People Rallying to Support of Brazilian Revolutionists
MAGNANIMOUSLY VOTED AGAIN

REBELS GAIN UPPER HAND IN FIGHTING AROUND SAO PAULO

Revolt, Begun by Military, Has Support of More Than 500,000.
POLITICAL ASPECT
Rio Grande President May Throw Support to the Revolutionists.

(By Canadian Press)
Buenos Aires, July 18.—Trustworthy information received here from Brazil early today indicates that the rebels are getting the upper hand in the fighting around Sao Paulo. It is said that the Federal Government has proposed to institute "decisive operations," but the military chiefs do not entertain hopes of definite results.

Unless a political compromise is reached, the Brazilian warfare which has now been waged for nearly two weeks between the Sao Paulo revolutionists and the Federal troops promises to be long drawn out.
It is pointed out that the rebels have at their command the resources of the wealthiest city in the country, where large manufacturers are centered, including arms and munition factories, which are now reported working day and night. The de facto government in power is said to have support of practically the entire population of more than 600,000 and to be functioning in an orderly manner.

While the insurrection seems to have begun as a military revolt, emphasis is placed on the prevalence of secessionist sentiment in Sao Paulo, where the objection is often voiced that the district does not receive proportional benefit.
Federal Troops Powerless.
By BRYAN POWERS
(United Press Staff Correspondent).
Buenos Aires, July 18.—Hidden behind the absolute military censorship established by the Brazilian Government, events in the State of Sao Paulo, where state troops aided by a part of the Federal garrison have supported against the Government, appear to be moving toward an impasse, with rebellion (Continued on page 9, fifth column).

METHODISTS TO BE ASKED FOR \$1,943,000

This Amount Will Be Used For Financing Denominational Enterprises.

Toronto, July 18.—Canadian Methodists have been asked to finance their denominational enterprises in the coming year, including widespread missionary and moral reform activities, with an amount totalling slightly over five dollars a member.
In a statement just issued from the office of the General Superintendent, Rev. B. D. Chown, D.D., L.L.D., numerous plans for co-ordinating activities and conserving funds are announced. The total asked for all non-local purposes is \$1,943,250.
Dr. Chown assures the church that the General Board of Missions and the Woman's Missionary Society have reached "happy mutual understanding," that the prohibition campaigns are being vigorously prosecuted and that economy is the watchword of all departments. He strongly urges tithing as a means to spiritual growth and financial soundness, in Methodism.

Force 4,000 Persons To Be Vaccinated

Cleveland, July 18.—Four thousand persons living in a downtown district are under quarantine pending compulsory vaccination upon orders of H. L. Rockwood, City Health Commissioner, following the discovery of two new cases of smallpox in the neighborhood. A corps of 25 nurses and doctors went to the area with vaccine at daylight. Sixty-five specimens were taken from the district and followed out orders that one was to leave the area or enter it pending new instructions.

Is Sued For Divorce And Didn't Know It

New York, July 18.—Charles B. Dillingham, theatrical producer, who arrived on the Majestic this week, got the surprise of his life in Paris 10 days ago. He crossed on the Aquitaine to bring Mrs. Dillingham, who had spent the spring in Paris, home. When he arrived at the station he found that the Paris Herald, and on the first page was a story that the "husband" was suing him for divorce in the French courts. He turned right round and came home again without asking an explanation.

ABSENTEE VOTES FAVOR MRS. SMITH

Liberals in B. C. Gain Strength—Now Count on 26 Members.
(By Canadian Press).
Vancouver, B. C., July 17.—Mackenzie constituency has shifted from the conservative to the Liberal column on the complete tally of the absentee provincial election vote.

Although not yet complete the count of absentee votes for the six Vancouver constituencies already shows that Mrs. Mary Ellen Smith, Liberal, has been elected instead of General A. B. McRae, who was sixth on the list in the election day count.
Mrs. Smith has gained 250 votes, against 108 for General McRae, thus definitely wiping out the latter's majority of 18.

Formal application has been made by the Provincial Party for an official count of all ballots cast for Vancouver as expected this will require a week or more.

Michael Manson, Conservative candidate in Mackenzie, defeated by seven votes in the absentee count, announced he would appeal on the ground that election against him in regard to the spoiled ballots were inequitable; that 184 of his ballots were rejected as spoils of 40 constituencies, show a majority of 1,758 against the sale of beer by the glass. The vote in favor is 74,829, and against 74,888.

Scrap 2 Battleships Worth 20 Millions

New York, July 18.—Workers at the Navy Yard in Brooklyn have completed the dismantling of the two battleships which were to have been named Indiana and South Dakota. The Government appropriated \$20,000,000 to build these vessels, of which \$20,000,000 had been spent when the order was received to scrap them in accordance with provisions of the Washington disarmament agreement.
By cutting up the steel the Government received between \$75,000 and \$100,000 more than would have been received had the ships been sold as they stood to the highest bidder. The steel was bought by the Steel Scrap Company of Philadelphia at \$9.51 a ton.

Ponzi Creditors Awarded \$456,146.25

Boston, July 18.—Creditors of Chas. Ponzi were allowed \$456,146.25 to be divided among them immediately by a decision handed down here by Judge Walk in the Supreme Court. The decision came on a petition by Henry V. Cunningham, trustee in bankruptcy of the estate of Ponzi, that he be allowed to take the \$1,000,000 deposit in the closed Hanover Trust Co.

Ottawa, July 18.—The Senate last night refused approval of the proposed trade agreement between Canada and Finland and this will have to await the next session of Parliament.

Ottawa, July 17.—The Conservative members of the House of Commons last night presented to W. A. Boys, chief whip of the Conservative Party group in the House, a leather club bag in appreciation of his services to the party. Rt. Hon. Arthur Meighen, leader of the opposition, made the presentation.

MACLAREN AND COMPANIONS ARE REPORTED SAFE

British Flier was Forced Down on Island North of Japan.

MISSING 48 HOURS

U. S. Airmen Scrap Wireless Apparatus While Crossing the Atlantic.

(By United Press).
Tokyo, July 18.—Major A. Stuart MacLaren, missing British world flier, was found today safe on Urupp Island, in the Kuriles group, north of Japan.

The flier had covered about half the distance from Hokkaido to Paramushiro Island when forced down. He had just begun the most perilous part of his round-the-world flight, the crossing of the Pacific in short jumps from one blizzard-whipped, frozen island to the next.

Major MacLaren had been missing nearly 48 hours.

(Canadian Press Cable).
Tokyo, July 18.—A Stuart MacLaren, British aviator, who has been missing since he left Lake Tashimov, Yeforofa Islands, for Paramushiro, Kurile Islands, early Wednesday morning, has been found.

MacLaren and his companions were found safe in a bay on the southwest shore of Urupp Island, the island adjoining Yeforofa Island, from which the aviators started Wednesday morning.

The news was received in a wireless message from a steamer off Urupp Island picked up by the Japanese destroyer Isokaze this morning. The Isokaze is proceeding to Urupp Island. Discard Wireless Sets.

Brough, England, July 18.—(United Press).—America's airmen will go into the north on the last stage of their world flight without wireless equipment on their planes. Lieutenant Lowell Smith, commanding the sky expedition, announced today. The object is to avoid overloading the planes.
Business of overhauling the machines in which the fliers will make their homeward dash has progressed so rapidly that the old engines were ready for removal this morning, and it is expected now that the aviators will get away with the flood tide Wednesday morning. Tuesday will be devoted to testing the new floats on the estuary of the Humber.

MERCHANTS ARE ANALYZING THE POSSIBILITIES FOR SUBSCRIBING TO GET ADMIRAL BEATTY HOTEL

Help of All Subscribers, Small and Big, Will Be Essential to Put Over the \$1,000,000 Project—Campaign Luncheon at Union Club Today—Stock Subscriptions to be Asked For Next Week.

As the extent of the calamity confronting St. John and the possible abandonment of the Admiral Beatty is realized, the interest has become general, and the fact that everyone seems ready to shoulder some share of the financial burden suggests some hopefulness.
Citizenship Duty.

Heretofore the disposition has been to leave stock subscribing to the other fellow, but now every business man in the city seems to feel that it is up to him personally to put this big thing across, and, if the Admiral Beatty Hotel becomes a reality, it is just this spirit which will be responsible.

A campaign luncheon was held at the Union Club today, where a large number of enthusiastic workers met for final organization in preparation for next week's drive.

On all sides this week are discussed the reasons why St. John must have the much anticipated and long expected hotel, which are too numerous for references and have, in fact, been mentioned many times in these columns in connection with the Admiral Beatty propaganda.

