DR. BROWN WILL RESIGN FROM HOSPITAL

Denied Increase in Salary, Superintendent Will Give Up Duties on April 1, After Five Years' Service—Intends to Study Hospital Organization.

Owing to the fact that his request for an increase in his salary of \$3000, made about a year ago, had not been acted upon, Dr. J. N. E. Brown, superintendent of the General Hospital, has resigned.

At the meeting of the hospital board yesterday Dr. Brown sprang a surprise by requesting that he be relieved of his duties after April 1 next. The board reluctantly complied with the request on the understanding that Dr. Brown would see that they are not left without a superintendent.

Dr. Brown said to The World that his intention was to visit hospitals in the old country with a view to the study of methods of medical organization, hospital construction and administration generally. He will return for the conference at New York next fall of the American Hospital Association, of which he is secretary. He will also retain his secretaryship of the Canadian Hospital Association.

Friends of Dr. Brown say that the salary of superintendent of so large an institution is not commensurate with its importance, gauged by the rewards offered by other large hospitals.

Friction Denied.

J. W. Flavell, chairman of the board, declared that there had been absolutely no friction and that Dr. Brown was in no way dissatisfied with the position. The board had been sorry to accept his resignation, but had been convinced by the superintendent that it would be best to do so.

Dr. Brown succeeded Dr. James O'Reilly as superintendent of the General Hospital five and a half years ago. He came to Toronto direct from Dawson City, Yukon Territory. He was territorial secretary of the Yukon under the federal government for six years and two months. While in that position he was also medical health officer of the territory.

The position of superintendent of the General Hospital carries, besides the salary of \$3000 per year, a cottage.

The monthly report of the superintendent showed the largest attendance for January to be 372 on the 25th and the lowest 321 on the 1st, being an average of 372 patients per day. The number of admissions during the month was 472, constituting a record attendance.

In the training school for nurses 11 probationers were admitted and four dropped, while 10 pupil nurses were accepted.

MAGAZINE APOLOGIZED

Nothing in Its Charges Against the Standard Oil Company.

NEW YORK, Feb. 1.—Counsel for the Standard Oil Co., which recently began suits for \$250,000 damages against Hampton's Magazine, and for \$100,000 damages against Cleveland Moffett, the writer of an alleged defamatory statement concerning the Standard Oil Company, to-day received written retractions from both the publishers and the writer. The article in question stated that the Standard Oil Co. manufactured and sold impure materials, which went into candles, and that, when the various dealers were arrested and fined, the Standard Oil Company paid the fines.

ARRESTED IN BED

Four Men Accused of Stealing One Thousand Pounds of Hydro Wire.

George and Frederick Phillips, 205 Parliament-street, William Smith, 99 Sherbourne-street, and George Webber, 5 Trefam-street, were charged in police court with the theft of hydro-electric wire, which it is said, was gathered in the street and after burning off the insulation, had sold one thousand pounds of it, which was recovered at a second-hand store, where 10 cents a pound had been paid for it. Each pleaded not guilty and was remanded a week.

UNEARNED INCREMENT.

BERLIN, Feb. 1.—The Reichstag to-day passed the third reading of the bill taxing unearned increment by a vote of 199 to 53. Cities and other local municipalities will retain forty per cent of the proceeds derived from the new taxation, and also may collect an additional tax in the form of a supplementary percentage. It is estimated that the German Empire as a result of the measure will obtain \$5,000,000 annually.

EXTENSIVE MANOEUVRES.

OTTAWA, Feb. 1.—The militia officials are considering the possibility of taking all the units of the eastern Ontario militia to Petawawa this summer for training. This would be along the line of Gen. French's report. The idea would be to have extensive military manoeuvres which would take two or three days.

DEATH AND DESTRUCTION

NEW YORK AND WHOLE DISTRICT SHAKEN

CAR OF DYNAMITE EXPLODES

Number of Dead at Most Conservative Estimate is Over 30, and Many More May Have Perished—Not a Splinter of the Lighter, Katherine W., Remains—Man Blown From Engine Cab and Tug Captain Was Hurling Into the Water.

NEW YORK, Feb. 1.—A cargo of dynamite in transit from a freight car to the hold of a lighter moored at pier 7, Communipaw, N.J., last, so it was one minute past noon to-day, 150 yards south of the Jersey City terminal of the Central Railroad of New Jersey, and in the widespread ruin that followed seven men are known to have been killed, seven more are known to be missing, hundreds were wounded, and varying reports leave from fifteen to twenty more unaccounted for.

Thirty seems to be a conservative estimate of the dead, and property damage will hardly fall below \$750,000. The cause of the explosion is variously attributed to the dropping of a case of dynamite and to a boiler explosion on a boat.

The Jersey Central terminal was wrecked; three ferry boats in the slips were torn and splintered; lower Manhattan, across the river, was shaken from the street level to the top of the Singer tower; severe damage was done in Brooklyn, Staten Island, and the immigrant detention station on Ellis Island; the shock was felt on Long Island in Amityville, 35 miles distant, and in New Jersey at Long Branch, 40 miles distant.

Terrific Effects of Shock.

The lighter Whistler, owned by the American Storage and Delivery Company of New York, was so badly splintered that she sank with her crew of two, while the Swedish steel barque Estine Engrid, a stone's throw to the south, was stripped of her rigging and the lives of two deckhands aboard snuffed out. Fragments of one man's head were found swinging high on a tangled piece of rope.

The Katherine W. was tied to the cutter end of the pier, and a crew of deck hands were unloading a consignment of fifty pound boxes from two freight cars to the lighter when the crash came. Theoretically, dynamite will not let go from ship or pier, but only from a combination of both—the detonation produced by a percussion cap. A boiler explosion would have duplicated the effect of the percussion cap. What followed is the best possible example of the whims of dynamite.

The Katherine with her crew of seven simply disappeared; not a splinter of her has been found. The freight car went up in a puff of dust. On the rear deck of the barque Estine Engrid Edward found a pair of iron trucks. They may be the trucks of the dynamite car, or of one of the other four cars standing near that were also torn to bits.

This Dynamite Didn't Explode.

Fifty yards back stood another car of dynamite. The explosion ripped the roof off it, and broke in the doors, but the dynamite itself held true and rested quiescent in its wooden boxes. On board the Engrid the steel mizzenmast snapped off below the lower yard and tangled wreckage came tumbling about the decks. Everything about the mizzenmast was leveled flat, but the steel plates of the hull held stoutly and showed not even a mark.

For 100 feet the pier-end itself was utterly demolished. The planking seemed to have been ground to powder. Over the broken edges twisted steel rails of track. A steel gondola car on the southernmost track looked like an

Continued on Page 7, Column 4.

THE KING'S VINDICATION.

We do not know of more unpleasant reading to the great British public than the trial yesterday of the man convicted in London of circulating a libel on the King. The King was able to prove that the libel was without foundation—that the story of his marriage, secret ormorganatic, to a daughter of Admiral Seymour was a lie. If ever there was a King of England, or who, as Prince of Wales, had set out to lead a clean life, and to be a model husband and father, it was the present ruler of the empire. But the stronger his determination to thus carry himself, the more persistent this story associated with his early manhood followed him. Now it has been set at rest.

The episode goes to show the strength of public opinion in insisting on the clean and sober life in those who are in high office. Many a man high in public life in England has had his usefulness questioned and his influence destroyed by stories of this kind. A man died but the other day who, the equal of any Englishman in the house of commons, had fought, for a score of years or more, a hopeless fight because of the unpleasant mix-up of his name with a scandal in a notorious lawsuit. Unlike the King, he could not clear himself.

MRS. EDDY'S MILLIONS

Bill in Equity to Have \$1,500,000 Handed to Residuary Legatee.

BOSTON, Feb. 1.—A move to carry out the terms of the will of Mrs. Mary Baker Glover Eddy, founder of the Christian Science Church, was made late to-day, when a bill in equity was filed in the supreme judicial court of Massachusetts, asking that the executor of the will and the trustees of certain trust indentures executed by Mrs. Eddy in 1907 and 1908, be instructed to turn over her real estate in Massachusetts to the directors of the First Church of Christ, known as the Mother Church, in Boston, the residuary legatee under the will. The amount of the residuary legacy is estimated at \$1,500,000.

Admitting that the real estate referred to will exceed the sum of \$2000 a year, the bill of complaint declares that the state law has no application to the gift made by the will, in that "the residuary clause in said will leaves the property referred to to be held by the petitioners in trust for charitable purposes, the income from which is to be used practically exclusively for more effectually promoting and extending the religion of Christian Science, as taught by me," (said Mrs. G. Eddy).

RECIPROCITY DEBATE TUESDAY.

OTTAWA, Feb. 1.—(Special).—The government notified the opposition to-night that the debate on the reciprocity agreement with the United States would be begun next Tuesday.

MANITOBA, STATESMEN GO EAST.

Hon. R. P. Roblin and Hon. Robert Rogers were in Toronto last night on their way to Ottawa where they will hold an informal conference with western Conservatives after the caucus of the Conservative party yesterday. Owing to the Winnipeg train being several hours late the honorable gentleman had very little time in Toronto.

C. P. R. STEAMER ASHORE

SEATTLE, Feb. 1.—A wireless message from the C.P.R. steamer Princess Adelaide says that the vessel went ashore at Appleton Point in a blinding snowstorm to-night. The captain believes that she can be floated without difficulty at high tide to-morrow.

FELL FORTY FEET; WILL LIVE.

Joseph Mand, a structural steel worker, employed by the Dominion Bridge Company on the Hobblerin building at Richmond and Yonge streets, slipped and fell 40 feet to the pavement yesterday morning. His right hip was fractured.

FIRE IN MOORE PARK

Fine Residence of J. T. Moore Destroyed in Early Morning.

The handsome three-story residence of John T. Moore at Moore Park was destroyed by fire at 1.20 this morning. Four rigs were sent out by the city department in answer to a still alarm, which was phoned in and another alarm was turned in from the box at Heath and Yonge streets. These were sent from Yonge-street, Yorkville-avenue and Rose-avenue, but owing to the absence of water little could be done.

The houses a valuable one with stone foundations and broad verandahs. It was situated on the east side of the ravine almost opposite Heath-avenue. It was nearing completion and was to have been occupied in a month.

The fire made a brilliant reflection and aroused all those living in the neighborhood, who feared that despite the isolated position of the house the fire might spread when the roof collapsed. This did not happen, however, and the heavy rain which was falling served to reduce the damage.

JUDGE BARRON HERE

Has Investigated 120 Cases of G.T.R. Men Seeking Reinstatement.

Judge Barron arrived last night from Niagara Falls, where he has been hearing the cases of the G. T. R. strikers who seek reinstatement. In two weeks his honor has listened to nearly 120 individual cases, of which 24 were at Niagara Falls. The behavior of the men has been the very best, he said. The list of names furnished Judge Barron by the G. T. R. was short 127 of the list given by the men. "Since this great discrepancy has been brought to the attention of Mr. Hays," said his honor, "he has from day to day furnished me with more names, so that more cases are really being investigated than were handed me by the representatives of the men."

ON THE HISTORIC PLAINS.

QUEBEC, Feb. 1.—On the historic Plains of Abraham a statue is to be erected to the memory of King Edward The Peacemaker. Hon. Mr. Taschereau, minister of public works, has given notice of a motion of the intention of the government in that respect.

Dr. Haanel to Speak.

At the next luncheon of the Canadian Club, on Monday, Feb. 6, Dr. Eugene Haanel, director of mines at Ottawa, will deliver an address on "Sources of Fuel Supply in Central Canada."

SENATE MAY TALK THE MEASURE TO DEATH

Opinion of the Democrats in the House is That They Should Pass Reciprocity.

WASHINGTON, Feb. 1.—President Taft's announcement to-day that the southern tour planned for early next month would be canceled with the exception of the visit to Atlanta on March 10, started political tongues wagging with rumors that his purpose was to prepare for a possible extra session of congress, in case the present session fails to enact the reciprocity agreement between the United States and Canada. He has said that he hopes to see it passed before March 4.

Fears have been expressed, however, that the senate "will talk the measure to death" or kill it in some other way, so that he might know the general temper of the house Democracy to the measure. New York, led by Representative Sulzer, started the ball rolling, and the conference of that state was unanimously in favor of reciprocity. Virginia Democrats held a meeting at the same time, and the consensus of opinion was for the agreement. Democrats from other states talked over the situation and the sentiment so far as it has developed, seemed to be that

TEMPERANCE MEN SPLIT ON M'CARTHY PROPOSAL

Alliance Secretary Declares Move in City Council May Retard Rather Than Aid.

Ald. McCarthy's resolution asking that a memorial be sent by the city council to the Ontario Government in favor of the early closing of bars seems to have caused a decided split in the temperance ranks.

Rev. Ben. H. Spence, the secretary of the Dominion Alliance, states that he is sorry that the resolution is just in the form it is.

"I would prefer," said Mr. Spence, "a straight resolution in favor of early closing, or asking the legislature to enact early closing for just at the present stage of our temperance reform to make the matter of the hours of sale a question of local option throughout the province would lead to many nasty complications, and perhaps act also as a hindrance rather than a help to temperance reform."

"If the council wants to really do something practical no one will be more pleased than myself," he continued, "but for the council to lay down a temperance policy for the Province of Ontario would seem to mean perhaps a neglecting of powers they possess and the reaching out after something which if they obtained it would do more damage elsewhere than it would benefit in the City of Toronto."

"Bars and shops should be closed earlier, but the way to reach earlier closing is, in my opinion, not to be found along the line of the resolution proposed by Ald. McCarthy."

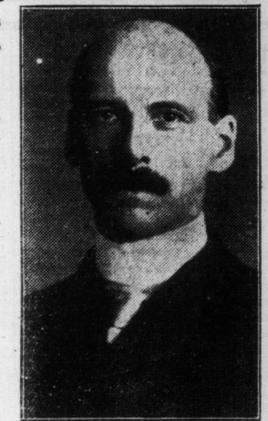

WILL NOT CURTAIL POWER OF HYDRO COMMISSION

Premier Whitney Announces to Legislature Practical Shelving of Amendments But Avoids Absolute Withdrawal—In Any Event No Change Would Occur For Two Years.

Not for the next two years at least will the control of the hydro-electric power be diverted to any rival of the commission. Sir James Whitney, with characteristic frankness and promptitude, proclaimed the important information on the floor of the Ontario Legislature yesterday afternoon, a house which listened with evident interest to his obviously welcome and significant address.

When the leader of the government gave precedence to government order No. 21, "Bill No. 102, to amend the Power Commission Act" and the Ontario Railway and Municipal Act, 1908," Sir James said that when the bill was under consideration last year there was some question whether jurisdiction over the power transmission system should rest with the Ontario Railway and Municipal Board or the hydro-electric commission. This was altogether a new question. Reasons for each side of the proposition were given. It was difficult to decide what the proper legislation should be.

Doubts had been expressed regarding the course to be taken. He had discussed the matter with some of the engineers interested in and connected with the transmission plan, who had pointed out that in their opinion it was important that at least a portion of the jurisdiction should be allowed to remain with the hydro-electric power commission, if not all of it, at any rate, until the final completion of the transmission lines and the handing

DR. J. N. E. BROWN Who has resigned as superintendent of the General Hospital.

over the lines to the municipalities. It was quite possible, indeed probable, that further construction work would be entered upon by the hydro-electric commission, and many additional miles of transmission line would be necessary, therefore, having regard to the doubt respecting jurisdiction and to the necessity which, according to the engineers, existed for some jurisdiction, notably that of inspection, and to the fact that further construction would be entered upon, and as it would be a couple of years before the final work

HAMILTON HAPPENINGS

KINDERGARTNERS GET THE MAXIMUM RAISE

Trustee Allen Talks About "Impertinence" in Lobbying "Soft-Hearted" Members.

HAMILTON, Feb. 1.—(Special).—At the inaugural meeting of the board of education to-night Thomas W. Watkins was elected chairman, and in thanking the members for the honor conferred on him spoke of several items of business to be taken up for adjustment during the year among them being the overcrowding of schools, which at present is very bad, and the lack of interest taken by parents in the health of their children, which he said was deplorable.

A request from the kindergarten teachers for an increase in their maximum salary, which two years ago was raised from \$350 to \$500 a year, was tabled, after Trustee Allen had classed as impertinent the manner in which the kindergarten teachers kept after the board and lobbied the "soft-hearted" members.

George R. Allan was elected chairman of the finance committee, J. W. Lamoreaux chairman of the international management committee, Alfred Ward chairman of the technical school committee and John E. Woodell chairman of the building committee.

A wedding took place in the Salvation Army cathedral to-night, the contracting parties being Miss E. Wilshaw and John L. Wingnall. The ceremony was performed by Col. Gaston of Toronto, assisted by Major Green. The bridesmaid was Miss Beatrice Hughes and the groomsmen were Walter Short.

An inquest was held to-night into the drowning accident on the bay on Sunday, by which Fred and Albert Smith met their deaths. Coroner Hopkins presided, and the jury returned a verdict to the effect that the ice floes into which the young men strayed was not sufficiently protected, some of the trees marking it being as much as ten feet apart.

John H. Pilden, prominent for many years in Hamilton's municipal affairs, and one of the best known business men in the country, died last night at his home here, at the age of 68 years.

At the combined banquet of the Hamilton Hibernian lodges here last night, Provincial President C. J. Roy of Perth made a plea for the organization of juvenile lodges to unite the Irish youth. He advocated the teaching of the national language in the separate schools, and complained that, unlike the French clergy, many of the Irish priests had not given the Irish the support they should.

Rev. Father Brady of St. Lawrence Church, who says that the route thru the north end of the city will cut his parish in two, gave the controllers an assurance to-day that the Mackenzie and Mann people are the interests behind the purchases. The city will notify the company that it will submerge its tracks or use a viaduct thru the city.

Salesmen Wanted. Two experienced salesmen for city. Must be men of established probity who are competent to meet and interview the most select clientele. To such salesmen a lucrative and permanent position is assured. Apply personally or by letter to Gerhard Heintzman, Limited, 41-43 Queen-street west (opposite city hall), Toronto. 348

Bargains in Upright Pianos. Several upright pianos of well-known manufacturers are being offered by the old firm of Heintzman & Co., Limited, 193-195-197 Yonge-st., at very exceptional prices for a few days. The prices run at \$175, \$185, \$195, \$225, \$250 and \$275. In every case a large discount from the manufacturers' regular prices. Each piano has been overhauled by our own workmen and is guaranteed in good condition. Terms of payment are a small sum down, and small amount each month.

