ENEMY FORCED FURTHER BACK IN MARNE REGION IMPORTANT GAINS BY ALLIES EAST OF RHEIMS

BATTLE LULLS WHILE ALLIES EMPLOY GUNS

French Line Now Enters Big
Forests North of
Marne.

BIG GAIN AT OULCHY

Fere-en-Tardenois is Now
Within Easy Gun
Range.

The ninth day of the allied offensive of the Soissons-Rheims salient has lessened in the intensity of the battle along the western side of the salient, where only mutual bombardments were in progress. Along the Marne, however, and southwest of Rheims, the French, British, American and Italian troops were still at deadly grips with the enemy on various sectors.

The Germans strove hard in the forest region north of the Marne to hold back the French and American troops, debouching from the woods in strong counter attacks. The enemy, however, everywhere was forced slightly further back to the north, and the forests now have been almost entirely cleared of Germans.

Southwest of Rheims heavy reinforcements evidently have been thrown along the front, where the British, French and Italians are fighting. In the immediate region of Reuil, where the battle line turned sharply toward Rheims, the French have captured several important points of vantage, including the Village of Reuil and also advanced their line northward, notwithstanding the violence of the German counter-move.

Eastward from Rheims in Champagne the French have now regained nearly all their old line positions and daily are harassing the Germans with counter-attacks.

Before the fighting died down along the western side of the Rheims-Soissons salient the Villages of Oulchy-le-Chateau and Villeneuve were captured by French and American troops, who advanced their line eastward of Oulchy. The fall of Oulchy gives the allied forces the key to the heights dominating Fere-en-Tardenois, which lies only a short distance to the east. At Oulchy forty guns and hundreds of prisoners were captured by the French and American troops.

Big Guns Pulled Up.
Big allied guns have been pulled up in this region and are heavily shelling the sectors before them over which it is purposed to push forward for the capture of Fere-en-Tardenois when the time is ripe. Meantime allied big guns over the entire salient continue to throw shells from all angles into the German forces in the big bag.

While there has been no attempt by the Germans at a general retreat from the salient, the belief prevails along the battlefront that an indication that a retreat is purposed is shown by the fact that the enemy is using comparatively small forces of infantry on various sectors under attack, depending mainly on his machine gunners to retard the progress of the allies.

A New Kind of Farm Service.

Motorists talk about the Ford service and what it means to owners of Ford cars.
Implementation concerns like the Masses have agents all over the country to whom farmers can phone for parts. In New York City you can meet these agents in Ford motors scurrying about, stopping at farms, delivering parts, fitting them in, adjusting machines. No winding need fall down for long organization, the telephone, the motor car, brings the cure and the doctor the same day; in the interval the farmer goes on with his other work. It's all making farming more efficient.
Another modern farming convenience is the blacksmith with a car. Several of the big farms hereabouts have forges in the place; phone in for the blacksmith, who motors out with or without a helper; shoe the horses, does repairs, sets with the farmer on to another job, and home again in the evening. The delay of going to the blacksmith and waiting for a turn is in this way disappearing.

The number of people in motors serving farmers in various ways seems to be growing apace. All the vets are now in motors and many preachers on Sundays.

BRITISH ARMED SHIP SUNK BY SUBMARINE

London, July 26.—The British armed cruiser Marmora was torpedoed and sunk by a German submarine Tuesday, according to an announcement made by the British admiralty tonight. Ten members of the crew of the vessel are missing, and it is presumed that they were killed.

The admiralty also announces that a British torpedo boat destroyed an ashore Wednesday and later sank. Thirteen of the crew are missing and it is presumed that they were drowned.

Naval records contain no cruiser named Marmora and it is possible the vessel sunk was the Peninsular and Oriental Steam Navigation Company steamer Marmora, of 10,500 tons gross. She was built at Belfast in 1903, was 330 feet long and had a beam of 60 feet.

MUNITION STRIKERS MUST JOIN ARMY

Premier Lloyd George Takes Firm
Attitude Towards Willful
Absentee Workmen.

London, July 26.—Premier Lloyd George tonight announced on behalf of the government that all men who are willfully absent from work on or after Monday next will be deemed to have voluntarily placed themselves outside the munitions industries. Protection certificates will cease to have effect, and the men will become liable to the provisions of the Military Service Act, the premier added.

The statement pointed out that certain workers had quit their jobs in disregard of their leaders and remained outside the munitions industry in violation of the provisions of the act. The statement also pointed out that the government was determined to enforce a national policy essential to the prosecution of the war.

"They have ceased work," the statement said, "in pursuance of a trade dispute, but in an endeavor to force the government to change a national policy essential to the prosecution of the war."

"While millions of their fellow-countrymen hourly are facing danger and death for their country, the men on strike have been granted exemptions from these perils only because their services are considered of more value to the state in the workshops than in the army."

BIG MUNITIONS STRIKE BEGINS TO FIZZLE OUT

London, July 26.—The appeal of the trades union advisory committee, urging munition strikers to return to work pending an inquiry, had a good effect, according to news received from Birmingham this evening. The committee's appeal was met by a large number of workers who were enabled to resume operations, while in Birmingham the motion of several unions including the employees of the big power companies, which supply the big munitions factories, in refusing to strike, had a good result, and it was reported this afternoon that there were less men on strike than yesterday.

Another influence against the strike was the withdrawal of discharged soldiers and sailors, whose federation, representing 6,000 men, pledged their loyalty to Winston Spencer Churchill, minister of munitions.

A statement issued today by the strikers, representing that 100,000 men are out, appears to be greatly exaggerated. It was said today by officials of the companies that not more than 12,000 to 15,000 were idle, and that the women and unskilled workers were strongly opposed to the strike.

BRITISH REPEL ATTACK ALSO DRIVE OFF RAID

London, July 26.—The British official communication, issued this evening, says:
"This morning a hostile attack upon posts held by us in the Aveluy wood, north of Albert, was repulsed. A raid attempted by the enemy during the night in the neighborhood of Vieux-Berquin also was driven off with losses."

A few prisoners were captured by us early this morning in the course of the enemy's unsuccessful attack upon our positions at Meteren."

With the American army of the Aisne-Marne front, July 26.—The American troops advancing along the Marne have discovered hundreds of dead Germans. The victims fell before the heavy machine gun fire of the allies during the retreat. In one horse shoe area the ground was covered with dead. The Americans carried as many bodies as possible. It was estimated that 2000 Germans fell there.

Farmers along the Marne report having seen the bodies of German dead floating down the stream. The military authorities are planning a system by which they can clear the river of bodies.

Three days after the Germans evacuated Chateau Thierry the Americans brought down a lone German in Mont-St. Per, hiding in a cellar. The prisoner said he was struck by the war and determined to secret himself, notwithstanding the fact that he had no food and later take a chance by surrendering to the allies. He asserted that the German soldiers were dissatisfied with the way affairs were going and the general opinion among them was that the German prince was unable to bring sufficient reinforcements or food supplies to aid the forces being attacked from the south.

CLAIMS CAPTAIN DID NOT ATTEMPT RESCUE

Charge Made by Dr. J. M.
Johnston Against Skipper
of Cayuga.

Passengers Protest
Swimmer, Two Miles Off Shore,
Later Picked Up by
Life-Savers.

A serious charge is made by Dr. J. M. Johnston, 35 Elm street, against Captain Smith of the steamer Cayuga. In that he refused to stop his vessel yesterday afternoon near the American side to pick up a swimmer who appeared to be in difficulties.

Dr. Johnston claims that on the night of the Cayuga, leaving Toronto at 2 o'clock, when she was nearing the mouth of the Niagara River, about two miles off shore, a man was seen swimming in an apparent difficulty about 100 feet from the ship. Dr. Johnston drew the attention of the captain to the man and asked that the vessel be stopped and that a boat be put off to rescue him. This, Dr. Johnston claims, the captain refused to do despite the protests of numerous passengers. As soon as the Cayuga touched at Niagara-on-the-Lake information was given and a launch was sent out in search of the man. The man was picked up in an exhausted condition some distance from where he had been seen by the Cayuga passengers. For some time he was unable to give his name, which was later found to be A. B. Ogiowski, a soldier at Niagara Camp.

SIBERIA'S INDEPENDENCE OF SOVIETS DECREED

London, July 26.—The provisional government at Omsk has assumed supreme authority in Siberia and proclaimed Siberia's independence, according to a Reuters despatch from Peking. The provisional government has annulled all Bolshevik decrees and re-established the Siberian duma. Approval of these measures was requested of the Vladivostok government.

STRAW HAT BARGAINS.

Also extraordinary bargains in odd lines of straws and Quing Hats for men and boys, in the Basement today. The Dineens expect to be busy. The weather is just right for these special bargains. Store closes at 6.

BANK OF ENGLAND MAKES BIG REBATE

London, July 26.—The remuneration of the Bank of England for its services to the government which, under an agreement entered upon in 1912, amounted before the war to about 200,000 pounds sterling yearly, increased to 1,500,000 pounds sterling for the fiscal year 1916-17, according to the report of the special committee on national expenditure.

As the committee does not believe such remuneration justified, the bank has agreed to enter into a revised agreement for the period of the war, which would secure a reduction of 75,000 pounds sterling for the year 1917-18, and a larger reduction for the current year, unless new conditions arise.

SCOTCHMEN CRUSH DASH ON METEREN

German Plan to Reach Gaza
Road in Flanders Com-
pletely Fails.

With the British Army in France, July 26.—The German attack this morning near Meteren had even more disastrous results for the enemy than was first believed. It proved a complete failure.

It appears that the Germans intended to reach the Gaza road, to the south of Meteren, from where they could menace the town. Accordingly they sent over two companies from each regiment of the twelfth division, which has just replaced other troops who had been badly mauled during the month. The twelfth division came up from Italy. One regiment wears special "Kaiser Karl" shoulder straps, won for its services in the Italian theatre.

This regiment, however, will get no decorations for the deeds it performed today. Scots troops met it and inflicted heavy losses, and prevented the Germans from getting anywhere near their objective. The Germans managed to get one small outpost, that was all. In the same locality the Australians are busy knocking the Germans about. Their shells have chipped up nearly all the crossroads, dunes and other targets within range. The rain of the past few days has muddied this front of swollen rivers and streams, making the low ground extremely soft and muddy. If the Germans have planned an attack to the north, it will not require much more rain to necessitate a change in them.

THREE GERMAN TOWNS ATTACKED BY BRITISH

London, July 26.—The official communication issued by the air ministry tonight says: Scots troops met it and inflicted heavy losses, and prevented the Germans from getting anywhere near their objective. The Germans managed to get one small outpost, that was all. In the same locality the Australians are busy knocking the Germans about. Their shells have chipped up nearly all the crossroads, dunes and other targets within range. KEEP ON BOMBING SUBMARINE BASES

London, July 26.—Aerial attacks on German naval and submarine bases on the Belgian coast continued day and night. Upwards of twenty tons of explosives were dropped on Zeebrugge and Ostend. In the Italian front the air fighting resulted in the downing of nineteen enemy machines, without the loss of a single British aircraft.

Twenty-Five Separate Raids
MADE INTO GERMAN TERRITORY

Week's Long Distance Bombing Attacks Make a Record
—Many Important Centres Being
Assailed by Airmen.

London, July 26.—Throughout the week the aerial fighting on the western battlefront has been of a violent character. From a trustworthy source it is learned that during the week the British downed 76 enemy machines and drove down 15 out of control. Fifty-one British machines are missing.

One hundred and fifty-four tons of bombs were dropped during the week. The week's record for long distance bombing attacks was the heaviest of the war. Twenty-five separate raids were made into German territory. Thionville was bombed four times and the famous poison gas factory and munition works at Mannheim twice. The blast furnaces at Burbach and the railway and factories at Offenbourg also came in for shelling twice.

DOCKS AT BRUGES BOMBED BY BRITISH

Twenty-Five German Airplanes
Are Destroyed—High Wind
Interferes.

London, July 26.—British airmen brought down 25 German airplanes and forced down six others out of control in air fighting yesterday. Fifteen of the British machines failed to return.

This announcement was made in the official communication on aerial operations issued tonight. The statement says:
"On the 25th instant the high wind still continued, but visibility was better than on previous days. A great amount of work in conjunction with the artillery was done, and many reconnaissance and the usual bombing were carried out by airplanes. Among the targets attacked were three large ammunition dumps, the docks at Bruges and numerous villages used as billets by the enemy's troops."
"In the air fighting the strong west wind greatly favored the enemy. In spite of this 25 hostile machines were brought down by us and six others were driven down out of control. A hostile balloon was shot down in flames. Fifteen of our machines are missing."
"After dark our night bombing machines again attacked the railways at Courtrai and Seclin and dropped over 300 bombs on rest billets. All our machines returned."
"One of the enemy's night flying airplanes was shot down by anti-aircraft gunfire behind our lines."

JAPS TO SEND MEN TO LIBERATE SIBERIA

London, July 26.—It is announced officially here that Japan has decided to accept the American proposal to assist the Czechoslovak armies in Siberia. The object of the Japanese mission to Siberia is specifically and definitely defined as a move to assist the Czechoslovaks, according to a statement made to the Associated Press. The sovereignty of Russia is in no way threatened, it is declared, and as soon as the mission has been completed every soldier will be withdrawn from Russian soil.