Momentous Days.
From Tuesday until Saturday the city will be canvassed by the Citizens' Committee, and on the success of their efforts will depend the announcement to be made next Saturday, the 26th inst. Hundreds, who a week ago may have decided that they could not afford to divert a dollar from their business for the purchase of stock, have now concluded that, if their subscription to the hotel is so essential, they cannot afford to take a chance of the announcement next Saturday representing a blow to St. John from which it might be difficult to recover.

Will Wed on Same Day As Her Mother

Boston, July 18.—Rev. Lavin P. Causey, elderly preacher of Springfield, and more than a quarter of a century pastor of the St. Luke's Methodist church in Lynn, 30 years ago performed the ceremony that united Mr. and Mrs. George B. Thomas in marriage. Mrs. Thomas became a widow 10 years ago and now comes the announcement that Rev. Causey is soon to wed his former parishioner.
Coincidence with the elderly couple's marriage announcement, Miss Avis G. Thomas, 19-year-old daughter of the bride-to-be, announced her engagement to Frederick W. Ziemer, of New York city, and plans are progressing for a double wedding on Oct. 1.

11 CANADIANS IN KING'S CUP SHOOT

Survive First Stage With 1,000 Competitors—Burke Wins Bronze Medal.
By H. N. MOORE.
(United Press).
London, July 18.—Though somewhat disappointed over their failure to secure either the Kolapore or the Mackinnon trophies the Canadian marksmen at Bisleigh are delighted over their progress toward the King's Cup, the greatest prize of the meet.

There is particular similarity in the choppy and inconsistent winds. The success of the South Africans in the competition is believed partly due to the fact that atmospheric conditions at Bisleigh approximate those there at Johannesburg and Kimberley than any other part of the Empire. There is particular similarity in the choppy and inconsistent winds.

Had Loe's Brother On List of Victims

Chicago, July 18.—Nathan F. Leopold Jr. and Richard A. Loeb, awaiting trial on Aug. 4 for kidnaping and slaying Robert Franks, once considered Ernest Loeb, the eleven-year-old brother of Richard, as a victim of their search for a thrill, according to defense attorneys.

"For this reason, there is no one who wants to see the boys freed," Clarence S. Darrow, chief of counsel for the defense, said. "The fathers and lawyers are actually afraid of the boys, and it is for the sake of society that the parents do not want the boys freed." The theory of the defense, it is indicated, after numerous examinations by alienists and experts have been completed, is that the killing of the Franks boy was in response to an irresistible mandate of the gods, and that the boy was merely a subject for an emotional experiment in the eyes of the youths, defense attorneys and their alienists say.

COLEMAN HELD FOR A WEEK ON MURDER CHARGE

Former Fairville Man was Before Court in Halifax This Morning.

HERE AFTER WAR

Gave Evidence of Shell Shock—Was Believed to be in England.

(Canadian Press).
Halifax, N. S., July 18.—George Coleman, the artilleryman who shot and killed Acting Lance Bombardier W. F. Groves at Connaught Barracks yesterday, was charged with murder when arraigned before County Stipendiary Magistrate in the court house this morning. Coleman was remanded for one week.

Something has been learned about Gennar George Coleman, who shot Acting Lance Bombardier W. F. Groves in Halifax, as reported in the Times-Star yesterday. He is well remembered in Fairville.

From information received in Fairville last night, Bartholomew Coleman was at one time a farmer in Fairville and had two sons, Timothy and George. Mrs. Coleman died when George was two or three years of age and he was brought up by Mrs. R. O'Donnell in Fairville until he was about 14 or 15 years old.

MURDER SHIP CREW CARRY OFF WOMEN

Black Australian Aborigines Sink Schooner—Rescue Party Sent Out.

(United Press).
London, July 18.—A band of 300-400 Australian aborigines sank the black-wood schooner Douglas Mawson at an unannounced location, murdered the male survivors and carried off an unknown number of white women, according to a Central News dispatch from Sydney, where the report has created a tremendous sensation.
A strong force has been dispatched into the northern territory in the hope of rescuing the women.

CHAINED WIFE TO KEEP HER AT HOME

Massachusetts Man, a Cripple, is Given Term in State Hospital.

(By United Press).
Haverhill, Mass., July 18.—Determined that she should remain safe from the attentions of other men while he was away, Charles Bradley, 40 years old, crippled, chained his wife with chains before he left home each day.
Bradley's stern methods came to light when the woman, the mother of six small children, hobbled into the police station with an eight-foot chain wound around her. The chains extended over her shoulders and around her ankles. In back, out of reach was a padlock.

According to Mrs. Bradley's story to police, her husband put her in chains every time he left the house. While thus shackled, she said she did the house work and cared for the children.

In district court on Thursday Bradley was charged with assault and battery. After testimony by three doctors, he was committed to the State Hospital for an indefinite period.
Bradley lost one of his legs in an automobile accident about a year ago. Since then, police say, his mind has been affected.

Girl Is Condemned By All-Women Jury

London, July 18.—A jury composed entirely of women returned a verdict of wilful murder at an Ashton-under-Lyne inquest against Edith Alice Weston, of Grovesnor street, Stalybridge, who was found gasping for breath in a room full of gas.
By her side, lying dead, was William Edward Jackson, a stripper and grinder, of Ashton.

The girl was apparently suffering from the effects of gas poisoning. After treatment she recovered.
It was stated that Jackson, who had been living apart from his wife, disappeared with the Weston girl three weeks ago from his work at a Stalybridge mill, where the girl was also employed.

This Picture Was Telephoned

You've heard of the most photographed girl in the world. Well, here's the "telephone girl"—the most telephoned face in the world. It was this beauty that the research laboratories of the American Telephone and Telegraph Company selected for experiments on ways of retaining clarity and loveliness in reproduction and transmission of telephoned pictures. She adorns a booklet of instructions just issued to demonstrate methods of making telephone pictures.

House Split in Twain By Falling Tree; Woman Continues to Occupy It

Boston, July 18.—Mrs. Lillian Daly, storekeeper and summer cottager on Scymore avenue, Cochituate, is living in half a house now as a result of a miscalculation in chopping down a tree which once decorated her front yard. The axemen who tackled the job failed to figure right, and the falling trunk crashed to earth through the centre of the bungalow. No one was injured, but the family piano, now in the cellar, will never be the same again. It was hammered through the floor.
In spite of the accident, Mrs. Daly is sticking to her home. She believes that the damage can be repaired by patching the two halves of the house together again. The tree trunk has been removed from the living room.

38 HOURS IN AIR

French Aviators Better Endurance Records Recently Made in United States.

Charles, France, July 18.—The airplane duration record of 37 hours, 15 minutes, 48 seconds made by Lieut. Smith and Lieut. Richter of the U. S. Army, was broken yesterday by French aviators, Coupet and Durbin, in a flight which lasted 37 hours, 59 minutes 10 seconds.

REDISTRIBUTION PASSES THE SENATE

C. N. R. and C. G. M. M. Estimates Totalling \$71,000,000 Approved by Commons.

Ottawa, July 18.—Yesterday in the Senate the Toronto viaduct passed. The redistribution bill was passed.
In the House of Commons third reading to a bill amending the Soldiers' Civil Re-establishment act was given. A bill consolidating quartz mining laws in the Yukon was given third reading. Estimates for the departments of mines and Indian affairs were disposed of. The House concurred in the report of the banking and commerce committee stating a moral claim in equity for compensation to depositors of the Home Bank from the Government. All the estimates of the Department of Railways and Canals and of the Canadian Government Merchant Marine passed the Commons after several hours' debate on national railways policy. They totalled nearly \$71,000,000.

Argentine Airman To Try World Flight

Amsterdam, July 18.—Major Pedro Zanni, the Argentine aviator who plans to start on a world flight next Tuesday, intends to follow the route of Major Stuart MacLaren, the British flier. The Argentine anticipates that the superior speed of his machines will enable him to overtake his rivals in the globe encircling contest.

GOVERNMENT IS BEATEN BUT WILL RETAIN OFFICE

Adverse Vote During Consideration of Unemployment Insurance Bill.

THE CONFERENCE

Question of Representation of the British Dominions Has Been Settled.

(By United Press).
London, July 18.—The MacDonald Government was defeated in the House of Commons today, 171 to 149, on a vote on a proposed amendment to the Unemployment Insurance Bill.

The defeat was due to many Liberals voting against the Government. Conservatives and Liberals cheered loudly when the vote was announced, and there were cries of "Resign."
(Canadian Press).
London, July 18.—The vote today was on an amendment offered by Liberal and Conservative members, which was carried despite Labor opposition.

