wish it darker, add half pound coppers.

PURPLE.—For ten pounds of goods use three-quarters pound alum, one terecup muriate of tin, pulverized cochineal quarter pound, cream of tartar quarter pound. Boil the alum, tin, and cream of tartar for twenty minutes, add the cochineal and boil five minutes; immerse the goods two hours, remove and enter them in a new dye, composed of Brazil wood, three-quarters pound; logwood, one and three-quarters pound; alum, one pound; muriate of tin, two cupfuls, adding a little extract of indigo.

ORANGE.—For ten pounds goods, use sugar of lead half a pound, boil fifteen minutes; when a little cool enter the goods and dip for two hours, wring out, make a fresh dye with bichromate of potash, one pound; madder, one quarter pound, immerse until of the desired shade. The shade may be varied by dipping in lime water.

INDIGO (for silk).—For one pound of silk use archil, one and a half pounds. Mix it well with the liquor, make it boil quarter of an hour, dip the silk quickly, then let it cool, and wash in soft or river water

LIGHT SILVER DRAB.—For five pounds of goods, use one and a half ounces of logwood; alum, one and a half ounces. Boil well, enter the goods and dip for one hour. Grade the color to any desired shade by using equal parts of logwood and alum.

GREEN.—For every pound of yarn or cloth, add three and a half ounces of alum and one pound of fustic; steep to get the strength, but not boil; soak the cloth until it acquires a good yellow color; throw out the chips and add the indigo compound slowly, until you have the desired shade of green. An ounce or more of the compound is required for the above quantity, varied according to the depth of shade.

BLUE.—A splendid blue may be produced in an hour by the following process:—For each pound of wool or cloth take two and a half ounces of alum and an ounce and a half of cream of tartar. Boil these together in a brass or copper kettle for about an hour; now take sufficient warm water to cover the cloth or wool, and color it to the shade you wish with the liquid blue; put the whole into the copper pot and boil it a short time, taking care to keep it stirred; remove the cloth and rinse in clear cold water, and hang it up to dry.

SALMON.—Take one pound of wool, a quarter of a pound of annatto, and a quarter of a pound of soap. Take water sufficient to cover the wool; in which dissolve the annatto and soap; rinse the wool in warm water, put it into the annatto mixture and boil about half an hour. The shade may be made lighter or deeper according to the quantity of annatto used.

PURPLE.—For every pound of yarn or cloth, take two ounces of cudbear, rinse the cloth well in soap suds, then dissolve the cudbear in hot suds (not quite boiling), and soak the cloth till of the required color. The color is brightened by rinsing in alum water.

ORANGE (on cotton).—For one pound, take two ounces sugar of lead and one and a half ounces of bichromate of potash. Dissolve each separately in just enough boiling water to cover the cotton, and dip it alternately from one to the other three times, or until the desired shade is obtained.

BLUE (on cotton).—For one pound take two ounces of coppers, dissolve it in sufficient boiling water, put the cotton in, and let it soak one hour. Dissolve three-quarters of an ounce of prussiate of potash in same quantity of fresh boiling water, and add half an ounce of sulphuric acid (by weight), then dip the cotton alternately from one to the other three times, or until the desired change is obtained, and rinse well with cold water.

GREEN (on cotton).—Dip the cotton colored blue into the orange dye.

PINK (on cotton).—For five pounds, take two pounds of nicwood and four ounces solution of tin; put the cotton in and let it remain till the shade suits.

Read what one of THE BEST FARMERS of Wayne Co., N. Y., says:

Messrs. Northrop & Lyman, Toronto.

GENTLEMEN,—After I commenced my spring work in 1881, I found that in a few hours I was so dired that I was obliged to stop and rest; still I kept on until I strained my hip and the ligaments of the hip joint became inflamed, and my limb and foot were swollen; very cold, and the pain severe. I was obliged to keep very quiet for months, could scarcely go from one room to another. In consequence of keeping so still, my stomach, bowels, kidneys and liver became deranged. I had no desire for food, my general health very poor. In the spring of 1882 I had three attacks of inflammation of the bowels; then dizziness set in; my urine was highly colored and thick with brick dust sediment; at other times it had a whitish appearance, and a thin scum would rise on the top. My bowels were torpid with unnatural passages. The pains in my hip joints, back, bowels and bones were at times excruciating. I took a course of medicine from our Homœopathic Physician without benefit, then I tried our oldest Allopathic Physician with no better success. About this time a lady came to visit us, and told me about the benefit she derived from Northrop & Lyman's Vegetable Discovery, and advised me to send for some. I concluded to do so, and before I had taken it three days I could see a decided improvement; my appetite began to revive, my urine to clear up, and discharge from the bowels became more natural. At first I could take but a very small dose, my bowels were so weak. I am now taking my third bottle, have gained eight pounds of flesh, and am still improving.

HENRY COLTON,
Nowark, N. Y.

Be kind to your mother-in-law, and, if necessary, pay for her board at some good hotel.

"KISSIMMEE" is the name of a thriving town in Florida. Young ladies living there do not dare to name the place of their residence in the hearing of strangers.

DOMESTIC RECIPES.

MOLASSES CANDY.—1 cup of molasses, 2 cups of sugar, a piece of butter the size of a walnut, 1 tablespoonful of vinegar, $\frac{1}{2}$ teaspoonful of vanilla.

SUET PUDDING.—1 cup sour milk, 1 cup suet, $\frac{1}{2}$ cup sugar, 1 cup raisins, 1 cup molasses, 1 teaspoonful soda, 1 egg; flour to make a stiff batter. Steam 3 hours.

GINGER SNAPS.—2 cups molasses (boiled), 1 cup sugar, 1 cup butter, 2 teaspoonfuls soda, 1 teaspoonful each of alum, ginger and cinnamon.

QUEEN'S CAKE.—1 lb. each flour and sugar, 1 . butter, 1 lb. raisins, 1 gill brandy, 1 gill cream, 4 eggs, 1 nutmeg; beat the butter and sugar together; beat the yolks and whites separately; mix all the ingredients except the fruit, which must be put in just before putting in the oven. Bake in two 3 pint basins; bake $1\frac{1}{2}$ hours

SPONGE CAKE.—10 eggs, 1 lb sugar, $\frac{1}{2}$ lb. flour; little salt; lemon. Beat the yolks and whites separate; add the whites, flour, and yolks alternately.