AUSTRIAN ATTACKS CHECKED IN ALBANIA

Paris, July 26.—A French official communication says:
"Army of the East, July 25.—The enemy has attempted several local attacks to the west of Lake Doiran and between Lakes Prespa and Ochrida. They were repulsed with serious losses and without the enemy having been able to reach our lines."
"In Albania we are organizing our conquered positions. The number of prisoners captured in this region since July 21 is 640, including 20 officers. A large number of arms have been carried out from Russian soil."

ENEMY ATTACK BROKEN BY NEW ZEALANDERS

With the British Armies in France, July 26.—Last night an attack developed between Buquoy and Hebuterne. New Zealanders completely broke up the German attack, drove off the enemy with heavy losses and in addition captured 30 prisoners.

At several places along the front the nature of the artillery fire indicated that the Boche was jumpy and nervous.

Ypres salient was five miles wide and by the enemy the trench system was now 20 miles wide and 20 miles deep and similarly, is dominated by the allied artillery.

Evidence is shown in the shape of captured documents to show that the enemy had made up his mind on the day after the allied offensive began to undertake a retirement to a line along either the Ardre or Vesle, and had actually given orders for this, but these orders were later cancelled, presumably owing to the difficulty of effecting an orderly retirement in the pinched salient, and it is now possible the German command has decided to retain the present positions as long as possible.

Using U.S. Reserves. Meanwhile, the military writers point out, the allies are using up the German reserves in a battle where the Germans are continuously in a disadvantageous position, so the situation is entirely satisfactory to the allies.

One reason for the Germans' abandonment of the plan for retirement is found in the reports of allied aircraft, which show tremendous concentrations along the lines of German communication. The Germans may be merely holding on as long as possible in order to effect an orderly withdrawal and to remove the vast accumulations of stores and munitions which had been gathered in this district, ready for a great advance southward.

Undoubtedly a big effort will be made to straighten out the confusion which now exists along all the arteries of the salient. All these arteries are now constantly under the allied shell fire and work along them must be very difficult.

Important Prisoner. Paris, July 26.—Among the prisoners captured in the battle was a nephew of Prince von Bismarck, the former German imperial chancellor. The officer, who was a battalion commander, was astonished to hear that there was a large American army in France. He said he had heard something to that effect from the American soldiers in France, and did not exceed 50,000.

Among the heroes decorated by President Poincaré in his present visit to the battle zone was a nephew of Premier Clemenceau.

Twenty-Five Aircraft DESTROYED BY ALLIES. Paris, July 26.—A French official communication says: "Aviation of the 25th air aviators brought down or forced to land seven enemy machines, eight machines were destroyed by British aviators, working in conjunction with us. On our part we dropped more than thirty-eight tons of bombs during the night on stations, railway communications, sheds, munitions depots and military parks in the rear of the zone of battle. Fires and explosions were observed."

British bombing aviators also have carried out several expeditions and dropped four tons of bombs on Bazoches, Fere-en-Tardenois and Mont Notre Dame.

Premiers in Conference. Thirteen premiers and ex-premiers of the British Empire gathered in the royal galleries of the house of lords on June 21, to hear Lloyd George, Sir Robert Borden, W. E. Massey, premier of New Zealand, the Australian premier and Mr. Asquith pay tribute to the overseas Dominions.

Lloyd George and the British premier pay tribute to the part the Dominions have played in the war.

On the larger part of the battlefield yesterday the infantry fighting suddenly diminished. The struggle was taken up by the big guns. Before the pause, the French in the sectors south of Soissons captured Villeneuve and further south completed the reduction of Ouchy and Chateau. The scene of this advance is almost directly opposite the British advance on the German line near the Marne. The French also captured Reuil Village and Savigne Farm, near the angle of the German line near the Marne. The allies have now pushed the German line from the Ourcq to the Marne into a thickly wooded region and have made some progress through the forest. Outside the salient and east of Rheims in the Champagne, the French have regained in local attacks the line of ground overrun by the Germans in their attack launched in the middle of this month. In this region they have pushed back the Germans 600 yards virtually to the old and original front on the line of St. Hilaire Grande, Souain and Le Thieu. The Huris, recapturing Main de Massiges, 200 machine guns, and seven cannon.

In the British sector, strong pressure is still proceeding from Mery and Fremery, or thereabouts, against Fismes and towards Villeneuve-Tardenois and Soissons. The British have come to a mile or two of the Fismes road and as they are only eight or nine miles off Fismes and the Marne, in salient, they have the power of bringing flames under the fire of their heavy artillery. The Germans in this region strongly counter-attacked the British and the French on the British left flank, but beyond the loss of a salient, the allies managed virtually to retain their line intact.

The Germans occupy a semi-circle reduced from thirty to about twenty miles across at any point, and as the allies can sweep the interior of this salient, the enemy occupies a position similar to the British for two years and a half in the Ypres salient. Until he enlarges this salient, the enemy cannot embark on an offensive from it. If he decides to stay where he is and makes a successful defence he ties up more of his reserves. The enemy has still 30 divisions of rested troops remaining, and these are hardly enough for the undertaking of a further strong attack. Some students of the war think, however, are inclined to think that the Germans may attempt a diversion in order to relieve the pres-

SHOT BY WHOLESALE FOR JAROSLAV REVOLT

London, July 26.—A Russian wireless despatch received tonight reports that as a result of the investigation of the mutiny at Jaroslavl, many persons have been arrested, of whom 350 were shot, a majority of them being officers in the counter-revolutionary white guards, and league with the Czech-Slovaks.

PAPER MILL WORKERS CAN GET NO BONUS. Washington, July 26.—Paper mill workers are not entitled to the ten per cent bonus promised by the International Paper Company before the war labor board's wage award became effective. T. Curran and T. A. Crocker, composing a section of the board, ruled today in interpreting the award.

A controversy over the payment of the bonus resulted in a walkout at several factories this week, curtailing the production of newspaper by 75 per cent. The employers, it was held, are morally bound to pay the bonus for May and June, because the notice originally granting it said the bonus would continue until the men were informed as to the discontinuance. It was also held that the shortening of the workday from nine to eight hours was not to permit any reduction in wages.

GERMANY AGAIN IN ROW WITH DUTCH CABINET

London, July 26.—A despatch to the Exchange Telegraph from Amsterdam says that fresh difficulties have arisen between Germany and Holland over economic questions. The shipment of goods to Germany has been stopped owing to their urgent need in Holland, and coal shipments from Germany to Holland have ceased. Negotiations in connection with the difficulties are proceeding slowly at The Hague.

RUSSIANS DEMAND ABSOLUTE MONARCHY

Amsterdam, July 26.—A despatch to The Cologne Volks Zeitung, a copy of which has been received here, says the monarchists' conference held at Kiev was attended by many leaders throughout Russia. A majority of those present desired the formation of an absolute monarchy or a military dictatorship in Russia.

Out of consideration for the opposition, mainly Octoberists and Nationalists, who advocated a constitutional monarchy, the congress passed a resolution demanding a form of government for Great Russia like that before the February revolution. The congress then adjourned.

RUSSIAN EX-EMPRESS WOULD ENTER CONVENT

London, July 26.—A despatch to the Exchange Telegraph from Amsterdam says that the Berlin newspapers publish a telegram from Moscow saying that the former Russian empress, the late Empress Alexandra, had asked the German government for permission for her to enter a convent in Sweden, and take with her her daughters. The despatches requested by the German government have been withheld for the time being.

SEEKING WHITE MICE.

Pte. D. E. Jones, St. Clair avenue, Earlscourt, is the United States Government agent for supplying white mice to the British army. He is now on a travelling tour through the country to secure more of the little creatures which Uncle Sam has found so valuable in the trenches. White mice in Canada have been difficult to get and Jones is seeking them with very much success.

Four rinks from Oakwood visited Mount Dennis last night to meet the local bowling club in a friendly match. The visitors were no match for the Mount Dennis team, who beat them by 11 shots. Following were the Mount Dennis skipper: Dr. Pearson, J. W. McDonald, W. Irvine, J. Marshall.

YORK COUNTY AND SUBURBS

Earlscourt DATE OF MEETING ON COAL CHANGED

The date of the mass meeting on the coal question has been changed from Saturday to Monday, and the meeting will be held in North Dufferin street school room, Earlscourt at 8 p.m. Commissioners Harris and Chisholm have both promised to attend and to answer any questions that may be put to them on the supply of coal in Earlscourt and district.

EARLSCOURT WANTS FIRE TRUCK THERE

The frequently debated question of the need of a fire truck for Earlscourt is again to the front. The nearest fire truck is at Woodwood and it takes 20 minutes for the truck to get to a fire in this section. Citizens are saying that the board of control is responsible for this cheap but dangerous policy which can only be remedied by the installation of a fire truck.

BUILDING BUSINESS BEGINS TO BOOM

New houses in course of erection in Earlscourt have put on a spurt, owing to the arrival of a large supply of lumber and other building materials which have been high up for several weeks. A dozen houses on South Dufferin street are nearly finished, several new brick houses on the west side of North Dufferin and a dozen or more on Regal road are approaching completion.

INVITED TO BANQUET.

The members of the executive committee of the Great War Veterans' Association, Earlscourt, have received invitations to be present at the annual banquet to be held at headquarters, The Carlton street Monday evening. The banquet is in connection with the annual convention, which is being held this year in Toronto.

SUPPORT MOVEMENT.

The Amalgamated Society of Engineers passed a resolution last night at their meeting on Salem avenue to back the memorial and library building campaign of the British Imperial Association in memory of the fallen soldiers. The local branch of Odd-fellows, Earlscourt women workers and the women's auxiliary of the Great War Veterans have also passed resolutions of support.

VETERANS' FOOTBALL TEAM.

The football team of the Earlscourt branch of the Great War Veterans will play today on the Appleton park grounds, Earlscourt. Following is the line-up: C. Chapman, F. Pope, J. Thompson, W. Tate, W. White, Jack Barron, Tom Scott, Harry Johnson, Bill McGuire. The match will be with the I.L.P. of Hamilton. Members are requested to be on hand at 3 p.m. sharp.

CUTTING DOWN HILL ON DON MILLS ROAD

The dangerous and difficult hill on the Don Mills road, where it enters the ravine, is to be cut down and the roadway graded. The contract for the work was let yesterday to J. Verocchia, who is at present doing work on the highway commission at Locust Hill. When he completes his job he will move his teams and steam shovels to the hill, which is to be reduced to a several per cent grade. The necessary land has already been dedicated by the Taylor and Davies estates.

TO HOLD INQUEST.

The man who was found asphyxiated in a vacant house at 235 Ashdale avenue last morning was identified as George Allen, who escaped from the Queen street asylum last night. After evidence of identification had been received, a decision to hold an inquest on Friday night, August 2.

Mimico CARELESSNESS SHOWS IN VERDICT

William Mitchell Inquest Concluded After Very Long Session Last Night. Had Heard Criticisms. Witness Declares No Special Warning Had Been Given Regarding Wires.

"That William Mitchell came to his death through electric shock, but that there was carelessness shown by the company in not having a foreman on the work at the time of the accident, nor the necessary action taken to prevent it, that the fact that artificial respiration had been continued somewhat longer, better results might have been obtained."

Such was the verdict reached by the coroner's jury last night after sitting from half past eight until half past twelve and hearing a number of witnesses who were examined and thoroughly cross-examined on every phase of the accident.

William Mitchell was killed when a boom hoisted by a machine he was working on came into contact with high voltage wires at the harbor improvement work at the foot of Bathurst street near the water front a week ago yesterday, while a companion workman, Patrick McNulty, escaped with serious burns and considerable nervous shock.

FERE-ENTARDENOIS NEARLY UNTENABLE PREPARE REPORTS FOR CONVENTION

With the American Army on the Aisne-Marne Front, July 26.—The Germans, with artillery and machine guns and strong infantry detachments, left the northern edges of the Fere, Tournelle and Ris forests and battled cleverly and stubbornly to hold the advancing Allies until more progress could be made in the transportation of their supplies, guns and general stores. But despite the opposition, some ground was gained.

AUSTRIANS REPULSED BY ALLIES IN ALBANIA

Rome, July 26.—The official communication issued today says: "Enemy parties have been repulsed in the Presena Valley. As a result of a raid east of Zecchi the French took 15 prisoners. In Albania Wednesday enemy columns twice stormed with great violence our positions from Ardenica to the north of the lower Semeni. Both times they were repulsed. The same day another column of the Semeni moved to the east of Kuci man and advanced post retire. A counter-attack Thursday morning drove the enemy to the river."

GERMAN POSITION MAY SOON TUMBLE

Allies Keep Every Line of Communication Under Fire.

With the French Army in France, July 26.—The entire German position within the Marne salient is such that it may fall at any instant as the result of some sharp forward move by the allies affecting a vital part. It is for this reason that the German commanders have ordered their men to hold on at all costs while a defensive position is prepared upon which the German armies can fall back.

Day after day the allies, now the French, now the American, now the British, are encroaching upon the triangular salient, at some places making deep dents in the enemy positions and at others progressing more slowly.

