HAMILTON HAPPENINGS

CROWN WILL MAKE TEST OF CAMPBELL'S FORMULA

Was Accused of Fraud in Manufacture of Shellac—Hamilton Short of Teachers.

HAMILTON, Aug. 29.—(Special.)—The liberty of Wm. F. Campbell when he appears before Judge Snider next Tuesday, will depend largely upon the results of a chemist's analysis of a formula which Campbell had been selling in the city of making shellac from inexpensive materials. The accused was in court today to answer a charge of fraud in connection with the sale of his formula, but as the crown could not prove the worthlessness of Campbell's recipe, the case was dismissed. The other similar charges against the accused remain to be tried, but before he faces the court of the crown will have the formula tested.

Goromata Traighana, the young Italian woman who was arrested last night on a charge of theft from her fiancée, was committed for trial this morning by Magistrate Jelfs. She was allowed bail in the sum of \$200, for which she drew a cheque. This is the sum of money she is accused of stealing.

Apparently overcome by dizziness, Thos. Blunt of Crown Point, last night fell headlong into a well at his home, and his dead body was found by his wife when she returned sometime afterwards. Coroner Anderson decided that an inquest was unnecessary.

Scarcity of Teachers. The board of education has been unable to find sufficient teachers in this city to fill all the positions in the city schools, and it was announced this morning that outside teachers would have to be engaged. First and second class teachers are wanted. It is understood that a successor to the late Sgt.-Maj. Gilmour, who held the position of drill instructor in the public schools, will probably be chosen by the internal management committee of the board of education when it meets a week from Thursday. Several local military men are expected to try for the vacant position, and it is understood that Sgt.-Maj. McIntosh of the A.M.C., a former member of the famous "Black Watch," has already filed his application.

J. D. Oliver, head of the Oliver Flow Company, visited the city to-day and sounded his customary praises of Hamilton. The effect of his complimentary words was considerably modified by his remarks concerning the offensive condition of the notorious "Coal Oil Inlet" which is situated near his factory. Some effort has been made to fill in the inlet, but the work has progressed so slowly that the muck from the bottom has risen to the top and has made the place more obnoxious than before work was begun there. People passing the spot are forced to hold their noses, and it is now feared that if conditions are not remedied at once, a fever epidemic will result.

Figuratively, individually and collectively, the board of health to-night jumped on nuisances with both feet. Stroud's cattle byres was the first and most important matter to claim the attention of the board, and he members were not at all backward in saying what they thought about it and in acting according to their thoughts. The board of health some time ago forwarded to the board of control recommendation that the particular nuisance be abated forthwith. The Stroud estate got wind of the matter and engaged George S. Kerr, K.C., to appear before the board and protest against the drastic action recommended by the board of health. The matter was referred back to the board of health, and to-night Mr. Kerr came before the latter body and claimed that it had been agreed to allow the Stroud estate four years in which to abate the nuisance. Dr. Roberts very emphatically stated that no such agreement had been made by the board of health, and expressed the conviction that the byres should be done away with at once in the interests of the public health.

P. D. Crever, K.C., also addressed the board of health in support of the wishes of his clients, the Hamilton Distillery Co., who sell their distillery slop to the Strouds for cattle feed. He claims that the distillery people had no other means of disposing of their slop without the installation of slop driers, and to do this would cost them \$25,000 or more, and force them out of business entirely.

Public Health First Consideration. Dr. Roberts told the lawyer that the board of health was not considering his clients' business interest, but was looking after the public health. The members of the board were unanimous in their decision to stick to the board of control recommendation that the byres be removed going back to the unsanitary residents got the meat whack and Dr. Roberts was instructed to inspect 14 houses which have come to the notice of the board, with a view to having them closed. A special meeting of the board will be held if necessary to support the doctor after the inspections are made. Frank Quinn drew the attention of the board to the condition of the lavatory at the G.T.R. passenger station, and as the local representatives of the railway had treated lightly previous notices in regard to the matter, it was decided to write the railway commission complaining of the unsanitary condition of the lavatory. Dr. Roberts' bylaw relating to the clean handling of foodstuffs in the city, which was modeled on Toronto's similar measure, was approved by the board and forwarded to the board of control.

An Enthusiastic Meeting. Gordon C. Wilson held an enthusiastic meeting at the corner of Lorne-avenue and Barton-street to-night, where he attracted a good crowd of voters and put several dents in the reciprocity agreement. The electors in East Hamilton, where the meeting was held to-night, are of a big majority there. A very potent factor in this result will certainly be the magnificent organization which he has working for win in this part of the constituency. Without money and without price, a small army of young Canadian have taken over their coats in this district and are working with extraordinary zeal to de-

FURS FOR FAIR VISITORS

Visitors to the "Big Fair" should take advantage of our opening sale of Fur Garments. It is in our opinion the largest and most complete display to be found anywhere in Canada.

The garments range from the smallest of ties in native furs to coats and cloaks of the most exclusive of foreign furs. Prices that attract.

Also, the very latest designs in Alaska Seal, Persian Lamb, Chinchilla, Near Seal, More Persian, Canadian Mink, Canadian Muskrat, Canadian Fox, Hudson Bay Sable, Russian Sable, Russian Ermine, Russian Pony Skin, Baum Marten, Canada Fisher, Electric Seal, Baby Lamb and Arctic Fox.

Ladies will please ask to see our line of fine Canadian Mink Muffs: Imperial design with mink, large sized \$30 Tie to match, for \$15 Large Persian Lamb Muff, \$20; Butterfly Tie to match \$13.50

We deal absolutely with the trader. The Persian Lamb we sell is selected in Leipsic and the Alaska Seal in London, England, each season by a member of the firm. These are the markets for Persian Lamb and Alaska Seal. Other pelts are secured direct from the trappers' agents.

Alaska Seal is getting a little scarcer and more expensive each year. The new international agreement will tend to make conditions worse next season. We have a very large and select stock of Alaska Seal which was purchased before the "International Award" was made. To buy your Seal jacket from us to-day is to make a good investment in furs.

ENDED LIFE BEFORE FRIEND

William Hallitt Swallowed Carbolic Acid With Fatal Result.

While sitting on the side of his chum's bed, William Hallitt drank a quantity of carbolic acid early yesterday morning and died a few minutes later, while being rushed to St. Michael's Hospital. Hallitt was 20 years of age and lived at 110 Sydney-street, but was stopping with a friend, Frank Woods, 111 Berkeley-street. He had been drinking during the previous evening, and on returning home asked Woods for a glass. He went to the bathroom to wash it out, and then returned with it half filled with what Woods thought to be whiskey. After a few minutes' hesitation he drank the contents of the glass with one swallow, and after a minute or two he cried "Don't call a policeman," and then dropped that call. Mr. Woods at once realized that his friend had taken something other than whiskey, and immediately summoned a policeman. The ambulance was also called, but the young man died before reaching the hospital. He was employed at the Puritan Printing Mills, and leaves behind his parents, a brother. There will not be an inquest.

NO ONE TO BLAME FOR DEATH.

It was the opinion of the jury which last evening concluded the investigation into the death of John Curtis, that the deceased came to his death as a result of having his right arm and right leg cut off by a T. R. engine, and that the occurrence was purely accidental. Curtis was letting off the brakes of an engine on the main line of the G. T.R. at Jones-avenue on the morning of Aug. 24, when a light engine ran over his arm and leg. He was taken to the General Hospital, where he died a few hours later. Operator Smythe of York Station was the chief witness last evening. He was very open with his remarks and said that if anyone was to blame it was he, as he had allowed the engine to pass. His only defence was a poor memory, to which he attached the blame of forgetting that men were working down the line. A telephone message had instructed him to stop all trains—that is, engines drawing cars. Other witnesses were called and testified that in this case the engine was light. Other witnesses were called and testified that the occurrence was an accident, and that deceased should have been on the lookout, as were the other men.

Plies, fissures, etc., successfully treated without an operation. Write for free booklets and references, Dr. Hawke, 21 Wellesley-street, Toronto.

SUSPICIOUS CIRCUMSTANCES

Hodgkinson's Pockets Turned Inside Out Before He Was Drowned.

ST. CATHARINES, Aug. 29.—(Special.)—No light is thrown on the mysterious circumstances surrounding the death of Geo. Hodgkinson at Meriton last Friday at the inquest which was resumed this evening before Coroner Joy. Medical testimony showed that death was due to drowning, and that the wounds found on the head and shoulder had been received before death and probably after the body entered the water, which was probably at the bridge near McLean's sawmill. Altho deceased drew \$255 the day before the drowning, no one had seen him spend much money the day before the drowning. The suspicious circumstances regarding the pockets being turned inside out remain unsolved. One witness, Charles Dodd, stated that when returning home at 1 o'clock he saw two strangers bring a man near the town line crossing not far from the spot where the deceased was last seen by his brother. The inquest was adjourned until Sept. 12 to give the police a chance to solve the problem regarding the pockets and wounds.

ANOTHER FACTORY.

The city architect yesterday issued a permit to the Sanitary Manufacturing Co. to erect a one-story brick factory at the corner of Lansdowne and Royce-avenues.

FOR CLEANING WOOD WORK (PAINTED & UNPAINTED) THERE'S NOTHING LIKE Old Dutch's Cleanser Full directions and many uses on Large Sifter-Can. 107

FALL OF LUMBER FATAL

Joseph Pitro's Skull Fractured While Working in Saw Mill.