COOKIES.—1 cup butter, 2 cups sugar, 3 eggs, $\frac{1}{2}$ teaspoonful soda, a little nutmeg.

POOR MAN'S CAKE.— $1\frac{1}{2}$ cups sugar, 1 cup raisins chopped, $\frac{1}{2}$ cup butter, 1 cup sour milk, 1 teaspoonful soda. Not to be stirred very stiff.

WORMS derange the whole system. Mother Graves' Worm Exterminator deranges worms, and gives rest to the sufferer.

MICHIGAN CAKE.—4 cups flour, 1 cup each sour milk and butter, 3 cups sugar, 4 eggs, 2 teaspoonfuls cream of tartar, 1 teaspoonful soda. Divide this in three parts, and bake two of the parts in two long pie tins (as for jelly cake); add to the third part 1 cup each currants and raisins, 2 tablespoonfuls molasses, cinnamon, allspice, cloves and citron to taste; the dark part is for the middle layer. Spread jelly between the layers, and frost the top.

CHERRY VINEGAR.—6 quarts of cherries broken up and 1 quart vinegar; let it stand 3 days; then press the juice from them through a jelly bag, and to 1 lb. juice add $\frac{1}{2}$ lb. white sugar; boil it 12 minutes, and skim. This makes 8 porter bottles full. Blackberries, strawberries and raspberries done in this way are also good as a drink.

GINGER BEER.—1 gal. cold water, 1 lb. white sugar, $\frac{1}{2}$ oz. race ginger, one sliced lemon, one teacup yeast; let it stand all night to ferment; then pour it off without stirring, bottle it, and add one raisin to each bottle.

LOAF BREAD PUDDING.—A well baked stale loaf of bread may be tied in a linen cloth, and boiled or steamed, which, with good sauce, answers well for a plain pudding.

NORTHROP & LYMAN'S
Canadian Liquid Hair Dye.

There is nothing that can contribute so much to render the head beautiful as a plentiful supply of hair and of a natural color. While many are blessed with a supply sufficient to cover the head, it is a source of annoyance to them to see it gradually fade or turn gray; many inherit it from their parents, while others, through excessive grief and from other causes, at an early stage of life have exchanged their dark locks for silvery ones. To all such we would recommend a trial of the **Canadian Hair Dye**. It will change both red and gray to a beautiful black or brown, as may be preferred, allowing it to retain all the freshness and lively appearance of the original hair.

It has been on the market for over twenty years, and is gaining in popularity every year, and now has a larger sale than all other Hair Dyes, which is due entirely to its merits.

Unlike many other preparations, it will neither rub nor wash off, and as it is complete in itself, it is much more convenient than those requiring two separate bottles.

It is easily applied and quickly and effectually produces the desired color.

Give it a trial and satisfactory results will follow.

Price, 50 cents per bottle. Sold by all Druggists and Medicine Dealers.

Prepared only by **NORTHROP & LYMAN**, Toronto.

THERE had been a discussion about the cut of a dress, and she was wrathful. "It's all very well, sir," she began, pouting, "for you to expect a woman to be an angel, but I'd have you know, sir, that I wouldn't be even an angel unless my wings were cut off!" There now."

For Dyeing all kinds of Woollen, Cotton or Silk Goods, Feathers, Artificial Flowers, &c., giving a beautiful and brilliant color, unsurpassed by any other dye, easier done, and more lasting than by the old process. They are used for all purposes where a coloring agent is required, such as Basket and Leather Work, Grasses, Everlasting Flowers, &c., &c.

The purple makes an ink much superior to what you can buy; it does not corrode the pen, and is much cheaper than any other ink, and in every way will give you more satisfaction.

They are put up in packages, handy and convenient, and if the directions are followed, the results will be all that we claim for them.

As there are several persons putting up Package Dyes, don't fail to get the "STAR DYES," with our names on each package.

NORTHROP & LYMAN,
Proprietors.

THE talent of success is nothing more than doing what you can do well, and doing well whatever you do without a thought of fame.

LIBERAL landlord: "What are you doing in my back yard?" Irish tramp (engaged in mending his clothes): "I was jist a gathering in the rints sorr!"

WEALTH has now all the respect paid to it which is due only to virtue and to talent, but we can see what estimate God places upon it, since He often bestows it upon the meanest and most unworthy of all His creatures.—Dean Swift.

A FRIEND, visiting in a minister's family where the parents were very strict in regard to the children's Sabbath deportment, was confidentially informed by one of the little girls that she would like to be a minister. "Why?" inquired the visitor, rather puzzled to understand what had given the child so sudden an admiration for that calling. She was quickly enlightened by the prompt reply, "So I could holler on Sunday."

CROUP.

WHEN a child is suddenly attacked and threatened with suffocation by Croup, **Dr. Thomas' Eclectric Oil** is precisely the medicine for the emergency, since it is prompt as well as efficient. Every household should be provided with it, as it is a quick antidote to pain, as well as a specific for the above and other complaints.

Mr. WILLIAM BOYD HILL, Cobourg, writes: "Having used Dr. Thomas' Eclectric Oil for some years, I have much pleasure in testifying to its efficacy in relieving pains in the back and shoulders. I have also used it in cases of croup in children, and have found it to be all that you claim it to be."

DIPHTHERIA CURED.

POPE & BITLEAU, druggists, Cedar Rapids, Iowa, write: "We have never sold any medicine that gives such satisfaction to the consumer and pleasure to the seller as Dr. Thomas' Eclectric Oil. We can refer you to numbers that have used it for diphtheria with entire satisfaction and success."

ROBERT LUBBUCK, Cedar Rapids, writes: "I have used Dr. Thomas' Eclectric Oil both for myself and family for diphtheria, with the very best results. I regard it as the best remedy for this disease, and would use no other."