Married Chinaman and White Girl. "Rev." Robert Brown, Westmorland-avenue, will appear in police court to-day to answer a charge of marrying Roy Tink, a Chinaman, and Lucy Fullerton, a 17-year-old white girl, at his home on Feb. 12, 1910. This is the little man who was convicted before Judge Winchester of a similar offence and allowed to depart under suspended sentence with a warning not to repeat.

Fall on Sidewalk. Benjamin Cooper, 299 West Adelaide-street, fell on the pavement at Yonge and Albert-street, yesterday. His leg and back were injured and he was taken to St. Michael's Hospital in the police ambulance.

TIZ--For Tender Feet

New scientific medical toilet tablet draws out all inflammation and soreness. This remarkable foot bath remedy is superior to powder, plaster or salve. It is guaranteed to cure Corns, Bunions, Fungus, Chilblains, Ingrowing Nails, Tired, Aching, Swollen, Nervous, Sweaty, Bad Smelling Feet.

Smaller Shoes Can Be Worn by using TIZ, because it puts and keeps the feet in perfect condition. TIZ is made only by Walter Luther Dodge & Co., Chicago, Ill., and is for sale at all drug stores, at 25 cents per box. Distributors: National Drug & Chemical Co., Limited; Lyman Bros. Co., Limited.

JIM CONMEE TURNED DOWN BY THE SPEAKER

Tried to Get His Ontario and Minnesota Power Bill Introduced as a Public Measure.

OTTAWA, Feb. 1.—(Special).—The proceedings of the commons to-day were unusually barren of interest. James Conmee tried to get his bill to amend the act respecting the Ontario and Minnesota Power Company introduced as a public bill, but the speaker ruled that it was a private bill and must be treated accordingly. He was ruled out of order after he had spoken for two hours on the subject.

Hon. Frank Oliver introduced a bill to amend the Dominion Lands Act. Its object is to render it possible to lease as well as sell school lands. It was read a first time. Mr. Verville's much amended bill to compel an eight-hour day on public works was talked out. J. D. Taylor (New Westminster) said that in fairness to the house it should be made clear whether the petitions in favor of the bill related to the original measure, or the bill in its amended form. When Mr. Taylor referred to Prof. Skelton, who compiled information for the eight-hour bill of last session, as the minister's own witness, Mr. King, objected. He said Prof. Skelton, with the approval of the committee, had been engaged by him during the Christmas recess to proceed with the work. Mr. Taylor had endeavored to mislead the house. There were cries of "Order," and the

MINOR ACCIDENTS.

Marie Parkinson, 71 Ulster-street, fell in the street at Church and Wood-streets. Her thigh was dislocated, and she was removed to the General Hospital.

Mrs. Jane McCollum, 453 West King-street, fell when getting out a street car at King and Yonge-streets. She injured her back and was taken home.

Sure of His Facts. An earnest preacher in Georgia, who has a custom of telling the Lord all the news in his prayers, recently began a petition for help against the promise of wickedness in his town with the statement: "O, thou great Jehovah, crime is on the increase. It is becoming more prevalent daily. I can prove it to you by statistics."—Everybody's Magazine.

WILL NOT CURTAIL POWER OF HYDRO COMMISSION

Continued From Page 1.

would be completed, he was not prepared to press this bill in its present shape.

Remains on Order Paper. Sir James, in concluding, said that he would leave the bill stand on the order paper for a few weeks at least, until he could have further consultation with the engineers, because, whatever the final form might be, there were several provisions which experience might show the necessity of adding.

Hon. A. G. MacKay—"Are we to understand that the bill in its present form takes the power from the Hydro-Electric Commission and gives it to the Ontario Railway and Municipal Board?" Sir James—"Certainly, certainly, in its present form, yes."

To Prevent Watered Stock. J. W. Johnson (West Hastings) gave notice of a bill to prevent the issuing of watered stock in certain companies. The bill is designed to prohibit the issuing of bonus or free stock. Mr. Johnson takes the position that the increased cost of living is being kept up by the great mass of the people.

Local Improvement Changes.

Hon. W. J. Hanna's bill to amend the Municipal Act, as he intimated when he introduced it, makes some important proposals respecting local improvements. The bill empowers municipalities to construct, in addition to pavements as at present, bridges, street widening and extensions even when the improvements are petitioned against in the locality concerned.

Municipalities will be required to bear the local improvement rate for the foot frontage of exempted property in the district benefited. The local improvement rate will be a flat frontage rate for sub-divisions

HAMILTON BUSINESS DIRECTORY.

HAMILTON HOTELS. HOTEL ROYAL

Very room completely renovated and newly carpeted during 1910. \$2.50 and up per day. American Plan. 627

of the district improved. Where the local improvement exceeds \$20,000 persons affected may appeal to the Ontario Municipal and Railway Board for an order for the municipality to construct the improvement at large.

Racetrack Fees. Hon. Col. Matheson, provincial treasurer, is understood to have in contemplation the levying of a license tax of \$100 a day upon racing at Ontario tracks where bookmaking is permitted.

Applications have been made by the Women's Hostel and British Welcome League for increased grants. A Fiesherston deputation yesterday applied to Hon. J. S. Duff for an agricultural class.

To the Manner Born. Crawford—Do you approve of women going into politics? Orshaw—Sure. Look at what pretty bosses they would make.—Judge.

SOCIETY NOTES

Mrs. E. J. Speckman and her daughter, Mrs. E. Graham Johnston, will receive on Friday, Feb. 3, at 15 McMaster-avenue.

Mrs. Lionel F. Cutten, 135 Avenue-road, will receive on Friday, Feb. 3, Mrs. Alfred Challenger will receive at her new home, 60 Farnham-avenue, on Friday, Feb. 3, and also on Friday, March 2, and not again this season.

Mrs. Frank M. Purdy, 514 Markham-street, will receive today.

Mrs. Norman F. Henry will receive this Friday for the last time this season.

EATON'S FRIDAY BARGAIN LIST

From the Neckwear and Handkerchief Section

Embroidery Edging—4 1/2 inches deep, embroidered in neat open design to half depth of goods; a splendid quality for trimming children's dresses, underwear, etc. Regularly 8c yard. Friday bargain . . . 5

—Third Floor.

THE T. EATON CO. LIMITED

CANADA AND WEST INDIES UNDER ONE GOVERNMENT

President Falconer Suggests Means of Drawing Relations More Closely Together.

President Falconer of Toronto University addressed the Canadian Club yesterday on the relations of Canada and the West Indies, which he knows intimately, through eight years' residence. The islands were not to be judged by their present status, said Dr. Falconer. They formed the gateway to South America, whose mountains could be seen from Trinidad. That island the admiralty intended to make a naval base, partly on account of the petroleum deposits.

As a tentative proposal Dr. Falconer submitted the idea of having Canada and the West Indies united under one governor-general, while the individual islands instead of a governor would have a lieutenant-governor at a reduced salary. A central council of these officials might meet at Ottawa, and at least the relations between Canada and the West Indies would be emphasized. If the connection could be retained and cultivated the islands would be by no means an unimportant part of the empire.

Islands Over-Governed.

He did not think it feasible that representatives of the islands should sit in the Ottawa house, and he admitted the political question to be a delicate one. But the islands were over-governed. Every island had a governor, and the expense of this required heavy taxation which prevented any lowering of tariffs. Sir Daniel Morris had recently been given the position of minister of agriculture for the whole of the islands, and there was a suggestion here for the extension of the principle to the department of public works.

The imports of \$35,000,000 and exports of \$6,000,000 indicated the extent of the trade. Out of the imports Canada only supplied 7 per cent., all the rest of the trade through United States ports might be of Canadian origin. This should be increased by Canadian products, which the West Indies require, such as fish, flour, lumber, boots and shoes, machinery, condensed milk, oats and so forth.

The Shrewd Yankee.

Canada should not seek to impose conditions, but should study trade. Americans went down there and did so, Canadians said. "Here is our flour; take it or leave it." Americans asked what was wanted. "We want a mixture," they would be told, and off they would go to the northwest, buy Canadian wheat, make the mixture required in Minnesota and sell the flour to the islands. That illustrated a great deal of the trade lost by Canadians.

Canada should take the first step and not seek merely to bargain with the islands, but go to them in a large and generous spirit, willing to share with them as a more powerful member of the empire, and enable them to take a stronger position. The development of a first-class transportation system was a prime necessity. The islands were accustomed to a fine steamship service from Southampton, and to get the respect of the islands Canada must be represented by a line of steamers worthy of the Dominion. (Applause.)

Should Get Acquainted.

Such a line should not merely be filled with freight, but the cabins and staterooms should be filled with travel-

WRECK AT L'ACADIE, QUE.

Lady Passenger, Engineer and Fireman Were Injured.

MONTREAL, Feb. 1.—The Rutland Railway passenger train, which left Montreal at 8.30 this morning for New York, was wrecked just an hour later at L'Acadie, near St. John's, Que. There was no loss of life, but serious injuries were sustained by a passenger named Mrs. Laura Le Bombard of Isle La Motte, Vt.; by the engineer, Henry Laparelle, of Rutland, Vt., and by the fireman, William Marchand, of Rutland, Vt. The engineer was cut about the face and head and when found was unconscious. It being impossible to ascertain the full extent of his injuries.

The accident was caused by a defective switch. The switch at that point had been under repair, and for some time past orders had been issued for engineers to run slow over this particular point. It is stated that the Rutland train was going fairly slow, but not slow enough, for the engine turned into the siding. In doing so it split the rails, and in an instant the whole train was derailed and the engine and cars turned over and scattered in confusion along the track.

Stole From Freight Car.

Robert Souley, who was caught stealing some brandy from a freight car in the West Toronto yards, was sentenced to 90 days in jail by Judge Winchester in the criminal county court yesterday morning. Souley claimed he had entered the cars for a different purpose, but "I don't believe your story," said the judge.

Sues for Husband's Death.

Mrs. Mary King, widow of William King, who was killed at the works of the William Davies Co., where he was employed, has entered suit against that company for unstated damages.

MYLIUS GOES TO PRISON

Slanderer of King George Given Maximum Term of One Year.

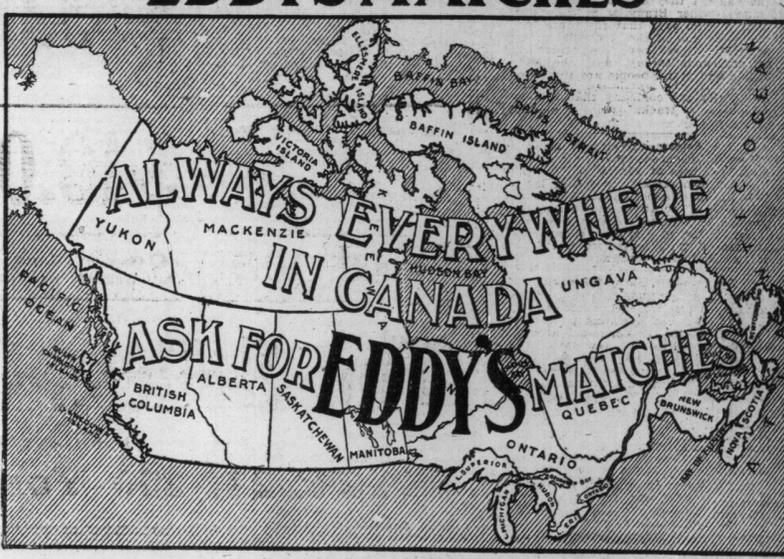

LONDON, Feb. 1.—After brief proceedings to-day, a special jury before Lord Chief Justice Alverstone cleared King George of the charge of seditious libel. Mylius was sentenced to one year's imprisonment.

After sentence had been passed, Sir Rufus Isaacs read a letter signed by King George and authorizing the attorney-general to state publicly that the writer had never been married except to Queen Mary; had never gone thru a ceremony of marriage except with the queen; and that he would have attended the proceedings to give evidence to this effect, except for the advice of the law officers of the crown, that it would be unconstitutional for him to do so.

Mylius was charged with distributing in England copies of The Liberator, a small sheet published in Paris, its editor being Edward H. James, who was formerly a legal practitioner in the United States.

This paper revived the story that his majesty, while Duke of York, contracted a morganatic marriage with the elder daughter of Admiral Sir Michael Seymour, at Malta, in 1890.

ALWAYS EVERYWHERE IN CANADA ASK FOR EDDY'S MATCHES

THE HEIGHT OF FOLLY

To Hand Over to an American Corporation the Key to the St. Lawrence.

MONTREAL, Feb. 1.—The damming of the Long Sault Rapids, the project for which the Aluminum Company of the United States is seeking authorization at Washington and Ottawa, does not find much favor with Mr. John Kennedy, the consulting engineer of the Montreal Harbor Commission. He says it would be the height of folly to hand over to this American corporation the key to the navigable St. Lawrence, and to give into the keeping of others the future of the route on which we have spent so many millions of dollars in channels and canals.

C. SHER, PEOPLE'S TRIBUNE

He Wouldn't say at Door of Car and Policeman Was Called.

Charles Sher, 89 McGee-street, has had further trouble with unsatisfactory P.A.Y.E. cars. As a result he yesterday afternoon sent the following registered letter to General Manager R. J. Fleming:

"Last night about 6 o'clock I boarded a King-street car on the corner of King and Bay-streets, and as the car was not a proper Pay-As-You-Enter, I walked right in. As there was a crowd of people pushing one another the conductor came up and asked me for my fare and why I did not put it in. I offered him my ticket and told him that it was not a proper Pay-As-You-Enter car. He refused to take the ticket. About five or six blocks further on he called a constable on the car and took my name. The constable saw me offering the fare at the time mentioned. I also have other witnesses to prove this.

"I therefore enclose my ticket in this letter, and hope that you will instruct the conductors not to do this thing again, as I will not pay when entering when it is not a Pay-As-You-Enter."

WAS DOCUMENT FORGED?

Evidence Introduced by Samuel Lapp Looked Suspicious to Court.

Samuel Lapp was charged with getting a car of lumber from Hall Bros. under false pretences. He got the goods by declaring that he was going to build, but instead promptly sold the stuff for \$140, when it was worth \$375.

Lapp put in a good defence, but attempting to go one better, showed an agreement which he claimed had been signed by the plaintiffs, allowing him to sell the lumber. The plaintiffs promptly declared the document a forgery, and the case will be adjourned for a week to have the handwriting tested by experts. Judge Winchester said Lapp would have been discharged if he had not bothered bringing up the document.

GRAND NEWS FROM NEW ONTARIO

Mr. G. W. Todd Tells How He Got Rid of His Rheumatism.

Two boxes of Dodd's Kidney Pills brought him the long-looked-for relief—How Rheumatism is cured once and for all.

WASH-TAY-BEG, New Ontario, Feb. 1.—(Special.)—Every person who suffers from rheumatism wants quick relief and a sure cure. That's the reason they will all be interested in the statement of G. W. Todd of this place. Listen to it.

"After suffering with backache and rheumatism for 12 months and trying several so-called remedies and getting no relief, I decided to give Dodd's Kidney Pills a trial. Two boxes brought me the relief I had looked for so long."

Are you looking for relief from your rheumatism? Are you also looking for a cure that will banish its aches and pains so that they will never return? You will find both in Dodd's Kidney Pills.

Rheumatism is caused by uric acid in the blood. That uric acid is in the blood, simply because disordered kidneys are not doing their work. With healthy kidneys, all the uric acid will be strained out of the blood and there cannot possibly be any rheumatism. Dodd's Kidney Pills never fail to make the kidneys healthy. Ask your neighbors about them.

"PIMPLES" Broke Out All Over Her Face.

Pimples are caused, almost entirely, by bad blood, and there is only one way to get rid of them, and that is to get at the seat of the trouble by using a good reliable blood purifying medicine.

Burdock Blood Bitters has been on the market for 35 years, and is one of the very best blood medicines procurable. After using it you will find that the pimples have disappeared, and you will have a beautiful clear complexion.

Mrs. Robert McNab, Badjeros, Ont., writes:—"I am greatly pleased to report the benefit I have derived from the use of Burdock Blood Bitters. About a year ago I became so weak and run down I could scarcely walk, and pimples broke out all over my face. I tried one thing after another, but nothing seemed to do me any good. I was advised by a lady friend to try B.B.B. and before I had used one bottle I felt it was doing me good so I used three bottles, and I am now well and strong, and the pimples have all disappeared."

Burdock Blood Bitters is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

A SERIOUS SITUATION.

WASHINGTON, Feb. 1.—The eruption of Taal volcano and the accompanying disturbances in the Philippines killed 700 people in the town of Talisay, according to the report of the governor of Batangas province. Five thousand families have been ruined by the disaster.

The Philippine authorities are face to face with the absolute necessity of adopting relief measures in order to avoid suffering, as the falling mud and lava destroyed the crops within a considerable radius. The red cross is taking steps toward that end.

Bank Sues Paper Company.

The Sovereign Bank, or the remains of it, is suing Parsons Bros., an American paper company, for \$12,000, alleged due the Imperial Paper Mills of Sturgeon Falls. At a trial held some time ago the defendants counterclaimed for breach of contract, but it was held that there must be separate action and judgment. The court of appeal is hearing the argument.

James D. Matheson's Death

James D. Matheson, who for many years conducted a drug business on King-street, near the corner of York, and who was known among his friends as "Doc," was found dead in a bed in a lodging house at 117 York-street yesterday at noon. At one time he possessed considerable means and was known as a great horseman, but having become addicted to drink, he gradually fell both in health and resources. His death is attributed to alcoholic poisoning and heart failure. He was about 58 years of age and married. Several adult children survive him.

Want Harbor Dredged.

KINGSTON, Feb. 1.—(Special.)—Deputations from the council and board of trade sent to Ottawa to petition for the dredging of the inner harbor and construction of a new bridge from Bell's Island to Pittsburgh shore.