Every line of communication within the German salient is under bombardment night and day, either from the allied artillery or the airplanes. It is only with the greatest difficulty, and with heavy sacrifices, that the enemy is able to hold on within this area. All the while his men are suffering terrible privations, owing to the uncertainty of obtaining supplies. In consequence of the allies commanding virtually every road and every path, the fatigued German units cannot be relieved even when they are sorely tried.

SIX HUNDRED TONS OF BOMBS DROPPED

Canadian Press Despatch. Washington, July 26.—An account of the activities of the French air service obtained from authentic sources today shows the suffering being inflicted on the German army crowded into the Aisne-Marne salient. Tons of bombs are being rained from the air night and day.

During the period of the first two weeks of July, French airplanes alone dropped 600 tons of high explosives on the Germans in the trenches, on rest billets, railway stations and on munition works far back of the fighting lines. A total of 27,673 flights was made for military purposes during that time, and more than 2,000 combats occurred in the air. In this fighting 199 German planes were destroyed or forced to land in French territory and 161 others were damaged and probably destroyed, making a total of 360 enemy machines brought down against a loss of 72 machines by the French. Twelve of the French planes brought down were only damaged.

FRENCH AND AMERICANS MOVE AGAIN FORWARD

With the American Army on the Aisne-Marne Front, July 26.—Franco-American troops on the front northeast of Chateau Thierry moved their lines further forward today. The allies along the front to the east likewise made progress at places, the Americans at one point attaining an objective a kilometre distant. Clinging desperately to the hills and woods, the Germans are using their machine guns, their artillery and their air forces and quantities of gas in an effort to hamper the advance.

There is little change in the operations in the southern arc of the salient south of Soissons. To the west, Duchy-le-Chateau has been taken by the French and the positions they had taken on the north bank of the Marne.

LENINE WILL STAND BY BREST-LITOVSK PEACE

Amsterdam, July 26.—Premier Lenine, in a speech at Moscow before the government conference on the Brest-Litovsk peace, said the position of the soviet republic had become extremely acute in view of international complications, counter-revolutionary conspiracies and the food crisis, according to a Moscow despatch received by way of Berlin.

Referring to the Brest-Litovsk treaty, Lenine said that according to the treaty, Russia must pay Germany 6,000,000 rubles. The attempt of the soviet revolutionists of the left to entangle Russia in a war with Germany by the murder of the German ambassador, was in no way to evade the treaty. The way out must be found by the joint exertions of the proletariat and the poor peasants.

Russia, under the terms of the Brest-Litovsk treaty was to indemnify German subjects for the losses incurred by them thru the war.

SIBERIAN FRONT DEEMED AS MOST IMPORTANT

Harbin, Manchuria, July 26.—Documents found on captured Magyar prisoners show that the German emperor has ordered the Austro-German prisoners to consider the Siberian front as important as other fronts, and that there they will serve the fatherland as Austro-Germans are doing elsewhere. Promises of suitable future reward are made.

Owing to pressure from enemy cavalry, Gen. Semenov, the anti-Bolshevik leader, has fallen back on the left flank to the Manchuria station, which is within the Chinese frontier. The Bolshevik and German ex-prisoners display an intimate knowledge of the latest German methods of war.

VILLEMONTAIE TAKEN IN ADVANCE BY FRENCH

Paris, July 26.—The French war office reports: "Yesterday afternoon French troops captured Villemontais after violent fighting and capturing 200 prisoners, as well as 20 machine guns. "Further south, Duchy-le-Chateau fell into the hands of the French. The French made progress east of the town, and captured four cannons. "During combats yesterday in the region south of the Ourcq, the French took many hundreds of prisoners."

Jonathan vs. the Kaiser

By William Henry Taylor, Author of "Canadian Seasons," etc.

Medieval Kaiser of the hopeless Huns, Permit one, Jack Canuck, that you know well, To introduce a handy man with guns, Who from his youth could grizzle "varmints" quell.

His name is Jonathan, long, lean and spry (Old Johnny Bull's big son), who wants to know If independence such as his must fly, Or glorious Freedom round the world shall flow.

Examine him and dare to grip his hand, The blood will gush beneath your Prussian nails; Aha! You know him, eh? "Kamerad!" understand? Yes, Europe's harvest needs his scythes and falis.

His hand was never tainted with a tip, No cursed iron cross was his reward; No fawning smile 'er froze upon his lip, And never did he call a man "my lord."

He dwells near Nature's fountain head which flows, Eternal, thru the veins of Liberty; His sire's were giants, and his FAMILY grows — In one great BOND of world-wide UNITY.

As eagles soar and gaze upon the sun, With naked vision piercing space afar, The slaughter-scent of Middle Europe's Hun Draws peerless eagles of the West to war.

Germania, what a blunder, what a crime! When you insulted fair Columbia's face; You soiled Old Ocean with sea-serpent's slime, Distill'd by foul Von Tirpitz and his race.

Ye blind professors of the German cult, Ye led poor Fritz to ruin absolute, Made him an automatic catapult, Tore out his soul, and branded him a brute.

You sneered at Britain's faithful, vet'ran few, But they your marshals at the Marne surprised; And gave to France a sacrifice which grew, And grows, till all free men have fraternized.

So now Columbia's sons take up the trail, Like sleuth hounds of the forest and the plain; They always bag their game, and never fail To bear the scalps of monsters home again.

What devils have possess'd that evilish herd, Who after Wilhelm ran toward the place, Where Hope can never enter, nor a word Of prayer from him can win Columbia's grace.

To sum it up: Mad Kaiser, you bit off A bigger ration than your teeth can chew; Each Hohenzollern, Hapsburg, Romanoff, Must end their chapters in the World's Review.

The Toronto World, July 27, 1918.

CRITICAL MOMENT FOR GERMAN ARMY

Crown Prince's Over-Confidence Leads to His Undoing

With the French Army in France, July 26.—A retrospective glance at the entire battle since the Germans tried to cross the Marne in their great effort to break up the French armies, shows that the crown prince, thinking the French exhausted by the terrific defensive battles they fought during March, April, May and June, had decided to launch a fresh offensive. He was so confident of success that he did not endeavor to hide his preparations.

When Generals von Elnern, von Mudra, von Boehm and von Eben started the attack on the night of July 14, they expected to overcome all resistance and easily capture Montmirail, Epernay and Chalons. Gen. Petain, however, had prepared another plan, which was presented to Generalissimo Foch on July 12, and which was approved the following day. The idea was to abandon advanced posts and hold the principal line of resistance with only the absolutely essential forces, and in the meantime prepare a counter-offensive on the German flank when the enemy troops were fully engaged in the battle.

Eastward of Rheims, the execution of Gen. Petain's plan was favored by strong old positions, but to the westward of that city the problem was complicated because the organization of the ground held by the French had not been completed.

When the battle opened, however, and opposing plans were put to the test, that of Gen. Petain proved itself superior to the others. The French, Americans, British and Italians co-operated in a whole-hearted way and completely upset the crown prince's grandiose project. The result was utter defeat and discomfiture of the German armies, which were obliged to employ hasty divisions which had been reserved for later blows.

The allied counter-offensive was remarkably well prepared and executed. It struck at the crown prince's rear proper time. The Germans are now very anxious regarding the positions of their great army between the Aisne and the Marne. It is for this reason that they are fighting with desperation. The present moment for them is one of the most critical of the war since the allies took the initiative, and the rapidly increasing United States army enables them to undertake operations which would otherwise be impossible.

CZECHO-SLOVAKS TAKE BIG TOWN OF SIMBIRSK

Amsterdam, July 26.—Czecho-Slovak troops have captured the important town of Simbirsk, about 600 miles east of Moscow, according to an official telegram from Moscow received by way of Berlin. The Russian Soviet troops put up a desperate resistance.

With the capture of Simbirsk, on the Volga, Czecho-Slovak troops now control not only the left bank of the river but part of the railway on the right bank. The fall of Simbirsk, which is announced officially in a telegram from Moscow by way of Berlin, occurred the night of July 25. The Pravda, the official Soviet organ, commending on the advance of the Czechs, says: "The rising is spreading like a patch of oil on water. May the capture of Simbirsk awaken the sleepers. Simbirsk was captured by the bases of the council's power, and also the corn granary. The danger is growing. It is war. The enemy is numerous and well organized. If the fall of Samara has not awakened the workers may the fall of Simbirsk make the proletariat tremble for the fate of the proletarian revolution."

GERMANS CALLED ON TO SHOW MORE NERVE

Amsterdam, July 26.—The impression that the allied counter-offensive has made on the Germans at home is perhaps best illustrated by an article written by Deputy Traub of the Prussian Lower House in the pan-German newspaper, the Tagelichs Rundschau. Traub fiercely lashed the croakers "who dare doubt the official headquarters reports of victory for 'more nerve' and 'more faith' and blusters thus: "If 'Der alte Fritz' (Frederick the Great) walked the streets today and saw the people's long faces he would wail when fortune was often dead against us. Why grumble because affairs on the Marne are not going as well as expected? Devil take you; you ought to be ashamed of yourselves."

AUSTRIANS REPULSED IN ALBANIAN ATTACKS

Rome, July 26.—Austrian forces in Albania twice stormed Ardenici, north of the lower Semeni River, Wednesday, but both attacks were repulsed with heavy losses, the Italian war office reported today. East of Kovi another enemy column, crossing the Semeni on Wednesday, forced the Italian advanced posts to retire, but a counter-attack drove the Austrians to the river.

EXCHANGE OF PRISONERS.

Home Secretary States Provisions of Anglo-German Agreement. London, July 26.—In the house of commons, Right Hon. Bonar Law stated that an inter-departmental committee was inquiring into questions connected with the general election, including the question of placing the views of candidates before soldiers on active service.

Replying to a question, Mr. Law declined in the public interest to discuss the position on the Murman coast of East Siberia.

Sir George Cave, home secretary, stated that the Anglo-German war prisoner agreement provided for the exchange of all combatants imprisoned for 18 months and also the return of additional British combatants in order to compensate for the much smaller number of British interned in Germany. The exchange included those interned in Holland and Switzerland.

GERMANS SOUND PRAISES OF FOCH

Berlin Writers Declare Shortening of Own Line Necessary.

Amsterdam, July 26.—The German commentators have begun complimenting the allied commander, General Foch, now that they are no longer able to conceal his success from the German public. The Vossische Zeitung, of Berlin, for instance, refers to him repeatedly as an "able leader." While Gen. von Ardenne in The Tageblatt frankly admits that the shortening of the German line had become necessary as the result of the French general's "impetuous counter-offensive."

It is noticeable also that all the German newspapers speak of the recent operations as a "defensive battle," and Gen. von Ardenne credits Gen. Foch with a plan to extend his line northward with the object of attacking the crown prince's army in the rear as well as on the flank. This, coupled with the difficult zig-zag formation of the German line, where the fighting is proceeding in the wooded wilderness to the southwest of Rheims, he says, makes a concentration of the German forces advisable. He goes on at great length to explain to his German readers that this means nothing serious, and if any ground is yielded it is, of course, enemy ground.

GERMAN STAFF GIVEN EXTRAORDINARY RIGHTS

London, July 26.—A striking and revolutionary political change has just been made in Germany, says a Daily Mail despatch from Berlin. Very quietly and unostentatiously, it is added, full executive and state rights have been granted to the imperial general staff. This means, it is declared, that the civil and military executives have been placed on an equal basis.

WILL TRY DIVERSION WITH FORTY DIVISIONS

Paris, July 26.—Gen. Ludendorff apparently has forty divisions of shock troops still in hand, says Marcel Hutin in The Echo de Paris. They are destined, or at least a part of them, for an operation calculated to change the present situation to the advantage of the German crown prince, but, adds M. Hutin, it is hardly likely that Gen. Foch and Gen. Petain will let the initiative be taken from them now.

Between July 15 and yesterday forty-eight German divisions were identified in the Marne pocket, says M. Hutin, and completely exhausted divisions are being replaced by half-rested men.

MILLION FRANC FINE PLACED ON ANTWERP

Amsterdam, July 26.—Antwerp has been fined a million francs and Jan Devos, the burgomaster, has been deposed by the Germans because of recent happenings in the city, says The Belgique Dagblad, activists celebrating and a number of activist prisoners of war from Goettingen were half killed by inhabitants for carrying on anti-Belgian propaganda in the city. Doctors refused to attend the men, whom they called "traitors," and were constantly deported to Germany.

CROWN PRINCE FOR BATTLE

Paris, July 26.—Most of the French military writers are of the opinion that the crown prince is preparing for a great defensive battle, probably on the Fere-en-Tardenois plateau.

Munitions

In the year 1917 Canada produced:

55% of all the Shrapnel; 42% of all the 4.5's; 27% of all the 6 inch Shells used by the British Army.

This is a proud achievement!

The record can only be maintained by uninterrupted co-operation between Employer and Employee.

The Manufacturer of Munitions who refuses, in this crisis, to submit Labour differences to independent judgment, meanwhile continuing production, commits a crime against the State.

This is equally true of the Employee.

COUNTY ORANGE LODGE CONDEMNS ATTACKS

Defends H. C. Hocken and Dr. Sheard From What is Called Unfair Criticism.