While working at the Rosedale sawmill, a pile of lumber fell onto Joseph Pitro, 170 Sumach-st., fracturing his skull. He was removed to the General Hospital in an unconscious condition and died a few hours later. Pitro was carrying some lumber along a passage way when a huge pile of lumber which had not been piled properly, fell, pinning Pitro to the ground. An inquest will be held to-day.

ATTRACTIVE PLANO WAREHOUSES.

The piano warehouses of the old firm of Heintzman & Co., Ltd., 125-127-129 Yonge-street, strikingly attractive at any time, are especially so just now with the beautiful floral decorations that fit in most artistically with this preeminently art piano. A wide invitation is extended to visitors to drop into these warehouses at any time.

NOMINATIONS.

OTTAWA, Aug. 29.—At a convention at Westboro this afternoon Donald Hector Maclean, barrister, was nominated Liberal candidate for the County of Carleton.

EDMONTON, Aug. 29.—Hon. Frank Oliver was tendered the unanimous nomination this afternoon for Edmonton riding by a convention pronounced the largest ever held in the constituency. No other name was mentioned, and the minister of the interior was given an enthusiastic reception.

Drug Clerk Arrested. John Arobbald, an employe at the drug counter in Eaton's, was arrested last evening on a charge of stealing \$1 from his employers by means of altering a cash slip.

It is alleged that Arobbald changed the figures on the cash slip which went to the cashier and when the change came, gave the purchaser only the proper amount and pocketed the balance.

HONORED RETURNED ENGINEERS.

Upon their return from England, where they attended the coronation, Captain Gamble, president of the Engineers' Club, and Col. Van Nostrand, were honored by a pleasant dinner by the directors and a few friends last evening. Vice-president Willis Chipman occupied the chair. Speeches of congratulation were made by Chas. H. Hays, E. A. Jones, C. M. Gannis, R. A. Baldwin, W. E. Douglas, T. A. Young, Archie Ward, Dr. Bach, L. V. Rorke and others.

SIFTON IN ST. JOHN

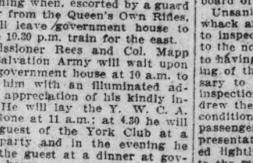

Got Enthusiastic Reception From Audience of 3000.

ST. JOHN, N.B., Aug. 29.—Hon. Clifford Sifton addressed an enthusiastic meeting here to-night and got a great reception from the crowd present, estimated at 3000. Mr. Sifton dealt solely with the reciprocity pact and declared if it went into effect the east and west of the railways of Canada would be ruined by the diversion of trade, north and south, but the greatest damage would be done to Canadian ports, more particularly St. John. He also claimed that reciprocity would place Canada at the mercy of the United States, and the Dominion for Hazen presided and made a short address. Other speakers were Dr. Daniel and H. A. Powell, the Conservative candidate.

EARL GREY LEAVES TO-NIGHT

His Excellency Earl Grey and party will conclude their visit to Toronto this evening when, escorted by a guard of honor from the Queen's Own Rifles, they will leave government house to take the 10:30 p.m. train for the east. Commissioner Rees and Col. Mapp of the Salvation Army will wait upon him at government house at 10 a.m. to present him with an illuminated address in appreciation of his kindly interest. He will lay the Y. W. C. A. corner-stone at 11 a.m.; at 4:30 he will be the guest of the York Club at a garden party and in the evening he will be the guest at a dinner at government house.

He Settled the Dispute. The artistic temperament was shown when Miss Rena Santos and Miss Carlotta Grey, the two principals with Ralph Herz in "Doctor de Luxe," at the Princess Theatre, boarded a street car. Both wanted to pay the fare. One took a seat in front, the other in the back...

Start on Warehouse. George J. Foy, Limited, commenced work yesterday morning on their new warehouse on Front-street, close to the corner of Bay-street.

Certainly Not. A New York man who thrashed a number for insulting his wife had been held under \$500 bail on the charge of assault. New York won't stand for anything that interferes with a man's pleasure.—Philadelphia Enquirer.

Call at My Office when you visit the Exhibition and take the opportunity to consult me free. To be strong and healthy is the aim of every man, and yet how many we find who are wanting the vitality and strength which nature gives them. Instead of developing into the strong, vigorous, manly young fellows that nature intended them to be, they find themselves broken down and despondent...

DEADLY COAL OIL AGAIN. Mrs. Jas. Steele of Todmorden Succumbed to Severe Burns. After suffering for twelve hours from a coal burn on the body, caused by a coal oil can exploding while she was trying to light the fire, Mrs. Jas. Steele of Todmorden, died in the General Hospital shortly before eight o'clock on Monday evening.

Dr. McLaughlin's Electric Belt Cures. Varicocele, Rheumatism, Kidney Troubles, Lame Back, Sciatica, Stomach Troubles, Nervous Debility, Lost Vitality and every indication that you are breaking down physically. To prove to you the confidence I have in the curative power of my Belt, I am willing to accept your case, and after I have cured you, then pay me. All I ask is reasonable security. You may then use my Belt at my risk, and you can see for yourself.

Two Business Failures. Charles Lovey, the Queen-street restaurant keeper, has assigned to G. T. Clarkson of E. B. C. Clarkson & Sons. He was the proprietor of Lovey's Cafe, 48-51 East Queen-street, and the Albany Quick Lunch, 97 West Queen-street. It was known for some time that Mr. Lovey was involved in financial difficulties.

WEAK MEN. Take This Belt for What It is Worth. Wear It Until You are Cured. Then Pay Me My Price. To be strong and healthy is the aim of every man, and yet how many we find who are wanting the vitality and strength which nature gives them. Instead of developing into the strong, vigorous, manly young fellows that nature intended them to be, they find themselves broken down and despondent...

Russell-Walker. A quiet church wedding was solemnized yesterday morning at 10.30 o'clock in the Disciples Church of Christ, Cecil street, by the father, Mr. and Mrs. John Walker, being married to Dr. William G. Russell, all of Toronto. Only the immediate relatives and very close friends witnessed the ceremony, which was conducted by the Rev. C. O. Reynolds. The bride, who was given away by her father, was gowned in a pretty traveling costume of blue serge, and her sister Nellie, the bridesmaid, was charmingly costumed in a suit of grey serge. Mr. Norman C. Pearce assisted the groom. Mr. and Mrs. Russell left at noon on a trip to the upper lakes, and upon their return will reside in Parkdale.

The winner is required to purchase a Chain from us to wear with watch. The name of this paper must be mentioned in winner's name. Competition closed Sept. 15. Mr. F. Spence, Box 26, Parry Sound, Ont.; Miss A. Marshall, Ayr, Ont.

PLACE BLAME ON WILKIE FOR HIS WIFE'S DEATH

Croner's Jury Heard Evidence, Indicating Severe Maltreatment of Woman.

"We find that Ellen Wilkie came to her death on Aug. 14, 1911, at 254 Clarence-street, from the effect of injuries received from the hands of her husband, Edward Wilkie. We exonerate Frank Perry from any implication in her death." This was the verdict of the jury at the inquest held at the morgue yesterday afternoon, when the coroner, Graham, regarding the death of Mrs. Ellen Wilkie.

Mr. Charles W. Johnson, No. 1, was notified of the disturbance at the Wilkie home about 10 p.m. He went to the door and found Wilkie and wife scuffling. Mrs. Wilkie asked him not to leave because her husband had been abusing her all night. After having quieted matters, he left about 11.10.

Dr. S. Singer, 104 Simcoe-street, who with Dr. Silverthorn, performed the post-mortem, testified that Mrs. Wilkie had suffered from heart disease. He believed the treatment that she had received on the night of her death would not hasten her death. Frank Perry, a detective with the Wilkie family, testified that the Wilkie had called him in to separate the struggle in which her father and mother were engaged.

Heintzman & Co.'s Exhibition Exhibit. The display of Grand and Upright Pianos made by Heintzman & Co. at the Toronto Exhibition covers a very wide range of the highest grade pianos made by this house. The Liberal campaign slogan, "Laurier and larger markets," would be believed, be the truth if it read "Laurier and lower prices."

Not a Party Question. In the present instance continued Sir James, when Sir Geo. W. Ross was constrained to oppose reciprocity, he was entitled to attend to the discussion of this question. (Hear, hear.)

Inequality of the Pact. Discussing certain aspects of the reciprocity agreement, Mr. Henderson referred to the inequality of the pact regarding timber. "Raw lumber was free, but if any unscrupulous Canadian desires to get a day's work out of a piece of timber and planes the board on four sides, the duty will be \$1.50 per thousand feet." (Hear, hear.)

Two Business Failures. Charles Lovey, the Queen-street restaurant keeper, has assigned to G. T. Clarkson of E. B. C. Clarkson & Sons. He was the proprietor of Lovey's Cafe, 48-51 East Queen-street, and the Albany Quick Lunch, 97 West Queen-street. It was known for some time that Mr. Lovey was involved in financial difficulties.

Rowing Durnan and Hackett Post Final Deposits

Note and Comment

A letter was received yesterday from W. J. Lucy of Rainy River, backer of Jack Hackett, containing the final deposit for the race on Thursday of next week with the Toronto sculler, as expenses. Prior to his departure on Monday for the north, Durnan deposited his final \$400, which, by the way, was not due until to-morrow. The \$300 which is at stake for the race Sept. 7 on the Rainy River is now on deposit in the Metropolitan Bank, having been posted by the sporting editor of The World, the stakeholder, according to the articles of agreement, as follows:

1-1500 each, July 12 \$400 00
2-1500 each, Aug. 12 800 00
Total \$2,000 00

Mr. Lucy states that Hackett is in fine shape. They had just laid out the course, 5 1/2 miles, with turn, and both the same, will meet with Mr. Durnan's approval. Durnan and Nat. Scholes will reach Rainy River to-day.