The Government's reversal is not considered important, and there is no question of the Prime Minister's resigning.
Dominions and Conference.
London, July 18.—(Canadian Press).—The question of representation of the British dominions at the allied conference has been settled, it was announced by J. H. Thomas, Colonial Secretary, in the House of Commons this afternoon. It had been agreed, he said, that the representative of any dominion so desiring, including India, should become a member of the British Empire delegation at the conference, under the panel system. Under this system the overseas delegates are to be designated one at a time in the conference as the representative of the British dominions with powers similar to those of the delegates of the other nations.

Has No Tongue But Is Able To Talk

London, July 18.—A marvel of surgery has been brought to light by the visit of a man to a London hospital. He said he had brought his wife to hospital, as the hospital had been successful with him 18 years ago. He said that he had suffered from cancer, and lost his tongue had been cut out in 1906.
The man's story sounded incredible, particularly as he was able to talk quite naturally, an almost unheard of thing after such an operation, but examination corroborated his statement. The malignant growth had gone entirely, and the man was able to masticate his food and enjoy his smoke.

Kills Huge Snake In Town In Maine

Jonesport, Me., July 18.—Measuring 12 feet 6 inches in length, a snake, whose species has not been determined, was killed in Poverty Ridge, this town's most exclusive residential section, after the reptile had strenuously resisted his attack.

A woman, Lakeman first tried to end the snake's life with a hoe, but found it necessary to employ both barrels of a shotgun, which he afterwards obtained, before the reptile could be put to death.

Wears Bathing Suit To Court; Is Fined \$5

Coney Island, N. Y., July 18.—(United Press)—Sadie Lewin went to court in a bathing suit to show the judge how becoming an attire it is. Sadie was charged with displaying too much of her shapely curves by appearing on Ocean Parkway in a bathing suit. "You can see for yourself," Sadie told the judge. "I can see plenty," the magistrate replied. "A \$5 fine for you."

COURT HEARS OF RAILROAD STEAMSHIP

Knife is Used; One Man Arrested, One is in Hospital.

William McDonald, a colored night-watchman on the Eastern Steamship liner Prince Arthur, was taken into custody at an early hour this morning charged with wounding and doing grievous bodily harm to another member of the crew, Randolph McKenzie.

Norman Holliston, chief steward on the liner, said he was an eye witness. He said the accused was a night watchman on the steamer and that McKenzie was a night cook. The night watchman called him about 12 o'clock last night and complained that the night cook had threatened him.

Detective Saunders said he arrested the accused about 1:30 o'clock. He told of going to a room on the steamer and finding McKenzie badly wounded. He arranged to have him sent to the hospital and then arrested the defendant.

"If the various methods of dealing with the situation, such as preferential employment in the Government service, sheltered workshop employment, bureau service, the King's honor roll scheme, the Toronto rehabilitation scheme and any other arrangements for or inducements to civilian employees, all prove inadequate permanent-ly to absorb into industry disabled ex-service men, who after diligent effort have failed to find employment, there appears to be no other solution than a compulsory employment enactment which would require all industries to employ a certain number of these men."

The commission points out that such legislation exists today in practically all continental countries and the British House of Commons is now considering similar compulsory laws.

SATISFIED WITH PROGRESS MADE

Inter-Allied Conference Indicates Content—Two Important Committees

(Canadian Press). London, July 19.—Satisfactory progress of the Inter-Allied Conference, called for the purpose of putting into execution the expert committee's report on German reparations, was indicated today by the work already performed by the committees appointed at the opening session on Wednesday.

One of the important parts of the conference work, the perfecting of an organization to be set up in each country for the handling of payments to be made by Germany under the new scheme, was completed yesterday and a draft of the proposals embodying the agreement is ready for the approval of a plenary session of the conference, tomorrow.

The first committee is dealing with the problem of creating confidence for an international loan for Germany and the question of a United States member for the reparation commission as arbiter on the subject of default.

Committee 2, which is attempting to devise means to restore the fiscal and economic unity of Germany, has encountered difficulty owing to the French requests that the proposed international loan, upon which the whole working of the experts' plan depends, shall be underwritten before the question of German unity is brought up.

One problem, a solution of which may be difficult, is what penalties to inflict if Germany willfully defaults under the Dawes schedule.

Paris, July 18.—A telephone message from London to the French foreign office this morning said there was a good prospect for the adoption of a compromise proposal made by Colonel James A. Logan, jr., on the question of the appointment of a U. S. member to act with the reparation commission in declaring a default by Germany on the experts' committee's plan and the procedure for the application of penalties in case a default were declared.

ASSAULT CHARGED; CASE IS DISMISSED

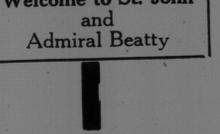

Magistrate Decides Weight of Evidence Favors Geo. Logan.

George Logan appeared in the police court this morning to answer a charge of assaulting Benjamin Watson. He pleaded not guilty.

Logan said Watson called at the house last night, entered without knocking and started to abuse his wife and after "thumping" the table began to swear. Logan said he merely took hold of him by the arm and put him out of the house.

Mrs. Logan corroborated her husband's testimony. Magistrate Henderson said that the weight of evidence was with the defendant and he dismissed the case. He said that if Watson desired to secure his furniture he would have to take the matter to another court.

CANADA'S STATUS IN WORLD ASSURED

Prominent Part Played at
Geneva Stressed by Sir
Herbert Ames.

Many inner details of the working of the League of Nations were given the Montreal Rotary Club at their luncheon on Tuesday by Sir Herbert Ames, Financial Secretary of the League, in the course of an address on his five years' experience at Geneva. He emphasized the point that Canada had done her full duty throughout the war, and had also done her full duty in the ensuing peace by her adherence to the League of Nations, which had brought the Dominion her full share of the respect of the world.

As to the League of Nations itself, Sir Herbert spoke of it primarily from a financial point of view. For its successful work, he said, its cost was infinitesimal while every expenditure was looked after with the most extraordinary care in auditing. Its work cost a total of between \$4,500,000 and \$5,000,000 a year, which was only an infinitesimal fraction of the cost of armaments by the nations, and about the cost of one well equipped British cruiser of the County class. Of this total, Canada contributed only \$165,000 a year, which he considered a small contribution compared with the standing of her membership gave the Dominion as one of the great family of nations working together to preserve the peace and amity of the world.

In return for this outlay, Sir Herbert said that the League gave the world an enormous service, as it had done on many occasions, in conserving the rights of minorities in many countries, in preserving liberties in mandated areas, in carrying on work in many lines through technical work, in social service, and especially in its work for the relief of prisoners of war and exiles.

It was almost exactly five years, said Sir Herbert, since he had received a letter from Sir Robert Borden, then Prime Minister of Canada, asking him to accept the position of Financial Director of the League of Nations. He had accepted, not by any loss of thought of the kindness of the people of St. Antoine division, but because he thought it opened a new vista for service. "And today, after five years of work with the League," said Sir Herbert, "I have no reason to regret the choice I then made."

Complete Organization.

When he went to Geneva, said Sir Herbert, there was an organization in the making. Today it was a complete organization, with every part working well, and functioning in an international manner, with 54 nations co-operating in its work. An annual budget for its expenditures was made, and he remarked that no budget in the world was ever so criticized as that of the League of Nations, everything having to be done on the basis of the American dollar, since the United States was the only country that had kept its gold basis both during and after the war.

"Sometimes people in Canada wonder whether they get the worth of the \$165,000 a year their membership in the League of Nations costs," proceeded Sir Herbert. "I think I can show you that the work of the past five years was worth the effort. Canada occupies a unique position in the League, perhaps because our nearest neighbor does not take the same appreciative attitude. The fact is that Canada has not only done her bit throughout the whole war, but has also done her bit ever since the war." (Applause.)

Canada, he said, as a result of her loyal support of the League, was in a strong position at the meetings of the League, and today enjoyed the esteem of the whole world. Proceeding, Sir Herbert sketched the manifold activities of the League of Nations, and said he had never come in contact with any body in the world that was so proud with such right economy. He pointed out the number of wars that had been prevented by the work of the League, its work in the financial reconstruction of Austria and Hungary, and the work done to look after the Armenian refugees in Greece, as only part of its activities. In addition to this, he spoke of the work with regard to the stopping of the opium traffic and white slavery, as well as a multiplicity of other beneficent activities.

"That is the work we are taking our share in," concluded Sir Herbert. "I am returning to Europe on Saturday, and I shall return proud to be a Canadian. We have done our full share both during and since the war, and today a Canadian in Europe can look any man in the face and tell him he is a Canadian. I confidently predict that the day is coming when we shall get back a hundred-fold what we are spending on the League of Nations today. After all, there is such a thing as gratitude in the world, and the attitude taken by Canada towards those other nations who need help will be remembered for many years to come, both in a psychological and material way."

