GERMAN ATTACKS FAIL

British Hold Five Miles of Former German Second Line.

WITH THE BRITISH ARMIES IN FRANCE, Aug. 5, via London, Aug. 6—Under a merciless concentration of shell fire the Australians are holding onto their gains today after their advance last night on a front of two miles. The Germans al-ready have delivered three powerful counter-attacks to retake the lost fround and all have failed.
In one of the counter-attacks the

Germans came forward holding up their hands and surrendered. Behind them the British guns placed curtains of fire thru which it was impossible for them to retreat while the Australian machine guns and rifles, mowing them down, made it hopeless to continue the charge.
A Brilliant Success.

Their last previous attack having been by the right flank, the British renewed the offensive by the left flank after a week of bombing and sapping Here the task fell to the Australians who added another victory to their brilliant record in the taking of Pozieres. In grilling heat, under a blazing sun, they had been working in a con-tinual shell fire, digging their new trenches in thte open beyond Pozieres facing the German second line trench es on the left of the break the British had already made in previous attacks was the of the remaining im portant positions on the high ground which has been so bitterly contested. All refining process will be spent in Canada, and apparently profits will come to Canadians that happen to own shares in this company, whereas now most of the profits of and most of the work in Interworkmen of that company in the United States, where most of the shares are held for Germany. Here is another letter, one of many received in the last day or two, from a citizen of a town within a hundred miles east of Toronto:

W. F. Maclean, M.P. Dear Sir: I see by The World that the government is going to do something about nickel; but it does not satisfy you, it does not satisfy me, and I do not think it will satisfy any true Canadian or any loyal British subject. Why doesn't the government do as Australia has done: take all the mines and minerals and keep them in Canada Canada and the empire? I am afraid that this International combine will find some way to smuggle the nickel out of the country. Why not refine it near the mines, anywhere north of Toronto? There are plenty of railroads. I am afraid there are too many grafters in Canada, traitors as bad as Sir Roger Casement, and they deserve the same fate. I hope you will have health and strength to continue the good work.

And referring for a moment to what we touched on last week, namely, that of the export of our asbestos to the United States, we reprint another item from The Financial Times of Montreal of Satur-International Co. and is only bound to

day on this very subject: Now that the question of refining Canadian nickel in Canada has been settled it is to be hoped that immediate steps will be taken to follow this course in regard to refining asbestos products in the Province of Quebec. A tremendous industry is going to waste, so far as Canada is concerned, by the wanton export of Quebec raw fibre to foreign countries. The Province of Quebec can secure for its "interior ny" a sum approximating over \$60,000,000 in excess of the present returns by prohibiting the export of the raw material. It will mean much to the general trade position of the province, by way of increased pay rolls and greater buying power to the extent of over one million dollars per week. What they are doing in Quebec in regard to asbestos they have been doing in Ontario in regard to nickel; but thanks to Providence and the attitude of a few papers in Canada and a few members of parliament, 'all that will be changed. It appears that the German troops had orders to hold the high Their Majesties May Come to ground northwest of Pozieres at all costs and they were greatly surprised, according to press correspondents, when the Australians took the whole of the position in one attack. The enemy threw a terrific curtain of fire behind it to cut off the Australians, and 600 Germans, taken prisoners, suffered severely from the shells of their own guns, as they were being passed out thru this barrage. A Ger- visit of the King and Queen to Canada man ruse to regain the position by feigning surrender did not work. for when the Teutons came forward with their hands up British artillery threw a barrage behind them and the Australian machine guns gratitude at the magnificent assistance did the rest of the deadly work with them.

counter-attack of Australian mounted troops after the men had retired and

drawn the Turks among sand dunes. The Turks broke and fled at dawn

on Saturday and by 6 o'clock in the evening 2500 had been captured, with

four mountain guns and a number of machine guns. Praise is given the

Australian, New Zealand and territorial troops for their excellent be-

havior. The Royal Flying Corps also distinguished itself in recording

the movements of the enemy. The Turks were well provided with heavy

German troops on the road to Lemberg by crossing the Sereth and Graberka

Rivers, south of Brody, capturing six fortified villages and the interven-

ing heights and making more than 5500 prisoners, with 140 officers. The

fighting was stubborn and desperate and it lasted for a day. The enemy

took refuge in woods to the west of the ridge and sallied out of them in

no fewer than nine counter-attacks. These were all beaten off with

severe losses to the Austrians. The Russians also repulsed attacks of the

Teutons south of Delatyn on the Pruth River, bringing the enemy to a

standstill by their fire. In the German official communication of yester

day, it is admitted that Russians have captured the west bank of the Sereth

Zarecz, on the Stokhod River in southern Volhynia. German troops have

tions in Galicia and volhynia it is to be expected that he will now make

a desperate stand. At any rate the Germans will act more energetically under Von Hindenburg, but it will suit the allies well if they choose to dash

themselves to pieces against the Russian defence. Von Hindenburg will

find conditions much different from those prevailing in the eastern theatre

of the war a year ago. The Russians still have abundance of ammuni-

tion, as contrasted with their munitions famine of a year ago, and the

courage and dash and morale of their men have been increased by their

Germans in the Verdun region the past two days. They fought valiantly

on Saturday against two powerful Teutonic attacks on the Vaux-le-Chapitre

wood line. The first essay of the enemy was completely repulsed. It re-

quired a counter-attack effectively to dispose of the other. The French

then enlarged the territory recently gained in the vicinity of the Thiau-

mont work and repulsed a counter-attack. Sunday was marked by a

violent bombardment. In the process of increasing their pressure on the

foe on the Somme front the French made some progress in trenches north-

west of Estrees. In the air Joffre's airmen won successes, bringing down

three German machines and paying surprise nocturnal visits to hostile

counter-offensive against the Italians by launching many fierce attacks in

the Sugana and upper Cordevole Valleys. These were all repulsed by

the Italian infantry. The enemy has also opened violent bombardments

of the Italian line on the front between the Adige and the upper Isonzo

and the Italian artillery has effectively replied to these hostile blasts in

OFFICERS' MEETING

wo Hundred and Twentieth Received Encouraging Reports.