Mr. W. J. CORBETT, Creemore, writes: "A few days ago a customer of mine came in with a Sore Throat, and his neck swelled to almost twice its usual size. In reply to my question as to what he was going to use for it, he said, 'I always use Dr. Thomas' Eclectric Oil.' I at once supplied him with a bottle, and he took a dose then and there, and applied some externally; strange to relate, he felt relief before leaving the store, and, stranger still, before night the swelling was almost entirely gone. I supplied Dr. Thomas' Eclectric Oil to a large number of parents during an **Epidemic of Diphtheria**, and every one of them saved their children, while a number that I know of lost theirs after using other remedies. These facts speak for themselves, and the

consequence is that Dr. Thomas' Eclectric Oil is in constant demand all the year round."

COUGHS, COLDS, SORE THROAT, &c., &c.

Did you ever know a person that escaped these complaints? If you did, he does not live in Canada. The country we love, with its sons so brave and daughters so fair, with its liberties and privileges that are so dear to each one of us, but with its drawbacks in consequence of changeable weather, tries our constitutions and gives us coughs, colds, &c., which, if not checked, soon carry us into CONSUMPTION.

Why allow a cough to lacerate your Throat and Lungs? Why incur the imminent danger of consumption, when in an incredibly short space of time, and for an insignificant sum, you may cure yourself. Thousands in Canada have been cured by Dr. Thomas' Eclectric Oil. Read the following

FACTS.

N. McRAN, Wyebridge, writes: "I have sold quantities of Dr. Thomas' Eclectric Oil; it is used for colds, sore throat, croup, &c., and, in fact, for any affection of the throat it works like magic. It is a sure cure for burns, wounds, and bruises."

M. A. ST. MARS, St. Boniface, Manitoba, writes: "Dr. Thomas' Eclectric Oil is a public benefit. It has done wonders here, and has cured myself of a bad cold in one day. Can be relied upon to remove pain, heal sores of various kinds, and benefit any inflamed portion of the body to which it is applied."

A LETTER from P. O. Sharpless, druggist, Marion, Ohio, in writing of Dr. Thomas' Eclectric Oil, says: "One man was cured of sore throat of eight years' standing with one bottle. We have a number of cases of rheumatism that have been cured when other remedies have failed. We consider it the best medicine sold."

THOS. MYERS, Eracebridge, writes: "Dr. Thomas' Eclectric Oil is the best medicine I sell. It always gives satisfaction, and in cases of coughs, colds, sore throat, &c., immediate relief has been received by those who use it."

A. MAYBEE, merchant, Warkworth, Ont., writes: "I have sold some hundreds of bottles of Dr. Thomas' Eclectric Oil, and it is pronounced by the public 'one of the best medicines they have ever used'; it has done wonders in healing and relieving pain, sore throat, &c., and is worthy of the greatest confidence."

Dr. Kellogg's Catarrh Snuff.

This snuff has thoroughly proved itself to be the best article for curing Catarrh, Cold in the Head and Headache. It has been found also an excellent remedy in many cases of Sore Eyes and Deafness. Hearing has often been greatly improved by its use. It is fragrant and agreeable, and

Gives Immediate Relief

to the dull, heavy pains caused by cold in the head. The sensations after using it are delightful and invigorating. It opens and purges out all obstructions, strengthens the glands, and gives healthy action to the parts affected.

Mr. PAUL THIBODEAU, Cavendish Road, P.E.I., writes: "I have had Catarrh for twelve years, and fifty cents worth of KELLOGG'S SNUFF did me more good than \$50 worth of medicine which I had from the most eminent medical men of Montreal, Quebec, St. John and Charlottetown. I think one more bottle will completely cure me."

For sale by all Medicine Dealers. Price, 25 cents per bottle.

NORTHROP & LYMAN, TORONTO,
Sole Agents for Canada.

A good deal of comment has been caused because a Georgia man broke his back with a sneeze; but how much more wonderful it would have been had he broken his knees with his back.

GEORGE ELIOT had a quiet way of saying a humorous thing. For example: "We are apt to be kinder to the brutes that love us than to the women that love us. Is it because the brutes are dumb?"

"WHAT'S your occupation?" asked a Judge of a "drunkard" that came up for inspection in the morning. "I am a calker, sir," was the reply. "A calker!" exclaimed the Judge; "what an inaptitude of language; I should say you were an uncorker. Give him sixty days." "That's a 'corker' surely," was the victim's retort.

A RECENTLY elected magistrate, boasting of his popularity with the electors, proudly exclaimed, "I had three-thirds of the voters on my side." "Three-thirds!" said his listener. "Od, ye'd haen them a'." "Gae wa' wi' ye, ye haverin' fule," replied the intelligent bailie, "hoo cu'd three-thirds be them a'?" adding triumphantly. "Isna there four threepennies in a shilling?"

A Prolific Source of Disease.

A trifling indiscretion in diet may lay the foundation of confirmed dyspepsia, and there is no fact in medical science more positively ascertained or more authoritatively asserted than that dyspepsia is the parent of a host of bodily ills, not the least of which is contamination of the blood and the maladies of which that is the direct consequence. Their original cause is, however, thoroughly eradicated from the system by NORTHROP & LYMAN'S VEGETABLE DISCOVERY AND DYSEPTIC CURE, a medicine which only requires regularity and persistence in its use to cure dyspepsia and the many ills that arise from it. No deleterious mineral ingredient is contained in it, and though its action is thorough in cases of costiveness, it never produces griping pains in the abdominal region, or weakens the bowels like a violent purgative. It invigorates the system through the medium of the increased digestive and assimilative activity which it promotes, and is also a most efficient remedy for kidney complaints, scrofulous and all diseases of the blood, female weakness, &c., &c.

Rev. J. B. HUFF, Florence, writes: "I have great pleasure in testifying to the good effects which I have experienced from the use of Northrop & Lyman's Vegetable Discovery for dyspepsia. For several years nearly all kinds of food fermented on my stomach, causing heartburn, and gas to accumulate, so that after eating I had very distressing sensations, but from the time I commenced the use of the Vegetable Discovery I obtained relief."

