CRISIS IN BRITAIN; GOVERNMENT GIVES UP REINS

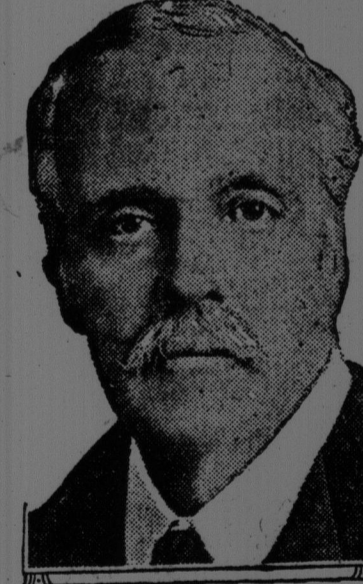

THESE MEN ARE PROMINENT IN BRITISH CRISIS

AUSTEN CHAMBERLAIN. Right hand man of Lloyd George, found whom the fight reached crisis.

LORD BIRKENHEAD. One of the Conservative Coalitionists who went down with Leader.

LORD BALFOUR. Prominent Conservative coalitionist who goes out with the government.

REPUBLICAN BASE IS FOUND IN CORK CITY

Further Blow to the Campaign of the Irregulars in Ireland.

Cork, Oct. 19.—The arrest of H. O'Mahoney, a Cork Republican, led today to the discovery of an important Republican base in this city. In a house on the Grand Parade was found evidence that the building was used not only as headquarters for the Republican publicity campaign but also as the centre of Cork No. 1 Flanagan (a military organization named after the ancient Irish Fenian bodies).

Word was received today from Leppas that Jonas Howe, aged eighty-two, son of the late William and Susan Howe, had passed away yesterday morning at 8.30 o'clock at his home here. He leaves two sisters, Miss Annie Stafford and Miss Susie Howe, both of Leppas. The funeral will be held tomorrow morning at eleven o'clock, and interment will be at Mus-

CONSERVATIVES OF COALITION IN OLD LAN DESERT LLOYD GEORGE; FIGHTING PREMIER HAS RESIGNED

Break-up of the Cabinet Was Forced Today by Carlton Club Meeting

Overwhelming Vote Against Remaining in the Coalition; Bonar Law, Lord Derby or Lord Curzon for the Post of Prime Minister; Short Life for New Conservative Government and Then the Elections; Lloyd George May Form New Party

London, Oct. 19.—The Lloyd George coalition received its death blow at the hands of the Conservative party today when the Conservative members of the House of Commons and government ministers at their meeting in the Carlton Club voted by 186 to 87 to appeal to the Country as the Conservative party.

RESIGNATIONS NEXT IN ORDER

The next move certain to be made will be the resignation of Austen Chamberlain and his associates, Lord Balfour and Lord Birkenhead, from the cabinet. It is expected Lloyd George will then present his resignation to the King and advise His Majesty to summon a Conservative leader to form a government. This course would be taken because the Conservatives have the largest number of members in the House of Commons.

The Conservative leader expected to be picked for the task is either Andrew Bonar Law or the Earl of Derby.

London, Oct. 19.—(By the Associated Press.) The government of Prime Minister Lloyd George resigned this afternoon.

NEW LLOYD GEORGE PARTY?

The party lines upon which the election will be fought present a profound puzzle. One suggestion is that Lloyd George may form a centre party in which he could count upon Austen Chamberlain and Lord Birkenhead, and perhaps Lord Balfour, the three cabinet members whose adherence to him has been repudiated by today's conference. This new party, it is suggested, would probably command the support of a good proportion of the Conservatives who stood by the coalition, and also of the Coalition Liberals. This formation might put the labor party in the position of the chief opposition party.

The possibility that Lloyd George will try to return to the leadership of the Liberals is not to be overlooked either. Bonar Law's friends question whether his health will permit him to take office, even for a short time.

PERHAPS CURZON.

Lord Derby seems the most probable alternative selection for premier, although it is suggested that Lord Curzon, who gained greatly in prestige by his work in the recent Near East negotiations and is believed to have been a lukewarm coalitionist, might be summoned to form a government.

LAW FOR INDEPENDENCE.

Announcement of the vote of the Conservatives was preceded by reports from the Carlton Club that Austen Chamberlain's statement had failed to satisfy the meeting, and that Andrew Bonar Law had spoken in favor of maintaining the independence of the Conservative party. Mr. Bonar Law's speech was said to have had a great influence upon the meeting.

MEETING HERE TO PREPARE FOR THE SCOTTISH CURLERS

SEEK EXEMPTION FROM NEW STAMP TAX ON RECEIPTS

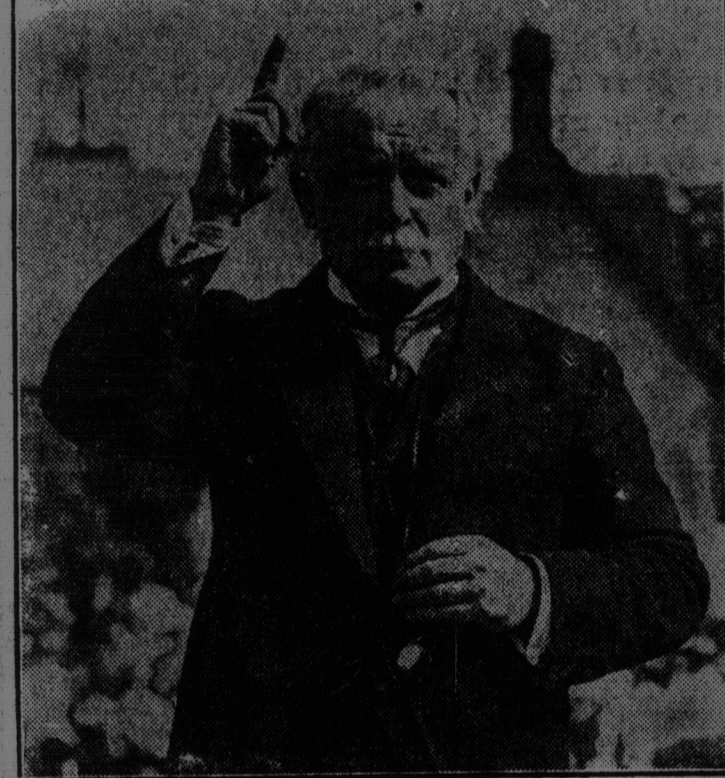

PROGRESSIVE TO FIGHT FOR THE MOOSE JAW SEAT

Ottawa, Oct. 19.—(Canadian Press)—A deputation organized by the Union of Canadian Municipalities and representing the principal cities and towns of the dominion will wait upon Hon. Jacques Bureau, minister of customs, on next Friday, and submit reasons why municipal corporations should be exempt from the new receipt stamp tax.

Ottawa, Oct. 19.—(Canadian Press)—The recent judgment of Justice Emery and MacKenzie of Saskatchewan, declaring the election of R. M. Johnson as Progressive member for Moose Jaw void, will be appealed to the supreme court of Canada.

The election of Johnson was declared void on the ground that he was guilty of practices in making false returns in connection with election expenditures.

WORK CONDITIONS ARE IMPROVING

More Men Placed in Maritime Provinces in September Than During August—343 Here.