The Loyal Orange County Lodge at the regular quarterly meeting, held in the County Orange Hall on Wednesday, adopted unanimously the following resolution:

"That this Loyal Orange County Lodge of Toronto, embracing four district lodges and 78 primary lodges, and representing the whole body of Toronto Orangemen, feels in duty bound to enter its emphatic protest against what would appear to be the studied policy of the newspaper known as The Evening Telegram, in its unfair criticism, false charges and vindictive attacks upon leading members of the Orange Association who happen to hold prominent public positions."

Further, it notes with regret that this policy has been pursued for the past 30 years towards prominent brethren, such as the late E. F. Clarke, to whom the Orange Association owes so much; the late John Shaw, ex-Mayor of Toronto, as well as towards leaders of the present day, such as the late shipbuilder Brother H. C. Hocken, M.P., and Brother Dr. Charles Sheard, M.P. This County Lodge hereby expresses in the strongest manner its condemnation of these continual attacks upon men in whom the Orange Order, throughout Canada, has the fullest confidence; and further, whilst this County Lodge has no desire whatever to object to fair and reasonable criticism of any man connected with the order, it is unable to allow recent misleading untrue attacks against some of the brethren above mentioned to pass without entering an earnest and formal protest; and further, whilst recognizing the value of the services rendered by The Evening Telegram in publishing many articles in the interests of Protestantism, such articles and such services do not atone for, or justify vilification of its respected and trusted members; and that a copy of this resolution be sent to The Sentinel, The Evening Telegram and other papers for publication."

WATER PRESSURE LOW IN EASTERN SECTIONS

When asked the reason for the poor water pressure obtaining in Riverdale and East Toronto, Commissioner Harris stated that the condition was due to the present hot spell which precipitated an extreme demand. The booster pump on Broadview avenue had been out of business since Thursday afternoon. Mr. Harris thinks that this would have no effect on the pressure. It is pointed out that new mains are needed in that part of the city, but owing to the city's financial condition the grant of \$400,000 to install these mains cannot be made. The pressure was so low tonight that the firemen were notified. A new pump has been ordered for Riverdale, but it has not yet been delivered.

PROVIDE FOR SAILORS IN MERCHANT MARINE

Plans for a sailors' week campaign will be discussed at a meeting of the Royal Canadian Yacht Club chairman from all branches of the Boys' Naval Brigade, to be held on August 1. The campaign will be held during the week commencing Sept. 1. Sir John Eaton has accepted the chairmanship for Ontario for the campaign. E. H. McCaughlin, of the McCaughlin Motor Car Company, Ottawa, will be vice-president. Herbert Cowan will head the publicity committee. Lt.-Col. C. G. Williams will look after the securing of speakers. H. W. King will be the business manager.

The campaign will have as its object the securing of funds for dependents of men in the mercantile marine who have suffered loss thru the war. The Navy League proposes to establish a pension fund, which shall pay the same scale as that paid to widows of men in the British navy. Even at the present time, the Navy League of Canada is sending in voluntary contributions \$10,000 each month for the pensions fund.

WILL MEAN BIG LOSS IN TORONTO'S TAXES

The recent exemption from taxation granted the Canadian Aeroplanes Limited in all probability means that same treatment will be given to the British Acetones Limited, Trinity street. The appeal of the latter company is based on the same grounds as those which secured exemption for the Canadian Aeroplanes, namely, that the plant is operated by the crown with no profit to anyone.

Cancellation of these taxes will mean a loss to the city of \$25,000 and coupled to those of the Canadian Aeroplanes of \$15,000, will result in a loss to the city of \$40,000.

EMPLOYEES ARRESTED; THEFT IS CHARGED

Charged with the theft of a quantity of silk from Bachrack Brothers, Bay street, where they were employed as shippers, Fred Spofford, 154 Rose avenue, and his brother, Lawrence C. Spofford, 49 Columbine avenue, were arrested yesterday. The men were detected sending out two bales of silk to their address, and an investigation carried out by the officials brought out the fact that goods of much value had been stolen in this manner. The men, working together, would either send the material to their own homes or to the address of a friend.

CONCERT AT HOSPITAL

Arrangements have been made by Capt. D. J. Lane, chaplain of the Toronto military base hospital, by which Boris Hambourg, in company with other artists, will furnish the Sunday evening program at the hospital tomorrow night. The concert will commence at 7:30 o'clock. The programs arranged by the chaplain have been of a high order and much appreciated by the soldier-patients. The concert tomorrow evening promises to be one of unusual merit.

Charged with the theft of an electric distributor from Dr. Webster, Spadina avenue, Joshua Woodward, 216 1/2 Major street, was arrested last night by Detectives Mitchell and Cronin.

SALE OF FLOWERS AT ALLEN THEATRE

Arrangements Have Been Completed for This Work for Soldiers.

Mrs. M. C. Dawson announced yesterday the names of the Toronto society ladies who have volunteered their services for the sale of bouquets at the Hearts of the World performance in the Allen Theatre, starting at 2.15 this afternoon. For Saturday matinee and evening Mrs. Arthur S. Winchester, daughter-in-law of Judge Winchester; Miss Zella Shaber, Miss Lillian Duff, chaperoned by Mrs. F. W. Winter.

For Monday's performances Miss Erna A. Willard, Miss Lorna Nelson, Miss Ione Nelson and Miss Louella Walker. Mrs. Winter, who saw "Hearts of the World" in Los Angeles when it opened in Chinese Auditorium, said: "I saw the picture on the coast and enjoyed it. The people who attend to the work appreciate it as much as Mrs. Dawson and myself."

"Surely we appreciate the opportunity of selling bouquets for the soldiers' comforts at this series of performances, and we hope to add to our treasury thru the kind co-operation of the public."

Next week Mabel Normand, the ever-popular star, will be seen in a splendidly refreshing story largely of the great outdoors, "Back to the Woods."

The names of a few exhibitors whose work will be represented are: Frank Benson, Colin C. Cooper, E. W. Redfield, Gardiner Symons, Childe Hassan, W. Elmer Schofield, Jones Lie, Lillian Gentle, Irving R. Allen, F. C. Friske and the moderns, George Lux, Halsey Lever, Ervin G. Olinsky, Robt. Henri and George Sellows. A happy proportion of figures and landscapes will be noticeable.

A small but interesting group of paintings by Russian and Spanish artists, most of them from the Panama Pacific Exposition, and retained in America owing to the war, will be here by way of the management of the Pittsburgh, while for other work in the foreign section thanks must be given to the trustees of the National Gallery.

Must Notify Registrar. An Ottawa order received yesterday relates to the obligation under the Military Service Act of those becoming widowers. The new order states that May 8, 1918, is the date from which the order becomes effective. All those becoming widowers after that date must notify the Ontario registrar under the Military Service Act within ten days.

LIEUT. BROWN A PRISONER

News has been received that Lieut. Vernon Ross Brown, grandson of the late Sir George W. Ross, who was reported missing on May 28, is alive and a prisoner of war. This later report came to his father, Cameron Brown, James, N.Y., from the recording officer of Squadron 100, Royal Air Force.

FINE WORKS OF ART AT THE EXHIBITION

Remarkable has been the change made in the galleries of fine art at the Canadian National Exhibition the last two weeks. From a home for soldiers they have once more been turned into fitting halls for the installation of works of art. The walls have been rehung and re-painted and the entire interior brightened and improved.

This year the fine arts commission have selected 10 paintings by the leading artists in the United States, painted during recent years, and it is not too much to say that American art, as it will be exhibited at the Exhibition, will rank with the best contemporary art of the day.

The names of a few exhibitors whose work will be represented are: Frank Benson, Colin C. Cooper, E. W. Redfield, Gardiner Symons, Childe Hassan, W. Elmer Schofield, Jones Lie, Lillian Gentle, Irving R. Allen, F. C. Friske and the moderns, George Lux, Halsey Lever, Ervin G. Olinsky, Robt. Henri and George Sellows. ONTARIO MENNONITES AFFECTED BY RULING

Special rulings governing the right of members of certain religious denominations to be exempted from military service called to the colors under the Military Service Act were received yesterday from Ottawa yesterday afternoon.

The government has decided that those who joined these special religious orders before Oct. 15, 1917, will be considered. In addition to this film there will be the Regent Graphic with the latest news events and other films. The invigorating charm of the famous Regent orchestra makes one forget the exhaustion of warm weather and the theatre itself is remarkably cool.

Among those who will be seriously affected by this latest order from Ottawa will be the men who have joined the Mennonite Church. It is stated that every Sunday for some weeks back scores of men have been joining the Mennonite Church in country districts adjacent to Toronto, Ottawa's latest ruling, however, means that such action on their part is too late to give them military exemption rights.

Another important ruling which came from Ottawa yesterday afternoon refers solely to the members of the Mennonite Church in the Province of Ontario. This is that they must establish their claims for exemption from military service only on the ground of conscientious objections or the claims won't be recognized. It is found necessary to make this point clear, because the Dominion Government's inclusion of a clause in the act exempting from military service under the M.S.A. members of the Mennonite Church, does not apply to Ontario members of the sect.

Among the islands of Georgian Bay. Why not take a vacation at one of the very desirable spots among the islands of the Georgian Bay? This district is one of the wonders of a wonderful region. The archipelago consists of something like thirty-two thousand islands, ranging in size from several square miles down to the size of a dining table. Lunge and bass fishing is exceptionally good in the water of this district, and comfortable and well operated hotels and boarding houses are located at Honey Harbor, Mimico, Whalen's Go-Home-Bay, Sans Souci, Parry Sound and many other points. The Grand Trunk operate through coaches and parlor library buffet cars from Toronto to Penetang, where direct connection is made with steamer for Georgian Bay resorts. Full particulars from Grand Trunk Ticket Agents or C. E. Horning, district passenger agent, Toronto.

Thirty-eight Russians left the Union Station at 10 o'clock last night for Vancouver. They intend going to their native land by way of Japan, to join the Czech-Slovak army in Russia.

RECORD SALE MADE OF ADVANCE SEATS

Nothing Like Demand Previously Known in Toronto for Any Attraction.

A. J. Miville, assistant manager of the Allen Theatre, who has charge of the sale of advance seats for "Hearts of the World," said yesterday that the demand for advance seats from those who wish to see this production without fail was unequalled in the history of Toronto, in his experience.

"Not even for Gail-Curei or any other metropolitan or grand opera star," continued Mr. Miville, "has anything like the demand for seats in advance been known in this city."

At both the special phone which has been run in 15 East Richmond street (No. Main 510), and at the Allen Theatre, the phone calls for seats were incessant. One of them, from Mrs. Horstman, said: "Please try to get me two box seats in the centre for Saturday night. I hope I'm not too late to get them."

Carl Horton Pierce, acting as special representative for Mr. Griffith during this engagement, received a wire from the producer yesterday, expressing the hope that the people of Toronto would like his "little play."

"Considering," said Mr. Pierce, "that this photoplay took eighteen months in the making; cost several times what any stage or photoplay ever cost in the history of the world; and has utilized more high-paid and high-class talent, including the time and attention of men like Lloyd George, General Joffre, Premier Viviani and others who are conducting this great war, this reference of Mr. Griffith to his 'little play' speaks for the modesty of the man who is acknowledged to be the master director of the world."

SAPPER HENRY G. WARD DIES VERY SUDDENLY

Sapper Henry Glassford Ward, only son of Henry Ward, public school inspector for the east wards, died on Wednesday at the residence of his father, 22 Kippendavie avenue. While serving in France with the Canadian expeditionary force he contracted tubercular meningitis, which later, and suddenly, resulted in his death. Sapper Ward, who was in his 22nd year, had enlisted as a signaller, and fought in the battles of the Somme and at Vimy Ridge. The funeral, which will be a military one, will be to St. John's Cemetery, Norway, at 3 o'clock this afternoon.

LITTLE BOY KILLED PLAYING ON STREET

When he was struck down and run over by a motor car in front of his home at 725 last night, Joseph Laundreville, aged 3, 34 1/2 Bellwoods avenue, was most instantly killed.

The child was playing on the sidewalk and darted in front of the passing auto. The little fellow was knocked down, but the quick action of the driver prevented more than one wheel passing over the child's body.

Dr. Eddie, 899 West Queen street, was called, and it was at first thought that the child was not seriously injured, but he expired twenty minutes later from internal injuries. Eye witnesses were of the opinion that the driver did all that was possible to avoid the accident.

BOY NEAR GAS PIPE WAS FOUND BY POLICE

Huddled close under an open intake gas pipe in a vacant house at 235 Ashdale avenue, the body of George Allan, 25 Alexander street, was found by the police of Eglinton station yesterday morning. The cap, which had been screwed on when the meter was taken out, had been wrenched off, and the coat thrown over the man's head and the end of the gas pipe.

For some time the man had been a patient at the asylum, and he had been given parole several times to go and see his wife. He had always returned to the institution without any trouble. Two weeks ago, however, he had left the institution and had not returned, and after a short visit to his wife he refused, in spite of her advice, to go back to the hospital.