CHAIRS should not be covered with silk, but sat-in.

WHEN the royal baby of Brazil cries, his nurse remarks: "Now, you Luiz Maria Phillippe de Alcantara Gastao Miguel Raphael Gabriel Gonzaga, you just keep quiet."

AT a railroad station lately an elderly Irish woman, who had arrived a few seconds after the train had started, set off to run after it. She, of course, soon came to a halt, when she began to abuse the unaccommodating engine, adding with a "nate" brogue: "Faugh! the great black ugly lump! When she gets as old as me she won't run so quick!"

IT SAVED HIS LIFE.

JAMES BRYSON, Cameron, states: "I was confined to my bed with inflammation of the lungs, and was given up by the physicians. A neighbor advised me to try Dr. Thomas' Electric Oil, stating that his wife had used it for a throat trouble with the best results; acting on his advice I procured the medicine, and less than a half bottle cured me; I certainly believe it saved my life. It was with reluctance that I consented to a trial, as I was reduced to such a state that I doubted the power of any remedy to do me good."

BRONCHITIS FOR SEVENTEEN YEARS.

G. A. DIXON, Frankville, Ont., says: "I was cured of chronic bronchitis that troubled him for seventeen years, by the use of Dr. Thomas' Electric Oil."

PROSTRATED WITH ASTHMA.

JABESH SNOW, Gunning Cove, N.S., writes: "I was completely prostrated with the Asthma, but hearing of Dr. Thomas' Electric Oil I procured a bottle, and it done me so much good that I got another, and before it was used I was well. My son was cured of a bad cold by the use of half a bottle. It goes like wildfire, and makes cures wherever it is used."

S. CHADWICK, of Arcadia, Wayne County, writes: "I have had severe attacks of asthma for several years. I commenced taking Dr. Thomas' Electric Oil. The first dose relieved me in one hour. I continued taking it in teaspoonful doses for a few days, and have not had an attack of it since, now nearly one year."

Mrs. E. H. PERRINS, Crook Centre, Warren Co., N. Y., writes: "She has been troubled with asthma for four years; had to sit up night after night with it. She has taken two bottles of Dr. Thomas' Electric Oil, and is perfectly cured. She strongly recommends "

ASTONISHING CURE OF CHILBLAINS.

JAMES SHANNON, Leaskdale, writes: "For many years my wife was troubled with

chilblains, and could get no relief, until about two years ago; she was then not able to walk, and the pain was so excruciating that she could not sleep at night. Your agent was then on his regular trip, and she asked him if he could cure her. He told her Dr. Thomas' Electric Oil was a sure cure. She tried it, and judge of her astonishment when in a few days the pain was allayed, and the foot restored to its natural condition. It is also the best remedy for burns and bruises I ever used."

GEO. C. HOWARD, traveller for Dr. J. C. Ayer & Co., writes: "For many years I have suffered much with chilblains, and have never found complete relief until I tried Dr. Thomas' Electric Oil. I am glad to state that it has entirely rid me of a most annoying affliction. I shall always be happy to recommend it to those who may be similarly troubled."

RADICALLY CURED OF PILES.

Those intolerably painful and constantly harassing things called piles, which trouble so many people, are soon healed by Dr. Thomas' Electric Oil—the great external remedy for physical suffering and means of relieving pains. A very small quantity achieves results of the most gratifying kind.

Mr. PARFETUS BOILEAU, Ottawa, says: "I was radically cured of piles, from which I had been suffering for over two months, by the use of Dr. Thomas' Electric Oil. I used it internally and externally, taking it in small doses before meals and on retiring to bed. In one week I was cured, and have had no trouble since. I believe it saved my life."

Mr. THOS. BRUNT, Tyendinaga, Ontario, writes: "I have to thank you for recommending Dr. Thomas' Electric Oil for bleeding piles. I was troubled with them for nearly fifteen years, and had tried almost everything I could hear or think of. Some of them would give me temporary relief, but none would effect a cure. I have now been free from this distressing complaint for nearly eighteen months. I hope you will continue to recommend it."

DISEASE OF THE EAR.

Mrs. W. J. LANG, Bethany, Ont., writes: "I was one of the greatest sufferers for about fifteen months with disease of my ear similar to ulcers, causing entire deafness. I tried everything that could be done through medical skill, but without relief. As a last resort, I tried Dr. Thomas' Electric Oil, and in ten minutes found relief. I continued using it, and in a short time my ear was cured and hearing completely restored. I have used this wonderful healer successfully in cases of inflammation of the lungs, sore throat, coughs and colds, cuts and bruises, etc.; in fact, it is our family medicine."

For Strains, Sprains, Bruises, Cuts, Burns, etc., it has no equal; it allays all inflammation, and rapidly heals the parts cut, bruised or burned.

PETER KIEFFER, Buffalo, says: "I was badly bitten by a horse a few days ago, and was induced by a friend, who witnessed the occurrence, to try Dr. Thomas' Electric Oil. It relieved the pain almost immediately, and in four days the wound was completely healed. Nothing can be better for fresh wounds."

ORPHA M. HODGE, Battle Creek, Mich., writes: "I upset a teakettle of boiling hot water on my hand. I at once applied Dr. Thomas' Electric Oil, and the effect was to immediately allay the pain. I was cured in three days."

Jos. BEAUDIN, M. D., Hull, P. Q., writes: "Dr. Thomas' Electric Oil commands a large and increasing sale, which it richly merits. I have always found it exceedingly helpful; I use it in all cases of rheumatism, as well as fractures and dislocations. I made use of it myself to calm the pains of a broken leg with dislocation of the foot, and in two days I was entirely relieved of the pain."

A. M. HAMILTON, Warkworth, writes: "For weeks I was troubled with a swelled ankle, which caused me much pain and annoyance. Mr. Maybee, of this place, recommended Dr. Thomas' Electric Oil for it. I tried it, and before one bottle was used I was cured. It is an article of great value."

LAMENESS CURED.

JOSEPH RUBAN, Percy, writes: "I was induced to try Dr. Thomas' Electric Oil for a lameness which troubled me for three or four years, and I found it the best article I ever used. It has been a great blessing to me."