MONCTON BUILDING PERMITS.
The Moncton Transcript says that building permits issued there since the first of the month total \$5,290. The number slightly exceeds that of the corresponding period last year, being

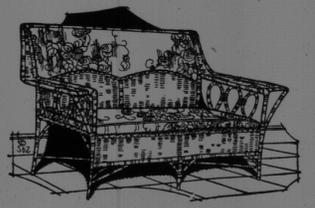

11, as compared with 9 for 1923. The value, however, is slightly less than half. The same number of garage permits was issued during both years—three. In 1922, on the other hand, there were six.

FERNHILL CEMETERY.
Many improvements have been carried out in Fernhill this year, all of which will help to make this spot more beautiful and show reverence and respect for the City of the Dead. Those who will take advantage of visitation days soon to be held will notice that many old iron fences which were an eyesore to all, have been removed, monuments have been straightened and many dead trees cut down, while more lots than ever have been placed under care, some avenues have been widened to make safer driving for motors and the new path markers will enable anyone to find a desired lot.

CARE FOR DOGS IN THE HOT WEATHER

Now that the hot weather really has set in, says the New York Herald-Tribune, use common sense and consideration in taking care of your dog. Do not insist in taking him on long hikes in the sun or have him kept in kennels where the sun is pouring down on him. Select just as cool and comfortable a spot for him as possible, the kind of cool, comfortable place that you would like yourself. And let him have plenty of clear, cool water. Don't be afraid to change the water as often as it becomes the least bit stale or tepid. It would do no harm to change the water as often as half a dozen times a day.

A dog should not be gorged, any more than a human, in warm weather, or, for that matter, in any weather. Light meals, once a day, are enough for the average adult dog when it is hot. Vegetables should form a large

part to the diet, with a sparing quantity of meat. It will not do the least harm to give a dose of citrate of magnesia twice a week in the morning. One dessertspoonful is enough for a dog under twenty-five pounds and three for a fifty-pound dog.

The main thing is the use of common sense. It is something that cannot be had in an overdose. The instant the dog shows signs of being ill, send for the best veterinary obtainable, just as one would send for the best physician for a child. The cry of "Mad dog!"—which, incidentally, is usually wrong—would not be heard so often if common sense were used. The thing to do is to study the wants of your dog—he cannot tell them to you—and make him just as comfortable in unbearable weather as you can. He is a loyal and real friend and is worth every bit of care and attention that you can give him.

AT WORK IN SYDNEY.

The Sydney Post of Wednesday says: The Sydney kiddies will have a chance to display their theatrical ability at the Strand Theatre this week.

Mrs. Jack Rossley, who has been exceptionally successful with her Rossley kid shows, is going to give the juvenile performers of this city and district the "once over" at the Strand this week.

On Thursday night all the young girls of the city who want to become members of the Sydney Rossley company, which will be organized here this fall, will have an opportunity of showing their best in the way of theatrical talent.

DEATHS

Mrs. Josephine K. Sanderson.
The death occurred yesterday of Mrs. Josephine K. Sanderson, wife of Vernon J. Sanderson, of West St. John, after an extended illness in the General Public Hospital, where she underwent two operations. Mrs. Sanderson, who was ill for three months, was thought to be recovering when complications developed resulting in her death. She is survived by her husband and an infant daughter, Clarissa Grace. She also leaves her parents, Mr. and Mrs. R. J. Riley, of 305 Germain street, formerly of Annapolis Royal, N. S.; four sisters, Mrs. C. A. Price and Mrs. J. E. Searle, of this city; Miss Grace Riley, R.N., of Boston, and Miss Doris Riley, at home; and one brother, R. J. Riley, of the C. G. M. M. He was in Montreal when he received word of the serious illness of his sister and arrived home Wednesday evening in time to see her before her death. The funeral will be held from

SISTER MARY'S KITCHEN

CANNING AND PRESERVING STRAWBERRIES.

Strawberries for canning or preserving or jamming should be perfectly ripe but not the least bit overripe.

So, sort strawberries carefully and use the perfect large berries for plain canning and preserving and the imperfect berries requiring cutting for old-fashioned strawberry jam.

When washing berries do not pour water directly onto the fruit. Drop the berries into a big pan of cold water or into a deep colander. Set the colander in a large pan of water to wash berries and when clean gently lift the colander from the water, letting the berries settle slowly together without any violence. Water softens delicate fruit and rough handling breaks the gossamer-like covering and allows the immediate escape of the juices.

The ideal way to can strawberries is by the cold pack method. The berries keep their shape and retain their flavor much better than when canned by the open kettle method.

To Can Strawberries by the Cold Pack Method

Pack perfect, well washed berries in sterilized cans, adjust tested rubbers and pour over medium syrup to cover fruit. Half seal cans and put in hot water bath. The water must cover the jars by at least an inch. When the water begins to bubble begin to count the time for sterilization and sterilize quart jars 16 minutes. Remove from boiler, tighten covers and turn cans upright down where they will cool quickly but not be in a draught. If a draught of cold air strikes a boiling hot can breakage may occur. When cold, store in a dark, cool, dry place.

Pack the fruit closely but do not mash or crush.

To sterilize cans for packing, wash

cans in hot soap suds and rinse in scalding water. Cool and put in the boiler you will use for cooking the fruit. Fill boiler with cold water and bring to the boiling point. Boil 10 minutes. Remove cans from boiler when needed for filling with fruit. This gives you your boiler of boiling water for processing and sterilizes your cans at the same time. The covers should be included.

Medium sirup is made by boiling 3 cups sugar and 2 cups water for five minutes or until the sirup is thick and clings to a spoon. Allow 3-4 cup sugar for each quart can of fruit. Be sure to make enough sirup to fill all the cans. Extra sirup can be kept in a glass jar in a cold place until needed for the next batch of canning. Fill can to within 1/4 inch from the top with the boiling sirup.

To half seal screw-top jar, tighten cover with thumb and little finger. To seal, screw down as tight as possible. To half seal spring-top jar, fit on

cover and adjust top ball. To seal, clamp ball over jar.

Sunshine Strawberry Preserves.
Select large, perfect berries. Hull and wash. Drain. Weigh fruit. Use pound for pound of berries and sugar. Put a layer of berries in a smooth porcelain preserving kettle, cover with sugar and add another layer of fruit. Continue layer for layer until all is used. Let stand over night. In the morning put over a slow fire and bring to the boiling point. Remove scum and let boil gently for five minutes. Turn out onto big platters. Cover with glass or mosquito netting and put on a table in the sun outdoors or in a sunny window. Cook until the sirup is thick, stirring occasionally. If a glass is used it must be removed and dried frequently. Twelve hours direct hot sunshine will cook the fruit and sirup to the desired thickness and deliciousness. Pour into sterilized pint glass jars and seal. If a mosquito netting is used the air helps

thicken the sirup, but unless you live in a dustless community the glass covering should be used.

Old Fashioned Strawberry Jam.
Hull and wash berries. Imperfect ones that have been cut can be used for this jam. Weigh fruit and for every four pounds of fruit use three pounds of sugar. Put fruit and sugar in preserving kettle and mash fruit with a wooden potato masher. Cook, stirring constantly until the fruit is soft and the juice is sirupy. The jam will not be stiff because strawberries will not jelly. The juice should be clear and quite sparkling when the jam is done. It will take about 25 minutes, although the length of time will vary some according to the juiciness of the fruit. Pour into sterilized jars and seal. Too long cooking will make the jam rather strong flavored.

Total calories in strawberry preserves, 1 pound berries and 1 pound sugar, 1900. Protein, 20; fat, 20, carbohydrate, 1950.

PLEDGE \$200 FOR LADY BYNG CAMP

Of the \$800 needed yesterday morning to carry on the work of the Lady Byng camp for under-nourished children at Fair Vale until September, one-quarter had been pledged by last night. Walter C. Allison, of the firm of Manchester Robertson Allison, Ltd., informed the committee in charge of the camp that the directors of his firm had voted \$50 if the number in the camp was 10 and double that amount if the number of the children was increased to 20. Another friend has promised \$100.

In the belief that the community was behind the idea and that the required funds could be raised, the number in camp has been further increased this week until now there are 22 there.

F. A. DYKEMAN & CO.
THE STORE OF COMPLETE SATISFACTION

If your Health is threatened—
You should know the power of
this natural fresh food

These remarkable reports are typical of thousands of similar tributes to Fleischmann's Yeast.