A Winnipeg despatch says: R. A. McArthur of this city has been chosen to referee the sculling race between Durnan and Hackett, to be rowed on the Rainy River, Sept. 7.

Increases in spreading from British Columbia to the south, and promises to gain a firm footing in California. The Los Angeles Club has indicated and four Canadian players to join its organization and form the nucleus for a strong twelve. A series of three games will be arranged with the Olympic Club of San Francisco, and it is hoped that some of the leading California colleges will join in the movement. The Canadians who have promised to help the Los Angeles Club are: Donald of Winnipeg, Keller of Victoria, Snyder of New Westminster and Nick Carter of Fort St. John.

London Baseball Club was playing in Hamilton, and Smith, formerly of Toronto, was pitching, and Cancelli umpiring. Sammie thought the Toronto team was in fine trim, a strong deal, and there was much bragging. Finally Sammie could stand it no longer and started after Cancelli. "What's the matter with you, you Italian shrimp?" he queried. "Go on, you big throw stick, show back, hit the umpire. Knotty Lee was on the third-base coaching and took a hard hit. Shut up, both of you. We don't allow foreigners fighting in the ball park." The argument ended in a laugh all round.

Cy Goodfriend, who traveled around the world with the circus and the American ball teams thirty years ago, in the capacity of newspaper correspondent, is at present in the city, ahead of Chas. Carter in the "Seven Sisters," at the Princess next week. He has a host of anecdotes concerning baseball.

How much will Fitz Herd bring when S. C. Hildreth's horses are sold at auction on Sept. 17? A year ago he was reported to have netted \$75,000 for the great horse. He sold him to J. E. Madigan for \$60,000. He was bought by J. E. Madigan for \$60,000. Fitz Herd's racing career is practically at an end, so that he is now a stud owner and a stallion for breeding purposes. When he is put up for sale, will Madden bid for him?

LEAFS TAKE BOTH FROM JOE MCGINLITY'S INDIANS

First Game—Went Eleven Innings, While Second Was Called on Account of Darkness.

It was "skirt day" and the Leafs celebrated by grabbing both games of the doubleheader from Joe McGinlity's Ginger Boys. The first battle went to the Island Sluggers by a 7 to 6 score after ten innings, and the second affair stood 5 to 0 for the homesters when the contest was called after the first half of the eighth owing to darkness.

Lush was opposed to Lush in the initial game, and both were relieved after being hit hard and often. Tesreau lasted the eight innings in the second encounter while the best that Boies could do was stay on the mound for four innings.

Cantwell, the new Newark recruit, who relieved Holmes in the first game, held the Kelley band of clouters to four safeties for eight innings.

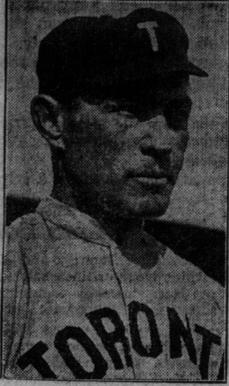

It was the second before the Indians appeared on the score board when they were downed by a lone when they pulled a single into center. Fisher was an infiel out and McCarty came along with the needful in a two-strike to deep left. It was the fifth before the McGinlity band could count again, and the Leafs also single into center, tripped to right, and Smith dropped a safety in the same garden. Collins was held at the threshold. Dalton was out, Vaughn to Jordan, and Collins crossed the plate.

The Newark bat artists did it up in the sixth. Cady got up as fast as first when he struck the pop over the back of second. Fisher poked safely to left, and McCarty tore off a three sack clout to center. Fisher was forced in by Rowan. Rowan misjudged this one of McCarty's, and he was lucky to be credited with three bases. Cantwell then singled to left and McCarty romped in with the tying run.

The visitors were unable to score again. Toronto started their run getting in the second, coming across with three when Phelps tripped after Jordan and Bradley had been disposed of. Mullen then singled, and Holmes hit Rowan in the ribs with a fast shoot, filling the bag. Lush also went over the free throw line, and the Leafs were up 2-0. O'Hara forced Vaughn at second.

Three more were added in the next, and the downward of one of the Leafs. "Ducky" Holmes, Delahanty was an infiel out. Holmes hit Jordan on three bases, and Rowan singled to left. Phelps popped to Louden, Mullen doubled to right, and Jordan and Bradley were forced in. Rowan poked to left and Mullen scored. Lush walked and Vaughn hit out.

It was the fifth before the Leafs again scored, and this time it was the winning run. Vaughn singled to left and Mullen scored. O'Hara supplied the necessary, and Vaughn tripled for the winning run.

JIMMY MULLEN The Leafs' popular second baseman, who was back in the game yesterday after an absence of eight weeks.

Two With Greys This Afternoon Then the Pirates

With two games carded with Providence to-day and Pittsburg coming to-morrow the Leafs will have their hands full for the reception of the Pittsburg team to-morrow. The contest will be called at 3, and the gates will be opened at 1 o'clock. Pittsburg will present their full line-up, including Tommy Leach, Gibson, the London boy; Carey, the sensational outfielder; Fred Clarke, the veteran manager and player, and Marcy O'Leary, the pitcher recently purchased for \$25,000 by President Dreyfus. President McCaffrey intends taking all the members of the Pittsburg team around, and also to the exhibition during their stay. There has been an enormous demand for seats, and the indications point to a big crowd.

Jimmy Mullen played his first full game in eight weeks, it sure did look good to see the old standby back in harness.

Bobby Vaughn was a very busy man, and pulled off some nice plays around the short field.

Wyatt Lee was not with the visitors. Wyatt is home nursing a sore finger, and will report to the Indians at Baltimore on Monday.

Agler was also an absentee. He is suffering from indigestion.

Sam Lubbenstein, president of the Montreal Club, was a visitor to the island yesterday on his way home from the directors' meeting at Buffalo.

National League Scores.

At New York—St. Louis practically played the game to New York, the Cardinals pitchers presenting the locals with twelve bases on balls. The game was played on a wet, soft, spongy ground. Oates and Ellis made great catches, the former spearing Merritt's terrific drive over the head in deep center by a jumping one-batter catch. Score: St. Louis 10, New York 0.

At Philadelphia—Only one of the two games booked for this city could be played yesterday, and Philadelphia defeated Chicago 5 to 3. Rain fell during several innings. Manager Dooin of the clubhouse, it being the first time that he presided at the game, from the clubhouse. He was the first to see his leg broken at St. Louis five weeks ago. Score: Philadelphia 5, Chicago 3.

American League Scores.

At Cleveland—Cleveland was unable to hit Johnson and Washington won their first game on the local grounds this morning. The game was the first in the first five innings, fanned eight from then on. Score: Cleveland 0, Washington 3.

At Chicago—Chicago shut out Boston in the final game of the Eastern series yesterday. Scott and Wood. Scott allowed five hits, while Wood was touched for seven opportune hits. A running one-hand catch by Bode was the feature of the game. Score: Chicago 3, Boston 0.

Hotel Kraussmann, King and Church Sts., Ladies and Childrens' Grill with music, open till 12 p.m. Imported German Beers on draught.

Longboat and Shrubbs for Listowel LISTOWEL, Ont., Aug. 29.—Tom Longboat and Auf Shrubbs have signed an agreement to run a seven-mile Marathon race here on Sept. 30, the last day of the Listowel Fall Fair.

OFFICIAL BOXING REFEREE WILL WORK IN N. Y. STATE.

NEW YORK, Aug. 29.—The boxing commission here today authorized John J. Dixon and Frank O'Neill to referee this afternoon on the referees who will officiate at the various boxing clubs for this season. This list is only complete in part, but the commission concluded its work thirty-two months ago. The commission has a big waiting list of applicants for the position. As there will be need of at least 100 men in the new body.

Under the new laws no official, no director, no stakeholder nor any man in any way connected with the management of a club can officiate as a referee.

The referees will interpret the boxing rules and will have the power to disqualify by all means, but they will not be permitted to decide the winners of bouts.

Two for the Royals.

MONTEAL, Aug. 29.—Montreal took two games from the tallenders to-day. In the first, Dubuc had all the luck and scored out a 4-to-0 victory over St. Louis. The second, the Royals batted Taylor for five runs in the first, while Dummy Pierce held the visitors to four hits and two runs. Score: Montreal 4, St. Louis 0.

At Philadelphia—Only one of the two games booked for this city could be played yesterday, and Philadelphia defeated Chicago 5 to 3. Rain fell during several innings. Manager Dooin of the clubhouse, it being the first time that he presided at the game, from the clubhouse. He was the first to see his leg broken at St. Louis five weeks ago. Score: Philadelphia 5, Chicago 3.

American League Scores.

At Cleveland—Cleveland was unable to hit Johnson and Washington won their first game on the local grounds this morning. The game was the first in the first five innings, fanned eight from then on. Score: Cleveland 0, Washington 3.

At Chicago—Chicago shut out Boston in the final game of the Eastern series yesterday. Scott and Wood. Scott allowed five hits, while Wood was touched for seven opportune hits. A running one-hand catch by Bode was the feature of the game. Score: Chicago 3, Boston 0.

Bleiss Sting the Skeeters.

BUFFALO, Aug. 29.—Buffalo and Jersey City met in their season's farewell game to-day, the Bleiss taking both. Justus went in the first until his mates fell down, and then he went to pieces. The second game was a real ball game, and it was on Murray's triple and two-bagger that the Bleiss were able to win the score.