Contrary to expectations, the work accomplished by the federal employment services offices in the maritime provinces during September, greatly exceeded the record of the previous month, and in this fact the officials see a betterment of conditions amongst the unemployed.

KING RETURNS TO LONDON; RECEIVED LLOYD GEORGE TODAY

The News of the Government's Fall—Junior Unionists in Cabinet Resigned Immediately After Carlton House Meeting.

London, Oct. 19.—King George, who has been on a holiday at Sandringham, returned to London today. It is expected that Premier Lloyd George will be received in audience by him late today.

Austen Chamberlain and some of the other cabinet members conferred with the premier immediately after the Unionist meeting.

London, Oct. 19.—After a brief audience with King George this afternoon, Lloyd George returned to Downing street, where he received a miners' delegation, but according to Frank Hedges, who headed the delegation, Lloyd George said he could not consult them as premier, since he had resigned. Members of the miners' delegation said Lloyd George had told them the King had accepted his resignation.

ST. LOUIS GETS 25 BALL PLAYERS

Net Gathers Them in from the Minors

Jeff Smith Defeats Roper—Villa and Goldstein Match—Halifax Party Await to See the Schooner Races Off Gloucester.

St. Louis, Mo., Oct. 19.—The St. Louis American League Club has obtained twenty-five players from minor leagues—eleven pitchers, six infielders, six outfielders and two catchers. Fifteen were purchased and ten recalled.

New Orleans, La., Oct. 19.—Jeff Smith had all the better of Captain Bob Roper in a fifteen-round bout here last night. Smith battered Roper almost at will, and the bout was ended. Roper weighed 185 pounds, Smith 165.

New York, Oct. 19.—Pancha Villa, Philippine boxer who holds the American flyweight championship, will defend his title against Al Goldstein, New York flyweight, in a fifteen-round bout at Madison Square Garden on the night of November 18. Articles were sent yesterday.

Halifax, N. S., Oct. 19.—The Nova Scotia contingent bound to Gloucester races beginning on Saturday, left this morning in special cars attached to the Ocean Limited. Thirty people made up the party leaving Halifax and this number will be swelled by others who will board the train at Truro and other points.

Providence, R. I., Oct. 19.—The Colonial Line steamer Concord, New York to Providence, was on fire early this morning off Watch Hill. The passengers were transferred to the freighter Moberg and brought to Providence.

Wilmington, N. C., Oct. 19.—The Danish steamer Kronborg, bound for this port, is ashore on the Cape Fear Bar, at Southport.

The coast guard cutter Modoc and tugs have gone to the aid of the Kronborg, which is reported to be in no danger. The steamer is en route from Chile with a cargo of nitrate.

committee of the Unionist organization to hold an emergency meeting to consider the course of the party, because of the feeling that today's caucus, composed solely of the coalition members of the party in the House of Commons with such of the members of the House of Lords as were cabinet members, had no right to a sum to decide the future for the whole party.

London, Oct. 19.—In the by-election at Newport yesterday for members of the House of Commons the Conservative candidate, Clarry, polled 13,515 votes; the Laborite, Bowen, 11,425, and the Liberal, Moore, 8,841. The seat for the constituency was previously held by the coalition Liberal, L. Haston, who in the previous election polled 14,880, while the Laborite, Bowen, polled 10,224, and the independent candidate 647. In yesterday's election the coalition did not figure, as both Conservative and Liberal candidates were in the field.

Arthur Henderson, labor leader, said on the eve of the election that he would be disappointed if the party's candidate did not have a majority of 2,000 votes. The anti-coalition Tories, whose candidate received the majority which labor hoped to capture, now call the result as the emancipation of the Conservative party. The special correspondent of the Times, at Newport, however, says the result must be regarded largely as an electoral freak, the significance of which undoubtedly lies in the severe defeat of labor's expectations.

There were some heated scenes inside the club, because, although the Carlton is the headquarters of the Conservative party, only those Conservative members of the House of Commons who had supported the coalition, together with the members of the House of Lords who are members of the cabinet, were invited to today's meeting.

Lord Chaplin, who is eighty-one years of age, one of the oldest members of the House of Commons, had been lifted from his motor car, and he mounted the steps with the aid of two supporters.

With several members of the House of Commons not coalitionists, however, Premier Lloyd George, now in the upstairs in the clubhouse where the meeting was being held, retired on account of poor health, and the meeting was conducted by Chamberlain first speaker.

Austen Chamberlain, the government leader in the House of Commons, addressed the meeting first. Stanley Baldwin, president of the board of trade, who leads the Conservative members of the cabinet opposing Mr. Chamberlain, followed the latter.

After two or three lesser lights in the party had spoken, Andrew Bonar Law, who was the official party leader before he retired on account of poor health, took the floor. There had been much speculation as to whether he would participate in the debate, and predictions had been made that if he spoke he would try to reconcile the coalitionists and the anti-coalitionists and prevent a party split.

PURITY ICE CREAM

MAY NOT HAVE MUCH EFFECT ON ELECTIONS

Politicians Speculate on Re-lation of New U. S. Tariff to the Voters.

Washington, Oct. 19.—(By Canadian Press)—Indications are that the new tariff law will have little effect on the result of the elections next month.

Some of the democratic political chiefs are not without a belief that the "big protected interests" are taking care to hold in the reins on prices before the election and not permit them to increase until after the new Congress is chosen.

Shrewd observers of the situation look for the new tariff law to begin to have marked effects in the next few months. They look to see a steady upward tendency in prices in a number of lines of manufactured articles.

WARM WELCOME FOR WILHELMINA BY THE SWEDES

Stockholm, Sept. 28.—(A. P. by mail)—Queen Wilhelmina of the Netherlands, together with her prince consort and several members of her court has left for home after a visit of state to King Gustaf V and Queen Victoria of Sweden, the occasion being especially memorable as the first time in history that a Swedish king had met a ruler of the Netherlands in Stockholm.

Queen Wilhelmina was welcomed at the railway station by the entire Swedish royal family, including the king and queen, the crown prince, Princes Eugene, the king's brother, others present at the arrival were Premier Hjalmar Branting and the ranking officers in the army and navy.

DESERTION OF CHILDREN EXTRADITABLE OFFENSE

Ottawa, Oct. 19.—Wilful desertion or willful non-support of minor or dependent children has been added to the list of extraditable offenses as between the United States and Canada.

The addition was made as the result of a supplementary convention signed in London on May 15, 1922, by Hon. George Hervey, United States Ambassador to London, and Lord Curzon, British Secretary for Foreign Affairs.

By Order-in-Council passed on December 17, 1921, the Dominion government concurred in the signing of the convention.

COMMITTS SUICIDE BY ELECTRICITY

Youth Applies Electrodes, Then Pulls String That Turns on Current—Found Dead by Sisters.

New York, Oct. 19.—With an electrical device of his own contrivance hitched to the ordinary lighting current, George West, twenty-one years old, shocked himself to death in his home at Rutherford, N. J., on Sunday afternoon.

The youth was the mainstay of an orphan family of three—himself and his two sisters, Sophie and Margaret. His violent death has shocked the community in which the three had lived something of a family idyll in the little home they had built with the aid of a building and loan association.