Granites effect Lindsay 5 Shots in Tankard Final

Note and Comment

The Toronto Granites made a record for the Tankard yesterday by landing the prize the third year in succession, and by the identical eight players on each occasion. Lindsay had two successive years to their credit in 1907 and 1908, but they came with a team which had altered the second year. It is also on record that the Toronto club landed the Tankard in 1876 and 1877, but the competition was not so hard a struggle in those days. The Granites also lead in total victories. The leaders in thirty-seven years being as follows:

Toronto Granites	8
Hamilton Wanderers	5
Lindsay	2
Galt	2
Paris	1
Toronto	1

The form shown by the Rennie rink was sufficient to undo a campaigner like Flavelle, just as the latter's game the day before had put Fritz Little into the banker. Excellent James Granite quartet was on edge, and with Wilson resolved on a careful game after his morning's exertions, he was scarcely ever looked dangerous.

In the absence of the president of the association, Col. McKenzie of Sarnia, who was laudably engaged in the Governor-General's presentation, the presentation was made by Mr. Flavelle, a past president. He stated, as many spectators noted, that he was not in the game in the final, but admitted that his best efforts would have been useless against the Rennie brand.

Here another record was made, the proceedings being the shortest ever. Tom Rennie, the successful skip, who is also president of the Granites, accepted the bettered place of silverware on behalf of the club, in a few well-chosen words, at the same time complimenting the winners on their play.

The six city clubs engage in their friendly games to-night, three rinks at home and three away, the schedule being as follows: Toronto v. Parkdale, Prospect v. Lakeview, Queen City v. Granite.

Umpire Tom Brunton has called the surviving cup teams of the season to play on Friday, the draw being as follows:

Queen City—1. Granites v. Prospect Park; 2. Lakeview v. Parkdale. At Granite—3. Newmarket v. Brampton v. Aberdeen.

Semi-final—1 v. 2; 3 v. 4. Final between the winners.

Merle Arnold Bell, the Toronto boy who has come to the front as a jockey in the south, will start for the Granites in the semi-final, and will be supported by McCormick to Germany this year, where the latter is chief trainer of the extensive stud owned by the young Bell, living with his parents on the Kingston road, near the Woodbine.

HOCKEY NOTES.

Argos and Varsity Juniors play at Mutual-street rink and the Argos will tie up the group. The college boys had to go the limit last week to defeat Parkdale and as the outcome are practicing hard a good game will result.

Group 5—Goals—Won. Lost. For. Agst. Varsity..... 3 0 32 7 Argos..... 0 3 14 25

On Friday night at Mutual-street rink will be the deciding game in Junior group. Upper Canada and Sarnia B are the two for the district and the game should be very fast with hard work to pick a winner. Several of the games have been played already in this group.

Group 6—Goals—Won. Lost. For. Agst. Upper Canada..... 2 1 16 20 Sarnia B..... 1 2 23 30 St. Michaels..... 2 2 21 21

St. Michaels will play Leaside at rover against Stratford on Saturday night. This is very fast going, and the game should be a dandy, now that Stratford defeated Leaside. Stratford and the Classic City team yet have a chance for the district even yet. Anyway both teams are going very fast just at present and if the contest continues at same good hard ice will result, which is much more satisfactory than the slushy hand. The plan will be open at 194 College-street Friday morning.

Group 10—Goals—Won. Lost. For. Agst. Parkdale..... 2 1 21 9 St. Michaels..... 1 2 10 18 Stratford..... 1 2 10 18

Toronto Junior Club go to Collingwood on Friday to play in the second round of the Junior C. A. and a large number of club members are going. Return game is at Mutual-street rink next Tuesday night.

Preston Defeats West Toronto. PRESTON, Feb. 1.—The first game of the second round of the O. H. A. semi-finals was played at Mutual-street rink last night. The result was a 2-0 in favor of the Victorias. The scorers were: In the second half Preston changed the time and scored six goals. When the last goal sounded the who was 2 to 2 in favor of the home boys. score was played the Victorias off their feet and made them yell. Line-up—

Victorias (2)—Goal, Teasdale; point, McBurney; cover, Kennedy; centre, McLean; rover, Joyce; left wing, McKee; right wing, Kerby.

Preston (6)—Goal, Short; point, Pfeffer; cover, Pleother; centre, Etherington; rover, Bleth; left wing, Bowman; right wing, Anderson.

Referee—Ed. Wettlaufer, Berlin.

Weston 2, Lourdes 1. Weston last night defeated Lourdes by 2-1 in a fast Junior Toronto Hockey League game. Play was very even throughout. The teams: Weston (2)—Goal, Rowntree; point, Miller; cover, R. Coulter; rover, Barto; centre, Moody; right, McLenan; left, H. Coulter.

Lourdes (1)—Goal, Pearce; point, Curran; cover, Goldsmith; rover, Woods; centre, Roy; right, Newton; left, Lawrence. Referee—J. Labatt.

T. R. C. Three-Man League. Games in the T. R. C. Three-Man League last night resulted as follows:

Thornhill	1	2	3	T. I.
Gorman	1	2	1	T. I.
Best	1	2	1	T. I.
Durban	1	2	1	T. I.

Totals..... 481 461 483 492 302
Maple Leafs..... 1 2 3 4 T. I.
Cannon..... 1 2 3 4 T. I.
Best..... 1 2 3 4 T. I.
Durban..... 1 2 3 4 T. I.

RENNE 7 UP ON FLAVELLE WILSON 2 BEHIND LITTLE

Granites Have Close Call in Semi-Final, Defeating Sarnia After Two Extra Ends.

Granites again won the Tankard yesterday, defeating Lindsay in the final. Their tough game of the whole competition was against Sarnia at Queen City, the game lasting till four in the afternoon and requiring two extra ends. Lindsay defeated Collingwood by nine shots at Victoria, being ahead from the start.

The Sarnia curiers put up a plucky battle, a seven and a six against Wilson in the second and third ends made it an uphill fight for Granites all the way. Tom Rennie had his troubles beating Col. McKenzie enough to hold Wilson on his feet. However, once Wilson got going, he came strong and saved the game for the Granites on the first extra end by landing a goal. Rennie kept the lead throughout the game, and won it out with a double on the 23rd end. The Rennie was one up on McKenzie in his last end, and had another stone to send down, when Wilson clinched the contest with his pair of counters.

Granites kept the lead throughout the final, that was started about five o'clock on ice at Victoria, and lasted until nine. Tom Rennie took the lead at the start on Flavelle, and just as the veteran counted his second single, the fourth end, Wilson netted a four on Little. The latter pulled away from Flavelle, and the game was on a nice three the fourteenth end by working out Granites' second shot, that was a foot and half in front of the goal. Two the next end for Granites included a pretty draw for second by Rennie right up to his own shot beside the button.

The galleries were well filled for the closing ends, the visitors from the east being inclined to cheer on the slightest encouragement. But the city rinks were steady and personified. Lindsay were lying three the seventeenth, when the manager suggested that Hawke could clear them out, and he did with his second rock. Little worked in, curling his himself in his last.

Meanwhile, Rennie and Flavelle had finished and were chafing at the bit, when they were playing the eighteenth on the other rink. Little was one up, and Flavelle seven down, so all Wilson had to do was avoid a six or seven, which he had actually run up against in the morning. So he just had to tremble come up. Rennie's shot the button, Hunter and Hawke also guarded, and then it occurred to Little that the game was gone, and he would curl to half his position, and he piled on more guards. Thus it wound up, the last three Granites rocks went wrong in trying to make a raise to the shot.

SEMI-FINALS—AT QUEEN CITY. Sarnia (2)—Goals—

Dr. Hayes, skip..... 2 H. T. Wilson, skip..... 21 Col. McKenzie, skip..... 14 T. Rennie, skip..... 21

Model and Eureka's Ties. The Model School hockey team played a friendly game at Mutual-street rink, ending in a tie 2-2. The teams:

Model (3)—Goal, Love; point, Tubby; rover, Porter; cover, Boye; centre, Fox; wings, King, Marrett.

Eureka's (3)—Goal, Fat Burkel; point, Thomson; cover, Alexander; rover, Clark; centre, Grill; wings, Grever, Bowman.

Upper Canada 6, St. Michaels 5. In a game of the second round of the Junior group, the Upper Canada defeated St. Michaels' rink last night at Mutual-street rink yesterday afternoon by 6 to 5. Overtime was necessary to declare a winner.

EATONS EASILY DEFEAT T. R. C. BY SCORE OF 10-8

B'g Store Team Ran Away From Crimison in Early Part of Game.

Eatons' Senior O.H.A. team gave the T.A.A.C. team a thoro beating last night at Mutual-street rink in the fastest kind of ice, with all conditions exactly suited to both teams. Final score was 10-8. A large crowd turned out to see these two teams battle, but it certainly cannot be said they saw hockey of a senior caliber. Individual, casual and in evidence, barring probably about eight minutes of play at the commencement of the second end, the game was over. McCreath and Burke did some really clever things. Their skating was fast and passing sure, but it was only a flash as three men cannot make all the time.

Individually Eatons were a better team all round; they rushed well and what is more they checked back, while the other something T.A.A.C. failed badly to do. Weather defence played their positions and playing the style of hockey they did, both teams would be many marls for a properly organized team. Both the goal-tenders made some excellent stops and certainly McCreath was in no way to blame for the score that was piled up against him, as his defence were any-where but in their proper positions and gave him absolutely no protection; the T.A.A.C. improved considerably when Bert McCreech was removed from point to centre and Brown went to right, while Burke was point. These three players worked hard and were much the best of their team, with home defence being better. McCreech was in no way to blame for the score that was piled up against him, as his defence were any-where but in their proper positions and gave him absolutely no protection; the T.A.A.C. improved considerably when Bert McCreech was removed from point to centre and Brown went to right, while Burke was point. These three players worked hard and were much the best of their team, with home defence being better. McCreech was in no way to blame for the score that was piled up against him, as his defence were any-where but in their proper positions and gave him absolutely no protection; the T.A.A.C. improved considerably when Bert McCreech was removed from point to centre and Brown went to right, while Burke was point. JACKSONVILLE, Feb. 1.—The entries for Thursday are as follows: FIRST RACE—Irishtown, High Brow, Drexel Hill. SECOND RACE—Bertis, Oakley, Fire, etc.

Oakland Card

OAKLAND, Feb. 1.—The following are the entries for Thursday: FIRST RACE—5 furlongs: 1. Dutch Rock, 108; 2. Dunc Campbell, 109; 3. Ed. Keck, 109; 4. Ben Ann, 96; 5. Sokol, 96; 6. Indian Girl, 93; 7. Ammie, 93; 8. Rhonda, 93; 9. Ab, 93; 10. Red, 93.

Juarez Program

JUAREZ, Mex., Feb. 1.—The entries for tomorrow are as follows: FIRST RACE, 5 furlongs: 1. Iwalan, 106; 2. Mamie Woods, 106; 3. Maxine Dale, 106; 4. Smiling Malden, 106; 5. Chemulpan, 106; 6. Lady Stewart, 102.

Q. O. R. Indoor League

A very interesting game was played last night at the armory between A. Co. and C. Co. in the Q. O. R. Indoor Baseball League, and resulted in a win for the former team by the score of 7-12. Battery for winners, Murray and Stewart.

Reliance A. C. Stag

The athletic club will hold their next stag euchre party Monday, Feb. 6. Three valuable prizes will be given. Euchre will start at 8:30 sharp, so as to give the committee a good chance to put more boxing bouts on.

STAR BLUE EASILY WINS MIAMI SELLING STAKES

Starts Last in Feature at Moncrief and Finishes First by Two Lengths.

JACKSONVILLE, Feb. 1.—Star Blue easily captured the Miami Selling Stakes, worth \$100, from a field of fast sprinters at Moncrief to-day. The winner was last to leave the barrier, but finished two lengths in front of Lady Irma. Summary: FIRST RACE, purse \$400, 2-year-olds, 3 furlongs: 1. Joe Knight, 115 (McCahey), 2 to 1; 2. Efficiency, 112 (Loftus), 9 to 10, 1 to 3 and out.

SECOND RACE, purse \$400, 2-year-olds, 3/4 furlongs: 1. Sam Matthews, 109 (Bell), 7 to 2, 6 to 5 and 1 to 2; 2. Goldrick, 104 (Gross), 8 to 5, 7 to 10 and 1 to 2; 3. Coletta, 107 (Butwell), 6 to 1, 2 to 1 and 4 to 5.

THIRD RACE, selling, \$400, 2-year-olds, 3/4 furlongs: 1. Common Sense, 109 (Obert), 6 to 1, 2 to 1 and 4 to 5; 2. Decey, 102 (Loftus), 2 to 1, even and 1 to 2; 3. Port Carroll, 109 (Butwell), 3 to 1, even and 1 to 2.

FOURTH RACE, Handicap, Miami Selling Stakes, \$1000, 2-year-olds, 6 furlongs: 1. Star Blue, 109 (Bell), 11 to 5, 9 to 10 and 4 to 5; 2. Lady Irma, 102 (Gross), 18 to 5, 9 to 10 and 4 to 5; 3. Ben Double, 105 (Musgrave), 8 to 1, 2 to 1 and 4 to 5.

FIFTH RACE—Tolson O'Or, Eye White, King of Tofo. SIXTH RACE—First Peep, Our Hannah, Stoneman. SEVENTH RACE—Lescar, Crex, Dutch Rock. EIGHTH RACE—Presumption, Zimmi, Maimie.

Results at Oakland

OAKLAND, Feb. 1.—The race to-day resulted as follows: FIRST RACE, Futurity course: 1. Lucile Maney, 119 (Kester), 9 to 2; 2. Tahoe, 112 (Thomas), 18 to 5; 3. Rusmax, 115 (Riddle), 8 to 1.

SECOND RACE, Futurity course: 1. Black Bay, 112 (Gargan), 8 to 1; 2. Gypsis, 105 (Pickens), 2 to 1; 3. Manistee, 107 (Pickens), 4 to 1.

THIRD RACE, 5 furlongs: 1. Lord Provost, 107 (McBride), 7 to 1; 2. Abe Slupecky, 95 (Thomas), 5 to 1; 3. Grace G., 107 (E. Martin), 5 to 1.

FOURTH RACE, 2 furlongs: 1. Queen Bee, 111 (Molesworth), 11 to 3; 2. Ruth Esther, 105 (Johnson), 11 to 3; 3. Lady Nuts, 105 (McCahey), 4 to 1.

FIFTH RACE, 1 mile, selling: 1. Aunt Nancy, 102 (Cathryn Scott), 102; 2. Personality, 104 (McLessa), 102; 3. Candie Berry, 107 (Denny), 102; 4. Col. Bronston, 109 (Saint Klida), 109; 5. Nebulous, 109 (Lucy Moss), 112.

SHOOTING AND FISHING ON ISLAND

Shooting Editor World: With the city council and various societies agitating for more playgrounds for the children, the city is being deluged with the same bodies agitating for the elimination of the slums, and preaching pure air and hygiene. It seems indeed strange that the city council seems determined, without any reason whatever, to abolish the open season. That is the subject to which I refer in making illegal shooting with a shotgun on our waterfront during the open season. The subject is not dangerous, at least in that section east of the eastern end of the bay and the harbor towards the city. It is not dangerous to anyone who has taken the trouble to go to that section after Sept. 15, and before a large number of the park and the beach after that time remain solely for shooting and fishing. I have this year almost doubt that if a petition were circulated on Fisherman's Island, Simcoe Park and the beach east of Coarworth's Cut, the signatures of every resident could be obtained, protesting against being deprived of this most pleasant recreation.

There are many in the city whose only chance for an outing with the gun is our waterfront. By fishing before daylight in the morning and hunting on the beaches, they may be having the pleasure of a healthy recreation, and the amount of danger or harm to anyone. Had the city council taken the trouble to look into this matter, they would have found that the city is deprived of those who try to observe the law, and chance whatever of shooting? How the city council may see their way clear to a more generous action than this.

H. F. ALBERT, 115 Grace-street.

WEST END WEEKLY HANDICAP

The West End seniors held another of their popular weekly handicaps last night when the 12-pound shot-put and the 60-yard potato race were down for decision. In the shot-put, Winston was first, with a round around, while it was just the other way around in the potato race. The following are the results:

Table with 3 columns: Name, Hop, Distance. 1. Winston 8.1 88.3; 2. Dennis 12.4 88.2; 3. Charles 10.9 88.0; 4. Paycklerly 9.9 88.0; 5. Boyd 13.2 87.9; 6. Sam 10.2 87.2.

Table with 3 columns: Name, Hop, Time, Sec. 1. Dennis 1.15 14.5; 2. Winston 1.45 14.5; 3. Begley 4.5 14.5; 4. Cross 1.25 14.5; 5. Boyd 1.15 15; 6. Sam 1.15 15.

Three Teams Left in Gov-General's

London Thistles won two games in the Governor-General's competition yesterday, defeating Belleville in the morning and Collingwood in the afternoon, suffering defeat for the second time, the last and deciding one in favor of Collingwood. Following are the scores:

Table with 2 columns: Team, Score. London Thistles, Belleville, 11-1; J. Burrows, M. Wright, 11-1; Total, 23-23.

Table with 2 columns: Team, Score. Paris, Bright, 29-29; J. D'Vish, W. Kerr, 29-29; J. Carnie, R. Cuthbertson, 11-11; Total, 68-68.

Table with 2 columns: Team, Score. Collingwood, Sarnia, 31-31; W. E. Vernon, Dr. Hayes, 31-31; N. Rule, Col. McKenzie, 17-17; Total, 79-79.

Thus three teams are left for the prize. London Thistles, Paris and Collingwood. Thistles and Paris play the semi-final this morning, the winner to meet Collingwood in the final in the afternoon, both games at the Queen City.

Special Extra Mild ALE Special Extra Mild STOUT. Clear as crystal—golden amber in color. Rich, creamy and sparkling. With a flavor of irresistible deliciousness. A bottle of O'KEEFE'S ALE is a drink of delight.

Varsity Are Beaten By Central Seniors In Fast Basketball

Central seniors defeated Varsity by 49 to 23 on Central floor last night, in a basketball game, in which there was something doing all the time.

Letimer and Mel Brock had a battle royal looking after each other, and were about even on points scored. The game was clean through, and the big crowd that turned out was furnished with a good exhibition.

The half-time score was 24-14 in favor of Central. The teams were as follows: Central (4)—Forwards, Slevert, Letimer, Centre, Tompkins; guards, Hunter and Swanson; spars, Gage. Varsity (23)—Forwards, Brock, Broddy; centre, Simpson; guards, Dixon, Wood; spars, Gage. Referee—McLeod.

The following is the summary of points scored: Central—Letimer 23, Slevert 18, Hunter 4, Varsity—Brock 29, Gage 3, Ward 5.