MAIL ORDERS CAREFULLY FILLED.

JOHN CATTO & SON 25-31 KING STREET EAST, TORONTO.

AYLESWORTH AND FISHER MISSED AT LIB. MEETING

An interview at which Hon. Rodolphe Lemieux was present, endeavored to have Cahill retire in favor of Hodgins. Cahill would not do this, but would give a letter of introduction. Mr. Cahill, in an interview with your correspondent today, stated that he would tell Sir Wilfrid that he was nominated as the Liberal candidate by the voters of the riding of St. Lawrence and St. George's East.

There were more than 2000 people at the meeting and Cahill's supporters were in the majority. Cahill's supporters were in the majority. Cahill's supporters were in the majority. Cahill's supporters were in the majority.

Several affidavits were read by Hodgins' supporters claiming that Mr. Cahill had attempted to buy delegates and the vice-president of the Liberal Association, who is now opposing Lemieux's candidature, jumped to his feet and produced a bundle of cheques which he claimed were given him in 1908 by Mr. Hodgins to buy up votes in the county. Mr. Hodgins made no attempt to reply. Dr. Gaboriau, M.P., who was present, called him a despicable man and called him a member of the local legislature called the Ontario Legislature, who had brought to the platform, to witness the truth of what he was saying, which, however, was inaudible to the crowd. Several free fights had by this time sprung up, and the crowd, surging in all directions, refused to listen further to the speakers.

In the fight that ensued three men were seriously injured and blood was freely shed. Two arrests were made by the local constables. This evening Messrs. Aylesworth and Fisher spoke to two small meetings in St. Lawrence and St. George's East.

The special features of the Player-Piano made by the Old Time of Heintzman & Co., Ltd., are so important from any others that this firm are very anxious that anyone interested should see either at their exhibit at the exhibition or at their warehouses, 183-185-187 Yonge-street, examine this instrument for themselves. The albumin-ized tone striking specially, but only one of others that have given this Player-Piano a place by itself in this class of instruments.

THE WEATHER

METEOROLOGICAL OFFICE, Toronto. (A. S. D.)—The weather today has been fine and warmer in the western provinces, and much cooler in Ontario and Quebec, while further east in the Gulf it has been showery with a northerly gale.

VEGETABLE GROWERS WILL RECIPE RECIPROCITY

Continued From Page 1.

Every vegetable has its distinct season and you all know that after a long winter there is a distinct craving for fresh vegetables. The first that come along may be spinach, and are taken to satisfy the craving at a higher price on that account. Shortly another comes along, and the same craving for early supplies keeps up the price.

"Where will the United States under reciprocity, the natural conditions enable them to place their goods on the market two or three weeks ahead of us. What advantage then, is their market to us? The price for our goods is entirely dependent on the season they come to market. When times are good, and some of you know this very well, they are worth ten or twelve cents a pound, but very soon they are only worth the same price per bushel. There is no profit in that. By the time the market gardener can reach the United States market, his goods have reached the eight or ten cents stage. The consumer may possibly get them earlier, but he will not get them cheaper. We have to add freight. The consumer under reciprocity will get the goods at a higher price, but he will get them no cheaper but perhaps earlier.

"The Canadian grower cannot grow for the American market. It is already supplied. The vegetable growers presented their case at Ottawa last spring, but we were only told we were too late. The Globe's Cold Comfort.

"I have waded thru columns and columns of The Globe and find nothing out of it. The Minister of Agriculture told me he was satisfied that under reciprocity it would not be as the vegetable growers said, but he was most unsatisfactory to us. He should have given us reasons, but he had nothing to say. It will be any advantage to the consumer, and the profitable end of the business will be carried on by the American farmer." (Long and hearty applause.)

A Splendid Meeting.

The meeting was a solid and enthusiastic one, and highly successful. The well-reasoned and thoughtful paper placed before them by the speakers. The hall was crowded, and the speakers were backed on the stairs being filled with those who could not get in. The gathering was in the interests of Captain Tom Wallace's candidature in Centre York, and the speakers were all in favor of the measure.

The speaker of the day was Mr. T. White, who was very cordial and courteous to say the least. He had enjoyed hearing Mr. Dilworth. The market for reciprocity will be very hardy under reciprocity.

Nothing to Regret. Sir Richard said he was nothing to regret for his bygone efforts to secure unrestricted reciprocity. That was an important matter, and he was proud of the condition of affairs. In the last 15 years of the Conservative rule the trade of Canada had increased by a million dollars. In the 15 years of Liberal rule our trade had increased \$40 millions. He would not say that reciprocity was a necessary condition of the situation.

Why did Canada desire to make this exchange? Why should the farmers have to be a party to it? He believed the farmer would get less under reciprocity. The city man had no interest about the farmer, but as long as he was able to pay for it, it was only reasonable that the farmer should enjoy protection.

Have you heard of reciprocity in the last fifteen years? asked Mr. White, and an audience of 2000 people, who were not so far from the city and the farmer, had the growth of Toronto injured by the farmer's protection. He believed the farmer would get less under reciprocity. The city man had no interest about the farmer, but as long as he was able to pay for it, it was only reasonable that the farmer should enjoy protection.

market of ninety millions sounded well and seemed like a large market. Who had been feeding the ninety millions up to date? He declared it reciprocity would benefit the producer and the consumer alike. He moved a vote of thanks to Sir Richard for his address.

Another Reckless Motorist. A motor car traveling along the Kingshighway, near the city, was dived into a ditch, and the driver was killed. The car was a 1911 model, and was traveling at a high speed.

Two Girls Arrested. Emma Queen and Ella Grant of 30 Sauter-street were arrested last evening by Detective Gurnea and Police Constable G. E. G. in connection with the young women. It is said, would the same girls be arrested in connection with the case. It is believed that they were living by their wits for some time.

THE BRITISH STRAIGHTEN THE BIRDING EMPIRE

Continued From Page 1.

classified as purely and purely selfish. It was absurd to make a question of loyalty or disloyalty whether the farmers of Canada are to sell their produce in the United States.

The Loyalists. This colony was made up of men who had come to the British flag. Just as the men who made a catchword of loyalty. Let him assure those timorous souls that there was no disloyalty in the United States.

The Conservatives asked where was the mandate to sell their goods in the United States. He could tell them that the mandate was very large, and was given to them by the British people. It was not a question of loyalty, but a question of the welfare of the British Empire.

What was in their minds was that if the goods were taken out of the tariff party might be seized with the desire to buy in the United States.

Turning Trade. The patriots were very much afraid that this reciprocity would trade—that under reciprocity the British Empire might be broken up. But if the United States were to reduce their tariff, how would the goods be taken out of the tariff party? They might put on an export duty, but he would not say that the worst was over.

It was said that reciprocity would injure the British Empire. The Conservatives had welcomed the British preference when it was introduced in the U. S. supporting reciprocity. First there was the tariff party, and then the tariff party.

Those were the men who opposed reciprocity. "And," he added, "I would like to see their names in the same fashion who are opposing reciprocity in Canada. They are the classes against the masses it was this same question. The working classes and blind leaders of fools. They were the men who were to be protected by the tariff party.

Nothing to Regret. Sir Richard said he was nothing to regret for his bygone efforts to secure unrestricted reciprocity. That was an important matter, and he was proud of the condition of affairs. In the last 15 years of the Conservative rule the trade of Canada had increased by a million dollars. In the 15 years of Liberal rule our trade had increased \$40 millions. 60,000 PEOPLE THROUGH EXHIBITION GROUNDS

Presentation of Festival of Empire a Spectacular Triumph—British Newspapermen Present.

The Canadian National Exhibition got away to a really good start yesterday with an attendance 5000 ahead of the corresponding day of last year's fair, which means that at least 60,000 people passed the turnstile between the opening and closing time. The crowds kept coming and going all thru the day, thronging the buildings and liberally patronizing the refreshment and grand stand shows of the afternoon and evening.

It was marked down as society and pioneers' day on the official calendar, but it turned out to be more after the fashion of the great Empire and the great Festival of Empire and the great Festival of Empire and the great Festival of Empire.

The outstanding event of the day was the visit of the old country journalists, the reviewer of 5000 boy scouts by Earl Grey, the presentation of the Gooderham fountain to the exhibition grounds, and the great evening grand stand performance.

Today is children's day, when the youngsters will be admitted to the grand stand for an additional nickel. A Great Crowd.

Big as were the crowds on the exhibition grounds this afternoon, the evening attendance brought additional thousands. Fully twenty thousand people were present, and the atmosphere was one of the most enthusiastic and enjoyable of the coronation procession and the Festival of Empire.

The background was a faithfully arranged miniature Windsor Castle, with its setting of green, sloping sward and clustered trees. Wall and battlement and tower and spire were all faithfully represented under the dazzling electric light with a great deal of the charm of the original, and the formation a fitting framework for the magnificent re-enactment of the festivities of the coronation procession and the Festival of Empire.

The program rendered by the massed bands was directed by Bandmaster Waldron of the Grens. It began with a grand fantasia composed by Dr. McKenzie Rogan and ran the gamut of colonial airs, some unrecognizable to the majority of the thousands on the grand stand, others household tunes.

CHILDREN'S DAY AT THE FAIR

Continued From Page 1.