He is thought to have then entered the vacant house and to have turned on the gas. The house has been vacant for several months, and the paper, which was over his head, was dated July 16, indicating that the man had been dead a fortnight.

BICYCLE TIRES

Dunlop Motto:
"Please the People!"

THINK OF THIS: The first automobile tire made in Canada was virtually an enlargement of the Dunlop Patented Bicycle Tire. And during all those years that the automobile tire has been striving to reach its present standard, the bicycle tire that served as a model has gone right on pleasing the bicycle owners. Years of doing it well—that and nothing more could make Dunlop Tires as supreme as they are to-day.

Wires That Work for the People.

With that facility for doing things which has made the Wilson administration pre-eminent, the government of the United States has taken over and is operating as integral of the postoffice department the telegraph and long-distance telephone services of the nation. The telegraph lines years ago were declared to be "post-roads," and therefore under the absolute control of congress. That they should have been allowed so long to remain under private control is a mystery. One postmaster-general after another argued that the government which carried communications by stage coach and railway train should also carry them by wire. But the private corporations, strongly entrenched in their position, fought the desired reform. Now it has come as in the twinkling of an eye, and The New York Morning Telegraph says:

If, as a matter of political policy after the war, federal ownership proves as desirable as it does as a matter of military expediency, while the conflict lasts, a way will be found, no doubt, to compensate the owners liberally and take over the lines for all time.

The New York Sun estimates that the telegraph systems under unified state control will yield to the government a net annual profit of \$80,000,000 after allowing for depreciation and the fixed sums to be paid to bondholders and shareholders of the telegraph companies during the war. This profit, it concedes, may be reduced by an increase in wages likely to follow nationalization. But so many economic opportunities will be effected by cutting out superfluous officials, questionable expenditure, and duplication of service, that a reduction in rates of a huge profit to the government from the operation of the lines is inevitable.

The only opposition to the government taking over the lines was voiced by those who feared that it would place too much control over the dissemination of news in the hands of the government. That fear at best had little real foundation because the government since the commencement of the war has had wide and sweeping powers of censorship over the press. These powers have been used with firm hand against the disloyal but have not, as a matter of fact, caused any annoyance or inconvenience to the press of the country. Indeed the papers are now looking forward to a more reasonable and up-to-date telegraph service.

The United States Government had a more difficult task in taking over and administering all the railways of the nation. It found the railways broken down. Indeed it was an account of their breakdown that the government had to intervene. It had to spend large sums in reconstruction work and equipment. It had for a time to contend against sabotage, but the railway service of the country has steadily improved and no practical railway man seriously supposes that the roads will ever return to corporation control. The rates have been advanced because of conditions imposed by the war and the startling rise in wages and material of every kind. The government had to advance the rates in the United States just as the Canadian Pacific Railway is advancing its rates in Canada. But in the United States any excess of profits goes into the national treasury, and not into the coffers of a private corporation.

In the United States the express companies merged into one corporation faced absorption at no distant date into the national parcel post system, and the people are all the more sanguine of the telegraphs being efficiently administered by Postmaster Burleson because they know the wonderful success he has achieved with the parcel post.

The situation in Canada does not shine by comparison. Our railways have not been brought into one system, not even those owned by the government. We know in a general way the policy of the government, but it is a policy that materializes so slowly that after four years of war the railways of the country are in a condition that may be described as chaotic. The telegraph situation is even more confusing.

We have ten thousand miles owned outright by the government administered, however, not by the post-office, but by the public works department. A mileage equally large but commercially far more important is owned by the government, but is administered by the Great North-western Telegraph Co. Still other lines of great importance and value stretching from sea to sea are owned and operated by the Canadian Pacific Telegraph Co. There is no mo-

bilization, no attempt to co-ordinate the services, no pretence of linking up the telegraphs with the postal service of the country.

It took Postmaster-General Burleson but a few days to merge the telegraph lines into the postoffice system of the United States. It may take years more in Canada.

Real War Work.

The government of Manitoba is doing the right thing in assisting her farmers in taking care of their live stock and that of the adjacent provinces by advancing money to keep the young cattle in the west instead of allowing them to be sold at sacrifice prices to the packing houses and to farmers in the states to the south, because of scarcity of fodder, even of hay, due to drought, not only in Manitoba, but especially in southern Saskatchewan and southern Alberta. These provinces were all getting well ahead in producing fat cattle and sheep for the packing plants. It would be a regrettable thing, more, an economic crime, if thousands of young females had to be sacrificed that would be the foundation of valuable herds for sale next year and the years thereafter.

The Ottawa government has also assisted by directing the board of railway commissioners to make special reductions in freight charges to move these young cattle to parts of Manitoba, or even to Ontario and the east, where they could be fed over this winter. Perhaps the Province of Ontario could frame up a plan to promote temporary loans to farmers here who would undertake to buy some of these cattle and carry them over. Part of them might be sold back to the west next year, and banks both here and in the west might also assist.

It is all in the war program and in the program of reconstruction—one of many things that we must do as a public and a national duty because of war conditions and an occasional setback in crop conditions in any part of the Dominion.

A Concession to Brains.

Canada must rely upon her brains during the next generation for her success more than upon any other element of a commercial character. People have not been in the habit of considering brains as a commercial commodity. It has been taken as something thrown in, a by-product. It is understood that brains are "present" in the commercial ore of business life, just as cobalt, nickel and arsenic are present in silver ore, but brains have not hitherto been regarded as a sufficiently valuable by-product to be isolated.

It has occurred to some of the more far-seeing people in the country that brains are going to be the saving factor in the period of strenuous competition that is likely to follow the war in economics and industry generally. Hitherto Canada has thrown away her brains as not worth the trouble or expense of isolation. The result has been that the United States has developed and grown rich on the true estimate of brains and their application to the production of values.

The present movement in Canada for the utilization of brains simply recognizes what has been done in other countries, that has been neglected here, and must be adopted by us if we are to make or maintain a place for ourselves among the nations. Brains may abound, but they will be of little use unless they are trained and organized. It has been largely on account of this training and organization of brains that Germany has been able to thrust herself forward commercially to the position that threatened the supremacy of other great mercantile powers until she gave way to the folly of trying to hasten her triumph by military force.

In Canada when a young man displays brain-power, there is little to encourage him to apply himself to the development of his talents here. If he wishes to specialize he crosses the border and is soon absorbed in the United States flood. Every superior brain that crosses the border weakens Canada and strengthens our neighbors. There is only one way to improve this condition, and that is to provide the same facilities here that are available in the United States or Germany.

It will take money to do this; but we should not be afraid of a few millions in constructive and productive expenditure for peace purposes after this unquestioned and unlimited expenditure for what is neither productive nor constructive, altho indispensable. The "Canadian Industrial Reconstruction Association" has recognized the need for action in this direction, and proposes scholarships for research work for students in both secondary schools and universities.

The main difficulty here is the absence of properly equipped laboratories such as in the United States have been established by such corporations as the General Electric Co., the Eastman Kodak Co. and others. Many of these big corporations are spending from \$25,000 to \$500,000 a year on these laboratories and for research work and investigation. They do it because it pays them. It would pay Canada equally well to develop her resources and cultivate her industries by similar means. The laboratories at McGill and Toronto universities should be generously extended and facilities provided for every description of commercial and in-

dustrial research. The practice elsewhere could be adopted by which manufacturers requiring special investigations endow a fellowship for one or more years, paying from \$500 to \$2000 a year, and the cost of special apparatus. The whole idea is the discovery of the best methods of doing things, of utilizing hitherto wasted materials, of cheapening and improving existing methods, of adding brains to business wherever the addition is possible. Brains are the cheapest investment in the world and the most productive under wise methods of organization.

Recently, at Pittsburgh, no fewer than 42 industrial fellowships were in operation at the Mellon Institute. Investigations, it is said, ranged from the cooking of coal to the baking of bread, from the washing of clothes to the filling of teeth. The Canadian Government endowed a fellowship to solve the problem of separating asphalt from fine sand, so as to bring into use a large deposit in Canada. As a result of research work a New York bakery was able to save a million a year.

We have brains in Canada, too. Let us train them and use them at home.

A Line of Cheer Each Day of the Year

By John Kendrick Bangs.

A QUESTION.
It never vexes me
To think of what's to be
Tomorrow or next day.
Whatever comes I know
It'll be by or we
My path runs on that way.

And so wherever should I
With apprehension cry
And seek the why and how,
And full of anxious fears
Look on the days and years
Ten centuries from now.

Whatever it be the path ahead
Is but the path we all must tread.
And be the future what it may
With cheer I'll take the present day.

Other People's Opinions

Y.M.C.A. Versus G.W.V.A.

Editor World: It is decidedly unfair on the part of your correspondent, "May Maybe," to have the Canadian press with falling to uphold "the honor and integrity of the returned veterans who condemn the work of the Y. M. C. A." The most slipshod observer cannot fail to notice the generous space given to the war veterans in almost every paper and in order that the story and point of view may be presented daily. If with all this space at their disposal the veterans "have an integrity" which has not been upheld it is hardly clean baseball to blame the editors. It is possible that you and your fellow editors and the publication which has "upheld the veterans" in their attack on the "Y" had they given that "detailed explanation" whose absence from the printed page is a permanent regret, venture to assert that any editor would have snapped at such a "detailed explanation" had it been forthcoming. The trouble is that all attacks against the Y. M. C. A. have been as wanting in detail as they have been florid and abusive in expression. "Foster" had gone to bed, and without waiting, he gathered me in his arms and carried me upstairs.

"Of course, it would happen when I was out!" he grumbled to mother. After I was comfortably propped up in bed, none of us "let" we could sleep, but after a while I peeped into the kitchen with James to get us some coffee.

"Your being here couldn't have possibly made any difference," I told him.

"I could have awakened the household at least. I hope you did not injure yourself running up and down stairs. Were you terribly frightened?" He leaned over me anxiously.

"No, indeed! I just knew everybody must be awakened, that was all. You are a very brave girl. Isn't she?" he asked mother.

"She was as fearless when a child," mother answered. She had not yet quite recovered from the fright, and her voice trembled a little, but after a while I peeped into the kitchen with James to get us some sandwiches, we grew quite gay, altho none of us wanted to sleep.

About three o'clock George insisted that we all get up and dress. I tossed uneasily. But, toward morning, the doctor had to be called. Helen, the morning my baby boy was born. And there was never a happier person in the world, than was I when George gathered us both in his arms.

The Woman Who Changed

A Cloudless Sky.

CHAPTER CXLV.
IT SEEMED THAT I was almost too happy. To have mother with me—to have George so kind so loving—as all I could possibly desire. I was so glad, too, to have mother see how good George was to me. I had always believed that Philip told her I was unhappy. He had seen us when we were so many times at cross purposes, and I had foolishly allowed him to see that I was miserable. "How I sang and laughed and was gay all day long. No one could think me anything but happy, now."

"I had so much to tell mother. All about the Babcocks and their visit. I wished she could know them. She smiled when I said so and replied: "Stranger things have happened than that, at some time, we might meet. But I am glad for you to have such friends. Even if they are older. From what you tell me, they are still young enough to be interesting, while old enough to be of real service to you in teaching you many things you need to know. You are very fortunate, my daughter, in many ways. You must be grateful."

"I am, mother. At least I am now." "We all must learn, dear. Experience is the only teacher by whose lessons we profit. Someday, we all must know things for ourselves. There is always something in the experience of others that doesn't just fit."

"An Uncomfortable Night."
We had talked late, mother and I. George was out and would not come in until after midnight—so he had said. But it was nearly 12 when we were to bed and he was still out. I dropped off to sleep almost immediately. I wakened and thought I must have the nightmare. I had been dreaming that I heard voices, shouting. I lay struggling to waken myself more and more, suddenly, I realized that I had not been dreaming at all. That I really had heard voices—that people were outside, calling, and yes—they were screaming!

I sprang to the window. It was bright moonlight. I could see the street, and just then the clanging of the fire wagons brought a sudden realization of what it all meant. The house must be afire!

"Hurry!" I gasped, then ran up another flight of servants' quarters. I rapped on each door, calling loudly all the time. I had heard mother calling me to come back that she would have scarcely any disorder; the fire was quickly under control. James had rushed downstairs and was acting queer, no one got into the house in order that the story and point of view may be presented daily.

"You can go back to bed," the chief of police said to me when I stood open and in rushed George. "Helen! are you safe? Thank God!" as he saw me. "How did it happen?"

"Crossed wires, I guess," the chief answered. "Here in the floor. Didn't get above this one floor. Lucky that it was!"

"Yes, here!" and George passed a yellow-backed bill to the chief. "Get the boys some cigars." Then, "Come, Helen, let's go. I'll take you home, and without waiting, he gathered me in his arms and carried me upstairs.

"Of course, it would happen when I was out!" he grumbled to mother. After I was comfortably propped up in bed, none of us "let" we could sleep, but after a while I peeped into the kitchen with James to get us some coffee.

"Your being here couldn't have possibly made any difference," I told him.

"I could have awakened the household at least. I hope you did not injure yourself running up and down stairs. Were you terribly frightened?" He leaned over me anxiously.

The very Sunday we select to overhaul the bus the minister calls

"They're All Scotch Here."