Hamilton Basketball Team Coming

On Saturday evening on St. James' Cathedral parish house floor, St. James' senior basketball team will play Hamilton Y.M.C.A. a return match. These two teams met in Hamilton recently and the home team were returned winners after a hard struggle by a small margin.

The St. James' boys are confident they will turn the tables Saturday evening and that end have been practicing very hard of late and are in splendid good shape. The Hamilton boys are confident they will win.

JOHNSON AND KAUFMAN

Heavyweights May Clash Soon for Six Rounds in Philadelphia.

NEW YORK, Jan. 23.—It developed yesterday that unless there is an unexpected hitch Jack O'Brien, who is promoting a big boxing club with a huge arena in Philadelphia, will succeed in signing Jack Johnson, the heavyweight champion, to meet Al Kaufman in a six round bout some time next month.

Kaufman is on his way east and O'Brien had a confab with Johnson in Pittsburgh the other day that appears to have been entirely satisfactory. Johnson is anxious to show his skill in Philadelphia in return for a big guarantee for six rounds, and it is said that he has requested O'Brien to challenge him with Kaufman if possible. Kaufman recently challenged Johnson, although he said he did not expect to secure a match for at least a year. As soon as Johnson learned of this challenge he expressed a desire to meet Kaufman as soon as the latter was ready.

After talking with the big negro O'Brien said to have wired Kaufman to come east, and as soon as the Californian arrives in Philadelphia he will be notified that Johnson is ready to box him. If Kaufman declines to make the match Joe Jeannette will probably be substituted. Jeannette has met Johnson in half a dozen fights and has never been soundly defeated. He thinks he can hold his own in any six round bout and has asked O'Brien to give him first chance. Johnson, who has been in Chicago, says he has begun to take light exercise and declares that he can fight himself for a short bout of this kind in a couple of weeks. Johnson, by the way, has arranged to visit California some time in March, prepared to remain at least a month. He was visibly annoyed recently when he heard Barney Oldfield's story to the effect that Jeffries had admitted that he was doped before he got into the ring at Reno last July.

"I am going to see Mistah Jeff," says Johnson. "It will be a friendly call, as there is no hard feeling; I shall let him tell me himself whether he believes these dope stories, and if he doesn't want any part of me, he can fight. If he wants to meet me again I'll be ready any time, but I shall insist upon getting my price. Really, tho', I don't believe Mistah Jeff ever said he had something put in his tea, and furthermore I am sure that he doesn't want to fight me again. "Do you notice how Mr. Sam Langford has run away from me again? I accepted an offer to box him six rounds at Mistah O'Brien's club in Philadelphia, but as soon as he was asked to sign articles he took a steamboat for England. Choo! choo! He doesn't want any part of me. He knows I can beat him, and he prefers an easy mark like Bill Lang or some of those punk English heavies."

Langford and his manager and sparring partners arrived in London on Wednesday. The Boston "Tar" Baby hunted up training quarters immediately and is now hard at work for the fight which will be held in Hugh McIntosh's Olympia on Feb. 18.

Knotty Lee was in Woodstock the other day in the interests of the proposed Ontario Baseball League, and as a result of his visit considerable interest has been aroused there in the enterprise. Prominent business men and others interested in athletics have been seen, and it is thought that there will be no difficulty in forming a stock company to finance the proposition. A meeting of those interested will be held in a few days, and it is likely that the league will be definitely formed at a meeting to be held in Hamilton at the end of this week. At least, that is what Lee says, according to a Woodstock paper. The places so far mentioned for teams are London, Stratford, Berlin, Bradford, Chatham, St. Thomas, Hamilton and Woodstock.

LIMOUSINE BARGAIN

Forty horse-power Limousine car—fully equipped. Must be sold immediately, as owner has no further use for it. Can be purchased at the price of a Limousine body. Car has been thoroughly overhauled and repainted and is in perfect condition. A snap for some one who acts quickly. Can be seen at Russell Garage, 109 Richmond St. West.

CONTROL OF POWER PLANT AND RATES.

Sir James Whitney has denied that there is any truth in the rumor that he had intended placing the hydro-electric rates under the control of the Ontario Railway and Municipal Board.

This bill provides for the removal of the regulation of construction, operation, protection, and inspection of the works, plant, machinery, appliances and equipment for transmission and distribution of electrical power by municipal corporations and private power or transmission corporations from the Hydro-Electric Commission to the Ontario Railway and Municipal Board.

If Sir James insists on putting this bill thru it means that those electrical experts, Messrs. Leitch, Ingram and Kittson, will in future sit in judgment on the electric equipment of the City of Toronto and the other municipalities which have contracted to install plant under the Hydro-Electric Commission.

If they are not to rely on their own expert knowledge is it the intention of Sir James to create a new electrical engineering department in connection with the railway board? Or if not, will the railway board rely on the expert advice of the Hydro-Electric Commission? In that case is it not merely a subterfuge to change the nominal control from the commission to the board while the commission thru its experts dictates decisions? And if the control is to be actually removed from the Hydro-Electric Commission what reason can Sir James give for this action? The Globe states that "it was felt" that there would always be danger of the suspicion that the Hydro-Electric Commission would not act fairly, and the inference is that Sir James has more confidence in Mr. Leitch's board than in the Hydro-Electric Commission.

What has Sir James to say to this obvious suggestion of the Globe? Who "has felt" that the commission might be unfair? Sir Henry Pellatt and his friends have said as much, but are we to infer that Sir James is taking his cue from Sir Henry?

And what have the members of the commission to say to this suspicion that the Globe mentions? It is not a complimentary action of the premier to take at this juncture, either at the instance of Sir Henry Pellatt or anyone else, and Hon. Mr. MacKay can ask for no better campaign material to go to the electors with than this virtual declaration of want of confidence in Hon. Adam Beck, Hon. J. S. Hendrie and Mr. W. K. McNaught.

We trust Sir James will see that all that could be said about transferring the control of the rates can equally be said of changing the control of equipment, and that as he has recognized the agency of the arguments in the one case, he will let the other proposal drop until it be shown to be necessary.

Sir James is shrewd enough and strong enough not to be afraid to withdraw from a false position.

RAILWAYS IN NEW ONTARIO.

One big question before the Legislature this session and for some time in the future will be that of railways for New Ontario. New Ontario is a great country, and its settlement will have much to do with making Canada continuous, the eastern provinces put in living touch with Manitoba and the west, in other words, New Ontario must be filled up. The only way to fill it up is with railways. There is farming land and timber lands and the greatest wealth of minerals probably in any spot in North America to be found in New Ontario. There is copper, nickel, gold, silver; other valuable ores will be unworked. There are immense stores of pulpwood; there is any amount of water power. Every railway opened up so far has been profitable. The Canadian Pacific is profitable. The Timiskaming and Northern Ontario is profitable, the Canadian Northern in so far as it is built has proved profitable. The Grand Trunk lines that run up into that north country have proved profitable.

All that is wanted is extensions of

CANADA PERMANENT SAVINGS DEPARTMENT

We accept any sum from one dollar upwards, and credit interest at Three and One-half Per Cent. Per Annum, compounded four times a year. TORONTO ST. TORONTO

MORTGAGE CORPORATION

existing lines and new ones. There is no doubt now that the extension of the state-owned railway into Porcupine will prove a success. A big delegation will be here in a few days to urge that it be extended still further, and on down into Gowanda and Elk Lake. We believe there is lots of business for such an extension. In fact, we will look to see the extension made right down to Sudbury, and from there the line to have running rights both over the Canadian Northern and the Canadian Pacific and the Georgian Bay and Toronto. We believe the fastest passenger line to Cochrane will be from Toronto to Sudbury over the Canadian Northern or the Canadian Pacific, and from Sudbury over a new line on the Timiskaming and Northern Ontario to Cochrane, where connection will be had with the Grand Trunk Transcontinental. The people from North Bay are coming down in a few days also to have an extension of the Canadian Northern into that town and further on. The Canadian Northern, we also believe, is working with the government for some kind of re-arrangement in the matter of aid already voted for the construction of its line from a point north of Sudbury to Port Arthur, all round Lake Superior. This line, we believe, ought to be built at the earliest possible moment. It will open up mining, timber and agricultural lands very rapidly and all these things will tend to bring about what we say is absolutely necessary for the confederation, namely, a living touch between Manitoba and Ontario.

There is no reason why Sir William Van Horne's illustration of a spout to the funnel should continue any longer. There should be no spout, but a continuous country opened up and settled. As was pointed out in these columns the other day the remarkable thing is that notwithstanding that Ontario has been the backbone of the construction of the three transcontinental lines, the only place to-day where two of them are not constructed is in Northern Ontario. We have paid more than our share for these lines and their building, and yet they are not built in the Province of Ontario. The Grand Trunk Pacific is all over the west, so is the Canadian Pacific, and so is the Canadian Northern, but only one of them is a transportation force in Northern Ontario to-day.

The legislature cannot frame up too big a policy not only for the building of railways, but the settlement of the new country with energetic settlers. There must be liberality in railway building, there must be liberality in the treatment of settlers, and there must be liberality in the treatment of miners, and at the same time a fair regard must be maintained to public interest. No one can imagine what a settled up North Ontario means for the business and people of Southern Ontario. The trade and business of Southern Ontario would be quadrupled by a great consuming public between the Georgian Bay and the Manitoba boundary, and there is to-day all the material necessary for filling up of that territory, provided we have the railway ways and a policy of encouragement.

THE KING'S HONOR.

Unusual and almost unprecedented as was the prosecution of Edward F. Mylius, for uttering a criminal libel closely touching the honor of the King, the action taken by the British Government will be held through the emperors to have had ample warrant. Rumor and gossip have for some considerable time attributed to King George the contraction of a marriage in Malta with the daughter of a British admiral, variously named, but most commonly, Sir Michael Culme Seymour. The story was revived by United States yellow journals, after the King's accession, and adorned with embellishments such as usually attend their descriptive and pictorial efforts. It has now been proved by evidence which cannot but satisfy every reasonable man that the slander was absolutely without foundation.

The libel of which Mylius was convicted was of an aggravated character, not altogether because it was directed against the King, but quite as much because it involved infinite distress to his own family and the family of a distinguished naval officer, who has also the state valuable service. They also are entitled to be considered and to be relieved from the poison cast by viper tongues. There have been times in British history when the private character of men born to high place or achieving greatness, was regarded with indifference. That attitude is impossible with the standard of morality now exacted. On that account alone the public vindication afforded by the prosecution of Mylius will be welcomed as an assurance of changed conditions. The declaration made by the attorney-general that redress was not asked to protect the King as King, but as a man, a husband and a father should carry convincing appeal to

JACK CANUCK: They're so busy with their political passenger service they've forgotten me and my freight.

every right-thinking and right-living citizen of the empire.

NORTH TORONTO AND THE RAILWAY BOARD.

Chairman Leitch of the railway board must not be too summary in dealing with North Toronto. The annexation of the suburb to the city is a most important question, and one that the railway board should be well informed upon. There should be no change in the conditions until the question is settled. The chairman could not attempt to force a double track on Yonge-street without seriously disturbing the situation, and if he is not going to do that, there is no need for haste.

Can Dr. Chapman come back?

Sir James Whitney need not be too concerned over the story of the health of the attorney-general. When a newspaper strikes the parliament buildings he always starts out by removing Mr. Foy and shifting Mr. Hanna. It looks so obvious.

THE TORONTO GENERAL TRUSTS CORPORATION.

Among the financial institutions which have their head offices in Toronto, none is more carefully and efficiently managed than the Toronto General Trusts Corporation. Carefulness and efficiency are the two essential qualities in the management of a trust company. As the managing director, Mr. J. W. Langmuir, emphatically stated in the able address he made during the year by a net amount of \$3,726,184.10, so that to-day they reach the surprising sum of \$41,607,297.63. This marked success is indicated by the gratifying increase in the volume of the assets in the care of the corporation, these assets having increased during the year by a net amount of \$3,726,184.10, so that to-day they reach the surprising sum of \$41,607,297.63.

The directors of the corporation have expressed their sense of the value of public confidence by electing to the presidency the Hon. Featherston Oaker, for so many years a judge of the Court of Appeals of Ontario. His frank and cordial words of appreciation of the way in which his business is being conducted, and his belief in the principles underlying these business methods, will certainly add to the public's confidence in this reliable and sturdy company.

NATIONAL TRUST COMPANY.

In another column of this issue will be found the report of the 13th annual general meeting of the shareholders of the National Trust Company. The directors, by a net amount of \$3,726,184.10, so that to-day they reach the surprising sum of \$41,607,297.63.

GOD'S MERCY.

Editor World: I see by to-day's paper that Dr. Chapman states that there is a place where God's mercy ends. Will this paper kindly refer Dr. Chapman to the 16th Psalm, where it states 26 times that His mercy endureth forever, and ask him to read it at his next meeting? A Reader.

ANNOUNCEMENTS.

Motions set down for single court for Thursday, 2nd inst., at 10 a.m.: 1. Re Muloock and Chins. 2. Blythe v. Canadian Malleable. 3. McEwan v. Macklin. 4. Rogers v. National. 5. Richards v. Lambert. 6. Re McAllister estate.

Peremptory List for court of appeal for Thursday, 2nd inst., at 11 a.m.:

1. Sovereign Bank v. Parsons (to be continued). 2. Dominion Improvement and Developing Co. v. Lally.

Peremptory List Jury Assizes Today, 10 a.m.

Bernstein v. Toronto Railway.

Peremptory List Non-Jury Assizes Today at 10:30 a.m.

Scott v. Sleman. Murphy v. Traders.

Master's Chambers.

Burrows v. Coons de Marvel Oo.—A. T. Bowby for plaintiff. T. H. Will for defendant. Motion by plaintiff for an order striking out statement of defendant undertaking to file affidavit not later than 4th inst. motion dismissed. Costs in the cause.

Hunt v. Salter.—C. M. Garvey for plaintiff. T. N. Pheasant for defendant. Motion by plaintiff for an order transferring action from the high court to the County Court of York. Order made. Costs of motion and excess in costs of action to date to be to the defendant in any event.

McPhail v. McPhail.—R. C. Leveson for plaintiff. Motion by defendant for an order setting aside notice of trial irregular. Order that notice of trial be set aside. Costs to defendant in any event.

Single Court.

Before Falconbridge, C.J. Byer v. Byer.—J. Tytler for plaintiff. Motion by plaintiff for an injunction. Injunction granted restraining defendants, The Metropolitan Bank, until Monday, 6th Feb., 1911, from paying to the defendant, Peter Byer, or his order, any of the moneys in their hands belonging to the said Peter Byer to the extent of the plaintiff's claim, being the sum of \$4200.

Before Riddell, J.

Ryan v. Hefferman.—F. L. Bastedo for plaintiff. M. K. Cowan, K.C. for defendant. Motion by plaintiff for an order continuing injunction. It ap-

pearing that defendant has obtained an order for security and that same not yet perfected, motion enlarged for one week. Injunction continued meantime. Van Every v. White.—F. L. Bastedo for plaintiff. J. W. Curry, K. C., for defendant. Motion by plaintiff for an injunction. Enlarged for one week pending examination of plaintiff. Marsden v. Sieber. F. L. Bastedo for plaintiff. R. McKay, K.C. for defendant. Motion by plaintiff for an injunction. Enlarged for one week. In re Cotterill Estate.—J. W. McCullough for executors. S. J. Arnott for Violet Glocking. S. W. McKeown for Elizabeth Cotterill. J. R. Meredith for infant. Motion by executors of the will of John Cotterill for an order construing the will. Enlarged until 8th inst. Gaetano. The Nepton Construction Co.—S. C. Wood for defendant. No one contra. Motion by defendant for judgment pursuant to report of the master at Port Arthur. Judgment dismissing claim with full costs, but irrespective of the amounts mentioned in the report not the subject of reference. Divisional Court. Before Muloock, C.J.; Clute, J.; Sutherland, J. Northern Crown Bank v. International Electric Co.—J. R. Meredith for defendants. F. Arnold, K.C., for plaintiffs. An appeal by defendant from the judgment of Meredith, C.J., of Nov. 1910. At defendant's request appeal enlarged until Feb. 13, unless counsel can arrange to argue later this week, when may be placed on peremptory list. Vipond v. Hamilton Street Ry. Co.—W. W. Osborne (Hamilton) for defendants. W. M. McClelland (Hamilton) for plaintiff. An appeal by defendants from the judgment of the county court of Hamilton, dated Dec. 1910. By direction of court pleadings amended by adding Eli Vipond as a party plaintiff pursuant to his consent. This was an action for \$500 damages for injury to plaintiff, a lady of eleven years, by a car of defendants coming into collision with plaintiff while riding on his bicycle in the City of Hamilton, alleged to be thru negligence of defendants. At the trial judgment was awarded plaintiff for \$400 and costs. Appeal argued and dismissed with costs. Veitch v. Hamilton Street Ry. Co.—W. W. Osborne (Hamilton) for defendants. C. W. Bell for plaintiff. An appeal by defendants from the judgment of the county court of West-ward of Dec. 1910. The action, by Lilly Veitch, a saleswoman, for \$500 damages for burning and electric shock while on a car of defendants, alleged to be caused by negligence of defendants. At the trial judgment was awarded plaintiff for \$400 and costs. Appeal argued and dismissed with costs. Thompson v. Jeffery.—H. E. Rose, K.C., for defendant. A. G. Blight for plaintiff. An appeal by defendant from the judgment of Riddell, J., of June 13, 1910. An action by plaintiff to recover one-half of all commissions and profits in case of defendants, and in considerations received, or to be received, by the defendant from or arising out of the sale of the Silver Cliff mine, under an alleged agreement to divide such commissions and profits. Judgment was given plaintiff as asked, enjoying defendant from disposing of his stock in the mine and referring to the master in ordinary to take the accounts. Judgment (V V)—Appeal dismissed with costs. Berliner v. Babcock.—F. J. Roche for plaintiff. N. Pheasant for defendant. An appeal by plaintiff from the judgment of the county court of York of Nov. 8, 1910. An action by plaintiff to recover for the price of a gramophone and records, alleged by plaintiff to have been bought by defendant, but which defendant alleges was sent up on trial and was returned. At the trial the action was dismissed with costs. Appeal argued and dismissed with costs. Re Leader Estate.—W. J. Clark for Catherine Leader. I. B. Lucas, K. C., for executors. An appeal from the order of Meredith, C.J., of Nov. 17, 1910, made on a motion under C.R. 98, for an order constraining Joshua Leader. Appeal argued and dismissed without costs. This concluded the divisional court sittings for present week.