TINY WOMAN KILLS BROKER IN HIS OFFICE

Had Refused Her Request to
Get Divorce from Wife

Homicide is Charged in New
York Tragedy—Woman
Overcome by News of the
Man's Death, Made Two
Attempts at Suicide.

New York, Oct. 18.—Mrs. Paulette Saludes, a tiny French woman, five times shot and fatally wounded Oscar M. Martellere, real estate and insurance broker, at his desk on the eighth floor of the Acta Building, 100 William street, on Monday afternoon, and was held without bail on a charge of homicide following his death in the Beekman street hospital. The young woman was deeply shocked when she was informed that the broker was dead. Repeatedly she expressed the desire to die and several times tried to escape from the grasp of detectives, who said she tried to hurl herself in front of a trolley car.

Arraigned before Magistrate W. Bruce Cobb in Homicide Court, she was held for a hearing. It was not until after her arraignment that Mrs. Saludes was told of the death of Martellere. She collapsed and had to be carried from the court room. She was convulsed with sobbing as she was taken from the prisoners' pen to the Tombs.

"He's dead now and I've got nothing to live for," she wailed. "He's never coming back. I'm sorry I did not kill myself."

The police learned that the husband of the prisoner, James Saludes, was probably still in France, where he went more than a year ago ostensibly on a business trip only a short time before the Saludes Lumber Company, of which he was president, was thrown into bankruptcy. When Mrs. Saludes was questioned by Richard Gonzales and Detective Barton Wilson of the Homicide Bureau, she asserted that she was happily married three years ago when she and her husband lived contentedly in their little home on Fourteenth street, Brooklyn.

Following her husband's departure for Europe, Mrs. Saludes charged that Martellere circulated false reports about him, which led her to believe that he was unfaithful. She also charged that the broker induced her to mortgage her home and to give him the proceeds of the loan on the house. During all these transactions she said Martellere was supported by her in every way possible.

Several months ago Martellere was in need of money, according to Mrs. Saludes' story. He induced her to sell her automobile and turn the proceeds over to him, with the promise that he would purchase her a better one when business improved. She also charged that the broker induced her to mortgage her home and to give him the proceeds of the loan on the house. During all these transactions she said Martellere was supported by her in every way possible.

Involved in what appeared to her a hopelessly tangled love affair, she entered Martellere's office Monday afternoon and pleaded briefly with the insurance broker to divorce his wife and marry her, although she, too, was married. Her husband had left her eight months ago, and only last Saturday Martellere's wife had cheerfully said she would not oppose a divorce.

REGRET TO SEE REV. MR. BONE GO

Resignation is Accepted at a Meeting of Central Baptist Congregation.

At a meeting of the congregation of the Central Baptist church, Leinster and Carman streets, last evening the resignation of the pastor, Rev. F. H. Bone, was regretfully accepted. It was in deference to Mr. Bone's wish that his resignation was unanimously accepted.

During his salutatory, Rev. Mr. Bone told his wife's failing health and her inability to assume any further sub-pastoral duties for a long time, and went into other matters of an intimate matter pertaining to church work and plans that assured his hearers of his desire to retire. The meeting was a spiritual leader, the only course to be taken was acceptance of the resignation.

YOUNG BABY KICKS ITS MOTHER TO DEATH

London, Oct. 19.—Kicked to death by her nine-month-old baby was the verdict of a coroner's inquest into the sudden death of Mrs. Gertrude Mabbitt of Norwich.

The young mother slept with the child, and other persons in the house frequently heard her exclaim, "Don't kick like that." The jury found death due to heart failure and exhaustion caused by peritonitis due to the kicks of the baby.

What Halifax Lost By Handing Hydro To Power Company

The following speech, which appeared in the Halifax daily papers of Thursday last week, will be of more than ordinary interest to the people of Nova Scotia and particularly the people of Halifax city and also the people of New Glasgow and other parts of Pictou county:

Montreal, Oct. 8.—For the month of August, gross earnings of the Nova Scotia Power and Light Company were \$100,143. Deducting operating expenses, \$70,748, and taxes, \$4,827, left net of \$24,568 available for bond interest. After bond interest and amortization charge, surplus for the month was \$2,209, which is in strong contrast to the figures for August, 1921, when there was a deficit of \$2,500. This betterment is largely accounted for by the reduction of operating expenses.

To the taxpayers of Halifax city the sting of this little joker, like that of the bumble bee, lies in its tail. This betterment is largely accounted for by the reduction of operating expenses. Quite so. And the "reduction of operating expenses" is due to the fact that the company now derives its power from the St. Margaret's Bay hydro-electric plant, which was built and paid for by the people of Nova Scotia at a cost of over two million dollars and virtually presented to the company to the detriment of the taxpayers of Halifax and to the best interests of the province generally.

The gross earnings of the company for the month of August were \$100,143. Out of this were paid \$70,748 for operating expenses, \$4,827 for taxes, Bond interest and other charges, Leaving a surplus for the month of \$2,209.

This, after all possible charges were met, And this against a deficit for the corresponding month of last year of \$2,500. A betterment over the same month of last year of \$4,709.

Certain newspapers recall the predictions which were made in the city council only a few months ago that St. Margaret's Bay hydro-electric system would never function; that the company was securing a white elephant and which, in the event of the city taking over the new system and operating it, would plunge the city into immediate bankruptcy.

Seven thousand dollars profit is not a bad showing for the month of August. That was one of the "daylight savings" months when people were not called upon to use electricity to any great extent. Daylight saving is calculated to cut into the company's receipts. And it does that. Every taxpayer knows his light bills are not heavy in August. Indeed, very little electric light is used in August. The September returns will still better for the company. The October returns will show still greater earnings. Indeed, each succeeding month until spring rolls around will show increased gains.

All this must be very gratifying to the shareholders. But what about the people who owned this money-making proposition, the hydro-electric development—the people who were robbed of the opportunity to secure cheaper light and cheaper power; who put their two million of cold dollars into the proposition only to see it snatched from their hands and handed over hokus hokus to the train manipulators?

In the development of this magnificent water power at St. Margaret's Bay the people of Halifax had a wonderful opportunity. The potentialities of this development cannot be computed in dollars and cents if handled in the interests of the community.

And all this was for the city of Halifax, for the benefit of the ratepayers, for the upbuilding of the city. Now it goes for the enrichment of a few and that few in Montreal and Boston mainly. There's a significance in that, a deep significance. Where the stock of this monopoly held by our own people are sting would not be so sore, but we get absolutely nothing out of it. Our part is to pay the very high charges and keep pleased—that is, as pleased as we can under the circumstances.

It is easy for every ratepayer in Halifax to see how a miserly city was betrayed. The first statement of the company under the new operating system only too plainly shows it. As hydro-electric development is proceeding in other parts of the province it gives well for the people interested to give this matter careful thought. They now know what was done to Halifax.

Will history repeat itself? Where will they ultimately get off?

Washington, Oct. 19.—(By Canadian Press)—President Harding's purpose now is to call congress back to Washington November 20. This is the information which has been given members of congress who have recently conferred with him. It has not been announced officially and there is as yet no certainty when official announcement will be made. Also, it is true that a number of leaders are still trying to induce the president not to call the extra session.