8 a.m.—Gates open. 9 a.m.—Buildings open. 10 a.m.—Yacht races start. 11:30 a.m.—Grand concerts start. 2 p.m.—Grand stand performance. 2:30 p.m.—Judging ponies in little ring. 3 p.m.—Japanese fireworks. 4 p.m.—Grand stand, vaudeville. 5 p.m.—Festival of Empire. 5:30 p.m.—Tattoo, Living Flag. 6 p.m.—Coronation procession. 8:45 p.m.—War beneath the waves. 10 p.m.—Coronation fireworks.

The reproduction of the coronation procession also was realistic and successful enough, even if one or two indifferent horsemen did lose their seats. The fact that the coronation procession found it difficult to trace any resemblance between the features of pseudo-royalty as it passed by in the mimic street coach and those of the real thing, was a compliment to the realism of the latest photos sold to loyal Britons.

The procession passed by in three sections, colonial, Indian and royal. In the first section marched the troops from overseas dominions, escorting carriages bearing the supposed doubles of the leading colonial premiers. As there was no guarantee contained in the official program that the exactitude of reproduction would extend even to the features of the actors, they can scarcely be held liable for the fact that the unreal Sir Wilfrid had passed the grand stand before the spectators could see him in the carriage.

The management had better label the carriages and contents and also state whether Sir Wilfrid is represented as before or after the reciprocity fight. The blaze of fireworks ended up the whole evening performance in one grand blaze of glory, making a fitting finale in manifold character of the great day in the annals of the Canadian National Exhibition.

Attractive Vaudeville. The vaudeville program in front of the grand stand is an unusual merit and versatility. From a long list of really wonderful events, by far the most spectacular perhaps is the high dive by Quincy, who mounts a ladder 88 feet in height and plunges downwards into a tank of water, which is struck by a powerful jet of water splash. The graceful manner in which he curved in the air while making his descent was beautiful to look at and the background of the old mill and the crowds, Hassan Ben Ali and his troop of trained Arabs are also unrivaled in the acrobatic world. Their feats of agility and strength are truly marvelous.

Several of them turned somersaults so fast in front of the grand stand that they seemed like flying discs rather than human beings. If anybody likes to see performing dogs there is something unusually attractive in the "Three Companys" which are making a specialty of displaying full lines of their paws have this year but a large capacity. Still they find it impossible to fill all the orders.

"Purity" is the motto of the company. From the time the fruit is cleaned it does not touch a human hand. All the work is done by sterilized and sanitary machinery. The reason for the popularity is not far to seek. Only pure fruits are sold, and the dealers are realizing that they cannot put compounds on the public in place of the pure article.

Christie's Quality Biscuits. "Christie's" is the stamp of quality in biscuits. Don't allow any dealer to impose inferior quality on you. You the best and purest ingredients are used, and the workmanship is of the highest quality. Dealers see to it that the manufacturers' building at the exhibition, and you will realize that when you sell Christie's you are not only catering to the desire of your customers for the best, but you are increasing your business by handling the best. Five hundred cases of biscuits, every one of which is made under the cleanest and most sanitary conditions, in the spotless factory at Duke and Frederick-streets, are shown in the exhibit.

Independent Order of Foresters. The Independent Order of Foresters again occupy the large red tent at the head of Society Row. Their spacious tent, beautifully furnished with maple oak furniture, and decorated with ferns, palms and gladioli, is open to all callers and you will find a warm welcome from those in charge of the tent, Brother G. A. Mitchell, superintendent of field work; Brother James Henderson and Brother John T. Thompson, D.S.C.R.

It is most interesting to talk with Brother Mitchell as to the wonderful strides the order has been making during the past year. A hearty welcome is tendered to all members and their friends when visiting the fair, and is one of the most successful of the practical fraternal societies. Brother Mitchell does not hesitate in saying the order is making strides in the number of members and their friends when visiting the fair, and is one of the most successful of the practical fraternal societies.

Earl Grey Attracted. Earl Grey was walking thru the manufacturers' building Monday when attendants and company missed him. Retracing their steps they found him standing in front of the beautiful "White Horse" Whiskey exhibit. Artistically draped in surly tartan, the stand caught the eye of the governor general, and he stood admiring the pretty effect while his attendants were searching for him.

"White Horse" Whiskey is the product of Mackie & Co., Distillers, Limited, Glasgow, Scotland. Jack Lurton, a well-known Toronto boy, is the agent for Canada, with George F. Fisher Limited, as the distributing agent for Ontario.

The amount of adulteration now being done in food and drink is not so much as the public themselves are to blame, but if they do not insist upon being supplied with well-known and established qualities both in food and drink, they are to blame for it.

To ensure public confidence, the proprietors of "White Horse" Whiskey have adopted for years the unique method of having every bottle analyzed by their whiskey analyzed by the Glasgow city analyst, and a guarantee of purity accompanies every bottle.

When you compare the quality of the "White Horse" exhibit, the effective drapery and neatly arranged goods cannot fail to please the eye, just as the quality of the article cannot fail to please the palate.

Spooner's Copperine. Again Spooner's Copperine is on exhibit in the above building. All the

GOBBLE FROM RHEUMATISM

NOW IN PERFECT HEALTH THANKS TO "FRUIT-A-LIVES"

"I am well acquainted with a man known to thousands in Vancouver, Victoria and New Westminster, who for nearly a year was practically a cripple from Rheumatism. He was so troubled with the disease that he found it difficult to even turn over in bed. His heart appeared so weak that he could hardly walk up stairs.

"Last June he received a sample of 'Fruit-a-lives.' He used them and dates his recovery from that time. Today he is as well as any man in Vancouver enjoying better health.

"He was building a house this fall and shingled a good part of the roof in a driving rain, without suffering any bad effects."

JOHN B. LACY, Vancouver, B.C., Feb. 1, 1910. Mr. E. E. Mills (assistant postmaster at Knowlton, Que.) also writes: "I honestly believe that 'Fruit-a-lives' is the greatest Rheumatism cure in the world. Try it yourself. 50c a box, for \$2.50, trial size, 20c. At all dealers, or from Fruit-a-lives, Limited, Ottawa.

grades and varieties of this tough material are shown to advantage in the well arranged stand. The metal is tough, fine-grained and will take a friction polish as smooth as glass; will stand up to the power and it has the strength to a remarkable degree.

Your complete without making a visit to this exhibit.

Nasmith's Dining Hall. Because of the increasing demand for a high-class meal at the exhibition, Nasmith's Dining Hall, in the Manufacturers' building, is now allowing 500 to be seated at tables. By serving only one class of meal a better service can also be given. Their dining-room can also be given. Their dining-room can also be given. Their dining-room can also be given.

Madame Baxter is again on the Midway with her large staff of scientific assistants, while at the exhibition to call and get your hair painted, as there are no mysteries in the palmists cannot understand. Accurate readings of all your past life are given, and the present is unfolded to you as the lines in your palm indicate. Madame Baxter's palmistry parlors on the Midway.

Wagstaff's Pure Fruit. One of the most interesting exhibits on the grounds is that of Wagstaff's Pure Fruit, in the Manufacturers' building. The increasing popularity of their pure fruit has led this enterprising company to display full lines of their paws have this year but a large capacity. Still they find it impossible to fill all the orders.

"Purity" is the motto of the company. From the time the fruit is cleaned it does not touch a human hand. All the work is done by sterilized and sanitary machinery. The Reo Special. \$1,500

Complete with full Special Equipment.

The Biggest and Best Announcement the REO has Ever Made, and the Standard We Raise for 1912 is

THE "REO SPECIAL"

30 h.p. Five-passenger Touring Car

Year after year the REO has been setting new standards in moderate-priced cars. The REO has been giving more auto value for your dollar each year, and on top of that has given a complete, a competent and a willing service to all REO owners.

Motorists and Auto Dealers are naturally looking to the REO for big things in 1912, and, even at that, the REO 1912 cars will come as a big, REO-like surprise in car value.

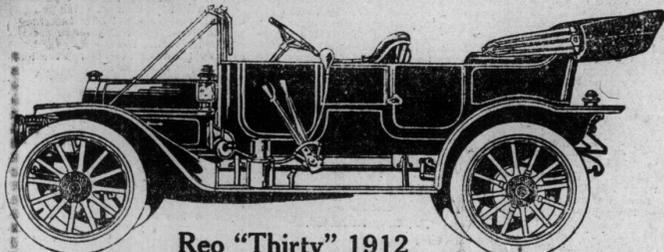

The REO SPECIAL is a five-passenger, 30 horse-power car—fully and superbly equipped to sell at \$1,500. It does not look like a moderate-priced car. It does not drive like one. It is not built like one. It is not equipped like one. If you did not know the price you would take it for a \$2,500 car. Point by point, it will stand up with any other car sold at that price in Canada, and in a good many ways will go them one better.

Easy Driving

In the REO SPECIAL both hands are free to drive. It has a left-hand steering wheel, and a right-hand change-speed lever. The latter is mounted in the centre of the car, close to the seat, just where the driver can reach it without bending. There are no other levers. The clutch and service brake are operated by one pedal with the left foot, while the emergency is the right pedal. The car can be brought to a stop without taking one hand from the steering wheel. This arrangement does away with side levers and permits free access to the driver's seat from either side of the car.

Comfort

The REO SPECIAL will run smoothly. A 112-inch wheel base, big 34 x 4-inch tires, longer and flatter rear springs, wider and roomier tonneau, and more foot room in front, will make for more touring comfort and longer wear in city use.

Reo "Thirty" 1912

Fore-Door Touring Car with Top and Windshield, \$1,350

Beauty

The lines of the REO SPECIAL will be more graceful than ever. The straight-line body, the gentle sweeping lines of the sides and doors, the well shaped fenders—all are in harmony with each other, and with the general contour of the car. There are no unpleasant angles—no projecting handles—no unsightly boxes—nothing to mar the symmetry and elegance of this beautiful car.