Court of Appeal.

Before Moss, C.J.O.; Garrow, J.A.; MacLaren, J.A.; Meredith, J.A.; Magee, J.A.

Rex v. Lee.—G. Waldron for defendant. J. Jennings for the minister of justice. The accused, Sidney H. Lee, was tried before Denton, C.C.J., on a charge of a breach of sub-section (b) of section 16 of the Gold and Silver Marking Act of 1908, found guilty and remanded on bail for certain debts or choses in action amounting to \$1575.20. By direction of this court, on defendant's application, a case was stated by the county court judge on the question whether the said act was ultra vires of the parliament of the Dominion of Canada. Case argued and judgment reserved. Sovereign Bank v. Parsons.—I. F. Hellmuth, K. C., and G. L. Smith for defendants. J. Becknell, K.C., and J. F. Boudart for plaintiff. An appeal by defendants from the judgment of Riddell, J., of July 8, 1910, in an action brought by plaintiffs as assignees of the receivers and managers of the Imperial Paper Mills, for certain debts or choses in action amounting to \$12,153.85 and interest thereon. At the trial judgment was given plaintiffs for \$12,153.85 and interest from Nov. 7, 1907. Appeal partially argued, but not concluded. Fresh Air. "Shut a window add open a grave," says Dr. Ronald Campbell MacFie, head of an English sanitarium, writing on the subject of drafts. The British Medical Journal. Drafts should be favored rather than feared," Dr. MacFie declares. "I sat in a draft and caught a cold," he says, "an ordinary statement which one must be chary of accepting. It is true that if a man can live constantly in a moist, warm, still atmosphere, and if his skin is continually protected from the normal stimulation of cool, moving air—it is true that under such circumstances the skin reflexes, if unexpectedly called upon, may forget their business and respond sluggishly and inadequately to the stimulus of cold, and that heat may thus be chiefly unavailably lost, with deleterious consequences, but the natural, well fed, well clad mammal has active, ready reflexes and is not likely to be unduly chilled by drafts. The man

JOHN CATTO & SON 55 to 61 King Street East. TORONTO. MR. LARKIN OBJECTS Never Interested in Any Company Doing Business With Government. As an outcome of the discussion in the house of commons on Tuesday on the motion of A. C. Boyce (W. Algonoma) calling for the disclosure of the names of the contributors to the Fielding testimonial, P. C. Larkin of the Salada Tea Co. today sent the following telegram: "Haughton Lennox, M.P., Ottawa, Ont. "You insinuated last evening in the house that my interest in the Fielding testimonial was inspired by profits made on sales of tea to the "Transcontinental Railway." "I desire to inform you that I never sold, either directly or indirectly, a pound of tea or anything else to the government, the "Transcontinental Railway" or to any contractor of the "Transcontinental Railway." "I am not interested in any company that has any business of any kind with the government, the government or any works of the government." "It sorts with your honor to withdraw your insinuation as publicly as it was made."

THE WEATHER OBSERVATORY, TORONTO, Feb. 1, 18 p.m.—The western storm is moving directly towards Ontario, and from present indications there will be a heavy snowfall in northern and eastern districts. The weather continues very cold in the western provinces, and also from the Ottawa Valley westward. Minimum and maximum temperatures: Dawson, 54 below—23 below; Atlin, 36 below—14 below; Prince Albert, 6—13; Victoria, 34—; Vancouver, 32—38; Kamloops, 2—18; Calgary, 20 below—14 below; Edmonton, 24 below—12 below; Battleford, 18 below—14 below; Regina, 20 below—12 below; Winnipeg, 6 below—4 below; Port Arthur, 2—6; Parry Sound, zero—20; London, 20—27; Toronto, 18—22; Ottawa, 12 below—8; Montreal, 2 below—2; Quebec, 16 below—2 below; St. John, 4 below—; Halifax, 4—10. Probabilities— Lower Lakes and Georgian Bay—Strong easterly winds, with snow and sleet, followed towards night by northwest winds, and becoming cold. Ontario Valley and Upper St. Lawrence—Easterly winds, with snow and sleet. Lower St. Lawrence and Gulf—Fine and very cold, followed by easterly gales and snow. Maritime—Fine and cold to-day, followed on Friday by easterly gales, with snow or rain. Superior—Northeast to northwest gales; clearing and colder. Manitoba, Saskatchewan and Alberta—Fair and continued very cold. THE BAROMETER: Time Ther. Bar. Wind. 8 a.m. 18 29.83 22 E. THE SEAL OF APPROVAL SALADA TEA 22,000,000 Packages sold last year. BANK PRESIDENT MUST FACE TRIAL BY JURY Col. Munro Signed False Returns Without Enquiry, Evidence Indicated—Released on Bail. Col. James Munro, president of the Farmers' Bank, was committed for trial at the general sessions, upon the charge of signing false returns of the bank's standing to the government. W. R. Travers swore that Col. Munro was like a rubber stamp. He had signed reports as they were put before him and seldom asked questions. F. W. Stair, a shareholder, and the bank's landlord, swore that he had warned the president that there were ugly rumors of the bank's dealings with the Keeley mine, and that it was rumored that half a million dollars had been advanced. The president had replied that all advances were "amply secured." Travers swore that the colonel had asked him about these rumors, but that he had told him there was nothing to them, and he had seemed satisfied. The colonel was committed for trial upon \$1000 bail. A meeting of the Keeley mine directors was held yesterday in the office of the Farmers' Bank, but as far as could be learned Travers did not attend. It was said that the resignation of E. W. J. Owens, K.C., president of the company, was to be tendered, but he was not confirmed. It is said that these resignations were made in writing, and that G. T. Clark, liquidator, will take Travers' place, while J. T. Clark, who took Mr. Nalder's place at the last meeting, was elected president, following Mr. Owens' resignation. It is understood that the mine will be developed by the present company, and that should those in charge of the bank's interests refuse to support this plan, the money is forthcoming from several sources to purchase that interest and go on with the work. There was a persistent rumor yesterday of "something doing" in the Farmers' Bank case. This rumor was shaped to further developments in the Nesbitt and Lindsay features of the case. Inspector of Detectives Duncan left his office at noon and was not seen there again. It was learned that he had been in consultation with Crown Attorney Corley during the afternoon. Asked as to the conference and possible outcome, Mr. Corley exhibited all the leading characteristics of the clam. "I cannot tell you," he was asked. "Anything new?" "Not to-day." "Is there any further charge against Dr. Nesbitt?" "I cannot tell you that." "Will there be anything done to-morrow?" "You will have to wait and see." Special Matinee at the Grand. A special matinee will be given at the Grand Opera House on Friday afternoon, during the engagement of Al H. Wilson, in his new play, "A Gentleman's Prince." This extra performance was rendered necessary on account of the heavy demand for seats at the regular matinees. St. Patrick's Club. For the past three nights hilarity and song have reigned in St. Patrick's Hall, and audiences of from 300 to 500 have enjoyed the rip-roaring fun of the Tara minstrels of St. Patrick's Club. The cast was: N. Moore, G. McDonald, E. Clark, Prof. John Burns, J. McNamara, E. Schmidt, M. O'Brien, F. Lawlor, W. Finnegan, H. O'Donoghue, J. Clune, J. Neville, J. Carroll, H. Giblin, M. Mohan, R. McCormack, E. O'Donoghue. The staging of the piece was excellent, and much credit goes to all concerned, especially James Costello, the director, George O'Donoghue, stage manager, and Charles Schmidt, accompanist. Wholesale Millinery Firm Assigns. Malcolm Lamont & Company, wholesale milliners, 75 West Wellington-street, have assigned to Henry Barbour. Meeting of creditors is called for at 3.30 Wednesday afternoon, Feb. 8.

DEATH AND DESTRUCTION DYNAMITE CAR EXPLODES Continued From Page 1. old hat that had been used by boys for football. All about were strange freaks of the explosion. One freight car had the roof blown inward, as if it had been crushed by a falling boulder, but the sides were untouched. The iron splittings of the freight house on Pier 8, to the north, were pushed inward on the side nearest the explosion, and outward on the farther side. In three trains and at the terminal nearly the whole southern exposure of the glass roof had collapsed, showering the passengers with broken glass. One man was struck by a 20 pound fragment and severely hurt, but that he died afterwards. An engineer in a shunting locomotive was blown from his cab and died of a fractured skull. A tug boat, captain was hurled from his wheel house and dashed out of the water fifteen minutes later, swimming about the southern side of the demolished pier. Curious Results. Inside the protection the floors were littered with broken glass. Windows fronting on the inner court had been sucked from the frame, sashes and all. The hands of the ferryhouse clock were torn off. The southern wall hung like a pasteboard box left out in the rain. Two ferry boats of the Central Railway of New Jersey, the Somerville and the Plainfield, lay in the terminal slip, and a third, the Lawrence, was just ending into the river, when the other careened violently and all were showered with thrown glass. One passenger said he believed the Lakewood would have turned turtle had it not been for the wooden walls of the slip. In New York the terror was intensified by uncertainty. Those in the rocking skyscrapers thought the lower floors had been torn from them. Those in the street thought the massed towers above them had been toppled down. In Trinity Church a valuable stained glass window was strewn in the aisles. Nearly every structure from Fulton-street south suffered in some manner, but no damage was done to the subway, and the stock was the even-veiled in the Hudson tubes below the level of the Hudson River. The jar shook many telephone and fire alarm wires down into unlimited confusion, and all sorts of complications ensued. For one thing, fire companies from every hand began to pour into the streets in quest of non-existent fires. The Dead and Missing. The estimated number dead is 42, of which seven have been recovered. The known dead are Robert Burnett, New York, captain of the tug John Twohy, blown from his wheel house; Antonino Moro, dockhand, killed on the barque Entice; Ignatius Michael Moro, his brother; Charles McNeil, engineer of a yard locomotive, blown from his cab; Robert Barbour, incoming Jersey Central passenger, killed by falling glass; James Armstrong, captain of the powder boat Whistler; also one unknown man of his crew. The known missing: Edward Traver, master of the steam lighter Katherine; Louis Heineman, engineer of the Katherine; W. Frank Ackley, Henry Ackley, Oscar Stolpe, James London Louis Beislan, all of the crew of the Katherine. Thought to be missing: Twenty unknown laborers just getting ready to eat luncheon at pier 7, when the explosion came. James Healey, owner of the Katherine, said he is not positive to-night if the lighter and her crew of seven had been blown up. Nobody living knew for certain if she had been tied to the pier or not. A man whose notes had been strangely deranged, apparently by the dynamite explosion on the Jersey waterfront, appeared at the master's office in the city hall this afternoon. His incoherent mutterings about his "sufferings from electricity" and other weird talk, prompted the attending nurse to arrest him. He gave his name as Charles Thibe, and Ackley, he was working in Rayonne when the explosion occurred. An open knife was found in the man's pocket, but he was not otherwise armed. Use Gibbons' Toothache Gum. Price 10c. Rose Stahl in "Maggie Pepper." Rose Stahl, who played the "Chorus Lady" more than two thousand times, will appear in the Princess Theatre next week in a new play by Charles Klein, entitled "Maggie Pepper," a comedy along the same lines that made the "Chorus Lady" so amusing. "Maggie Pepper" should be a rare treat. Smallpox Epidemic. MONCTON, N.B., Feb. 1.—The smallpox situation grows more serious, ten cases developing to-day, making fourteen all. The city has no isolation hospital, and the board of health has been busy looking for one.

WORKERS' HANDS IN WINTER. Scores of workers go home nightly with sore, smarting or aching hands! We want all workers to know that Zam-Buk gives ease! No matter how careful you may be while at work, the frost will get into that cut, or cause that old sore to re-open, or the biting cold from the articles and tools handled will cause painful sores. As soon as you get home in the evenings bathe the hands in hot water to cleanse and soften them. Then apply Zam-Buk freely. It will be quickly absorbed and will cause no inconvenience. Repeat the process before going to bed, and by morning the soreness will have vanished and your hands will be ready for another day's hard work. Try Zam-Buk for chapped places, frost bite, cold sores and all skin injuries and diseases. Also for piles. Druggists and stores everywhere sell at 50c. box, or post free from Zam-Buk Company, Toronto, upon receipt of price. Refuse Harmful Substitutes. FREE BOX. Send this coupon, name and date of this paper, and 1c stamp to Zam-Buk Co., Toronto, and trial box will be mailed you free. TRY IT FOR COLD SORES!

SENATE MAY TALK THE MEASURE TO DEATH Continued From Page 1. The Democrats should pass the measure, because of what it embraced, rather than defeat the whole proposition by building on any points of omission or inclusion that local interests might favor. The conference of the delegations will continue, and meantime Secretary Knox and Special Agent Charles M. Pepper of the state department, who investigated reciprocity matters, will urge on the Republicans, in a hearing before the house committee on ways and means next Thursday, the adoption of the agreement. Joe Cannon's Opinion. WASHINGTON, Feb. 1.—"In a month's time we will be called upon to enact the reciprocity agreement with Canada into law; but I don't know what we are going to do with it—we will only have to come to a compromise that cares for the industries of all our people." This was Speaker Cannon's declaration to-night at the banquet of the National Association of Wool Manufacturers, in a dramatic speech in which he defended the Payne-Aldrich tariff act as the best revenue measure ever enacted, adding that he had no apology to make for it in any respect. Fisher Folk Pleased. ST. JOHN, N. B., Feb. 1.—J. F. Calder, Dominion fisheries inspector for the southern part of New Brunswick, says that the proposed reciprocity agreement has brought joy to the hearts of the fisher folk along the Bay of Fundy coast. This joy seemed to be mutual for in Maine, where he has been, all interested are on both sides of the line will benefit. Would Alter Situation. SYDNEY, Feb. 1.—(C.A.P. Cable.)—The general feeling here is that the Canada-U.S. arrangement will eventually benefit Australia. Canada is not necessarily the only granary of the empire. Capital and men now diverted to Canada if sent here would soon alter the situation. Endorsed by New Hampshire. CONCORD, N.H., Feb. 1.—President Taft's efforts to establish reciprocal trade relations with Canada were endorsed by the New Hampshire house of representatives to-day. The Republicans and Democratic members with few exceptions voted in favor of reciprocity. U. S. Timber Interests Protest. CINCINNATI, Feb. 1.—Resolutions against reciprocity with Canada, "as implied by the interests of the members of this association," were adopted by the Hardwood Manufacturers' Association. Opposition to the proposed reciprocity treaty with the Dominion was based on the fact that it would remove the tariff on "products of the soil, both forest and agricultural," and that lands from which timber had been cut were "more suited for agricultural purposes than for reforestation." What Mr. Bourassa Thinks. MONTREAL, Feb. 1.—(Special.)—Henri Bourassa in another important article in Le Doyeur to-night on the reciprocity agreement, discusses whether the interests of Canadian industry and commerce will be sacrificed, and whether the way is being opened to the political union for the countries. "Some pretend," he says, "that all measures of reciprocity offer these dangers, but this proposition is not founded on any principle of economic science, and is formally contradicted by our history." Mr. Bourassa instances the reciprocity treaty of 1854 which lasted twenty years and had the effect, he says, of putting down the annexation agitation and bringing prosperity to the country. Mr. Bourassa further declares that he believes in the necessity of a protective tariff for Canada, high enough to stimulate Canadian industries, but he does not believe pushing protection to the point of existing in Canada the same evils that exist in the United States as shown by its gigantic trusts. Harper, Customs Broker, McKinnon Building, 10 Jordan St., Toronto.

WATER LEVEL LOW Showing Quite Unusual, Says Harbor-master—Navigation Obstructed. The water level of Toronto harbor is unusually low at the present time, and much lower than it has been at this time of year for many winters, according to a statement made by Harbor-master Postlethwaite. Yesterday it was 7 inches below the zero mark, which is 9 inches lower than on Feb. 1, 1910. The standard or "zero" mark from which the level tests are made is the top of a rock near Queen's Wharf, and was established in 1854 by Captain Hugh Richardson, who was at that time harbor-master. The rock has since been built over, but the "zero" standard has been retained, the authorities transferring the mark to the same height on Queen's Wharf. The highest water level on record for Toronto Bay was on May 6, 1870, when it was 47 1/2 inches above the zero mark. The lowest level was on Nov. 24, 1895, when the bay was 25 inches below "zero." The water level is affected by rainfall and snowfall, but chiefly by evaporation. It is believed that local navigation will begin about March 30. "There is not much advantage in an early opening," said Harbor-master Postlethwaite, "as on account of the small quantity of freight that is ready for transportation the rates are low and generally continue low for the greater part of the season. If navigation does not commence too early shippers get freight rates, owing to the large quantity of freight accumulated." CANADIAN PONY SOCIETY. At the council meeting of the Canadian Pony Society, at the King Edward last night, C. E. Stone, Toronto, was chosen honorary president, and A. E. Major, Whitevale, president; T. A. Cox, first vice-president, and C. Lovejoy, Mimico, second vice-president. The constitution was amended to recognize the American Pony Stud Book, and a grant of \$50 was made to the spring horse show to be held in the armories. W. G. Elder, Brandon, was added to the board of directors. Manufacturers' Memorial. Owing to the large number of requests that have been received by the Canadian Manufacturers' Association for copies of the reciprocity memorial they presented to the Dominion Government on Jan. 15, the association have had that interesting document printed in both English and French, and copies may be had upon application to H. D. Scully, assistant secretary. Fell From Train. NIAGARA FALLS, Ont., Feb. 1.—A woman named Annie Clobeskt, from Guelph, slipped from G.T.R. No. 14 Toronto-Buffalo express at 6.45 this evening as the train approached the yards here and fell headlong into the ditch, sustaining a slight fracture of the skull, knocking out several teeth and spraining her hip and thigh.