JOHN HAYS, Credit, P. O., says: "His shoulder was so lame for nine months that he could not raise his hand to his head, but by the use of Dr. Thomas' Electric Oil the pain and lameness disappeared, and although three months has elapsed, he has not had an attack of it since."

A DETECTIVE'S LEAP.

Mr. THOMAS FLYNN, Chief Detective, Grand Trunk R.R., says: "Business called me a short time ago to a village near Kingston. While the train was in motion I jumped off; in so doing I alighted on the sloping part of the ballast, where the track had been raised, with such force as to severely sprain my knee. I was driven to Kingston and had to be assisted to my room. I immediately procured a bottle of Dr. Thomas' Electric Oil, and although my leg was so badly swollen that I could not bend my knee, after three applications of this oil I was out of bed and walked to the station. This was on Saturday afternoon, and on Monday I was able to attend to my business as usual. I also used this wonderful oil for sore throat, and it cured it."

MORE PROOF OF ITS POPULARITY.

Messrs. MITCHELL & PLATT, Druggists, London, Ont., writes: "We have sold Dr. Thomas' Electric Oil since its first introduction, and we can safely say, no medicine on our shelves has had a larger sale, or gives better satisfaction. We always feel safe in recommending it to our customers."

R. C. BRUCE, druggist, Tara, says: "I have no medicine on my shelves that sells faster or gives better satisfaction than Dr. Thomas' Electric Oil, and the sale is constantly increasing, the past year being the largest I have ever had. One of my customers was cured of catarrh by using three bottles. Another was raised out of bed, where he had been laid up for a long time with a lame back, by using two bottles. I have lots of customers who would not be without it over night."

Rev. J. MCLAURIN, Canadian Baptist Missionary to India, writes: "During our stay in Canada we have used Dr. Thomas' Electric Oil with very great satisfaction. We are now returning to India, and would like very much to take some with us, for our own use and to give to the diseased heathen."

DR. A. TRASK'S Magnetic Ointment.

The Great Healer of all Inflammation.

The proprietors of this sovereign remedy challenge the world to furnish anything, from the days of *Æsculapius* down to the present time, in the Arcana of Medicine, which can vie with or excel the intrinsic properties of this Ointment.

The worst Sores, Bruises, Cuts, Burns, Skin Disorders, Sprains, Sore Throat, Croup, Rheumatism, Lameness, and all

external and internal affections characterized by **Inflammation**, yield to its influence as if by magic. It penetrates to every portion of the human frame; every bone, muscle, vein, nerve, and ligament is searched out and made sensible of its soothing and healing influence. Hence it copes readily with internal as well as external disease. Its success has been marvelous in the most obstinate cases of Inflammation of the Eye, Brain, Throat, Lungs, Bowels, and other delicate organs of the human frame, where the skill of the most eminent physicians has been baffled, while for sores or injuries attended with inflammation, Eruptions of the Skin, as Salt Rheum, Pimples, etc. and Lameness, it is without a rival.

CAUTION.—There are several parties endeavoring to sell a Magnetic Ointment which is palmed off as the genuine article. Beware of such, and only take Dr. Trask's Magnetic Ointment, and see that the name is blown on the bottle.

Sold by all dealers in medicine.

D. RANSOM, SON & CO.,
Proprietors, Buffalo, N. Y.

NORTHROP & LYMAN,
Toronto, Agents for Canada.

DOMESTIC RECIPES

TEA BISCUITS.— $\frac{1}{2}$ cup of butter, 2 cups sugar, 4 cups flour, 1 cup milk, 1 egg, 1 teaspoonful of soda, a little salt; roll out about $\frac{1}{2}$ an inch thick.

Egg Nog.—Take 6 eggs and beat the whites and yolks separately; add to a quart of rich milk $\frac{1}{2}$ cup of sugar and stir in the yolks; then add $1\frac{1}{2}$ gills brandy and 1 gill rum; flavor with nutmeg, and lastly whip in the whites of 3 eggs.

The handiest package dyes to use are the Star Dyes, beautiful and lasting colors.

APPLE CORN MEAL PUDDING.—Pare and core 12 pippin apples; slice them very thinly; then stir into a quart of new milk one quart of sifted corn meal; add a little salt, then the apples, four spoonfuls of chopped suet, and a teacup of good molasses; mix them well together; put into a butter dish, and bake 4 hours; serve hot, with wine sauce.

HOT SLAW.—Cut the cabbage head in two; shave it finely; put it into a stew-pan, with $\frac{1}{2}$ a teacupful of butter, a teaspoonful of salt, 2 tablespoonfuls vinegar, a little pepper; cover the stew-pan, and set over a gentle fire for 5 minutes, shaking it occasionally; when thoroughly heated serve it as a salad.

SUET PUDDING.—4 cups flour, 1 cup chopped raisins, 1 cup milk, 1 cup chopped beef suet, 1 cup molasses, 1 teaspoonful soda, steam three hours; eat with sauce.

MARBLE CAKE (White Cake).—Half cup of butter, $1\frac{1}{2}$ cups of white sugar, 2 cups flour, $\frac{1}{2}$ cup of sweet milk, $\frac{1}{2}$ teaspoonful of soda and whites of 4 eggs; flavor with lemon.

MUTTON SOUP.—Boil a leg of mutton three hours, season with salt and pepper, add 1 teaspoon summer savory; make a batter of 1 egg, 2 tablespoonfuls milk, 2 of flour, all well beaten together; drop this batter into the soup with a spoon, and boil three minutes.

NORTHROP & LYMAN'S BALSAM OF ANISEED.

The virtues of this excellent Balsam have abundantly proved it to be one of the best medicines for the relief and CURE of
Coughs, Colds, Bronchitis, Influenza, Asthma, Pains in the Chest, and all Throat and Lung Difficulties.

 HIS is a very pleasant Cough Syrup, and being entirely free from opium or other deleterious drugs that generally constitute the active properties of cough medicines, it readily recommends itself to the notice of parents. It has a very soothing and healing effect on all diseases of the Throat and Lungs, and diminishes the sensibility of the membranes of the throat and air passages when irritated by cold air which is generally the cause of excessive coughing.