Fourteen recruits were added to the various units now recruiting in the city as a result of the efforts of the various recruiting officers, on Saturday. Twenty-one signified their willingness of becoming attached, but seven of these were unable to pass the medical test and were, therefore, not accepted. A smaller percentage than usual was rejected. The recruiting depot will be closed today on account of the holiday. The recruits were divided among the various units as follows: 166th 1, 208th 1, 238th 4, No. 1 Construction 1, 69th Battery 2, University Training Company 1.

The weekly meeting of the officers of the 220th Overseas Battalion was held yesterday afternoon at St. Paul's Hall, 860 Yonge street, and was attended by tewnty-five officers of the battalion, with Lieut-Col. B. H. Brown, O.C., presiding.

Got Husky Axman.

The best aximan probably in the entire world joined the ranks of the 238th Forestry Battalion yesterday, in the person of Arthur Marsh, a husky Canadian, born near Goderich some 36 years ago. Marsh a few years ago, on account of his proficiency with the ax. was offered a position with the "Athletic Australian Axmen," a youngdwille act of four people, who toured ville act of four people, who toured the United States and Canada extenthe United States and Canada extensively, giving performances of remarkable feats with ax and cross-cut saw. Recently Marsh returned home as the three other men had joined the colors. He, too, was intensely patriotic, but was unfortunately slightly shorter in one leg than the other, a deformity suffered from birth, which resulted in his being refused by the regular forces. Then, in one of the Toronto papers, he read of the 288th Forestry Battalion and its proposed work overseas in cutting its proposed work overseas in cutting down the forests of England. Immediately he wired Lieut, H. S. Price, informing him of his abilities and received ed a rush order to come ahead.

HELD BY THE DUTCH

Allowed to Visit Toronto or Promise He Would Return to Holland.

Flight Sub-Lieut. J. Errol Boyd of 121 Bedford road, arrived in Toronto yesterday. Iseut. Boyd, who has been interned in Holland for the past eight months, was allowed leave to visit his home here for a short time on giving his promise to be back in Holland by the 20th of September. It was in October, while he was flying above the German lines at Zeebrugge, that his machine was disabled, being hit five times, and he was forced to descend, alighting within the Dutch borders, 200 yards from the German trenches. He was interned in a Dutch fort till Christimas, when the British Government made arrangements for his being allowed out on parole and pledged his return to Holland if he should escape to England. He was allowed home on short leave owing to the illness of his mother, but gave his promise to be back by Sept. 20, altho it is possible that the time may be extended.

Capt. Horace B. Wild to Describe Amazing Experiences at Front.

PRAISES CANADIANS

They Are Best Fighters in the Campaign-Witnessed German Outrages.

If Capt. Horace B. Wild's series of war pictures, which are to be shewn at Hanlan's Point, reflect in any way the amazing experiences he had been thru, Toronto Island won't be big hold the crowds Since the outbreak of war Capt. Since the outbreak of war Capt. Wild has practically done nothing but wander the European war zone and secure pictures of the most wonderful of the scenes which confronted him. And the whole collection is to be

thrown on the screen at Hanlan's for the Toronto public to see.

Capt. Wild is an aerial traveloguist. As an aviator he has a world wide reputation. He is an American army aviator and a master pilot. He was the first man to fly over Chicago, and in 1908 he left Chicago in a balloon, passed over the great lakes and Toronto and in a little over 43 hours landed at Wightshields Loke MR ed at Kiskiskisike Lake, N.B., a dis-

tance of 1186 miles.

How Zeppelins Work. As an expert aviator Capt. Wild's opinions of the zeppelin raids on England are especially interesting. In effect he believes the German zeppelinists have been outwitting the English gunners, but that the authorities have now got on to the methods used. "The zeppelins swing around the North Sea," he said, "cut down over the PTE. THOMAS SMITH English coasts and complete the circle in their homeward trip. This system has been to have two or three ships draw the searchlights and gun fire while others carry out their grim heavy over the English coasts. The man who throws the bombs is sus-pended 1500 feet below the ship, and under the mist. By means of a telephone he communicates the direction in which he wishes to be taken.' Capt. Wild saw one of the big raids when ten zeppelins took part. Their bombs, he said, blew holes in the pavements big enough to drop street ten millions of dollars and 558 people

lost their lives. Capt. Wild carries a German dart, which passed right thru the body of a British soldier. He had to to the fighting line, but the informaion he secured made it worth while The Canadians, he says, are the best fighters over there. He saw a buttaion driven into a gap and fight ten times their number till the last man He has seen German outrages which outstrip anything even in the Bryce report.

BUSH FIRES IN YORK.

Serious. A number of bush fires of more less seriousness are burning in dif-ferent parts of the county, the worst of these being in the marsh lands around Queensville, where thousands of tons of hay are annually cut. Last night the fires were said to be spreading and a number of men were detailed to keep close watch. In former years a good deal of damage has taken place from fires, but not in years have the marsh lands around the lake been as dry as now.