The first time MacHargus, from the Village of Fergus, saw a telephone booth in Elora town hall he asked: "What's the contraption, and why its adoption? I can't understand it at all, not at all."

"Clerk Alex. Macpherson just by way of diversion explained to MacHargus about the machine—how he could talk to Dundack, Gananoque or Galt—or in fact, far away as the Town of Lachinc."

"How far can ye talk?" cried MacHargus of Fergus. "Anywhere," said Macpherson "if you'll put up the price."

"Don't consider the cost," said MacHargus of Fergus; "I'll speak to Sandy, my brother, indeed 'twill be nice."

"Where's Sandy?" asked Alex. "Does he speak the Scotch Gaelic, for thru that contraption it does not flow well."

"Of Sandy," says Andy, "I don't know where he can be; he's been dead for the past four year, and his address I can't tell."

Macpherson then found a friend, and explained to him his game, who agreed to respond in MacHargus' brother's name. The news about MacHargus

IMPERIAL PREFERENCE

SCHEME DEBATED ON

Canadian Associated Press Cable. London, July 26.—The Daily Telegraph, discussing the announcement of Walter Long, that his scheme of imperial preference has been approved by the government, notes that, as Long gave no details, and there are many forms of imperial preference, it is idle guessing which particular one has found favor. The Telegraph recalls that last year a resolution in favor of imperial preference was unanimously passed by the conference. Borden then drew attention to the fact that the resolution had been most carefully drafted. It may well contain the clue to the scheme which has just been adopted.

New York, July 26.—Corp. James Ralph Doolittle of New York, killed today in an airplane accident at Buffalo, received 12 wounds while flying on the western front as a member of the Lafayette Escadrille.

FOR LEAD AND HALF A GERMAN PRISONER

Lieut. Fordham of Niagara Tells of His Experiences as Captive.

Niagara Falls, Ont., July 26.—Lieut. Reginald R. Fordham of this city returned home yesterday after spending a year and a half in German prison at Metzen. This attack was the first World War correspondent to be held in a prison. He was captured by German doctors near the front line, which would necessitate his having another operation here. "We all had to depend on food parcels sent in from outside," he said.

TWO GERMAN ATTACKS REPULSED BY BRITISH

London, July 26.—Yesterday evening the enemy attacked our new positions in the Hebuterne sector, but were driven off with severe loss, leaving 30 prisoners in our hands. "Early this morning a strong local attack was launched by the enemy against the line recently gained by us at Metzen. This attack was also repulsed after sharp fighting."

KEEPING UP FIGHT IN HABES CORPUS

Montreal, July 26.—Fighting from every angle of attack in the superior court today sought to obtain the maintenance of habes corpus writ against the C.P.R. in the case of the writ on principle, but made no actual reply to the attack, reserving all efforts in this regard until August 1 and 6, the dates on which such writs were formally issued were made returnable. Thus on the constitutional of the now-canceled writs of April 29 and 30 last, and the question of the writ on principle, but made no actual reply to the attack, reserving all efforts in this regard until August 1 and 6, the dates on which such writs were formally issued were made returnable.

HOLLAND AND NORWAY CATCH FEWER FISH

Ottawa, July 26.—Reports received by the fish section of the Canada Food Board organization indicate the decline in the output of fish in Holland and Norway as a result of the war. The total catch of cod by Norwegians for the 1918 season just ended was but 6,000,000 pounds, as compared to 25,000,000 pounds in 1917. Most of the fish was on the northwest coast, owing to the submarine menace to the south.

HOUSING PROBLEM EXPLAINED.

Galt, July 26.—At a special meeting of the council and board of trade a solution of the housing problem was fully explained by a strong deputation, headed by F. S. Scott, M.P. The city fathers decided that an action should be taken and appointed a special committee of Ald. Jarvis, Mercer and Hutchinson to consider the details of plan and make a recommendation to council. This committee will be assisted by committees from the board of trade and the Trades and Labor Council, both of which have endorsed the plan, which will give Galt 150 new homes by raising \$50,000 in the city and \$50,000 from the government. The plan is to be put in operation by the Ontario Government for this purpose.

Kingston, July 26.—How he started out with \$1860 to spend a vacation at the Peashers and how he was taken suddenly ill in Montreal, he said that three on last his bearings until he came to his senses in the General Hospital, where he died Tuesday morning in a helpless state. Tuesday when searched, his money was found wrapped in a newspaper. He suffered from the high temperature, and on his arrival at the hospital he found that his entire system had been inactive for several days.

ALLES NEAR SUMMIT OF DESIRED PLATEAU

With the French Army in France, July 26.—With the capture of the Town of Oulny-le-Chateau the allies are nearing the summit of the plateau overlooking Fere-en-Tardenois. Further north the capture of Villeneuve was effected after sharp fighting in the streets and in the deep caverns nearby.

ORDERED TO STOP MAKING OF CANDY

Ottawa, July 26.—The Canada Food Board has ordered August F. C. Durand, 31 East Sandwich street, Windsor, Ont., to discontinue the manufacture of candy and not to purchase any sugar for candy making until after September 1 next, or until permission is granted by the board. This penalty follows upon infringement of the regulation which requires that candy manufacturers use monthly, during May, June, July and August, not more than fifty per cent. of the average monthly quantity of cane sugar used during 1917. Durand was found to have already used his allotment of sugar for May, June, July and August.

PEASANT REBELLION STARTS IN UKRAINIA

London, July 26.—A peasant rebellion has broken out in the Ukraine on a formidable scale, according to information received today. Seventy-five thousand peasants, fairly efficient troops in their officers and instructors, are advancing against the Germans, detachments of whom have retreated before the peasant advance retreating to Kiev. The peasants are well armed.

APPOINTMENTS GAZETTED.

Ottawa, July 26.—The Canada Gazette announces the appointment of Robert Maxwell Dennison of Winnipeg, to be judge of the appeal court for Manitoba. Other appointments are Gustave Beaulieu, Quebec, as measurer of shipping and accommodation for seamen for the port of Quebec, and M. G. Ryan, Kingston, to be wharfinger of the government wharf at that city in succession to P. J. O'Connor.

Large Engines Scatter the Enemy's Guns, Making Them Useless.

With the British Army in France, July 26.—British tanks blazed the trail for and co-operated with the French infantry in its recent ground gaining assault north of Montdidier. The victory was important, for by hurling the enemy lines west of the Avre River from the high ground between Morisy and Montdidier into the valley on a front of more than two miles, thereby compelling withdrawal from other positions, the French somewhat relieved the pressure on Amiens and the surrounding territory and in addition captured some high ground which gives excellent observation over much enemy territory. British tanks co-operated, and while the French infantry had no great amount of experience with them, the co-operation and understanding was perfect.

Howley's Steam-Roller Puffs Along for Two More Victories

Justin Blanks the Bears in First Game--Leafs Clout Out a Win in Second Half of the Bargain Bill

Dan Howley and his climbing Leafs arrived home yesterday morning and staged a double bill with the Newark Bears in the afternoon. Tom McCarthy tried hard to stop the local winning streak, but was not successful, and the double victory yesterday makes it twelve straight wins.

The Leafs looked every bit as good as the glowing reports that preceded them. The first heat was easy. Justin shut out the Newark outfit 5 to 0. Only five hits were secured off the Toronto pitcher, and Ted Cather, a Leaf of the old days, grabbed four of them.

Dan's boys came from behind to nab the second half of the bill. The Leafs went after Rommel with a will in the eighth, and bunched three singles and a triple for four runs. This made the final count 4 to 2. Duke Reilly was very much in the limelight with some grand clouting and a great performance in the left garden. His Dukeship chased the ball all over the field, making several hard catches.

Johnny Mokal, late of Waco, Texas, made his first appearance on the local lot. He hit nicely, in a smart fielder and a great watter at the plate. He hit the popular fancy.

The Howleyites walked away with the first game, 5 to 0, when Hal Justin furnished one of his good turns. Ted Cather, the old-time Leaf, was the only Bear that could find Justin with any regularity. Cather, himself, collected four raps in as many efforts. Only one other hit was secured off Justin.

After the third inning the Leafs kept pecking away, until they had piled up three runs and were excited. Justin started the pitching for Newark, and retired in the fifth, after he nearly lost a finger trying to pull down one of the hot liners. Rommel finished the heat.

The Leafs were full of life on the field and looked a top-notch team at all stages of the game. Reilly was especially bright, with his hand catching on the field. Reilly backed up everything on his side of the diamond, and helped himself to two nice hits.

The Newark story can be told in very few words. Justin simply had them baffled, and two of their few chances to score were killed by the Leafs pulling double-plays.

The local climbers did not get down to

work until the fourth, and then scored two runs. Lear bounced a pitch, and Purcell sacrificed and was safe when Rommel, who was playing first at this time, let the throw get away from him. Onslow batted out, but Lear was run down between third and home. Mokal made a high fly to centre, and Purcell easily beat home the return. Harpin's throw was a little high, and Reilly, and another run counted. Justin ended it with a bouncer to the pitcher.

The fifth and last run of the game for the Leafs. Reilly and Wagner were walked, and then Callahan beat out a bunt. Lear drove one to the pitcher, and Reilly was cut off at the plate. Swigler nearly hit his thumb finding this one, and had to move over to first, and Rommel took up the pitching duty. Purcell raised a sacrifice fly for the run, and Onslow flied out.

The Leafs cornered another rally in the sixth. Mokal hit smartly to centre, and Howley sacrificed. Justin fanned, and Reilly walked. Mokal stole third. Reilly walked to first and kept the Newark players busy long enough to let Mokal score.

The Leafs' last run came in the seventh. Wagner singled and was forced at second by Callahan. Lear struck out, but Purcell moved Callahan to third with a single. Purcell and Callahan worked the double steal, the latter crossing the plate. Onslow flied out. This completed the afternoon's work.

DOUBLE-HEADER AGAIN TODAY.

The four-game series between the Leafs and the Bears transferred from Newark to Toronto will close today with another double-header. With the sweltering heat in the city the fans will no doubt welcome the chance to take a ride across the bay and thus get the cool breeze off the lake, and at the same time watch Howley's Leafs perform. As the locals have been away for nearly two weeks the fans are very anxious to get a glimpse at Howley's boys, especially after their success in winning ten straight on the road. It has kept the fans up to the highest pitch of excitement and they will turn out in full force this afternoon to help the Howleyites grab two games if possible from the Newark Bears.

Bugs Herche is not slated to pitch he will perform his comedy stunts on the coaching line. The Toronto Press Co. expects a record crowd today and will provide special boat service. Reserved seats and combination tickets are on sale at Moody's.

LEAFS FOR NIAGARA.

The Toronto Baseball Club will visit Niagara Camp tomorrow and play the All-Star team of the camp an exhibition game. Capt. Scholtes has completed arrangements with President J. J. McCarthy for the boys to make the trip. They will leave on the 9:30 boat in the morning and will be met by the Leafs at their camp. The All-Stars will have on their strongest line up, with Estelle, the Central Association pitcher, on the rubber. He may not be sent the whole distance, for a new arrival at the camp this week was Pitcher Mitchell, from Des Moines, of the defunct Western League.

Those Fool Bingos Won a Double-Header

At Baltimore (International)—Lefty Worrell allowed Syracuse only two hits yesterday afternoon and Baltimore easily defeated the visitors, 6 to 2. Worrell should have scored a shut out, but for an error of omission and one of commission just before Syracuse scored each of its runs. Shay was wild in the third round and Baltimore bunched hits with his passes. Egan's batting featured. Score: R.H.E. Syracuse 10 1 0 0 0 0 0 2 2 1 Baltimore 6 2 0 1 0 1 1 6 10 1 Batteries—Shay and Hopper; Worrell and Egan.

At Jersey City—Buffalo-Jersey City game will be played as part of a double-header today.

At Binghamton—Rochester dropped two games to the Bingos here yesterday afternoon by the score of 7 to 4 for the first and 5 to 0 in the second. Koelsh's home run in the fourth inning of the first game was the feature. The score: First game—R.H.E. Rochester 2 0 1 0 1 0 0 0 4 1 4 Binghamton 7 1 0 0 0 1 0 7 10 2 Batteries—Brogan and O'Neill; Turo and Haddock. Second game—R.H.E. BRAVES TAKE BOTH FROM MATTY'S REDS

At New York (National)—New York made it three out of four from St. Louis yesterday, winning the last game by a score of 8 to 0. Steele held St. Louis safely, while the Giants pounded Matt Ward, Young, of New York, now hit safely for 23 successive games. Having been ordered to work or fight immediately by his St. Louis draft board, Walter Hoke, first baseman of New York, joined the Steel League team at Bethlehem, Pa., yesterday. Score: R.H.E. St. Louis 0 0 0 0 0 0 0 7 5 New York 11 0 0 0 0 6 0 8 10 0 Batteries—May and Gonzales; Steele and McCarty.

At Brooklyn—Brooklyn defeated Pittsburgh here yesterday by a score of 4 to 2. With the score tied in the ninth Hi Myers tripped, and Bandera passed O'Mara, Cushman and Cheney, forcing home the winning run. Myers' batting and Schmidt's throwing to bases featured. The score: R.H.E. Pittsburgh 1 0 0 0 2 0 0 0 3 6 0 Brooklyn 4 0 1 2 0 0 0 1 4 12 1 Batteries—Bandera and Schmidt; Cheney and M. Wheat.