ADD CLASSES TO SCHOOLS Owing to the making of promotions in the schools on Feb. 1, and on account of the number applying in several districts who cannot be admitted, the inspectors will recommend to the board of education to-night the additional classes be opened as follows: Roden school, 1 class; Withrow-avenue school, 2 classes; Queen Alexandra school, 2 classes; Rosedale school, 1 class; Fern-avenue school, 1 class; Niagara-street school, 1 class; Davenport school, 1 class; Annette-school, 1 class; Alexander Muir school, 1 class. Robbed the Mails. HALIFAX, Feb. 1.—Louis Leblanc, employed by a contractor to drive the mail between Yarmouth and Wedgeport, pleaded guilty before Stipendiary Pelton, and was sentenced to five years in the penitentiary in Dorchester, for robbing the mail bags of letters, which he endorsed, forging the names of the parties to whom money orders extracted were payable. Law Association Officers. At the annual meeting of the County of York Law Association, these officers were elected: President, H. T. Kelly, K.C.; vice-president, J. T. Small, K.C.; treasurer, John H. Moss, K.C.; secretary, T. H. Barton; curator, J. D. Falconbridge; auditors, G. L. Smith and C. B. Nesmith; trustees, Frank E. Hodgins, D. T. Symons, G. M. Kelley, Charles Elliott, G. Campbell, Shirley Denison, M. H. Ludwig, J. A. McAndrew and H. W. Mickle. Will Build Steam Plant. LONDON, Feb. 1.—At the annual meeting of the London Street Railway directors to-day it was decided to go ahead with the building of an up-to-date steam power plant, and to abandon the proposal for the use of hydro-electric power from Niagara. Baker Falls. C. B. Labouchere, baker and confectioner, 1227 West Bloor-street, has made an assignment to N. L. Martin. A meeting of the creditors will be held in Mr. Martin's office at 3.30 p.m. Friday, Feb. 3.

ENGLISHART MEMORIAL HOSPITAL WAS OPENED

Munificent Gift of the T. & N. O. Chairman to the Town of Petrolia.

PETROLIA, Feb. 1.—The Charlotte Eleanor Englishart Hospital was formally opened yesterday afternoon at 4 o'clock.

The formal opening consisted of a short service, which Rev. Canon Craig announced was held at the request of the hospital committee.

Mr. Englishart then made a few remarks and presented Mayor Pollard with the documents by which the town takes possession of the premises.

RAILWAY TO INVESTIGATE

Frequency of Mishaps at Local Terminals Stirs Up G.T.R. Officials.

There have been a number of accidents in the Toronto terminals during the past week, and yesterday Grand Trunk Terminal Superintendent Farrell commenced an investigation.

On Tuesday night two passenger engines running double-headed from Mimico to the Union Station, collided at the foot of Bathurst-street.

The wrecked engines will have to stand a month in the repair shop. Mr. Farrell is determined to find out the parties responsible for the collision, and it is probable they will be dismissed entirely from the company's employ.

The Toronto General Trusts Corporation

Report of the Proceedings of the Twenty-ninth Annual General Meeting.

The Twenty-ninth Annual Meeting of the Shareholders of The Toronto General Trusts Corporation was held in the Board Room of the Corporation, on the corner of Yonge and Colborne Streets, Toronto, on Wednesday, the 1st of February, 1911.

There were present: Hon. Featherston Osler, K.C.; John L. Blaikie, Hon. J. J. Foy, K.C., M.P.P.; Sir William Mortimer Clark, K.C.; Hon. Mr. Justice MacLennan, Alexander Nairn, Hon. J. M. Gibson, K.C.; Sir Aemilius Irving, K.C.; J. W. Langmuir, J. H. Paterson, G. A. Stimson, W. D. Matthews, D. B. Wilkie, R. T. Gooderham, James Kerr Osborne, L. H. Baldwin, C. M. Baldwin, P. Freyseng, Ed. Galley, Thomas Long, W. R. Brock, J. Bruce Macdonald, Samuel Nordheimer, E. T. Malone, K.C.; Hamilton Cassels, K.C.; W. C. Harvey, Alexander Smith, E. R. Greig, W. B. Couch, George Porter, J. F. Edgar, Frank W. Maclean, A. L. Malone, A. D. Langmuir, W. G. Watson, C. E. Robin, J. A. Burt, H. C. Hewetson, H. M. Forbes, E. E. Argles, T. J. Maguire and Frank M. Pratt.

The President, the Hon. Featherston Osler, took the chair, and Mr. A. D. Langmuir, the Assistant Manager, acted as secretary to the meeting. The financial statements, showing the operations of the Corporation for the year ended December 31st, 1910, were submitted and commented upon by the Managing Director, Mr. J. W. Langmuir.

The report to the Shareholders was then read, as follows:

TWENTY-NINTH ANNUAL REPORT OF THE DIRECTORS OF THE TORONTO GENERAL TRUSTS CORPORATION, BEING FOR THE YEAR ENDED 31ST DECEMBER, 1910.

To the Shareholders: Your Directors have pleasure in submitting the Twenty-ninth Annual Report of the Corporation, accompanied with the usual statements showing its operations for the year.

During the year Executories, Administrations, Trusts and other new business have been undertaken by the Corporation to the extent of \$6,725,047.90, of which the following is a summary:

Table with 2 columns: Category and Amount. Includes Executories (\$2,788,253.61), Administrations (\$1,378,143.74), Trusteeships (\$90,142.00), Guardianships (\$12,753.33), General Agencies (\$12,763.22), Investment Agencies (\$134,300.00), Guaranteed Investments (\$58,736.82), Lunatic Estates (\$11,230.28), Committeeships (\$4,234.90), Reversionships (\$800.00), Custodianships and Agreements under Special Provisions (\$9,500.00).

In addition to the foregoing, the Corporation has also been appointed as Trustee for the issue of bonds for a considerable amount, and to act as Registrar, Transfer Agent, and in other capacities not included in the foregoing summary.

The net increase, during the year, of assets controlled by the Corporation is \$3,720,184.10, making the volume of business in the hands of the Corporation as at 31st December, 1910, \$41,601,297.63.

The Profit and Loss Statement herewith submitted shows the net profits after payment of all expenses of management at the Head Office and its Branches, and after making allowance for every ascertained loss, to be \$178,074.01. This amount, together with the balance of \$54,770.94 brought forward from last year, enabled us to bring down for distribution the sum of \$232,844.95, which your Directors have appropriated as follows:

Table with 2 columns: Description and Amount. Includes 2% half-yearly Dividends, No. 57 and No. 58, at the rate of 8 per cent. per annum (\$80,000.00), Transferred to Reserve Fund (\$500,000.00), Carried forward balance to credit of Profit and Loss (\$2,844.95).

The new building in course of construction for the Corporation on the corner of Bay and Melinda Streets is sufficiently advanced to show the exterior design, which has been very favorably commented upon.

Your Directors have pleasure in announcing that the Honorable Featherston Osler, K.C., late a Judge of the Court of Appeal for Ontario, was appointed a Director and subsequently accepted the Presidency of the Corporation in the place of Dr. John Hoskin, K.C., LL.D., who resigned in the early part of the year.

All which is respectfully submitted. J. W. LANGMUIR, Managing Director. F. OSLER, President. Toronto, February 1st, 1911.

PROFIT AND LOSS STATEMENT Year Ended December 31st, 1910.

Table with 2 columns: Description and Amount. Includes Management expenses, directors' and auditors' fees, salaries, advertisement, printing, rent, commission paid agents, interest on investments, etc. Total profit of \$178,074.01.

ASSETS AND LIABILITIES STATEMENT Year Ended December 31st, 1910.

Table with 2 columns: Description and Amount. Includes Capital Account (Mortgages on Real Estate, Stocks and Bonds, Loans on Stocks and Bonds, Office Premises and Safe Deposit Vaults, etc.), Trust, Guarantee, and Agency Accounts, and Liabilities (Capital Stock, Reserve Fund, Dividend No. 58, etc.).

TRUSTS, ESTATES, AND AGENCIES: Unrealized Original Assets, Including Real Estate, Mortgages, Debentures, Stocks and Bonds, etc., at inventory value.

Table with 2 columns: Description and Amount. Includes Capital Account (Capital Stock, Reserve Fund, Dividend No. 58, Profit and Loss, Interest in Reserve, Balance of Auditors' allowance) and Trusts, Guarantee, and Agency Accounts.

TRUSTS, ESTATES, AND AGENCIES: Inventory value of Unrealized Original Assets and Agencies under administration by the Corporation.

\$18,886,101 97

AUDITORS' CERTIFICATES.

We, the undersigned, beg to report that we have made a full examination of the books, accounts, and vouchers of The Toronto General Trusts Corporation to the 31st December, 1910, and find same to be correct and properly set forth in the above statements of Profit and Loss, Assets and Liabilities. We have examined, and find in order, all the mortgages, debentures, bonds and scrip of the Corporation, as well as those negotiated to the Supreme Court of Judicature for Ontario, and Trusts, Estates, and Agencies in the Corporation's hands, and we have checked same with the mortgages and debentures and registers. The bankers' balances, after deducting outstanding checks, agree with the books of the Corporation.

We have also examined the reports of the auditors of the Winnipeg and Ottawa Branches, and find that they agree with the Head Office books. R. F. SPENCE, F.C.A., "Can." GEO. MACBETH, Auditors.

Toronto, January 30th, 1911. The President, Hon. Featherston Osler, made the following remarks after the presentation of the Report:

During the few months in which I have had the honor of being connected with the Corporation, I have had many opportunities of observing the general character of its business and the system adopted by it in relation to investments and the administration of estates.

To the general body of shareholders I would say that as to the former what at once struck me in its nature, the funds entrusted to it under the agency and guarantee side of its transactions being invested, as trustees are required to invest them, upon securities approved by trained and experienced valuers and passed upon by the Board. Properties are examined and inspected from time to time, and re-valued upon any extension of a loan.

The securities accepted are closely scrutinized at short intervals by an Inspection Committee, and every care is thus taken that valuers and others continue to perform their duties.

Of the administration of the estates under the care of the Corporation, I cannot speak too highly. This is done by an experienced staff of officers, and results in a promptitude of winding up and economy of administration which contrasts favorably with similar administration by individuals.

I need hardly say that it is in the interest of the shareholders that the business of this important Corporation should be conducted in a judicious and economical manner.

The Managing Director, Mr. J. W. Langmuir, in presenting the Financial Statements of the Corporation for the year, said: The statements which have just been read to you, showing the operations of the Corporation for the past year, and the financial results of the Corporation, should, I think, be satisfactory, not only to the Shareholders, but also to the several thousand persons who are interested in our work as beneficiaries of estates and trusts under the management of the Corporation.

With the exception of 1905, when an Executive Order of the Corporation, which was passed in 1905, brought to us the largest aggregate volume of new business since our establishment in 1882. Not only has the annual amount of new business largely increased, but the net profits are, as the result of such increase, in excess of any previous year in the history of the Corporation.

I think I am quite warranted in assuming that the continued success of the Corporation is largely due to the public appreciation of the Corporation's determination to eliminate from its transactions all business of a speculative character, and confine itself exclusively to the management of estates and trusts, and the investment of funds under the terms of the Trust Investment Act, unless otherwise provided by Wills or Trust Deeds.

The Assets and Liabilities sheet shows the residuum of assets remaining under the management of the Corporation at the close of 1910, after large distribution of dividends, to be \$41,601,297.63, as compared with \$37,881,113.53 in 1909; \$35,161,647.71 in 1908; \$32,909,902.68 in 1907; \$31,408,279.39 in 1906, and \$29,096,478.11 in 1905, thus showing an increase in assets of over \$12,000,000 in six years.

The Profit and Loss Account shows net profits for the year of \$178,074.01, which, added to the balance of \$54,770.94 brought forward from the previous year, leaves \$232,844.95 at the credit of that account for distribution. Out of this amount your Directors have declared and paid two dividends at the rate of eight per cent. per annum, amounting to \$80,000; have carried \$100,000 to Reserve Fund, thus increasing that fund to \$600,000, and have brought forward to the credit of Profit and Loss Account \$52,844.95. It will thus be seen that our Paid-up Capital, Reserve Fund, and Undivided Profits as at 31st December, 1910, amount to \$1,652,844.95.

The Profit and Loss exhibit for 1910 is the more satisfactory when I state that we have been obliged to realize from our Capital Investments, funds to the extent of \$336,437.39 for the purchase of the new site on which our building is being erected, and for payments made to the construction contractors, thereby reducing our earning power, until the building is ready for occupation. We have not, as is frequently done, charged interest against our building account during the process of construction, as such a charge would only add to the cost of the building.

In the matter of the earnings of the Corporation for the year, I am glad to say that our profits are exceedingly good, and that it must be conceded by everyone that our profits are exceeding those of any other trust company in the city. Our business is of a very different character from that of the ordinary trust company, and our management is of a high order, and our expenses are of a moderate nature.

Our new investments in mortgages amounted during the year to \$2,147,206.85, and in municipal debentures to \$325,975.90, these latter securities being purchased for estates where the Corporation is directed under the wills of investors in such securities, the policy of the Corporation being, as far as possible, to place the trust funds under its care in first mortgages on improved real estate as authorized under the terms of the Trust Investment Act. Reference to our statement of Assets and Liabilities will indicate that out of total investments of over \$20,000,000 made by the Corporation for Trust and Guaranteed Accounts over \$15,000,000—or 75 per cent.—is invested in first mortgages on real estate; and I might add that nearly 20 per cent. of the investments in debentures were made under directions contained in wills or deeds of trust.

I am pleased to state that the supply of applications for loans on mortgages has been well maintained during the year, and that the close of the year finds our available trust funds practically all invested.

Respecting the collection of interest on mortgage investments, you will do me the honor to be interested in knowing that the interest which fell due prior to October 1st last over 96 per cent. was paid before the end of the year. With the short crop of the past year, in some sections of the Northwest, we cannot, however, expect as prompt payment of interest this year.

Reference is made in the report to our new building now in course of construction on the corner of Bay and Melinda Streets, and it will be noted that this building will be ready for occupation not later than the 1st of September next, and, I am sure, when completed, it will be not only a credit to this Corporation, but also to the city, and I trust, will bring a reasonable return on the amount of capital invested therein. We purpose making a very prominent feature of the Safe Deposit Department, which is being constructed and equipped up to the very highest standard that obtains in the largest cities in the United States. The entire basement, seventy-four by ninety-one feet, will be utilized in this branch of work, including the storage of all kinds of valuables. In the large cities of the United States, the safe-deposit business, with considerable success, by companies operating safe compartments for the safe-keeping of securities, life insurance policies, deeds, etc., and there is no reason to believe that the Province of Ontario, in the way of waiting and writing-rooms, apartments for examination of papers, and for the holding of meetings of companies, or beneficiaries of estates, who have securities under their care—why this class of business should not very largely increase in the City of Toronto.

The Board of Directors have had under consideration for some time the opening of a Branch of the Corporation in Vancouver, B.C., and authority has been received, subject to proper arrangements being concluded, to proceed with the establishment of a Branch to be located in that city. The Corporation has also opened up during the year an office at Saskatoon and agencies have been established throughout the Province of Alberta, such office and agencies being under the supervision and direction of the Advisory Board of the Winnipeg Branch.

The shareholders will be pleased to learn that it has been decided by the Board of Directors to pay quarterly dividends instead of half-yearly. The stock of the Corporation is held by about four hundred shareholders, the very large majority of whom reside within the Province of Ontario.

The Boardholders of the Corporation and its many clients were doubtless glad to learn that the Board had secured the services, as President of the Corporation, of the Honorable Featherston Osler, K.C., who retired from the Bench in the early part of the year. Mr. Osler brings to the performance of his duties not only the very highest legal qualifications, but a large and varied experience extending over thirty years on the Bench. In the selection of Mr. Osler as successor to such eminent lawyers as the Honorable Edward Blaikie and Dr. John Hoskin, the Board has practically concluded that it is in the best interests of the Corporation having charge of a large volume of estates and trusts in respect of which legal points are constantly presenting themselves for settlement, to have as its President one who has been a prominent member of the legal profession.

I would feel that I had neglected my duty to the shareholders and the general public if I did not again refer to the apparent want of discrimination that exists, both by the Parliament at Ottawa and the Legislature of Ontario, in granting charters to organizations designated "trust" companies, empowering them to speculate in the purchase and sale of real estate, underwrite industrial bond issues, act as holding companies and other work of a more or less uncertain character, and at the same time, authorizing them to become executors, trustees, administrators, and to deal generally with

the estates of deceased persons. I am convinced that the time will come when the Governments issuing such charters will have cause to regret the lack of discrimination between companies of the kind to which I have just referred applying for charters and companies strictly confining themselves to the management of estates and agency work.

It cannot be logically argued that because in Canada, so far, there has been no apparent loss occasioned through speculations on the part of "trust" companies, this country will in the future be exempt from such losses, for American Trust Companies in the United States have lost enormous sums by speculation. In this connection I would also include as trust funds not only the estates of deceased persons and minors, but also what is recognized as guaranteed funds which, in so far as this Corporation is concerned, are invested in mortgages and other securities that come within the terms of the Trust Investment Act. With funds that are received under the guarantee principle by trust companies, and are invested in this way, while the net earnings are reduced to a minimum, on the other hand, I take even stronger ground, and say that trust companies having in speculations trust funds should not even hazard their capital and reserve funds in speculations, but that the investment even of these funds should be made within the terms of the Trust Investment Act, so as to leave their capital intact as a guarantee for the proper administration of the trust funds that have been committed to their care, and which may remain in the hands of a company for future generations.

I am well aware that more money has been, and is being, made by trust companies engaging from time to time in transactions that may be termed more or less hazardous than by being strictly confined to the performance of the duties of an executor and trustee. That kind of an argument should, however, have no weight with a trust company having trust funds under its control. One must look to the future, and, as far as is humanly possible, provide against a series of years when, because of crop failures or general trade depression, values of real estate, and particularly of industrial stocks and bonds, may be very seriously depreciated.

In a recent number of the Trust Companies' Magazine, published in New York, I find an article by Oliver C. Fuller, President of the Wisconsin Trust Company, Milwaukee, and President of the Trust Company Section of the American Bankers' Association, treating on this very subject to which I have referred, and in speaking of the services rendered by the Committee of the Trust Company Section of the American Bankers' Association, he says in part: "The Protective Committee of the Trust Company Section is accomplishing very valuable results in securing laws safeguarding the title of 'trust company' and discouraging the indiscriminate organizing of so-called 'trust companies' for speculative purposes, a condition which has prevailed in a degree in some States where the banking and incorporation laws are lax."

In this connection, in order that I may not be misunderstood, I wish to say that I am only pleading that a distinction should be made between companies organized for the administration of estates and trusts and the investment of funds under the Trust Investment Act, and companies whose charter provides that while they may engage in this class of work, given them also the additional privilege of entering into many other fields more or less hazardous or uncertain. I do not wish it understood that I am opposed to the existence of companies that act in capacities such as I have outlined. I only ask that they be confined in their operations to the investment of funds subscribed by shareholders or investors for these particular purposes, and that they be prohibited from handling the funds of deceased persons and minors.