Store Remains Closed All Day To-day, Civic Holiday

Beginning the Second Week of the Great August Sales of Furniture and House Furnishings With the Offering of More Remarkable Bargains Than Ever

About 20 carloads of brand new furniture have arrived to augment the already extensive display of furniture shown on the immense four floors of the Furniture Building. If you could see behind the scenes and note the gigantic scale which these sales have assumed you would no doubt be amazed. The arrival of carloads of furniture—some belated—the tracing—the finding—the carting—the crowded, busy receiving rooms, where the massive crates and cases are unpacked, the marking—the putting forward of the samples and the storing of the Re-finished great reserve stock makes this place a hive of industry and activity that's almost thrilling.

The four extensive floors filled to capacity with furniture affords an exhibition in itself, for it's probably the largest collection of furniture displayed under one roof in America. Add to this the facts that every piece is made in Canada, which to-day is a very high recommend for quality, and is offered at prices, which, with few exceptions are lower than a year ago, in spite of the advances in cost of materials and making; all of which makes the August sales of furniture a source of the utmost interest as well as the great money-saving occasion for the purchase of furniture of all kinds from the kitchen to the nursery. These items featured for Tuesday give a suggestion of the bargains

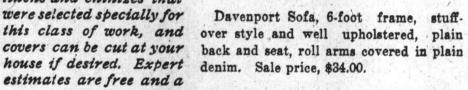

This will stand out as one of the most notable purchases of the whole sale, for it's a high-grade make of furniture, and formerly we have not been able to secure it at less than the list prices. But this season through unusual circumstances we secured a carload lot and offer it at half-price Tuesday.

The Louis XVI. Suite is a splendid example of high-grade cabinet making, and is made with Circassian walnut facings. The dresser has 48-inch top, 40-inch mirror, 5 drawers. Dust proof construction throughout, that is—each drawer slides into a cabinet of its own. Halfprice. Tuesday, \$38.00.

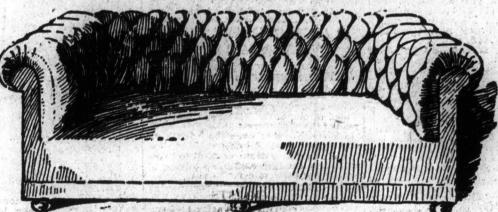

Handsome four poster bedstead. Half price, \$32.50. Toilet Table, half-price, \$21.00. Chiffonier, with mirror and seven drawers. Half-price, \$35.00. The Colonial design is also in Circassian walnut. The bedstead has large roll top and foot. Half-price, \$37.00. Dresser has 52-inch top and 40-inch plate mirror. Half-price, \$55.00. Chiffonier, same design, half-price, \$50.00, Toilet Table, with triplicate mirrors. Half-price, \$35.00.

Ann Pennington, the celebrated little star, who for three seasons kept Broadway clamoring for admission to the Follies, where she was dancing, will make her screen debut at the Madison Theatre this evening. Known all over the continent as a dancer and comedienne, Miss Penning ton has been wisely starred in a play which is a story of musical comedy life. "Susie Snowflake" is the name of her vehicle and in it she takes the part of a young actress who, stranded and broke, appeals to her spinster aunts for a "hangout." These same aunts have some quite terrible opinions of the stage, and to say the least Susie's efforts to be pleasant do not in any way ameliorate their enmity. It is a play full of sparkling humor now and then a touch of pathos. The usual comedy and travel features will. balance off the program.

BRILLIANT OFFENSIVE.

PARIS, Aug. 6.—A despatch to La Liberte, dated north of France, says:

"The latest British advance north of Pozieres was the result of a brilliant offensive begun on the night of Aug. 4-5, after an artillery proparation of great efficacy. Since the Australians captured Pozieres, the enemy has not ceased his furious counterattacks against the village, in the outskirts of which he had succeeded in keeping some ground.

"The British commander resolved on Friday to clear the village by taking the principal supports of the second line of the German defence, made up of a series of small works extending from Bapaume road to that of Thiepval, on a front of about three kilometres.

one of the attacks, by the use of liquid fire, he temporarily forced us back along one of the trenches we had captured, but later we recovered all but some forty yards of the ground thus lost.

"In the other attack the enemy was repulsed with loss. In the afternoor we made some progress along the trenches east of Pozieres, in the direction of Martinpuich. Considerable artillery activity was reported near Carenchy and Loos.

"Began at Daybreak.

"The bombardment began about daybreak and continued unceasingly until night. It destroyed the defenses, leveled entrenchments and rendered shelters uninhabitable. At 11 o'clck a night, the work of the artillery having been deemed sufficient, the order to attack was passed along to the units grouped in the Village of Pozieres. While the Surrey and Kent troops pushed on in an assault against the Began at Daybreak tion of Martinpuich. Considerable artillery activity was reported near Carenchy and Loos.

"South of St. Eloi we raided enemy trenches, causing many casualties.

"The improved weather enabled useful work by our artillery in connection with the aeroplanes, and we destroyed several gun emplacements."

In fighting along the Somme front in northern France last night, the British made an additional slight advance at High Wood, according to the official announcement this afternoon.

"The Germans actively shelled various portions of the front during the night, says the statement which follows:

"The enemy's artillery was active during the night, shelling various areas on and behind the front between the Ancre and the Somme. A little further progress was made by us at High Wood.

"Northeast of Arras the enemy application of Marting the night, shelling various areas on and behind the front between the Ancre and the Somme. A little further progress was made by us at High Wood.

on's City Sale

T is exactly 82 years since Toronto was born—and on Tuesday we are going to celebrate her 82nd anniversary. Such growth and such progress in so short a time makes us justly proud of our city—and we enter upon the celebration of our Civic Holiday with confidence in having a still greater and better Toronto to pay tribute to with each succeeding year.