At Boston—Boston took both games yesterday from Cincinnati in easy style, the first 11 to 5 and the second 12 to 3. The scores: First game—R.H.E. Cincinnati 1 0 0 0 2 1 0 0 1 5 9 1 Boston 2 3 0 0 0 1 5 11 14 1 Batteries—Luque and Allen, Cuto; Neff and Wilson. R.H.E. Second game—R.H.E. Cincinnati 1 0 0 0 0 0 2 0 3 7 1 Boston 2 4 1 1 4 0 0 0 12 19 1 Batteries—Luque, Jacobus and Wingo, Cuto; McQuillen and Henry.

DOESN'T MATTER LEAFS WOULD WIN

Baltimore, Md., July 26.—Manager Wade of the baseball team representing the Baltimore Drydock and Shipbuilding Co., announced today that he had made arrangements for seven members of the Binghamton team of the New League to go to work at the yards next Sunday. They will immediately become members of the drydock team. It is understood that Sam Frock, the Baltimore boy with the Binghamton team, acted as agent for the local concern. A telegram from Frock to the management of the shipbuilders' team today stated that he would be here on Sunday, and that he would bring with him Kay, Riley, Zimmerman, Haddock, Hooper and a pitcher, whose name was not mentioned.

Frock is one of the pitchers of the Binghamton Club, which is the leader in the pennant race of the New International League.

MONTH'S GRACE FOR BASEBALL PLAYERS

On September First Must Have a Useful Job or Fight.

BAKER'S STATEMENT National Commission's Application is Denied—Ban Johnson is Satisfied.

Washington, July 26.—Professional baseball players were given until Sept. 1 to seek essential employment or be called to the colors, in an order issued by Secretary Baker today, denying the application of the National Baseball Commission that the effective time of the work-or-fight regulation is they apply to the baseball industry be extended to Oct. 15.

The secretary said that the limited extension of time was given because of the representation made that baseball players may have been put in a less favorable attitude than others affected by the regulations, because of their reliance on his statement that the question of their inclusion in the terms of the order would not be decided until a case had arisen.

While regarding it as unfortunate to have so wholesome a recreation as baseball destroyed, the war secretary said it was a much more unfortunate thing to preserve even so wholesome an amusement by making an exception in favor of baseball players in the United States, who were immediately associated with processes of the national daily life more fundamental than any mere amusement.

There was this difference, he said, between baseball and other industries classified as non-productive—baseball is more integrated, at least in the military, its successful conduct depends upon the preservation of all the major teams, scattered throughout the country, while in most occupations the work-order has merely a series of local and more or less personal effects.

AMATEUR BASEBALL

Stores Depot and Cadet Wing, who are even to date on the season's series, meet in the opening game of the Toronto Military League at Stanley Park. As this may be the last meeting between these two clubs, the pair should have a tidy battle in this engagement. Roach will serve them up for the Cadets. Manager Bennett and the little port-sider will work for his own club. Pliener Hardman, who has been on the ailing list for the past six weeks, has rounded out and has been working out this week and may be used on the rubber against the Veterans. The Veterans have won their last three starts and started their winning streak with a victory over Garrison Regiment. Black or Asaph will be on the mound for the returned men, with the odds in favor of the former. James Mahoney will call play at 2:15 p.m.

TWELVE VICTORIES A PLEASING PILL

Joe Wagner Remembered Ida and Came Thru in the Pinch.

By Ida L. Webster. Let everyone rejoice and be thankful that Westervelt has been assigned to the island, since one or two of the players made a kick on his decisions yesterday when he was working behind the plate, yet the crabbing was entirely uncalculated, because his work was decidedly fair, and in the second game when he went on the bases he was equally as good. As for his helper, Mister Johnson, he was just as bad as ever, and apparently all the protesting he has been given have not tamed his spirit in the least. Certainly Farrell should look after him, but he is not doing so, and any case one is quite as incompetent as the other, but Ban has the bugle on Farrell when it comes to protesting. In fact, Umpire Johnson was the only unpleasant feature of yesterday's two games, so that if the fans and the players were given a regular deal by the powers that be everything would be lovely. The game played in the first game was a walk-away, yet it was made so by some hard work on the part of the fans. Also they hit at every opportunity and stole bases with the same regularity. Duke Bellamy was the hero of the first battle, having two hits and two runners in the first inning. Besides that, his fielding was wonderful. The Duke certainly made himself the hero of the day from the start of the story, that is, for consistent work. Furtell was another player who went after them, and he was the one that is all but one, and Joe Wagner hopped in to the rescue in that instance, and got the man at first, and he had to do some stretching. However, these are the kind of plays which keep the error column down, but then aside from that Billy was in great form, and he belted the first contest he had a lot of tries, because he was every man who arrived at bat hit down the third base, but he did not find the little fellow dead on the job by any means. At the bat he was just what the fans were looking for, but he gathered the third sucker of this winning Toronto club did his duty like a man.

MANY FAVORITES IN MONEY AT TOLEDO

Cox Was Taken Down by Judges for Stalling—Valentine Replaced Him.

At Toledo, O.—The fourth day of Grand Circuit racing yesterday was featured by a continuation of sensational speed over the new mile track. In the Port Mails \$5000 stakes, for 2 1/2 pacers, McMahon drove Peter Look, a Peter the Great five-year-old, a mile in 2:01 1/2 (a new record for the horse). After taking the first heat, Peter Look could not come back in the next two, Verlie Patchen, driven by Cox, taking both. The McMahon horses won the fourth heat, and when the remaining pair came out for the final three-in-five heat the judges decided Cox was not trying to win and took him down, Valentine, who had won third money with Un, but had to go to the barn at the end of the fourth heat, was placed on Cox's sulky, and won the heat in 2:06. The judges gave Valentine \$100 for winning the race. The judges also fined Driver Sturgeon for violation of the scoring rules in the second heat of the 2 1/2 pace. Einland, a heavy favorite, won the 2:09 trot, with Murphy taking second money with Kelly DeForest. The favorite also came thru in the 2:08 pace, when Lee Grand, driven by Sturgeon, took the lead. The second division of the 2:15 trot, on the program for today, was postponed until tomorrow, because of the other events. Tomorrow is get-away day. 2:09 trot, purse \$1000: Einland (Hedrick) . . . 1 1 1 Kelly DeForest (Murphy) . . . 2 2 2 Opera Express (Fleming) . . . 4 3 3 Legal W. (Cox) . . . 5 4 4 Glenwood B. But that we meant that no one feature was better than any other—and none less efficient or effective. Uniformity is the outstanding quality of Maxwell design and construction. Apropos that, we are frequently asked what particular detail of the motor is responsible for the tremendous mileage per gallon of gasoline obtained by Maxwell owners. If you ask an owner he will almost invariably give the carburetor most of the credit. Now, obviously the carburetor must be a good one. If it were not, it would prevent, even if it did not accomplish the result. But a good carburetor does not make a good motor car—nor an efficient mixing valve alone an efficient motor. The factors that made that famous "Non-Stop" record possible, and the test in which 3,000 owner-driven Maxwell Motor Cars averaged 35.2 miles per gallon of gasoline—were many. Every detail of motor design had to be right—every proportion just right in relation to every other one. Piston displacement, valve dimensions and valve lift, compression, balance—everything in precise ratio and correct relation to every other detail. 'Twould require a volume to tell how Maxwell engineers achieved that splendid result. Just as it required long years of practical manufacturing experience to know how. Of course the carburetor helps—but equally so does the electrical system. By the way, if this were the kind of motor car in which any one feature stood out above others, we would emphasize that electrical system. But it isn't. Maxwell results are uniform. Those results are the product of a combination of many features—not of one or two only. Similarly, if one owner achieved a sensational mileage or a high degree of reliability, that would prove nothing. That happens with all makes of cars—the poorest included. But for 3,000 owners to average 35.2 miles per gallon of gasoline; For the same model to run 22,022 miles—44 consecutive days and nights without stopping—that car must be a Maxwell.

FIRE DOES DAMAGE TO SCYTHES & CO.

Fire of unknown origin broke out last night in the premises occupied by Scythes & Company, tent and tarpaulin manufacturers at 18 Church street, and caused a damage of approximately \$1200.

The alarm was rung in at 7:25 p.m. by Watchman Louis Viogt, who had

discovered the fire while making his rounds. The fire had started in the basement in a pile of oakum, and when the firemen arrived they were hindered by the dense smoke which emanated from rags with which the cellar was stored. Several firemen were slightly overcome by the fumes. The damage to the building was caused principally by smoke, as the firemen kept the fire in the corner where it started.

Deputy Chief Russell, who was in command, attributed the cause of the fire to spontaneous combustion. He stated that it was lucky the fire was discovered in time or a serious blaze might have resulted.

When interviewed last night F. S. Bush, secretary-treasurer of the Scythes Company, placed the damage at \$1200, \$1000 to the stock and \$200 to the building. The entire loss is covered by insurance.

While proceeding to the fire the aerial truck from headquarters broke axle and collided with a post at Bay and Adelaide streets. None of the crew was injured.

DROWNING ACCIDENT NOT DUE TO DREDGING

E. L. Cousins, chief engineer for the harbor board, denies that the drowning of Mrs. Layland and her young daughter at Centre Island was due to dredging, a fact implied at the inquest.

He stated that when the commission took over the harbor in 1912 the depth of the channel which sloped abruptly from the shore, was from six to ten feet. The opinion was that the condition should be remedied and the channel dredged in the centre of Long Pond from 120 to 150 feet south of the north shore.

The dredged sand was put along the shore where the old channel had been for a distance of 1700 feet, but it was never intended to make a bathing beach.

SOCIETY

CONDUCTED BY MRS. EDMUND PHILLIPS

H. R. H. the Princess Mary has followed the example of her cousin, Princess Arthur of Connaught, and is working at the Children's Hospital, Great Ormond street, London, two mornings a week. By special desire of the princess and her majesty, no concessions to the rank of the young nurse are made, and she tends and washes and dresses the babies and looks after the older children under the supervision of the sisters and nurses exactly like the other probationers. Her royal highness did not enter the hospital entirely unskilled, for she holds high certificates for proficiency in first aid and home nursing gained during a course of instruction given at Buckingham Palace last year by Sir James Canthos to her and twenty-four other girls.

Sir William Hearst will be in town from Muskoka for the week-end at the end of the Great War Veterans at the Royal Alexandra. Colonel Bickford and the allied consuls will also be present.

Hon. G. Howard Ferguson and Mrs. Ferguson returned to town on Thursday from the north, and left last night for their house at Kempsville. Next week Mr. Ferguson is leaving on a fishing excursion in Muskoka.

Sir William Mackenzie returns from Ottawa today, and will spend the week-end at Kirkfield.

The commanding officer of the 48th Highlanders on behalf of the regiment, has issued invitations to a picnic and games at Woodbine Park this afternoon at 2 o'clock.

The 20th Battalion, in recent successful raid, won 18 medals, namely, Major Musgrove, the D.S.O.; Mr. Boehm and Mr. Macdonald, the M.C.; Sgt. Shaw, the D.C.M.; and 15 others went to the rank and file, which seems a fairly good record for one battalion.

Mr. Vere Brown is in town from Winnipeg for a few days.

Mr. and Mrs. John Cartwright leave town on Wednesday for their cottage near Huntsville for the summer.

A cable has been received by Mrs. Jacobs, Grenville street, announcing the safe arrival of her son, Mr. Arthur Jacobs, overseas with some of the O.T.C. men.

Mr. and Mrs. Stearns Hicks are enjoying the lake breezes at a cottage they have taken for the summer on the Etobicoke.

Captain J. Ernest Proctor, Mr. Geo. W. Howland, Mr. Sterling Deane and Mr. George Nell left yesterday to motor to Southampton.

The engagement is announced of L. Patricia, daughter of Mr. and Mrs. Joseph Horton, Birmingham, England, to Mr. Frank E. Beatty, son of Rear Admiral and Mrs. Beattie, Washington.

WAR VETERANS

DISCUSSES PENSIONS WITH G.W.V.A. OFFICIALS

Major E. E. Buchanan, traveling representative of the board of pensions, met the secretaries of the G. W. V. A. in conference yesterday afternoon, and explained to them that the apparent injustice in the pensions scheme generally was due to the lack of scope of the Pensions Act. There was a number of cases, he said, which he would take up with the G. W. V. A., such as the Tarrington case. He stated that his board was in possession of more facts relative to the medical history of the returned soldiers than the soldiers' associations. This, he said, had been proved in the Tarrington case. However, it was because the pensions board desired to do full justice to the cause of the returned soldiers that he had decided to deal thru the G. W. V. A. alone in all matters concerning returned soldiers in Canada. Co-operation between the board and the returned soldiers, he said, was the great need of the moment, and the only way to meet that phase of the situation was to deal with their representative organizations.

NO PROVISION MADE FOR WAR VETERANS

G. V. Gustar, secretary of the West Toronto branch of the G. W. V. A., stated last night that he was more than surprised at the terms of the housing scheme as recently outlined by Sir William Hearst. "No mention of us returned soldiers was made in that report," declared the secretary. "The authorities have apparently forgotten that we people are still alive and kicking."