So far as this Corporation is concerned, we have for twenty-nine years strictly confined ourselves to estate and trust work, and now that we have over forty millions of estates, trust, and agency assets in our hands, we certainly will not deviate from the rule adopted at our initiation, and the Corporation will confine itself, no matter how moderate the profits may be, to a legitimate trust and agency business.

In closing, I have pleasure in expressing my appreciation of the very faithful and efficient services rendered by the staff of the Corporation during the year, both at the Head Office and its Branches.

The report of the Inspection Committee was adopted as signed by the Hon. J. J. Foy, Sir Aemilius Irving, and Mr. Frederick Wilkie.

The following shareholders were elected Directors for the ensuing year: W. H. Beatty, John L. Blaikie, W. R. Brock, Hamilton Cassels, K.C., Sir Wm. Mortimer Clark, K.C., LL.D.; Hon. W. C. Edwards, Hon. J. J. Foy, K.C., M.P.P.; Hon. J. M. Gibson, K.C.; Arthur C. Hardy, John H. Langmuir, K.C., LL.D.; Sir Aemilius Irving, K.C.; Hon. Robert Jaffray, J. W. Langmuir, J. H. Paterson, G. A. Stimson, W. D. Matthews, D. B. Wilkie, R. T. Gooderham, James Kerr Osborne, L. H. Baldwin, C. M. Baldwin, P. Freyseng, Ed. Galley, Thomas Long, W. R. Brock, J. Bruce Macdonald, Samuel Nordheimer, E. T. Malone, K.C.; Hamilton Cassels, K.C.; W. C. Harvey, Alexander Smith, E. R. Greig, W. B. Couch, George Porter, J. F. Edgar, Frank W. Maclean, A. L. Malone, A. D. Langmuir, W. G. Watson, C. E. Robin, J. A. Burt, H. C. Hewetson, H. M. Forbes, E. E. Argles, T. J. Maguire, W. P. Keenan, W. D. Scott, K.C.; Sir Edmund Walker, LL.D.; D. R. Wilkie and Frederick Wilkie.

At a subsequent meeting of the Board of Directors, the Hon. Featherston Osler, K.C., was re-elected President, and W. H. Beatty and the Hon. J. J. Foy, K.C., Vice-Presidents.

Public Amusements

"When Sweet Sixteen," the song-play of the Princess Theatre, is creating much favorable comment. It is unique in its way, clever of plot and dainty of music, and those who haven't seized the opportunity to see it should visit the Princess.

Miss Christine Raynor, appearing with Mr. Edward Terry this week, is a relative of the Hon. J. W. Langmuir, K.C., LL.D., and her father, Mr. W. D. Matthews, K.C., LL.D., is a descendant of the late Gen. Blachford of the British army in India. His ancestors are among the old military and navy men of England, and he has in his possession the family pedigree, dating from 1633. Miss Raynor is of the same family, as are also the Messrs. Blachford of Hamilton and Toronto. Osborne House, in the Isle of Wight, was in the possession of Lady Isabella Blachford, from whom it was purchased by the late Queen Victoria.

CONVENTIONS IN SIGHT

Telegraphers Sending Many Delegates Next May. Arrangements were made at yesterday's meeting of the civic legislation and reception committee for Chairman Maguire to telegraph to the delegates to the Railway Telegraphers' convention in Toronto in May next. The entertainment will include an auto ride, with a luncheon in High Park for the ladies and a dinner to the officers of the association.

When the last meeting was held at Atlanta, Ga., two years ago, Joseph Oliver, then mayor of Toronto, extended a pressing invitation to have the next meeting here.

There will be about 350 male delegates, and about 100 delegates of the ladies' auxiliary.

Chairman Maguire will extend a civic welcome to the Ontario Master Harness Makers' Association, which will convene here on Feb. 27, for a two days' session. In addition to about 200 delegates there will be representatives present from similar organizations in United States cities. Fred Rowe of 1218 Yonge-street is president of the Ontario organization.

The rearrangement of wards No. 1 and No. 2, sent on from the sub-committee, was forwarded to the board of control.

A special meeting of committee will be held next week to confer with a committee of the Canadian Manufacturers' Association, regarding securing legislation for the inspection of freight elevators not coming under the jurisdiction of the provincial factory inspectors.

Chairman Maguire's motion regarding the case of the business tax was referred to Mr. Forman for a report.

BUILDING SHOWS DECREASE.

Building permits issued by the city architect's department for the month just ended show a value of \$465,950, while those of January, 1910, totaled \$652,088.

Litigant Dead.

The case of George Bisset of Durham County, who was awarded \$387.50 against the Clarke Pioneer Threshing Syndicate, has been changed by reason of his death, to the court of appeals, so that the action may be revived by the appointment of some one to take his case as plaintiff.

RAILWAY CASE COST \$4000

Disagement of Jury Expensive—Luxury—May Not Go On Monday. As a result of the disagement of the jury in the street railway case, an additional cost of upwards of \$4000 will be incurred in the rehearing, which is set for Monday next. Of this, about \$350 is for court fees and the bulk of the residue goes to the counsel for the railway company.

It is said to be questionable whether the defence will be in a position to proceed on Monday, and there is some talk of separating the counts to make them more clear to the members of the jury, which will be chosen from a special venire drawn for the case.

PEEL CONSERVATIVES' MEETING.

The annual meeting of the County of Peel Liberal-Conservative Association will be held in Brampton, on Saturday day next, at 2 o'clock. Addresses will be delivered by Mr. Sproule, M.P., and Mr. J. G. M. M.L.A., and Mr. P. Sam Charters, M.L.A., and Mr. P. Sam Charters, M.L.A., and Mr. P. Sam Charters, M.L.A.

Peel is very strongly opposed to the trade arrangement proposed between the United States and Canada, and the matter will, no doubt, be discussed at this meeting.

Charged With False Pretences.

CHATHAM, Feb. 1.—(Special.)—Thomas A. Morhead, a Detroit promoter, was hauled into the police court this afternoon by Samuel Bellamy, charged with obtaining money under false pretences. Five charges were laid against him.

Bellamy is a retired farmer. Morhead is alleged, claimed to be selling stock for an American automobile company, and secured promissory notes from him to the amount of \$800.

A WOMAN'S BACK.

Not One Woman In Twenty Has a Stong Back. The kidneys are to blame nine times out of ten.

Mrs. A. H. Hutton, Jr., McCreary, Man., writes: "Two years ago last spring I had a very severe pain in the small of my back. When I would rise it seemed as if my back would break. My kidneys were very badly out of order, and I would have to get up three or four times during the night. I took one box of Doan's Kidney Pills and they effected a cure."

Doan's Kidney Pills are 50 cents per box or \$3 for 1.25, at all dealers or mailed direct on receipt of price by the T. Milburn Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's." When the blood isn't properly filtered by the kidneys are sent back through the system, and it's hardly to be wondered that backs aches and lame backs come to make life miserable.

Doan's Kidney Pills are a specific for all kidney troubles. They begin expelling all the poisonous matter from the kidneys, and then heal the delicate membranes and make their action regular and natural.

NOT SATISFIED WITH ISOLATION HOSPITAL

Local Board of Health on Investigation Bent—Large Increase in Estimates.

The question whether the Isolation Hospital is being conducted on the best possible lines was discussed at the meeting of the board of health yesterday afternoon, being introduced by a request of Eric Armour that the board should pay James Mitchell \$500 for the expenses incurred in the death of this child as a result of infection.

Mr. Armour was referred to the city solicitor and Ald. McCarthy thought Dr. Hastings, M.H.O., should submit a report on the conditions existing at the institution and enable the board to determine, if possible, if all was being done to make the institution efficient.

It was decided to have Dr. Hastings and Dr. W. S. Harrison make investigations, and if necessary, visit institutions in other cities to secure information which would enable the board to place the hospital in a position to care for patients in the best possible way known to modern medical science.

M.H.O. Asks \$160,000.

The estimates of the expenditures of the medical health department were brought in calling for an appropriation of \$139,322.28, as compared with \$92,938.31 expended last year. The total is made up of \$88,496.87 to the local board of health, \$39,825.41 for ambulance, \$935.47 for morgue, \$4888.86 for isolation hospital, \$904.97 for smallpox and quarantine, \$2000 for investigation of epidemics (already provided for), and \$3000 for spring cleaning.

Of the increase \$7754 is in permanent salaries being for Dr. Nasmith, city bacteriologist, \$2200 for two veterinary surgeons, \$1000 for a plumbing inspector, and \$1000 for salary schedule increase. Chief among these items are: Milk inspection, \$7000; food inspection, \$6000; tubercular diseases, supplies, etc., \$3500. The total permanent salaries are placed at \$74,740.26, including \$6000 per year for Dr. Hastings.

Dr. Hastings recommended an increase of \$600 per year for Dr. Hazlewood, and that he be made physician in chief at the Isolation Hospital. This raises his salary to \$1800 per year. He also recommended that the salary of Miss Matheson, superintendent, be increased to \$800 per year.

As there were some discrepancies in figures the estimates referred back for revision before being sent on to the board of control.

Ventilation in Nickel Shows.

A letter from A. W. Carrick recommending that action be taken to make moving picture theatre managers and proprietors of billiard and pool rooms ventilate those portions of their premises used by the public caused Dr. Hastings to explain that his department already had under consideration a plan to provide for an inspection of the ventilating systems of all public buildings.

The report of Dr. Hastings showed 112 cases of diphtheria, 331 of scarlet fever, and 11 of typhoid, making a total of 454 cases of contagious diseases during the month. For the same month last year there were 162 cases of diphtheria, 140 of scarlet fever, and 61 of typhoid fever, making a total of 363.

The increase in scarlet fever Dr. Hastings attributed to lack of accommodation at the Isolation Hospital, a large number of unrecognized mild cases and concealed cases. It was a remarkable fact, however, that in cases of diphtheria, 140 of scarlet fever, and 61 of typhoid fever, making a total of 363.

The increase in scarlet fever Dr. Hastings attributed to lack of accommodation at the Isolation Hospital, a large number of unrecognized mild cases and concealed cases. It was a remarkable fact, however, that in cases of diphtheria, 140 of scarlet fever, and 61 of typhoid fever, making a total of 363.

Slam's Official Oath.

If any form of oath is calculated to impress on, that which is prescribed to the state officials of Slam is likely to do so. Each official has to swear: "May the blood flow from my veins, may crocodiles devour me, may I be condemned to carry water to the flames of hell in vessels without bottoms. After death, may I enter into the body of a snake. May I suffer the harshest treatments during all time in years as numerous as the sands of all the seas. May I be re-born deaf, blind and afflicted with all the ailments of the lower regions, and tortured by Frey Yaw if I break this oath."—London Globe.

Battle Over Franchise.

City Solicitor Johnston is preparing to fight the Toronto and York Radial R.R. in the injunction which he is seeking to restrain the city from taking over the Toronto and Mimico Railway. The city's notice of expropriation is to be presented to the legislature, pending for the taking over of the whole line from Sunnyside to Port Credit.

Big Yonge-Street Deal.

Another deal has been added to the long list of Yonge-street property transfers. The Macleuten estate, comprising Nos. 460, 462, 464, 466 Yonge-street, just north of College, on the west side, has been sold, the price paid being \$250,000, and the amounting to \$150,000. There is a frontage of 60 feet on Yonge-street and a depth of 120 feet.

Ask Grant for Harbor.

OTTAWA, Feb. 1.—(Special.)—A delegation consisting of Col. Hugh Cleland, Reeve R. J. Agnew of Meaford, and James Wilson of the Meaford Board of Trade, and W. Startman of Clarksburg, to-day asked the minister of public works for a grant in the supplementary estimates for the improvement of Meaford harbor.

Concentration.

Atlas was bearing the world on his shoulders. "It is easier to have everything my wife wants me to get on one spot," he explained. "Thus we see it was a labor saving device."

NATIONAL TRUST CO. LIMITED

ANNUAL MEETING OF SHAREHOLDERS

The Thirteenth Annual General Meeting of the Shareholders of the National Trust Company, Limited, was held in the Company's Board Room, 20 King Street East, Toronto, on Wednesday, the 1st day of February, 1911. The President, Mr. J. W. Flavelle, was in the chair, and Mr. W. T. White, the General Manager, acted as Secretary to the meeting.

The Secretary read the Thirteenth Annual Report of the Directors, and the Financial Statement, as follows:

The Directors have pleasure in submitting herewith their Thirteenth Annual Report, showing Statement of the Assets and Liabilities of the Company as at 31st December, 1910, together with the Profit and Loss Account for the year ending on that date.

The Net Profits, after providing for all cost of management, salaries, advertising, auditors' fees and other expenses, amount to \$181,761.07. To this must be added the sum of \$2,816.55, brought forward from 1909, making the total at credit of Profit and Loss Account \$184,577.62, which has been appropriated as follows:

(a) To pay our quarterly dividends at the rate of 9 per cent. per annum, amounting to \$90,000.00.

(b) To increase Reserve Fund \$50,000.00.

(c) To carry forward in Profit and Loss Account \$44,577.62.

The Reserve Fund now stands at \$700,000.00.

Respectfully submitted.

J. W. FLAVELLE, President.

	\$700,000 00

The President, in moving the adoption of the Report, said:

The national prosperity to which I alluded at our last annual meeting has, I am happy to say, been continued to us in unabated measure. Speaking generally, the past year in Canada has been notable for abundant harvests, good prices and constantly increasing activity in trade. The western wheat crop, while not so large as in the previous year, owing to drought in certain of the southern districts, exceeded the expectations formed of it in the early part of the summer, and the shortage was more than compensated by the increased yield of the eastern provinces, which have enjoyed probably the best year in their history. Every class in the community appears to be thriving, and the outlook for the coming year is hopeful in the extreme.

These highly prosperous conditions are naturally reflected in the financial statements of the business institutions of the country, and I think you will find reason to be satisfied with the result of our year's operations now laid before you for approval. The net earnings amounted to \$181,761.07, or 18.1 per cent. upon our capital, and an increase of \$20,981.65 over the preceding year. The comparative figures for the past ten years are as follows:

1901	\$ 78,097 91	1906	\$122,442 44
1902	83,206 05	1907	133,828 87
1903	89,359 94	1908	138,522 02
1904	92,620 90	1909	160,779 42
1905	112,819 79	1910	181,761 07

From the earnings of the year dividends at the rate of nine per cent. amounting to \$90,000, were paid, and your Directors have added \$50,000 to Reserve, and carried forward \$44,577.42 in Profit and Loss Account.

Owing to the substantial increase during recent years in the volume of assets administered by the Company, and particularly in the amount of guaranteed investments, your Directors decided that it would be in the interests of the Company to increase its Capital Stock, and an issue of five thousand shares was accordingly made at two hundred dollars per share, the right being accorded to shareholders to subscribe for the new shares in proportion to their several holdings. The entire issue has been fully subscribed, and during the year the Company will receive the sum of \$1,000,000 in instalment payments in respect thereof, of which \$500,000 will represent capital stock and \$500,000 additional reserve. In the comparatively near future we hope to be able to increase our Reserve Fund to \$1,500,000, thus equaling the issued Capital Stock of the Company.

The total assets held on capital and trust accounts and under administration by the Company for 1910, aggregated \$24,057,110.35, in addition to which the sum of \$2,795,994.90 was held on joint trust account. The comparative figures for the past five years are as follows:

1906	\$12,289,057 73
1907	14,318,210 06
1908	17,021,994 72
1909	22,940,461 15
1910	24,057,110 35

The increase in any year over the preceding year does not at all represent the volume of new business entrusted to the Company, as the distribution of assets in trust estates and the payment out of funds held as Trustee continually diminish the existing trust accounts.

As I previously pointed out to you, we derive our revenue from the investment of our capital and guaranteed trust funds, and from fees and commissions received for services rendered as Trustee, Executor, Liquidator, Administrator and Agent. The diversified sources of this revenue, as well as the excellent returns from each, furnish most satisfactory assurance as to the stability and permanence of the earning power of the Company, and

your Directors authorize me to say that dividends at the rate of ten per cent. per annum may be expected during the current year.

I can only repeat what I have said from year to year as to the progressive increase in our business in all departments, the satisfactory collections of interest upon our mortgage investments, and as to the general efficiency of the staff at our several offices.

On behalf of the Board I desire to again acknowledge the valuable services of the resident Directors at Montreal, the Advisory Board at Winnipeg, and of Messrs. Thomson, Dickson & Shaw, the Company's Agents at Edinburgh.

The Report was unanimously adopted.

A vote of thanks to the General Manager and staff of the Company was passed, after which the following were elected Directors of the Company for the ensuing year:

- PRESIDENT.**
J. W. FLAVELLE, President The Wm. Davies Company, Limited; Director Canadian Bank of Commerce.
- VICE-PRESIDENTS**
Z. A. LASH, K.C., LL.D., of Messrs. Blake, Lash, Anglin & Cassels, Barristers, Vice-President Canadian Bank of Commerce.
E. B. WOOD, Vice-President and Managing Director Central Canada Loan & Savings Company; Director Grand Trunk Pacific Railway Company.
W. T. WHITE, General Manager National Trust Company, Limited.
- DIRECTORS**
HON. MR. JUSTICE BRITTON.
HON. GEORGE A. COX, Senator, President Canada Life Assurance Company.
SIR WILLIAM MACKENZIE, President Canadian Northern Railway Company; President Toronto Railway Company.
GEORGE H. WATSON, K.C., of Messrs. Watson, Smoak, Chisholm & Smith, Barristers.
CHESTER D. MASSEY, Hon. President Massey-Harris Company, Limited.
ELIAS ROBERTS, Director Imperial Bank of Canada.
ROBERT KILGOUR, Director Canadian Bank of Commerce.
H. MARKLAND MOLSON, Montreal, Director Molsons Bank.
ALEX. BRUCE, K.C., of Messrs. Bruce, Bruce & Counsell, Barristers.
E. W. COX, General Manager Canada Life Assurance Company.
H. H. FUDGE, President The Robert Simpson Company, Limited.
H. B. WALKER, Manager Canadian Bank of Commerce at Montreal.
A. E. KEMP, President Kemp Manufacturing Company.
ALEXANDER LAIRD, General Manager Canadian Bank of Commerce.
J. H. PLUMMER, President Dominion Steel Corporation, Limited.
HON. F. H. PHIPPEN, K.C.
WILLIAM McMASTER, Vice-President Dominion Steel Corporation, Limited.
- ADVISORY BOARD, WINNIPEG.**
I. M. ROSS, Winnipeg.
A. McT. CAMPBELL, Manager Canada Life Assurance Company, Winnipeg.
HON. G. R. COLDWELL, Minister of Education, Winnipeg.
D. C. CAMERON, President Rat Portage Lumber Company, Winnipeg.
KENNETH MACKENZIE, Director Canada Life Assurance Company, Winnipeg.