DUT it is not only the City of Toronto as a community that has made such noteworthy progress. Individual firms have also achieved much in the space of a few years—and Simpson's is an outstanding example of great accomplishments. From the humblest beginning this great institution has become a tremendous factor in the life of Toronto and that of her citizens. Conscientious service, courtesy, good merchandise fairly priced, and an unfailing desire to please are the basic reasons for this Store's great success—and to join the citizens of Toronto in the celebration of our City's 82nd anniversary we will have a City Sale on Tuesday, in which the above features will be emphasized as usual—but the values offered will be much greater than usual. These Sale announcements will be very brief.

MONDAY MORNING, AUGUST 7.

A Holiday Thought

While we are taking our holiday today it will be wise for us to remember that in England the workers agreed to give up their August holiday, and the bank holiday, St. Lubbock's Day. This first Monday of the month has been called off by government proclamation, So great is the hazard still and so narrow the margin between victory and defeat that the output of munitions for one holiday period might make all the for the entente allies. People have been accustomed to talk of the iniquity of Nero fiddling while Rome burned. There are probably few who have resorted to the phrase who ever expected to adopt the principle themselves. And yet this is what all the people in authority, from King George down, thru Premier Asquith, Mr. Lloyd George. all the way down to the recruiting sergeant and the returned soldier inviting street, are trying to tell us, if we will only listen. In the oppressively sultry weather which we have had for weeks past and which will probably last until the oppressive sultry will represent a subjection to prohibition if the people. Mr. Winberg says he has no past and which will probably last until declare for that rolling at a publication. the Exhibition breaks the spell, a holiday will do no harm to anyone in Ontario, and perhaps we shall work all the harder and listen to the recruiting sergeant more yieldingly after the contrast of a holiday here with the labor of the trenches and the munition factories overseas. It is not easy for most of us to appreciate the fact that we are living in a great historical age which will be talked about, if the race survives so long, in long centuries hence as we talk now about the Mahabarata and the Iliad and the wars of later Greece and Rome, with the difference that this war is beyond them sergeant more yieldingly after the conference that this war is beyond them

20th inst. At the same time across the river the tax reformers of the United States are to hold a similar convention, and it is probable that there will be a good deal of fraternizing. The convention promises to be one of the most important events of the kind that have yet been held in Canada, and there are to be many prominent advocates of tax reform under its many guises present, and of course the single tax associations which supplies the shool issue. But it is hard to see how that issue can cut much figure in the coming campaign. Mr. Winberg, for example, is outspoken in his opposition to bilingualism, and the Jewish people of Toronto have never asked for or desired separate schools. It can scarcely be claimed therefore that his election would give any encouragement to the extremists in Quebec or to those Liberais in Ontario who are inclined to daily with the school question. the single tax associations which sup- the school question. port the movement will be widely re-

would have more favorable prospects.

As between the desirable and the Niagara convention would address itself to persuading the Ontario Government to do something towards equalize the patchwork assessments on the Turks that exist all over the province, a great step might be made. The Assessment of the values. Toronto assesses 70 per cent, and rejoices in breaking the law. Political Intelligence

nesty and virtue.

The political pot is bubblingf in Southwest Toronto, and the indications are that no less than four candidates will go to the polls. Premier Hearst's recent statement makes it plain that James A. Norris, the Conservative nominee, is the straight out government candidate. Mr. Hearst says that Mr. Norris may have his own views on the liquor question, but that they will be subordinated to the general party policy. This, therefore, makes the election of Mr. Norris a vote of confidence in the Hearst government.

Whitney and Hearst Conservatives.

The fate of the race is wrapt up in it, and what is more, the fate of the vital principles of the race, the honor and truth, and virtue, and justice, and freedom of the race. These are good ideas to take away with us for the holiday, and we may bring back, after thinking over them, a deeper sense of responsibility and personal relationship to the problems and duties of the war than we have yet been able to feel.

A Tax Reform Convention

A tax reform convention is to be held at Niagara Falls on the 19th and 20th inst. The government has been hoping to carry Southwest Toronto by a strong ap-peal to the electorate on the bilingual school issue. But it is hard to see how

the single tax associations which support the movement will be widely represented. So little is single tax understood that many people are in the habit of referring to the real estate tax, known as land tax or site tax, as single tax, and by its success or otherwise judging the Henry George proposals. There is no such thing as single tax, it is well to remember, where any other tax of any kind is levied.

"Economic reconstruction our next duty" is announced as the slogan of the convention, and if any light can be thrown or any ideas evolved to assist the readjustment of social burdens after the war an important service will have been rendered. Practically the whole complaint about taxation is the inequality and, therefore, the inequity of the incidence.