There is nothing mysterious about its action. It is not a "cure-all," not a medicine in any sense. But when the body is choked with the poisons of constipation—or when its vitality is low so that skin, stomach, and general health are affected—this simple, natural food achieves literally amazing results. Concentrated in every cake of Fleischmann's Yeast are millions of tiny yeast-plants, alive and active. At once they go to work—invigorating the whole system, clearing the skin, aiding digestion, strengthening the intestinal muscles and making them healthy and active. Health is yours once more.

"TRY TWO cakes of fresh yeast every day," said the specialist. My constipation was of 20 years' standing, and I had begun to feel it would always be thus. That yeast treatment was started 15 months ago. Since the end of the first four or five weeks, I have not had the slightest need for purgatives of any kind. The benefits cannot be measured in money. Now I find I can eat any food or combination of foods without fear of a constipating effect; my appetite and digestion are perfect.
(Mr. Frank E. Rice of Ithaca, N. Y.)

"ACNE blotches had covered my face, and as my engagements to sing became frequent I felt more and more sensitive over my disfigured complexion. In desperation I used soaps, ointments, tried dieting, and even a series of 20 X-ray treatments. "After every other measure had failed, I began eating 2 cakes of Fleischmann's Yeast daily. Scarcely two weeks had passed before my complexion began to clear, the blotches fading and no new ones had appeared. At the end of a month my face had regained its youthful texture, and was free from blemishes."
(A letter from Miss Caroline Curtis, a New York concert singer)

"SINCE childhood, I have had to resort to taking salts every two weeks to relieve constipation. It was very seldom that I had a natural, healthy appetite. A night never passed that I would sleep soundly. Then I started eating Fleischmann's Yeast. My appetite began to increase, and my constipation gave way gradually to a healthy, regular, daily discharge of waste. Now each morning finds me full of life and vitality."
(Extract from letter of Mr. F. A. Christopherson of Fresno, California)

"INNUMERABLE boils on each of the three children—all treatment seemed in vain. Three medicine spoons went down three tiny throats twenty times daily. Boils still came. The little sisters still cried. "When at last the doctor suggested Fleischmann's Yeast, the household laughed. But soon the boils came less frequently. And when three little girls began to spread Fleischmann's Yeast instead of butter on their bread, the boils disappeared entirely."
(Extract from letter of Mrs. Mary H. Lloyd of New Albany, Ind.)

"IN MARCH, 1920, I read your 'Yeast for Health' advertisement. Frankly, I did not believe it. For years I had been troubled with an acid condition of the stomach; 'heartburn,' constipation, no pep. Merely out of curiosity I tried yeast—and was greatly astonished. My digestion improved rapidly. That stuffy feeling caused by a heavy meal disappeared. My bowels function without artificial assistance. The acidity has not returned and my daily dose of soda is a thing of the past. In brief I was not merely relieved—I was cured."
(A letter from Mr. M. M. Glauber, an Oklahoman)

Dissolve one cake in a glass of water
(just hot enough to drink)

—before breakfast and at bedtime. Fleischmann's Yeast, when taken this way, is especially effective in overcoming or preventing constipation.

Or eat 2 or 3 cakes a day—spread on bread or crackers—dissolved in fruit juices or milk—or eat it plain.

Fleischmann's Yeast comes only in the tinfoil package—it cannot be purchased in tablet form. All grocers have it. Start eating it today! A few days' supply will keep fresh in your ice box as well as in the grocer's.

Write us for further information or let us send you a free copy of our latest booklet on Yeast for Health. Address: Health Research Dept. 866, The Fleischmann Company, 208 Simcoe Street, Toronto, Ont., Canada.

What Is A Half Hour Worth?

"J. P. Morgan figured that every hour of his time was worth \$1,000," says Bruce Barton, "and he had no patience with men who were late for appointments or who, when they came to see him, did not give him his money's worth in exchange for the time he took."

How much do you lose, in your business, by being too late—by trusting to inadequate transportation? Bruce Barton goes on to say that Lord Nelson declared he owed all of his success in life to having been a quarter of an hour before his time.

Just because you have never got around to buying the extra automobile which you need, you may be losing sales, missing important business appointments. You are frequently a half-hour late and that means—too late.

There never was a time when motor cars were so inexpensive as right now.

The used car columns of The Times-Star list scores of excellent autos which are in good condition and which will be had at most reasonable prices.

Be on time—beat your competitor at the wire—use an automobile in your business.

GLAD TO RECEIVE JUNIORS' GIFTS

Several complimentary letters have been received at the headquarters here of the Provincial Junior Red Cross, thanking them for their work, gifts and contributions during the last year.

The Junior Red Cross has done considerable work for the children of St. John children in the province, to hospitals in Woodstock, Fredericton and St. Stephen and to the Lady Byng Health camp at Fair Vale. It was from these that the letters were received.

"The things were a very heavy welcome if you ever care to send them again," was what the Chipman Memorial Hospital at St. Stephen wrote.

Boxes are now being made up to be sent to River Glade, Newcastle, Chatham and Moncton. Although no St. John children helped in the work, the Junior Red Cross has done considerable work for the children of St. John children in the province, to hospitals in Woodstock, Fredericton and St. Stephen and to the Lady Byng Health camp at Fair Vale. It was from these that the letters were received.

HATS MAKE OR MAR; STYLES OF THE DAY

By HEDDA HOYT Fashion Editor of The United Press

New York, N. Y., July 17.—Hats are the most important factors in the feminine wardrobe. A woman is made or marred by her hat. The beauty is an unbecoming hat becomes an ugly duckling, and the ugly duckling in a becoming hat becomes, if not a beauty, an attractive person.

Gowns have little to do with one's beauty. A pretty woman looks as well in a dingy hat as in an expensive beaded frock. Gowns cannot diminish or accentuate beauty to any great extent. But hats are the flatterers of the feminine wardrobe.

So far this season, the cloche-shaped hat has been the leader of the millinery world. Trimming is growing higher and higher and the milliner has been wearing them. But milliners saw that the time has come for the cloche to go. What shapes still under consideration.

However, this much is certain—the large sunnery hat is just a trifle smarter than the cloche-shape at present. Large leghorn horsehair, pressed straws and fancy braids are already being worn by the better dressed women on warm days.

Trimmings on hats are rather inconspicuous, being placed flat on the upper or under brim. The single flower or ribbon is popular where one huge flat rose is placed either on the upper or under brim. Ribbon trimmings are also popular.

Garlands and wreaths are not being used this season. In all instances, the large hat is much more important than its trimming.

The horsehair hat, those tortoise cloche horsehair trimmed in single flower trimming and worn with the popular tortoise-hued frocks are especially lovely. So many of the best light brown tones for dress wear that the large hat of brown horsehair or lace is conspicuous in its loveliness.

One can get an idea of the current brown mode for afternoon wear in New York tearooms of the past seasons. Frocks of brown lace or chiffon worn with large picture hats of the same tones. Often a bit of orange is added to the color scheme, being applied in the corsage or by an underslip. The hat may also carry out the orange color scheme by adding a narrow piping of orange ribbon to the edge of the brim and adding a flat silk flower of orange tone.

Leghorns are popular for summery frocks of past seasons in coloring and trim. The smartest leghorns are tinted in pastel shades, such as yellow, pale green, light brown or dull orange. When tinted in colors, the leghorn is but slightly trimmed. Perhaps there is a velvet ribbon of a darker shade than the hat placed on one side of the brim.

Any ordinary hat dye can be used to color the leghorn of previous seasons, thus turning it into a smart hat. If the hat has lost its firmness of line, the brim may be wired and the wire concealed beneath a fold of narrow velvet ribbon.

Trimmed With Lace. A pretty trim for the natural shade leghorn is achieved by means of brown lace. Lace, five or six inches wide, is shirred about the crown and backed around the edge of the brim with an inch border of the lace extending just beyond the edge of the trim for softness. Both upper and under brim are thus covered with lace and the crown is left plain but finished with a fold of lace. No other trimming is used on this hat, which is dressy enough to be worn with the icy frock and simple

SPORT NEWS GLEANED FROM WORLD'S CENTRES

SAYS STATES MADE A POOR SHOWING

Writer Makes Some Caustic Comments on Their Olympic Team.

The Olympic track and field games of 1924 have now passed into history. Uncle Sam won the big games at Paris.

I do not think that America has a whole lot to brag about. The U. S. A. team was not a howling success in the games, says Arthur Duffy in the Boston Post.

Finland was the star performer of the Olympic games. No wonder the Finns are celebrating a moral victory in the classic contests.

Finland sent 62 athletes to the great games. They went unheralded and unusing. They had no Olympic trials in their country such as America did before the games.