Construction

The REO chassis and the motor will be much the same as in 1911. The construction that stood the strain of that gruelling cross-continent trip through sand and mud—over good roads and bad, early in 1911, when the REO ran from New York to San Francisco in 10 days, 15 hours, 13 minutes,

ought to be good enough for even the REO SPECIAL. REO motors have done much to build up REO prestige. They are the 4-cylinder, cast in pairs, 4 x 4 1/2-inch type, developing 30 horse-power, built in our own factory at St. Catharines.

The general construction of chassis could not be made more durable. We have made some small changes, however. For instance, the running-board has been strengthened by using three supports in place of two. These supports are of channel steel, run under the board and tied across, making sagging or dipping impossible.

Other New Features

Sextette windshield and ventilators in dash to keep fore-door compartment cool. Demountable rims. Timkin bearings at gears and high-duty roller bearings at wheels. Full floating differential gears and semi-floating rear axle. Read over the specifications.

Reo "30" Touring Car and Torpedo Roadster

Every part which enters into the construction of the REO is the best obtainable. The Motors, Transmissions, Axles, Radiators, Hoods, Fans and Steering Gears—all are made in our own plant at St. Catharines.

Coming directly under our own supervision and rigid inspection, each part is built as perfectly and economically as possible. There are no parts makers' profits to add to the cost of the REO. And what is of vastly more importance—the parts are made to exactly fit the design of the car, and for that reason work better and smoother—and last longer.

The 1911 Thirty Touring Car and Roadster have consequently met with such general approval that the 1912 models will not be changed in essential design.

The 1912 REO "30" Touring Car will, however, be a more beautiful car, and it will be fully equipped.

The Torpedo Roadster will have the same design that made it a favorite in 1911, and full equipment.

Specifications of the Reo "Thirty" Touring Car and Torpedo Roadster

FRAME—Pressed steel.
SPRINGS—Front, half elliptic; rear, three-quarter elliptic.
AXLES—Front, I-beam drop-forged, Timkin roller-bearing spindle. Rear, tubular, semi-floating, Timkin roller-bearings at gear, high-duty roller bearings at wheel.
WHEELS—34-inch.
TIRES—34 in. x 3 1/2 in. Dunlop or Goodyear quick detachable, with Goodyear rims.
WHEEL-BASE—102-inch.
ENGINE—Vertical, four-cylinder, cast in pairs, 4-inch x 4 1/2-inch.
HORSE-POWER—30.

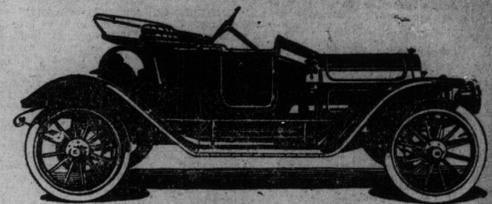

COOLING SYSTEM—Water-jackets, tubular radiator in honeycomb pattern, direct to exhaust valves.
VALVES—Mechanically operated and protected.
CARBURETOR—Automatic, with hot-air intake.
IGNITION—Low-tension magneto, with auxiliary batteries, jump spark.
CONTROL—Spark and throttle on steering post, with foot accelerator.
TRANSMISSION—Selective swinging type.
GEAR CHANGES—Three forward and reverse.
DRIVE—Shaft, universal joints, encased in oil.

CLUTCH—Multiple-disc, with positive release.
BRAKES—Two on rear wheel, internal and external; 14-inch diameter drums.
LUBRICATION—Automatic force feed, return system.
GASOLINE CAPACITY—12 Imperial gallons.
WATER CAPACITY—3 1/2 gallons.
STEERING—Gear and sector.
EQUIPMENT—Three oil lamps, two gas lamps, generator, horn, complete tool and tire outfit. Silk mohair top with side curtains and slip cover. Automatic windshield.
PASSENGER CAPACITY—Touring Car, five; roadster, two.

Letter Sentiment in Relation to Porcupines---Prices Higher

Porcupines Develop Better Tone Advances Follow Through List

Hollinger Leads Upward Movement in Gold Mining Stocks---New York on Buying Side---La Rose Leads the Cobalts.

World Office, Aug. 29. Tuesday Evening, Aug. 29. Porcupine stocks expected and one of their characteristic rallies to-day, the market developing an all-round firmness and prices responding easily to a broader purchasing demand, with advances running through the whole speculative list.

New York Curb. Chas. Head & Co. report the following prices on the New York curb: Double closed at 1 1/4; Dome Ex. 7 1/2; high 7 1/2, low 67, 6000; Hollinger, 19 1/2; high 19 1/2, low 10 1/2, 2000; Preston, 29 to 30, high 30, low 25, 2000; Vipond, 15 to 16, high 16, low 15, 2000; Foleys, 1 to 1 1/4, high 1 1/4, low 1, 2000; Porc. Central, 7 1/2 to 8, high 8, low 7, 2000; Porc. Northern, 5 1/2 to 6, high 6, low 5, 2000; Porc. Toronto, 4 1/2 to 5, high 5, low 4, 2000; West Dome, 1 1/2 to 2, high 2, low 1 1/2, 2000; La Rose, 2 1/2 to 3, high 3, low 2 1/2, 2000; Cobalt Cent., 1 to 2; Granby, 2 1/2 to 3; Kerr Lake, 4 1/2 to 5; Le Rose, 2 1/2 to 4; McKimley, 1 1/2 to 2; Nipissing, 1 1/2 to 2; Yukon Gold, 3 1/2 to 4; May Oil, 2 1/2 to 3.

Closing Quotations. Cobalts---Halley 3 3/4, 3 1/2, 3 1/4; Buffalo 3 1/2, 3 1/4, 3 1/2; Chambers Per. 1 1/2, 1 1/4, 1 1/2; City of Cobalt 10 1/2, 10, 11; Cobalt Lake 25 1/2, 25, 25 1/2; Coniagaa 5 1/2, 5, 5 1/2; Crown Reserve 2 1/2, 2 1/2, 2 1/2; Foster 2 1/2, 2 1/2, 2 1/2; Gifford 2 1/2, 2 1/2, 2 1/2; Great Northern 11 1/2, 11, 11 1/2; Hargrave 2 1/2, 2 1/2, 2 1/2; Hudson Bay 4 1/2, 4, 4 1/2; Kerr Lake 4 1/2, 4, 4 1/2; Little Nip. 4 1/2, 4 1/2, 4 1/2; McKimley 1 1/2, 1 1/2, 1 1/2; Nova Scotia 1 1/2, 1 1/2, 1 1/2; Ophir 2 1/2, 2 1/2, 2 1/2; Ophir 2 1/2, 2 1/2, 2 1/2; Peterson Lake 2 1/2, 2 1/2, 2 1/2; Right-of-Way 7 1/2, 7 1/2, 7 1/2; Silver Leaf 2 1/2, 2 1/2, 2 1/2; Tisdale 2 1/2, 2 1/2, 2 1/2; Trethewey 2 1/2, 2 1/2, 2 1/2; Union Pacific 2 1/2, 2 1/2, 2 1/2.

PROVINCIAL TO SHIP.

The Provincial mine at Cobalt will make its third shipment of 15 tons of the property this week. The car will carry ore running between 1600 and 2000 ounces to the ton. The last shipment from the mine was made in June, when a 30-ton car of 1500-ounce ore was sent out. The shipment in March contained 100 ounces of silver, which makes the fourth car sent out from the mine since Capt. Reidington took the management.

GOWGANDA TO THE FORE.

GOWGANDA, Aug. 29--Rich ore is being brought out of the O'Brien and Millerette in this camp, and last week the former mine shipped a car of ore that netted something over \$38,000. This means that the ore was over 4000 ounce stuff. A 10-stamp mill is in operation on the Millerette and 100 men are engaged on the two properties.

RED SQUIRREL LAKE

Excellent Assays Obtained on Timagami Reserve Property. Joseph Marchessault of Montreal writes that he has received an exceptionally good assay from his claims in the Red Squirrel Lake district in the Temagami forest reserve. The assay gives \$122 a ton in silver, while the other is also 215 to the ton in gold. There is considerable activity in the district which is reached from Temagami and a large number of claims have been taken up.

NEW VEIN ON TIMISKAMING.

A special wire last night from Mr. Norman Fisher in relation to the Timiskaming Mine at Cobalt, reported that they had made an excellent discovery at the 375 foot level, having run into a two foot vein patched with high grade ore. Up to last evening the new vein had been drifted on from eight to ten feet and the values were increasing.

A NEW OIL FIELD.

Recent exchanges from Denver, Colo. report promising developments in the new Rangely oil district in Blaine County, 358 miles west of Denver. Oil in paying quantities is stated to have been struck in at least 50 wells, with the cap rock penetrated at 1000 feet. Rangely was mentioned in one of the bulletins of the United States geological survey some time ago, but attracted only casual notice, and it is only this year that any material development work has been in progress. The district is two days' stage from the railroad, but a railway line is already headed for the Eldorado vein widening.

ELDERADO VEIN WIDENING.

A special report from Porcupine last night stated that the last shot on the Eldorado property had widened the vein ten inches and that it was composed of healthy quartz with every indication of carrying good values at depth. The shot work is proceeding with all possible haste.

GOOD VALUES AT LARDER.