Sir James Whitney used to protest, against what he called patchwork legislation in taxation, but the fact is that our whole system is a patchwork of the most irregular description. By variations in classication; by arbitrary methods of assessment; by exemptions; by distinctions between real property and personal property and necessary and by indirect methods; so many loopholes are creating developments in prospect, necessary learning to the real estate tax, known as land tax or site tax, known as land tax or site tax, as single tax, it is well to remember, where any other well as a property and personal property and necessary to the inequality of the incidence.

night, the Hon. G. Howard Ferguson was waited upon by a representative deputation of citizens, members of the town council and the board of trade. in reference to the proposed site of the International Nickel Works in Ontario Mayor McIlvenna, in his address, pointed out that the people of New Ontario desired to register a protest against erecting such an industry near to a foreign state to manufacture material of a seasoful to a seaso to a foreign state to manufacture material so essential to war munitions for the British Empire. He cited the wisdom of Sir Sam Hughes establishing an arsenal at Lindsay, it being a rather remote district from the boundary line. Other speakers then spoke, principally upon the completion of the French River improvements, as an absolute essential to the progress of northern Onsential to the progress of northern On-iario, and a strong sentiment was ex-pressed by the deputation that much needless delay was occasioned by the federal government to make North Bay a lake port. All the necessary surveys and preliminaries have been made to this end, and the assurance of the minister at that time was given sential to the progress of northern Onof the minister at that time was given

that there would be no delay in carry-ing out this prospect.

The deputation realized when at Toronto and now that the sole possible objection to the International Nickel Co. locating at this point was the lack of a lake port. The hon, gentleman was then asked as to what extent he, as minister of lands, forests and mines, was interested in the French waterway. It was stated that this work had not been diligently carried out as promised by the minister of

railways and canals. The Hon. Mr. Ferguson in his reply to the delegations, expressed the great pleasure it accorded him in meeting the deputation and to witness the interest taken by the citizens on these

two important questions.

No Final Decision. In regard to the nickel question he informed the deputation that no devision had yet been arrived at as to the site. Notwithstanding the various reports in the press, he understood that merely an option had been taken in certain properties at Port Colborne He recommended the deputation to continue their efforts, not alone as regarding the International, but also to the British American Company. In regard to the French River waterway, he minister was heartily in accord with the deputation and offered pay his own expenses to Ottawa to assist a North Bay deputation. He realized too much could not be said in favor of its completion, as it would be the means of creating a new centre of industries. In conclusion the Hon. gentleman gave out the information that he would not be surprised if the government took upon themselves the task of establishing customs smelters, would be a benefit to the small mine owners in this part of the country.

PRESBYTERIAN GENERAL AS-SEMBLY, WINNIPEG, MAN. JUNE, 1916.

During the last Presbyterian General Assembly at Winnipeg a number of delegates from the maritime provinces made their trip to Winnipeg via the Canadian Government railand the Transcontinental line. The couple fought bravely for their lives. Grand Trunk are now in receipt of a eulogistic letter from these delegates, fifty-two in number, which reads as follows:

reads as follows:

"The undersigned, commissioners meeting of the Eastern Townships Dairymen's Exchange, 10 factories offered 543 to the Presbyterian General Assembly at 31%c, and six factories at 31%c. at Winnipeg, and their accompanying friends from the maritime provinces hereby express their very great satisfaction with the conveniences and

comforts enjoyed by them during I their journey.

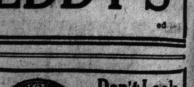

"The officials of the Transcontinental line, from the highest to the lowest, were not only faithful in the discharge of all their duties during this first excursion trip on their line from the Atlantic to Winnipeg, but they cheerfully did everything they possibly could to make the trip to be a long remembered one by all who long remembered one by all who

he can more than temporarily check the advance of the Russian forces upon Kovel. Lost One Village.

The Russians have succeeded (in consolidating all the positions they won in the recent battle between the Stokhod and Kovel except one village, which they were compelled to yield before a German counter-attack. Meantime the Russians by gaining control of the northern part of the Stokhod, where it crosses the Pinsk marshes, seemingly have effectively eliminated all danger of further flank attacks by the Germans, and are now in a position to continue their pro-

gress along the direct routes to Kovel without fear of the possible encircling of their right wing.

The second game in Section A. T. and D. League, at Varsity Stadium, was between Overseas-Hearts and Lancashire. Overseas turned out a very strong team, including Cater, their old inside right, while Lancashire could only muster tenmen, several of whom were reserves. Overseas won by 7 to 0. The teams lined up as follows:

Overseas-Hearts (7)—Galbraith, Robinson, Richardson, Acourt, Carter, Buchan, Valentine, Cater, Wilding, Armstrong, Norton.

Lancashire (0)—Johnson, Williams, Davidson, Duff, Sullivan, A. Robinson,

SHAMROCKS BEAT OTTAWA. MONTREAL, Aug. 5.—Shamrocks won their game in the N.L.U. series, 11 to 10 from Ottawa, thereby practically putting that club out of the running for the championship, which now comes down to Shamrocks and Nationals, both local clubs. The green shirts never were in danger.

The St. Catharines Athletics, failing to get a team together, the Riverdales had to go without a game Saturday. Fred Washorne's team are going to Campbellford for a friendly game today. The team will be: Dopp, E. Sullivan, Spring, Pherall, Ludgrove, Starling, J. Sullivan, O'Rourke, Tominson, Rowland, Godden.

MYSTERIOUS MEETINGS

poses have not been divulged, but the theory is that those of the athletes who have war time contracts that will run out this fall and who expect that alum will be sprinkled on the figures when the next signing is done are trying to-devise ways and means to keep the prices up. Of course, this only could be done thru the formation of another league. And, for the present, facts that came out about the Federal losses will prevent anybody from financing any independent league circuits.

One bit of Federal news that has just been divulged is interesting in connection with the talk of making plans to keep salaries up to their present grade. Vincent Campbell has sued Pat Powers, who was part owner of the Newark Club, for \$5.628.75, which he says is due him on a contract, that does not expire until the close of the 1916 season.

Baseball Deals

A special meeting of the National League to consider criticisms of umpiring made by Boston and other clubs will be held in New York next Wednesday. It is understood the attitude of several of the arbitrators will be the subject of protest and discussion. President Haughton said he would attend the meeting.