Ship subsidy will likely be before the House as soon as the extra session meets. The Senate will consider it in the regular session which opens in December.

While the House takes up subsidy, the Senate will consider the anti-lunching bill demanded by colored republicans voters. A number of other important measures will be pressed for passage this winter, including a general re-arranging of the existing law relating to railroad labor and the railroad labor board. The Harding administration wants to avoid an extra session next spring but the programme of proposed legislation of the first order is so long that it is by no means sure it can be avoided.

INSPECT NEW HOSPITAL WING
In company with the architect, F. Neil Brodie, the chairman of the board of commissioners of the General Public Hospital, M. E. Agar, and members of the board inspected the epidemic hospital, yesterday and noted the progress made in the building of the new wing and the remodeling of the main part.

General satisfaction was expressed at the improvements. The new wing is nearly completed and at the present time the painters and decorators are at work on the interior of the new portion. In the main part of the building painters are at work and there is still some mason work to be done in the basement. Mr. Agar said last night that it was expected that both the new wing and the main part of the building would be ready for occupancy by the first of next month. When the building is taken over and the contractors it will be modern and up-to-date in its arrangements and equipment and will be a great improvement on the former accommodation.

Gordon Clark and Edward L. Byron, carrying on business under the name of Clark & Byron at St. Andrews, have assigned under the bankruptcy act to the Canadian Credit Men's Trust Association, Ltd. The creditors will meet in St. John before the end of the month.

Refreshments were served under the able co-operation of Miss Barbour and Mrs. Geldart, assisted by an efficient committee.

The schooner Abbie S. Walker, which went ashore in the Kennebec River a few days ago, while bound from Portland for Hallowell with coal, after discharging was placed on railway at Boothbay Harbor for repairs, having damaged bottom and unhooked rudder; she has completed repairs and will proceed to St. John when weather permits.

Keep your skin clean, soft and smooth. This is the way to the clear, fresh complexion of youth. It is the Daggett & Ramsdell's Perfect Cold Cream that takes the complexion that every woman wants, by cleansing the pores and giving them the freedom that nature intended. EXPECTS CENSUS OF 12 MILLIONS WITHIN DECADE
Sir Lomer Gouin Sets This Goal for Liberal Regime—Glad of Women Voters.

"We are going to remain in power for ten years at Ottawa; at the end of that period there will be a census, and we cannot show a population of from twelve to thirteen millions in Canada and you will have ample reason to change the government, and we shall deserve to leave."

It was after first warning that he was about to commit an indiscretion that Sir Lomer Gouin made the above statement recently in an address before the Montreal Women's Liberal Club. Speaking of the role of woman in politics, Sir Lomer declared it to be the soothing element in the strife among men. "She should be the mediator and should watch out for wisdom and justice in everything."

He thanked the women for the fact that the Province of Quebec had declared itself unanimously in favor of the old Liberal party, and attributed that result in large part to their eloquence.

"What a Splendid Loaf"

THE housewife who uses Quaker Flour in all her baking is justly proud of her bread, cakes and pies—their feathery lightness, their delicious flavour, their perfect texture and colour.

She enjoys consistent success in her baking because every single sack of Quaker Flour is of uniform excellence. Each day's "milling" is tested in our own bakery, and proven to be up to the Quaker standard—a standard which is not maintained by any other flour.

The chemists and bakers at the Quaker Mills take the "chance" out of your baking if you use

WOULD SHUT BOYS FROM DANCE HALL.

By-Law Pertaining to Young Girls Should be Extended, Says Police Woman.

Sault Ste. Marie, Oct. 19.—The local by-law prohibiting girls under 18 years of age from attending public dance halls will be extended to youths under that age as well, if Miss Stark, the city policeman, has her way with the police commission.

The by-law should apply to boys as well as girls, said Miss Stark, who adds that she had received a complaint regarding boys being found in the halls. Miss Stark says it is perfectly ridiculous that young girls and boys under that age should frequent dance halls. They should be at home in bed by 9 o'clock, she declared, but it is difficult to do anything without the co-operation of the parents.

Considering the fact that boys, 15 years and under from the Sault, did men's jobs on the C. E. F., Miss Stark's move is being met with considerable opposition, and is likely to meet rough-siding before it becomes effective.

WOES OF PROFESSOR'S WIFE.

Working Girl is Affluent in Comparison, Says One.

Berkeley, Cal., Oct. 19.—The "poor working girl" has it "all over" a college professor in the matter of allowances made by employers for subsistence, according to Mrs. Dorothy Hart Bruce,

wife of H. L. Bruce of the Faculty of the University of California.

In a letter published in the university bulletin, a Faculty publication, Mrs. Bruce takes issue with the budget for household expenses for Faculty members recently announced by the Board of Regents.

Mrs. Bruce said that the professor's wife must "choose between childlessness or the anguish of humiliation of many years of debt and drudgery" if she expects to live on the salary of an instructor-husband. She said eight other wives of Faculty members agreed with her.

Mrs. Bruce said a budget issued recently by a San Francisco teacher of home economics stated that a working girl needed \$250 a year for clothes to appear well dressed. "That allowance," she declared, "would look big to a professor's wife, whose allowance for clothes is fixed at the pitiful figure of \$20."

In the opinion of Mrs. Bruce, \$350 a month is needed to provide the bare necessities for a Faculty member's family, if he has a wife and three children.

The Ladies' Auxiliary of the A. O. H. held its first meeting for the season last night in St. Peter's hall, 12th street, with Mrs. Buckley, the vice-president, in the chair, in the absence of Mrs. M. E. Finigan. The meeting was well attended and much enjoyed. The formation of plans for the winter activities was held over until the November meeting and arrangements were made for holding a social evening next week.

Rinso
No rubbing—no boiling.

Try Doing Next Week's Washing with Rinso

Find out for yourself why hundreds of thousands of women say that they could not face another wash day without it. The two easy steps below will save you hours of back-breaking rubbing.

First: For each tub of clothes dissolve a half a package of Rinso into a little cool water until it is like thick cream, then stir in two quarts of boiling water. If the water is hard, or the clothes extra dirty, use more Rinso.

Then, pour into tub—of cool or lukewarm water. Mix well. Keep adding the solution until you get a rich, lasting, soapy suds, even after the clothes

have been put in. Do not pour the Rinso direct from the package into the tub.

Soak the clothes for one hour, two hours, overnight, or as long as convenient. Then rinse to remove the loosened dirt, until the water runs clear. Hang them out to dry.

There's no rubbing—no boiling. Rinso is not a washing powder, but a scientific combination of pure cleansing materials that loosen and dissolve the dirt from even the heaviest pieces. It soaks clothes clean in a few hours without injury to a single fabric.

IF YOU USE A WASHING MACHINE Follow the regular directions given here. Soak the clothes. Then, before operating the machine, add fresh Rinso solution using the same amount of Rinso as you used for soaking. No other product is needed when Rinso is used.

HARD TIMES AT THE AZORES
Foreign Ships Reported to Have Deserted Because of Alleged Profiteering.