As an expectorant it is invaluable. It readily removes the phlegm or mucus collected on the lungs, or over the air cells which nature is unable to raise or throw off without assistance. By its timely use you will have no difficulty in breaking up a severe cold, and thereby obviate the risk of contracting serious lung diseases.

Consumption and all throat and lung difficulties are generally the effects of neglected colds. It is therefore very necessary that ordinary, or slight colds should be attended to, and not run the risk of contracting serious complaints. As a medicine for children it has no equal,—*pleasantness, penetrating*, while at the same time non-injurious, are the characteristics of this celebrated Balsam of Aniseed.

Public Speakers and Singers will find this Balsam of inestimable value, as it speedily and effectually allays all irritation and huskiness in the throat and bronchial tubes, and gives power to the vocal cords, rendering the voice clear and sonorous. A dose should be taken before speaking or singing.

TRIED EVERYTHING.

Mr. S. M. SMITH, of Listowel, writes: "Some time ago I had a severe attack of Bronchitis, and tried everything, but could get no relief until I was induced by Mr. J. Livingstone, Jr., druggist here, to try NORTHROP & LYMAN'S BALSAM OF ANISEED; the first bottle gave me great relief, and before I had finished the second I was completely cured, and I have not been troubled with it since. I have much pleasure in recommending it to any one troubled with bronchitis or severe colds, as I am sure it will give immediate relief.

MR. W. J. HALLIDAY, Lakelet, writes: "I purchased some of NORTHROP & LYMAN'S BALSAM OF ANISEED last year, and it has sold so fast that I have been obliged to order several times since. It gives entire satisfaction in every case, and I consider it the best cough remedy on my shelves."

Mrs. JOHN HAMPTON, Listowel, writes: "During the summer I contracted a severe case of Bronchitis, and I tried to get relief from several doctors, but without success. I heard about NORTHROP & LYMAN'S BALSAM OF ANISEED and procured a bottle; the first bottle gave me great relief, and after I had taken the fourth bottle I was completely cured. Price 25c. per bottle.

NORTHROP & LYMAN,
Toronto, Proprietors.

They were boasting about ancestry. "My forefathers," said John, "came over from England on the *Mayflower*." "And my ancestry," said Pat, "klim over from Quansetown on the *Sunflower*. It's aesthetic I am, begorra!"

NORTHROP & LYMAN'S GLYCERINE CREAM.

Tan, Softening the Skin, and Beau-
tifying the Complexion.*

This article is one of the most delightful and indispensable things in the Dominion for a lady's toilet. After being out in the wind, or used on the face and hands, it will remove all roughness and irritation, soothing the sunburnt parts, and removing redness from the skin.

By using occasionally on the face it will soften the skin and give it a smooth surface, thereby arresting wrinkles.

Keep your temper unruffled, your thoughts on things pure and noble, and use Northrop & Lyman's Glycerine Cream, and you will reach a good old age before Nature has made its attacks upon your face.

For pimples, eruptions and sores that disfigure the face, it will be found very valuable, and for all sores that require a cooling and healing ointment, it is peculiarly adapted. It will both soothe and heal, and as it is nicely perfumed, it is not objectionable like many other articles. As it possesses real merit, it may be relied upon to attain the object we claim for it, viz.: to soothe, heal, beautify, and cause admiration in the person using it.

Price 25 cents per pot. Sold by all druggists and medicine dealers.

Prepared by NORTHROP & LYMAN,
Toronto.

ULCERATED SORES FOR NINE YEARS.

Mr. SAMUEL BRYAN, Thedford, writes: "For nine years I suffered with ulcerated sores on my leg; I expended over \$100 to physicians, and tried every preparation I heard of or saw recommended for such diseases, but could get no relief. I at last was recommended to give *Dr. S. N. Thomas' Electric Oil* a trial, which has resulted, after using eight bottles (using it internally and externally), in a complete cure. I be-

lieve it is the best medicine in the world, and I write this to let others know what it has done for me.

Messrs. HARRISON BROS., Hamilton, Ont., writes: "Send as soon as possible another 5 gross lot of Dr. Thomas' Electric Oil; our sale for it is rapidly increasing, and we have no medicine that has such ready sale, or gives such universal satisfaction."

DOMESTIC RECIPES.

GRAPE JAM.—Boil the grapes in just water enough to make them tender, strain them through colander, then to 1 lb. pulp put 1 lb. sugar; boil this half an hour. The common wild grape makes a nice jam.

SPRUCE BEER.—1 tablespoonful of essence of spruce, 2 of ground ginger, 2 of allspice, a large handful of hops; add these to 12 gallons of water, and boil one hour; then strain, and add 1 gallon molasses. When temperate—so warm as to ferment—add $\frac{1}{2}$ pint yeast, and put the whole in a keg; good to use in 24 hours.

SCOLLOPED OYSTERS.—Toast several slices of bread quite brown, and butter them on both sides; take a baking dish and put the toast around the sides instead of a crust. Pour your oysters into the dish and season to your taste with butter, pepper and salt; add mace or cloves. Crumb bread on the top of the oysters, and bake it with a quick heat about fifteen minutes.

SAGE AND ONION STUFFING.—Chop very fine 3 onions, a tablespoonful of sage leaves rubbed very fine; put them into a saucepan with 4 large spoonfuls of water; simmer for 10 minutes, covered tightly, $\frac{1}{2}$ a teaspoonful of salt, and the same of black pepper; 3 tablespoonfuls bread crumbs mixed well in; then pour over it 3 tablespoonfuls of broth or gravy. Stir the whole well together, and use for pork stuffing.

CROSS BUNS.—Put 2 $\frac{1}{2}$ lbs. of sifted flour into a wooden bowl before the fire to warm; then stir in $\frac{1}{2}$ lb. of sifted sugar and a little salt, $\frac{1}{2}$ a teaspoonful each of coriander seed and pounded cinnamon, a little grated nutmeg; cut into $\frac{1}{2}$ pint of new milk $\frac{1}{2}$ lb. of butter; then mix with the other ingredients three teaspoonfuls of yeast; stir this all well together; set it to rise; when risen form it into buns; handle it as little as possible; on each bun cut a cross with the back of a knife; bake on tins.