BETTER CO-OPERATION.

J. V. Conroy, district secretary of the G. W. V. A., for Toronto, stated yesterday afternoon that the conference between the association secre-

WOMAN IS ARRESTED ON CHARGE OF THEFT

After an extensive shoplifting campaign, said to have extended over a lengthy period, Mamie Albert, aged 24, 30 Huron st., was arrested by officers of the detective department in the Robert Simpson Company's store yesterday.

It is alleged that the woman has taken goods to the value of \$500 in a short time. Some of the material found in her rooms was solid silverware, silver cigarette cases, lavalliers, tie pins, several watches, hand bags, and two silk dresses valued at \$85 each.

FULL ORGANIZATION SOON.

The airplane woodworkers will hold a mass meeting on Sunday to discuss general organization and other matters of interest. John Costam, secretary of the district council of the United

Brotherhood of Carpenters, stated yesterday afternoon that the woodworkers would be a hundred per cent organized within the next six weeks. The new organization will number about 400 men.

MEET AGAIN TO HEAR REPORTS

Carrier Carriers Meet Tonight
When Delegates Will
Speak.

SOME NOT SATISFIED

Would Not Be Surprised if
Work Stopped on
Monday.

The letter carriers are to meet this evening at eight o'clock at the Labor Temple to receive reports from the delegates to Ottawa, who had advised the men to resume work, following a conference they had held with the postmaster-general and members of the Dominion Government. After the meeting has received the reports it will consider what action should be taken relative to the findings of the delegation.

The men interviewed yesterday from among the file of the association expressed themselves as dissatisfied with the result of the conference at Ottawa, and a number of the men stated that it would not surprise them if the postal clerks as well as the letter carriers might be absent from work on Monday morning.

They pointed to the fact that all the carriers west of Winnipeg were out with the exception of the Edmonton men. There was no sign of allowance which had been promised by the government and there was apparently no assurance from the government that their grievances would really be removed.

Without Authority.
Alec McMorris, federated secretary of the Letter Carriers' Association, stated that the western provinces were now acting without authority from him and that the centre of the trouble in the provinces had shifted from federal headquarters to Winnipeg. He referred to a statement said to have emanated from Postmaster-General Blonfin that the temporary men were to receive a bonus of \$100. If this statement was really made by the postmaster-general it was at variance with the statement given out by Col. Blonfin to the Toronto delegation. The postmaster-general had promised a \$150 bonus and the government would be said to be living up to its agreement if it was true that the temporary men were to receive only a hundred dollars.

Mr. Lemon, postmaster at Toronto, stated that the advice received from the government within the past few days were that the postal force would receive a bonus of \$150 and that the widowers and all men with dependents would be sent a cheque for this amount at the earliest moment. Mr. Lemon himself stated that he had not received these cheques yet, but would expect that they were given out immediately upon their receipt.

WILLS PROBATED

John Hargrave, who died July 10, left an estate valued at \$21,644.26. The will provides for his three sons, each getting one-quarter share, each getting one-quarter share, each getting one-eighth share. His daughter Margaret gets the household goods, and the remainder is divided among the five members of his family.

The estate of Pte. John W. Downey, who was killed in action November 12, goes to his mother, Mrs. M. J. Downey, 41 Huntmead road. His estate is valued at \$1,691.52.

The estate of Mrs. L. M. Ray, who died July 5, leaves \$402.22 in the hands of her husband, Wm. H. Ray, and her son, Howard R. Ray.

The estate of Chas. H. Bragg, York township, who died January 21, will be inherited by his widow and four children. The estate is valued at \$475.

Two sons, Alex. and Hugh, and two daughters, Margaret and Isabella, will be equally in the estate of John Rose, who died November 10, 1911, leaving \$358.25 cash.

The estate of Catherine Morrison, who died June 27, will be divided among three sons and one daughter. It is valued at \$79.87.

BUILDING PERMITS.

The following permits were issued yesterday by the city of Toronto: W. J. Keans, for an apartment house on Elm-wood avenue, \$55,000; H. J. Hamilton, for one pair semi-detached dwellings on Scarborough road, \$6,200; Mrs. M. Davies, one detached brick dwelling at 21 Erskine avenue, \$2,500; James Smith, one pair semi-detached dwellings on Weston road, \$2,900.

REPORT ON HOUSING.

Ald. McEwen, chairman of the property committee, yesterday issued the following notice: "Acting under the authority of the committee on property, I have appointed the following members as a sub-committee of the said committee to consider and report upon the whole problem of the housing question, viz.: Ald. Flewman (convenor), and Aldermen Ramsden, Gibbons, Cowan and Ball."

SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are the prevalent ailments. Any of these troubles may prove deadly if not promptly treated. During the summer the mother's best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams Medicine Company, Brockville, Ont.

Y.M.C.A. OPENS AT CAMP BORDEN

Toronto Artists Give Concert
to Royal Air Force in
Association Tent.

The formal opening of the Y.M.C.A. work in connection with the Royal Air Force at Camp Borden took place last night, when a splendid concert was put on by visiting Toronto artists, assisted by the R.A.F. orchestra under the able leadership of E. F. Blair.

The concert was given in the association tent, which was opened by Major J. S. Scott, officer commanding 44th Wing. The big Y.M.C.A. tent was packed, and as far outside as could be seen the boys were gathered to hear the treat. H. A. Fricker, conductor of Mendelssohn Choir, acted as accompanist for the evening. Songs were given by Miss Winifred Hicks-Lynde and Mrs. Martin Perry; readings by S. J. Lugsdin; and cello selections by Boris Hambourg. Solos were also given by Lieut. Campbell McInnes, one of the instructors of the camp.

W. H. Scott, of the Y.M.C.A., spoke a few words regarding the new milestone passed by the association when the R.A.F. at Camp Borden opened its doors to the "Y"—the first place in the Air Force in Canada to admit the Y.M.C.A. Capt. J. Vipond, on behalf of the chaplain service, welcomed the Y.M.C.A. to the camp, and said there was nothing in the best spirit existed by the association when the chaplain service in Camp Borden. Capt. Cannon expressed the same feeling and said he wished he could attract as large a crowd to church on Sunday.

Lieut. Campbell McInnes, who made such a wonderful impression on his audience, is a warm personal friend of Sir Edward Grey, who also appreciated his music. During the early stages of the war, when the pressure of state affairs worried the great man, he would sit quietly while Mr. McInnes sang to him, and then go back to his arduous duties rested in mind.

After hearing Mr. McInnes last night, everyone understood the marvelous effect his wonderful baritone could have. One very beautiful selection was his song, "To Mary," which cello obligato by Boris Hambourg.

The men of the force showed their appreciation of the evening's entertainment, and on all sides was heard the hope that it would not be the last of its kind. The opening augured well for the work of the Y.M.C.A. at Camp Borden.

WILL CARRY CASES HIGHER.

Gordon Waldron has declared his intention of appealing to the court on appeals, and, if necessary, to the supreme court, against the decision reached by Sir William Mulock who dismissed his application for writs of habeas corpus. If the matter is carried to the supreme court, said Mr. Waldron, he will, of course, ask it to reconsider its recent decision. Mr. Waldron had fifty-one applications before Sir William Mulock.

APPLICATIONS REFUSED

Fifty-Five Do Not Get Exemption,
But Twenty-Nine Do.

Toronto's exemption tribunals yesterday granted 29 men periods of exemption from military service and refused the applications for exemption filed by 55 others. At the tribunal presided over by Mr. Justice Maestri, a large number of men below medical category "B" were brought before the judge for rehearing of their cases. The cases were disposed of quickly. The judge's decision was "disallowed, subject to medical examination." The idea in bringing the cases of these men up seems to be to find out if the physical condition of men in the categories below "B" has improved since they were last examined.

BIG EATERS GET KIDNEY TROUBLE

Take Salts at First Sign of
Bladder Irritation or
Backache.

The American men and women must guard constantly against kidney trouble, because we eat too much and our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health. When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then be free. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to dissolve and flush out the clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder unction. It is so simple, so safe, so effective, cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home because it cannot make a mistake by having a good kidney flushing any time.

WE do not believe that most motorists can purchase a more widely useful or satisfactory car than the present Gray-Dort.

The larger improved motor supplies surprising power and speed. The swift leap from mere loafing to top speed compares favorably with cars of multiple-cylinders. The ease with which hills are overcome; the flexibility in traffic; the smooth and quiet flow of power; all mark a motor of unusual merit. Yet the gasoline consumption is low. Even the low-grade gasoline of to-day. A larger radiator and water system keeps the Gray-Dort motor "on the job" all the time. The carburetor is of improved type. The crankshaft is heavy and balanced. The fan is bigger and better. The Gray-Dort motor is the final accomplishment in 4-cylinder construction—the ultimate in flexibility, noiselessness, accessibility and ample power. As for appearance—we ask you to see the car. See the higher radiator, the double-curved fenders, the khaki-lined top, the wider wind-shield, the Gray-Dort green finish, the Trifocal reflectors. The new Gray-Dort embodies all these improvements with all the good features that won instant success for former models. The 4-cylinder motor is a triumph of smooth, economical speed and power. The chassis is sturdy and quiet. The springs are long. The upholstery is deep. The equipment is absolutely complete from electric starting and lighting to the tools. New lines of beauty have been given this model. The five-passenger touring car is \$1195; the three-passenger fleur-de-lys roadster is \$1050; the Gray-Dort special, beautifully finished and with extra details of equipment, is \$125 above the list. Optional With Millers in Case
of Certain Stock
Feeds.
The continual advance in the price of certain basic kinds of feed for cattle has compelled the feed section of the agricultural branch of the organization of resources committee to make some changes in the composition of the standard feeds as had first been decided upon. At a meeting held yesterday afternoon in the office of C. F. Bailey, assistant deputy minister of agriculture, it was decided that in view of the ever increasing cost of gluten feed, it would not seem profitable to have it become part of the standard cattle feed but it was left optional for millers to use it if they wished in producing the standard feeds.
The quantity of oil cake, cotton seed, and similar material is to be reduced from 64 per cent. to 48 per cent, but not more than 20 per cent. of the standard feed must be composed of cotton seed meal. The protein content of the standard feed is to be reduced from 24 to 22 per cent. Although these changes do not materially affect the feeding value of the standard feeds, they will result in a substantial reduction in their cost to the farmer and breeder.
As regards the standard hog feed, it has previously been insisted upon that it contain 20 per cent of wheat or rye shorts, but in view of the difficulty in securing them it will now be permitted to use 50 per cent. of finely ground bran in the standard hog feed.
The analysis of the feed will remain the same as before: 16 per cent. protein, 4.5 per cent. fat, and not more than 6 per cent. of fibre.

ESCAPE THE CITY HEAT.

Today will be the last day for seeing our own home-town boy, Bert Lytell, the eminent and athletic screen star, in the splendid Metro photodrama, "The Trail to Yesterday," at the Grand Theatre. For the first half of next week the attraction will be one of the most soul-stirring melodramas that the screen has ever known, a supreme and superb William Fox production, entitled "Cheating the Public." The story is a powerfully dramatic one of business brutality and ruthlessness. Intertwined with it is a scathing exposure of child labor conditions and of the hearse operations of a food profiteer. The picture is exceptionally rich in striking and startling, and realistic contrasts of great poverty and great wealth, of man's greed and woman's selfishness, co-existing side by side. Enid Markey and Ralph Lewis are the stars of this production, which excels even the usual unapproachable standard of William Fox pictures.

Hippodrome Next Week.

William Fox's new photodrama, "Her One Mistake," with Gladys Brockwell, "the girl of a thousand faces," is announced for presentation next week at Shea's Hippodrome. Miss Brockwell first appears as a wealthy heiress, posing as a wealthy man. Subsequently this girl becomes engaged to the district attorney of her town, when the crook reappears—this time in court. Featuring the vaudeville will be Peppie and Greenwald's Song and Dance Revue, introducing a smart combination of entertainers. Another feature will introduce the Three Herbers Sisters, Toronto girls, in an offering, "Original Characters," upon Salmo in a sensational symphonic novelty brimful of thrills; Roy and Arthur, presenting "Fun in a Restaurant," a stand comedy feature; Louis London, the singing comedian with new parodies; Abrams and Johns, in an original comedy, "When a Restaurant," a stand comedy feature; complete an excellent list of attractions.

Loew's Next Week.

The theme of "Parthena," starring Norma Talmaidge, to be presented next week at Loew's Theatre and Winter Garden, is one calculated to hold the interest of all picture patrons. The story begins in Russia with a "specialist" taking from the net of the dreaded secret police, who have falsely accused her of being a revolutionist. As an added comedy man, Roscoe "Red" Arbuckle will be seen in his latest success, "Good-Night, Nurse." "Just Girls," a whirly-girly melange of song and dance specialties, featuring Estelle House, will headline the vaudeville. The Mahoney Bros. comical cut-ups, in smart foxy and grotesque leg-manias, are the added attraction. Harry La Vall and Sister, offering unique aerial specialties; Dorothy