I feel safe in saying that if Finland had sent as strong a second and third string list of performers to the games as we did, there is little doubt that the representatives from the little Scandinavian country would have run away with the Olympic crown.

Yanks' Lone Win on Flat. On the other hand, contrast our showing in the contests. We boast some 110,000,000 inhabitants. We sent 104 men to the games, just about twice as many as Finland.

An athlete has one objective in his athletic career. It is usually the Olympic games. Every other contest is subservient to it.

As a matter of fact their whole objective was centered on the final trials in the Stadium instead of the Paris games. As a result, all our best men ran out at Paris and out of luck when the big games were on.

Now for Finland. Many reasons have been advanced for the wonderful work of the runners representing this little country.

I understand the food consumed by the Finns is of the plainest sort. No fancy dishes, washed down with a chocolate frappe or a tricky gin rickey, but just common, wholesome food.

The purpose is seeking Sir Galahad III, looking to the purchase of this French bred four-year-old and his transfer to this country.

The name of the American who has been keeping the cables busy in the effort to make the deal is not disclosed; neither are those of the syndicate that is willing to put up the money for the purchase.

Undebaten in 19 Starts. Sir Galahad III is a son of Teddy, leading sire of France last year. He is by Ajax, one of the great race horses of France, unbeaten in 19 starts, including the Grand Prix.

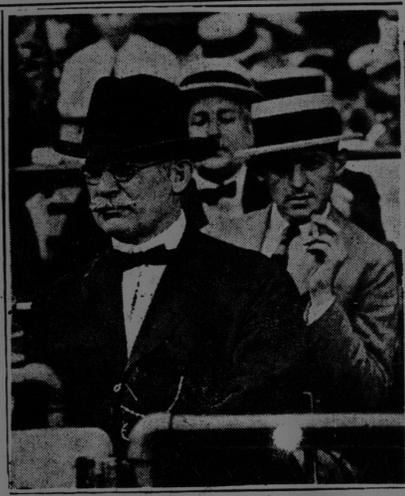

While all the attention was directed to the arrival of Epinaud last week, a horse stole into New York from England and quietly made his way out to the Aqueduct track unheralded.

Men like Nurmi, Ritola and Stenros were established athletes prior to the Olympic games. They had no trial to pass through, as did our athletes. They knew they had made the Finland team. In other words, they were not forced to prime themselves for a set of trials, reached the edge of competition and continue this training aboard ship for another test later.

Finland made a gallant and wonderful showing because its Olympic policy was sound and reasonable. There were no hurrahs or an army of coaches attendant their preparation. The Finns knew what they had before them and prepared themselves accordingly.

The United States would do well to copy some of Finland's stuff before 1928 rolls around.

OFFERS \$200,000 FOR SIR GALAHAD U. S. Turfman Seeks to Buy Great French Thoroughbred Outright.

New York, July 16.—The coming of Epinaud, the great French thoroughbred, to this country for a series of three international races, and the desire of August Belmont and Matt Winn to get other European horses over here for the contests has started something.

Overtures, it was learned here, made from New York to Captain Jeff. Sir Galahad III, looking to the purchase of this French bred four-year-old and his transfer to this country.

The failure to interest Mr. Cohn in bringing Sir Galahad III over for the events has led to an offer to buy his horse outright. The price offered is said to be \$200,000.

The name of the American who has been keeping the cables busy in the effort to make the deal is not disclosed; neither are those of the syndicate that is willing to put up the money for the purchase.

Undebaten in 19 Starts. Sir Galahad III is a son of Teddy, leading sire of France last year. He is by Ajax, one of the great race horses of France, unbeaten in 19 starts, including the Grand Prix.

While all the attention was directed to the arrival of Epinaud last week, a horse stole into New York from England and quietly made his way out to the Aqueduct track unheralded.

Men like Nurmi, Ritola and Stenros were established athletes prior to the Olympic games. They had no trial to pass through, as did our athletes. They knew they had made the Finland team. In other words, they were not forced to prime themselves for a set of trials, reached the edge of competition and continue this training aboard ship for another test later.

Finland made a gallant and wonderful showing because its Olympic policy was sound and reasonable. There were no hurrahs or an army of coaches attendant their preparation. The Finns knew what they had before them and prepared themselves accordingly.

The United States would do well to copy some of Finland's stuff before 1928 rolls around.

CARDINAL PITCHER CARVES MONUMENT

Haines Pitches No Hit, No Run Game—Yesterday in the Majors.

(By Canadian Press.) New York, July 15.—When Jess Haines pitched the Boston Braves without a hit or run and beat them, 5 to 0, he not only carved a monument for himself in baseball's immortal hall of fame, but he boosted the Cardinals from last place in the National League into a tie with the Boston team for sixth place.

Haines' feat, while not perfect, was outstanding enough to gain him an enviable place in baseball's history. Not since 1876, the year the National League sprang into existence, has a St. Louis National League twister turned in a no-hit, no-run game.

The Giants lost a bit of ground yesterday when Pittsburgh walked away with a 4 to 3 verdict in 13 innings, Chicago gaining a full game by defeating Philadelphia, 3 to 2. Cincinnati pulled the Brooklyn Dodgers out of third place by defeating them, 10 to 8, in a slugging match.

Washington, hanging tenaciously on the heels of the New York Yankees, by dividing a double-header with St. Louis, the Browns shutting Stanley Harris men out in the first game, 5 to 0, but losing the second game, 12 to 7.

New York and Cleveland and Detroit and Boston were idle, due to rain. The White Sox humbled Connie Mack's Athletics again, 18 to 5.

Games Tonight

The South End League has an important game billed this evening between the Trojans, league leaders, and the St. John the Baptist, who have been coming along with a rush lately.

This is a postponed game and as both teams meet again on Monday night, a win or loss tonight will have a bearing on the title. The Trojans will send their star, "Les" Kerr, to the mound, while the Saints probably will use Moore or Torrie. "Tack" Dalton has pitched two hard games this week, winning both for the Saints.

In the City League, the St. Rose's take the Clippers on the Nashua diamond tonight. A loss for the Clippers would put the Portlands two and one-half games ahead in the race, while the will be tied with Murphy or Conlon will twirl for the Fairville, and either Sterling or Griffin for the Clippers.

R.K.Y.C. MEMBERS TO BE HONORED. Seven Will Receive Special Badges Prior to Start of Cruise.

Just before the yachtmen of the Royal Kennebec Yacht Club start away tomorrow afternoon from Millidgeville on their "Happy Days" cruise on the St. John River, a pleasing ceremony will take place at the club house of this fine organization. It will be the presentation of special badges to seven members of the club who have just completed 25 years of affiliation with the R. K. Y. C.

The badges will be presented Andrew B. Burns, Frank B. Ellis, J. Fraser Gregory, Dr. A. H. Merrill, W. H. Turner, W. B. Wallace and William White, each of whom has rounded out a quarter of a century of membership. The presentation will be made by James W. Barnes, the popular commodore of the R. K. Y. C. in addition to the seven named, the following received the 25-year badge in former years: Charles E. Elwell, W. G. Stratton, F. P. Starr and Frank Whelpley.

PLAY TWO GAMES WITH PORTLANDS. Machine Gunners Oppose City League Leaders in South End.

The Portlands, leaders in the City League race, will oppose the Machine Gunners in two exhibition games in the South End diamond tomorrow at 8 p. m. and 7 p. m. It was announced this morning by Manager Victor Markham, of the Gunners, who has been out of action for several weeks owing to illness, Ira Hannah or Ross will twirl for the North Enders. The inter-league flavor imparted to these games is bound to make them a good drawing card.

Damp sawdust sprinkled on a dusty floor before sweeping will prevent the dust from rising.

DALTON LEADING IN BATTING RACE

Eight Players in South End League Are Now Batting Above 400

"Tack" Dalton, St. John the Baptist star, moved into first place in the race for batting honors in the South End league this week, according to official averages including Wednesday night's game. His teammate, Fraser, maintains his place at the top with a fine batting mark of 450. "Jimmy" Tim Lenihan is fourth with 431.

The Saints have seven regulars batting above 300, they being Dalton, Fraser, Moran, Cyril Moore, Gaynes and Callaghan. The Trojans have six, they being Bartlett, Greg, Kerr, MacGowan, Cox and Wiley while the Gunners have four, Lenihan, Barry, McCuskey, and Rowley. The Royals have three, Price, Nelson and Harper. The averages are:

SAYS WOODS CAN OUTPUNCH VILLA

Frank Moody Tells of His Workout With Scotch Flyweight.

Frank Moody, great English middleweight, declared after a workout with Wee Willie Woods, Scotch flyweight champion, at Wamsout that he would not be surprised if his stablemate trounced at least one known world flyweight champion in his contest with Pancha Villa, world flyweight champion, at Mechanics Building, Boston, on Monday night.