FRENCH ROLLS.—Rub an ounce of butter into 1 lb. of flour; add 1 egg, a little yeast; let it rise; bake in rolls.

SOFT RUSK.—3 $\frac{1}{2}$ lbs. flour, 1 lb. sugar, 1 lb. butter, 4 eggs, and $\frac{1}{2}$ teaspoonful of yeast to $\frac{1}{2}$ pint milk.

Memorial Cologne.

THE MOST EXQUISITE PERFUME
OF THE CENTURY.

Qualities Pine, Fragrant and Lasting.

Nearly all the articles sold as Cologne are manufactured from the cheapest material, and are consequently very disagreeable after exposure to the air. It is not so with **Mitchell's Memorial Cologne**. It has been thoroughly tested, and has given universal satisfaction; it is equal to an extract, and some pronounce it superior. It has a soft fine fragrance, not excelled by any foreign or domestic make. In fact, it is preferred by many to the imported extracts of White Rose and Jockey Club, as it continues to emit its delightful fragrance sweet and unimpaired as long as any trace of it remains. One of the peculiarities of this Cologne is that you do not require to use nearly as much of it as any other, and it retains its sweetness and delightful aroma much longer than any other Cologne.

Mitchell's Cologne contains the most costly ingredients of any in the market, and it is sold as low as some of the cheap worthless articles forced upon the public.

Ladies and gentlemen who would like a bottle of very fine perfume, ask your druggist for Mitchell's Memorial Cologne, and you will get an article that will give you satisfaction.

The words *Mitchell's Memorial Cologne* are blown in every bottle; none other are genuine.

Price—25 cents, 50 cents, 75 cents, and \$1.00, according to size.

For sale by all Druggists and dealers in Perfumery.

COLORING RECIPES.

NEW BROWN.—For five pounds, take four ounces bichromate of potash, half pound camwood, and two and a half pounds of fustic. Dissolve the bichromate of potash in boiling water, put the yarn in and boil for one hour, take the yarn out and rinse in cold water; put in enough fresh water, add the woods, then the yarn, and boil for an hour and a half.

DOVE AND SLATE COLORS OF ALL SHADES

are made by boiling in an iron vessel a teacupful of black tea with a teaspoonful of copperas and sufficient water. Dilute this till you get the shade wanted.

All fancy colors should be colored in brass or copper vessels, with plenty of soft water, and wet before putting them into the dye.

WOMEN and eternity are incomprehensible.

If one dog can be placed on a scent, how many can be placed on a trade dollar?

The man who was "rocked in the cradle of the deep" must have slept between sheets of water.

AN exchange sadly wonders that no one asks whether a man may marry his deceased wife's mother.

MAN's face is like a circus bill, as the sweet picture it presents is no indication of the show going on in the heart.

AN editor who was told that his last article was as clear as mud, said, "Well, that covers the ground, anyhow."

A MAN never knows what pluck is until he comes to pop the question to her father. That is, we've been told so.

A FACETIOUS young lady wickedly remarks that the reason the peculiar equipages seen at watering places are called dog carts, is that puppies always ride in them.

No man knows what the wife of his bosom is—no man knows what a ministering angel she is—until he has gone with her through the fiery trials of this world.

THERE have been many definitions of a gentleman, but the prettiest and most poetic is that given by a lady. "A gentleman," says she, "is a human being combining a woman's tenderness with a man's courage."

I see in this world two heaps of human happiness and misery. Now, if I can take but the smallest bit from one heap and add it to the other, I curry a point. If, as I go home, a child has dropped a halfpenny, and if, by giving it another, I can wipe away its tears, I feel that I have done something. I should be glad, indeed, to do greater things; but I will not neglect this.—*John Newton.*

MOTHER GRAVES' WORM EXTERMINATOR

PLEASANT TO TAKE

*Safe and Effectual in Relieving the
Sufferer.*

WORMS are parasitical animals which infest the intestinal canal of the human family. There are five different kinds. The most troublesome are known as the Ascarides, or Thread-worm, and are from one-eighth to one and a-half inches long. They infest the lower intestine, causing irritation about the rectum. The Lumbricæ is a long round worm, generally from two to six inches long, but sometimes much longer; they infest the small intestines, and occasionally the stomach. The Trichuris is a long, hair-tailed thread-worm, to be found in the cæcum. The Tænia, or Tape-worm, of which there are two kinds, occupy the whole tract of the intestines, and are sometimes thirty to forty feet in length.

Worms attack all ages, from the youngest up to the adult, but more frequently between the ages of three and ten years, and are no respecter of persons, the rich and poor, the proud and humble, alike have to seek relief from their ravages. They are not only a cause of disease, but by their irritation aggravate all other diseases. Their presence deranges the whole system, causing the strong to grow feeble, and the glow of health to fade from the cheek.

The usual symptoms of Worms in children are indigestion, irregular appetite, moaning and restlessness during sleep, grinding of the teeth, swelling and hardness of the abdomen with frequent slimy stools, countenance pale, picking at the nose, offensive breath, low spirits, irritable and feverish, frightful dreams, headache, pain in the stomach, urine turbid, convulsive fits, and a gradual wasting away of the flesh, etc. When any of these symptoms are noticed, do not delay in getting relief for the sufferer.

In administering medicine to children, one important thing is to get something that will be pleasant to the taste, and at the same time effectual in accomplishing the end desired. In

MOTHER GRAVES' WORM EXTERMINATOR,

these two desirable qualifications are to be found. It is put up in the form of a syrup and is so agreeable that children will not refuse to take it; in fact, so pleasant that it will have to be placed beyond their reach or they will empty the bottle. As regards its efficacy, we can say that before placing it on the market the originator gave it a thorough test, with the most gratifying results, and we have no hesitation in placing it on the Canadian market, feeling confident when once introduced it will give such satisfaction that we will not have cause to regret the venture.