Lisbon, Sept. 22.—Living conditions in the Azores islands are very bad, and the outlook for the islanders is most gloomy, according to Jose Rebelo de Bettencourt, a journalist of the islands who has recently come to Lisbon. The chief cause of the trouble is that foreign ships have virtually given up pitting into the island ports for repair and supplies. Days and days pass at Ponta Delgada and Fayal, and no ships show up. And things ashore are going from bad to worse. The ships do not come principally because the local authorities have succumbed to the temptation of profiteering. Most has been, and is sold today to residents at one escudo a kilogram. But the town hall authorities have a monopoly in the sale of this commodity, and they have fixed the price to foreign ships at twenty escudos a kilogram. American and other captains have been instructed by the owners not to replenish at the Azores unless compelled to do so, and furthermore, these vessels now carry larger supplies of preserved meats. Hence they give the Azores a wide berth. The cost of living in the islands has advanced greatly. The regulation against the export of cattle has brought cattle breeders to poverty, and many farm tenants have been compelled to relinquish their holdings to the owners.

RADIO SAVES HIS LIFE AND THEN GETS HIS ARREST

Man Who was Rescued from City of Honolulu is Held for Theft of Army Funds.

San Francisco, Oct. 19.—Radio which saved the life of Leslie Dewey Atkinson last Thursday when the liner City of Honolulu burned at sea, turned against him and caused his arrest. Today he is in custody on the charge of leaving with army funds from the post exchange at Pearl Harbor, near Honolulu. Atkinson's experience was related in a copywright dispatch published by The San Francisco Chronicle today.

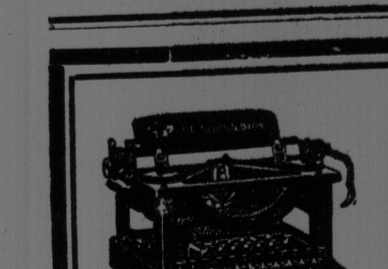

According to the account, Atkinson left Honolulu aboard the City of Honolulu, and when fate placed him on the rescue ship, the transport Thomas, marines identified him. Radio communications between the Thomas and army officers at Pearl Harbor resulted in the order for his arrest.

MORE BOOKS FOR PATIENTS

The Women's Hospital Aid recently gave a sectional bookcase to the General Public Hospital to serve as shelves for the books which have been presented for the patients' use from time to time. The bookcase has had a sad habit of becoming empty no matter how many books have been sent to fill it. There is always a big demand for the books and not all of them have been left in the hospital as was intended they should be. In order to stock up the "library" and have not only enough books to go round but a few more to rest on the shelves the Hospital Aid has arranged to have its next meeting a "book day" and is relying on its members to bring as many books as possible to present to the hospital. The Hospital Aid sends visitors to the hospital each week and is well informed as to the desires of the

FAIRVILLE BIBLE SOCIETY MEETS

The annual meeting of the Fairville branch of the Canadian Bible Society was held in the Fairville Baptist church last night, with Rev. C. T. Clark, the pastor, presiding. After devotional exercises, short addresses were given by Rev. W. M. Townsend, Rev. J. M. Rice and Rev. F. S. Porter, the secretary of the maritime province and Newfoundland branch of the society. The election of officers resulted as follows: President, A. O. Patriquin; vice-president, Daniel Campbell; secretary-treasurer, George Estey. The meeting was well attended. The Fairville branch of the society is a flourishing organization and one which has accomplished great things for the society.

to the strength of the currents either from the poles or the equator. At the point where these warm and cold currents meet a storm is in continual progress. The area is a few miles wide, but weather conditions far on either side of the polar front are influenced. Prof. Eckerold and other Norwegian scientists have been conducting experiments to ascertain whether they can tell in advance just where the polar front will be on a given day. They have been able to do this by gauging the swiftness of the polar current. When the polar current is strong it means that the polar front is being pushed to the south, and if it is not strong it is indicated that the polar front is falling back. The tests, which have covered a long period, have demonstrated with remarkable accuracy that this form of observation is desirable. What the Norwegians propose, and in this they are backed by British scientists, is that all nations which have territory in the vicinity of the Arctic Circle establish stations there to make daily reports by radio on weather conditions. This is to be used in making forecasts. The American Weather Bureau staff is interested in the proposal and ready to co-operate as far as possible. A request may be made of Congress to appropriate funds for maintenance of at least two far north stations. Enough seed to set out 50,000,000 trees was gathered by the U. S. forestry service in the summer of 1921.

HIT BY ENGINE, DRINKS AND DIES
Elderly Farmer Struck at Railway Crossing Makes Gallant Effort.

Bridgeburg, Oct. 19.—Phillip Kaobel, aged 65, prominent Bertie township farmer, died as the result of being struck by a light Canadian National engine. The unfortunate man was riding in a buggy when it was hit on the Grand Trunk crossing a mile east of Stevensville. Thrown some distance, he got up immediately and asked for a drink of water, declaring he was a little shaken up but all right. After partaking of a drink he climbed into a caboose which was provided to take him to his home near Stevensville and died a few moments later.

DEFENDS MODE OF TELLING DOMINIONS OF THE NEAR EAST

London, Oct. 18.—A Reuter despatch from Johannesburg, South Africa, says that Premier Smuts, replying to a charge made by the Nationalist leader, General Herriot, that in connection with the recent Near East crisis the British government had appealed to the dominions over the heads of their own governments, said he had no fault to find with the attitude of the British government. They were bound to notify the dominions what was going on, Premier Smuts said, and they did so in the most civil and polite way possible. The proposal is the outgrowth of a