"I never saw a little fellow who could punch half as hard as Woods," said Moody. "I'm a big, tough fellow, weighing 160 pounds, but frankly admit that Woods shakes me up every time he scores with a solid blow.

"Wee Willie gets tremendous power behind his punches. This or account of his fine shoulder and chest development and the fact he is always going forward when he hits the enemy.

"They tell me that Villa likes to risk an exchange of blows with a rival. If he does, Woods will knock him down. And when you can drop a rival to the canvas you always have a chance of winning by a knockout.

GIANTS AND WHITE SOX TO BARNSTORM EUROPE. Chicago, July 18.—The New York Giants and the Chicago White Sox will go on a barnstorming tour of Europe this fall if the major league club owners give their consent. Preliminary plans provide for games in England, Scotland, Ireland, Wales, France, Belgium, Germany and Canada, the schedule to be finished on or before Nov. 29. Games may also be played in the United States if time permits.

Ball Problems By Billy Evans

QUESTIONS. 1. Do the American and National Leagues now agree on all interpretations of the playing rules. A insists the two leagues conflict on a number of points. B says no. Who is right?—C. G. S.

2. Does a base on balls in any way affect a player's batting average?—P. W.

3. With a runner on first base, he attempts a steal of second. Catcher made no attempt to throw, since runner had a big lead and was certain to beat a perfect throw. Catcher has the reputation of having a weak arm. Is it a stolen base?—R. P.

4. With three and two on batter, he strikes at next pitch and misses for third strike. Ball is low and gets away from catcher, runner reaching third before it is recovered. Is runner within his rights in so advancing?—C. C. D.

ANSWERS. 1. For years two major leagues differed on perhaps a half dozen rulings of the playing code. A is in the interpretation of playing code.

2. Since a base on balls does not count a time at bat, and does not enter into the hit column, it has no effect whatever on a player's batting average.

3. Baserunner is credited with a stolen base. Weak arm of catcher gets no consideration.

4. Unless there is a ground rule covering wild pitch or passed ball, baserunner is entitled to advance at his peril, and was within his rights going to third.

GIVES DETAILS OF BRAVES FRAGS

Members of Boston Team Stage Battle Royal in Hotel.

Cincinnati, July 18.—Particulars concerning the fight among the members of the Boston Braves has leaked out in spite of the efforts to keep it quiet. The players were very secretive when they appeared on the field here on Tuesday for their game with the Reds, and they were defeated 7 to 0, displaying very little "paw." Several of the players were on the partially disabled list owing to the fight.

It was reported here that the combat took place in the early morning hours at the end of a prolonged party in which the cultured Boston athletes had indulged in the absence of their manager, Dave Bancroft. Five or six of the players took part in the free-for-all, but only two were seriously damaged.

Attyce O'Neil, the combative Irish catcher, was wearing a bandage around a badly discolored and puffed chin, while Jess Barnes was nursing a sprained thumb when the team appeared on the field for Tuesday's game.

The party, which broke up in the big crowd, was organized as the windup of Monday's idleness, caused by the postponement of the game on account of rain. It started in a merry spirit and all went happily for a while, but, as time wore on, various disputes arose among the athletes and it ended in a general mix-up which caused all sorts of ill-feeling among certain cliques on the team. This scrap has further weakened an already badly disorganized club.

SUSPEND MANAGER OF JOHNNY DUNDEE

Refused to Sign for Title Bout With "Kid" Kaplan.

New York, July 18.—Charles Johnson, manager of Johnny Dundee, world's featherweight champion, has been suspended by the State Athletic Commission for his refusal to sign the contract submitted to him by Dennis McMahon, Louis (Kid) Kaplan's manager, for the proposed Kaplan-Dundee title match. The commission had previously approved the contract. Johnson's suspension will hold until he signs the contract.

The lightweight situation to select a capable opponent for Benny Leonard, champion, is still in an unsettled condition and the commission ruled that a new tournament must be held to include some lightweights not included in the previous tournament. Fourteen boxers were named as eligible to start in the tournament. They are: Alex Hart, of Philadelphia, Pa.; Pal Moran, of New Orleans; Johnny Mendelsohn, of Milwaukee; Jack Bernstein of Yonkers, N. Y.; Archie Walker, of New York; Mel Coogan, of Brooklyn; Charlie O'Connell, of Cleveland, Ohio; Sammy Mandell, of Rockford, Ill.; Jack Zivic, of Pittsburgh; Sid Barbarian, of Detroit, Mich.; Joe Dundee, of Baltimore, Md.; Ray Mitchell, of Philadelphia; Charles White, of Chicago, and Luis Vincentini, of Chile.

Each contestant in the tournament must post a forfeit fee of \$500 each with the commission.

A committee composed of Charles L. Henderson of the Nostrand A. C., George L. (Tex) Richard of Madison Square Garden, and James J. Johnston of the Cromwell A. C. were appointed a new committee to stage the elimination tournament. This committee will arrange the bouts, match the fighters, and determine the purse each contestant will receive.

The tournament will start Aug. 1 and must be completed within 30 days. Champion Benny Leonard will be ordered to meet the winner within 30 days after the tournament.

30-METRE FINAL WAS BITTER RACE

Abrahams' Superiority Over Yankee Opponents was Quite Marked.

The defeat of the four Americans in the Olympic sprint was not entirely unexpected. Harold Abraham's powers were known, and when in his heat yesterday he won in Olympic record time of 0.10 3-5 it became obvious that the four Americans would have to do better than their best in the heats to beat the Cambridge flier, says the New York Times.

third place in the final standing for the all-around test. Taylor's running in the final of the 400-metre hurdles was a wonderful piece of work. The race was his nearly all the way. The Americans suffered a piece of bad luck when C. R. Brooklan, who took second place, was disqualified by the jury. Vilen, the Finn, who took second place, beat Ivan Riley by only a chest-breast.

AUSTRALIAN WON

An encounter between George Cook, of Australia, and Paulino, the Basque, was recently seen in London. Of this bout the London Telegraph sports editor says: Paulino looked every ounce as formidable as his preliminary press and fight had made him out to be. Bull-necked and bull-shouldered, and with good legs, he was a magnificent example of his kind. Cook, an appreciably lighter man, and short-armed, would, one felt, need all his well-known pluck and stamina and ringcraft to bait—and beat—his man over 10 rounds. Paulino, too, quickly showed that, even if his crude cover-up was a poor apology for a guard, and hampered himself in attack, he had a truly dangerous punch behind it all.

SHARKEY WON BY A WIDE MARGIN

Had Homer Smith Groggy and Forced Him to Clinch.

Luis Firpo couldn't stop Homer Smith, the Kalamazoo, Mich., heavy-weight, when they met last year, but Jack Sharkey, Boston's newest fist sensation, came within an ace of performing that stunt last night, which stunted crowning the perfect night of heavy-weight milling, the show of the Suffolk A. C. at Braves Field, says Jack Maloney in the Boston Post. Sharkey won the decision after the final bell had tolled, but if there had been another round to go, he'd have added one more knockout to his record.

ST. JOHN INTEREST IN APPOINTMENT

Major F. D. Burpee Vice-President of Ottawa Electric Ry. Co.

The Journal of Commerce, Montreal, telling of the appointment of Major F. D. Burpee as vice-president of the Ottawa Electric Railway Co. in succession to the late Warren G. Soper, says: The appointment of Major Burpee to this office at the comparatively early age of 48, is another important advancement in his interesting business career. He is an Ottawa boy, and was born there on April 25, 1876, a son of the late Lewis J. Burpee and Alice deMille, of St. John, N. B. His mother is still living in New Boston, where Major Burpee has a residence.

Passenger Hurt. A taxicab, driven by A. W. The front springs of the car were smashed and one of the passengers was knocked unconscious by being hurled against the roof of the car. Mr. Best declared last night that there was no sign of lantern or any other warning of the obstacle on the road.

MORE S HEARD IN ROBBERY CASE

Several Witnesses Testify
Today on Charge Against
Charles Green.