This medicine does not require the help of any purgative medicine to complete the cure. It effectually destroys the worms, and removes the nests in which their young are deposited, thus relieving the sufferer of their injurious effects.

Full directions with each bottle. Price, 25 cents.

Prepared by NORTHROP & LYMAN,
Toronto, Ont.

A THUMB on the hand is worth two in a dog's mouth.

It doesn't take a northern invalid very long to get well in Florida. When the first week's hotel bill is presented he generally says, "I guess I am well enough to start for home this afternoon."

MISTRESS to new cook: "On Wednesdays and Saturdays I shall go to the market with you." New cook: "Very well, mum; but who's agoin' to carry the basket the other days?"

WHEN little Beb asked his sister's beau for a cigar, his future brother-in-law snubbed him with the remark, "Young man, a strap would do you more good." Next night Bob's sister and her young man got their hands, chins and clothes smeared with coal tar while lingering at the front gate, and little Bob, when questioned on the subject, said he couldn't tell a lie—"it must have been a tramp."

Copland's Sweet Castor Oil.

Equally suitable for Children and Adults.

Endorsed by over 600 Doctors in Canada.

We have recollections that are hard to erase from our memory of a time when the good old fashioned but disagreeable Castor Oil was the favorite medicine with our mothers. We then feared to tell that we were sick, for we knew what would follow that acknowledgment. We preferred suffering in silence rather than take that nauseous and sickening medicine. But with the advancement of science this feeling has disappeared; one discovery has followed another; and one of the most important in the history of medicine is the discovery of a way whereby Castor Oil can be sweetened and rendered palatable.

To the inventor of Copland's Sweet Castor Oil is the world indebted for this valuable improvement on a staple household medicine. After careful and long study he made this discovery, and called it Copland's Sweet Castor Oil.

Copland's Sweet Castor Oil.

is of the same strength and medical value as the ordinary Castor Oil, and is equally safe and harmless, yet acting with certainty, and producing neither vomiting nor griping. Some children say it is like water; others call it syrup—they all say it is good. One parent says: "My child hid the bottle or they would have taken it right off;" another: "My child has taken it twice without any effect, and does not know what it is, and she hates the ordinary Castor Oil, so we could never get her to take it." Yet another:—"I wish you would send me of your SWEET CASTOR OIL; it is a splendid thing, sure to take the place of all the common oil."

Dr. W. COBURN, Oshawa, writes: "I have prescribed your Sweet Castor Oil a number of times since its introduction to the trade and members of the profession of this place, and in every instance with the greatest satisfaction; in some cases in which I had occasion to administer it, notwithstanding the existence of a feeling of dislike amounting to almost absolute intolerance, the patients were unwilling to admit that it was oil they had taken. I have every confidence in it, and will feel it a pleasure to recommend it to my patients."

Below are names of a few medical men acquainted with Copland's Sweet Castor Oil, who certify that it is a great improvement on ordinary Castor Oil, and recommend it as pleasant, harmless, efficacious, and supplying a long-felt want: L. Brock, M.D., Guelph; D. Macintosh, M.D., Hamilton; E. Clapham, M.D., L.R.C.S., Belleville; Geo. W. Wright, M. D., Berlin; W. Cowen, M.D., Galt; Geo. Smith, M.R.C.S. & Stratford; James P. Morden, M. D., Elton; R. R. Addison, M. D., Farmersville; W. H. Street, M. D., London; H. C. Egan, M. D., Perth; James Patterson, M. D., Almonte; Francis W. Campbell, M. D., Montreal; James G. Cranston, M. D., Arnprior; J. McNaughton, M.S., S.M., Newcastle; Wm. Wade, M.D., M.R.C.S.E., Cobourg.

The undersigned having purchased Messrs. T. Copland & Co.'s interest in the above preparation, are now manufacturing it from the original recipe.

NORTHROP & LYMAN, TORONTO.

Sold by all Medicine Dealers. Price 25c.

Liver Complaint for 30 Years.

Mrs. L. SQUIRE, Ontario Steam Dye Works, Toronto, says: "For about 30 years I doctored for Liver Complaint and Dyspepsia without getting any cure. I then tried Northrop & Lyman's Vegetable Discovery, and the benefits I have received from this medicine are such that I cannot withhold this expression of my gratitude. It acts immediately on the Liver, and its good effects are noticed at once. As a Dyspepsia remedy I don't think it can be equalled."

For the Radical Cure of Asthma in all its forms, Hay Fever, Bronchitis, Catarrh, Colds in the Head, &c., &c.

Since introducing Dr. J. D. Kellogg's Asthma Remedy, we have received letters from physicians and others who have used it with very gratifying success. They speak in the highest terms of its thoroughness, and in such a flattering manner, that we are fully convinced that it will effect a positive cure in many cases if the directions are followed and its use continued.

It has a very soothing effect, diminishes the sensibility of the membrane of the throat and air passages, and gives relief to that distressing tightness of the chest which causes so much pain and anxiety.

Mrs. L. J. ... sends us the following: "For 17 years I have been troubled with bronchitis, asthma. Eminent physicians have treated me, but I could get no relief. At last I got a small box of Dr. J. D. Kellogg's Asthma Remedy from Mr. Egger, and I can not in words express the gratitude for the benefits I have received from its use. It gave me immediate relief, and I perfectly recommend it to all who are afflicted."

Mr. JOHN H. ... Morrison, writes: "I have used Dr. J. D. Kellogg's Asthma Remedy, and it has done me more good than any other medicine I have ever used. I have used the 50¢ medicine for it, and the 10¢ package of this medicine has done me more good than all combined."

Mr. A. ... Mr. R. Wight ... Sound, as follows: "I have used the Asthma Remedy of Dr. J. D. Kellogg, and it has done me more good than any remedy I have ever used. I had asthma for 25 years, and a large package at once, and it is like to be without it."

Mr. JAS. THOMSON, Hardware ... Office, Portage la Proude, writes: "I have found Dr. J. D. Kellogg's Asthma Remedy invaluable."

Sold by all medicine dealers. Small boxes, 25 cents. Large boxes, 50 cents.