Louis Guesto, first baseman of the Portland team. Pacific Coast League, has been sold to the Clevaland Americans. Portland is to receive seven players and an amount of cash said to be about \$4000 for Guesto, it is said.

Nashville has obtained from the St. Louis American League Club McCabe, a pitcher, and Tobin, an outfielder, to report August 12. Lee, an outfielder, who has been playing ith Nashville, but who belongs to St. Louis, will be returned when the new men report.

WESTERN STARS BEATEN. FOREST HILLS, L.I. Aug. 5.—The eastern tennis stars completed the rout of the western racquet experts here this afternoon in the second half of the intersectional tennis tournament, winning two of the three matches played and the tournament by a score of six matches to one. The lone victory of the California stars was that in which William M. Johnston and Clarence Griffin, both of San Francisco, national doubles champions, defeated Frederick B. Alexander and Karl H. Behr of New York in three sets out of four, by scores of 7-5, 6-3, 2-6, 6-3.

R. Norris Williams, 2d, of Philadelphia, and George M. Church of Tenafly, N.J., evened the doubles score by defeating Willis E. Davis and Robert L. Murray of San Francisco in a sensational five-set match by scores of 6-8, 6-2, 1-6, 6-3.

Nathaniel W. Niles of Boston won the only singles match played today, defeating his youthful opponent, Roland Roberts of San Francisco, in straight sets, at 7-5, 6-3, 6-3.

Pct. 1,006 889 870 750 750 754 Make Good.

ST. LOUIS, Mo., Aug. 5.—President Ball of the St. Louis American League club today offered a bonus of \$5000 to the team if it went into first place for a day. He also offered a suit of clothes to every man on the team if it could get into the first division for three days.

DISMISSED THE PROTEST. BOSTON, Aug. 5.—The protest of the Boston Nationals against a decision of Umpire Eason in a game here with Chicago on July 25, which the Braves claimed cost them the contest, has been dismissed by President Haughton of the local club. The league executive ruled that the umpire's decision, which gave Zimmerman of Chicago three bases and a run on a throw into the dugout back of first base was correct. This run, which came in the eleventh innings, gave Chicago the game, 3 to 2.

Boots Makes New Record at Fort Erie, 14 Miles in 2.025

FORT ERIE, Aug. 5.—The rich Dominion Handicap, at a mile and a quarter, with \$4000 added, was the feature race of the opening day's program at Fort Erie this afternoon. It brought out a small but select field, with the imported horses, Boots and Borrow, the choices. The track was in splendid condition and the attendance large. Joe Rhinoch was among the New Yorkers who came up to see Boots run. There was a big out-of-town commission on the latter. A field of high-class sprinters went to the post in the six-furloug handicap, with Kewessa the best fancied of the lot. The stables of J. W. Fuller and W. A. Carter were arrivals from Windsor this morning and W. Shields got in from Hamilton. There were but few withdrawals, the absentees being will Cash. Solid Rock. Othello and Miss Waters. Weather clear; track fast.

The scratches were:

OTTAWA WILL HAVE HORSE SHOW PARADE

H. J. P. Good, one of the founders of Toronto's popular and successful annual Dominion Day open air horse parade, is chairman of the committee that is to inaugurate a similar show this year in Ottawa. Pops in his address to the levere of the parade horses at the capital, says:

As has doubtless been generally seen in the Ottawa papers, it is the intention to hold an open air horse parade on the afternoon of Monday, Sept. 11, the day of the opening of the Central Canada Exhibition.

The main idea of the affair is to encourage better treatment of the horse and more attention to cleanliness and orderliness on the part of drivers and statlemen.

As one of the founders and for years manager of the Toronto Horse Parade, I am convinced that a similar undertaking would have a most beneficial effect upon horses, drivers and caretakers in Ottawa. It would also be an excellent demonstration of the character of the horse and vehicles driven and employed in this city. An influential committee has been formed to carry out the project, and so far everybody that has been approached has expressed himself heartily in accord.

A prize list has been prepared embracing upwards of twenty-five classes.

Broadview "Y" and Kew Beach met on Saturday at Kew Gardens in the fourth match of the Eastern Tennis League. By winning the match 4-3 Kew have tied up the league, as each team has now won three matches. No date has as yet been decided on for the play-off, but it is probable that it will take place toward the end of this week. As the match must be played on neutral grounds, it is understood it will take place at Balmy Beach. The scores were as follows:

—Men's singles.—
P. R. Hampton (Broadview) defeated L. Clogg—2-6, 6-3, 6-4.
P. Cromanty (Kew) defeated H. Hoffman—4-6, 6-2, 6-4.

Miss Baily (Kew) defeated Miss Grey—6-4, 6-1.

that, considering the summer season, the retail and wholesale trades are unusually active. The continued not weather has brought retailers into the market for light summer merchendise. Mining Notes

INSTALLING COMPRESSOR.

The McRas Mining Co., whose property is in Deloro, are going allead with the installation of a compressor plant. The machinery is expected to arrive within the next ten days. The new plant will be of three-drill capacity. The shaft is down a depth of 25 feet, and in addition to this there have been several test pits sunk. Work has been under way on this property all thru the winter. The main shaft is about 150 feet away from the main vein.

vein.

This will be put down several hundred feet and levels established every 100 feet, and cross-cutting gone on with. The porphyry dike is from 40 to 60 feet wide. The property is located about four miles from South Porcupine. Mr. Ed. P. Montagu is manager.—Cobalt Nugget.

RIGHT OF WAY SHIPPING.