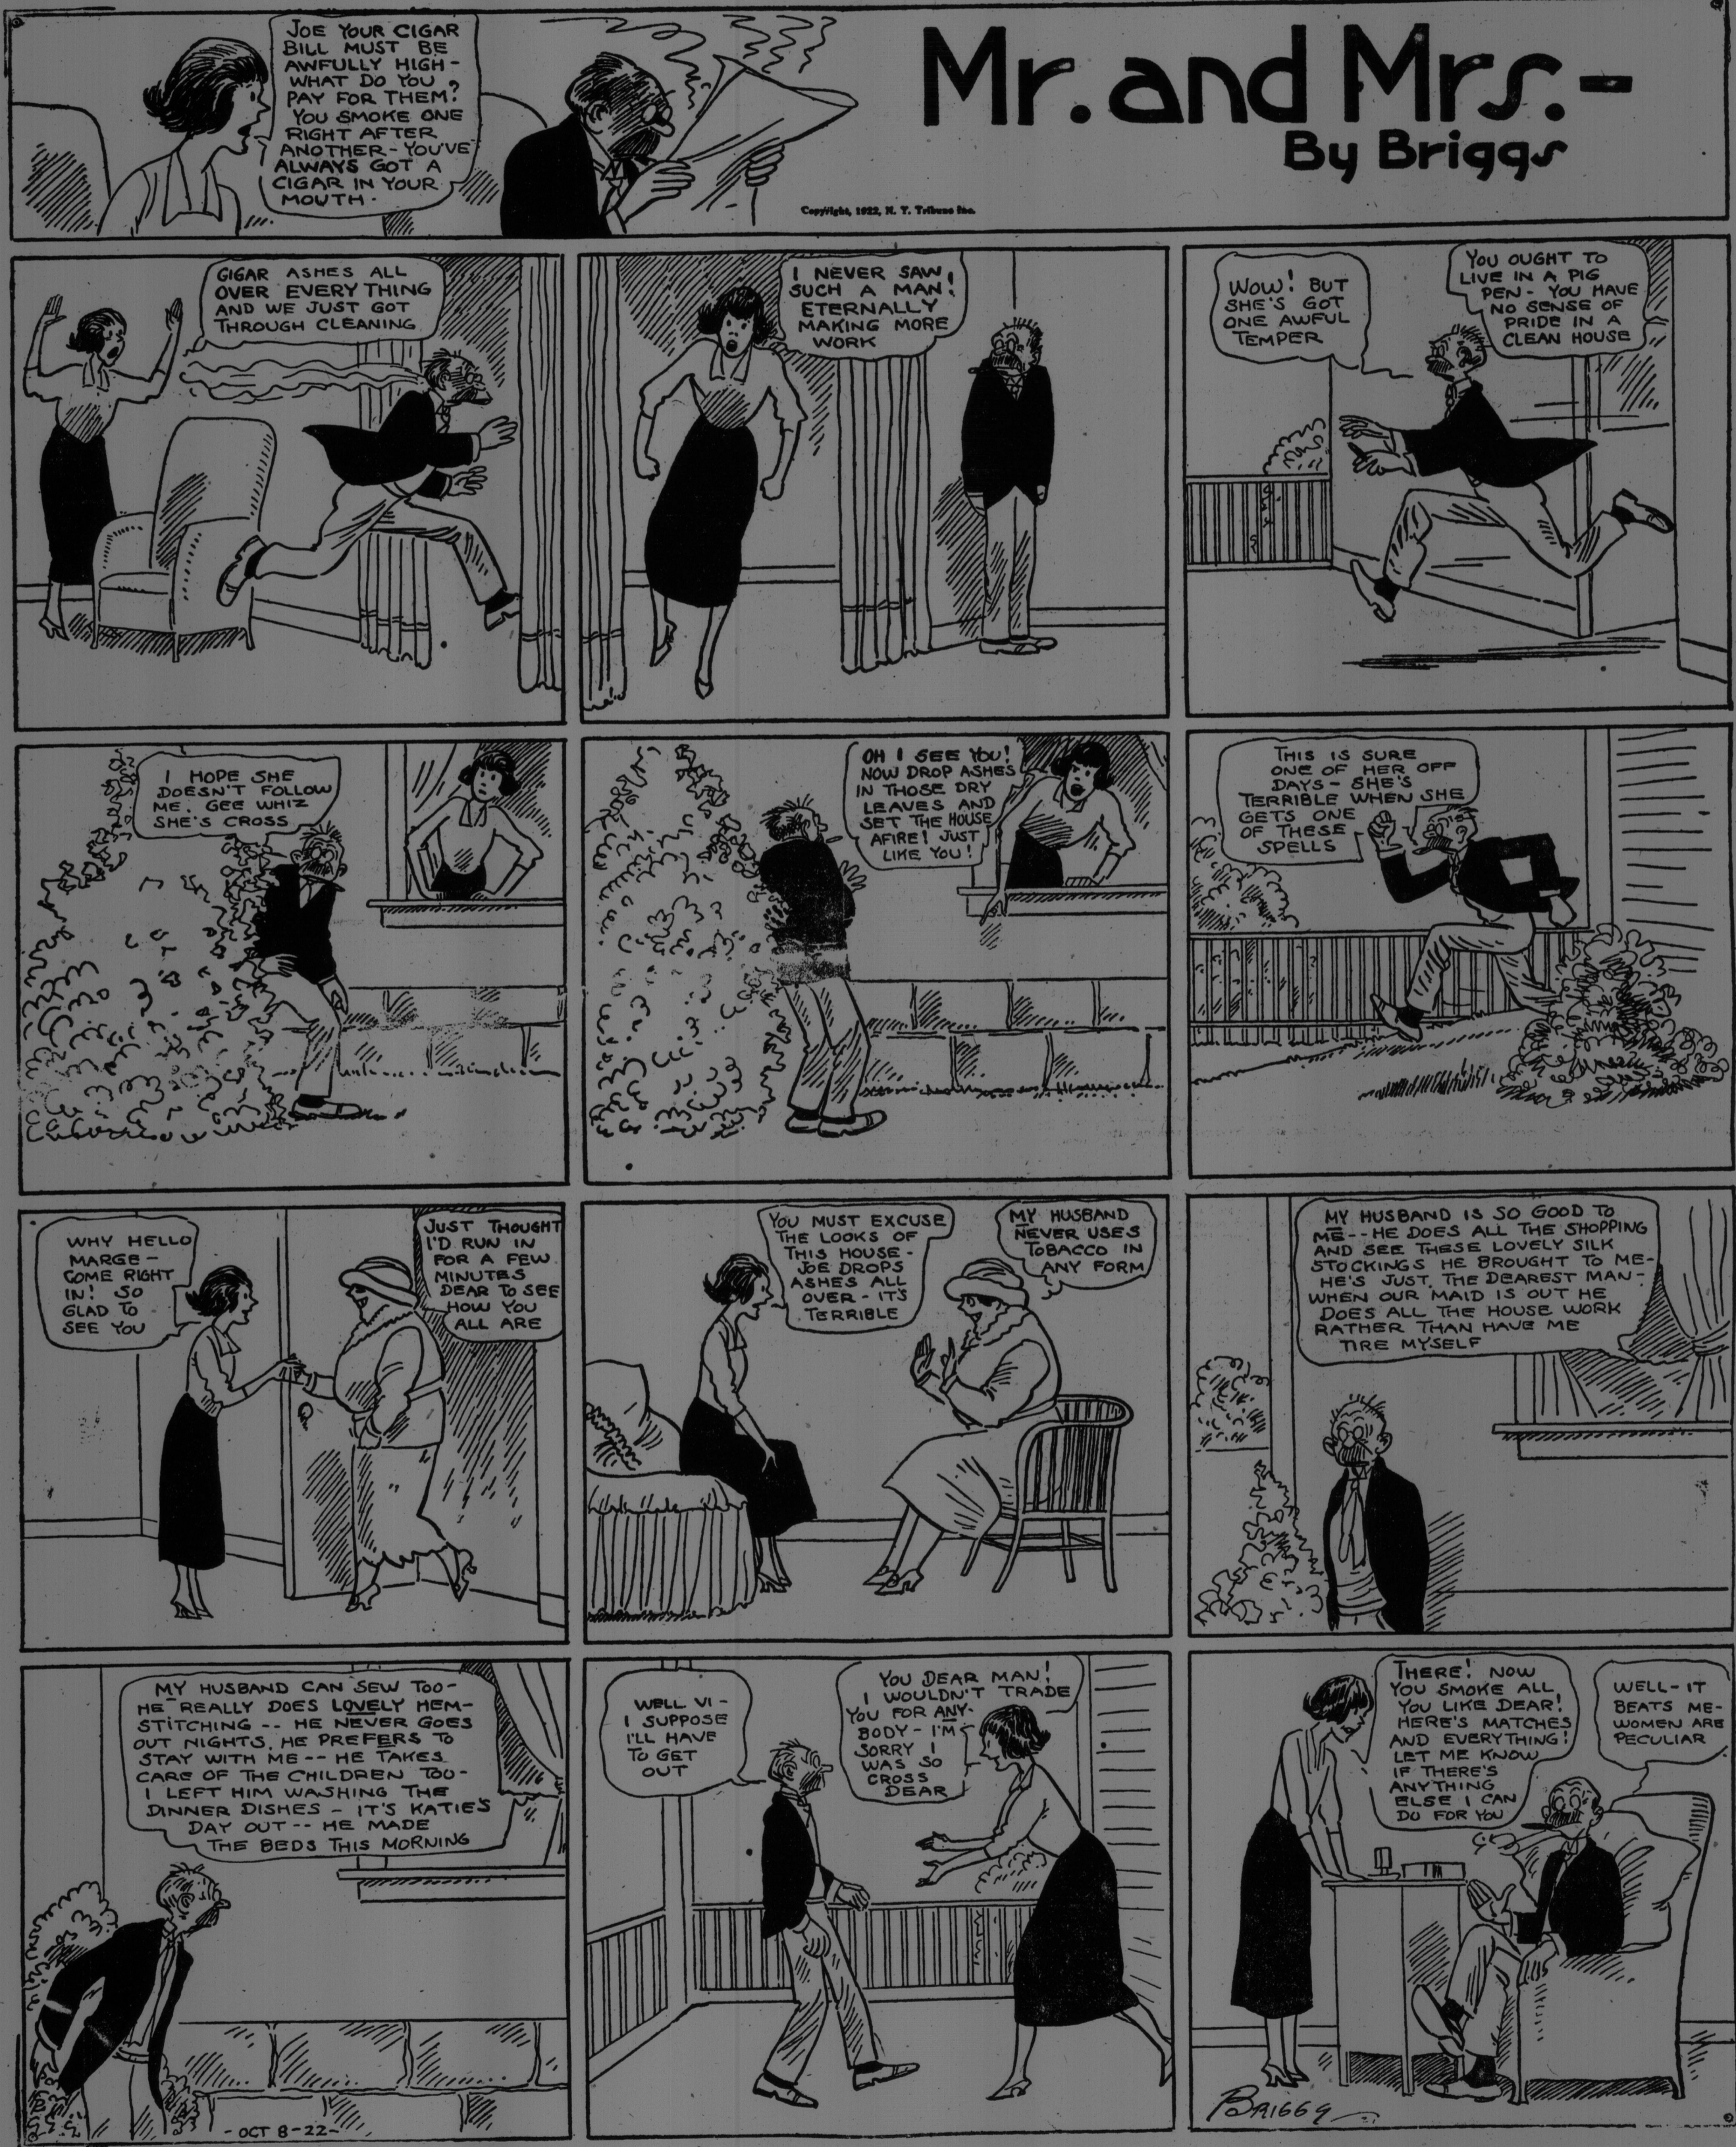

CHAIN OF WEATHER STATIONS IN ARCTIC CIRCLE PROJECTED

Proposal is Outgrowth of Theory of Forecasting Farthest North Front. Washington, D. C., Oct. 19.—Prof. Eckerold, one of the foremost weather experts of Norway, is in Washington interesting the United States Weather Bureau in an international project for the establishment of a chain of weather stations along the Arctic circle. Such stations, experts say, would increase the period for making accurate forecasts from one week to two; in other words, double the efficiency of the weather service.

Fur Trimmed SUITS
Greatly Underpriced
\$39.50 Formerly \$50 to \$65
\$55.00 Formerly \$65 to \$75
Fur trimmed suits that are truly representative of Autumn's most favored styles, at prices so much below their true worth that fortunate indeed will be those women who take early advantage of such an unusual opportunity.
Velours, Broadcloths, Suedenes
In beautiful shades of
Brown, Reindeer, Navy, Black
Fur lends a richness to these suits that nothing can duplicate, and many of them are further enriched with embroidery and unique style details. When you see the richness of these materials, the charming styles, snuggle into the fur collar, then realize the lowness of the price. You'll want one.

PITTSBURGH STEEL INCOME. Net for Fiscal Year \$361,833—Decrease in Total Sales. The annual report of the Pittsburgh Steel Company and subsidiary companies for the fiscal year ended June 30, 1922, shows net income of \$361,833.

CHICAGO GRAIN MARKET. Chicago, Oct. 19.—Opening.—Wheat No. 1-2, 114-1/4. May, 113. Corn, Dec. 85. May, 81-1/4.

THE DOLLAR. New York, Oct. 18.—Sterling exchange, 80.88. Great Britain, 48.7-8. France, 74.1; Italy, 4.20; Germany, 50.1.

DURANT CARS. Sir.—I noticed a Canadian Press dispatch, in your paper of Star and Sun, dated New York, and quoting the Wall Street Journal as forecasting a price cutting among the Durant motor cars.

PRICE OF STAPLE FOODS. AVERAGED \$10.28 A WEEK. Ottawa, Oct. 18.—The average cost of the weekly family budget of twenty staple foods was \$10.28 at the beginning of September, as compared with \$10.44 for August, \$11.82 for September, 1921, and \$7.84 for September, 1921.

A MONTREAL CHEMIST CLAIMS CANCER CURE. Montreal, Oct. 19.—Gordon Benson, a local analytical chemist, claims a discovery of a cure for cancer. His methods are now under observation at one of the principal hospitals.