A report from Larder Lake bears out recent advices of excellent values being obtained there. The report says the latest and most striking instance is an assay report from the provincial assayer at Belleville, Ont., on some samples taken from the bottom of a twelve-foot shaft of the Seymour Mine at Blanche River, Larder Lake. The assay shows quartz and serpentine, with a little iron pyrites.

CAPTURED BURGLAR.

BROCKVILLE, Aug. 29--(Special).--A series of burglaries in Brockville lately have been traced by the police to John Healey and W. Burns, two local characters. The capture of Healey has been effected, and he makes a clean breast of his wrong-doing. Most of the booty was secured from a bank to whom it was sold for whiskey. Burns is still at large.

PORCUPINE OPTIMIST INDIGENOUS TO SOIL

And Captain Prout, M. E., is One of the Best of Them--His Ideas of the Camp.

One of the best known figures in the Porcupine camp is Capt. J. W. Prout, M.E., in charge of operations at the Plummer Syndicate holdings in Shaw Township, and immediately adjoining the Porcupine and Hudson Bay property, where such excellent values have been obtained of late. Capt. Prout is a mining man of considerable experience. Consequently his expression of opinion carries weight, and when he voices the sentiment that Porcupine is fast on the way to making good in a substantial manner, it may be taken for granted that he knows "whereof he is speaking."

The general opinion in Toronto last night, and in conversation with the World evidenced that peculiar brand of enthusiasm, glowing, yet by no means flamboyant, which seems indigenous to the soil in the new gold camp.

"Porcupine is once more back into its regular stride," said he, "and is making material progress such as it never before equalled. In the short time since the fire so nearly wiped out the whole camp, a new Porcupine has arisen, and the new promises to far and above surpass the old. The most noticeable feature of the camp to-day is the tremendous activity which is in evidence, both in mining and building. Thousands of hands are at work and the camp is building up at an incredible rate, even the most enthusiastic, though materials are going in just as fast as the railroad can get them, and are seized upon at once by contractors and miners, who are ready and waiting before the wherewithal to build arrives on the scene."

"What is the most noteworthy occurrence of the past month?" the captain was asked. "I would say that the big discovery on the Dome eclipses everything else," he replied, "without a moment's hesitation. 'You see the find is one of the great ones of the kind, and since its discovery everyone has been given a new spirit of activity. The big Dome showing is a veritable sidewalk, and all of last week and this week it has been a veritable sidewalk, and since its discovery everyone has been given a new spirit of activity. The big Dome showing is a veritable sidewalk, and all of last week and this week it has been a veritable sidewalk, and since its discovery everyone has been given a new spirit of activity."

Capt. Prout is highly enthusiastic over prospects in Shaw Township, which have since the discovery of the rich finds in the Porcupine. Capt. Prout is highly enthusiastic over prospects in Shaw Township, which have since the discovery of the rich finds in the Porcupine. Capt. Prout is highly enthusiastic over prospects in Shaw Township, which have since the discovery of the rich finds in the Porcupine.

STEADY PROGRESS TOWARD PRODUCTION

Mark Harris Sees Promising Future For Porcupine--Has Extensive Interests.

No mention of the prominent figures in Porcupine mining circles would be complete without the inclusion of Mr. Mark Harris of Buffalo, who has been identified with the gold mining camp from its inception, and who has extensive interests in some of the most promising properties in the district. Mr. Harris was in the city yesterday, having just returned from a trip of several weeks into Porcupine, where he inspected the work in progress on his large holdings. Interviewed by The World, Mr. Harris said that conditions were highly promising in Porcupine, and that the camp was making steady progress toward production. Mark Harris is one of the most conservative Porcupiners who has ever come out of the camp, indeed he rather errs on the side of caution towards any other. He is a large holder of claims in south Tisdale and Deloro, and is heavily interested in the Socata Mines Limited, a company which owns five claims in Deloro, adjoining the famous Powell property. The company has been doing active development work for some time, and has met with promising results.

STEEL OUTLOOK NOT PROMISING

NEW YORK, Aug. 29--The president of one of the principal independent iron and steel companies says in reference to an enquiry regarding the general condition of the industry, that while structural material is holding well, business in other branches is lagging and the outlook at the moment is not altogether promising.

SPEND LABOR DAY IN TIMMINS "The New Gold Centre"

Consider the opportunity presented by the sale at public auction of lots in the carefully-selected, beautifully-situated, healthful terminus of the Porcupine branch of the Temiskaming & Northern Ontario Railway--the industrial and residential hub of the Porcupine mining district.

"TIMMINS" (CAMPBELL VETERAN CLAIM) Just west of the Hollinger, the strategical centre of the rich Pearl Lake District.

AUCTION LABOR DAY SALE September 4th ON THE PROPERTY

Opportunities for every buyer. A number of important financial and business institutions will bid. For particulars apply 24 King Street West - Toronto TIMMINS TOWNSITE CO. LIMITED or Aura Lake P.O. Porcupine

"I WILL GIVE \$5000"

to the man who can tell me whether there is to be a real Porcupine boom and when," said a prominent mine operator a few days ago at the King Edward Hotel. "I would compare it to the sensation at silver sidwells of Cobalt. It is many feet wide and goes all the way down to the bottom of the camp, and since its discovery everyone has been given a new spirit of activity. The big Dome showing is a veritable sidewalk, and all of last week and this week it has been a veritable sidewalk, and since its discovery everyone has been given a new spirit of activity."

SITUATION IS CLEARING

The situation in respect to the Porcupine market is clearing, and as soon as the speculation broadens prices will undoubtedly take a sharp movement will follow just as soon as covering operations are started. We look for materially higher prices this fall, and strongly advise the purchase of the better Porcupines on each and every reaction. We are especially favorable to Dome Extension and Eldorado, and believe that the latter affords as good an opportunity as anything in the list.

Little Damage From Frost. WINNIPEG, Aug. 29--The report of the Canadian Northern Railway relative to crop conditions in the west issued to-day and shows that harvesting is general and that very little damage has resulted from the frost. In some districts as much as 90 per cent of the crop is in shock. Cutting is advancing thru northern Saskatchewan and northern Alberta. As these two latter districts were those in which most anxiety was felt, the report being one of optimism. In the Regina district slight frosts have occasioned some damage, but not of a severe nature.

MADE IT HOT FOR EDITOR Mistaken Idea of Dr. Creighton's Stand on Reciprocity Caused Friction. Friends of Dr. W. B. Creighton, editor of The Christian Guardian, are having considerable fun at his expense. They know he is against the reciprocity measure, but many readers of the Guardian do not, and when the editor reprinted a letter received from J. B. McOubbin of Three Falls, Alta., taking him to task for his supposed tendencies towards the Liberals' cause, the fireworks started. Many Guardian readers who could reach him by phone or in person expressed themselves along the line of the letter very forcibly. The general doctor at first treated the matter as a joke, but he was soon compelled to "come out of the woods" with his politics, which he did, assuming them to be a Conservative. This seemed to satisfy the belligerents and now everything is serene around the Guardian office. In the meantime, his close friends still take a poke at him about being considered a Liberal.

Far Flung Controllers. The board of control did not meet yesterday; reason, absence of three of the members. Controller Spence is now on his way to Holland to attend an international anti-alcoholic convention. Controller Church is attending the meeting of the Canadian Municipal Association in Quebec, and Controller Hocken is spending a vacation at Huntsville.

This seemed to satisfy the belligerents and now everything is serene around the Guardian office. In the meantime, his close friends still take a poke at him about being considered a Liberal.

Far Flung Controllers. The board of control did not meet yesterday; reason, absence of three of the members. Controller Spence is now on his way to Holland to attend an international anti-alcoholic convention. Controller Church is attending the meeting of the Canadian Municipal Association in Quebec, and Controller Hocken is spending a vacation at Huntsville.

MERGER OF DAIRY INTERESTS IN TORONTO
City Dairy Co. to Take Over S. Price & Sons, Limited—New Stock Offering.

Another merger of business interests in Toronto was consummated yesterday with the announcement of the City Dairy Co., Limited, which has entered into an agreement with S. Price & Sons, Limited, to purchase the capital stock of that company. This will mean the consolidation of the two largest dairy concerns in the city.

The City Dairy Co. will issue \$175,000 of the capital stock in payment of the capital stock of S. Price & Sons, Limited, and will take over its business on the first of next month. There will be no change in management. Mr. Thomas Price will continue in full charge of the new department.

The notice of the City Dairy Co. to its shareholders reads in part as follows:

Your directors are of the opinion that this purchase is desirable, as in some respects it will permit of economies in operation, and is a step forward in the plan of the City Dairy Co., which, from its foundation, has had in view insuring the best possible milk supply to as large a proportion of the population of Toronto and vicinity as care to be taken on the first of next month. There will be some economies in administration, and the distance between the two plants—one at Spadina and the other at East Queen-street—will lend itself to the requirements of distribution over a wide area, there will be no change in management.

Further Progress Wiped Out By Sharp Decline Late in Day

Substantial Advances Early in Session, Followed by Reactionary Movement After Noon—Toronto Market Firm.

NEW YORK, Aug. 29.—Further progress was made to-day in the forward movement of stocks, which began yesterday, before a reaction occurred in the afternoon. In the early part of the day the standard issues were in steady demand and yesterday's gains were increased substantially, although the three speculative leaders, Reading, Union Pacific and United States Steel, were less conspicuous than in the preceding session, gaining only four actions. The steel issues were the feature of the day, with the Canadian Pacific, St. Paul, Erie and preferred, Chicago Valley and International Harvester gaining a point or more. Before noon, however, a reactionary movement set in. Prices receded slightly until the gains were canceled, and in the last hour selling became active, and losses were extended. Southern Pacific, Missouri Pacific, Rock Island, Great Northern and International Harvester sank to the low points of the year, while a number of other shares ended the day only fractionally above the bottom prices reached in the extended downward movement of the week.