The Right of Way is now shipping out between 700 and 800 tens a month of low-grade mill rock. It is not known yet what the average values of these shipments will be but there will no doubt be a profit. The rock is being sent to the Northern Customs mill for treatment.

ACTIVITY IN ROBB.

The Kamiskotia Gold Mines, Limited, have a gang of men working on the Taylor property in Robb Township, about 15 miles west of Timmins. Surface work is being done. This is the real activity in Kamiskotia district since last winter, when extensive operations were carried on at the Jamieson property.

TO REBUILD CROESUS. The Crocsus mines in Munro Town-

ship will start as soon as possible on the erection of a new plant and build-ings. It has not been decided yet whe-ther or not a larger plant will be in-stalled.—Northern Miner.

GANG OF MEN WORKING.

Messrs. Pope Bros. & Cheppau of New York have a gang of men working on their claims adjoining the Tommy Burns or Excelsior group in Shaw Township, according to the Northern Miner. Practically all that is being attempted is surface work. Some veins were found on the properties some years ago, and a company, called the Fommy Burns Gold Mines, Limited, formed to take them over, with the result that work has been resumed. The same company had men working on a gold proposition in Nova Scotia.

TRETHEWEY SHIPPING.

Homer L. Gibson, in his fortnightly review of the mines, has the follow-

review of the mines, has the following:
Regular shipments are being made from the Trethewey mine, augmented by a small amount of ore from the company's lease on the Rochester. Development at the old property has not yet located any new ore bodies, but there is a decided possibility that such may yet be located, as there is a considerable area of conglomerate yet undeveloped. The Rochester is regarded in the camp as one of the bast prospects in southeastern Coleman, and nects in southeastern Coleman, and further development of this property should prove the existence of good ore.

AT MCKINLEY DARRAGH.

R. E. Kemerer, in his weekly market letter, savs: The shares of the McKinley-Darragh have been decidedly strong during the week and little stock has come upon the market as a result of the advances which were recorded. The reports which have come from the acith rewhich have come from the acith re-garding the new vein are of a most en-coursging nature, and we are informed that on the 400-foot level the vein is now running at a width of two inches of 2200 ounce ore, and the wall rock is yielding excellent mill values for sev-eral feet on each side. This vein has now been drifted upon for over twenty feet, and it has shown a steady improvement, until at the present time it has all the characteristics of the regular high-grade veins of the Mcregular high-grade veins of the Mc-Kinley system. As pointed out some time ago, these new discoveries on McKinley-Darragh serve to entirely rehabilitate the property and we may rest assured that McKinley will be one of the leading issues when the silver advance sets in.

Market Notes.

Automobile owners, who arrive early and use the "free hitching" shed, would confer a great favor on late comers by driving their cars close to the post. There is room in each stall for two machines, but some drivers use the whole stall so that others are forced to leave their cars outside.

EXPORT SALES ACTIVE

WHEAT TOUCHED

Reports of Increasing Damage in Canada Stimulated Advance.

CHICAGO, Aug. 6 .- Notwithstanding that week-end sales to realize profits were heavy Saturday's wheat market touched new high record prices for 1916, and altho unsettled at the close was 4c to 4c above yesterday's finish. Canadian crop damage appeared to be on the ircrease, and there were reports that European buying of bread stuffs was on a big scale. Other staples, too, showed gains—corn 1%c to 3c, oats 1c to 1%c, and provisions 5c to 27½c.

Assertions that all wheat for 50 miles

to 1%c, and provisions 5c to 27%c.

Assertions that all wheat for 50 miles north of the region of Regina, Sask., was more or less danaged by black rust led to an excited rush of buying as soon as trading began. There had been no provious mention of infection north of Regina. Beports are also received that the pest had developed far to the westward in Saskatchewan, beyond Swift Current. Bullish speculators displayed more caution than has recently been the case, and it was evident likewise that many holders wished to avoid carrying open risks over until Monday. The result was a decided setback in prices after the initial advance. On the other hand signs gradually multiplied that exporters taking advantage of the downturn were buying with unusual freedom. In this connection it was said 1,000,000 barrels of flour had been disposed of to Great Britain an amount equal to 4,000,000 bushels of wieat.

Bulls in wheat unmistakably had the advantage as the seasion drew to a close. They laid especial stress on the contention that weak holders had for the most part been eliminated, to resume the attempt to add to the extraordinary price advance which the bears profess to believe has already discounted to a sufficient degree the damage done by black rust.

Corn advanced to the highest prices of the season. Buying was based chiefly on the continuance of drought and heat. Onts as well as wheat and corn rose to a new high level for 1916. Threshing returns remained unfavorable. Provisions were firmer in sympathy with grain and hogs.

HARVEST ASSURED

Year About to Be

LITTLE BLACK RUST

Reports of Damage Have Been Black Currants Were Easier Greatly Magnified for a Purpose.

In spite of persistent efforts to bull the market by sensational reports and vegetables received on the fruit about hall and black rust in the Cana-market Saturday again failed to satisfy dian west, The Sunday World is able to assure its readers that the recordbreaking harvest of 1915 is about to
be duplicated by the magnificent crop
almost ready for cutting in Manitoba,
Saskatchewan and Alberta. Cutting
the durants were not of very good
quality, selling at 6c to 8c per box, and
selected to 75c per 11-quart. to assure its readers that the recordfew days' time, and the harvest will be in full swing thruout the west within a fortnight.

The black rust has been greatly magnified for market purposes. There is positively no black rust in Alberta, and very little, if any, in Saskatche, wan, but there has been some damage from black rust in southern Manitoba.