300,000 TONS AWAIT DELIVERY. Besides stocks in the hands of some consumers, there is considerable tonnage of steel at mills, made on customers' orders, but unshipped on account of car shortage.

While there is no shortage in the amount of steel in existence, many buyers of steel, including both jobbers and manufacturing consumers, have not been receiving the heavy deliveries of steel which they contracted for.

As long as delivery premiums continue for forward delivery cannot be expected to decline, and indeed it is a question whether there will be a decline eventually, on account of the higher costs now ruling.

A 100,000-Ton Line Pipe Order. The United States Steel Corporation's unfilled obligations increased by 741,502 tons during September, against an increase of 179,844 tons in August and 602,769 tons in April, previously the highest month of the year in bookings.

The two merchant furnaces at Leoben, Ohio, will be producing pig iron again within a few days. One makes its coke at Leoben, the other in the Connelsville region.

Merchants Complain; Officials Get Busy and Smuggled Silk Seized

Buffalo, Oct. 19.—Canadian customs officials yesterday seized silk valued at between \$3,000 and \$4,000 while it was being landed from a launch on the shore of Lake Erie a mile west of Fort Erie. Three of the crew were held.

Canadian merchants recently complained to the authorities that they were unable to compete in the sale of certain classes of clothing because much of the material was smuggled into the country from the U. S. A closer watch of the border was promised.

FLOATING SPORT ARENA ON NEW CUNARD LINER

London, Oct. 19.—A floating sport arena, occupying 6,000 square feet, will be among the outstanding features of the new Cunard liner *Franconia*, which is to be launched on Saturday.

The arena, which is to occupy the whole width of one deck, is a feature never before introduced in any liner. It will include a boxing ring, swimming pool, bigger than that of the *Aquitania* and *Berengaria*, a squash racquet court and a complete "gym."

In the "gym" will be found all kinds of athletic appliances and electrical devices for therapeutic treatment. Skilled attendants will be employed and the most modern appliances, essential either to exercise or recreation, will be included.