A preliminary hearing in the case of Charles Green, who was taken into custody recently on suspicion of acting with others in a brazen and brazen robbery of a clothing store of J. L. Collins in Union street and stealing goods valued between \$500 and \$600, was continued in the police court this morning. After several witnesses had been heard the case was set over to Monday afternoon when it is expected the prosecution will complete its case.
Mrs. Gertrude Wasson told of seeing three young men leave an alley in Peters street on Palm Sunday. They were carrying parcels under their coats and she saw it was clothing. Two of them hurried out and went towards Coburg street. The third left as she was passing the alley. He was wearing a light spring overcoat and had a parcel of clothing under it. Asked if she could identify the defendant she said she resembled the youth, but she could not say positively that he was the one.
Charles R. Wasson told of going along the street on Palm Sunday afternoon and seeing three young men carrying something under their coats. He at first thought they were carrying hens, but then saw clothing with tags attached. He did not recall the appearance of the young men.
David Love said he was standing in his stable entrance in Peters' alley on Sunday afternoon, April 13, and saw three young men pass with parcels under their coats. He saw the leg of a pair of trousers hanging down. He said the defendant resembled one of the young men in size and build, but he could not say positively that he was the man.
James McCarthy, 19 years old, said he was playing in a yard near Fleming's Foundry on Sunday afternoon and the defendant asked him if he could get him a bag. He said he did not have any and Arthur Gallagher got one from his woodshed. He saw the defendant put the clothing in it and go towards Lombard street.

RAINFALL WAS
NEARLY AN INCH
Welcome Downpour Has
Done Much Good in
the Country.

During the storm which passed over here late yesterday afternoon and last night almost an inch of rain fell. The long drought was beginning to effect the crops in the country and the downpour was welcomed. It also did much towards lessening the fire menace to the valuable timber lands throughout the province.
According to an official announcement given out at the Meteorological Observatory in Douglas avenue today 92 of an inch of rain fell during the storm, which brought the month's total up to 1.88 inches. During the month of July last year the total precipitation was 2.10 inches.

The stubborn fire which has been burning in the vicinity of Passakeng for the last 10 days was declared to be quenched today following the heavy rain of last night.

GIANTS ARE HERE.
The Cleveland Giants arrived at noon from Fredericton to play the Vets here this evening and tomorrow. The Giants were booked to meet the capital team yesterday, but the games were cancelled on account of wet weather.

BURIED TODAY.
The funeral of Agnes Dudley Lahey took place this morning from her late residence, 288 Germain street, to St. John Baptist church, where requiem high mass was celebrated by Rev. J. J. McDermott. Interment was made in the new Catholic cemetery.

ADJUSTING CLAIMS.
W. J. Brown, assistant inspector of customs and excise for New Brunswick, returned today from Fredericton, where he has been adjusting the claims of manufacturers during the last week in connection with the administration of the sales tax.

TRAFFIC CASE.
John McDonald was fined \$10 in the police court this morning for a violation of the street traffic by-laws by making a wrong turn with his auto at the intersection of Main and Adelaide streets. Special Constable McBride testified.

THE COURT HOUSE.
A meeting of the buildings committee of the Municipal Council will be held on Monday afternoon at 2:30 o'clock in the office of J. King Kelley, K. C., country secretary. The main business before the meeting will be consideration of plans and specifications for the reconstruction of the Court House.

LOCATES IN HARTLAND.
The Carleton Observer, Hartland, N. B., says: "W. O. Chestnut, M. D., of St. John, arrived in Hartland on Monday and is locating there. He has obtained the office of the late Dr. Curtis. Dr. Chestnut, who went by automobile from St. John, was accompanied by his wife, who will remain in Hartland a few days."

GIVEN SHOWER.
A pleasant time was spent Thursday evening when about 50 friends gathered at the home of Mr. and Mrs. B. Slovic, Main street, and tendered Miss Elizabeth Coleman, of Moncton, a linen shower. Music and dancing helped to make an enjoyable evening. Refreshments were served by the Misses Ethel Coleman, Bessie Benjamin and Fannie and Lena Slovic.

NO CONCERT TONIGHT.
There will be no concert on the Kings square tonight. The concert for last night was postponed on account of the storm. It was to have been played by the City Cornet Band, taking the place of the Carleton Cornet Band. The City Cornet Band will revert back to its regular scheduled concert, Monday, July 28.

AWNING TOO LOW.
John Evans, who was reported for having an awning over his store in Main street, was charged with having a low awning. He pleaded guilty today, and said that he had made arrangements to have it set up higher. Several friends, however, had been warning the defendant all summer and he had paid no attention. A fine of \$4 was struck.

TO GOOD POSITION.
H. W. Fairweather, 115 Burpee avenue, left St. John on the Boston boat on Wednesday morning enroute to New York, where he will embark for Cuba. Mr. Fairweather has accepted a position as building inspector with Robert Sayer, Kent, consulting engineer of Brooklyn, N. Y., and is going out to Havana where the firm is building a large sugar refinery. His many friends wish him every success in the undertaking.

PRESENTATION.
Members of Baxter Lodge, L. O. B. A., No. 92, and friends held a social last evening in the Orange Hall, Fairville. One half of those present, Councillor William Golding presented a set of china to Mr. and Mrs. William McAllister, who were recently married. In a few words they thanked their friends for the gift. The evening was pleasantly spent in dancing. Delicious refreshments were served by Mrs. Oliver Stinson, Mrs. John Baird, Mrs. Harper Henderson and Mrs. Robert Rose.

DIED TODAY.
The death of Mrs. Robert O. Causon, 4 Dick street, occurred at her home this morning after illness of several months. Besides her husband she is survived by four sons, Robert O., Jr., Walter W. and Ronald B., at home, and Clarence P., of Toronto; three daughters, Dorothy, Ethel and Thelma, at home; one half-brother, George Nelson, St. John; and four sisters, Mrs. F. Conroy and Miss Annie McDermott, of Portland, Me.; Miss C. McDermott, of Boston, and Mrs. John Doherty, of Lawrence, Mass. Mrs. Causon was a daughter of the late Patrick and Mary Jane McDermott. Many friends will sympathize with those bereaved.

**"GENE" FINED BUT
NOT BY MR. UMP.**
Court Lets It Stand Against
Vets' Player in Auto-
mobile Case.

Eugene Tippetts was fined \$10 in the police court this morning on a report for operating an automobile in this city with Massachusetts license instead of having a New Brunswick license. He explained that he intended disposing of the car and in even of failing to do so he would keep it in a garage until the completion of his contract with the Vets baseball team and would then take it back to the States. Magistrate Henderson said he would allow the fine to stand, but if he was again reported for operating it he would have to pay both fines.

TWO APPOINTED TO PLACE ON BOARD

Question of Enlarging Home
for Incurables Comes
Up Later.

Two new members were elected to the board of trustees at the annual meeting of the subscribers to the Home for Incurables which was held yesterday afternoon. J. H. F. Teed was elected to the position left vacant by the death of Dr. S. D. Scott, last December, and Mrs. LeBaron Wilson in place of a member who had resigned from the board.

Reports from the officers were received and votes of thanks were tendered the Women's Aid and the physicians for their assistance during the year. The election officers and the discussion of matters of business will take place at the regular meeting next month. It is expected that there will then be discussion concerning the possibility of enlarging the home.
In addition to the new members the personnel of the board is as follows:—J. S. Gregory, F. B. Ellis, John Seely, G. F. Fisher, L. R. Ross, G. E. Barbour, F. B. **EAST ST. JOHN
HOSPITAL BOARD
HOLDS MEETING**
The resignation of Dr. E. Cosman Davis from the staff of East St. John hospital was received with regret at a meeting of the Board of Commissioners held yesterday at the hospital and it was decided to express appreciation of his services through a formal letter. Those attending yesterday's meeting, which was held at the hospital, included W. W. Sinter, H. B. Schofield, W. J. Dean, Mrs. E. A. Smith, and Mrs. J. H. Frink.
It was decided to write the Women's Hospital Aid and express thanks for the gift of a radio set. It was also decided to invite the county councillors to dinner at the hospital at a date in the near future.
It was reported to the meeting that the steam pipe to the nurses' home had failed, and a committee was appointed to remedy matters.
A donation of \$12 from an unnamed friend was gratefully acknowledged.

As Hiram Sees It
"I see," said The Times reporter to Mr. Hiram Hornbeam, "the West End Board of Trade is to be revived."
"What—agin?" queried Hiram.
"Once more again," said the reporter.
"Don't it beat all," said Hiram.
"I remember," said the reporter, "being present at the revival of the West End Improvement League four years ago last spring."
"Was you there?" said Hiram.
"I was," said the reporter. "Also the next spring—and the next. I wasn't there last spring—but I suppose it revived."
"It's a habit," said Hiram.
"Mind you," said the reporter, "I am not casting any reflections on the good people of the West End. The editor would fire me if I did."
"Sure," said Hiram. "They're the salt of the earth. That's the reason they need smelly salts once in a while to bring 'em to agin. But look here, mister. The West End is the only part o' town that's goin' ahead right now. Look at them noo factories. An' you fellers over here can't even git a hotel-ey, what?"