Generally cool weather with rains and local wind and hallstorms have prevailed thruout the past week. A storm more or less cyclonic, but acstorm more or less cyclonic, but accompanied by heavy hail, swept over Saskatchewan during the past week. It left a long but comparatively narrow trail of destruction behind it. Some localities were hard hit, but it must be remembered that the loss by hail up to last week was exceedingly light. Taking the crop as a whole it may be safely said that the grain destroyed by hail this year will not be above the average loss.

stroyed by hail this year will not be above the average loss.

C. B. Wait, grain buyer for the Canadian Dominion Millers' Association, said to The Sunday World Saturday morning that he had a telegram from Winnipeg announcing that black rust had appeared at Moose Jaw. The reports of black rust in Saskatchewan, however, were conflicting, and he was not inclined to think that much, if any, damage had been done in that province. The weather conditions now prevailing in the west will be unfavorable to the further spread of the black rust.

Another gentleman connected with the grain trade said: "We were in great danger from the black rust for the first time in years because the muggy weather prevailing thruout the west for so long was likely to produce it, and also to transform the harmless red rust into the deadly black rust. A week ago, however, the weather entirely changed, and I do not think the black rust has extended west of Manitoba." Another gentleman connected with

Southeast Saskatchewan: Some black rust is reported from Manitoba, but none has appeared in this part of Saskatchewan, and with the change in the weather all danger from this source is pretty nearly past. The rains source is pretty nearly past. The rains came none too soon, as the wheat was suffering, from the hot, dry weather. Some fields were ripening prematurely, especially in the districts where the land is light. There is no sign of rust at present, but quite a quanity of smutty grain is to be seen. Hail has done considerable damage here and there, but the hailed districts are comparatively small. paratively small.

Central Saskatchewan: No red rust

or black. Crop well up to average, harvesting will commence about August 20th. There is a possibility of labor shortage this fall.

Northeast Saskatchewan: Wheat is making satisfactory growth and will ripen about August 15 to 18. No rust n this district nor any great damage

from storms, South Saskatchewan: There has been plenty of rain this spring and on June 29 there was a downpour and ery hot weather afterwards, which formed a crust, but a nice shower on July 18 softened it and everything looks well. The wheat is nearly all headed out and is above the average. The bulk of the summer fallowing is done, but it will be the last of the month before it is all completed wing to late seeding, heavy rains and

The limited shipments of both fruits the demand, causing prices to be quite firm on most lines, and in some to ad-

65c to 75c per 11-quart.

Black currants were an exception to the general rule Saturday, as they were the general rule Saturday, as they were easier in price, selling at 85c to \$1.25 per 11-quart baskets, an odd basket of extra good quality bringing \$1.35.

Blueberries were generally of much better quality than have been coming in, some extra choice ones arriving. They ranged from \$1.25 to \$1.75 per 11-quart.

Cherries were not as good quality, as they evidently had been affected by the slight shower of last week, and showed waste, selling at slightly lower prices, the bulk of the best bringing 75c to 90c per 11-quart, an odd one bringing \$1, but some which were more wasty going at 50c per 11-quarts.

Thimbleberries ranged all the way from 16c to 20c per box, the bulk, however, selling at 18c to 18c per box.

There were only a few gooseberries shipped in, and these brought from 50c to 80c per 11-quart.

Corn was an especially good sale at 18c to 20c per dozen—the bulk selling at 20c.

Beans are becoming outs assessed.

Corn was an especially good sale at 18c to 20c per dozen—the bulk selling at 20c.

Beans are becoming quite scarce and advanced in price, selling at 65c to 75c per 11-quart.

Cucumbers varied greatly in quality, and sold at 65c to 90c, and a very few extra fine ones at \$1 per 11-quart.

Tomatoes held firm at Friday's prices, the No. 1's selling at \$1.35 to \$1.75, and No. 2's at \$1.10 to \$1.25, while culls brought 75c to \$1.

Fotatoes advanced—due to the southern crops being just about exhausted, and ours being late; the imported sold at \$4 to \$4.25 per bbl., and the homesrown at 50c per 11-quart baskets.

Home grown apples are coming in more freely, and are a little better quality, selling at 35c to 60c per 11-quart.

Carrots were only shipped in lightly, bringing 50c to 60c per 11-quart baskets.

McWilliam & Everist had a car of Arkansas Elberta peaches, selling at \$1.75 to \$2.50 per bunch; a car of canialoupes, standards, at \$3 to \$4, and flats at \$1.50 to \$1.75 per case.

The Saskatchewan Government denies the existence of any black rust in the province, and indications are that damage from this cause will be confined to southern Manitoba, including the Brandon district.

Last week detaited reports on crop conditions from various districts in Alberta were given. This week we have endeavored to get some detailed reports from districts in Saskatchewan. They are subject to modification in so far as there has been local damage from hail, but otherwise they correspond with the Saskatchewan Government's review of the province for the week.

At the Sign of Great Opportunity"

THE GREAT DILEMMA that used to confront homefurnishers was whether (a) to make a huge hole in their cash reserve by taking advantage of spot cash prices, or (b) to pay the long price for the privilege of getting time payments.

This dilemma has now been solved by our Homelovers' Club. Here is the test that will prove our point:

Bring the best judge of furniture you know to our 5th floor and let him compare our furniture values in this sale with any values he can find. Then go and see the club secretary (4th floor) about what arrangements can be made for spreading your payments over a certain number of months.

This test will convince you that you are getting dependable furniture at the closest cash pricesplus the privilege of spreading these payments over a convenient number of months.