THE PROPOSED UPTOWN RAILWAY DIVERSION

Continued From Page 1.

Don-road at the old Don postoffice. This is four miles further, in order to strike the Parry Sound line on the Lake shore as the Canadian Pacific in North Toronto.

Freight Will Go Down Town.

The Canadian Northern in that event will bring its Parry Sound trains into North Toronto exclusively and the freight will go on down the Don Valley to their freight yards near the Gooderham & Worts distillery on Front and Cherry-streets. This cut-off toward North Toronto will save passengers fifteen miles or more. It is also understood that the Canadian Northern will, either by continuing over this line on the north side of the C. P. find a way of striking its Don road and Ottawa branch (which is now in the Don Valley) on the level of the Daves Road which runs by the Dentonia farm, where it is also on the level of North Toronto. It is a little higher; or they could leave the present Ottawa line at the Daves Road, come across the Plains to Tomdorned and across the Don at Tomdorned to go at an early date with all their trains where it would go under the C. P. and then run north of the C. P. into North Toronto. But exactly which of the two plans, whether south of the C. P. or north of it, will be adopted, is not yet known. But there is no doubt that the Canadian Northern is determined to bring its Ottawa trains and its Parry Sound trains and its Toronto and Niagara trains into North Toronto, 140 feet above the level of the street, and hence the necessity of that grade, and also cut off at least five or six miles in the mileage of each of the three propositions.

The Railways and the Viaduct.

With the attitude of the two roads will be towards the viaduct erected by the railway commission on the front of the city has yet to develop. In all likelihood the C. P. intends to go at an early date with all their trains up north and therefore a great diversion in the railway business of Toronto is immediately in sight.

For some weeks now the mayor has been in conference with Sir Thomas Shaughnessy and the engineers of the Canadian Pacific. They were promised such a visit last fall and when the interview takes place it is understood that Sir Thomas is to tell the city authorities more or less of the plans of his railway in regard to North Toronto and of a new and far more rapid service than the city going thru North Toronto and by the cut-off line from Ingleton to Mimico and on to Hamilton.

The North Toronto line if used for third passenger would also save thru passengers at least an hour in time, as well as saving the descent of 140 feet and climbing immediately afterwards which the Union Station route involves. The public may therefore take it as certain that the Canadian Northern and the Canadian Pacific have individually or jointly decided on a big program in regard to North Toronto and that the plan as registered above is one of the indications in that direction.

A somewhat similar plan has been filed by the Canadian Northern at the city hall showing how it, like the C. P. R., proposes to elevate its tracks from a point west of Avenue-road to a point beyond Yonge-street, and to have there two streets pass under the tracks by subway.

It will be the duty of the city rulers to hear further details from both roads and to ask the railway commission to compel some joint study of its plans carrying out the program as well as afford the greatest convenience to and entail the least trouble on the public.

Still another significant move was made yesterday when the Canadian Pacific filed its plan for the city hall for making a great freight headquarters on Government House site when possession is secured, and including all the territory west of it to Spadina-avenue, save the King-street front there.

Plans submitted to the railway commission by the Canadian Pacific Railway for their improved facilities for handling freight at the government house property they have recently acquired, were the chief topic of discussion at yesterday's session of the board of control.

According to the C.P.R. plans it is their intention to make connections with their main line immediately west of Tecumseh-street and opposite the

cattle market. From there they continue easterly with a slight ascent to a point about half way between Bathurst and Portland-streets, when a rise is made to a strip of land to the south of Front-street, known as the Prince of Wales wharf. The ascent gradually continues as far east as Spadina-avenue, when the road reaches the level. It comes diagonally across the corner of Spadina and Front, intersecting property at the northeast corner of Spadina to a point shortly east of Peter-street, where the diverging sidings commence, there being nine tracks crossing John-street, where the company enters the property it has recently acquired.

What Block Includes.

The block plan bounded on the west by John-street, on the south by Wellington-street, on the north by King-street, and on the east by Simcoe-street shows the disposition of the property with respect to the handling of freight. On the Wellington-street frontage will be erected the inward freight warehouse. In the centre of the block the outward freight shed will be erected extending from east to west. At the corner bounded by King and Simcoe-streets, about midway between Wellington and King-streets, a storage warehouse with a frontage of about 350 feet on King-street and 100 feet on Simcoe-street. The freight offices will be situated on the west side of Simcoe-street, about midway between Wellington and King-streets.

Controller Ward was of opinion that the company should out into their own property below the street level and the other members concurred. It was decided to refer the matter to the city engineer and the city solicitor, who will submit a report.

Mayor Geary yesterday wrote D. McNeill, vice-president of the Canadian Pacific Railway, to submit plans for all other improvements contemplated in the city, as soon as possible, so that they may be considered when the plans for the freight yards on the Government House property come up for approval. In this way the mayor expects to be able to prevent delay and settle all questions pertaining to the C.P.R. at one time.

Many of the aldermen are of the opinion that the move by submitting the plans for the improvements in the centre of the city is an opportune one for the company, in view of the case now pending before the privy council with reference to the viaduct, and see in the proposed plans an aggravation of the difficulties the viaduct proposition seeks to overcome. As a consequence they do not feel inclined to approve the plans submitted in any great hurry. It will take about fifteen days for the city engineer and city solicitor to figure out what the company wouldn't pay fare.

H. G. Pooler, 15 Chicora-avenue, wrote the board regarding insulting treatment received at the hands of a conductor on his refusing to place his fare in a box, the rear of a car which was not suitable for the P.A.Y.E. system. He was accompanied by his wife and intimidated that as the reason for his not settling the dispute according to the by-laws of the Marquis of Queensberry. The conductor cursed him as he alighted from the car and to paraphrase the language of William Shakespeare, he invited the conductor to go the prime way to the place where the chief fireman of the everlasting bonfire might be encountered.

It was announced that a number of unsigned requests for increases in salary in various departments and also unsigned petitions have been received by the board since Jan. 1. In the future such communications will be assigned to the waste paper basket.

Engineer Rust was requested, on a motion of Controller Church, to refer in a report to the board a reservoir to hold 25,000,000 gallons of water on the island adjoining the filtration plant.

Corporation Counsel Drayton will be requested to report on a motion of Controller Church as to the advisability of providing additional counsel for the enquiry being made into the works department.

Inexpensive Finish.

The Italian fruit vendor was most grateful to the customer who had bought grapes on the day he set up his stand, and he never had any more business from that day on. When he was married a young and accomplished girl he saw his way clearly to show his gratitude more than by an occasional extra banana or bunch of grapes.

"My wife, Lora, she havva de fine talk, she havva de little shop right by close, she havva de quick sure and your hands and your feet to my wife, Lora, and she finish them all for my wife, and charge nothing—notta one cent!"—Youth's Companion.

pany's proposals include, and by that time it is expected that will be sufficient opposition to the proposed level crossings to preclude the possibility of the plans passing the council until the decision of the privy council in the viaduct case has been handed down.

What Railroads Spend.

The greatest customers of the mill and factories are the railroads. The latter are ready and eager to continue the work of extension and improvement planned years ago during the period of prosperity which culminated in 1907. In one estimate they figured on the expenditure if they had the money to spend, of a billion dollars a year.

They were spending almost at this rate before the panic. Readers who remember the prosperity of only a few years ago need not be told that it was based on the enormous expenditures of the railroads, not only for common day labor, but for the bricklayer, the carpenter, the worker in metal, the furniture maker, the iron and steel maker, and the skilled artisan in all the various crafts which have to do with the construction, maintenance and equipment of railroads—Leslie's.

Three Cream Away.

She was a city bride who had never before taken a hand in housekeeping, and who but little about things in the kitchen. A few mornings ago she got after the milkman.

"What's the matter with your milk?" she said, with great vehemence.

"I don't know," he replied. "What do you find wrong with it?"

"Well," she said, "every morning it is covered with a nasty yellow scum."

"And what do you do with the scum?"

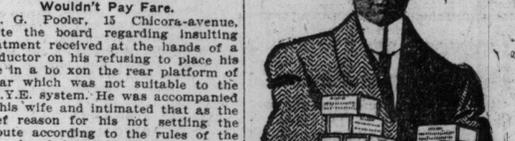

"Why, I skim it off, of course, and throw it in the garbage can."—Farmers' Guide.

Galloping Reporter.

W. R. Holt, the galloping reporter from London, described neatly at the New York Press Club the essentials of good reporting.

"A good reporter," he said, "should be able to handle a man as an astronomer handles a telescope—that is, he should be able to draw him out, see thru him, and shut him up."

Let Me Send You A Treatment of My Catarrh Cure Free

C. E. GAUSS

I Will Take Any Case of Catarrh, No Matter How Chronic, or What Stage It Is In, and Prove ENTIRELY AT MY OWN EXPENSE, That It Can Be Cured.

Curing catarrh has been my business for years, and during this time over one million people have come to me from all over the world for treatment and advice. My method is original. I cure the disease by first curing the cause. Thus my combined treatment cures where all else fails. I can demonstrate to you in just a few days' time that my method is quick, sure and complete, because it rids the system of the poisonous germs that cause catarrh. Send your name and address at once to C. E. Gauss, and he will send you the treatment referred to. Fill out the coupon below.

FREE

This coupon is good for a package of GAUSS COMBINED CATARRH CURE sent free by mail. Simply fill in name and address on dotted lines below, and mail to C. E. GAUSS, 549 Main St., Marshall, Mich.

N. TORONTO'S TWO WEEKS IN WHICH TO GET READY

Now Up to City to Annex or Show Reason Why—Vegetable Men Will Put Up Big Fight.

NORTH TORONTO, Feb. 1.—(Special.)—It seems to me that the city have already had enough time to make up their mind as to what they are going to do with the matter of annexing North Toronto, and that we ought to have gone on with this application to-day, said Chairman Letch of the Ontario Railway Board in discussing the Waddington application for the double-tracking of Yonge-street yesterday at the session held in the Manning Chambers.

put a damper on the whole thing by ruling that as the Markham Township vote was taken without polling the same conditions must apply to all. Somebody else moved that the report of the equalization committee be accepted *hous a motu*, and this went thru with little or no opposition. And just when Markham was on the point of getting \$150,000 knocked off her assessment. The representative from Markham Township talk ominously about submitting the whole matter to Judge Winchester for a final ruling on the matter.

From the maze of figures submitted these few extracts will serve to render plain the action of council. "Resolved that the assessment of the township municipalities within the county be increased from the sum of \$28,638,149 as made by their various assessors to the sum of \$29,352,463, and that the assessment of all towns and village municipalities be decreased from the sum of \$3,514,493 as made by their assessors to the sum of \$3,217,562 making the equalized assessment of the whole county the total of \$26,134,705.

The ordinary grants were made to the agricultural societies and boards, and beyond one or two other matters of very personal interest council did not deal with any outstanding questions.

With the disposal of the good roads council will deal with all the work this week in time for adjournment on Saturday.

The question of the purchase of the Holland River toll road was referred to the county property committee.

ESTATE NOTICES.

NOTICE TO CREDITORS—IN THE Estate of Samuel H. Muller, Late of the City of Ontario in the County of York, Laborer, Deceased.

ASSIGNEE'S NOTICE TO CREDITORS—In the matter of James W. Claxton & Son, carrying on business as contractors in the City of Toronto, in the County of York, insolvent.

NOTICE IS HEREBY GIVEN, pursuant to the Assignments and Preference Act, that the above-named insolvents have made an assignment to me, the undersigned, of the general benefit of their creditors.

NOTICE TO CREDITORS—IN THE matter of C. A. LaBelle, of the City of Toronto, in the County of York, Merchant, insolvent.

NOTICE IS HEREBY GIVEN that I have been appointed Assignee of the estate of N. L. Martin, deceased, in the County of York, Ontario.

TERMS: Quarter cash, 10 per cent at time of sale, balance at 3 and 6 months, bearing interest and satisfactory proof of stock and inventory may be examined on the premises.

Lesson From the Past. "Lives was on another of his long absences, and the neighbors were tired of his faithful wife, Penelope."

Receipts at "Yesterday's" point were as follows: Winnipeg 1000, Oats 1000, Flour 1000, etc.

For the Town of North Toronto, together with the solicitors, Mayor Brown and Councillors Frank Howe and Walker Muston were present, while for the City Corporation Counsel Drayton and City Solicitor Johnston kept an eye on the whole proceedings.

Practically the only man to address the railway board was T. A. Gibson, who spoke with regard to the insufficient service afforded by the Metropolitan Railway even in the winter time when traffic was so much smaller than in the summer.

For such a knotty question as the equalization committee had to deal with, the way in which it went thru the council as a body yesterday was wonderful, and made Chairman Sam Footo bubble over with good cheer.

Prevent and Relieve Headache. "It gives me great pleasure to be able to refer to Dr. Miles' Anti-Pain Pills as the best remedy we have yet had in our house for the prevention and cure of headache."

Dr. Miles' Anti-Pain Pills. The best feature of this remarkable remedy is the fact that it does not derange the stomach or leave any disagreeable after-effects.

The accompanying letter has been handed to the World by ex-Warden Anthony Forster of Markham Township, and in view of the present unsatisfactory conditions surrounding the Assessment Act, will be found of special interest. The letter is as follows:

1. The law requires that the land shall be assessed at actual value; the buildings at the amount by which they increase the value of the property.

PORCUPINE "GOLD FILES"

Little Action to the Market and Price Changes are Small. Hollinger and McKinley-Darragh the Only Mining Issues to Show Any Distinctive Trend of Movement.

World Offices. Wednesday Evening, Feb. 1. Despite the fact that there was a good volume of trading distributed throughout the list of mining securities to-day, there was comparatively little action on the market, and moving in a perfunctory manner, with only confined price changes in evidence.

The general undertone to the list continued about on a par with that which has governed the situation since the first of the week, the outstanding disposition being seemingly more in favor of lower quotations than a higher range of values.

In the case of the cheaper Cobalts a few fractional set-backs were recorded. Chambers-Ferland, Little Nipissing and Timiskaming all selling below yesterday's levels, but in none of these instances was there any marked decline.

McKinley-Darragh was in somewhat better form as a result of the excellent financial statement presented at the annual meeting of the company yesterday afternoon, and inspired buying of the shares put the price up two points further to \$1.90, the this quotation was not held to the close.

The other higher priced stocks were unchanged, with only a medium of trading evolved during the day's operations.

There was a more substantial call for Hollinger, and as very little of the stock was on sale in the market, the demand resulted in an advance of 1/2 point, the shares selling as high as \$4.25.

The market did not show any distinctive trend at any period during the session, but there seemed to be plenty of stock on offer to meet the call for securities, and on this account there was no incentive to bid up prices for any of the usually active issues.

Standard Stock and Mining Exchange. Cobalt Stocks— Sell. Buy. Amalgamated 2 1/2 2 3/4. Beaver Consolidated 3 1/2 3 3/4. Big Six 3 1/2 3 3/4.

New York Curb. Charles Healy & Co. (R. B. Bonard) report the following prices for the New York curb: Argentinum closed at 2 to 4; Bailey, 5 to 7; Colonial Silver, 2-1/2 to 3-1/2.

Combination of Circumstances Brings About Lower Range of Prices. Samuel Montagu & Co., London, silver brokers, write under date of Jan. 19: A combination of untoward circumstances has brought about considerably lower prices.

WILL COMMENCE SINKING. Pearl Lake Mines Have New Camp Buildings Completed. PORCUPINE CITY, Jan. 30.—The Pearl Lake Gold Mines have completed their new camp and have also erected a stable and ice house.

MILLIONAIRE MINER LIKES PORCUPINE CAMP

Chas. Connolly of Colorado Thinks Prices High, But Sees Enormous Possibilities For Gold Fields.

PORCUPINE CITY, Jan. 30.—(From Our Mas Up North.)—Chas. Connolly, millionaire mine man and practical miner, of Colorado, is in the camp.

Mr. Connolly is one of the conservatives who are not thrown into hysterics when they see plasters of free gold. He has learned that a heavy running of these gold veins have merely congested in reefs, and that without the sulphides there must be barren spots.

Discussing Porcupine with The World, Mr. Connolly said: "I never ran into such a condition as I have struck here. Men want quarter and half millions for properties simply because Timmins paid an enormous sum for a prospect that he knew nothing about when he took it over."

"I like the Foster and would buy it except that Foster can sell only a half interest, and I do not want half interests. I think the Foster has the earmarks of a great mine. Some of the parties in the Dome, I believe, have bought half interests in the Foster, and now Heinze wants the property."

Mr. Connolly has been in Canadian mining camps before, and spent some time in Cobalt in the earlier days. He was attracted to the property on Tisdale claims, but says the time is too short to even attempt to look up the title.

"One thing is sure, no matter what the showings are, I shall not buy a claim at a big price, but will wait until the time to look it over," he concluded. "In this respect the camp is in a very crude state. Men are asked to put their money in blindly."

PEARL LAKE MINING CO. GIVES GOOD PROMISE. Forty Veins Uncovered on Property—Proximity to Hollinger—a Good Factor.

PORCUPINE CITY, Jan. 30.—(From Our Man Up North.)—One of the recently incorporated mining companies in the Tisdale district, whose properties are attracting much attention, is the Pearl Lake Mining Company.

While the company has done no work since incorporation, showings were made here in a quartz lead on Claim No. 15,770, as most spectacular. Work ceased the day before Christmas, but the exposed vein was arched over with a trestle of boughs, which protects it from beating snow.

In all there are now four veins uncovered on this claim, carrying spectacular showings. The angle is from 45 to 60 degrees, and so far as can now be determined, there is every reason to believe these veins are sisters to the big Hollinger one.

The rock is similar to that which is seen in the Hollinger camp, and the veins, which have every indication of running together with depth.