No new developments occurred to influence speculation, and the recession appeared to be in the nature of profit-taking by traders, the effect of which was lightened by a renewal of short selling. In the afternoon, a sharp slump resulted in some sales of long stock, there were no indications of a renewal of the heavy liquidation which characterized trading earlier in the week. The advance in some of the heavy stocks was being purchased on a fairly large scale by interests which had been active in the market. The advance in some of the heavy stocks was being purchased on a fairly large scale by interests which had been active in the market.

ON WALL-STREET.

Erickson Perkins & Co. had the following: Stocks broke sharply after the early spurt. There was a renewal of heavy liquidation which was interrupted by the quietness of the last two days. The preparation of Canadian Pacific's report for the fiscal year ended June 30 was followed by a temporary advance in the stock. In that stock, the report showed an increase of \$3,178,000 in gross earnings and \$2,866,000 in net. Favorable July reports were made by several railroads.

Amimation was lent to trading on the "cup" by a rise of 44 points in Standard Oil to 64 1/2. This was accompanied by various reports of the preparation of a resolution of the corporation of liquidation, but no further official confirmation was obtainable.

World Office.
 Tuesday Evening, Aug. 29.
 Speculation divided down to the Toronto Stock Exchange to-day, trading being of a decidedly meagre volume, and almost entirely devoid of feature. Despite the fact that dealings were of the most desultory character, the market showed firmness of an unmistakable nature, advances being the general rule throughout the list, those were of such small volume as to be of little account other than to prove that the market was not meeting with any liquidation of sufficient weight to influence quotations.

Dealings in the speculative account were too small to call for comment from traders, who were not disposed to view the immediate action of the market with any interest. The trading movement is too small to permit of even scalping operations, consequently the floor brokers are content to sit back and wait for a resumption of public interest and a broader speculative movement before attempting to make turns on either side.

Dealings in the speculative account were too small to call for comment from traders, who were not disposed to view the immediate action of the market with any interest. The trading movement is too small to permit of even scalping operations, consequently the floor brokers are content to sit back and wait for a resumption of public interest and a broader speculative movement before attempting to make turns on either side.

The Big Trusts Since the Decision

Readjustment of Values of American Tobacco and Standard Oil Stocks—Both Issues Decline.

Since the decision of the supreme court of the United States in the famous American Tobacco and Standard Oil cases ordering the dissolution of both corporations, both American Tobacco and Standard Oil stocks have undergone a considerable readjustment in the stock markets.

The following table shows the course of prices for both issues, and compares values over a period of six months.

Month	High	Low	High	Low
August	400	385	600	585
July	400	385	600	585
June	400	385	600	585
May	400	385	600	585
April	400	385	600	585
March	400	385	600	585
February	400	385	600	585
January	400	385	600	585
1911	400	385	600	585
1910	400	385	600	585
1909	400	385	600	585
1908	400	385	600	585
1907	400	385	600	585

Waterproofs---Cravenettes and Paramattas

These waterproofs and light coats are exactly the thing for present wear. They are light to carry over the arm, less trouble than an umbrella. There is a vast difference between the old-time mackintosh and one of these waterproofs. A Paramatta never gets uncomfortably hot. It is waterproofed, not air proof.

English Paramatta Waterproof Coats, fawn shade, Raglan or motor style, the seams sewn or taped, slash pockets; sizes 35 to 44. Thursday, 10.50

Men's Imported English Paramatta Waterproof, double texture material, fawn and olive shade, seams sewn, taped and double stitched as well, military style with inlaid velvet collar, slash pockets, straps on sleeves; sizes 35 to 44. Thursday, 18.00

Men's Cravenette Coats, in rich dark shade of grey imported English cloth, 52 in. long, Chesterfield style, thorough workmanship and best trimmings; sizes 35 to 44. Thursday, 10.00

Men's Imported English Cravenette Waterproofs, 52 inches long, made Presto collar style, which can be worn buttoned up at throat; cloth is in fawn shade, a stylish stripe effect, workmanship and linings the best. Thursday, 12.00

Men's Hats

Men's Stiff Hats, new shapes, Christy's or King, best English make, all the popular widths of brim and heights of crown. Every up-to-date feature represented in these hats. Extra fine quality. Thursday, 2.00

400 Men's Stiff and Soft Hats, fine imported fur felt, correct fall styles, colors black, brown, fawn, slate and grey, manufacturers' samples. Regular up to \$2.50. Thursday, .98

China, Useful and Ornamental

(Basement)

Our China Department contains the everyday needfuls for the home, delicate and exquisite ornaments, the finest cut glass or inexpensive tumblers. All have been collected by skilled buyers. Whether the main idea of purchase be usefulness or beauty, rest assured that prices and qualities in our basement cannot be improved upon in this city. These Thursday items bear out our claim.

300 Japanese Tea Cups and Saucers, beautiful Satsuma decoration. Thursday, .25

Wedgwood Cream Jugs, in the famous Basalt blue. Thursday, .59

Wedgwood Teapots, in the original Flaxman Greek design. Thursday, 1.35

Royal Crown Derby Teas and Saucers, 2.25

40 Hand-painted Japanese Vases, in the famous Kioto decoration. Thursday, 2.98

102-piece Limoges China Dinner Set, rich Oriental border design, a superb service. Thursday, special, 100.00

Haviland Dinner and Tea Service of 102 pieces, artistic floral design, heavy gold stippled. Thursday, special, 59.25

10 Royal Doulton Toilet Sets, Kensington shapes, art colors. Thursday, 5.95

100 pairs Brass Candlesticks, heavy cast, antique design, bright finish. Thursday, per pair, .50

We launch our Blanket Sale on the last day of August, in order that people furnishing beds for Exhibition visitors may make their purchases in time.

Every housekeeper knows this sale as a money-saver. Year after year the blankets sold here during September have laid away over anything else obtainable in the city.

As long ago as last January, we were searching out good values for this sale—and, indeed, a large purchase concluded at that time has been saved until now, and will be the backbone of our September Blanket selling.

Simpson's blankets have always been found to be true by weight and measure. If you know what goes to make up blanket values, you'll be delighted with the showing that awaits you to-morrow on our

SECOND FLOOR, YONGE STREET

WHITE ALL-WOOL BLANKETS \$3.62 PAIR.

Fine, thoroughly shrunk, Pure Wool White Blankets, beautifully napped and finished, pink or blue borders, 7 lbs., 64 x 84 inches. Regular \$4.55 to \$4.69 pair. Sale price, Thursday, 3.62

SOFT WHITE UNION BLANKETS \$1.98 PAIR.

White Unshrinkable Wool Blankets, very soft, wash splendidly and are durable, perfectly finished, pink or blue borders, 60 x 80 inches. Regular \$2.50 to \$2.85 pair. Sale price, Thursday, 1.98

FLANNELETTE BLANKETS, LARGEST SIZE, \$1.29 PAIR.

Superior quality Flannelette Blankets or Winter Sheets, white or grey, dainty borders, beautiful, soft, strong weave, 70 x 84 inches, very large size. Sale price, Thursday, pair, 1.29

(Second Floor.)

Boys' Suits

"Youth is the proper season for improvement," and many young hopefuls will start improving on Tuesday next. Any improvement to their wardrobe may be best made with the aid of the Simpson store for boys. We are specialists, our qualities are high, and prices low. These suits are examples:

Boys' English Tweed Three-piece Suits, in a dark mixture; coat is three-button double-breasted, and finished with A1 quality linings and trimmings; vest single-breasted; plain knee pants; sizes 29 to 33. Thursday, 5.00

Boys' Durable Tweed Two-piece Suits, in a dark brown ground, with fancy stripes; coat double-breasted style; plain knee pants; sizes 25 to 28, \$3.25; 29 and 30, \$3.75; 31 to 33, 4.50

Boys' Two-piece Bloomer Pant Suits, made from a strong wearing dark tweed; a splendid suit for school wear; coat double-breasted style; pants bloomer; sizes 26 to 30, \$3.50; 31 to 34, 4.00

Boys' Navy Blue Serge Reefer Coats, double-breasted style, with sleeve ornaments; sizes 21 to 24, 3.00

Boys' English Tweed Reefer Coats, in a medium grey herringbone weave pattern, latest double-breasted style, finished with velvet collar and cuffs on sleeves; sizes 21 to 26, 4.50

Sweaters and Underwear for Men and Boys

There are over sixty different sorts to choose from, so you should not find the slightest difficulty in getting the style you wanted. Some of the new color combinations look especially handsome.

Prices range all the way from 50c to \$7.00. This sweater display is worth an early visit on Thursday.

700 Garments of Men's White Natural Cashmere Underwear, shirts and drawers for fall wear. Pure wool and unshrinkable; sizes 34 to 44. Regular \$1.50. Thursday, 1.00

500 Men's Neglige Shirts, new designs and latest styles. Samples just purchased. Regular prices would be \$1.00, \$1.25 and \$1.50. Thursday, .69

The **SIMPSON** Company Limited

Please Bear in Mind That There Will Be No August Furniture Sale in September

To-morrow is the last day on which you'll be able to buy Simpson furniture at August Sale prices. These prices represent such considerable savings that all the furniture you'll need for the next six months should be bought here to-morrow.