PEDESTRIAN AND AUTOIST.

CUETT, PRABODY & CO. OF CANADA, LIMITED

BIG HOLE NOW IN THE EMPRESS

Bay Steamer will be Laid Up Until Early November — Thirty-one Plates Removed.

The work of repairing the damage done to the C. P. R. steamer *Empress* when she went aground on Black Point about three weeks ago, is proceeding steadily at the drydock in Halifax. A thorough examination was made of the steamer's hull and it was considered advisable to remove more plates than was expected at first. In all, a total of thirty-one plates have been removed from hull, leaving a hole twenty feet high and fifty feet long. The repair work, according to the latest reports from Halifax, will not be completed before the first week in November. It is expected that the *Empress* will be able to resume her regular run to Digby soon after she leaves the drydock.

RAILWAY RATES IN UNITED STATES

Revival of the Movement to Force Down the Charges.

Washington, Oct. 18.—(By Canadian Press)—Strong revival of the movement in Congress to overhaul the Cummins-Esch law, or the transportation act, so as to force down railroad rates, is promised.

The question has become one of the big issues of the political campaign in a number of states. It is predicted that there will be an increased number of men in Congress who will demand that the transportation act be changed so as to tend to bring about lower rates. While the new Congress will not enter office until next March 4, the agitation, especially among the farmers, for lower rates will have its effect on Congress the coming winter.

Senator Capper of Kansas, head of the farm bloc in the Senate, has declared rates must come down and that the farm bloc will seek legislation next winter. House farm bloc leaders say the same thing. Secretary of Agriculture Wallace is out for lower rates, although the Harding administration as a whole is not of that bent of mind. Col. Smith Brookhart will be the new senator from Iowa and he will take his seat soon after the November elections. He promises to be an insistent force for changes in the Cummins-Esch law as is Senator La Follette.

The fact the administration is expected to urge comprehensive railroad labor legislation as a sequence to the railroad strike, is recognized, will have a tendency to throw wide open the whole proposition of railroad legislation.

Under the Cummins-Esch law, the rates of the railroads are fixed by the Interstate Commerce Commission by groups or as a whole. Effect of the law, which requires a reasonable return, is that rates are largely fixed to meet the needs of the high cost roads. The farmers and most of the shippers hold the law works greatly to their disadvantage.

WASH KIDNEYS IF THEY HURT

Take Salts to Flush Kidneys if Back Pains You or Bladder Bothers.

Flush your kidneys with salts occasionally, says a noted authority, who tells us that too much meat and rich food may form uric acid, which almost paralyses the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges.

The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then set fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys; also to neutralize the acids in urine so it no longer irritates, thus often ending bladder weakness.

Jad Salts is inexpensive; cannot injure and makes a delightful effervescent lithia water drink.

PRISONER ASKED FOR LASH.
Thief and Drug Addict Sentenced at Toronto.

Toronto, Oct. 19.—"I have a wife and four children; if you send me to jail you punish them as well as myself; give me the lash and let me go."

This was the plea of Jos. Bennett, a young man, convicted of the theft of two automobile rugs, and also of having morphine in his possession, when County Magistrate Brunton was about to sentence him.

"You are a drug fiend," said the magistrate, "and the only way I can cure you is to put you where you cannot get the stuff." Thereupon he sentenced Bennett to Burwash reformatory for not less than three months and not more than nine months.

"The lash, the lash, give me the lash instead," cried the prisoner as he was led away.

Jo-Bel

THE WONDER SALVE Will Cure Anything Curable

(Registered)

Jo-Bel has given a greater percentage of relief to its users than any other remedy on the market. Read this: Mr. W. J. Crawford, 404 Union street, St. John, said: For thirty years I was a constant sufferer from piles, sometimes better, but always bad enough. Over a year ago I was confined to bed for two weeks. I began using Jo-Bel. I used two full boxes and have had perfect relief ever since. There's nothing can compare with it.

Sale all druggists, or Jos. A. Murdoch, 137 Orange street, St. John, N. B. Price 50 cents and \$1.00. Mail orders promptly filled.

How Long Should a Battery Last?

Under the same conditions and with the same care, is there a difference in the length of service you will get from different makes of batteries?

There certainly is; and you have a right to expect longer life from an Exide. Motorists who have used several kinds of batteries will tell you the Exide has unique lasting power. Examine an Exide and you will see that it is built to give the maximum combination of power and longevity.

Exide was the pioneer battery, not only in the automobile field, but in the entire storage-battery industry. Its reputation rests on performance, not on paper "guarantees."

The dependable, long-lasting power of an Exide is a matter of such real economy to you, that in buying a new car it will pay you to ascertain that it is Exide-equipped.

When you have to replace a worn-out battery, insist on an Exide. If you have any trouble in getting one, write us or our nearest district distributor.

SUGGESTIONS FOR USING SUBSTITUTES FOR AMERICAN ANTHRACITE IN ORDINARY HOUSE FURNACES

1. No change is necessary in furnace. Build the fire in the usual way.
 2. Open all the drafts and leave them open for about ten minutes. This is to allow the smoke and gases to pass out of the chimney.
 3. To get the best results in applying coal to the fire use a little less than in the case of Anthracite and apply coal often.
 4. After the coal has been burning for about ten minutes or long enough for the smoke and gases to have been expelled, close up all the drafts except the chimney draft, which should be left partially open.
 5. When refiring, first take a bar or poker and break up the crust of coal that forms on the top of a Bituminous coal fire, then apply fresh coal, following the rule already given for leaving drafts open. A handful or two of coarse salt scattered evenly over top of Bituminous coal freshly applied to fire will prevent formation of tar and other substances adhering to sides of furnace, it will form a gas thereby intensifying the heat and eliminating smoke.
 6. Bituminous coal will probably be in varying sizes and contains some slack. The lumps should be burned in the day time and the fire banked with smaller coal and slack at night, leaving a small opening at the top to let the air through.
 - When making the last fire at night shake out the fine ash that will be clogging the openings in the grate. Your grates will last far longer if kept clean.
 7. By throwing a moderate amount of water upon the Bituminous pile at the point from which the coal is taken out the dust and dirt objection is largely overcome, as well as reducing the amount of smoke when the coal is first thrown on the fire.
 8. In the morning, before opening the furnace door, the chimney and bottom drafts should be first opened.
 9. With Bituminous Coal more soot is formed in stoves, pipes, flues and chimneys than in case of Anthracite, and furnaces, furnace pipes and chimneys should be cleaned frequently. Hot water furnaces should be cleaned every day or so, and the furnace pipes every two or three weeks. Soot will not accumulate as quickly if a small quantity of zinc shavings are occasionally thrown into the fire.
 10. A mixture of big lumps of Bituminous coal with about an equal quantity of Anthracite pea coal, or with coke, will simplify the problem.
 11. Welsh Anthracite and Welsh Dry Coal and "Briquettes" should be fired in practically the same manner as Pennsylvania Anthracite. The small screenings should be fired on top of the larger coal when the fire is well headed.
 12. If Coke is used care must be taken to keep the ash pan free of ashes. If allowed to accumulate the grates may be burnt out. It is also good to keep a little water in the ash pan if light enough to hold it.
